This past week saw an ol' hand piped over the side, enroute to new duty in Korea, via Azusa, Compton, Kukamonga and San Francisco, for duty with the C.B.'s. If perchance any of you were in the vicinity of the double bottoms and heard a rending and ripping of wood a quick looksee would have shown HMC Wilkenson busy at work gathering up his personal plank, aided and abetted by the other members of the Pharmacy crew, offering such sage advice as how to dig a foxhole, namely, round, square and deeeeeeep. All hands are gonna miss "Wilkie" especially the CPO Mess, of which he was one of the founding fathers and guiding hands, so the King is dead, long live the King and good luck to you Chief Wilkenson, the APC's just ain't gonna seem the same.

Scuttlebutt has it that maybe the Chiefs will be able to view the World Series via television at the CPO Mess, minus splicing the main brace of course during working hours, well we can dream can't we? ...

Bingo as usual every Thursday evening in the main salon of the club from 2030 till 2230 with the Bingo Jackpot getting bigger and bigger, round and round the little ball goes and where it stops, nobody knows, maybe you'll win a pocketfull of Kopeks, who knows. Saw one of the Chiefs wearing a divers helmet to a Saturday night dance, someone told him they were going to dance "The Deep Sea Doodle" Ugh, what a pun, seriously tho our chiefs are therpechorian artists from away back capable of dancing anything from a "Horn-pipe" to Raucous Rumba. Music being furnished by the Four Sharps and A Flat, from the Navy School of Music. Fillet steaks are now being served Sundays at the club at the nominal sum of \$1.40, you couldn't get a meal like that at "Joe's Greasy Spoon" under \$3.00. A steak lua is scheduled for 29 September, bring your own O-koo-le-hau (Hawaian sailors take note.)

A new Soup Bar has been installed in the Bar with a large variety and stock of popular brands of soup, also a new television set with a 16" screen, just the thing for the "World Series."

Well, here we are. We're going to make an attempt at writing a column. This column will concern a very select group of sailors and sailorettes who are under instruction and who are also "poor-tential" lab. techs. We are going to attempt to acquaint you with members of this group and of their numerous escapades.

Here's one of our favorites, "Pappy" Parpart, who has recently entered the antique automobile business. By the way, "Pappy", how much did that "T" Ford set you back, or did the junk dealer pay you to haul it away?

Well, wherever you find Indians you are bound to find Chiefs, and we sure have them. Two of the best, Kennedy and LaTouche. Chief Kennedy is very adept at telling unusual sea stories, and has an interesting habit of chewing up old cigar butts in class. From what we hear, Chief LaTouche acquired his name, which is, fully, LaFayette Leon LaTouche, while serving as a bellhop in the French embassy—How about that, "Digger"?

Here's one for the books. One morning last week Pleasant, who has never been known to return from liberty before 0730, and certainly never before reveille, actually entered the barracks at the unheard-of hour of 0629! Maybe he got tired of looking at D.C. after dark.

What do you know about this? We have a couple of "Dillies" (Dental technicians) who are attempting to become Lab. techs. as well. McCabe, known as "the smiling Irishman", and Mr. Williamson—sorry Williams, that must be a typing error—we didn't have a thing to do with it.

"Selected Short Subjects" of interest: the current class honor man is Ching, followed closely by Gerlitz; Oddis is single—this is no fault of his own; Stradtman thinks Johnnie Walker is a new brand of ginger ale—he should find out about these things; Hurst has recently acquired a part-ownership of the Zephyr Cafe; Terry's favorite subject is Pathology.

The belief that Hagerstown is a brand of beer has been shattered. Robertson put us straight; Robison and Bartley think that the "Red Fox" is something Englishmen chase on horseback and shout "Tally-ho" at; Horrobin and Creely have joined Alcoholics Anonymous; "Jonesy" and "Sneaky Pete" like nothing better than mounting pathology slides till 0200 in the morning; finally, Kimmel and Stanton are overjoyed at the fact that Brooklyn is finally being admitted to the Union. They were getting tired of sleeping on Ellis Island.

Maybe after reading this, you don't think we have an unusual "collection" of specimens in Lab. 15. We are sure, however that you will change your minds when we tell you about students like E. S. Strout, who, when asked how he made such high marks in Chemistry, looked up for his racing form and said, "Lady Luck". Something "odds" about that.

Well, on this happy note we shall say "Thank you and good night". See you next time.

The word was just passed that liberty would commence in five minutes, so I'll have to get my little brown bag and prepare to abandon ship, and from the looks of the weather that's no joke, son. See you next issue.

NNMC Personalities

Dorothy E. Fleming

"Do you have 'The Fallacies of Humans'?" "I think you play the chimes beautifully.", are a few often said questions and statement heard by Dorothy E. Fleming, TE3, of the Center Command.

Dottie first became aware of her surroundings on July 11, 1925 in Cincinnati, Ohio. She attended Western Hills High School and while there she played on the girls softball team.

She enlisted in the Navy on January 3, 1949 in Cincinnati and received her Recruit Training at U. S.N.T.C. Great Lakes, Illinois. On March 3 of the same year she reported to the Telemans School at Norfolk, Virginia. From there she was ordered here and reported aboard in September 1949.

Since arriving here she has worked in the Western Union Office and the Post Office Directory Service. Then she was Night MAA of the Waves Barracks. After that she went to the Center Files where she is presently.

On the days she is off duty and not playing the Chimes and standing the Library watch, Dottie likes to read or knit. She also likes to play volleyball. "I like bowling too, but I'm not very good at it because I don't bowl very much."

Buses for Navy Games

(Continued from page 1)

front of the Main Navy Building one-half hour after the game.

Buses will debark passengers across the street from the stadium in Baltimore and will remain in that location until departure, one-half hour after the game. In College Park, buses will debark passengers in a special parking area near the stadium and will remain in that location one-half hour after the game.

Bus tickets will not be honored on other than these chartered buses. The round trip fare to the game at College Park is \$1.00 per person. The round trip fare to all games in Baltimore is \$1.50 per person. No refunds allowed after 4:30 P.M. the day before the game. Those officers, civilian personnel and enlisted personnel desiring passage on these buses for themselves and guests requested to fill out the coupon at the bottom of this page and forward it to either Room 1515, Main Navy Building, or Room G-816, Arlington Annex as soon as possible in order that arrangements can be made for chartering buses. Seating arrangements will be made on a "first come, first served" basis and those desiring seats together should so indicate on application below. Make Reservations Early. Reservation applications may be procured from Recreation Office.

Eugene R. Keller

One of the many jobs performed by Dental Technicians is laboratory work. One person doing such a job is Eugene Russell Keller, DT2 of the Oral Pathology Department of the Naval Dental School. Keller was born in Cushing, Oklahoma on June 14, 1928. Though he received most of his schooling in Indiana, he graduated from the Mesa High School, Arizona in May 1946.

The Naval Service beckoned and he enlisted on September 25, 1946 in Phoenix, Arizona. He received his "Boot" training in the "Land of Always Sunny Days", U.S.N.T. C. San Diego, California. Then followed Hospital Corps School at San Diego. Deciding to be an "Amalgam mixer", he received his Dental technician training in San Diego, California also.

In October 1947 he was sent to Headquarters, Twelfth Naval District for duty where he remained until September 1948. At this time he reported to the Naval Medical School here for a six months course of instruction in Clinical Laboratory Techniques and upon graduating in April 1949 he was ordered to Guantanamo Bay, Cuba for duty. From there he reported to the Naval Dental School on August 2 of this year.

"There is a lot to this job. We receive specimens from Naval Dental activities everywhere. Then we process them and mount them on slides for the doctors to make a diagnosis. It is interesting and I like it very much." For a hobby he likes motorcycles.

Navy Belles

By George

Hello. Are you surprised to have me back, and on such a beautiful day in Maryland? Nothing but rain around here. Poor girls, they hang out their clothes on Saturday and bring them in on Tuesday still wet. There shall be sunshine ahead my friends—honest. Soon be time to get our Blues out of moth-balls.

With the new T.V. set in the play room downstairs and a combination in the lounge, the music for the coming winter looks good.

Just Around Our House

In the spring a young girls love turns to fancy. In the fall they are still falling in the line. Love and changing their names, the newest bride is Joan "Jo" Hermann, who changed her name to Jo Taylor, and from what I hear Barbara, and Peggie plan to do the same very soon.

The happy faces you see around the Barracks these days belong to the girls of Physical Medicine, who have put away their books. No more tests to write. We are glad they are finished too because it takes the weight off our work load.

Sarah Woodward and Avis Barton are doing a term in sick bay. We hope they will be back with us soon.

The girls are all taking turns on seven days leave. Katie Glennding has the next week.

(Continued from page 5)

Dental Explorer

By Elli Karge

This column will be my song, folks. As much as I "to, I'm saying farewell to you. Really—it's been grand, and wouldn't have missed it for a world—now to one and all, off and enlisted, staff and student say "Thank you for everything."

Chit-chat from here and there

Sorry there was no explorer time, but as you knew—I was leave to Wisconsin and points, about, having a wonderful time even if it was too cold to do thing. Well at least it didn't rain it does in "some" state I mention. Speaking of weather have you ever seen the likes of. Instead of having that Saturday morning First Aid class, I saw a swimming course.

Fall must be in the air—the can be seen behind the bar most every night practicing football season which is just around the corner. Wasn't it a bit slip out there Thursday evening. Looked more like ice skating running from where I sat.

Welcome to this "big world" goes out to Janice Voogd all six and some pounds of. She arrived on the second of tember—her parents, Jack Trudie Voogd. Trudie is an anus of the Educational Office, Naval Dental School. Best of this and the next thing, Janice.

Two half inch stripes now on the shoulder boards of Drs. I and Newman. Good for you—Virginia Hermann came from her three day leave as Virginia Taylor. Congrats out to the new Mr. and Mrs. Taylor. Who'll be next? Come, now, don't be bashful!

Did you know they don't bar-rages in Boston? Only be Isn't that right, Irene? Den new member to the dance committee will give you the scoop. By way, Beck, are you still going to Boston for speech instruction. I'm afraid you're going to them now.

Dr. Kline, a former intern at the Dental School stopped in say "hello" the other day. swell seeing him again. Hope like his duty with the Marine Cherry Point, North Carolina.

Operative (fillings to you out ers) activities have ceased on Monday, Wednesday and Friday mornings since the doctors have been going downtown for their Cross Instructors course. G we'll just have to double your number of patients a day to make for it. You'd like that would you?

To Dr. Frates: Thank you, sir everything. Would have liked talk to you longer that afternoon but tears were too close on hand shall miss "depressing the ton blade," really I will.

Leave Department:

Annual — Campbell, Elgin kidding, that's his name)—how you manage to get thirty days, b Adams, "Red," a mere ten days and Penner, George II,—huh, seven.

Emergency—Tommie, Levant—we're all sorry to hear of your recent loss. Our sympathies to you and your wife's family.

Well this is the 3-0 mark for Again—I loved working with each and every one, and please give your new reporter, whoever may be the same wonderful cooperation as you have to your previous reporter. He can't help but be success—See "you all!"

Hard Work, Enthusiasm Makes Dance Success

The Dance Committee headed by HMC Burwell of Hospital Command did a "bang-up" job for the last Staff frolic. Much credit also goes to the artist who came up with those wonderful ideas for the farm scenes you see to the right of the gym: Jean Levy (Miss Herbert R. Levy) Rde Cross Gray Lady; Walter Ender, J. L. Keefer, and E. E. Snyder from NMS; N. J. Marbois and J. J. Pouska from NMRI.

Not Much Research Involved

By W. J. Marbois

An early morning mist, coupled with a deathly chill was pierced by the friendly voice of one Bruce Tillman. Of course you realize that the place was Barracks 142, the time was 0615, and I'm being extremely nice when I say that Tillman's voice was friendly, in reality it would have substituted nicely for a New England fog horn. As the light of the feeble 1-watt bulb struck these haunted eyes, I realized that today was the last day, the hour of doom was nigh, and I had not as yet gave birth to this epistle of blood, sweat and research.

If I were to go to my publisher and say "Well, no news it good news" - - - shades of the Inquisition.

Competitors beware, Research has a ball team, or if the grunting groaning, shouts and calls rising from the rear of the barracks after 1630 is any indication of a successful season in football, we shall indeed be way out in front.

It is my sad duty to report to you that one more winsome lad has taken the fateful step. Last week the crew of Radiation Tech., launched the ship of matrimony with Mr. and Mrs. Gismondi. The ceremony was executed with complete success, the launching skids were lubricated to a high degree of efficiency. The home port will be 4521 Standford St., Chevy Chase.

Some faces will be missing when this goes to press so lets all wish Chief DiCarlo and Parker HN good luck in their new duty stations.

Down In New Orleans

A New Orleans attorney, representing a Louisiana client, called at the Reconstruction Finance Corp. office in Washington in regard to a loan for his client. Upon being informed the loan would be granted if the title to the property was good and sufficient the lawyer returned home and after exhaustive work of some three months, he ran the title down to the year 1803 and sent a rather voluminous but accurate abstract of the title by mail to the RFC along with an application in proper form for the loan. Presently he received the following letter from RFC:

Dear Sir:

We received today your letter enclosing application for a loan for your client, supported by abstract of title. Let us compliment you on the able manner in which you have prepared and presented this application. Your abstract clearly demonstrated that you are not without ample experience in this line of your profession. We have observed, however, that you have not chained the title back of the year 1803 and before final approval can be accorded the application, it will be necessary that titles be chained back of this year.

The attorney perused the letter in utter disgust, profaned profusely, called his secretary and dictated the following letter to RFC:

Your letter regarding titles in case No. 198136 received. Note that you wish the title to extend further than presented. I was unaware that any educated man in the world failed to know that Louisiana was purchased from France in 1803. The title to the land was acquired by France by right of conquest from Spain. The land came into possession of Spain by right of discovery made in 1492 by a Spanish-Portuguese sailor named Christopher Columbus, who had been granted the privilege of seeking

(Continued to page 6)

Med School Scuttlebutt

By O. C. "Skip" Skinner

The marriage bug seems to have struck quite a few of our personnel lately. Two of the students in Lab 15 were married a short time ago. W. W. Wiitala HM 3 was wed to Betty Lou Seagroves HN (W) A. J. H. Blackenbricker HM3 also is among the list. Lab 14's own Roger Luko HM3 was married the 23rd to his high school sweetheart. Denny L. Sullivan HM2 "The mad Chemist" was married the 13th to Miss Lilly Pue of Bethesda. Best wishes are extended by all hands.

Seems the third deck is trying to keep the population going. Not long ago the Bruce Dietzes and the Charles Fergusons were the proud parents of baby boys. Recently C. L. Vanderveer and E. L. Bitely were seen pacing the decks in the wee hours of morning. It was the first for the Vanderveers, and the 4th for the Bitelys.

Med School red hot football squad has been working out recently with Moose Kovarick giving his squad tips on how to have a championship team. The line will average a mere 204 pounds. Most of this average compiled by center "Tiny" Schroer. The line will be composed of Kovarick, Grindell, Humes, Schroer, and Brown. The fast and tricky backfield will be composed of Myers, Dietz, and Palmer. This may be altered at any time, as the team has a large roster and all men are pushing hard for the starting lineup. Here's hoping Moose can get the championship with the all-star gridmen he has selected.

According to latest reports right off the wire one of the leading candidates for Med Schools "Lover boy" is none other than P. J. "Bobo" Brabant HM3.

Who is that famous third deck character who has been coming to work with charley-horses and nagging backaches??? The umpire of all umpires G. P. Everett HM1 who has really been doing a grand job of umpiring the intramural softball games. Here's thanking him for a job well done!!!

Everyone seems to be wondering why D. P. Decker has to have that early morning cup of coffee. It seems that there's a certain little blond that attracts this Don Juan into keeping regular musters at the coffee stand.

There have been few transfers since the last issue as only Vincent Kelly HN went aboard the USS Mountrail. Of course by next issue Lab 14 will be gone and Lab 16 will be here in their place.

Reporting aboard recently to the Optometry Department was Lt (jg) A. E. Mebeck.

NEWS SHORTS

(Continued from page 2)

The monthly meeting of the American Medical Technologists will be held on Friday, September 29 in Room 357 here.

On schedule is a very interesting talk by Cdr. Englefried, MC, USN entitled "The Importance of the Subgroups in Blood Transfusions".

The meeting is scheduled for 2030 and all members and their guests are invited to attend.

Of interest to all is the fact that air conditioning of the main auditorium is now complete and the cool air was turned on September 15.

Crew's Library:

New Books Of Interest

Better line up for some of the popular new titles arriving at CREW'S Library.

For instance, THE STORY OF ERNIE PYLE. Written by Ernie's close friend and former boss, Lee Miller, the story is simply and honestly told, partly through Pyle's letters to his friends, his bosses and his wife. We reach a new understanding of this world famous correspondent and columnist as we see the tragic side of his personal life relatively unknown until now.

In THE SPANISH GARDENER, A. J. Cronin introduces us to some memorable characters: Chiefly, Brande, American Consul in a small Spanish town; Nicholas, his frail and sensitive son, almost smothered by his father's jealous love; and, José, the gardener, healthy, friendly and gentle, who wins admiration from the son thereby arousing antagonism in the father.

The irrepressible Betty MacDonald has just put out ANYBODY CAN DO ANYTHING, in which we follow Betty's life story after she left the chicken ranch and went home with her babies. Betty's loyal and ingenious sister Mary thrust her in and out of dozens of jobs for which she was inexperienced and untrained. The spontaneity and humor of the gay, warm-hearted and affectionate Bard family add charm to the story.

The newest Frank Yerby title is FLOODTIDE, in which we watch Ross Perry in his efforts to climb from a shack under the hill to a porticoed mansion in the Natchez of the 1850's. His progress is inevitably tangled up with various love affairs and the story is set against "a panorama of the old slaveholding South".

Naval School Of Hospital Administration

By Ray W. Conrad

has long been recognized that are factors connected with the nursing profession which, though peculiar thereto, are none the less outstanding. Foremost of factors is the personal gratification of accomplishment which refers themselves refer to as "teaching for teaching's sake".

The Naval School of Hospital Administration has sent its enlisted members to the Naval School for instructors at Norfolk, Virginia, where they have been taught the accepted methods of teaching. Prepared, we feel that there is considerable personal gratification in sending our students into far reaches of the naval service for our teaching to guide them.

Recently, we were more than pleased to receive a communication from two graduates of the 11th class. In a letter dated 29 August 1950, speaking for LT Wm. EHEE, MSC, USN, and for self, LTJG Thos. G. FOWLER, USN, came that which was amount to an "SOS" for a replacement set of our notes. These were assigned duty to re-equip the USS BENEVOLENCE, a hospital ship, recently named and sunk in the channel to harbor at San Francisco, California. To give you some idea of relation, parts of Mr. Fowler's are quoted.

and I both lost every note every publication that we acquired at the school when the Benevolence went down—Our notes of inestimable value to us in connection with the activation of Benevolence. Because of the element involved—every man we came up against, and we were many, required a quick action. We can truthfully say that our notes held the key in every situation."

Well—this is a "pat on the back" amounts to the personal gratification received from "teaching for teaching's sake." This is no doubt sort of thing that the Secretary Navy, George Bancroft, was king of when he directed Commander Buchanan to establish a Naval School at Annapolis in 1845.

posts to which you and those associated with you will be called intended to be posts of labor, they will also be posts of the most usefulness and consideration.

Be not discouraged by many inconveniences and difficulties which you will certainly encounter. - - - "Joie" de vivre!

MY BELLES

(Continued from page 4)

This week "Hammy" Hamilton is going to ship over. Are you going to do this hitch with the Navy, Hammy?

Anna Cooper has been picking on "opper" Pringle and "Goodnight" because they won't behave in movies.

"Reggie" is making herself a bowl—no fruit.

The latest craze on first deck is sewing circle. Everyone is sewing these evenings.

Though I saw Nadine going off a long weekend. The "weekend" turned out to be only her case.

René Ramos came home from the other day with ink all over his face. Did you "Littlebit"?

It is now time to close shop and off, so I will see you around. Look for the girl from the "Maryland."

Tournaments Feature Fall Sports Program

Learn To Swim Better

Hello there! So you've come back for more. Well, you can't say I didn't warn you. Say, we're wasting a lot of time shooting the breeze here, and there's that cool, blue, water staring us in the face. Let's go.

Now, this business of swimming is one of the easiest things in the world "IF" we can only get ourselves to R-E-L-A-X. What a small word it is but how very important it can be sometimes. Nevertheless, more on that subject later. To a definite extent, relaxation in the water will come with experience, so don't place too much weight on the subject at the present moment.

Just as we must have co-ordination in tennis, football, bowling, and golf, so also swimming demands this same co-ordination, but to a higher degree. When we view a fellow swimmer turning his head from side to side, stroking at random, and propelling his or her legs in a jerky, uneven kick, we almost invariably have uneven progress, which is so opposite the steady, even, propulsion of a co-ordinated swimmer.

By co-ordination, we merely mean the combined effects of breathing, arm strokes, and leg strokes, all working together and in rhythm so as to give the least possible resistance to the water and thus save ourselves the ordeal of becoming fatigued much too quickly.

So remember, the next time you enter the water, try to use a slow, steady, graceful, co-ordinated swimming stroke as you tread your way to the end of the pool and back you'll feel the difference immediately.

New Orleans

(Continued from page 5)

ing a new route to India by the reigning Monarch, Queen Isabella. The good Queen, being a pious woman and careful about titles (almost as careful, I might say, as RFC) took the precaution of securing the blessing of His Holiness the Pope of Rome. Now the Pope, as you know, is the emissary of Jesus Christ, Who is the Son of God, and God, it is commonly accepted is the Person Who made the world. Therefore, I believe it is safe to assume that He made that part of the United States called Louisiana . . . and I hope to hell that you are satisfied.

Navy Gridiron Schedule for 1950

Sept.	30—Maryland
	21—Southern Cal.
Oct.	7—Northwestern**
	14—Princeton**
	21—Southern Cal.**
	28—Pennsylvania*
Nov.	4—Notre Dame**
	11—Tulane**
	18—Columbia*
Dec.	2—Army**

* Navy Favored to win.
** Navy may lose.

Ninth fairway and green

Pitching Stardust

I recall once reading a short story by Somerset Maugham entitled "Rain." If appearances speak for themselves, Mr. Maugham's background couldn't possibly have been anywhere near the rain infested area of—Washington, D.C.

With a weary eye keeping tab on all drifting rain clouds, the NNMC softball playoffs are about to be gin. Winners of the 1st round robin (NH and Lab. 14) and title leaders of the second round robin (Commissary and Med. Sch.) will play each other a series of 2 out of 3 games. Winners of these games will play each other for a number one and two spots, while the two losing teams will play out the 3rd and 4th spot positions.

Trophies will be awarded to the 1st two teams and miniature trophies of players mounted on a bakelite base, will be awarded the 15 members comprising the first two teams.

Doing a quick about face, we are happy to announce that entries are now being accepted for the singles and doubles championship "table tennis matches" which will probably be played in the main quarters around the 1st of October. Trophies will be awarded to the first four place men, and the number one and two "doubles" teams. Everyone has a chance; so sign up now.

N.P. has also begun arrangements for a top-notch football team; with Mercer getting the boys in line already. We're wondering if men like Messina, Kelly, Spitz, and Pinto, will be out there giving ring to the familiar phrase of "1st and 10."

Center Command has always been one of the outstanding teams to get out and practice "early in the Season;" but when the whole team goes out there to practice on "pay day nite"—pass the APC's mother, I feel faint!

We see where Bruce Talbot, after taking a bye on the softball season, has invaded the football gridiron. Holding down left end position for NMRI seems to be second nature for the old "trick ball" artist.

Laugh Awhile

By Armed Forces Press Service

Policeman: What's the idea of driving a car in your condition? You look as if you're drunk.

Driver: Mishen, lister, I only had tee martoonies, and I'm not under the influence of inkahel.

Cottage Capers

By C. J. Goebel

Whether you say it in French, "Venez a la dance," or Spanish, "¡Venga al baile!", or just plain good old American English,—it all means the same: "COME TO THE DANCE."

Where? The old Woodmont Country Club.

When? The 30th of September 1950

How much? \$1.00 per person.
What time? 9:00 P.M. to 12:00 P.M.

Why. To give YOU a real chance to get out and meet some swell friends and to dig your feet in tune with the captivating strains of Dick Sretton and his "dreamland five."

How about it? You like to dance? You like to meet people and have a swell time? Then you will be sure to enjoy the large social affair at the beautiful Woodmont club Ballroom (donated to the "Y" cottage purposely for this large dance activity).

The Woodmont Country Club is located directly across from our NNMC naval hospital, on Wisconsin Ave., making it within easy walking distance to every man on the base not owning a car.

This "Fall Formal Dance" has been arranged by the efforts of a large number of servicemen from the base who are interested only in making sure you have a good time. Men like K. Johnson, Duke Dauksha, Terry Melchi, Harry Bruntmyer, HMC M. Runkel, and many others have willingly donated their services to help make this affair a great success. Don't let them down! Buy your tickets now from one of the many representatives, or call Ext. 676 and I will promptly bring a ticket "to your door". Or, if you like, buy them at the door. But be sure and come—and bring a friend.

Come dressed in your new blue serge or give the girls a "treat" and wear that set of "Navy Blues." Refreshments, dancing, and—girls, girls, girls. See ya!

Some think I may peep I don't crive; but the drunker I stand here the longer I get!

Mother, teaching her little girl to gargle: Look, dear. Just throw your head back, and say "Ah."
Little girl: But, Mummy, I can't help swallowing, my throat hasn't any stopper.

Tennis, Golf, Touch, Tackle, Table Tennis and Softball Get Whirl

Softball—The hard fought softball tournament is in the finals and should be completed this week. Teams in the finals playoff NMS Commissary, NH and Lab. 14.

Tennis—The fall tennis tournament will get underway as soon in October as entries are made and the schedule published.

Touch Tackle—The touch tackle tournament is now being organized and should get underway the latter part of this week. There are six teams entered to date. More are desired.

Table Tennis—The table tennis tournament will be held in the Main Corpsmen quarters, Building 12 and should get underway about Friday.

Golf—Three tournaments are planned. The Admiral Swanson Trophy tourney is underway now with handicap rounds being played daily. This tournament is open to all golf card holders.

The Admiral Willcutts Trophy tournament, open to all NNMC golfers and the Captain Crawford Trophy tournament open to this years beginners only will follow shortly.

Contact the Recreation Office for information regarding any of the above tournaments. Make entries now.

Suburbanite: Is this your ball, Jimmy?

Jimmy: Have you got a broken window?

Suburbanite: No.

Jimmy: Sure, that's my ball all right.

Sports Highlights And Predictions

By O. C. "SKIP" SKINNER

The boxing world seems to most of the highlights in the few weeks. Sandy Saddler regains the lightweight crown from pion Willie Pep. Saddler finishing touches on Pep in eighth round of a scheduled rounder. These two are slated another of their rematches should prove to be another of great fight shows.

LAMOTTA STOPS DAUTHILL IN 15th ROUND

In a sensationally dramatic fight, Jake LaMotta, a badly beaten "Bronx Bull" kept his middleweight championship knocking out Laurent Dauthille of France September 13th. Dauthille was only 13 seconds remaining in the 15th and last round of fight. The knockout came at a time when it seemed virtually certain that a new champion about to be crowned. LaMotta came back after taking a severe beating. Dauthille, who had pointed LaMotta in a nontitle fight at Montreal in February, 1949, leading the champion on point the score sheets of all three officials, going into the 15th round LaMotta overcame this with a goring left hook that was downfall to the Frenchman.

LOUIS (AGE) vs. CHARLES (YOUTH)

The Louis-Charles fight is two days off at publication and the odds are not all tallied and is going to be one of the Heavyweight battles of all time pite youth against age.

Louis who is 36 is attempting to become the first Heavyweight champion ever to regain his crown relinquishing it, indicated that 60-odd exhibition matches since last title defense against Waler June of 1943 prevented him getting too far out of shape is confident, but he is also cautious. He says "I'm in better shape right now than I was in my fights with Billy Conn, Tami A. ello, or either of the two bouts with Jersey Joe Walcott." Who knows better than Joe himself?

On the other hand the 24 old Charles is fast youngster could wear Louis down just staying away for a few rounds. Although we must remember Charles is not in the best of shape as he has not fully recovered from the bruised heart muscle he received against Jersey Joe.

It is going to be a hard fight to pick a winner but for my part I believe that Louis will win his neutral corner when Charles taking the final count. It is to say which round will be the but I say it will be all over in the first round.

HIP, HIP HOORAY—Blonde and shapely Marilyn Monroe of Hollywood visited Leathernecks of the First Marine Division before they embarked for the Korean war area. So they dubbed her "Miss Morale of the Marine Corps."

16 OCTOBER 1950

NATIONAL NAVAL MEDICAL CENTER, BETHESDA, MD.

6, NO. 19

"Cindy" Most Photographed Lady In World

Mrs. Peggy Briggs and "Cindy"—her nickname for Cinderella—were patients on Ward 127 recently. Briggs, who has lost her sight, was admitted for alcohol addiction treatment for her eyes and body, her guide dog and constant companion accompanied her here. Cindy has been with Mrs. Briggs six years this Christmas. She came from the Guide Dogs for the Blind, Inc., San Francisco, Cal. Peggy Briggs says that Cindy is the most photographed four legged lady in the world. She has been on TV shows often and many feature stories have been written about her. Also, Cindy is a very cosmopolitan girl, having visited most of the large cities of our country.

is also used to all modes of travel including trains, cars, planes, even steamships. As she is a frequent visitor to stores, shops and movies, Cindy is a well known downtown.

There is one point Peggy would like to make: "Most people have a misconception that many guide dogs can read signal lights. They can't, they go by the traffic. The

(Continued on page three)

"Laec Est Vita" Each Is Life

If you took a gander at the pictures of the terrific traffic line-up by the daily papers after the Maryland-Navy football game, you would be discouraged from attending these games. However, due to the ingenuity of a Gen. Man, who has thoroughly studied the situation, traffic block-ups are out of mode. Bergman of the Barber Shop, says: "All ya gotta do is leave at the halftime!" It seems as though another known Centerman had his bit added to posterity the other day. All members of Center Command were lined up for shots after receiving his inoculation. Charles Stokes, our illustrious Master-at-Arms said: "This is free, Gimme more!"

Doctor Dyer Retires From Health Institute

Doctor Rolla E. Dyer relinquished the reins of directorship at the National Institutes of Health on 26 September to Doctor William H. Sebrell, preparatory to his retirement from the U.S. Public Health Service.

Doctor Dyer completed 34 years of active Public Health service on 1 October when his retirement became effective. During his long and eminent career in medical research and public health he has distinguished himself by his work with the rickettsial diseases, particularly typhus, and has made a great contribution to the general health of the nation.

Under his able direction the National Institutes of Health, located across the road from the Naval Medical Center, has grown since 1942 from a single institute, plus the many categorical laboratories, to six separate and distinct institutes, each engaged in a specific field of research. He has laid the groundwork for two others now in progress of implementation.

Doctor Dyer's family has resided on the Public Health grounds and will be truly missed as neighbors.

Visitors Come From England, Chile, Israel

Among the visitors to the Center recently was Dr. O. A. Trowell sponsored by the British Embassy. The Doctor visited the Research Institute to discuss tissue culture, lymphocytes and radiobiology. Dr. Walter Wilbrandt, Professor of Pharmacology, University of Bern, Switzerland, was also a visitor to the Research Institute.

Dr. Esteban Kemeny of Santiago, Chile, visited the dietetic service of the naval hospital here. The visit was sponsored by the State Department, Exchange of Foreign Persons program. Dr. L. Pollak, Chief of Laboratories, Bolivar Tuberculosis Sanatorium, Caracas, Venezuela, visited the hospital to note the general diagnostic procedures in use here.

The director, Israel Army Medical Services, Colonel Chaim Sheba visited the hospital recently. Colonel Sheba's specialty is tropical medicine.

LT R. A. Edlund Takes Command Of Commissary

The man who is now responsible to see that the patients and staff are well fed, and relief for Lt. W. W. Smith, is Lt. Raymond Arthur Edlund, MSC, USN, the hospital's new Commissary Officer.

Lt. Edlund hails from the "coal-country"—Pennsylvania. He graduated from high school in Sugar Grove, Pennsylvania. Then, as for many of us, the call of the sea, and he enlisted in the Naval Service on April 15, 1936 at Jamestown, New York, where he was then residing.

Lt. Edlund began his climb up the ladder and took his hospital corps training at the Hospital Corps School at San Diego, California, in September 1936. Upon graduation he went on duty in San Diego at the naval hospital.

Following his duty there, in August 1937 he went overseas and saw duty in China until May of 1938, when he did duty with the Marines for a year. In January 1941 he reported to the Philadelphia Naval Hospital. Upon completion of duty there he was assigned to the Marines in the North Atlantic, in Newfoundland and also temporary duty with many types of ships operating from the base there.

He made Chief Pharmacist Mate in 1942 and Warrant in April 1943. *(Continued on page three)*

News Shorts From The Editor's Desk

The Navy expects to have more than half a million men by next March, according to Vice Adm. J. W. Roper, Chief of Naval Personnel, in testimony before the Senate Appropriations Committee. The build-up will bring Navy strength to 67,514 officers and 512,291 enlisted men.

Commander Benjamin W. Oesterling, DC, USN of the Naval Dental School, National Naval Medical Center, Bethesda, Md. will present a clinic on "Partial Dentures" on October 18 and 19 before the Montreal Dental Club at the Drummond Medical Bldg., 1414 Drummond St., Montreal, Canada.

Washington (AFPS) — Service men and veterans who hold National Service Life Insurance policies can expect a second dividend on the anniversary dates of their policies in 1951, the Veterans Administration has announced.

Present plans for starting payment on January 1, 1951, may be disrupted, the V.A. said, if the Budget Bureau cuts back the \$4,800,000 requested by the Administration to cover administrative expenses of the dividend.

The amounts of the new dividend will not be announced before December, but the sum will be far below the \$2,800,000,000 refunded this year.

The Barber Shop is in full swing with all the chairs manned by able clippers. It should not be a half *(Continued on page two)*

"Tell It To The Marines" History

(AFPS) "Tell it to the Marines," a saying which has been connected with doubtful stories, owes its origin to flying fish, so the story goes.

Back in 1664, Charles II of England was strolling through his garden with the Secretary of the Admiralty. The conversation worked around to some flying fish seen in the southern latitudes. The King was doubtful.

He cornered his Marine Regiment Colonel and put the question squarely up to him. The Colonel, a much-traveled man for his years, verified the accounts of fish that fly. After which, His Majesty made this statement:

"From the very nature of their calling, no class of our subjects can have so wide a knowledge of seas and lands as the officers and men of our Royal Marine Regiment. Henceforth ere we cast doubt upon a tale that lacketh likelihood, we will first tell it to the Marines."

Another Korean Atrocity For The Records

On Ward 3C of the hospital there lies a testament of the brutality and crime of war.

Gary D. Wilcox, a twenty-year-old Pfc. of the U.S. Army was wounded on August 17 of this year on Hill 103.

"I was shot in the back of my left leg and a couple of buddies carried me fifty yards before they dropped me. Then the North Koreans came and found me. They stripped me of everything. Standing four feet above me they raked my body with a burp gun and left me for dead. This took place about 10 in the morning.

"Then approximately two hours

later five North Korean boys ranging in age from ten years to fifteen carrying ammo came by. They picked up some big stones and were going to stone me to death. But by the grace of God they didn't and left.

"I lay there all day until dark, when I crawled 800 to 900 yards to the bottom of the hill, bleeding from hands, face, and shoulder. It took me all night. The next day a couple of medics carried me to the aid station."

From the aid station he was evacuated to Tagueau. Then he was sent by plane to the port of Pusan where a British hospital ship took him to Japan. From Japan he was flown on a C-54, stopping at Guam, Kwajalein, Johnson Island and Honolulu, arriving in Fairfield, California on Labor Day. Then he was sent to Westover Field, Massachusetts, and arrived at the hospital here on September 6th. His many wounds are healing and he will recover.

Wilcox was born in Parksburg, West Virginia, where he graduated from high school. He entered the service on August 12, 1949.

The Chaplain's Corner

By Chaplain Arthur P. Finan

News Of The Week

The news of the past week was tragic, humorous, tearful, glad: as the news of next week will also be tragic, humorous, tearful, glad:

In Coffeyville, Kansas a six-month-old baby received a call from his draft board—In Cedar Rapids Ia., an elderly man lost his sixteenth wife via divorce. In Chicago, a speaker told the convention of the Beauty and Barber Supply Institute that hoarding had created an artificial shortage of hair pins—In Richland, Tenn. the fire station and the fire engine were destroyed by fire—In Linden, N. J. a clerk who had reported himself too sick to work was seen by his employer on a ball-game telecast—In Woonsocket, R. I. a judge on a divorce case decreed that the husband may return to his home one day each week for the purpose of taking a bath—

For the readers of the news who are moving in the direction of heaven, the complications of life are merely passing phenomena:—in heaven there are no complications. On the other hand for those who are moving in the direction of hell the complications of life are but miniature models of the colossal complications to come. Hell is complicated living raised to the highest conceivable degree.

Salt Shaker Sailor

Dear Bethesda,

I may feel a little sentimental tonight . . . but I can't help it.

This whole thing makes you wonder sometimes. The sea is so barren yet it claims the hearts of men, so much so that they never forget. Sometimes they leave the sea and go miles inland to work, but sometimes at night, in the great wheat country, or in the frozen north, or in the New England town, on just such a night as this . . . sometimes . . . the waves well in their hearts and they secretly want to return.

The universe can be a small thing at times and God can be very near. You sit on deck with a couple of your buddies and look out into the darkness . . . your buddies don't talk . . . and you don't. Down the way another group sends up a dull monologue of sound. You can't hear what they are saying but you know instinctively that they are talking about home. Up at the other end, the slow deliberate notes of a harmonica drift your way. They are at times sad and mystic, recalling more and more the great vastness, yet the nearness of your world. Below, the waves lap at the side of the ship with a swishing sound.

There are times, and many times all through life, that you go the length of every day without as much as noticing the sun rise, or sun set, the rare emerald quality of the grass, or the lucid clearness of a small rill. And there are other times when you meet only people, you see face and body, you see hair and eyes, but you don't see the magnificence of their mind, the lyric beauty of their speech, the liquid movement of their actions. Out at sea, where you are so far from these things, you learn to appreciate them, and you learn not to look at things but to look into them. Could that be the reason that an old sailor is invariably classed as a philosopher! . . . Whether he can quote from books or from life?

If you think me oversentimental tonight, please forgive a sailor who has just held the universe in his palm, and saw God from near.

Your Salt,
A. Sailor

Mama Gnu looked at Papa Gnu, then said shyly: "I've got gnus for you."

Maryland, N.C., Navy Tickets Now Available

Do you yen for a seat on the 50 yard line? Does a kick-off thrill you? If you're a football fiend, here's good news: The Red Cross recreation department has tickets for the following local football games: U. of Maryland, Georgetown, Navy, Redskins, and Baltimore Colts.

We can't promise you the 50 yard line deal, but if you're a patient and would be interested in seeing some of these games, here is how to obtain the complete information: Contact your Red Cross recreation worker or drop by room 102, the recreation office. The donors of the U. of Maryland tickets have requested that only servicemen attend these games, but any patient who has liberty may attend the others.

Here is the line-up:

Oct. 21—Maryland vs. N. C. State
Oct. 21—Navy vs. Southern California (in Baltimore)
Oct. 22—Redskins vs. Chicago Cardinals
Oct. 28—Georgetown vs. Villanova
Nov. 4—Maryland vs. George Washington
Nov. 5—Colts vs. Greenbay Packers (in Baltimore)
Nov. 11—Navy vs. Tulane (in Baltimore)
Nov. 12—Redskins vs. Eagles
Nov. 19—Colts vs. Giants (in Baltimore)
Nov. 25—Georgetown vs. George Washington
Nov. 26—Redskins vs. Colts
Dec. 2—Maryland vs. Va. Tech.
Dec. 3—Colts vs. Detroit (in Baltimore)
Dec. 10—Redskins vs. Browns

"Inspirational" Marks Duty For LTJG Griffin

A Navy nurse who is an amputee has been recalled to active service for a special "inspirational" duty assignment at the Navy Amputee Center, U.S. Naval Hospital, Oakland, California.

She is LTJG Sara J. Griffin, USN (Ret.), of 510 Florence Drive, Albany, Georgia. An injury to her left leg sustained in a fall while on duty at the Naval Operating Base, Guantanamo, Cuba, in 1947 resulted in amputation below the knee.

Miss Griffin volunteered for the special assignment, which will involve the rehabilitation of amputees at the Oakland center.

"It was felt that Miss Griffin could render a unique and valuable service to the Navy and to her country, and that her assignment to this duty would be an inspiration to amputees of the Armed Forces being rehabilitated at the Oakland hospital," Rear Admiral C. A. Swanson, Surgeon General of the Navy, said.

Miss Griffin, who has been temporarily assigned to the Naval Hospital, Bethesda, Maryland, before reporting to the Oakland center later this month, has actively followed her profession with the aid of an artificial limb since she was

Football Latest Feature In Fall Books

Now that we have finished the baseball season and all of the excitement of the World Series is over, we turn with great expectations to FOOTBALL.

A wacky yarn, just in time, is PROFESSOR FODORSKI, a politico-sporting romance of college football by Robert Lewis Taylor. A middle-aged professor, arriving in the U.S. with decided ideas about American customs, gets a job in the Engineering department of a football-mad technical school. Exposed to football, he becomes imbued with pigskin fervor and even tackles coaching.

LUCKMAN AT QUARTERBACK, by one of the gridiron's best loved stars, discusses football as a sport and as a career. We watch Luckman rise from obscurity to outstanding success as an athlete and go with him into the thick of major football games. FRANK LEAHY AND THE FIGHTING IRISH, by Arch Ward, and THE NOTRE DAME STORY by Francis Wallace are two other timely books of interest to all fans.

If your enthusiasm is not limited to the spectator angle, but lies in playing the game, you will want to read FOOTBALL LINE PLAY FOR PLAYERS AND COACHES, by B. F. Oakes. It discusses offensive and defensive plays, tackling, blocking and punting techniques, besides giving inside stories of the thrilling episodes and figures, legendary feats and fabulous plays of history making games.

placed on the physical retired list of the Navy in July, 1949. She has been serving as supervisor of central supply at Pheobe Putney Memorial Hospital, Albany, Ga.

Officials of the Bureau of Medicine and Surgery said that Miss Griffin would have been retained on active duty except for budgetary limitations in 1949 which dictated release to inactive duty of most retired officers.

Miss Griffin graduated from the Baptist Hospital School of Nursing, Birmingham, Alabama in 1943 and entered the Navy Nurse Corps in 1944. She has previously served on duty at Base Hospital No. 9 in Oran, Algeria and at Naval Hospitals in Portsmouth, Virginia; Bainbridge, Md.; and Guantanamo Bay, Cuba. She drove her automobile to Washington from her home and plans to drive to her new duty station. She is the first Navy nurse who is an amputee ever to serve on active duty.

Last Friday 58 men left amidst for other duty stations. This time some will be on the blue and others will be strung all over the United States. We all miss this class which achieved many honors while here. They were one of the most powerful basketball tourney as well as being this season's runnerup in Soccer. They were a well liked bunch who knew them.

The instructors were as pleased with their scholastic standing as could be expected. We know every man will do his share to his fellow man in any way possible. Wherever they may we know they will carry good commendations for the Center, whole, as well as for Med School.

They are not only brave but Lcdr Floyd's heart by leaving also many, many women in our city of Winchester, Virginia. A Lab 14 man ventured to this city to console lonely hearts, weekends with books under arms (for studying purposes) would pile in the available car to go to the quiet town of Winchester and study.

All kidding aside they will long remembered by everyone who knew them, so here's Hats off to a bunch of the grandest guys.

Cottage Capers

Latest headline news. "Brown Bomber Fails in Comeback." "U.N. Forces Advance Twelve Miles." "Y Cottage Plans Immense Fall Program."

Yes sir! With the coming of the cool, smart weather the old "Y" cottage is turning all its attention upon in-door activities rather than the outdoor pleasures which have been concentrated on during the summer months. I had better make myself clear on that last statement. We are not entirely ignoring the affairs of the great outdoors—by no means! We shall continue to enjoy hay ride parties, horseback riding, and even an occasional hike, but, with the setting in of Jack Frost and his merry accomplices, we drift more to the affairs of the cozy fireside nature.

I'd like to put in a word here pertaining to our Sunday activities at the club. If you just happen to sleep through Sunday morning how (due to any overexertion from the previous night) why, don't be a square; just part your hair.

Confucius said, "Isn't it a great pleasure to learn and relearn again?"

Confucius said, "The superior man develops upwards; the inferior man develops downward."

and make a bee-line for a healthy, stimulating breakfast at the cottage, between the hours of 9:00 and 10:30 a.m.

The afternoon rolls merrily by with the indulgence of one activity or another and we view the evening sunset with a meeting of all hungry, wished participants, generally meeting at the cottage for 1800 how call. Having two different meals each Sunday brings a new tantalizing menu each week.

Following this choice meal is a bit of entertainment "a la night-club" style. The after-supper program is the big surprise of the evening where one might expect to rub elbows with anyone from a psychologist to an old-ballad folk singer.

One might expect an evening of rest following such a large feed but "youth will have its fling" and a large number of us turn up the volume of our favorite dance bands and indulge in a little psychological dance therapy. The less energetic members of the audience usually indulge in a hot game of pinocle or canasta.

A little reminder might serve its usefulness at the present moment. Each Thursday has now been set aside as "Armed Forces Night" at the Cottage. All service personnel are invited, (they are welcome any day in the week) to indulge in a few of the latest dance steps or just top down for a cup of "joe." We've been having some good crowds—won't you join us?

Briefly, we shall go through a fast slowdown of fall activities for the month of October:

Activity Meet at Cottage
10th Fri. Bowling 7:00 p.m.
11th Sat. Hayride 7:00 p.m.
17th Fri. Roller Skating 7:00 p.m.
20th Sat. Costume Halloween Party 8:00 p.m.

Plan now to attend as many of these activities as your section will allow. You'll have a very good time, we know. So long, gang!

Personalities About The Center

T. M. Dias HN

The hospital command and working in the G. I. Clinic on Ward 5-A has become second nature to Thomas M. Dias, HN (soon to be HM3).

Dias was presented to the world on July 20, 1928 in McKeesport, Pennsylvania. He attended McKeesport Technical High School, where he took a college preparatory course. He participated in the intramural basketball and softball leagues of that city.

He entered the Naval Service on September 29, 1948 and received his "Boot" training at the Naval Center at Great Lakes, Illinois. On January 7, 1949 he began his training at the Hospital Corps School at Great Lakes, Illinois. He reported to the Hospital Command here April 27, 1949 and has been assigned to Ward 5-A and the G. I. Clinic since then.

Listed among his hobbies are

Business? It's quite simple. It's other people's money.

Alexander Dumas, the Younger

Great blunders are often made, like large ropes, of a multitude of fibers. —Victor Hugo

basketball and softball. But first on his list of favorites is dancing—and he is a jitterbug.

Tom plans on leaving the Navy next year to enter Medical School (circumstances permitting) and then he hopes to come back into the service for his internship.

LT. EDLUND

(Continued from page one)

Then came six months of schooling at the Naval School of Hospital Administration here from June to December of the same year. The year 1944 saw Lt. Edlund back at the Naval Hospital, San Diego, as Assistant Commissary Officer. The first part of 1945 he served as Commissary Officer at Norman, Oklahoma. The latter part of that year he served aboard the USS Rixey.

In 1946 he served as Commissary Officer of the hospital at St. Albans, New York, until May, when he reported to the naval hospital at San Diego as Commissary Officer. He served as Commissary Officer of that activity until September 20, 1950, when he reported here and assumed his present duties.

Lt. Edlund's off duty hobbies include gardening—shrubby, flowers, etc., and his favorite game—golf. Lt. and Mrs. Edlund and their three children, Barbara Jean, age 8; Raymond Arthur, Junior, age 5; and Marilyn, age 3, are now residing in Kensington, Maryland.

C. V. Cosgrave

A sophomore here at the Medical Center is Clara Virginia Cosgrave who is better known as "Bubbles". "The name doesn't stem from vaudeville," she says, "but from the character in Tillie the Toiler." The name has also proven quite embarrassing at times, according to Miss Cosgrave, who recalled a time when she was walking down a beach and turned when she heard a man calling, "Bubbles. Oh Bubbles." The man was calling a "little lap dog."

A life long inhabitant of this area, she attended Montgomery-Blair High School in Silver Spring where she placed the accent on education rather than extra activities. Although, she was a member of several clubs and typist on the school paper. While in the Commercial Club she did editorial work on a magazine entitled the "Silver Quill" which is composed and edited by the students. She graduated in 1949 and went to work for the Air Union Inc. in Bethesda for a month before coming here. She is now a clerk typist in the Civilian Personnel Office.

There is no excuse for "ignorance of the law" in her family for her father is a Corporal in the Montgomery County Police Force. "This affords plenty of protection," she says, "but I wonder if my father would give me a ticket if he caught me speeding." A novel situation indeed! Many people find it hard to live by the law, we wonder how it is to live with it.

Miss Cosgrave remembers with particular pleasure a two week trip she took to Florida with her Aunt and Uncle. They went mainly for fishing, but Uncle was the only lucky one with the fish—yet she still enjoyed the country.

Music holds a high spot of interest in her life and to develop this talent she has been studying voice for a year at the Lovejoy Studio. She sings with her church choir. On the other hand, she is an enthusiastic sport's spectator with baseball and basketball holding top notch positions.

American Banner

When God made the oyster, He guaranteed him absolute economic and social security. He built the oyster a house, a shell, to protect him from his enemies. When hungry, the oyster simply opens his shell and food rushes in for him.

But when God made the eagle, He said, "The blue sky is the limit. go build your own house," and the eagle built on the highest mountain crag, where storms threaten him every day. For food he flies through miles of rain, snow, and wind.

The eagle, not the oyster, is the emblem of America.

R. L. Pruitt HMI

Ralph L. Pruitt, HMI, of the Naval Hospital Command is a Marylander from Ocean City. He was born there and educated at Buckingham High School where he graduated in 1940. After school days were over he did general work for three years until he entered the Navy in 1943.

While at Buckingham High he was very active in sports, playing varsity baseball for three years and two years of varsity soccer. Soccer is a game little heard of now, and more predominant in England, but this and other Maryland schools have kept the rugged sport a major in their competitive activities. "Since I've been in the Navy," Pruitt states, "I have not had the opportunity to play much, favoring a quiet family life." He is married and has a daughter, Penny Lee, twenty-one months, and a son, James Greene, three months old. The Pruitts reside in Hyattsville, Maryland.

Ralph reported for recruit training at Bainbridge, Maryland and a subsequent tour at the Hospital Corps School there. "Boots" over, he was transferred to the USNAS at Norman Oklahoma for a short term before joining the FMF in December of 1943. Pruitt joined the Marines on their invasion of the Philippine Islands. He was attached to the 5th Amphib Corps, 11th Gun Battalion.

The invasion underway, his outfit was ordered to Guam where he left the Marines to go aboard the USS Piedmont, AD 17 in 1945. The ship operated around Japan and while aboard he played for the ship's baseball and football team. He served two subsequent tours of duty on "tin cans", the USS Collett, DD 730, and the USS Myles C. Fox, DD 829 before reporting to the Center in January 1948.

Since Pruitt's arrival he has worked on Wards 108 and 104 and in the Pharmacy where he is presently. He likes this type of work best. When asked about sea duty he said, "I'd like to go back to the destroyers because they have a small crew and you can get to know everyone."

CINDY . . .

(Continued from page one)

person must know where they are going in order to direct the dog. As time goes on, the dog comes to know places you frequent and go to regularly.

"Cindy and I enjoyed our stay here very much. There isn't enough thanks for the nurses, waves and corpsmen who were so kind and generous to us." Mrs. Briggs resides at 737 N. Nelson Street, Arlington, Virginia. Her husband is a Warrant Officer attached on duty at the Naval Communications Annex.

Chief Nichols Commended By U. S. Air Force

By Ray W. Conrad

There is an ancient Chinese proverb which tells us, "The diamond cannot be polished without friction, nor the man perfected without trials."

I think we'll all agree that the Berlin Airlift was a trying experience. For us here at home it was trying because of the brave misgivings we shared about such international gerrymandering. For those who actually participated in the operation it must have been an experience much like that of the flatterer Damocles when seated beneath the sword.

The Naval School of Hospital Administration is proud to list among its student body one who has contributed to the Berlin Airlift and thereby not only brought considerable credit upon himself but also by his apparent talent for good public relations, has brought equal credit upon the naval service.

On Friday, 22 September 1950, RADM Morton D. WILLCUTTS, MC, USN, presented to LaVerne E. NICHOLS, HMC, USN, the following citation and commendation ribbon with medal pendant on behalf of the United States Air Force:

'Chief Hospitalman LaVerne E. NICHOLS, 2999203, United States Navy, distinguished himself by

meritorious performance of duty from 15 Nov. 1948 to 18 March 1949 while serving as the leading Medical Chief of Air Transport Squadron Six, Rhein Main Air Base, Germany during the Berlin Airlift. Demonstrating outstanding initiative and leadership under trying conditions, Chief Nichols established and operated a 24 hour sick bay for United States Air Force and Navy personnel. His efforts contributed greatly to maintaining physical well-being among the personnel engaged in transporting supplies to blockaded Berlin. The achievements and persevering efforts of Chief Nichols reflect the highest credit upon himself and the United States Navy.'

Here again is an excellent example of that inherent quality we like to call leadership. This is an example of leadership in trying times. It is that everyday leadership which renders a man like Nichols so capable when the going gets tougher.

Nichols has been with aviation for several years. During the recent war he was with the Mobile Supply Service, Commander Service Squadron 4. Later he was with VR6, an Air Evacuation Squadron stationed on Guam for the evacuation of patients from the Orient. During 1945 and 1946, Nichols was a Pharmacist on duty at NSD Clearfield, Utah, and NAS Moffett Field, California. He came into the Hospital Corps from the deck force in 1940 while aboard the USS IDAHO.

Lab 15 Under Low Power

By MOE and GIZZ-MOE

Here's a note of interest to start things off—We have reason to believe that Breffitt is the soundest sleeper in Lab. 15. It takes almost five hours to arouse him even with an automobile horn blasting away outside the window. Ask Clar—she timed him!

The "Don Juan of the month" award goes to Cavaliere—his many admirers keep the phone lines to the barracks well-occupied. Sometimes while he's answering one, he has two or three others "on the hook." The girls around here must really go for Packards.

Of course, the second choice for this award will go to nobody else but R. H. Middleton, who is currently labled by "Rusty" Olsen as "God's gift to women." Our comment: —??

Here's cheers for eleven of our classmates who were recently rated third class. Nice going, Garland, Saidak, St. John, Troop, Bartley, Scheno, Holtman, Olsen, Cooper, Peterson, and Clar.

Congrats to "Coach" Robbins, whose chemistry team, the "Test Tube Ticklers", scored a 6-0 victory over the "Amoeboid All Stars" of parasitology.

The decisive blow was a 60 yard dash to pay dirt by quarterback "Legs" Robinson. After that it was a nip and tuck affair with neither team being able to tally again.

After the game, a victory rally was held at "Ye Olde Red Fox".

Facts and figures; "Fat Cat" Gerlitz traded his car for a can of beer; "Slide Rule" Kennedy makes adequate use of the blackboards in chemistry to practice his artistic (?) talents; "Muscles" Elder has recently completed a Charles Atlas course at the Rec. hall gym.

We do believe that, the combined heights of Louie Gaertner and "Tex" Mains almost equals five feet—unbelievable isn't it.

"Snookums" King, alias "T. V. Wiggles", is taking lessons from Arthur Murray; and finally, we hear that Hollywood is making a movie called "The Winchester Kid". We wonder if this could possibly concern the exploits of Myers and one of his "Ship Mates".

One night, not too long ago, several members of Lab. 15 ventured into D. C. to take part in the rough and ready sport of Roller Skating. Ever since then "Pete" (now know as "Peg-leg Pete") has been noticed limping around the classroom. Wha Hoppen, Pete, did Sotile's skating lessons backfire?

We could not bear to leave out our "favorette" St. John, he is still playing the organ and in addition "singing" lyric soprano here and there. We wonder what he did with the money he should have spent on singing lessons.

So-long and "good-nite"—You too, Irene!

NEWS SHORTS

(Continued from page two)

five nurses attending the classes: Lt. Ann Loban, Lt. Ruth Reed, Lt. Katherine Loparts, Lt. Bertha Burnstein and Ens. Barbara Hall. The course will have a three months duration and the graduates will be sent to other Naval Hospitals, making room for additional students.

Operation PU: What a little black animal with a white stripe down his back can do to the proboscis is recorded in the annals of the south wing of the hospital. It seems that two carpenters unearthed a skunk under the ice house next to the Civilian Treatment room and killed it. The skunk obligingly

emitted its characteristic odor, knocking everyone in a tizzy. Chief Lasko of the sanitation department obligingly disposed of the cause, but the smell just stayed and stayed.

Mayor Harley Knox of San Diego, California visited RADM Willcutts at the Center recently. RADM Willcutts conducted Mayor Knox on a tour of the Center.

Korean War Patients Make Calls Home

Korea seems far away to these men placing calls home. The men are casualties received here from the war area. Left to right, Pvt. O. R. Ford, Pvt. M. P. Broadwater and Cpl. T. Kendall.

Navy Belles

By George

Hello! and a happy October to you. This is the month of apples, pumpkin pies, Jack-o-lantern, and spooks.

Basketball season is here so watch the bulletin board for times and dates. We need the backing of everyone.

Do you girls like to bowl? We thought we would get a team for a little game—the second deck against the first deck. If you live on the second deck ask Lenora Hill; the first deck see me, "George" for the get together. The low man, the pin girl, not the pin up girl.

Just Around Our House

Congratulations to you girls making third class, think it is grand. In case you don't know where or how the rates go ask Rusty, she knows.

Did you notice a flaw in the chimes, Dorothy Fleming has been in sick bay. Glad to have her back again.

Marjory Burtin has been nursing a sick toe she got when the elevator ran over it. She would never make a door to door sales lady would she?

Talk about sea stories you should have heard the one Hammy told at her shipping over party! Now that she has almost finished school it looks as if she will be staying here for awhile, going to research to search for something.

Some say Sailors like to shop, some say they don't, but I saw a Sailor looking at hats with a Wave at a Silver Spring store.

P. S. She got the hat.

No weddings to report this time, but some of our friends have gone home to keep house and be little mothers. Among the girls to leave this past month were Ellie Stephens, June Moorhead, and Avis Barton. All of want to wish you the best of everything. Good luck gals.

Katie, back from a wonderful vacation, and now Jan Suchomski, has gone for a short one in Milwaukee. By the time you read this I will be gone too. I am going to Cumberland, the heart of Western Maryland, where Mountain water makes the difference. See you soon, as the girl from the heart of Maryland.

Not Much Research Involved

By N. J. MARBOIS

"The time has come the editor said, to talk of many things; of comings and goings, births and deaths, the little in-betweens."

Of comings and goings we have the arrival of CDR. R. B. Williams MC. Lt. A. B. Weathersby MSC, Ens. E. J. Wallace MSC, Schildwahter H.W. HM2, Ragland R. W. HM3, and Zimmerman R. W. HM3. Additions to the Steno Pool are Margie C. Maines, Gloria M. Seibert, and Betty Greeves. Welcome aboard people, here's hoping your tour of duty will be a pleasant one. Of goings we have the departure of Thomas, J. W. HMC and La Fontaine HM1. LaFontaine is off to Montezuma and Tripoli, while Chief Thomas is off to parts and places unknown, unknown for reasons best known to the Bureau of Medicine and Surgery.

As to births, we have the "any day now" expression (if you can penetrate the haze of cigarette smoke) on the face of Dan Hartlieb HM2 of Bacteriology. By the time we go to press there should be an anomalous amount of cigars in evidence.

Taps were sounded last Thursday, 28th of September for James Travis Waddell HM1, who died suddenly after a short illness. He was a good shipmate, he left a good many friends behind.

Congrats to Stalin HM2 of Duplication, who has tagged another

Four Army patients, all of whom are Korean War casualties, were given free telephone calls home recently. The calls were sponsored by the Baltimore Sun. The men were Pvt. M. P. Broadwater, who called Barton, Maryland; Pvt. O. R. Ford to Bradshaw, West Virginia; and Pfc Thomas Kendall to Morgantown, West Virginia.

When Pfc. Kendall was asked what he thought of this he said, "It's pretty nice of 'em." Kendall was struck just below the shoulder with shrapnel from a mortar. "The arm will be patched up soon and I guess I'll be back to active duty," he said.

There is a story of speed in Kendall's going to Korea and returning to America. He left the States on July 5 and landed at Pusan on July 23. He joined the 24th Division there and in two days was at the front. After a time of hard fighting a mortar shrapnel found him and in less than two months he was back again in the States, across country, and already thinking of active duty.

stripe onto his crow. Cigars will be in order as of the 16th of this month.

At this time your reporter has had no news of a sure fire method for picking the winners of the weekend classics, but it seems that Dr. Christian Weiss of Rad. Tech has evolved a method wherein even you too can say "Well at least I picked two right." All that is required is a pin and poorly lighted room. For further details please contact the above as your reporter has of this date been unable to master the technique.

Med School Scuttlebutt

By O. C. "Skip" Skinner

Many transfers and arrivals have been the main interest lately. Having the transfer list was our friend Carl L. Norris HM1 has been the MAA for the past months. Before taking the job, Norris was one of the working Print Shop crew. During his three years tour of duty, Norris made many friends and loss is a sorrow to the whole command. He will board the USS I after a few weeks of good old

Relieving Norris as MAA is W. J. Shaffer HM1 who is going over here after being MAA Bks 140. We are sure he will fine job.

Also transferring from the command were E. A. Hay HM1 to NH San Diego, E. E. Huff HMC to USS Haven, W. E. wards HM1 to Naval Dispensary Washington, R. H. Short HM1 Rec. Station, San Francisco, Fay HM2 to USNH Portsmouth and J. E. Larson HM1 to school at Camp Lejune where will instruct and prepare Ho. Corpomen for duty with the

Lab 16 has reported aboard around 100 students. Lab. 1 spread out all over the states ships at sea by this time.

A new Chemistry class has started hitting the books. T attending are J. A. Bova H. M. N. Nance DT2, M. S. F. HMC, S. V. Rhett HMC, D. Longstrom HM1, and T. E. S. enson HMC.

Lieutenant W. G. Thomas Patient Here From Korean War Area

1st Lieutenant William G. Thomas, Jr., Company A, 71st Heavy Tank Battalion, 1st Cavalry Division, U.S. Army is a patient at the hospital here.

He served with the occupation forces in Japan from July 1949 to July 1950. He was sent to Korea July 10 where he joined the 24th Division at Taejon as a tank platoon leader. A week later he was transferred to the 1st Cavalry Division at Yongdong. On August 15 at Waegwan, by hand grenade thrown into the tank turret, he received wounds extending over his legs, side and face. The most serious wounds were to his eyes.

Lt. Thomas was evacuated via ship to Osaka, Japan where he was hospitalized and then at Tokyo. He was transferred from there to the United States on September first to Wake Island, Honolulu, Fairchild-Suisan Air Force Base, California, Westover Field, Mass. and finally Bolling Field, Washington. He arrived at the hospital on September 6.

His wife, Rachael Jones Thomas, who has been with him in Japan six months, flew back from there a few days later and joined him. Then, on still a third plane, her dog, a 5 months old German Shepher puppy flew back and is now with Mrs. Thomas at her Bethesda treatment.

Lt. Thomas graduated with the Class of 1948 from the U. S. Military Academy at West Point. Mrs. Thomas graduated from Wellesley College, Wellesley, Mass. They were married in June 1948.

CHAMPIONSHIP—Mara Corday, on post after being named Miss Chiropractic Health Week, is the International Chiropractors' Association's beauty contest called attention to a free back-to-school health clinic for children. Result: This photo is labeled "For Children Only."

Dental Explorer

By L. P. Burger

Let's get the ball rolling and see what is going on around the "Tooth" department.

We see that Campbell and Adams came back from leave just in time to start first aid classes. Just for drill, of course.

All the boys are getting their hot-rods ready for the winter season now I notice. Wonder how Anderson's Ford will make out on three cylinders in cold weather?

Gene Keller took thirty days leave, shipping over that is. He looked pretty sharp on that new motor cycle. Also note Shell and that bright two-wheeler.

A lot of new faces appeared around here last week, as the new Dental Repair School class reported in. Among those new faces we see DTC's Smith and Gearhart, and Parton, Griffin, Arnott 2nd's, and Cook, Dn, who at the present time is on the sick-list. Hope he gets back on his feet again soon enough to get started with the class.

Looks like Beck, (Earl Carroll, that is) might get away from his favorite hangout, the Info Desk. And guess who the predecessor is? Why, yours truly, of course.

The boys are out giving their all to the football field now. Still going strong. Not even a broken finger. Keep your fingers crossed youse guys.

New romance is sprouting at quarters each morning. Chappie and Earl, you know. Also noticed Griff and Hope the other Night. That bug must be catching.

It is about time now to take muster on all of the pointmakers here. We have gotten to the place now that we have to make points with each other. Right—Diez, McCline and Campbell?

I better bail out here and now as how the looks of things Chief Stinson is pulling his hair out.

Wed

LTJG John Ward of the Naval Hospital was married to Dorothy Ann Bevis of Atlanta, Georgia on September 23 in the Protestant Chapel. Chaplain H. Grady Gatlin officiated at the quiet ceremony attended by families of both parties. Dr. R. Scott of Walter Reed was Best Man and Bridesmaid was the Bride's aunt, Miss Mary Bennett.

Learn To Swim Better

Cramp! One of the most dreaded words in the field of swimming! We have swimmers who indulge heavily in their art for the means of breaking distance and speed records; we have swimmers who are in the activity for the purpose of keeping in a state of physical condition; we have swimmers who enter the water, whether it be pool or ocean, merely once or twice a year. But, one thing in common with all groups, whether it be part-time swimmer or constant, is the ever-present danger of a cramp.

Isn't it amazing how we totally ignore the fact that not mere hundreds, but thousands of people die each year doing nothing more than indulging in a sport known to mankind for ages? Isn't it also amazing that these deaths continue even as we have the power in our hands of conquering these preventable misfortunes? Indeed then, a large aim of swimming instruction should be the relieving of sudden muscle cramps.

What causes cramps? This question might be answered by a direct but usually with a combination of various conditions. Just as a rise in temperature is a definite symptom of disease so also a cramp is a definite symptom. It might be caused by the swimming in extremely cold water, or, fatigue may be the determining factor resulting from terrific muscular activity, or, possibly overheating of the body before entry may be a significant cause.

But no matter what the cause, the important point we wish to get across is the PROPER treatment. Before any attempt is made to relieve the muscle spasm you must "relax." The pain associated with these experiences will usually bring the victim into a semi-floating position, which is ideal for relief. Another important factor is "Don't move the painful area," but, "Do stretch the muscle."

Example: If you should obtain a cramp in the calf of your leg, instantly go into a jelly fish float, knees against the chest, head in the water. Grab the toes of the injured leg and flex them up and toward the body. This extension must be continued until the tightness has left. Then, and then only, you can make your way slowly to shore, using the affected part as little as possible. Hot towels and plenty of rest should serve to complete treatment.

Cramps of the stomach and thigh will be discussed at future date.

SecNav Visits NNMC

The Honorable Francis P. Mathews, Secretary of the Navy visited the Center recently. The above picture shows the Secretary with RADM M. D. Willcutts, RADM C. A. Swanson, LTJG Hyatt and a patient

Letter From Local Boy Tells Of Korean War And Hardships

The following letter was received from Jack Levi (recently of the Hospital Command) by friends here in the hospital. If you remember the tall basketball player you will find a note of longing in it; if you did not know him you will realize what our men are going through.

22 September 1950
On the outskirts of Seoul

Dear All,

I started this letter in Japan but never seemed to be able to finish it—we were rushed out and put on an LST for the invasion of Inchon. Since we've landed we've been on the drive and up front until today when we were relieved and put in reserve for the day. I'm telling you, it feels good to be able to sit down, enjoy a cup of coffee and relieved of the thought of mortar fire and artillery fire falling on us. It's been rough, and more so now that we are about to take Seoul. I'll be glad when this dirty mess is over, believe me. It's about to get us all.—The Battalion I'm with was assigned to move along the main highway to Seoul and we met all the resistance the enemy had. We've had all the casualties and driven the furthest. Thank goodness I'm with the Marines. I've never seen such drive and firepower. I know now where they got their reputation.

Saw a tank battle the 2nd day on the front. Four enemy tanks ran smack into three of ours—the four were knocked out by the tanks and a bazooka and we didn't lose a one. After all the noise was over I thought I had a busted ear drum.

We've got a swell medical crew here, both doctors and men work as a team. Had a couple close calls when we went up front to pick up the wounded. It seems the retreating Reds leave snipers behind along with the mines they have along the road. Please excuse my penmanship. I'm not in a very stable writing position, sitting here in a foxhole.

I hope and pray that with the capture of Seoul this whole mess will end and there can be peace.

How is everything at Bethesda? Boy, I didn't realize how nice I had it there. Whew! when I think of the work, the wonderful people and peace and quiet I shudder, "Never more will I roam." Give everyone my regards and tell them I sure would like to hear from them. I sure could go for some mail, I haven't had any since we left Japan two weeks ago.

Saw Gen. MacArthur Sunday. He was up on the front with us—gave some silver stars out to a few Marine Officers. Looks like his pictures.

Right now we're about two miles from the outskirts of Seoul. The front lines are about a mile up. I hope by Sunday we can take the city. The Han River will be hard to cross because they have their men dug in. They say if we take Seoul we'll have them. I sure hope so.

Well all, I'll close here as I have run out of ink and the mail man is going into Inchon. So, hoping I hear from you soon—give everyone my regards and tell them to write.

Sincerely,

JACK LEVI, HM3, 992-65-34
H&S Co. 2nd Bn. 1st Marines (Med.)
1st Marine Division FMF
c/o FPO San Francisco, Calif.

NICHOLS

(Continued from page three)

To the thanks of the Air Force and the personal congratulations of RADM Willcutts, we add our "well done", for we believe, as did John Paul Jones, that meritorious service should never go unrewarded and it is incumbent upon all superiors to recognize and commend those who have expressed their know-how in a ready and capable way.

I must go down to the roaring sea,
Where the winds blow strong and
the wave's no she;
I must go down to the windy sea—
You're darn right I must—they're
sending me.

We hear that the weaker sex is often the stronger sex because of the weakness of the stronger sex for the weaker sex.

Predictions For Local Gridiron 1950 Season

Sport Scope

By J. C. Woods

Football "thrills and chills" has once more invaded the premises of the local gridiron with a highly enthusiastic count of 8 different commands participating in the intramural roundup.

Leading contender of the '50 season, will once more be paced by thrice crowned leaders—mighty Center Command. With a record of only one loss in the 1949 season, the aggressive team has developed a swift moving, systematic machine. This, along with the new leadership of George Funk, and the return of five letter men of the previous year, brings great promise of a "good season." Only shortcoming seems to be a below average amount of tonnage in the line.

The N. P. Squad is being formed around the nucleus of HM3 Mercer, who also coached the recent softball nine. Although a turnout of 22 men was reported, the lineup on paper seems to be stronger than actual facts. Due to the port and starboard watch section, regulars may not always be able to make each game.

NDS, the team which gave Center Command a 50-50 fight last season, has come up with another well equipped "varsity eight." Not much info has been received about this team but a safe bet for all teams concerned would be not to underestimate those "Dental Dukes." Two outstanding DTC's are in the line up, providing the old axiom, "One is never too old to play the game."

NMRI, starting up a new team is having all the difficulties of a newly organized group. Aided by one of the heaviest if not THE heaviest lines in the league, the loosely knit organization brings a prediction of many nip and tuck games with their opponents. It is a strong team and if proper defense can be worked out, it may turn out to be the "surprise ball club of the year."

Naval Hospital seems to be a hard shot to call. Lacking in experienced material may make the "all stars" a second rate team. However, Pete Stanley's continuous "vigor and vim" may fashion a fighting ball club from their branches of manpower.

The real "surprise package" of the year seems to be Lab. 15. With a hearty list of 27 players signed up, Manager HM2 Robbins is certainly going to make it known that his team is in the league. With a backfield composed of Fronko, Oddis, Cavaliere and Robinson, it wouldn't surprise me if the "white hats" would wind up near the top.

As the New York Yankees and the Philadelphia Phils prepared for the World Series, the Detroit Tigers and the you know who were overheard singing a duet entitled "Let's Get Lost." Although the Washington Senators never came closer than fifth place this year, it cannot be denied that they are playing much better baseball. By the time next season rolls around the Nats should have an air tight club and one hard to beat.

The highly regarded Washington Redskins have proven themselves to be a rather dismal eleven in these past few games. After a string of preseason victories the Skins seemed to have fallen off their pedestal of power. Both the Steelers and the Green Bay Packers were slated as underdogs and little threat this season, both defeated Washington. Notre Dame received quite a shock the other weekend when a hard fighting Tarheel eleven almost upset the Irish at South Bend. Many people cannot understand why the Carolina boys stopped running the ends in the final quarter when it was these same end runs that had the Ramblers running ragged. During the same week 43,000 filled the newly erected stadium at the University of Maryland to watch the Terps trounce Navy 35-21. It seems the Middies never quite got rolling until that fourth quarter when the game is just about over. All agree that from the stands it looked as though the only thing Zastrow threw efficiently was the game. Its a small wonder they call Baltimore the "City of Steps." The Colts have been sweeping the cellar steps ever since they entered pro football.

Here on the NNMC gridiron things are ready to roll with eight teams entered in the intramural competition. NP, Research and Center are expected to show quite a bit of power while no comment has been made on the Dental Dukes the "Dark Horse" of the League. In a recent practice tilt between X-ray and Lab. 15 the latter proved quite a threat via the air and won 12-0. The Center Command has lost no time in showing their ability as both ground and air attacks crumbled Research and NP. These were also practice games. The Black Knights of Building 112 had little trouble in capturing the crown last year with Dental as their only threat. This year it will be anybody's game. All these teams mentioned above have been practicing for quite some time now so it should be interesting to follow them. Intramural football schedules have been distributed throughout the compound, take it from three stitches of knowledge these games can really be rugged, and fun to watch, why not turn out and see the local boys in action.

Touch Football Time Again

Intramural football looms again as eight teams signed up for the league. Above is the NMRI squad which (as is plainly indicated) is trusting to its heavy line as a bulwark of strength and its fleet running backfield to carry them to victory.

Sport Highlights And Predictions

By O. C. Skinner

Rizzuto Star of Year

In my opinion the baseball player of the year was little Phil "Scooter" Rizzuto. He was the main cog in the Yankee lineup all season and batted a cool .324 as well as being the best fielding shortstop in the game today. He never missed a game all season and played with the usual bruises that would sideline most boys. He was the main thing that led the Yankees to the pennant and without him it might have been a different story. Phil has deserved this award for quite a few seasons and here's hoping he gets it this year.

Everything happens to everybody sooner or later if there is time enough. —George Bernard Shaw

Silence is the most perfect expression of scorn. —George Bernard Shaw

Graziano Stops Burton in 7th

Rocky Graziano, former world's Middleweight champion, gave Gene Burton a rugged one sided beating before putting him to sleep in the 7th round. It looked even better than the Graziano of yesterday. He was in superb condition. In the seventh he really put on the power and ended it all for Burton who had taken a beating and was probably willing to take the count. Who wouldn't be?

A CPO is the guy who cusses you out after the Navy swears you in.

Ships service is lovely place, If you want to believe this story, But when you're out of cigarettes, They're closed for inventory.

Pink elephant: A beast of bourbon.

Girl: "Am I the first girl you ever kissed?"

Sailor: "Now that you mention it, you do look familiar."

Coach's Corner

TABLE TENNIS

Keen interest is being generated in the Fall Table Tennis Tournament with entrants representing every command. 'Taps' Fords of Dental, whose eyes just about reach the top of the table is being boosted by the boys from Bldg. 122. A pair of Adler's elevator shoes were purchased by his shipmates for 'Taps's' use in the tourney. Rumor has it that Main Quarters is presenting a big time paddle wielder in the person of Ticatch. A recent addition to the Hospital Corps, Ticatch has appeared in Madison Square Garden in invitational tournaments. If height has anything to do with success, 'Down the Middle' York from Main Quarters who can be seen every evening on the practice tee with 'Coach' Frates, will win in a walk. A member of the local net squad, which took Quantico to town this summer is making his appearance in the tourney lists; if Mercer's forehand on the table is as good as his forehand on the asphalt, he will cause worry to many an opponent. Observers report that Slover, Gilman and Warren will dim the hopes of many who wish to gain the quarter-finals. Trophies for the tournament will be on display in the Recreation Building and will be presented by Rear Admiral Morton D. Willcuts to the top four players upon conclusion of the tournament.

BOWLING

Devotees of the maple alleys will have a chance to lay the bakelite against the pins sometime in November. Nine pins and Duck pins will be played. The number of teams from one command is unlimited. Team entries will consist of four players and an alternate. A deadline for entry is established as October 23rd, this is necessary in order to draw up the schedule and reserve the local alleys.

GOLF

This column wants to remind all you fellows who have taken golf up for the first time this year and who have taken advantage of the sponsored lessons from Recreation to enter your names in the "Beginners' Tournament." Each tournament entrant will receive on the starting tee, a brand new golf ball from Bill Downing, compliments of the Recreation Department. Call the Golf Shop, Extension 477 and place your name on the list so that the drawing for opponents can be held.

PITCHING
STAR DUST

The brief but impressive "table tennis" has been making a fine showing of its ever increasing popularity on the NNMC pound. This game, which was and raised in the merry land of England at the turn of the century has all but lost its constant popularity. This may very well be due to the fact that only a minimal amount of equipment is needed because of the ready accessibility of both sexes to enjoy the game. It may be noted that at one time women's skirts were changed in order that they might enjoy the ular game. Actually, women's fashions are apt to change at a moment's notice and the game of tennis merely served as a very convenient opportunity to do so.

Switching to the local table tennis champs of the base we are very fortunate in bringing the spotlight upon a very large group of "spin" artists. If you have followed the recent table tennis tournaments on the base you have seen such celebrities as: Bergman, (Barbershop); Duke (NDS); Bruce Talbot (RI); Cdr. King (NDS); Pugh (NMS); Harry Brun (NMRI); and DT3 Van (NMRI). Hate to admit it but "doubles" tournaments had canceled because of the fact such a small number of men sign up for it.

Rumor has it that the PRNC swimming meet might be held in the vicinity of local swimming pool. We break for the publicity angle could be accomplished. B member "Rumors are flying don't take my word for it."

The recent "Canadian clouds" seemed to be very determined to keep sports activities at a minimum. Viewing the course without players was seeing Cdr. Frates without moustache—utterly impossible.

Much as we all hate to say good-byes, we're extending them to Smiley and Pete Stanley. We have to look a long way finding a great hustler on the field like we had in "Pete." know these two "great" sailors make two "great" marines. Wiedersehen!

Mountain gal: "Paw's the rifle shot in these y'ar parts."

Sailor: "And what does that me?"

Mountain gal: "Mah fiancée."

Selectee: They can't make me.

Draft Board: Maybe not, but can take you where the fight is and let you use your own judgment.

HM3: "When your girl friend said she'd dig me up a date, brother she wasn't kidding."

1st. Commandment: "AND THE UMPIRE'S DECISION SHALL BE LIKE UNTO LAW."

OH YEAH?

YEAH!

Well if you put it that a-way

AFPS

Cpl. Henderson Enjoys Classics, Studies French

Before you ever approach Cpl. Henderson, USA, you would probably hear the moving strains of some symphony, for music is his interest. He likes the masters, and Beethoven is his preference, although he enjoys the others, too. His favorite is Beethoven's 5th and operas Carmen, Faust and Aida," Henderson states.

His love for music had its birth in high school, where he took violin and a course in music appreciation. It has followed through, and likes nothing better than to sit and talk music. Anyone interested would certainly find his viewpoints enlightening.

When asked why he moved his record player and records from the old to the little nook adjoining ward 105, he said, "I appreciate the fact that most of the men don't like a sort of music, so I move. But it's a 50-50 thing, for in moving I am able to be more quiet." Cpl. Henderson is also learning French from his records. In a sporadic

application of eight months, he has obtained a conversational degree and hopes eventually to speak fluently. "I am taking French," he explained, "to better understand many of the operas which are written in that language." When asked which he thought better, learning by record or book, he gave an emphatic answer, "By record, because the pronunciation is more clearly stated and by repetition you learn easily." Henderson is a patient here from the Korean War area. He was with the 24th Regiment, 25th Division in the Mason Sector when he was hit in the left forearm by a sniper. He was acting as a forward observer with a heavy mortar squad when he got it. He explains that as an observer goes along with the front lines while the mortar crew stays behind. When the observer sees enemy positions he telephones the position back to his squad, and they in turn start lobbing shells at the position.

This is not the first shooting war that Henderson has seen, for he was with the same Division in the invasion of Bougainville. He has been in the Army a total of eight years.

Chaplain Kerrigan, Chaplain Gatlin, RADM Willcutts, Miss Williams, and LT Binkley smile while Admiral cuts his 81st birthday cake.

T-13 Celebrates Adm. Taylor's 81st Birthday

Eighty-one year old Admiral Montgomery M. Taylor, USN (Ret) celebrated his birthday recently on Tower 13 of the hospital here. The party was arranged by the Red Cross.

The Admiral was born in Washington, D.C., on October 13, 1869 and graduated from Annapolis in 1890. He has seen duty in China in 1896 and on the Olympia at Manila. During the Philippine insurrection he was Commander of a gunboat there. World War I saw him in England. Then in 1933 he served as Commander-in-Chief, Naval Forces Far East. Admiral Taylor retired at the age of 64.

Just across the hall from him is an old shipmate who did sea duty on the same ship as the Admiral and after graduation from the Naval Academy they played football together.

When asked if there were any outstanding events in his naval career the Admiral said: "I live the usual life of a naval officer doing an ordinary job according to orders."

The reason for Henderson's position as an observer is for his training as a draftsman. He learned this trade at the Grigg School of Engineering in Chicago. This training was afforded him under the GI Bill. He later attended the Engineering School at Fort Belvoir, Virginia.

Henderson is a native of Chicago, but he is now living in D.C. with his wife whom he met here. They are living in the SE district of Washington.

Top Honor Conferred On RADM Willcutts

Rear Admiral Morton D. Willcutts, MC, USN, has received notice of his election as Surgeon General of the Military Order of the World Wars by the Order's National Convention held in Swampscott, Massachusetts, October 1-4, 1950.

Admiral Willcutts is completing the final chapter of his long and very active naval career. He has presided as Commanding Officer of this activity since July 1948. He plans to retire in the spring, and perhaps return to Indiana from which he originally entered the Medical Corps of the Navy in 1917, and the State he has always considered to his bona fide residence.

Whatever locality or field of endeavor that Admiral Willcutts may choose to direct his energies and talents toward, following his separation from the Navy, he may be counted on to spread his infectious enthusiasm with the same drive that has characterized his naval service.

He received his medical training at the University of Indiana Medical School, and his two sons were accepted there to begin their medical careers this fall.

Complete Course In Blood Bank

Graduation exercises for hospital corpsmen completing a two month course of instruction in Blood Bank were held by the Naval Medical School recently.

The officer-in-charge of the course is Commander J. J. Engel-fried, MSC, USN. The course of instruction consisted of administration and function of blood banks, procurement of donors, drawing blood, care of apparatus, blood typing and cross matching.

News Shorts From The Editor's Desk

RADM M. D. Willcutts, accompanied by Mrs. Willcutts motored to Boston recently to represent the Navy at the annual meeting of the Fellows of the American College of Surgeons. Admiral Willcutts is also a member of the Board of Governors of that organization.

Admiral Schendler visited Korean casualties here recently. He was representing the Commandant of the Potomac River Naval Command.

...

Honoring old friends who served with them in China during the hectic days of the Japanese conquest of North China, Admiral and Mrs. M. D. Willcutts entertained old China friends on October 21.

The Dinner Party was held in the Eagle Room of the Officer's Club. The party was inspired by the arrival of Professor and Mrs. Chester Frazier of Harvard University here as consultants to the Armed Forces Medical Library. The Fraziers were formerly attached to Pekin Union Medical College. Some of the guests present: Ambassador and Mrs. Nelson T. Johnson, retired after 30 years distinguished service in China, Vice Admiral and Mrs. Leland P. Lovette, RADM and Mrs. Joel T. Boone, and RADM and Mrs. Clarence J. Brown.

Visitors From Far and Near Are Seen Here

As the flame draws the moths, as the honey draws the flies, so too does the light of knowledge draw students, professors, doctors and men of learning. From far and wide many have come to the Center to watch, see and study methods, old and new that are being used for the betterment of mankind.

The Naval Dental School was visited recently by Dr. Med. Dent. E. Dolder, Professor, Dental Institute, University of Zurich, Switzerland, and Dr. Alfred Steiger, Specialist in Crown and Bridge Prosthodontics, Dental Supply Division of the Swiss Army, Zurich, Switzerland.

A member of the British Joint Staff Mission, Dr. Richard Truscove, was a visitor to the Research Institute. Also from England and a visitor to the Research Institute recently was Professor A. V. Hill, Biophysics Unit, University College, London, England.

The Naval Medical Research Institute also played host to T. P. Ting, of Fukien, China on a visit here recently.

Spooks, Witches Frolic In Gym Tomorrow Nite

Big doings tomorrow night at the Gym. It's the popular pastime of Centermen. Dance! Dance! Dance! This time you'll have a chance to be very original. The affair is to be a costume ball with prizes for the most original costume and most ludicrous. If you can't dig up a costume, come anyways, as a sailor or civilian.

The door will swing open on the witches, goblins, and gremlins at 2000 and by 2300 we hope that all the broom riding, night prowling goblins will have had enough. In keeping with the theme, cider will be served along with the usual copious amount of soft drinks. A buffet supper will highlight the stomach end of the dance.

There will be girls, girls, girls! At least a hundred eligible feminine partners are expected. Music will be furnished by the Navy Band. Don't forget, tomorrow at 2000 in the Recreation Gym.

CDR N. L. Barr Heads Aviation Div. At NMRI

By Maurine Gilchrist

CDR Norman L. Barr, MC, USN, formerly in charge of Special Activities Branch of the Division of Aviation Medicine in the Bureau of Medicine and Surgery, recently reported to NMRI where he is now Head of the Aviation Medicine Division, replacing Commander S. W. Eyer, MC, USN, who has been transferred to the Naval Hospital.

The only known officer in the military services qualified to wear FIVE PAIRS OF AVIATION WINGS, Dr. Barr is so deeply engrossed in his new activities and future program that it is difficult

The Chaplain's Corner

By Chaplain R. S. Sassaman

Someone has described the human heart as an arena where a hero and a coward wage a continuous conflict for mastery. Upon the outcome of the struggle between the hero in us and the coward in us hinges our self-respect, our usefulness, our happiness. It is no sham battle. None of us is so courageous but that he knows the meaning of the hot surge of emotion called fear. None of us is so yellow but that he longs to meet both fortune and disaster head up and unashamed. And because the struggle is both universal and life-long, with first one side of up and then the other victor, there are very few perfect heroes and no absolute cowards. Successful living pivots on the virtue called courage.

Many times, of course, we mistake ignorance for courage. A baby who plays with a rattlesnake is not courageous; he just does not know what rattlesnakes can do. If he escapes without injury he is not heroic; he is lucky. Frequently all of us come through fires unscathed, push out our chests to denote our bravery, when all we can accurately say is that we were lucky. It takes moral intellectual sensitivity to show courage. At the battle of Waterloo, the Duke of Wellington ordered two men to execute a very dangerous mission. One of them was a boisterous, swaggering bravado, and the other a fine-grained, highly-strung personality. The latter was nervous about the assignment and so his companion accused him of being afraid. He admitted his fear and started off on the mission while the brave man rode off to report to Wellington the other's fright. The general, seeing the coward ride off to do his duty, turned to the informer and said, "You had better hurry along or this coward will have the job done before you get there." There is a difference between a man who is a bully by nature and a man who refuses to be bullied by his nature. It is the latter man in whom we recognize real courage.

In the challenge of daily drudgery there is the summons for bravery too. The test of a man's temper is the way he faces up to the grind of routine. What a part in life routine plays! Some forms of it are duller than others, but in this highly-specialized age of ours all routine is drab-enough. It takes a courageous heart to make romance out of pasting labels on endless bottles or folding endless linens or making beds. Singing in the rain may call for optimism, but singing in the routine calls for downright courage. DO YOU HAVE IT?

Armistice Day

By MINNIE A. SMITH, HM3

The thundering tramp of marching feet
Overrides the din of the busy street
The Stars and Stripes float proud at the head
In honor of our heroic dead.

Flag of our Nation: An emblem thou,
To uplift and inspire all nations now;
This is far more than Armistice Day;
A sort of remembrance of those bound in clay.

Our hats come off as the Flag goes by.
Huzzas for the khaki rend the sky.
This flag we honor: For it represents
Our Nation's Dead. They sleep in tents—

In silent tents, on hillsides white.
The men who perished that Greed and Might
Should stand no more in Freedom's way.
Let's honor them all; for each one pray,

The resounding steps of the soldier host
Remind us that each has a duty post.
The pages of history should forever say
Our devotion to duty began this day.

Wed

Friday, October 13 was a day of good luck for Arthur G. Wallace, HM3 and Miss Lena E. Pucci. On that date, and to round off the thirteens, at 1300, in a simple ceremony held in the Catholic Chapel here they were joined together in marriage. The ceremony was officiated by Chaplain Donald R. Kerrigan and witnessed by Mrs. Gladys Nelson, Matron of Honor and Leslie Nelson, Best Man.

Wallace is attached to the Pathology Department of the Naval Medical School here. At present he is on 6 weeks TAD to Johns Hopkins taking a special course where he is learning to set up Treponema Immobilization test for future use here. Mrs. Wallace is from Takoma Park, Maryland.

News Shorts

(Continued from page one)

Commander James Crawford, MC, USN will attend the Ninth National Meeting of the Plastic Surgery Section, Mexican Physicians and the meeting of American Society of Plastic and Reconstructive Surgeons. These meetings will be held in Mexico City, Mexico.

Lt. George W. Hyatt, MC, USN, attended the Convention of American College of Surgeons held in Boston, Massachusetts, recently.

TAD orders were issued recently to the following: Captain F. P. Kreuz to attend the meeting of the International College of Surgeons, CDR T. A. Lesney to attend the meeting of the Society of Oral Surgeons, and LCDR D. E. Goldman in connection with Research and Development Board matters.

"Fighting Lady's Family," a new 16 mm film is now being distributed by the Navy. Narrated by Robert Taylor, movie star and former Naval officer, the film is a progress report of the postwar Navy up to the time of current expansion. It features many combat ships of Navy and Marine Corp units, plus closeups of new equipment developed during the past few years. The film is available through the Commandant of any Naval District.

Washington (AFPS) Enlisted members of the Organized and Inactive Naval Reserve with four or more dependents, who have been involuntarily recalled to active duty, may now apply for release from such duty or discharge.

RADM Hewlett Thebaud, Commandant of the First Naval District, said recently that requests from enlisted men are to be filed through channels and forwarded to the Bureau of Naval Personnel for appropriate action.

Dependency includes wife and children and parents. In the latter case, the parent must certify by affidavit that the Serviceman is providing for more than one half of his or her support. The deadline for filing applications is January 1, 1951.

Forty New Gray Ladies Being Trained Here

In training at this time is a new class of 40 Red Cross volunteer workers who will soon don the familiar garb of the Gray Lady. These ladies come to us from the community with a desire to be of service. Carefully selected for service in this hospital, they agree to spend one full day from 10 AM to 4 PM each week. Before they assume the duties of the various jobs assigned them they learn about the job and the hospital.

On October 11th Capt. R. M. Gillett opened their training with a welcoming speech and gave a description of the types of patients served in this hospital. He informed the new class of the importance of confidentiality in all questions concerning the hospital. Following this the Red Cross Field Director, Miss Davis oriented the group to the organization of Red Cross on this station. After a tour of the hospital, the afternoon was devoted to details of how to do some of the Gray Lady jobs. This session was conducted by the Gray Lady Chairman, Mrs. Kathryn Doyle.

On October 18th the class spent the morning listening to medical lectures by the Chiefs of Psychiatry, Surgery and Medicine while the afternoon was taken up again with class work on various Gray Lady services, such as shopping service for bed patients, library service, craft work, housing, recreation etc.

Two more full days of lectures and study precede the movement of the ladies into service. On October (Continued on page four)

Crew's Library:

Kon-Tiki Tale Of Pacific Adventure

Among the latest books at the Library, is KON-TIKI, by Thor Heyerdahl. This is the true story of a voyage of six Norwegian men across the Pacific on a wicker raft; one of the great feats of time. The raft looked like a Norwegian hayloft full of beamed and sunburned ruffians. Their adventures were both dangerous and amusing but between the storms and whales, sea monsters, flying and dolphins, there was no minute of boredom in all of the 101 days and 4,300 miles.

Just in time for the fall season, is another new book, STANDARD BOOK OF HUNTING AND SHOOTING, and abridgement of The Hunter's Encyclopedia. If you want to know how you can improve your techniques, bring a bigger bag of game or get a thrill out of your expeditions, this is the book for you. Its information is compact and reliable, each subject being presented with outstanding authority in that field. Another feature of the book is that it is very practical and that hunting is not just a man's sport; there is usually a choice between the more and the less expensive ways of doing it. With, for example, workable suggestions given for building your blinds or making your own decoys. If you are an armchair marksman you will still find the book interesting and will share the "joy of the chase."

RADM Joel T. Boone Speaks Of His Recent Korean Inspection

RADM Joel T. Boone, MC, USN, Inspector General of the Naval Medical Department, delivered a address in the NNMC Auditorium last week following an extensive inspection tour of our outlying hospitals and battlefields of Korea.

Speaking to a packed audience, the Admiral gave a most interesting and vivid battle report of conditions in Korea. He particularly praised the performance of the Medical Department and Hospital Corps personnel in action and stated that the well equipped and ably trained Medical Department activities both ashore and afloat in the Korean War area was a tribute to the far sighted planning done by the Director of Medical Services for the Armed Forces (Meiling) and the Surgeon General of the Navy (RADM Swanson).

RADM M. D. Willcutts, CC, MC introducing RADM Boone, said, "I would like to stress a personal age and hearty salute, a very threshold of retirement. RADM Boone flies the vast Pacific and I assure you, in a very ageous manner. Ladies and Gentlemen, I give you Young Admiral Boone."

Commander Frank Frates of the Naval Dental School will be the luncheon speaker before the American Dental Assistants Association on Monday, October 30th and the dinner speaker before The American Dental Hygienist Association Monday evening, October 30th at Atlantic City, N. J.

Lt. George W. Hyatt, MC, USN, attended the Convention of American College of Surgeons held in Boston, Massachusetts recently.

Dr. A. R. Shands, Jr., a noted orthopedic surgeon, Medical Director and Head, Hospital and Research Foundation for Crippled Children of the Alfred I. DuPont, of Nemours Foundation, Wilmington, Delaware, was the guest lecturer at the Naval Medical School, here recently in the Center auditorium. His subject was entitled, "Some of the Problems of the Hip in Childhood."

The meetings was open to members of Metropolitan area Medical Societies, faculties of medical schools, as well as medical officers of the Armed Forces and Federal Agencies.

Med School Scuttlebutt

By O. C. "Skip" Skinner

New personnel have been arriving here past two weeks from all over the U.S. and Canada. Two handsome members of the Royal Canadian Navy are in our midst and all hands wish to welcome them aboard and hope they have a grand tour of duty that they can long remember here in the States. They are P1 RR4 Noel, William Edward who is here going to Radio-Isotopes school, and now is sweating out a rugged two months of Chemistry. The other, a member of Lab 16, is P2 LA2 Joyce, Frederick who reported aboard from HMCS, Stadacona, Halifax, N.S.

Also reporting aboard are ten Reserve personnel who have been called back to active duty. They are as follows: Hogan, John E. HM1, Horrigan, Patrick E. HM1, McDuffie, James W. HM1, Lipiec, Edmund A. HN, Morrison, Richard W. HN, Fay, Charles W. HM2, Johnson, Lemuel G. HM1, Pulner, Warren M. HM2, Shoop, Welland T. HM1, and last but not least Wedel, Paul G. HM3.

The above are working all over the various parts of the Med School. Two of these men have been assigned to the MAA force and are doing a grand job. They are "Dopey" Hogan and "Irish" Horrigan. A welcome aboard is wished by all hands.

Two marriages have been noted since the last issue. They are R. H. Feichter HN to Miss Beverly Rudig of Ft. Wayne, Indiana, and E. E. Snyder HM3 (the well known Medical Illustrationist) was wed October 14 to Miss Lorraine Lemieux of Washington, D.C.

Congratulations to all of you.

Joe Girogorian HM1 seems to be becoming an ardent Lover Boy. His favorite woman at the present time is a fine looking brunette that answers to the name of Jo Feldi.

Frankie 'The Lover' Adams HM1 has been wondering how to get to Pearl Harbor. He has been carrying a lot of quarters lately to make those long distance phone calls. Seems he has finally been hooked and is a one woman's man.

The Med School softball squad is looking much improved and have a larger roster including such greats as Kurzawski, Roush, and Brown. Most of the boys have worked their sore muscles out and look in fine shape for the rest of the season. Here's wishing "Tiny" Schroer and his boys all the luck in the world.

Navy Belles

By George

Hello! you all. I have a room mate from Alabama. You should hear my southern accent, between Shook's southern accent, and the Boston accent of Romas, you should hear my poor little Maryland talk.

Just Around Our House

Standing room only at Building 123. We have a full house of Waves. Among the new girls to arrive are Doris Salisbury, and Corrine Kuse, for Lab. school.—Jacelyn Shook, for N.P. Clerical school. Charline Immell, Donna Mae McNaughton, Ruth Ross, and Annette Tillatson, for hospital staff. We always have a special welcome for the girls who help reduce the work load. We also got some old timer Waves, who came back in the service for a years duty. Veronica Conaway, HM1 for the Research Department. Mary Elizabeth Harrison, HM1 and Minnie Alma Smith, HM3 to the center command.

One of our old friends has left us, Nancy Adkins, who finished O.R. school and was sent to Patuxet River for duty. She went to Patuxet by way of Iowa for some leave. We will miss her, but are glad she will be close.

Barbara Winters has changed her name to Barbara Lovett, on October 6. We want to wish them the best of everything.

Monday the 9th the girls had a little surprise party for Barbara downstairs. A good time was had by all, with singing and a jitter bug demonstration.

Have you seen the flag on Louise Miller's car? After she finishes Blood Bank school I hear she is going to Korea to teach the southern people to say, "Hello, you all!"—so they can be told from those of the north.

The Physio girls have been busy on Monday, Wednesday, and Friday. After the basketball team returns at 1845, they are using muscles they have been saving all summer, just for basketball season.

Rusty and the girls seem pleased with the way the team looks. Jack Brandon, from Dental clinic and Shorty Edwards, of the Chemistry school have been helping with the coaching, and we hear that Cdr. Frates is interested in the team. We are all so pleased, with the coach helping, the Waves should have a wonderful season.

That's all for now from the girl from the heart of Maryland.

Biologicals For All Points Are Sent From NMS

All points, north, east, south, and west, are served by the Biological Department of the Naval Medical School. Wherever there is a need for biologicals, whether in Alaska or in the Pacific, this small department of the school sees to it that the requests are filled. This task is the responsibility of HMC Arthur H. Luber and HM3 Thomas J. Utley.

A typical day at the department shows some forty-eight orders, including shipment to the USS Philippine Sea in Korean waters, Adak, Alaska, Tokyo, Japan, the Naval Hospital at Guam, Yokosuka, Japan, Cairo, Egypt, USS Orion, AS 18, and the USS Lyman K. Swenson DD 729. The requests range from Kahn antigens to Colloidal Gold solutions. This last is prepared in thin glass containers so that especial care must go into the packing and preparing for shipment. If the destination is an overseas base, the material is placed in wooden crates, well padded with cotton batting and Cellucotton wadding. For interstate shipment, mailing cards of cardboard boxes are usually employed.

Orders for urgent requests are fulfilled with the utmost speed and service. Such requests are handled by Air transportation, commercial or MATS when practicable. An example would be a ship out in Korean waters needing a biological urgently. The Commanding Officer of the ship would radio a message to the Medical School, prompt action would be taken and the material would be sent on its way the same day as the request was received.

Another task of this department is the shipment of all laboratory manuals to medical and other Naval installations the world over. These manuals cover all fields of laboratory work.

When the boss told him to take a lesson from the busy bee, he stayed out all night with his honey.

"What Is A Tooth?" Problem Of NDS Biochemistry Department

The Naval Dental School's Biochemistry Department and Georgetown Dental School are working on a joint research project to learn something about—of all things—what a human tooth is. Believe it or not, this is no simple undertaking; for years scientists in their laboratories have been trying to find out what constitutes a tooth. So far they have come with only small parts of an answer.

Dental Explorer

A lot of goings on in the "Tooth Locker" this past week. New rates have been sewed on, parties, leave, and football. Really quite a week.

Taking a look around the division we note that Don Brouillette made first class, Chuck Long and "Eric" Campbell are the new seconds and in the next spot comes the new thirds, who are Grafon, Cook, Risley, Cordova, Wilson, Coburn and Pringle. Congratulations.

It was a party for almost all hands this past week end. The prosthetic class had their party. It started off by those desiring to attend the U.S.C.—Navy tussle at Baltimore going and seeing the Tars win. From there the scene shifts to Virginia and Hamricks home. There they had a Bar B Q and wound up with a hayride. For the rest of the party goes, it was the Country Club. Celebrating the promotion of our new 1st and 2nd classes and also marking the last day of our first aid course.

We have two men on the sick list here from N.D.S. Dave Early is in with a broken collar bone. He had an accident a few days ago when touring the Skyline Drive. But arrangements have been made for him to continue school. And Chief Pelick is down on one of the surgical wards. We all hope that you both get back to normal duty very shortly.

The NDS football eight seems to be right in there punching. Thus far the "Dukes" have had three games, of which they have dropped two. They defeated NMRI 15-0 then lost to Lab. 15 by a 9-7 count, and then to Lab. 16, 6-0. Reports say that Long, Huck and Griffin are the men to keep an eye on this year.

From the leave department comes the news that B. B. Allison is on that shipping over leave. We could almost miss that Crosby.

We see that Cdr. "Call Me Gimpy" Moore is still limping around here. How did that ankle get hurt there Commander?

Swedberg had a letter from one of the boys who is now in Japan. Jack Knudson. He seems to like Japan from the sounds of his letter. Especially the liberty.

Well, this about winds up another week's work here so I will be drifting. See yuh. . .

Barr

(Continued from page one)

to obtain a step-by-step story of his past accomplishments, however, they cover many interesting phases of endeavor.

In 1929, when he graduated from the Air Force Flying School, he gained the distinction of becoming the "Youngest Flying Officer in the Army Air Corps." After two years in the Air Force, flying assignments, and two years as First Pilot of one of the airlines, he returned to school at Georgetown University to complete his medical training.

It was not until July 1938 that Dr. Barr entered the U.S. Navy as a Medical Officer. He attended the Navy Post Graduate School, the Air Force School of Aviation Medicine, Randolph Field, Texas, and the Naval School of Aviation at Pensacola, Florida. His designations (Continued on page 6)

Most of the laboratory work the project is being conducted the Naval Dental School, under chemist, Lieutenant R. S. Leopold (MSC). We asked Dr. Leopold how much "territory" the project is trying to cover. He says it narrowed down, at present, to determining how much and kinds of protein there are in man dentin.

Such investigations are important for the reason that a lot of conflicting theories and bold claims floating around, to explain to decay and its prevention. Advertising budgets for dentifrices into the millions, and radios shout jingles that say you can keep your teeth clean and healthy swishing with this mixture, brushing with that paste—or chewing gum. But none of the present claims and theories about tooth decay can be proved or disproved until men in laboratories with test tubes and calculating machines, can tell what a tooth actually is.

There's a saying—"A professional does not step out ahead of the basic sciences that support it." Dentistry is no exception to this rule, a chemistry is one of the sciences involved in all theories and problems of tooth decay. That is why on in the Dental Annex Building, there are men, chemicals and adding machines trying to distill some answers.

Gray Ladies

(Continued from page 2)

25th they will spend the morning with the Head Recreation Work Miss Elsie Cabell learning about the operation of Red Cross Recreation Service here and in the afternoon will work with Miss Evelyn Walker, Deputy Field Director on learning how their services tie in with the case work service in this hospital. On the final date of formal training November 1st, Miss Gavin, Chief Nurse, Chief Chaplain, Galtin, the Record Officer, Mr. Wilson and one of the Veteran's Administration Contact men will explain their areas of responsibility. Following a review by the Gray Lady Chairman of important aspects of the volunteer services here the recruits are ready to be assigned to a definite job. However, before they can their gray veils and graduate into full fledged Gray Ladies they serve a probationary period on the ward assisted by senior Gray Ladies.

We are proud of the record of our Gray Lady Corps. They have worked hard and faithfully at the volunteer jobs of making life for the patients here more comfortable. We feel confident that our new class will also serve faithfully.

Toyland

With Christmas moving swiftly closer, children think of Santa and toys—The Ship Service is well prepared to meet the demands and has opened a toyland on the South Wing of the first deck. The model electric display has as much fascination for the grown-ups as for children, and often more.

Naval School Of Hospital Administration

By George E. Bachert

This year at the Naval School of Hospital Administration, a new approach to the instruction in accounting was inaugurated, and Jackson's Principles of Accounting was adopted. With this change in curriculum, there was also added an introductory course in bookkeeping in the enlisted class. These changes were instituted by Warrant Officer R. C. MEYERS, Hospital Corps, who is in charge of the course.

Mr. Meyers took over his new duties, fresh from the last Naval School of Hospital Administration Officer's class. He graduated from that class with top honors, and it is readily apparent that he is well qualified for his present billet.

First enlisting in the Navy in February, 1936 and with an eye to the future, Warrant Officer Meyers' perseverance finally achieved in his rank in November, 1944. It could be emphasized that it was his aptitude for learning and personal application that enabled him to attain his present rank.

In 1945, he acted as Personnel Officer at the U.S. Naval Special Hospital, Santa Cruz, Calif. From there he went to the staff, Hospital Corps School, Portsmouth, Va., where he served in a multiple capacity as Division Officer. He also had collateral duties as Athletic Officer for the Hospital and the Hospital Corps School.

Mr. Meyers is somewhat of a shot. Back in 1940, he was member of the U.S.S. Lexington Pistol Team. At this time he fired a score for the team, which won the fleet championship. The past year he curtailed this, but again in 1948 he fired and won the Fifth District .22 and .45 caliber pistol championship.

In March of 1949, he competed against 480 contestants from all parts of the United States and foreign nations in the National Pistol Matches in Tampa, Fla. During the match he won three medals. A gold place medal for rapid fire, a silver place medal for timed firing and a fifth place medal for slow fire shooting.

In the early days of his career, he played football at the U.S. Naval Station, Pensacola, Fla. It is readily noted that even while working and advancing, Mr. Meyers found ample time for the lighter side of life.

His devotion to his duties here at the school often bring him in for two or three hour sessions in the evening with the men in accounting. Any noon hour will see men in his office discussing this nemesis of most prospective MAT men. All students are grateful for this attention and the end is well in the means.

Mr. Meyers is also in charge of the Departmental Library. Arrangements have been made to have the library open during evening hours and the facilities have been arranged to provide reference material pertinent to all hospital administrative divisions.

In addition to the aforementioned accounting principles, the Financial Management Division entails instruction in Procurement, Receipt Inspection of Property, Civil Control Procedures and Bookkeeping Machine operation. We feel confident that both students and faculty of the school will benefit by his presence in the division.

Personalities About The Center

CPO Rasmussen

Responsible for maintaining the law and order is "must" duty but it entails the lack of fulltime comradeship with the shipmates of the 4.0 conduct group. This sentiment was voiced by Chief Rasmussen of the Master-at-Arms force, who says, "otherwise, life at the Center is nonpareil."

Chief Rasmussen hails from the Gopher State where he was born in Rochester in 1915. After graduation from the Rochester High School, he held several jobs of a general nature including two years of work in various departments of the Colonial Hospital in that city. However, soon a wanderlust overcame himself and three friends and a concerted effort produced a homemade house trailer which took them to Phoenix, Arizona, where they quickly hired themselves out for varied jobs at a very swank winter resort. With the advent of Spring, the adventurers packed up and trekked on to Los Angeles where they continued their vacation and work at different beach hotels in Santa Monica. The Chief recalls with especial interest the month he subbed for a friend as Head Doorman at the well-known Beverly Hills Hotel where he was face-to-face many times with several of the noted celebrities of Hollywood.

August, 1940 was the time and Chicago, Illinois was the place that found our subject enlisting in Uncle Sam's Navy. After a tour of indoctrination, he reported to the Office of Procurement, Chicago, for duty remaining there until June, 1942, when he joined the Fleet Marine Force in San Diego. A few weeks of intensive training and then participation in the invasions of Tarawa, Saipan and Tinian. It was during his tour with the Marines that his well rounded ability earned him his Chief's crow and his division was the recipient of a Presidential Unit citation for their excellence. Life with the Marines ended September, 1944 and after a well deserved rest, the Chief reported to the N.A.S., Miami, Florida for duties in the Personnel Office.

Chief Rasmussen left the Navy in October, 1945 but reenlisted in January, 1946 and was assigned to the USS MATTAPONI, AO 41. The tanker, at the time, was making the Persian Gulf run, and shortly thereafter, made a good will tour to Australia and thence proceeded to make a run "around the world." The Chief was especially fond of this auxiliary since it afforded him visits to many ports of interest.

Before his arrival at the Hospital Command on June 1, 1948, Chief Rasmussen attended the Independent Duty School at Portsmouth, Virginia. He has been attached to the Master-at-Arms force since coming to the Center.

The Chief, whose favorite hobbies center around "odd jobs about the house," is married and the father of two boys and a girl. The family resides in Viers Mill Village, Silver Spring, Maryland.

Jo. M. Feldi HM3

Two more children and it will be "Cheaper By the Dozen" in the family of Josephine M. Feldi, HM3 of the Hospital Command. "Jo", as she is called, is the ninth of ten children—six boys and four girls. "If you don't think this can create havoc at times, try it out for one day," she said laughingly. But on the serious side she later confided that she would feel at a loss with just one or two brothers or sisters. "Besides," she added, "with four girls in the family, you can always manage to find something of their's to wear!" This thriving community resides in Lansdale, Pennsylvania.

"Jo" is a graduate of Lansdale High where she was on the staff of their year book, "Highlights," and an ardent participant in girls intramural sports. She played varsity baseball on the girl's team for two years and won her letter in this sport.

Navy life began in March of 1949 at Great Lakes where she underwent a course of instruction frequently entitled "recruit training," but which is more popularly called "Boot Camp." Here also, she attended Hospital Corps School before being transferred here in October of that year. Since her arrival she has worked on various wards including pediatrics, T-7, 126, 127, and 128. Presently she is on 127.

Among her activities at the Center she lists tennis as a favorite. She played guard last year on the WAVE basketball team which catapulted to public attention by its high scoring against all contenders. On the national scope she is "extremely fond of the Phillies" and stated with emphasis "they were robbed!" To which we can add that no Brooklyn fan could have stated a heartier disapproval than "Dey was robbed."

Other interests center around the piano, although she does not play. She also likes art, and sketching in pencil or charcoal preferably. Her subjects vary so that she has done no set types although she enjoys the human figure most. She has no intention of turning her art to a professional level, preferring to keep it subjugated as a hobby. Her interest in art was first aroused when she took a night art course in her home town.

Graduation

(Continued from page one)

Presentation of certificates was made by Captain B. W. Hogan, MC, USN, Commanding NMS, to the following hospital corpsmen: George F. Davis, HMI; William J. Holochoer, HMI; Herbert D. Pearson, HMI; Roy F. Reynolds, HMC; M. C. Sawyer, HMC; and Joseph J. Taddeo, HMI.

J. P. Macala

In naval hospitals the world over are hospital corpsmen doing their jobs. Many are in varied and specialized fields. But, among those many rank the ward corpsman. One such person is Jerome P. Macala, HN of the Hospital command here.

Macala was born on July 8, 1929 in the "round on the ends and high in the middle" state—Struthers, Ohio. He attended Ursuline High School in Youngstown, Ohio where he took an academic course. Following his graduation in 1947, he worked in a hardware store for a year.

On September 21, 1948 he enlisted in the Naval Service at the Recruiting Station in Youngstown, Ohio. He was sent to the USNTC, Great Lakes, Illinois where he received his "boot" training. Upon completion of his "boots" he then went to USNHCS at Great Lakes for his hospital corps schooling. After graduation he reported to the Naval Hospital here on March 26, 1949 for duty. Since he has been assigned to the neurosurgery ward—6-C.

Macala's hobbies include the building of model airplanes and football, the latter strictly as a hobby. As for his future plans he is still undecided.

Lab 15 Under Low Power

By MOE and GIZZ-MOE

Ever since the call for "reinforcements" went out from the poor, abused staff of Med school, the gay, carefree remnants of Lab. 15's chemistry section can be found well-scattered among the departments on the third deck.

Perhaps Kimmel can keep his love life straight now that he has nothing to do all day but mount slides in Pathology department. We envy him—end of joke!

The Bacteriology department has been blessed (?) with the services of Stradtman, Wiitala, "Rusty" Olsen, and Monsieur Pierre Le-Touche, another frustrated medical student.

Here's one to top them all. We hear that "Digger" Bonfield is now a "resident" of the morgue. You know, "Bone-Head, we believe this is the perfect department for you."

Turning to the lighter side of Lab. 15, we find that several more of our classmates have been presented with those hard-to-get third rates. Bonfield, Glasgow, Hurst, Jones, Mains, Mattox, Ragouzis, Robinson, Stanton, Wiitala, and Wooton—nice going, men!

Warning! If you should happen to walk into pathology class, especially when Kessler or Pelletier are at work, be prepared to dodge any glass slides, staining jars, etc., that

Cottage Capers

By C. J. Goebel

After the rollicking NNMC shindig of last Thursday nite, closely followed by the Halloween masquerade party on the following Saturday; I'm just about played out. How about you? After all, there is a limit to a man's constitution—but it sure was a barrel of fun.

If you somehow get the impression that club activities will slacken off after the busy month of October I better steer you straight. You're wrong! The cottage is one place where there is always a million and one activities going on constantly.

If you happen to own a "I'm from Missouri, you have to show me," personality, come on down and introduce yourself. I think you'll like it.

One of the most important happenings of the month will take place on Nov. 2nd. (Thursday) and will be nothing less than a royal, old fashioned, bazaar nite. According to old Noah Webster, a bazaar is: "a place for the sale of fancy articles in air of some charity." Our definition goes a little further: "Our bazaar is a meeting place for new friends and old with an auction of all articles donated by the servicemen, guys, and gals of the cottage, freely giving their time and labor to put over this fine affair, to gain money so as to continue cottage activities such as dances, hayrides, parties, Sunday-nite suppers, programs, and the what-not. A lot of young folks contributed their talents to put this bazaar over in a big way, so don't let them down."

By the way, this will be a good chance for you to get your X-mas shopping done both early and economically. Among many things offered will be a large selection of argyle socks (all sizes), towels, toys and games, books, dishes, model airplanes, X-mas cards, records, and fish. A magnificent afghan will also be raffled off.

There will be cakes, pies, candy, and a free door prize for everyone. Festivities will start at 6 P.M. and end about 11 P.M. That date again is Thursday, November 2nd. See you there!

Keep your eyes posted on the bulletin board outside the chow hall for the appearance of the Club program for November. Be "Y" wise attend more "Y" activities.

may accidentally come flying your way.

We hear that Horrobin ("The Nose") and Hall ("The Face") are looking for a plastic surgeon. Anybody know a good veterinarian?

There are four desperate men loose in Lab. 15. Be on the lookout for Strout, Waymire, "Jonesy," and "Sneaky Pete"—they were last seen at one of the two-dollar windows at Laurel race track.

Lab. 15's Waves are standing watches this month. We certainly feel sorry for the poor girls, having to stand those mean old "one-out-of-seven" duty nights.

Lab. 15's football team is certainly making its presence known in league competition. After losing an extremely narrow decision, 13-6, to mighty Center Command, they bounced back to take an even more closely contested game from highly rated Dental, 9-7. Watch out, we're beginning to roll!

Well, that about takes care of things for this time. Remember the pathology battle cry—"To?S*?!" with the excess!"—quite diagnostic, you know.

Coach's Corner

This column would like to thank Devol of the Recreation Department for the fine job he is doing in keeping the football field in shape, the yardage sticks painted and the schedule running smoothly. The football season would not be complete without cancelled or postponed games and all team managers join this columnist in expressing a hearty 'Well Done' to Devol.

Center Command has fielded another fine team, reminiscent of the days of Elias Bell, one of the better Center athletes. Tommy Brothers, last season's court star is completing touchdown passes to George Funk and Fredericks with the same ease he displayed on the maple floor. Belkins at guard and Hausere in the pivot post are ably filling the shoes of 'Tugboat' Anderson, the one man line, now doing duty in the Pacific. The Dental Dukes under the mentorship of Bickel, have a crack punter in the person of Griffith whose curving spirals and quick kicks have added a real offensive punch to the 'pink jerseyed' gridsters. In the recent Lab 15 win over Dental, 9-7, Barton of the Dukes threw a two man block to enable Winteringham to tag the Lab. runner, it was a beauty.

'Tiny' Schroer is sponsoring the Med. School team, practicing nightly alongside number one fairway of the golf course. Golfers are reminded to control their slices and not to shoot for 'Tiny' but hit the green.

The Waves basketball team are working out on Monday, Wednesday and Friday under the watchful eye of 'Rusty' Olsen. A lack of height which handicapped Bruce Tillman, last year's coach has been overcome with the addition of Virginia Taylor to the squad. Aspirants for the coaching berth contact Commander Frates, as Tillman will not be available to resume the excellent job he did in handling the team last season. Candidates must be warned that the boy friend of each squad member is a self-appointed court tactician!

Intramural basketball will start immediately upon the completion of the present single round-robin schedule with Varsity ball opening the first week in November.

On the fairways, 'Sweet-swinging William', Commander W. D. King of the Dental School copped the honors in the first. Admiral C. A. Swanson Tournament. Fortin of Med. School was the runner up in the gruelling thirty-six hole final match. In the other flights, Comdr. Crawford showed the stamina that made him Indiana University's cinder star by winning the first flight with Commander McNamara being the runner-up. Third Flight honors went to Captain Gross of Surgery, whose long putts kept dropping on that rainy Sunday to nose out Captain Norman. Dr. Superko of Dental took the winners circle in the Fourth Flight while Comdr. Dunn was runner-up. To Comdr. Dunn went the honor of having the shortest and longest drive on the same hole. It seems that Jack addressed the ball on number eight tee; the ball rolled off traveling three inches upon completion of the swing. The Air-Flite was reteed and Jackson smashed it almost to the green, a distance of 320 yards and in the rain too! Fifth Flight finalists were Lt. Polansky of Research and Chief Gullison of NSHA a pair of mighty fine golfers. Lou is going aboard a carrier in a few weeks and the golf committee is losing a member whose sole interest was making everyone enjoy a beautiful course. He will be hard to replace when volunteers are needed for the mid-night watering of the greens next summer. L'Etoile proved the class

One Candle Old

The Bank of Bethesda celebrates its first birthday at the Center. RADM M. D. Willcuts and Mr. S. W. Bagley hold cake. Others in the picture, left to right, Mrs. Frances Stevens, Mr. Francis Puhr, Mrs. Sue Imirie, Captain Gillett, LTJG Atkinson, LT Ingstrom, LT Moon, and LCDR Crawford. Since the bank has been here it has opened 800 new accounts. Savings accounts total approximately \$100,000 and demand accounts totaling \$260,000.

CDR King Is "Golf King"

"Local boy makes good," could very well apply to the recent cup holder of the Admiral Clifford A. Swanson trophy tournament. CDR. King, of the NDS command, did a marvelous job of controlling the finals of the championship flight, with a turn in of a 9-8 score card. Runner up for the championship flight was Chief Fortin.

Dr. Crawford developed a little difficulty but finally defeated Dr. Mc Namara, runner up in the 2nd. flight, by a score of 2-1. P. L. Davis, HMC, was able to control consolation prize by overcoming CDR. Frates 6-5.

This contest was played over a time period of two weeks and covered a distance of 36 holes. The turnout for applications to the tournament was magnificent. Congratulations to all bracket winners. Well done!

Hail to the champions!

Championship flight:

Winner: CDR King
Runner-up: Chief Fortin

1st. flight:

Winner: CDR Crawford
Runner-up: CDR Mc Namara

2nd flight:

Winner: CAPT Gross
Runner-up: CAPT Norman

3rd. flight:

Winner: LCDR Superko
Runner-up: CDR Dunn

4th flight:

Winner: LT Polansky
Runner-up: Chief Gullison

5th. flight:

Winner: Chief Le Toile
Runner-up: HM3 Talbot

Barr

(Continued from page 4)

include Air Force Pilot, Air Force Aerial Observer, Air Force Flight Surgeon, Naval Aviator and Naval Flight Surgeon.

Beside having served as Senior Medical Officer aboard the USS SHANGRI-LA, and the USS ANTIETAM, it is of special interest to note that Dr. Barr served as Flight Surgeon aboard the WASP (CU) 7 at the time when Admiral Willcuts was Senior Medical Officer of that ship.

Possessing a rare combination of enthusiasm, good humor and proven capability—plus a captivating personality, Dr. Barr's popularity at NMRI is assured. His new associates extend him a sincere welcome as he takes over his important and exacting duties as Head of the Aviation Medicine Division

of the field in the Sixth flight with Talbot giving the former a good battle down the stretch.

Pitching Stardust

By C. J. Goebel

Football across the compound has been given a great boost during the past few weeks with a sudden onset of "Indian weather." The teams have been feeling each other out and have discovered loopholes in the defensive lines of several teams but no discovery has even been indicated of any lack of "eagerness to win" among the various commands.

Congratulations to the Med. School "Hot Rods" for finding enough material to represent their command. After pulling out of the league in the early days of intramural play, Med. School, has reentered the battle field and shall be allowed to play all games previously scheduled.

Lab. 16 came in a little late, but we're all glad to see them in the league. They are taking over all games scheduled for N.H.

A note to the wise is usually sufficient, so let me inform all you would-be spectators that these games have turned out to be highly interesting. The crowds have been growing at these games and it certainly does these boys good to know that some one is cheering them on the sidelines. Won't you join them?

Many thanks go out to Mr. Atkinson for making arrangements with the Commissary to provide evening chow for the various teams after game time. A major drawback which has held down the number of players turning out for the teams, was the fact that they missed chow each time they played. You can't exactly blame them because "chow call" is one of those things "sweet and dear" to every Navy man. We've got a break here, men, let's not abuse it.

Quick results of the recent "ping-pong" tournament have just rolled in. M. Ticatch, from NH, managed to out-do all opponents to snare the singles trophy. His outstanding play during the entire tournament earns him a high round of applause.

P. E. Cook, was unable to cope with the "dealings of fate" and was once more defeated in his title bid, settling into second place after losing 3 of 5 games in the championship match. Cook, you may remember, seems to have always been a consistent second-place runner-up. The NNMC tennis matches found him in exactly the same position.

Third and fourth place trophies will be awarded to McMinis and Gilman, respectively, both hailing from NH command.

A fine display of interest was shown during the tournaments—an encouragement for other activities now being planned.

Commissary Takes Title Of 1950 Softball Champions

In a furious last minute dash to finish the 1950 softball tournament race before class departure time, the slightly favored Lab. 14 team and was defeated, in a thrilling championship game with the Commissary "potato peelers." Deschinger, Holland, Sellidio, and Karzawski, unable to stem the tide, and were driven down with a terrific loss of 12-1.

Dias, brilliant young pitching ace from Comm., held the game in check with his amazing array of "drop balls" which have been one of the factors contributing to his ever growing fame.

Commissary, the team that was hardly outstanding during the season, proved to be consistent enough to march right to the top of the ladder. Hard hitting Lab. 14, retained second place while Med. School and N.H. finished in 3rd and 4th places respectively. Catcher Pat W. had much to do with clinching this exciting victory with his accurate "fire ball" pegs to 2nd base. Losing pitcher for Lab. 14 was Bacon.

A brief run down of the men responsible for Commissary's decisive victory is now in order. Hail to these hardy warriors who played the game and won.

Sport Highlights And Predictions

By O. C. Skinner

Louis Starting Comeback

Former heavyweight champion Joe Louis will start his comeback campaign soon. He has applied for a license in the State of Illinois, and should the license be granted, Louis is expected to meet Cesar Brion in the headline 10 round bout in the Chicago stadium November 29.

The bout with Brion, should Louis win, is expected to be only the first of possibly three or four leading to another championship fight with Ezzard Charles.

Other fighters mentioned as possible opponents for a victorious Louis include Lee Savold and light-heavyweight champion Joe Maxim.

Seems old Joe isn't going to give up. He is in the shadows of 37 which is a granddaddy in the prize-fight game. How much more can the old Champ stand? ? ?

VARSITY BASKETBALL

Practice sessions for the varsity basketball team will commence next week.

All personnel interested in trying out for the club are urged to contact Chief Reynolds at the Recreation Building, extension 672, this week.

Grandad Mack Retires for Good.

It looks as if the grand old man of baseball is really going to retire and stay retired this time. He retired October 18 as manager of the Philadelphia Athletics, a team he piloted for 50 years and guided to nine pennants and five World championships.

At that time, Mack announced that Jimmy Dykes, one of his old star players and his present assistant, would take over as manager and that Arthur Ehlers would become General Manager.

The whole baseball world will miss the old man next year as it won't seem the same without him. He has been around as manager since 1901 and before that was a well known baseball great himself.

Sport Scope

By J. C. Woods

After so many recent upsets, ball experts probably have no more than crayons to write. None could be more pleasing about than Navy's spectacular victory over mighty Southern California as if the Middies were to set a record of their own in defeats. Maryland on the hand is pretty unhappy about whole thing. The Terps were on their way to top honors in N.C. State happened by. The thing the Irish are fighting for is to try and get some more i-s-h on their team.

Did Choo Choo train? Fans to think there wasn't enough juice in that Redskin-Chicago game.

Los Angeles Rams 70, Baltimore Colts 27 subtracted leaves 43 which adds up to the fact that Baltimore will probably be minus a football team come next season.

Certain members of the Red football team missed their call. It seems a few of them are good fighters.

Texas has learned to believe that old saying, "the Sooner, better". Oklahoma looks tops this year.

Louis to fight again. While opinion he had many dollars' friends, since both have disappeared... together.

Mighty Center Command is going again this year and from looks of things it will be undefeated season. According to the local chair quarterbacks their only title is N.P. The supposedly powerful Dental squad has been completely ignored after their defeat at hands of Lab 15. The surprise package of the year was Research. Everyone looked to them as the potential rival of Center. It turned out that they can hardly win a game much less one with the Command. The seasons final standings should look something like this:

1.	Center
2.	N.P.
3.	Lab. 15
4.	Lab. 16
5.	NMS
6.	Dental
7.	Research
8.	X-ray

Dr. Lennart Holmgren, a member of the Scientific Counsel of the Swedish Defense Military Board visited the Center recently. He is shown above with CAPT W. E. Kellum, CO, NMRI on his left and Dr. A. Glorig, civilian consultant to the hospital on his right. In the extreme right is CAPT J. A. Delaney, Chief of EENT.

NMC Red Feather Campaign Closes Over The Top With 103%

RADM Willcutts announces that the National Naval Medical Center with its component commands, the Naval Hospital, the Naval Medical School, the Naval Dental School, the Naval Medical Research Institute and the Naval School of Hospital Administration, has completed the 1950 Red Feather Campaign by topping its goal with 103 per cent.

He expresses his appreciation to all hands, both naval and civilian personnel, for the fine community spirit shown in their contributions.

Two Hospital MO's Certified By Board

CDR. Douglas J. Giorgio, MC, USN has recently been certified by the American Board of Anesthesiology. CDR Giorgio received his schooling at the University of Notre Dame and the New York Medical College. He entered the Navy in 1942 and reported to the hospital here about a year ago from the Mayo Clinic, Rochester, New York. The doctor, his wife and six children are now residing at 3819 Van Ness St., NW., Washington, D.C.

CDR John D. Walters, MC, USN has recently been certified by the American Board of Dermatology and Syphilology. CDR Walters received his medical training at the Jefferson Medical School in Philadelphia. He entered the Naval Service in 1938. He reported here from the Naval Hospital, Philadelphia, Pa. on 15 August and has been assigned to the Skin Clinic and Ward 5-B.

LCDR G. Wiese New Executive Officer NSHA

By George E. Bachert

LCDR George W. Wiese, MSC, USN, formerly Senior Instructor and Training Officer at the U. S. Naval Hospital Corps School, Great Lakes, Illinois, recently reported to NSHA where he is now Executive Officer, relieving LCDR W. W. WILLGRUBE, MSC, USN, who has been transferred to serve on the staff of ComSerPac.

In October 1922 Mr. WIESE left a teaching position in a rural school district in the State of Iowa and enlisted in the U. S. Navy. He received his recruit training at the U. S. Naval Training Station, Goat Island, California and after completion of boot training he attended the Hospital Corps School located at the same address. Since that date he has served at many naval stations and naval hospitals and on many types of ships.

He graduated from the U. S. Naval Medical School, Washington, D. C., as a Laboratory Technician in 1928. After that he served on the USS Chaumont, USS Saratoga, and USS California. From the

USS California he went back to the Naval Medical School, Washington, D. C., as a member of the teaching staff in Pathology for enlisted personnel.

In 1936 he made a shakedown cruise on the USS Lamson to South America. A year later this same ship carried him to the South Pacific where they participated in an extensive search for Amelia Earhart and her navigator, Captain Fred Noonan.

From 1938 to 1940 he served at the U. S. Naval Station, Tutuila, Samoa, where he successfully passed the examination for Warrant Pharmacist. After this appointment, Mr. WIESE completed a course of instruction in Commissary duties at the U. S. Naval Hospital, Philadelphia, Pa.

From January 1940 to May 1943 he was Training Officer at the Hospital Schools located in Brooklyn, N. Y., and Farragut, Idaho. After

Surgeon General Congratulates NDS On Work At ADA Meeting

RADM C. A. Swanson sent the following letter to the Commanding Officer of the Naval Dental School, commending the staff for its contribution to the recent annual session of the American Dental Association in Atlantic City. Admiral Swanson refers to participation by NDS officers as essayists and as clinicians, and to the scientific exhibit prepared by dental officers of NDS and NMRI.

RADM Willcutts, Commanding Officer of NNMC, has expressed his pleasure with the participation of dental officers from the Center, by suggesting publication of this letter in the Center News:

Commanding Officer
U.S. Naval Dental School
National Naval Medical Center
Bethesda 14, Maryland

Dear Captain Mitchell:

I have been informed of the recent meeting of the American Dental Association in Atlantic City and of the outstanding service you and the members of your Staff provided towards its success.

It is my understanding that the Naval Dental Exhibit was placed first of all such displays and that this Exhibit was prepared in your School and manned by personnel in your Command. I further understand that selected members of your Staff presented papers and clinics on various techniques developed and accepted as outstanding contributions in the Dental Profession.

In view of the above and the outstanding service rendered, I desire to personally extend my appreciation to you and the members of your Staff for the representation made and to pass to all hands a "Well Done".

Very Sincerely,
C. A. Swanson
Rear Admiral, (MC)
Surgeon General, U.S. Navy

Nine Graduate From Chemistry

Graduation exercises were held recently for hospital corpsmen of NMS completing a course in chemistry technique.

CAPT. B. W. Hogan, MC, USN, Commanding Officer, NMS, presented graduation certificates to HMC D. C. Barker; HM3 H. N. Edwards; HM2 G. E. Ford; HM2 F. L. Hamilton; HMC W. A. Johnson; HM2 H. M. McClellentick; DT1 C. J. O'Donnell; HM1 B. R. Sherman; and HMC W. F. Weismer Jr.

The year long course was held under the direction of CAPT. W. M. Silliphant, MC, USN, Director of Laboratories, and Ens.

(Continued on page 2)

Visitors From East And West Come To Center

"The Tower of Bethesda" is not only noted for its many educational and professional services, but also for its imposing and architectural beauty. Visitors here recently from Israel were Mrs. O. Fradis and Mr. J. Rechter, architects, with Dr. M. Soroka, Director, Kupat Holin, principal hospital system of Israel, and Dr. Z. Ginberg, Superintendent, Beilinson Hospital. They visited the various commands and buildings which compose our Center.

Dr. G. Filitoric, Professor of Bacteriology, University of Vagreb, Vagreb, Yugoslavia, who is visiting the United States to attend the International Women's Medical Conference, recently was a visitor to the Hospital and Medical School.

A representative of the country of Sweden and a member of the Scientific Counsel of the Swedish Defense Military Board, Dr. Lennart Holmgren (see picture upper left) visited the Research Institute on matters pertaining to the medical aspects of the physiological influence of the schnorkel apparatus and for prophylactic and therapeutic measures to be taken against injuries to auditory organs for such personnel designated for work with hydrophones.

From Japan and the Far East came Dr. Hiroshi Moriya who is interested in hospital administration and made a general tour of the Center.

"WHAT DO YOU MEAN, SPARE AND STRIKE DON'T APPLY TO SAVINGS BONDS? DON'T YOU SPARE A FEW DOLLARS AND STRIKE IT RICH WHEN YOU PURCHASE THEM?"

News Shorts From The Editor's Desk

The United States Naval Academy at Annapolis, Md., recently observed its 105th anniversary. The present Academy Commandant is Admiral Harry W. Will.

NNMC NEWS has a new extension number. All business pertaining to the NEWS will be transmitted through the NNMC NEWS at extension 581 or through Recreation Office at extension 2.

(AFPS) It was the nurse who proposed to the patient in this case. Corporman Raymond White, of Kansas City, Mo., was on duty as a medical corpsman at the Naval Hospital in Chelsea, Mass., when Wave (William V. Brogan, of Fall River, Mass.) entered as a patient. White helped the convalescence along, and finally decided Wave would make a good permanent patient.

So, he popped the question. She accepted. Now they are married.

National Service Life Insurance is growing at the rate of 10,000 policies a month, according to Veterans' Administration. The summary showed 5,629,793 policies in force at the end of August.

The Chaplain's Corner

By Chaplain L. C. Austin

While running for political office, the late Al Smith was wont to start off his periodic appeal for votes with the exclamation, "Let's Look At The Record!" Over a period of years in political life the Prophet of the Brown Derby was able to pile up quite a record—some good, some bad. Regardless of how we feel about Al Smith, we must commend his willingness to examine the facts.

As this article is written, we are once again in the throes of an election campaign. A few of the politicians are running on their records; still others are running on others records; perhaps the majority are anxious to forget their past.

But the politicians are not the only ones faced with records! Each one of us is making a record in life, for good or ill, a record that is peculiarly our own. It is a record that has its individual, family, social, and religious overtones. We make that record by the kind of a life we live: the decisions we make from day to day; the good or the bad we do; the love or the hate in our hearts; the cynicism or faith of our souls. It all adds up to a record that is ours and ours alone.

In this election month, as we examine the "records" of others, it would do us all good to "look at the record" of our own lives. As a guide, we might take these lines written by Henry Van Dyke:

Four things a man must learn to do if he would keep his record true:

- To think without confusion clearly;
- To love his fellow man sincerely;
- To act from honest motives, purely;
- To trust in God and heaven securely.

By Ronald Bourgea

The ghost-like forms of years gone-by have met today.

*Across the fields, corn gold and pumpkin strewn, are seen old frames,
Clad black in knickerbocker pants and wide brimmed hats,
Old matchlocks slung across their shoulder-rests, and proud
Young children calling wild "Halloes", for thoughts of turkey.
Tempt them on this sacred day to mirth. Old Ben Hays says, "Hush."
But still the spell persists and children will be children even then.*

*The merry group proceeds across the fields, and where a village lies,
It fades from sight—a rustic house appears, log heven, thatch topped.
Outside, Miranda waits, her hardy hands, work rough from pots and guns,
Receive the trophy of the day. Inside she slides, and soon
The fire billows high and tempting scents invade the Autumn air.*

*The big oak table bends with weight, as old Ben Hays,
The tempest of the land upon his weathered face, arises, then
In solemn tone he clears his throat. These were men of arms
And sinew, not of speech. But today, . . . today he felt the need,
So old Ben cleared his throat and said:
"Thank God," he looked up high, and in these two small words he spoke
The wisdom that arrives at God, and nations make.*

Changes For Navy Enlisted Modified Uniform

By E. V. Velarde, TO1

(AFPS)—Minor changes to the Navy's modified uniform for enlisted men have been ordered by the Chief of Naval Operations.

The changes were directed following recent tests conducted in operating conditions in the Atlantic Fleet. Purpose of the tests was to determine the uniform's serviceability. The results, the Navy said, indicate that the majority of personnel who participated approved the uniform with—the additional modifications.

Participating sailors found the "coat shoulder" of the jumper and the "fore-and-aft" outside creasing of the trousers made stowage unsatisfactory. At a result, CNO has ordered a "shirt shoulder" on the jumper, and restoration of "athwartship" inside creases on the trousers.

The testing personnel agreed that the cuffless jumpers and trousers with pockets and zipper fly fronts improve, but do not change, the traditional appearance of the Blue-jacket uniform.

Another test is to commence soon in the Pacific Fleet. Further improvements, if any, discovered in the later tests may be incorporated in the uniform. The modified uniform is scheduled to replace the present uniform on July 1, 1952.

Chief Murphy Of Commissary On TV Tonight

Tonight at 2230, Station WNBW-TV, Channel 4, Chief Hollis S. Murphy, USNR, of the Commissary department will appear on the local television program, "Fame's Forecasts." Possessing a high baritone, both rich and accomplished, the Chief will render as his selection, "Song of the Open Road." In consideration of your listening pleasure and the Chief's hope of winning a trip to New York for an audition on the Ted Mack Show, we know that you will all be behind him with the necessary votes. A recommendation of "excellent" comes from the CPO Club where Murphy is stormed with requests for numbers.

Chief Murphy has studied singing for five years under the tutelage of Mr. Raymond Kelley. He was a soloist at his home town church in Lowell, Mass.

He first joined the Navy in 1942, attending Newport Training Station and Hospital Corps School in Brooklyn. He also saw duty in Noumea, New Caledonia and at Guadalcanal. His duty afloat was on LST 357 doing evacuation work. He was discharged in 1946.

Bonne chance!

New Statistical Procedure Is Big Med. Saving

A revised procedure instituted by the Medical Department of the Navy for reporting individual patient statistics has resulted in a large saving of time and money for the Navy.

Formerly, statistical data cards were submitted reflecting detailed changes of status of patients, such as transfers from one activity to another, establishment of diagnoses, etc. The new procedure requires only that a card be submitted at the time that a diagnosis of the patient is terminated and all transfers and establishment of diagnoses are reported on the same card that reports the diagnostic disposition.

This revised procedure eliminates all reports relating to the transfer of patients or the establishing of definite diagnoses and permits all data concerning each disease or injury to be recorded on one report. As a result there has been a reduction in the time required to prepare the reports and a saving in the number of cards used and filing space required. Another essential achievement is a reduction in clerical work required of the battle units, as in many cases the major responsibility for preparation of this report has been shifted from ships and dispensaries to hospitals.

During the period of 1942 through 1945 approximately 9½ million individual morbidity cards were submitted on approximately 5 million cases of disease and injury. Had the present system been in use at the time, the effect of the economies would be a reduction of approximately 3 million cards. These 3 million cards would form a stack roughly one-half mile high, or nearly six times as tall as the Washington Monument. Since all cards

5 Day Course In Radioactivity For Reserves Starts Nov. 27

A five day course of instruction in Medical Aspects of Weapons and Radioactive Isotopes will take place at the Naval Medical School, on Monday, November 27 and continue to December 2, 1950.

The purpose of this course present problems likely to be fronted and techniques to be employed by medical and dental officers in the field of radioactivity. The subjects will be presented by speakers of outstanding prominence in their specialties. Presentations will be informal to all Medical, Dental, Medical Service, and Nurse Corps officers.

This course is conducted primarily for the benefit of inactive Reserve Medical and Dental officers, however, a limited number of officers of the medical department on active duty may be given "authorization orders" (no expense to government).

Inactive Reserve Medical, Dental, Medical Service and Nurse Corps officers residing in the 1st, 3rd, 8th, 9th naval districts and Potomac River Naval Command who desire to attend this course should submit their requests for training duties to the Commandant of their home naval district. All requests should reach the Commandant's office the earliest practicable date.

Attention is invited to inactive Reserve officers that acceptance orders to attend this course not in any way increase the probability of involuntary recall to active duty. Berthing and messing facilities are available.

submitted form a permanent record, the new procedure is already showing the effects of the economies achieved.

Accurate detailed statistics concerning the health of the Navy and Marine Corps are not only essential for effective administration of the Medical Department but they also form the basis for many important research projects that contribute to the advancement of medical knowledge.

Three Medical School CPOs Commissioned Ensign

(Left to right: Carl F. Dinwiddie, Thomas Nathaniel Scales, Jr. and Raymond A. Nygren)

Three prominent Med School chiefs were commissioned Ensign, Medical Service Corps, USN October 20. They are Ensigns Carl F. Dinwiddie, Raymon A. Nygren and Thomas N. Scales Jr.

Ensign Carl F. Dinwiddie was born in Henry, Tennessee and shipped into the Navy in February, 1938. He took his recruit training at Norfolk, Virginia. Then to Hospital Corps School, San Diego and was an honor man in his class. During the early part of the war he became an Aviation Medicine Technician and had duty at various air stations. He was awarded a Meritorious Mast for duties performed in the pre-commissioning of the USS CORAL SEA. He was appointed Warrant Officer in 1944 but reverted to chief in 1945. He was discharged from the service in May, 1946. After 6 weeks of civilian life he decided that the Navy was for him and reenlisted. He then attended the School of Hospital Administration and has been working in the Med School personnel office until his recent appointment.

Ensign Raymond A. Nygren, was born in Portland, Oregon and spent

his early years there until he shipped into the naval service in April, 1937. He attended boot camp and corps school at San Diego. In 1940 he was with the FMF as a PHM3c. He attended the University of Oregon and Willamette University of Salem, Oregon under the V-12 program. He holds a BS degree. He then went to Lab School here in 1948 and went aboard the USS Skagit for duty. After leaving the SKAGIT he returned to NMS as a chemistry instructor in the Laboratory School. He hopes to go to the West coast for duty.

Thomas Nathaniel Scales Jr. was born in Wayland, New York and shipped in the Navy from Raleigh, North Carolina in 1940. He has an excellent Naval record and has had duty in numerous Naval facilities both ashore and afloat. He took his recruit training at Norfolk and Corps School at Portsmouth, Virginia. He attended X-Ray school at the old Naval Hospital in Washington, D.C. Upon graduation he helped set up the X-Ray School here at Bethesda. He then attended Duke University under the V-12 program. After a tour of sea duty aboard the USS Rochester he came here as an instructor in the X-Ray school.

Five CPO, One HM 1 From NSHA Make Ensign

Left to right, top row: William H. Jones, Vincent E. Lind, Talmadge G. McMahon. Bottom row: Bernard J. Pfau, Ray W. Conrad, Harry C. Gibbons, Jr.)

Six men from the Naval School of Hospital Administration have completed another chapter in their story of success. Three staff members and three students were appointed Ensign in the Medical Service Corps. The school is proud to render a salute and "Well done" to Ensigns Ray W. Conrad, Harry C. Gibbons, Jr., William H. Jones, Vincent E. Lind, Talmadge G. McMahon and Bernard J. Pfau.

These men through self study have climbed another step in the long ladder of success. This is indeed a tribute to the Navy's opportunities available to those with ambition and perseverance.

ENS Conrad first enlisted in the Navy in 1940 at Pittsburgh, Pa. He has served at U.S. Naval Hospitals in Annapolis, Md., St. Albans,

N.Y., Long Beach, Calif., and the Guam Memorial Hospital. He served aboard the USS Rescue when she participated in the final assault phases of the last war. Mr. Conrad assisted in the screening and interrogation of over 6000 prisoners of war from all nations liberated from Honshu POW camps. At the time of his appointment he was serving on the staff here.

Mr. Gibbons first enlisted in 1941 at Des Moines, Iowa. The first few months of his career were spent at the Naval Hospital, Great Lakes, Ill. From there he went to New Zealand where he helped establish Base Hospital No. Four. He participated in the invasion of Emirau Island,

Learn To Swim Better

By C. J. Goebel

During the past few weeks, I've had several occasions to observe a good many persons entering the pool area, swimming about a bit, and then going back to their regular routine jobs, etc. A short swim? Perhaps! But definitely, an enjoyable one.

These people, busy all day keeping up with life's little trivialities, do manage to sneak in a few minutes of healthful, relaxing swimming once or twice a week. A great majority of them are enlisted personnel, some are officers, others are dependents. But no matter what their rank, rate, or title, they all hold this in common. They wish to cut away from the routine of the day; wish to exercise their body (perhaps in an effort to avoid middle-age pouch,)—and they all love swimming.

Truly, swimming is a fascinating sport. Any one from a child to the aged is able to participate. It can be regarded as a great normalizer. If you tend to the rather buoyant side, swimming will trim and develop evenness in you. If you tend toward the opposite extreme, swimming will build for you and strengthen your arm, shoulder, back, and leg muscles. But truly, the relaxation and gracefulness received by the swimmer are by far the most important gifts of all.

Actually, this should have been one of my first lectures. It is rather difficult to teach the elements of swimming if I have now drawn both pool and pupil together. I've been very fortunate and pleased to see the increasing number of persons visiting the pool during the past few weeks.

There is so much to learn about this medium,—water.

ENSIGNS—(Continued from page three)

Guam and Leyte. After the war, he served aboard the LSM 460 visiting the Western Carolina Islands on Military Government missions. In June of this year he graduated from MAT Class No. 2 and was retained here on the staff writing procedural manuals and duty in the Personnel Office.

On January 8, 1942 in Portland, Oregon, W. H. Jones became part of our vast military organization. He served his apprenticeship in San Diego, Calif., and then went to USNH, Bremerton, Washington for a short tour of duty. The dire need for hospital corpsmen in the field resulted in his assignment to the Fleet Marine Force with which he subsequently participated in the invasions of Guadalcanal, Tarawa and Saipan. In 1949 while serving aboard the USS Repose, he assisted in the evacuation of civilians from the China area. He, too, graduated from MAT Class No. 2 and was retained for research and administrative property duties.

Of the six men promoted, perhaps Mr. Lind is the happiest as well as the proudest. Until recently he was an HM1 entertaining slim hopes of advancement. Then the field in the Medical Service Corps opened up, and always one to avail himself of an opportunity, Mr. Lind surpassed the obstacles. He first enlisted in October, 1940 at Minneapolis, Minn., and since then most of his duty has been with submarines.

Next on the list, T. G. McMahon entered the Navy in May, 1939 at New Orleans, La. In "boot camp" he was honor man of his platoon. His duties have consisted of tours aboard the battleship USS Washington, Cruiser USS Cleveland and Destroyer USS Cone. Sandwiched in between have been two tours of duty as instructor in clerical procedures at the Hospital Corps School, Portsmouth, Va. During the war he participated in seven invasion Campaigns in the Asiatic-Pacific area.

Bernard J. Pfau of Indianapolis, Ind. began his naval career in May, 1940 at Great Lakes, Ill. Since that time his duties have carried him aboard the USS Chaumont, the USS SC 525, and USS APL9.

From 1946 to 1947 he served with the Fleet Marine Force in China. After graduating from a course of instruction in Clerical procedures at NSHA, Pfau was assigned to the staff Commander Military Air Transport Service.

From the foregoing accounts, it can be readily seen that the key to advancement and/or promotion is entirely dependent upon the individual's ability to take advantage of the numerous opportunities which are available to him in the naval service.

Personalities About The Center

HN R. J. Webster

It is often difficult to be tactful, courteous, and smiling when the endless flow of days brings... maybe new faces, but only the same routine. The ward corpsman does such a vital job. One of these persons of the Hospital Command is Robert John Webster, HN.

Webster made his first arrival in the world on May 23, 1929 in Weehawken, New Jersey. He attended Weehawken High School from which he graduated in June 1947. While there he was interested in sports, which he still avidly follows, and played varsity basketball and baseball.

Then he saw the beckoning hand of the sea and as many of us did, he enlisted in the Naval Service on January 12, 1949 in Newark, New Jersey. Then he learned to live the life of a sailor commencing with "Boot" training at USNTC Great Lakes, Illinois. Upon completing "Boots" he was sent to school where he learned Anatomy and Physiology, First Aid, Nursing, etc.—in short, he learned how to think, live and breathe as a navy hospital corpsman at USNHCS, Great Lakes, Illinois. In August 1949 he graduated from corps school and joined the many, many men who went before him as a ward corpsman.

He was sent to the Naval Hospital here for duty upon completing corps school. When asked where he has worked he said, "I'm an 'orthopod.' The only places I have worked are orthopedic, First Ward 5-C, and 3-C where I am presently." Concerning his future and the Navy, Webster has only one comment—"Undecided."

Carl E. Holmes

"High School football in Florida is big stuff," says Carl E. Holmes, "so much so that it is not unusual to see crowds run from three to twenty thousand for good games. And reserve seats for these games run as high as five dollars per." While Carl was Sports Editor of his high school paper, the Pep O' Plant, he renovated the sports page so that it was on a par with the big dailies. Previously the Pep O' Plant announced results a week or so after they happened, but Carl decided on a different attack. He covered the game himself and at the half he reported by telephone to the printer and again at the end of the game.

Holmes was born in Pensacola, Florida in 1922 and three years later moved to Tampa, where he remained until he entered the Navy. In Tampa he attended the H. B. Plant High School of which he said: I was a member of almost every committee existing at the school. He was also a Cadet Captain of an ROTC Unit and was offered a scholarship to the University of Tampa, but refused it.

Have you ever been to Bainbridge, Md. in December? Holmes has, in 1942 where he took his recruit training. Mud. Mud. Mud. And Corps School, too! He was a member of Class 1 and said that he helped carry every chair and desk that went into that institution. It did not seem to hurt him though, for he rose from apprentice seaman to Pharmacist Mate first class before discharge in 1948.

Following Corps School, he was sent to Parris Island Naval Hospital before boarding the USS Neville, APA 9 where he remained for three years. While on the Neville he took part in the four major invasions of Sicily, Makin Island in the Gilberts, Kwajalein-Eniwetok and Saipan. After the war his ship joined in the occupation of Truk Island. He stayed aboard until the end when they decommissioned the ship at the Boston Navy Yard in April 1946.

In the six months that followed, Carl was transferred from Massachusetts to New Jersey, to Maine, to Rhode Island, to Florida, to Maryland. A good many miles covered! In these six months he served with CASU 23 (Carrier Aircraft Service Unit) CASU 26, FASRON 2 (Fleet Aircraft Service Squadron), US Naval Station, Green Cove Springs, Florida, and finally NSHA here at the Center. Carl took a five month course in Clerical Forms and Procedures after which he was assigned to NMS staff and then to Center staff.

After discharge in 1948, Holmes came back to his old job of Military Personnel Clerk as a civil service employee. Also, he has been attending night school at Montgomery Junior College where he is working for a degree in Public Administration.

Carl was married in the Protestant Chapel here in October 1948 by Chaplain Morton. He married the former Miss Helen Mills of Gaithersburg. Mr. and Mrs. Holmes and their fifteen month old son, Chris, reside in Rockville.

HM3 A. A. Frommelt

If you happen to be a patient on the tower—any of the tower wards—and you receive a daily paper, you have met the man who twice daily carries news to you, Alton Alois Frommelt, HM3 of the Center Command.

Frommelt took his initial bow on life's stage on November 5, 1928 in Guttenburg, Iowa. "Guttenburg is a complete German settlement from North to South," says this native son of that community. He received his academic schooling at Saint Mary's high school. While in high school he played varsity basketball and baseball. He also sang in the Glee Club, second tenor—"but not anymore." He graduated from high school in May, 1946. Then he entered Boy's College of Dubuque, Iowa and studied two years for pre-med. To round off his days, from the eighth grade until he enlisted in the naval service he worked running a press in a newspaper and printing shop.

Frommelt then heard the whispering of the waves and entered the Navy on October 5, 1948 in Des Moines, Iowa. The Navy, following the saying "Go west young man" sent him to USNTC, San Diego, California where besides a sun tan he learned the ways of men who man the Navy's ships. Following recruit training he went through the gauntlet of learning, and graduated from USNHCS at San Diego in March, 1949.

His first duty station was the Naval Hospital here where on Ward 4-C he put into practice the long weeks he spent learning the theory. Shortly afterwards he was transferred to the Center Command where he worked in the post office and the Center Master-at-Arms force. Then on 1 March 1950 he was sent to the movie operators school in Norfolk, Virginia where for four weeks he learned the intricacies of movie machines, film splicing, etc. Upon completion of the course, Frommelt returned here where he has since worked in the Recreation Department, Sanitation Department, Barracks MAA of Barracks 112, and the Center Master-at-Arms force where he is at present.

To keep himself busy, on duty nights he runs the movie machine, and delivers his papers. On other nights he attends night classes at George Washington University where he is finishing his studies for pre-med. He plans to go to medical school upon separation from the Navy.

News Shorts from the Editors Desk

Face value of all policies held by Servicemen and women and veterans of World War II is \$35,872,733,000 of which 27 and a half billions is in term insurance and 8 and a third billions is in converted policies.

In Galesburg, Ill., a whiskey bottle was found with a mouse inside. Not only was the rodent tipsy, but his tummy had expanded so much he couldn't get out.

Selection Board Meets For Medical Dept. Officers

Medical Department Officers from throughout the Navy corps met at the Selection Board now in session to select officers for promotion from LCDR to CDR and from CD to CAPT in the Medical Corps, Medical Service Corps and Nurse Corps. The Board consists of RAD A. Broadbuss, MC, USN, 5ND Medical Officers; CAPT C. G. F. Commanding Officer, NH Annapolis, Md.; CAPT M. S. Mathis, Commanding Officer, NH Bremerton, Wash.; CAPT D. W. Lyon, Commanding Officer, NH Pensacola, Fla.; CAPT C. G. Clegg, Executive Officer, NH Chelsea, Mass.; CAPT B. E. Bradley, Executive Officer, NH NMMC; and CAPT T. W. Daniel Jr., NH San Diego, California. LT C. R. Wannemacker, USN is Recorder.

Not Much Research Involved

By N. J. Marbois

Well, the wheel turned one complete revolution without my contribution to keep it in motion and wonders of wonders, missed, not just by my editor, also by the small researchers. Sample: "Marbois what happened your column last week?" from no less than the assessor CMAA Jack Geoffert. "Straight Scoop McQuiness" ed the news. Needless to say, warmed the cockles of me heart.

Chief Wieser, a recent graduate of Chemistry School, has joined staff. This is the culmination of thirteen years for him, as chemistry has been his favorite subject. Along with him we have Walker PRC, which stands for Parachute Rigger; this is the second time around for R. E. ranek, HM1, who was here in Also F. Hamilton, WAVE, is one of the new arrivals.

On the civilian side of the river there is May Chichester, Jessi McEntee. While discussing new arrivals let's congratulate Hartlieb of Bacteriology for he has been a proud papa for more than two weeks now. He and the wife are quite proud of the 7 lb. baby girl. Dan says the reason he knows Margaret "Carol" is beautiful is because she can't but take after her mother. It will cost you three cigars old and an invite over for potluck.

On behalf of the peons of Tolar, I wish to thank you for bi-g settee which has just graced the front entrance.

To cut short this travesty of King's English, I leave you with this request. I contracted a cold in nose and any news you think worth passing on my sniffer is temporarily on condition will be most kindly received.

Two Centermen, Albert G. and Calvin Deval, are attending a four week course of instruction in the Sound Motion Picture Operation School in Norfolk, Va. The course covers operation and repair of equipment, lighting apparatus and projection technique.

Commander M. E. Zimmerman, Medical Service Corps, USN, is (Continued on page 7)

Coach's Corner

Sport Scope

By J. C. Woods

About three years ago an officer attached to this command came to paper his idea of a dream course—one which would embody the best features of famous courses throughout the world, not too difficult, but at the same time intriguing to the beginner and intriguing to the golfer. Many nights were spent in the Library of Congress studying golf course construction, and with the thoughts culled from the books, he went before Admiral Morton D. Willcutts and presented his plan. Our Admiral's characteristic drive evolved the plan into the beautiful nine-hole course which is ours to play today. It culminates the efforts of Admiral Willcutts and Captain Crawford, trophies were established, to permanent in nature, with the name of each year's winner engraved on the cup, and therein began today's column.

In the championship flight we find Maury Fortin and his deadly chipper, knocking off Commanders Lesney and Cole with "Sweet Swing-William" King battling past commanders Lesney and McNamara to engage in the finals. Maury Bill started off in a ding-dong duel from the first tee both drives would be covered with a blanket, the second on the green, the hole halved with fours, as the first edged the cup. On the second, Fortin's tee shot found the hole on the right but exploded to within inches of the pin as King's tee shot went to work for a bird. Both drives split the fairway on the third with that same blanket covering the balls when they were to rest, eight irons were hooked to the green and once the hole was halved in fours, the end of the first nine, Bill went down to Maury's irons which were working with precision. Start-off on ten, the King putter timed up in the morning sun and forty foot puts were dropping in all over to offset the fine play through the fairways of Fortin and the match ended with King repeating his performance of the Admiral's tournament, by a margin of four and three.

First flight finalists were Chief of Research who had to draw eye and tackle Commander Emmons with a two and one victory to beat against the genial skipper of Hospital, Captain R. M. Gillett. In order to gain the finals, Captain Emmons battle hole for hole with the known stylist from Med School, Floyd. "R.M.G.'s" refusal to play in the woods on the back nine, brought him a well earned, victory over Floyd. The following weekend found Captain Gillett and Davis taking on a thirty-hole match, with the well known in the middle, not for but oh so tight shots of Captain Gillett taking the measure of Chief Davis, a mighty fine shot maker himself, to a time of seven and six.

In the Second Flight Commander Emmons and Bill Lyon were all square at the end of the regulation play eighteen holes with the match going to go to nineteen before Jack's putter asserted its dominance. Which was the next opponent to fall Jack's putter. The lower bracket brought Commander Ayres into the fray by stroking past Hoffmaster, smooth stickler himself and "Legs" Wilson, an excellent mashie wielder who likewise succumbed to the mastery of the greens. The twenty-six hole final brought out the best putter in all its glory to edge Jack Dunn three and one.

Third Flight Finalists were White and L'Etoile. As in the other flights their pathways were no bed of roses, formidable opponents in the persons of Pierce, Luber, Nagel and

This year's underdogs have been causing general havoc throughout the country. Perhaps the Army-Navy game will come out something like this . . . Navy 27, Army 21. At any rate, the service classic will pack enough thrills to put a colorful "Finis" to this year's grid season. Radio fans over in Baltimore were almost led to believe that the announcer had gone off the beam. It seems the Baltimore Colts won their first game since the 1948 season.

Picked as the No. 1 team of the Intramural League, the Center Commanches have proven themselves worthy of such praise. N. P. was believed to be the only team which could halt the Center victory march, but the Centric's aggressive machine proved too much as they trounced the N. P. squad 25-6. George Funk, Center's competent captain stated that, "Dental is just about the hardest team to beat in the league." Despite a 16-0 victory over the Dukes, the Commanches left the field with quite a bit of respect for HMI Bickel's fighting crew. With only two games left and four victories to their credit, the Commanches should have little trouble in capturing their fourth consecutive trophy. Led by Tom Brothers at quarterback, the Indians have outwitted their opponents in every department. Linemen Hausherr and Waters have proven efficient in the Center defensive team along with Don Polizzi's blocking.

Bob DeLoche likes to play football. But poor little Bobby always seems to get hurt in the game. Not one practice session passed in which Little DeLoche wasn't mangled. Upon the suggestion of a friend, DeLoche switched his talents to ping pong. Three days later he was found sprawled all over the Rec. Room with a sprained ankle. Another teammate seemed to be having similar difficulties, he chipped a tooth in the X-ray game and was sent to X-ray after the Dental game. Needless to say, he was a bit upset during the next game—with N. P.

Stipkovich. White had been beaten by L'Etoile in the preceding tournament in an early round, but this time survived to the last match and succeeded in reversing the decision with his short game working in excellent order.

Remembering the efforts of Captain Crawford to interest new personnel in the Scotch game, the Golf Committee came up with the thought of having a tournament in which a "Johnny come lately" could meet others with the same length of back-ground. Accordingly, rules were drawn up and with such names as Goebel, Tommila, Sperry, "Tiger" Beckley, "Arms" Pennington, Baker, Farrington, Beck, Morrison — to mention but a few on the entry lists, the "Beginners Tourney" got under way. Play was limited to nine holes of match competition. Many a ball was lost, clubs were soled in the traps, lines of putt were crossed, opponents moved while you putted, to mention a few of the breaches of established etiquette. But these fellows were men some of whom had touched a club for the first time, three weeks before! These dyed-in-the-wool weekend golfers scrambled through the tournament to select as this year's best, Morrison, Sperry, Beckley and Johnson. To you, Bill Downing our own Professional, for all your patience, and excellent tutoring you have shown in developing eighty-three beginners into golfers, goes sincere thanks from all hands who daily pursue the gutta percha from tee to green.

Preparing For Channel

J. W. Morrison, HN, shows a group of youths the correct stroke for self water travel. Morrison and C. J. Goebel, HM3, of NMRI are Water Safety Instructors here at the Center.

CDR King Once King, Winner Of Second Scepter

By C. J. Goebel

If anyone can doubt the truth of the proverb, "You can't keep a good man down," we, here at NNMC will readily testify to its veracity. Cdr. King, (Swanson title holder) recently extended his consistent driving, chipping, and putting, right into the "halls of honor" by defeating HMC Fortin for the championship of the Willcutts Golf Tournament, by a 4-3 margin.

Chief Fortin, incidentally, does an excellent job in this "sport of the individual." He is on the verge of entitling a professional booklet, "Second Place Winners—Past and Present."

Trophy Winners of the various brackets are listed below:

- Championship
1. King, Cdr. Winner
2. Fortin, HMC Runner-up
1st. Flight
1. Gillette, Capt. Winner
2. Davis, HMC Runner-up
2nd. Flight
1. White, C. K. Winner
2. Le Toille, HMC Runner-up
3rd. Flight
1. Dunn, Mr.
2. Agres, Mr.
(Winner has not been determined at this writing.)

By C. J. Goebel

Psychological Warfare

This local NP squadron of eight, commanded by bombardier, J. M. Mercer, seems to be reminiscent of a scoring ability equaled by few teams. (Dare I mention the impressive teams of Army and Oklahoma?). This lively squad of "red-men" have rolled up a total of 75 points in their last two games, while their opponents were entirely unable to acquire even one scoring threat against them. Strong line, excellent passing—what more could a team desire?

Golf Course Specialist

HN Will Morrison, set a rapid pace for the "group of beginners" attracted to the NNMC golf course for the past few week-ends. Only woman applicant — Helen Jarvi. Only handicap — a ton of leaves falling on 7, 8, and 9 holes from those "beautiful Maryland trees." If you're thinking of taking in a tour of the last three holes and have a little difficulty getting a straight ball with your number 1 wood, I might suggest you purchase balls in ample supply. Not to outdo any current film comedy, but, "They're Cheaper By the Dozen."

"Let There Be Light"

Training rules were slightly ignored recently at the big, old, Halloween shindig given on the base. Tommy Brothers, George Funk, Robert Deloche, and D. F. Polizzi (regarded as the nucleus of NNMC sports participation) were seen doing imitations of a Center Command halfback running a "round-the-end" sweep. A little later in the evening, I was informed that it wasn't a football movement at all but merely one of the newest "polka" steps. My eyes sometimes deceive me.

Potomac River Naval Command Basketball Schedule 1950-51

- 5 December
NNMC vs USNCS, Cheltenham, Md. at USNAS, Anacostia, D.C.
- 7 December
USNAS, Anacostia, D.C. vs NNMC *
- 12 December
NNMC vs USNPC, Dahlgren, Va. at Dahlgren, Va.
- 14 December
USNRS, Washington, D.C. vs NNMC *
- 9 January
USNPC, Anacostia, D.C. vs NNMC *
- 11 January
NNMC vs USMCI, Washington, D.C. at USNRS, Washington
- 16 January
USNAS, Patuxent River, Md. vs NNMC *
- 18 January
USNCS, Cheltenham, Md. vs NNMC *
- 23 January
NNMC vs USNAS, Anacostia, D.C. at USNAS, Anacostia, D.C.
- 25 January
USNPC, Dahlgren, Va. vs NNMC *
- 30 January
NNMC vs USNRS, Washington, D.C. at USNRS, Washington
- 1 February
NNMC vs USNPC, Anacostia, D.C. at USNAS, Anacostia, D.C.
- 6 February
USMCI, Washington, D.C. vs NNMC *
- 8 February
NNMC vs USNAS, Patuxent River, Md. at Patuxent River

* Denotes home game

"No Lady! This is not the number seven fairway."

Captain: All hands on deck. The ship is leaking.
Voice from the fore-castle: Aw put a pan under it and go to bed.

There's a new punishment for GPs who go AWOL. They put them in solitary confinement in the guard-house and torture them with a copy of "Esquire" that has the pages pasted together.

"I" Predict

By C. J. Goebel

- November
13 NNMC over NMS by 26
14 NP over X-Ray by 20
16 Lab. 15 over Lab. 16 by 12
17 NDS over NMS by 14
20 NMRI over NNMC by 7

Salt Shaker Sailor

Dear Bethesda,

"Goin' Fishin' . . .

We are still anchored off Veagues . . . the marines have accomplished their mission . . . the war ships are gone. But we stay.

This morning, while sunning myself on the fantail, I saw a group of excited sailors leaning over the railing and pointing out over the water. I ran over with my curiosity and we both saw what had raised the commotion . . . dorsal fins . . . sharks! There were about seven of them languidly cruising about fifty yards out. When the mess cooks dumped the chow remnants over the side there was a quick churning of water and the snap of hungry jaws like a book slammed shut.

This is when I got my first look at the monsters. They were just off the fantail now. They streaked through the water at terrific speeds. I could see their little black head eyes, cold and impassioned, and they were actually beautiful as they swam. They descended, like a fighter plane, down into the green sun-rayed depths of water, suddenly tapered off and hit the surface again. They seemed to have long trails of slime attached to their fins, but I later learned, when a fellow caught one of these trailings, that they were, in fact, pilot fishes. You see, sharks are blind, but these pilot fish, flat heads with suction cups to hold onto the fins, lead the shark to food, and then, after the big fellow has had his repast, they scout out and eat the remnants.

One of the deck crew came out with some quarter inch line and a hook about seven inches long. He tied boards to the line to act as a float, and then lowered the line over the side. It wasn't long before he had one on the line. He tied the line to a bitt and recruited some help, but we could not get him any higher than two feet out of the water, we being a good forty feet up and he weighing a good three hundred. We left him there to ponder the situation, but to our surprise, he was soon gone. We pulled up the line and found out why. The hook was pulled straight!

One of the metalsmiths made a half inch diameter hook, a foot long and a cook contributed a half pound of raw liver. Soon we had another monster thrashing at the end of the line. We played him for about an hour and finally got him near the fantail. We lowered grappling hooks into his jaws and secured him fast, then we tried to haul him aboard but he was bigger than the first. Finally we tied the line around a vertical windlass and the boat's sun' mate hauled him aboard. We kept his teeth, jagged diamond shaped teeth, and his back bone and threw the rest overboard. His comrades quickly devoured the flotsam.

Night came and we saw them swim away by moonlight. It reminded me of:

The deep stained greens of silent wave,
Where moonbeams play, then find their grave,
Awake with sudden turbulence,
Sway suddenly with violence,
As sleek shaped slide across the bar
Like pathways of a shooting star.

Your Salt Shaker,
A. Sailor

Did You Know That

There are 79 buildings that comprise the CENTER and that 5 more are in the stage of construction.

Lighting the ways and walks of the CENTER are 188 street lamps.

The Swimming Pool in the CENTER'S Recreation Building holds approximately 150,000 gallons of water.

The average replacement rate of electric bulbs here is 3,000 units per month.

There are 5 miles of roads, exclusive of parking areas, and 4 1/2 miles of sidewalks within the CENTER'S boundaries.

To feed patients and staff, 19,000 gallons of milk are required each month; 600 dozen eggs each week and 200 pounds of flour each day.

The CENTER reservation covers 242 acres.

There are 108 miles of water, gas and steam piping in buildings and grounds of the CENTER.

To carry out the intra-CENTER communication needs alone, 354 telephones are available.

Roughly one mile of plaster bandage goes into the fashioning of casts every week here at the CENTER.

The Post Office here at the CENTER handles about 200 sacks of mail each and every week. This is exclusive of parcel post shipments.

Said the preacher as he slipped on a banana skin: "It's odd how old forgotten words spring to mind, isn't it?"

And then there was the little Polar Bear that said after sitting on the ice: "My tale is told."

Lab 15 Under Low Power

By MOE and GIZZ-MOE

Things are really raging in the Serology department with such "proficient" student-technicians as Billy "Greek" Ragouzis and "Hagerstown" Robertson. Seems as if the only boner "Rags" could find to pull was to swallow some sheep cells while pipetting same. Robbie, never to be out-done in the boner department, went next door to the animal room and ate some of the rats' peanut brittle. Well, it all counts on twenty, men!

Have "you-all" seen that hair trim that "Southern Cal.", alias "Hollywood" Pleasant got for last Captain's inspection? Now the problem is solved—he really does have ears!

On Oct. 28, another Lab. 15'er joined the "ball-and-chain gang"—yes, we mean he tied the fatal knot—Congrats, Cavaliere.

Developing fast is Lab 15's branch of the A.M.T.'s "test-tube holders." Officers were elected as follows: King, president; Parpart, vice-president; Peterson, secretary; Delaney, Treasurer. It's not unusual, finding Parpart in charge of vice.

We are sorry to hear that Jimmy "Texas" Mains has been turned in on the sick list, but we know that he will be up and around soon. We imagine that it isn't too hard to take, especially when lovely ladies send him roses by the dozens.

Stand aside, Bill Stern! Lab. 15 has a real football expert. Speaking of Robbins, of course—they tell us that he actually got five out of twelve on his last football predictions. Getting pretty good, aren't you, Robbie. We hear that the Tex-

as Rangers need more men like you. While still on the subject of football, squeezing out a 12-9 victory over Research despite a last-minute rally by the latter. Lab. 15's scoring came on two plays to Robertson in the end zone.

Still on sports, we hear that Strout is running a Western Union wire into the barracks. Hasn't he heard that the bookie business is going to pot?

Well, it's about that time again, so we'll say "so long."

Hallowe'en Dance

Camouflaged gobs and gals line up for selection of "best costumed" at the recent Halloween Dance. About 350 folks enjoyed the dancing, features and refreshments in the cleverly decorated gym.

NDS, NMRI Dental Officers Participate In ADA Meeting

Officers from the Naval Dental School and the Naval Medical Research Institute attended the Ninety-First Annual Session of the American Dental Association in Atlantic City, October 30 — November 2.

The Dental School was well represented in leadership and participation in many of the sections. Captain L. D. Mitchell, Jr. Commanding Officer of the Naval Dental School, attended the sessions, and meetings of associated professional groups. Captain A. H. Grunewald, Executive Officer of the Dental School, was chairman of the Section of Full Denture Prosthesis, with Cdr. B. W. Oesterling as Secretary of the Section. Cdr. Oesterling and Cdr. A. R. Frechette were active in the pre-session meetings of the American Denture Society, as was Dr. T. A. Lesney in the American Society of Oral Surgeons.

Cdr. F. M. Kyes presented an essay on "Pitfalls in Full Denture Service." Cdr. F. E. Frates, Jr. spoke before the combined assembly of the Dental Hygienists' Association and the Dental Assistants' Association, and addressed the Dental Historical Society. Cdr. Lesney gave a lecture clinic, on the program of the American Society of Oral Surgeons.

Clinics in their several specialties were presented by the following officers: Cdr. K. O. Turner gave "Matrix Application for Direct Resin Restorations"; Cdr. A. R. Frechette, "Biochemical Considerations in Partial Denture Design"; Cdr. K. M. Broesamle, "Some Principles of Airbrasive Cutting Action"; Cdr. R. B. Wolcott, "Direct Resinous Filling Materials"; and Lt. Cdr. H. R. Superko, "Stress Breaker Principles in Partial Denture Design."

Training films produced at the Dental School were shown on the Motion Picture Program. The First Prize, awarded in the Scientific Exhibits section, went to the six-panel Exhibit prepared by or under technical guidance of Dental Officers from the Medical Center.

Participation by Dental Officers in National and local dental association and society meetings is encouraged under the policy of having these officers, as part of their career responsibilities share actively in the development of their professions.

Navy Belles

BY GEORGE

To the man we do not know, and the man we never get to see, thank you so much for the beautiful flowers you have been bringing building 123, the place we call our Navy home. There is nothing like beautiful flowers to brighten up our front room. We thank you from the bottom of our hearts.

Do you sing?—Can you carry a tune?—Can you read the words of a song?—The church organists are looking for people to sing for the church services. With Christmas coming, they need you. Just a little bit of your time and such a lovely result. Sing in church. See Sarah or Rockie.

Just Around Our House

I have heard of moving the back fence on Halloween, but you should have seen the junk I found on my bed when I got home from work on Tuesday. Pringle going around from cubicle to cubicle yelling, "Trick or Treat." Can't trust that girl!! Did you find a hair brush in your bed? Most uncomfortable.

Wedding bells rang Friday, 3 November for Sarah Margaret Woodward and Jerry Moss. We all want to add our wishes for the best of everything.

Margaret (Peg) Drumm tells us of her wedding plans to Jack Ruth Saturday, 25 November in Lambertville, New Jersey.

Girls leaving: among those leaving we have "Reggie" Wyka going west. Reggie has been here for a long time, and we hate to see her go. Also leaving around 3 November are, Ruth Alger, Joanne McClintic, Ann Badolato, and Helen Glover.

We also hated to see Harriet Hanson leave us, but she bid us goodbye the 2nd to go to X-ray school in Philly. We all know Jo and the girls upstairs will miss her.

Did you ever see such shining eyes as those of Alma and Jonnette Saturday, when they found out they could go to Physio school. Jo. Feldi is going also, but she wants O. T. school. I wonder who will get the girls in our corner up in the morning now, Alma?

Hammy took Pancho home to Mississippi on leave. They will probably both come back with a highly developed "Hi you all." So the girl from the heart of Mary-says, "By you all."

Cottage Capers

By C. J. Goebel

It was a dark, dreary, hazy sort of night. The rainy season settled upon us with a sudden accompaniment with an ever-increasing gale-resembling wind. Steadily, dreadfully, we had our way within 100 feet of the building itself. Suddenly we our breath, then slowly peering through the window.

What we viewed within, amazed and disturbed us. People, they—they all seemed enjoying themselves immensely. Large group of them were dancing some seemed to be well involved several games of cards; the over there near the coke machine someone was beating out some hop on an old piano. Well, let tell you—faster than you could "Rip Van Winkle" we also "sitting on the inside" instead "looking on the outside," enjoying ourselves no end.

Yes gang, this episode is repeated day after day. Constantly new are sprouting up to add to the of enjoyable evenings spent at a cottage. If you need a friend come on down to the "Y" Cottage. If you want to learn something about dancing—come on down to the "Y" Cottage (Thursday specialty). If you're looking for a home for your family—come down to the "Y" cottage. They give you much helpful information. In short, if you want to enjoy yourself—come on down to the Cottage.

Here's a brief run down special events during the remainder of November:

Nov. 17. Orchestra Dance
12:00 Glenbrook Country Club
Nov. 24th. Square Dance (Glenbrook Club-)
Nov. 19th, and 26th. Sunday supper and program.
Nov. 14th, 21st, and 28th. Handcraft nights. Come and make a few X-mas gifts for yourself.
Nov. 16th, 23rd, and 30th. Air Forces Nights. Come and have a wonderful time!

SEA SPOTS—If this is what is meant by having spots before your eyes, it ain't bad. The lovely miss (whom you couldn't miss) is Lynn Klare, an entrant in the Miss Seaside Glamour contest held at Atlantic Beach, Long Island. In case you're still interested, the swim suit is a nylon leopard velvet elastic job.

Red School cuttlebutt

By O. C. "Skip" Skinner

Everyone is trying to recuperate in the big Halloween Dance which really turned out to be a success. All of the most prominent Med School personnel were having a grand time. Every one is still wondering who it was who won the first prize dressed as a girl. She was really beautiful, isn't she?

Seems Tiny Schroer and John Rossian are courting the same girl and on friendly terms. Nothing very unusual. Although the school is too small to start any trouble with the weight-lifting Gargoyle.

Dr. Brown has really been put to the elbow grease to his golf. It will probably be rubbed before long. Brownie is one of the best golfers in this command ever and we all hope he wins the trophies to go with the press-one.

Efforts of Lab 16 is still the famous "Lover" that he was when he was stationed here before.

Red School's football squad is to be having a hard time getting started. They seem to have a lot of the best material in the school but as yet can't utilize it to their own advantage. Tiny Schroer is giving the boys workouts, night and night and just hoping that will come up on the winning team before too long. One of the best backs in the league is Bruce who along with Roush is giving up a fast backfield that is very hard to stop. Here's hoping that the boys will be ready for their next few games and get a couple in the win column.

Seems some of the Lab 15 boys are enjoying the Southern hospitality in Winchester, Virginia. If you don't believe me just ask the "Winchester" Kimmell, Mattox, Middleton Mains.

That is that grey streak that has been driving down Wisconsin Ave. It is none other than the famous "Hot Rod" Troop HM3 and his 47 Dodge which he just passed recently.

Congratulations are in order to Cavalier HM3 who was married recently to Miss Anna Marie Wall in Washington, D.C.

LCDR WIESE

Continued from page one

At Farragut, Idaho he was ordered to Sun Valley, Idaho for duty over the former Union Pacific Hotel Resort into a convalescent hospital for the Navy.

During 1944 he assisted in the procurement of equipment and establishment of U.S. Naval Medical Research Unit No. 2. Shortly after commissioning of this Unit at Rockefeller Institute for Medical Research in New York City he was ordered for duty overseas with BRU2. After his return from overseas in June, 1946 he was assigned duty as administrative assistant to the District Medical Officer, Seventh Naval District, Miami, Florida.

Throughout LCDR WIESE's career, his persistence and desire for advancement has enabled him to climb the long ladder of the school and is indeed a pleasure to serve with him. His new duties and the student body expect him a hearty welcome as he takes over his important and exacting duties as executive officer of the Naval School of Hospital Administration.

Hawaiian Theme Permeates Reunion In CPO Club

At left, a scene from the CPO Club where a reunion of the group that served in the Pearl Harbor-Honolulu area during the war. At the right, Captain and Mrs. G. B. Tayloe, Executive Officer at Aiea.

By O. C. Skinner

A recent evening at the Chief's club, marked the reunion of many personnel, who were stationed together in the Honolulu-Pearl Harbor area from 1946 to 1949.

It was made possible by the host, Chester F. Blackmore Jr. HMC, who is the current instructor of Hematology and Serology at the Naval Medical School. Blackmore contacted all of the people he had had duty with at Aiea Naval Hospital and thusly they kept contacting their friends. In all there were 150 persons who enjoyed a wonderful evening of fun.

It was started off by a luscious Filet steak dinner and followed by entertainment and a get together of old friends. The ladies came in Mumu's (native dress) and the gentlemen donned aloha shirts.

More prominent among the guests were Captain and Mrs. G. B. Tayloe. Captain Tayloe was the Executive Officer at Aiea during the time mentioned above. He is presently at the Office of the Secretary of Defense.

Also present was Commander and Mrs. E. A. White. Cdr. White is presently the head of the detail section for Enlisted Men at the Bureau of Medicine and Surgery.

A gala time was had by all who attended and it was a big success.

Big Aircraft Makes Trail Flatop Landing

Washington (AFPS) — The Navy's newest and heaviest carrier-borne aircraft, the AJ-1 attack bomber, was set down recently on the deck of the carrier USS Coral Sea. The AJ-1 weighs over 17 tons.

The AJ-1 successfully completed trial landings aboard the Coral Sea off the Virginia Capes.

The new bomber is designed for high speed attack missions from carrier decks. It has a top speed of more than 350 miles an hour and carries a crew of three seated in a pressurized cockpit.

TOPS IN GOLF

RADM Swanson Trophy Tourney

RADM C. A. Swanson, MC, USN, Surgeon General of the Navy presents trophies to the winners of the tournament that bears his name. Left to Right: CDR "Coach" Frates; CAPT Mitchell, LCDR Zimmerman, RADM Willcuts, CAPT Kellum, Bill Downing, CAPT Gillett, CDR "Champ" King, LTJG Atkinson, CAPT Hogan, HMC Fortin, CAPT Gross, RADM Swanson, CDR Crawford, HMC Gullison, HM3 D. R. Talbot and HMC L'Etoile.

What About Women?

Lady Twits Man On Aging Habits

Washington (AFPS)—A syndicated woman columnist, in a recent word to her female readers, offered the following tips on how to tell when a husband is getting old:

"He starts picking out the brightest neckties he can find—or switches to bow ties.

"He starts getting his hair clipped closer, especially over the temples.

"He complains about how little the bright young men coming into his business know and how much they think they should know.

"He complains that the cleaners have shrunk last year's suit when he discovers it doesn't hang as comfortably loose as it did last year.

"He keeps talking about having to take more exercise but doesn't do anything about it.

"He moves the line marked middle-age up 10 years."

These are only a few of her ideas on the subject—but 'nuff said.

CPO Exams Planned For By June, '51

Washington (AFPS) — Promotion to chief petty officers, acting appointment, of qualified and eligible first class petty officers on the current waiting list has been authorized by the Bureau of Naval Personnel.

A total of 252 PO1s are affected by the promotion authority contained in BuPers Circ. Ltr. 168-50 (NDB, 31 Oct. 1950).

At the same time, BuPers announced that present plans call for conducting CPO examinations some time before June 30, 1951. This reverses a previous announcement which indicated that no CPO examinations would be held.

(Continued in col. five)

I drink nothing stronger than pop and there's nothing pop doesn't drink.

I never claim I'm a self-made man; I don't want to take the blame.

His wife was a WAVE and he waved at a WAC.

The WAC was in front but his WAVE was in back;

Instead of a wave from the WAC he it said,

He won but a whack from the WAVE he had wed.

Funny thing about worms is that they don't have any sex. Any worm can love any other worm.

We hear the sweater girl is going out—and every night, too!

Sign in a Chicago lingerie shop: Our lingerie is the best. Smart women wear nothing else.

Advice to girls: Never be afraid to flatter a man because you can't give him a better opinion of himself than he already has.

Willis Armstrong Gets "Well Done"

Mr. Willis Armstrong, civil service employee in charge of the plumbing shop here, has received the Navy Department's Industrial Accident Prevention Award consisting of a six year lapel-button-bar and a Certificate of Commendation. It was presented to him in recognition of his contribution to the Navy's Accident-Prevention Program.

RADM M. D. Willcuts, MC, USN, Commanding Officer, NNMC, delivered the commendation from the Under Secretary of the Navy with the following endorsement: "Your concern for safety of others... is in keeping with the highest traditions of the Civil Service and the Navy Department Accident-Prevention program, and reflects great credit on the public works department and the station as a whole, as well as the plumbing shop of which you are in charge. The Commanding Officer is especially pleased to deliver this acknowledgement of a job well done and desires to express the appreciation of this command."

Mr. Armstrong has been at the Center since May, 1942. Before coming here he worked for the Federal Works Agency in Washington.

Dental Explorer

By L. P. 'Louella' Burger

Avast there matey! Pull up a chair and sit a spell, while we spin the best of the crew in our gossip circle.

To start with, I wish to offer the Dental "Dukes" an apology. In last week's column I gave a score of 6-0 favoring Lab. 16. Since that printing, I have been informed that a "Duke" protest was upheld and the final score was 7-6 favoring Dental. In more recent games the boys defeated X-Ray 19-7 and then dropped to NH by a 16-0 count. But don't count them out yet. They have a lot of good material and can really move that pigskin downfield.

Allison and Keller came home from leave this week. About all that I can get from them is "get paid and more leave for the troops."

Things have been pretty dead this week with most of the staff officers in Atlantic City attending the meeting of the ADA.

Now that Allison is back from leave we all will be hearing about his escapades at the Cottage. And for the big events of Giffords, we all look to J. J. "Fats" Swedberg that drug store commando. Tell us, J. J., how do you keep that pace? Say, Owen and Risley, what is all the dope on the "grilled cheese" concession that you two have going in 123?

This week finds a couple more of the boys on the sick list. "Red" Adams and Tommy Levatino. Both on surgical wards. Hope you get out soon. We sure need help around here.

What is the matter with that convertible, Bray? Don't you have a nickel to feed it. If you are interested in getting rid of it, just see Penner—he has a fine collection of heaps.

A few of the guys have been out on the fairways lately. We note that Beckley, Beck, Farrington and Pennington are in pretty good form.

We see that Britsky is looking unhappy nowadays. Could it be that there are no new males around, or that there are too many of the old ones.

That was mighty fine cider that you brought from Ohio Bickle. It was cider, wasn't it. Seemed a little hard.

So much for another week. we will be seeing you again—So long for now.

NEWS SHORTS

(Continued from page 4)

Commanding Officer, Naval School of Hospital Administration, addressed the Medical Service Corps Panel Meeting, Association of Military Surgeons, Hotel Statler, New York City, on November 10. The commander spoke on "The Medical Service Corps Officer as a Navy Hospital Administrator."

CPO EXAMS

(Continued from col. three)

petitive exams would be held during the fiscal year 1951.

First class petty officers affected by the promotional authority are those who successfully passed the Navy-wide competitive examinations on Dec. 1, 1949, and placed on the waiting list.

The promotions may be made by commanding officers not earlier than Dec. 16, 1950 or later than Feb. 28, 1951.

Background Scenes Of Our Publication

What happens to news after it is written? How does it get into print? The above photographs were chosen to illustrate just what goes on after an article is written and edited.

In the picture (upper right) the linotype operator sets the copy into lead castings. Each casting measures the width of one column in the paper.

Then (upper left) the pictures which are to be used in the issue must go to the engraver, who through technical processes transmits the picture onto a metal surface. After these two operations are completed a "proof" or sample

copy of the engravings and the lead slugs are returned. The editors make any corrections that are necessary, then return these proofs to the printer who in turn makes corrections of the lead slugs.

Following this (lower right) both the lead castings and the engravings are placed at the right intervals and the right places in an iron form, as the editors have indicated. The paper is finally ready (lower left) to be printed. The iron frame is placed in the press, the motors start rolling and there you have it, the paper is born.

Keepers Of The Green

Daily whipping and mowing by hard working greens keepers Ray Etchison, Paul Shiflet and Leo Shipe have made our greens the envy of the entire District. Whipping with bamboo poles done early in the morning removes the dew from the grass, an important process in the fight against fungus.

Just Wishing

By C. J. Goebel

A pass, a run, a wide end sweep
Me thinks I shall go mad.
How can they pull so many plays?
I should have stayed in bed.

Right off tackle, block that hole
Look out, he's driving more.
That quarter back, he sure is smart
We've really got him sore.

He's going to kick, no it's a fake
He's taking it round end.
That end was sleeping on the job
It's first, and only 10.

Get in and hit, we haven't lost
It's just all in your mind.
Look, There's the clock
We've won it gang.
I knew it all the time.

(DEDICATED TO THE BALL
CLUB OF NMRI).

NMRI Host To H.S. Students

Students from Alice Deal Junior High School of Washington were recently conducted on a tour of NMRI. The sixty students were divided into several groups. A typical excursion included view of the animal house, diving department including decompression chambers and diving chambers, the aviation department cold rooms.

Navy Gets Double Measure Twins Ship Over For Six

From Phys. Med. Graduate

Twenty-two new Physical Medicine Technicians have graduated from a six month course in Physical Medicine at the Medical School. All but two were transferred to Naval Hospitals throughout the U. S. The two who have remained here are L. E. Coff and R. C. Daly, both working in the Physio-Therapy Department. Other graduates are: R. E. Al-A. A. Badolato, C. Estes, R. J. George, H. B. Glover, J. Horner, D. C. Johnson, J. K. K. T. E. Martin, J. McClintock, A. Odom, N. E. Reynolds, J. G. M. Scott, L. E. Thibault, Wagner, E. S. Wiedman, and Wyka.

The course is under the direction of E. I. Erickson and CAPT J. Hart and subjects studied are: science, anatomy and kinesiology, physiology, psychology, psychiatry, neopsychiatry, physio-therapy, and electro-physiology.

MS Graduates X-ray Techs

Forty-four enlisted men graduated recently from a six month course in X-ray given at the Naval Medical School. The course consisted of radiographic technique, photodensitometry. These subjects include mathematics, electricity, anatomy, physiology, dark room procedure, special procedure, and office procedure. Presentation of certificates was made by Captain J. B. W. Hogan, of NMS.

(Continued on page 2)

The only distinguishing marks with which you can tell the Brogdons boys apart is their rate. Bobby is HM 3, and Billy is HN, otherwise they are identical, same service, same age, same looks, same everything, which presents the question, "How can you tell them apart when they are in civvies?"

Both Bobby and Billy are students in Laboratory School and both reenlisted for six years recently. Captain B. W. Hogan, CO of NMS, administered the oath.

The twins enlisted together at San Diego, November 11, 1947, and were stationed together at the Naval Hospital, Key West, Florida, from January, 1948, to October, 1950. Both are great boxers, Billy having won many trophies both in the Navy and in Golden Gloves. The "Battling Brogdons" were a real treat on the Key West team. In October they were transferred to the Naval Medical School for a one year course of instruction in laboratory technique. The Brogdons hail from Tishomingo, Oklahoma, where they jointly attended Tishomingo High School, receiving approximately the same marks.

Talk about parallelism!

DOs Selected For Promotion

Congratulations are in order for ten officers attached to the Naval Dental School here. Eight commanders were selected for Captain and two Lieutenant Commanders selected for Commander were announced by ALNAV published last week.

From CDR to CAPT: K. M. Broesamle, S. W. Brown, A. R. Frechette, S. T. Kasper, F. M. Kyes, B. W. Oesterling, E. G. F. Pollard and K. O. Turner.

From LCDR to CDR: F. P. Scola and H. R. Superko.

News Shorts From The Editor's Desk

The course in *Medical Aspects of Special Weapons and Radioactive Isotopes*, to be held at the Naval Medical School, will begin today. The five day course is conducted primarily for inactive reserve Medical and Dental Corps officers, however some regular Navy officers will attend.

There will be fifteen free tickets available each Wednesday for the *National Symphony's* weekly concerts at Constitution Hall. Interested persons call recreation Office, ext. 672.

ADM Forrest P. Sherman, USN, Chief of Naval Operations, visited Korean casualties here November 13.

Dr. James Whitlaw from Phoenix, Chief of ACTH Committee for the state of Arizona visited the Center, RADM Willcutts and CAPT Hogan recently in connection with the bone and tissue banks.

Boston (AFPS) In a local night club, the following announcement came over the loud speaker: "Will the owner of auto with license number K99920 please go out and move your car? You are parked over an (Continued on page 2)

Staff Dance Saturday Nite

The Dance Committee headed by HMC Tommila, NMRI, has passed the word to press your blues and shine your shoes for Saturday night, December 2 when the Staff Dance will be held in the National Press Club, National Press Building, 14th and F, N.W. Music furnished by the Navy Band will be heard from 2030 until 0030 for you stompers and chompers. Soft drinks will be served.

USMC 175th Anniversary Celebrated Nov. 10 On T-18

Front row, left to right, RADM M. D. Willcutts, Col. P. M. Rixey, Pfc R. O. de Lavieze, and Pfc R. W. Piper. Second row, left to right Brig. Gen. H. E. Rosecrans, Pfc W. J. Moore, Pfc E. E. Williams, M/SGT H. M. Coff, Pfc G. L. Lambert and Pfc Kerney Camp.

Marine Corps patients here at the hospital celebrated the 175th anniversary of the Corps Friday November 10 with a party and cake cutting on Tower 18.

Those attending the celebration were Brig. Gen. H. E. Rosecrans, USMC (Ret) and Col. P. M. Rixey, USMC (Ret), both patients on T-15; patients PFC R. O. de Lavieze, PFC W. J. Moore, PFC E. E. Williams, PFC G. L. Lambert, PFC Kerney Camp; and MSGT H. H. Coff, the only Marine on duty here at NNMCM in the Casual Office.

The youngest Marine present and Korean casualty was 18 year old PFC R. W. Piper who received his injury along the Nakdong River.

RADM M. D. Willcutts, CO, NNMCM and CAPT. R. M. Gillett, CO, NH were on hand to congratulate the Fighting Marines on their Birthday.

Honor member present was the 71 year old Col. Rixey. . . .

Fifty years a Marine! In fact from the Spanish-American War Col. P. M. Rixey's service dates when he was a volunteer Naval Cadet on the old U.S.S. Buffalo.

Col. Rixey is a nephew of former Surgeon General of the Navy P. M. Rixey; he is also a nephew of one of the old-time Medical Inspectors, Cumberland George Herndon.

He has three sons in the service: Col. P. M. Rixey, Jr., USMC, Commanding Boston Barracks, Boston, Mass.; Cdr. F. S. Rixey, USN, Staff COMAIRLANT, and 1st Lieut. P. H. Rixey, USMC, Naval Mine Depot. There is also a grandson, 2nd Lieut. P. M. Rixey, USMC, on duty at Quantico, Va. Col. Rixey says, "The total years in uniform of the father, sons and grandson, all living and in the service totals 100 years plus. A record we think!"

Col. Rixey is a graduate of the Marine Corps Schools, the Naval War College, the Army War College, and has served on Naval War College Staff, and Marine Corps Headquarters War Plans Section. He has served in three wars, on many ships and in many foreign

LCDR Laramore To NSHA For Personnel Duty

By George E. Bachert

LCDR H. H. LARAMORE, MSC, USN, has reported to the Naval School of Hospital Administration where he is now in general charge of the Personnel-Records instructors and instructing the Officers' class. He comes to us from the Staff Pacific Reserve Fleet where he was serving as Medical Administrative Officer.

Mr. Laramore first became a Navy man in 1928 when he enlisted in Macon, Georgia. This was the beginning of another colorful career which ever bears testimony to the Navy's best advertisement, "Opportunity for advancement and adventure".

After completing basic training at Hampton Roads, Virginia, and Hospital Corps School, Portsmouth, Virginia, he was sent to the USS Mercy. Since then he has served at U. S. Naval Hospitals League Island, Pennsylvania, Philadelphia, Pennsylvania, Annapolis, Maryland, Pensacola, Florida, Seattle, Washington, and Oakland, California.

Mr. Laramore's sea going time was spent aboard the battleship USS Wyoming and the carrier USS Yorktown. These shipboard tours he considers an important phase of his military career.

In May, 1944, he went to Espiritu Santo where he joined Base Hospital No. 103 enroute to Guam from Samoa. He assisted in completing this major move which is a feat that reflects credit to all participants. When the hospital was set

The Chaplain's Corner

By Chaplain H. Grady Gatlin

Let Us Give Thanks

Of all the holidays observed in this country, there is none so distinctively American as Thanksgiving. It is a legacy of the Puritans, cherished because of the romance and traditions that surround it.

Although Thanksgiving as we know it is an American institution, days of thanksgiving in recognition of special mercies or favors have been known since the earliest times, and have been common to almost all nations. We can only guess, but we can never know what primitive people of a forgotten age first gave thanks in their crude way for rain after drought, for food after famine.

The Israelites appear to have been among the earliest people to observe a special day of thanksgiving. They observed faithfully, with great rejoicing and solemn ceremonies, their Feast of Tabernacles, a day of thanks not only for the bounties of the land, but for the escape from Egyptian bondage.

The ancient Greeks had also a day of thanksgiving known as the Feast of Demeter. The Romans appear to have had a similar festival at harvest time called Cerealia, a time of rejoicing and thanksgiving. So even in primitive religions the basic idea of gratitude to the gods by way of feasting and thanksgiving is clearly shown.

But although there have been many days of thanksgiving and rejoicing, and although many festivals like our Thanksgiving exist in various parts of the world, America was the first nation definitely to set apart one day each year for the sole purpose of rejoicing in the good things of life and giving thanks to God. The human mind seems to be endowed with a peculiar bent toward forgetfulness, and at the same time has an instinctive fear of being forgotten. It is a strange contradiction of terms: the tendency to forget and the fear of oblivion, but life is full of such contradictions. We persecute the prophets in our midst, but in the next generation build monuments to their memory and lament the spiritual blindness of the fathers who killed them.

Gratitude is one of the noblest virtues and yet it is neglected and ignored so often. "Cultivate the spirit of gratitude for it is one of the rarest flowers that blooms in the garden of the soul."

LET US GIVE THANKS TO GOD: WE THANK THEE for America and the principles of freedom for which it stands; freedom of worship, freedom of speech, freedom from want and freedom from fear. WE THANK THEE for our grand and glorious heritage. This heritage is being enriched day by day and our traditions purified and glorified. The spirit of our forefathers is still alive. It was throbbing in the fox holes of Bataan. It is pulsating on the frozen battlefields of Korea. It is vibrant throughout our nation. WE THANK THEE for that same spirit which will save our democracy and make it possible for Old Glory to continue to wave over the land of the brave, the free and the true.

open manhole and repairman would like to come up and go home."

(AFPS) Every Serviceman knows the Silver Star is one of the nation's highest awards for bravery in battle. Few, however, know this decoration originated as a written citation, and not a medal. In 1936, an Act of Congress authorized issue of the present day Silver Star medal and ribbon.

RADM C. B. Davis, USN, Commandant PRNC inspected the Center recently and visited the hospitalized Korean casualties.

LCDR C. L. Crawford, MSC, USN returned last week from leave in his home town, Altoona, Iowa.

GRADUATION

(Continued from page one)

Of the thirty-four students, only four will remain here: E. A. Charryan, D. R. McMahan, M. C. Posipanka, J. E. Weddell. The other graduates are: E. M. Aguilar, D. W. Baker, J. H. Blankenbicker, S. Blafiosky, D. H. Boveh, D. J. Brideau, C. H. Brush, R. W. Burkhardt, C. Carter, L. R. Dantin, J. W. Dardreau, F. E. Davis, G. L. Derrick, F. M. Fillion, J. H. Gonsalves, W. T. Gordon, V. M. Kindschi, R. E. Koence, R. B. Matson, E. J. McClure, C. B. Mills, F. E. Moorhead, R. D. North, W. T. Scott, B. Schuhmann, S. E. Steinbach, A. N. Till, D. E. Webb, W. W. Wood.

Miss Sue Meyer Honored By D.C. Institute

Miss Helen S. Meyer, Administrative Assistant for Communication, was recently honored by the Stenotype Institute of Washington. A letter to Miss Meyer from Miss R. M. Everett, Director of the Institute, reads in part: "Your name now appears on the Honor Roll. We have carried the names of our graduates on this list for the past several years, and it has been a real inspiration to our undergraduates and Stenotypists-to-be."

Miss Meyer's picture is to appear on the Honor Gallery—"It will represent a permanent record of your splendid achievement." Miss Meyer stenotypes approximately one hundred and seventy-five words a minute.

In conjunction with this achievement, she is presently taking a six month post graduate course in Court Procedure at George Washington University. "Sue", as she is more commonly known, has been with the Center for two and a half years. Along with her communications duty, she is also in charge of the Center Files Department.

NNMC Alumni Twins Make Nat'l Headlines

Paul and Peter Chambers, twins born here seven months ago, have already made the national headlines and their pictures appeared in newspapers and magazines all over the country. While their father, Colonel Justic Marion Chambers USMCR (Ret) was being honored by the President, Paul reached out and took the commendation from the President. While Mr. Truman was busy retrieving the paper Peter, following Paul's example, snatched the President's handkerchief.

Col. Chambers was awarded the Medal of Honor for exceptional gallantry which helped assure victory at Iwo Jima. Col. Chambers was the 200th marine to receive the award.

The picture above was taken when Mrs. Chambers was a patient here.

Did You Know That...

The CENTER Golf Course of 9 holes, measures 2,882 yards. In the corridors of the Main Building there are 44 clocks. In buildings Nos. 3, 4, 5 and 6 alone, there are 96 clocks. These all operate on a master system.

To insure adequate fire protection to all buildings at the CENTER, 60 fire plugs are strategically located.

The CENTER requires a civilian force of over 1,000 to perform its multiple tasks.

The CENTER's water consumption rate averages approximately 18,000,000 gallons per month.

The gross floor area of the buildings that comprise the CENTER totals 1,371,363 square feet. The gross volume in cubic feet is astronomical, 19,729,999.

The CENTER numbers 18 elevators and 6 dumbwaiters within its walls.

The CENTER's Laundry production averages roughly 150,000 pounds per month.

There are 6,000 radiators and 6,000 venetian blinds in the buildings of the CENTER.

With the hoisting of RADM Willcutts' two-star flag, the National Naval Medical Center became the first naval Medical Command ever to fly a pennant symbolizing that the station was under an officer of flag rank.

Learn To Swim Better

By C. J. Goebel

We've been kicking this old art of swimming around for a number of weeks now and have been concentrating upon the beginners in the class. Let's stop a minute and see if we can't dig up a tip or two for the more advanced members.

Naturally, one of the most important aids to perfection is imitation of accomplished swimmers. To a well instructed swimmer, every little detail of arm motion, leg kick, rhythmic breathing, can be singled out, studied, and accepted or rejected. However, even this form of emulation can, and sometimes is taken to the extreme. Just as no two persons think alike, so also, no two swimmers swim exactly alike. Observe good swimmers; take any helpful hints they may offer. Experiment with their ideas but if they do not seem suited to your perfection—disregard them and look elsewhere.

Another important aid might be classified under "distance swimming". Here is swimming in all its glory. No jerky, uncontrolled, exercise, but smooth, relaxing, stimulating movement. There you have the time to observe your mistakes, to concentrate on a faster-beat flutter kick, to observe the effectiveness of a strong arm pull. Distance swimming makes for efficiency in swimming.

Practice—practice a little each day, if possible. Not long, tedious, practice sessions but short periods with a variety of exercises. Ask one of the members of the pool to observe you while swimming a lap, make suggestion to you, perhaps time you for a fast 50 yard dash. It all adds up to improvement—improvement which will pay off one-hundred fold, either in pleasures derived or the self-confidence gained. That will be all for now. Think I'll take a dip myself. So long, gang—Splash.

Crew's Library:

Solid Reading Feature Of C.D. For Long Even

Now that the sports season is a bit less exciting and the evenings are getting longer it would be a good time to settle down to do some solid reading. You might start with a few of the much discussed on present day personalities.

One new biography is W. White's *Bernard Baruch, Patriot of a Citizen*. Baruch's role of a confidential adviser is emphasized as we come to understand how he has influenced the policies of this nation. We also get a picture of his financial genius which enabled him to amass millions with effort. Enough of his private and family background is included to show his personality.

Three of the new books are three different viewpoints of President Truman: *The Man of the Pendence* by Jonathan Dan, written in an admiring tone, is at the same time well balanced and objective. *The Truman Go-Round*, on the other hand, is exceedingly frank and gives a less and stinging portraits of President and his advisers, Cabinet, politicians and social leaders of Washington. Robert and William Shannon have written with no ill-feeling however, an arresting style. In *Presidents Who Have Known Me*, General, sometimes called Court, laughs at himself and other shows devotion to Truman, Felt, Barkley and Eisenhower.

Med School Scuttlebutt

By O. C. "Skip" Skinner

Since the last issue many of the best known "Men About Town" have left. Frankie "the lover" has been transferred to the Epidemiology unit at Pearl Harbor. All who knew him will miss many laughing moments. We think that he will carry with him the standards of the Med School command.

Recently transferred to the dependent Duty school at Portsmouth, Virginia, were: Eugene Grover P. HMI, Giorgosian, menag HMI, Kearns, Jean and Kyle, Walter HMI. There is our sorrow and we wish them the best of luck also. Also transferred but not going far was Shawver, Denzil R. to NMRI.

Since the loss of "lover" Adams it looks as if "Ski" K. is making his bid to be the Med School's most ardent "lover". Seems he's been sleeping in days and speeding out the gate his "Black Beetle", every day. Everyone is trying to find out his phone number he calls but at present time only "The skip knows".

Every A.M. we see the W. pulling into the lot behind the their little "bug". They say one of these new Henry "J"s everyone else thinks it looks like a "bug".

Congratulations are in order to Bill Stradtman HMI, and M. Todd HM2 as it was just a couple of weeks ago that they were passing the decks and passing out. The Stradtman's had a little while the Todd's had a little bit.

Prize-Winning Exhibit Prepared By NMMC DOs

A lot of thought—and after-hour work—went into making the scientific exhibits that collectively took first prize at the American Dental Association's Fifty-first Annual Session, held recently in Atlantic City.

Each of the five sections showed a phase of dentistry that is being taught at the Naval Dental School or conducted at the Naval Medical Research Institute. The drawing above is the artists' idea of how the units were arranged at the Session.

The sections can be displayed separately, or rearranged, or used in any combination of from five sections, to occupy from four to twenty feet of space. This intentionally flexible plan of presentation makes the exhibits available for showing at other dental meetings under a variety of space conditions, and for teaching and museum use.

The exhibit—"Oral Color Photography—a Method of Personnel Identification," shows some of the equipment and steps in photographing the oral cavity. Personnel of the Dental Division of NMRI designed this exhibit to describe the method of identification—a sort of "oral Bertillon system"—developed by NMRI.

Cdr. K. M. Broesamle, Head of the Dental School's Airbrasive Section, prepared

the exhibit which explains a new procedure for cutting teeth. (More about this technique—"Airbrasive"—in a later issue of the Center News.)

Cdr. T. A. Lesney, Chief of Oral Surgery at the School, prepared the exhibit on "Orthopedic Appliances," which included skulls with attached splints and other appliances used in the management of fractured facial bones.

"Oral Cancer" is an exhibit prepared by Cdr. R. A. Colby, Head of the NDS Medical-Dental Sciences Division. Emphasis in the exhibit is on early detection, and the necessity for biopsy of suspicious lesions, and simplicity of taking the biopsy.

The exhibit, "Acrylic Resin in Crown and Bridgework," uses models and color prints to illustrate step-by-step construction of three types of crown and bridgework—acrylic jacket crown, acrylic veneer gold crown, and gold-backed anterior acrylic bridge. LCDR. A. K. Kaires of the Dental School's Crown and Bridge Division prepared this section.

The Audio-Visual Department of NMMC, under Captain R. V. Schultz, collaborated in the designing of the exhibits. Mr. W. C. Young and Mr. G. C. Felton were responsible for art direction and drawings.

Dental Explorer

By L. P. 'Louella' Burger

What's new around the 'Tooth Department'? Let's take a fast spin to the place and see for ourselves.

Due to our regret we are losing R. A. K. Kaires to the USS *Essex*. Their gain will be the loss of NDS. So long Doctor, and good sailing.

A new face appeared the other day and it turned out to be another Frenchman for our roster. H. A. Bethoulle, DT2. He was called to active duty from home in Baltimore and reported from R/S in D. C. Welcome aboard, Doc.

A few of the crew members are taking a little leave now. "Long" Pennington is on twenty days somewhere in Virginia. Ber-Plaske is on seven in New York on a hunting trip, and I am going even to try and find me a 'dear'.

In the sick list we note that Hank Byrd has joined Chief Pennington, Adams and Levantino. Come here, you guys! We need some here in the department. Hurry and come off your vacation.

Rumors are going around that "Buck" Patoski is going to be a proud father soon. How's for a bet with some of the dope on the event Pat?

The "Ice Cream Socials" are really progressing around here now. Campbell, Allison, Burger and Mc- are all becoming regular members of that society.

After the first of the month Beck I not have his mugg out for all

(Continued on page 6)

Lab 15 Under Low Power

By Moe and Gizmo

Here we are back with some of the daring exploits of the carefree, notorious Lab. 15 crew. Lend an ear while we look into some of these escapades.

Kimmel has found nite club singing quite to his liking recently. Ask any of the crew down at "The Wheel". We wonder where he developed his singing voice. Maybe he eats bird seed.

Now that Myers has "escaped" from ward 5-A you can expect to see that gray "Chevie" headed for parts unknown every liberty nite. Could "parts unknown" be Gal-linger Hospital by any chance—or Winchester, perhaps?

Have you noticed that shiny new Ford that "Pappy" Parpart has been sporting lately? We hear that "Pappy" has intentions of setting a new "speed run" record. For the benefit of the uninformed, a speed run is a mad dash at top speed down hi-way 240 to the "Red-Fox" and back during one of the rare breaks in Pathology class.

Coming to the interesting, enjoyable subject of Pathology, we find Creely about to allow Cooper to "solo" on slide-cutting. We have for you Miss Cooper's exclusive comment—"Get hot, Creely!"

Not too long ago in this same Pathology classroom, some rat forgot to start the technicon on its overnite run. The result? The poor Pathology students moped around all the next day with no slides to cut, stain, or mount. They must have been broken-hearted.

Lab. 15's football team finished out the season by dropping a rough

(Continued on page 4)

LCDR LARAMORE

(Continued from page one)

up on Guam, the dust hadn't settled from the troop movements yet.

Leaving this activity, he went to the staff Naval Operating Base, Okinawa in June, 1945. Things began to settle down into a normal routine again and Mr. Laramore went to the Naval Air Training Base, Pensacola, Florida, in 1946. From there he came to the Officers' class here at the school and graduated in February, 1948.

In addition to head of Personnel-Records, he also has charge of administering USAFI courses and tests, which are a vital part of every aspiring sailor's career.

Naval Hospital Picnickers Say A Repeat Is A Must

The Hospital Staff Officers Picnic at the Palisades Recreation Park was a huge success and should make the local news even though a few weeks have passed. Such a good time was had by all, they say a repeat in the near future is a must!

CAPT. and Mrs. Gillett deserve the credit for instigating the shindig. It was they who started the ball rolling.

CDR Mason's wife was chosen Chairman of the affair and did a marvelous job with the various committees. On the adult entertainment committee were CDR and Mrs. McNamara, CDR and Mrs. Emerson and CDR Hanten.

The games of baseball and football were certainly popular recreation for the oldsters. A few of the rugged athletic officers suffered with minor, or was it major muscle strain, among them were CDR Crawford, CDR Gilliland, CAPT Kurek and LCDR Sullivan.

Thanks to CAPT Bradley for getting LTJG Horn tied to that blonde in the three-legged race—they lost, but the ice was broken in other ways.

An egg tossing contest was very amusing as well as skillful. The object was to keep moving from your partner and toss the egg without breaking it between the two. The couple that was able to keep the egg intact for the longest distance was the winner. The winner in this event was CDR Cole and his partner ENS Bell. Raw eggs sure do make a mess of clothes as the contestants will verify!

LT Hering and LTJG Burgess

were responsible for the children's program. They did a wonderful job with the kiddies in games, contests and movies.

LCDR Soltysiak and his wife handled the financial end of the picnic and did a fine job.

Mrs. Mason asked that particular mention be made of the fellows responsible for the wonderful picnic lunch served so generously by LTJG Edlund, LTJG Smith and a crew from the Commissary. The menu consisted of delicious ham, chicken, baked beans and all the other trimmings of a picnic. And the beverage . . . m-m-m-m-m.

On the transportation and publicity committee were CDR Mason, LCDR Soltysiak, LT Werner and ENS Chulack. CDR Gavin (NC) chauffeured five in her car to the picnic spot. CAPT Norman had his carload and he also took the wrong route but soon arrived safely and parked with the aid of CDR and Mrs. Canada who were on the parking committee.

CAPT Gross with his STETSON was the envy of many who admired his chapeau.

Everybody had a wonderful time even the neighborhood. . . . Mrs. Mason approached one local kiddy and asked his name and if he belonged with the group. He thought for a minute and came out with "I guess Smith is as good as any." Another child had called his mother to the picnic saying that she would be invited when she arrived.

Baby-sitters for the occasion were HNs Lekorenos and Curran. Their part was greatly appreciated by the parents.

Not Much Research Involved

By T. J. Conto

Our past able-bodied reporter, Skip "No-knocks" Marbois has recently been transferred to points unknown. I hope that I can fill in successfully and hold your interest as well as he did.

Carl J. Goebel, attached to radiation technology for quite some time will also accompany him on the journey. Carl wrote a little fond farewell note before departing, and for the benefit of those who haven't read it, I repeat it now: "To my many associates with which I have had the privilege of working with at NMRI, I wish to say goodbye. Thank you everyone for being so swell." Carl was an active member at the Institute in all scopes of sports and curricular activities; his style of invigorating men to stick together shall always be remembered.

Research was well represented in the recent golf tournament held here a few weeks ago. Able men such as P. L. Davis, HMC, B. R. Talbot, HM 3, and HMC L'toile copped runnerup and top prizes respectively. They have been known to be putting a lot of elbow grease on their well earned trophies. (P. L. Davis claims that his trophy looks just like him, hmmm, he must still have that hangover.)

A recent staff member of Radiation Technology, J. J. Johnson, surprised us with a little visit. He is home on 30 days leave after a rigorous training period with the FMF at Camp Pendleton, California. He was transferred on Aug. 17 along with W. Bullock, J. Hardy, J. P. Walsh, J. French, and S. Burke. Joe claims that he likes duty there and plans to reenlist. All of this was related to your reporter with a smile on his face, so you can draw your own conclusions.

It has been heard that an NMRI basketball team is starting, with men such as L. Cecchini, M. Morales, R. Gismondi, F. Sanchez, L. Kelley, H. Bruntmyer, C. Jaurez, D. Teeter, K. Johnson, B. Talbot, and R. Sharp. Research should bring home a title team. It should be remembered at this point that the team of last year brought a second place trophy to NMRI. Good luck to you men.

Many new arrivals have reported aboard recently, B. Barlow, HMI, G. Batey HM2, D. Showner HM 3, and M. Eller. On the civilian side we find A. Owens, K. F. Fridgin, F. Payne, and E. Sungster.

Departures reveal that M. A. Evans, Stenographer in Reports and Manuscripts Department has been transferred to NSHA. That old familiar adage, "Their gain is our loss."

HMC Cassidy will be transferred soon.

Scuttlebut has been going around that Jackie James, GS2 of the library is going to recruit some lucky fellow from Erie, Penn., to the Royal Order of the Ball and Chain. Good luck to you Jackie, don't forget to invite the crew over for cake.

R. M. Gismondi, married in May of this year, proves that his job in the Navy does not curtail nor interfere with his family life. This is accepted by the fact that he and his wife are expecting a visit from "Charlie Stork" somewhere in the beginning of March 1951. He claims that it is sure to be a boy, or else... (FMF maybe?).

This is all of the news for the time being, see you all next edition.

Personalities About The Center

A. S. Conaway HM 1

"I fished for anything that 'ud bite," says Aubrey S. Conaway, HMI, "But I had routine fisherman's luck—caught no whoppers!" Not even a fish story to tell! Next to fishing, Conaway loves to hunt. He and his buddies spent many summer days on camping trips on the New River near Bluefield, West Virginia, his home town. "But I haven't done much of either since I've been in the Navy."

Conaway began school at the Beaver High School in Bluefield, but the call to sea was rife, so he left school in his sophomore year. Later he finished his studies through USAFI.

March 1941 he attended recruit training in Norfolk, Va. He entered the Navy as an Apprentice Seaman and did not change over until 1942 when he attended Corps School in Portsmouth, Va. In the interim between "Boots" and Corps School, Conaway got some early sea duty on the USS Grayson, DD 35. And sea duty again followed a short stay at the USNH Parris Island, S. C. This time on the USS Monrovia, APA 31. He helped put the ship into commission at the Portsmouth Navy Yard and stayed aboard until he was hit on Saipan, while with a beach party.

While attached to the Monrovia, he was sent to Camp Bradford, Va. and Fort Pierce, Fla., to train with the 3rd Beach Battalion. He served later on the Monrovia as a member of the ship's beach party in the invasion of Tarawa, Burton Island in the Kwajalein Atoll, and Saipan, where he was wounded.

He was transferred to the Aiea Heights Hospital for treatment, then Long Beach, Cal. and the NH Portsmouth, Va for further treatment. Well again, Conaway was ordered to the LST 491 in 1945. The ship acted in support operations, carrying supplies to Okinawa, which had just previously been invaded.

A quick series of transfers followed: USNH Philadelphia, X-ray School here, back to Philadelphia, then the Second Marine Division at Camp Lejeune, before transfer here again March 1950. Since here, Conaway has worked as Night MAA at the Hospital and on ward 13L. Presently he is working in the Civilian Treatment Room.

Laugh Awhile

Love is a feeling that you feel when you feel your are going to feel a feeling that you never felt before.

Joe: Man is just like a worm.

Bob: What do you mean?

Joe: Well he goes round and round and in the end a chicken gets him.

Jack: Did you know that a woman is just like a tube of tooth paste?

Moe: In what way?

Jack: You have to squeeze it to get more out of it.

LT F. V. Grell

Nightmarish is the only word to describe the night Mrs. Grell helped a man who got into an automobile accident in front of her home in Meadville, Pa. She had been sleeping and the crash woke her. She slipped a robe on and went out to help the stricken man. She followed him to the hospital and for the remainder of the night was forced to parade up and down the halls clad in her nightwear. She could not get home for the taxis had stopped running, but finally, in the wee hours, her brother came for her. "People at the hospital didn't know if I were a patient walking around in a delirium or a lost soul. The doctors expressed surprise when they saw me working in CDR with nothing but night clothes on," said Mrs. Grell.

Mrs. Grell was married September 9 of this year to a Wisconsin business man. She is better remembered by her former name, Miss Florence V. Kircher.

She attended Randolph High School in Meadville and graduated in 1937. While there, she was a member of the girl's varsity basketball team, a member of the chorus and in charge of publicity for her dramatics club. She worked on the staff of the school's paper, "The

A single silkworm cocoon may yield 400 to 1,000 yards of filament. So delicate is this strand that some 2,000 to 3,000 cocoons are required to produce one pound of silk.

Tattler". Her training for nursing was taken at the Spencer Hospital Training School, where she studied for three years prior to a year's graduate work at the hospital.

In 1941 she joined the Navy and her first duty station was at the hospital in Brooklyn and next NOB Norfolk, Va. In 1943 she was transferred to San Juan, Puerto Rico where she became Supervisor of SOQ. She has this to say of island duty: "I liked the duty here very much... there were seven hundred flyers stationed there and seven nurses." Of this duty, she remembers particularly the beautiful beaches and long hours of sunshine and sea breezes.

But Navy life isn't always a holiday and in 1944 she was transferred to Sampson, N. Y., and later to Parris Island, S. C., where she was Chief Nurs of the five dispensaries on the base. Finally, she was sent to the Naval Hospital in Philadelphia, before arriving here in July of 1948.

Except for three months in CDR, Mrs. Grell has worked on the tower. Recently she has been attending classes at Montgomery Junior College. She is majoring in journalism.

C. J. Goebel HM 3

Carl J. Goebel needs little introduction. He has been one of the best known, best liked men on the station. And this is probably due to Carl's insatiable drive and likeable personality. Always and everywhere, wherever a new activity sprung up, Carl was sure to be there. A true cosmopolitan is rare, but if the term could be confined to the station, he surely would be the foremost candidate.

The city of fine beers (the city that made Schlitz famous), Milwaukee, is local color for Carl who was born there March 1929. He attended the North Division High School and became intensely interested in sports, an interest which has persisted ever since. While at school, he became captain of the swimming team and entered in the backstroke competition. Basketball, football and track were also his majors.

After graduation, Carl worked as a florist and later as a farm hand in Northern Michigan. From the "city of fine brews" he went to the "windy city", Chicago, where he enlisted September 1947. After recruit training, he attended Corps School at Great Lakes, where he graduated second in Class 15.

From Chicago, Carl did duty in Memphis, Tenn., and in 1948 at Houston, Texas. He attended X-ray school at Chelsea, Mass., in early 1949, before his transfer here in April of that year.

Carl was assigned to Radiation Technology at NMRI where he has worked since his arrival. He has been active both in education and sports. He completed the one year college equivalent test offered at the Education Office and also a course in typewriting—"I'm up to fifty-two words a minute," Carl said proudly.

A devotee of the "Y" Cottage, he was reporter on the Cottage's paper and for the Cottage in the NMMC NEWS. Still in the capacity of a writer, he was Sports Editor on the NEWS, and a valuable contributor at that. His column and vivid stories will be missed by many.

On the sporting side, Carl played on the Center Command 1st place football team in 1949 and also on NMRI's 2nd place intramural basketball quintet in '49. Other activities included participation in tennis, golf and ping pong tournaments and in the intramural softball league. J. W. Morrison and Carl conducted swimming classes for children in the Recreation Swimming Pool.

"Right now I'm going back to those Wisconsin Hills for ten days of continuous relaxation," he said. Carl is being transferred to duty in the Pacific Area.

At the expiration of his involuntary enlistment, Carl wants to attend Wisconsin University or Michigan State where he will study for a degree in Forestry.

Cottage Capers

By C. J. Goebel

Across the River and Into Trees"—a brilliant novel floated from the educated pen of Ernest Hemingway.

Here too is another best selling novel. A history lived and lived non-fiction, each page a true living epic of reality. "The House of Friendship Built" is the title of a majestic story, which is being added to each new day. The Cottage—Symbol of a "home away from home", helpful center for hundreds of servicemen who are passing through. "Acting Hav" for those who stop and linger at NMMC.

Suggestions for the month: V. Christmas spirit gradually creeps upon us, slip into the joyous sea while taking part in some of Cottage activities. We'll all be singing your favorite X-mas carols right soon and dancing will continue each Thursday nite, as before, while, Sunday nite supper will continue to be "the meeting place of the week."

Beat the cold, chilly winds. Jack Frost and the merry accomplices of Winter—enjoy the fire atmosphere of the Cottage—

And now, a "farewell to arms" seems to be in order in this last a long but enjoyable series of articles which I have been privileged to write for the Cottage. Your "Cottage Capers" reporter has a new deadline to make at a change of address.

Before my transfer I wish to express my thanks and appreciation to the many persons who gave and determine the policies of "Y" Cottage, namely, the servicemen and young adults of Bethesda.

It is rather difficult to say farewell to such a large group of friends. To the boys from the boys who have done, and I'm sure will continue to do, a grand job helping with various activities, say "goodbye." There are no substitutes for "bluejackets" like Sweeny, Kenny Johnson, "Bud" Don Teter, "Danny," Russ Van Buren, J. J. Devenney, John Dauks and Burgess.

And can we ever forget the girls I know I can't! Wonderful, marvelous, beautiful girls. Bouquets roses to Winnie Brooks, "Pa" Dixie, Julie Ribb, Iona, Helen Warner, Nancy, Betty Doyle, Ali Naldi Klein, and Polly for the thankless "behind the curtain" job carried on by the backbone of the cottage, let me say "thank you" Dirky and Miss Polly Bullard.

I, like the many other men who have passed this way, shall never forget the number plate of 84 Wisconsin Avenue. It has been an inspiration, a home, a priceless constructive organization wherein and "we" have learned to acquire and build up practical, enduring friendships with people from walks of life. It has been an education—an introduction to responsibilities, to adventure, to living. Thank you "Y" Cottage, for many happy memories. You gave so much and asked but so little return.

LAB 15

(Continued from page 3)

affair to N. P. by a score of 19-15. The final standings will find Lab 15 in third place or thereabouts. It was quite a good season for Lab 15, considering the short time in which they put a team together.

Well, that's about all the scuttlebutt we can unearth for this time, so we'll just crawl back into our hole till next deadline date.

Coach's Corner

The station football league is laying to a close with Center's commanches well out in front. Watched a practice scrimmage the other night between the Dukes and commanches, long enough to see last charging line causing fumbles the Dukes' backfield. In that left arm of Tommy Brothers is answer to why Center is at the top of the heap. Wingman Georgie handles the rainbow tosses and fleet-footed Don Polizzi, the spot passes over the center of the line. Grid fans are missing a good bet in not turning out to watch intramurals. Playing on an -yard field, having to pick up yards in four downs, wearing protection other than warm-up it, the boys are turning in fine performances in the blocking and running departments. If you are interested in seeing an occasional gskin split the uprights from 30 yards out, Beversdorf and Brothers supply that phase of spectator enjoyment. No contest can be fully enjoyed by fans and players alike, without the services of good officials and among those seen in action this season, "Lefty" Sickels and Kessel- ing have turned in creditable performances. Yardage chains, down- ex, all add a sense of "big time" to the games and this columnist thanks Lieutenant Pollard and his printer shop for the equipment they provided.

Varsity basketball practice is well under way with some forty-seven "thin clads" prancing up and down the boards trying to land one of the seven berths open to this year's hopefuls. The practice sessions to this point have been devoted to drilling in ball control and from the looks of things, the coaching staff will spend many sleepless nights before the season's opener on 5 December. Jack Reynolds who will be as manager for the Coach, has arranged practice games for the next few weeks to afford the coaching staff a chance to look over their prospects under game conditions.

Before the mashies are moth- ballled for the winter, this column will leave you with a few thoughts for next spring. Admiral Willcutts has taken under consideration a new proposed improvements for the course. Among the suggested changes are increased size of the tees on two and three—such action would be in the maintenance and at the same time increase the need for a straight shot on three. Can just Jim Crawford aiming for Glen who in order to control his slice. In number four, a new trap to the right of the green would serve to make the boys spank their short pitches and catch the four irons of such long knockers as Ted Lesney and Bill Cole. Five is really too easy at present—a fair wood, short pitch and the average player is up here putting for a bird. Contem- plated change here would be to place a shallow finger trap on the left side of the fairway, just short of the crest to catch the two-hun- dred yarders. At the back side of Five's putting surface, another shallow trap to catch those shots which land on the green and just roll over. Expect to watch Tom Floyd and Maury Fortin reaching for their putters from this lie. Do you think Six is easy—well listen to this—the proposed treatment is to fill in the drainage ditch in front of the green and place a long shallow trap on the right bank of the green along the ledge now existent. Those carolin shots of Bill King will have to be redesigned this winter to cope with the new hazard; on the other hand, it won't bother Captain Gil-

CPO Chatter

By O. C. Skinner

Come one, come all, but you had better hurry before all of the cards are gone. It's your chance to win a fortune every Thursday night at the Chief's Club. Every Thursday night is "Bingo Night" at the Club. The jackpot starts at \$75 and works up to around \$200. What a chance for some of that extra Christmas money. The crowds are increasing and more tables are being broken out every time. Everyone has a chance, even YOU!!! So be sure and be there next Thursday and try to hit the jackpot.

For your pleasure at the various intermissions you can hear the beautiful music of the Hammond Organ which is just another of the many Chief's Club attractions.

Did you miss that luscious Thanksgiving Turkey dinner at the Club? It was in the evening for the benefit of those who wanted to eat at home and then come out to the Club and stuff some more.

Your Board of Governors aims to please you. If you have any suggestions just contact any of the Board members who include: Chief Joe Renard, President, Chief Harold Betzner, Mgr., and the rest as follows: From the Naval Hospital, Chiefs Rasmussen and Eischied; from Center command Chief Schick; from NMS Chief Blakemore. Any suggestions will be accepted, and brought before the Board, so feel free at any time, as your Board represents you, and wants to give you the best in entertainment.

Recently the Board of Governors met and recommended to have dances every Saturday night with an orchestra. This of course will draw a large crowd so you had better be prepared to come early and have dinner.

Dinners are available every night except Monday at your Club. Why don't you give the wife a break some evening and surprise her by bringing her to dinner at the Chief's Club where meals are reasonable and the drinks are the best in town. Come one, come all, and Hurry! Hurry! Hurry! Take advantage of your Club, it's the best anywhere

left who can catch a three every time he tees off on Six. The lake on Seven will make this hole the most picturesque in the Washington area coupled with the brush being bulldozed back some fifty feet alongside the fairways, serving to make the layout a real test.

Center Cagers Open League Schedule Dec. 5

The Potomac River Naval Command Basketball League gets underway on Tuesday, December 5 for the Center netmen. Their initial outing takes them to the NAS, Anacostia for a joust with the USNCS from Cheltenham. On Thursday, December 7 the cagers open their home stand against USNAS, Anacostia. Both games commence at 2000.

Coach Frates has put the large group of aspirants through several sessions of ball handling and from each practice has emerged a show of improvement. Several practice games have been arranged for this week to ready his charges for the flight to the top.

The spirit of the players is high. Keep it that way by getting behind them as they seek the coveted title of champs.

17 Teams Enter Tenpin Tourney

The 1950-51 Intramural Bowling Tourney starts Wednesday and continues through March 15. With seventeen teams entered, the competition for laurels is expected to be very keen. Handicaps have been determined through practice sessions. Handicaps will be adjusted weekly and credit for the task is due LCDR Floyd of NMS. Two matches will be played every night, Monday through Friday, with a break for the holiday season.

The following teams have been entered:

NNMC	NMS
NH	RECR.
EENT	CPO
NDS-1	NSHA-1
NDS-2	NSHA-2
NDS-3	NSHA-3
Qtrs. 12	NSHA-4
NMRI	NSHA-5
	NSHA-6

Sign in a nearby Bethesda restaurant: Attention Patrons: knives, forks and spoons, ash trays and salt shakers are not medicine. So please do not take after meals.

Intramural Highlights

By O. C. Skinner

The football race is really blazing away at the local gridiron lately. Many casualties including Don Polizzi, well known NH man, who suffered a broken arm in the clash with NP. It was Tom Brothers passing to George Funk in all periods throughout the game to chalk up a 25-6 victory over Mercer's NP "Wildcats." J. C. Woods played a brilliant game at the scab-back spot.

A mighty "Wildcat" team led by Johnny Mercer outmanned a scrappy but weak Lab 15 team. Mercer and Pat White led NP to a walloping 19-7 victory. Pat White by the way looks like an all-conference pick this year as his speed is much faster than anyone else around.

It was a hard fought physical battle however when Lab 15's star lineman "Nemo" Knorr had a tooth knocked out. It was just a rugged line battle all the way with NP a little stronger.

Looking down at the bottom of the league at the Med School's "Devils" they just can't seem to roll. However Moose Kovarick has returned from leave in the "Land of opportunity" and is ready to see action against the Commanches and Dental. "Tiny" Schroer predicts a second round winner in his boys with Dietz, Kovarick and the "Flash" Bruce Dietz.

Looking at the predicting side it seems as if the Commanches will stop Med School by at least 30 points. If, however, Med School can pick up courage in time to whip the Dental boys they will be a threat the rest of the season.

In the second place it will be the NP boys having an easy time the rest of the season with the NMRI team and Dental.

NMRI has lost many of its good players on transfers lately and it put them in with the Med School boys to fight it out for the cellar position.

New Naval Manual To Aid Recruits

(AFPS)—The Navy now has a new up-to-date "Bible." It's the 14th edition of The Bluejacket's Manual.

The BJM has come a long way since its introduction to bluejackets back in 1902. With each edition trends in the ever-changing Navy have been reflected. The 1950 edition is no exception.

The manual, principal authority of introduction to Navy life, has undergone careful screening in the

Sport Scope

By J. C. Woods

Sports writers in the local, seem to be sold on the idea that the Washington Redskins have a good team. A few of them start something like this, "The Skins have plenty of power and fresh talent to make them a major threat to pro football. Their only trouble seems to be in that fourth quarter when . . ." The records speak for themselves. This sort of wording could derail the general trend of thought that the best team wins. The same holds to a certain announcer over in Baltimore, "Ladies and gentlemen, the Colts are an inspired team here in the third quarter, they've done everything but get the ball over the goal line, and they may do that any moment. The score is 48 to nothing but our Colts are really staging a comeback. . . ." Somebody once said, "Invention is 10 percent inspiration and 90 percent perspiration." The same applies to football.

George Funk star end and captain of the Center Commanches, has just revealed the title of his latest book on sports, "Athlete's Feet." Funk is quite an authority on this, he's been going at it tooth and nail for the last three weeks.

NNMC sports activities have shifted into high gear with basketball, golf and football heading the list at present. Center has maintained its position on top of the totem pole in football with N.P. taking a firm grip on second place. Should the Centers lose to Research a play-off game will be staged between the Commanches and N.P. In view of the strong competitive spirit between these two teams a play-off could be labeled a miniature Army-Navy Game.

Probably the only drawback in this year's intramural football league was the lack of attendance. There were eight teams entered in the league, each representing a department throughout the compound. None of these teams received any backing as far as the cheering section was concerned. The same could be said for the attendance at last year's basketball games. It would be a shame to see these boys go through another season with the feeling that no one here on the compound cares whether they win or lose. But should they take the title this season it would be these same "potential" fans who would echo both delight and pride in "their" team. A basketball schedule has been entered in the NNMC News of this year's home games, others will be posted, let's back them up.

An express train shot across the plains of the midwest. On board was the Notre Dame football team. One reporter heard that the Irish carried a chaplain to each game. Inquiring his whereabouts, one player told the reporter that the chaplain was in the next car. Going back the reporter saw a priest reading a Catholic bulletin. "Are you the team chaplain?" the reporter asked. The priest looked up, and said, "Which one do you want, defensive or offensive?"

new edition. Since it is used as a prime study source for advancement in rating, the 1950 revision has eliminated all but pertinent and current Navy data.

Army Patients Hospitalized Here Receive Purple Heart

Colonel Joseph V. Weaver, Deputy Post Commander of the Army Medical Center presented twenty-one Purple Hearts to soldiers interned here. Above, the Colonel honors Nicholas T. Buffone, Pfc. while Captain Gillett, CO of the Naval Hospital looks on. Others receiving the decoration were: Edward Harper, Pfc., James Sawyer, Pfc., Jarly Hunt, Pfc., Lamions Akmentins, Pfc., Gilbert Weatherly, Pfc., Edward Brosky, Pvt., Albert Coleman, Pasquale Cristoforo, Cpl., Frank Hrindo, Pfc., Theodore Criss, Cpl., Willard Sumpson, Pfc., William Gibson, Cpl., Donald Black, Sgt., Delmer Large, Pfc., William Bowers, Cpl., Garry Wilcox, Cpl., Thomas Kendall, Pfc., Russell Vest, Cpl., Haywood Garrison, Cpl., J. Poland, M/SGT.

Salt Shaker Sailor

Dear Bethesda,

"Stop your ramblin' . . ."

The ship is on her way. We are headed for the States. It has been nice to visit all these places, but after you are there for awhile, the U. S. sounds more fascinating than any of the overseas countries. All the foreign romance is lost in the thought of the American scene, the American way of life.

This morning we saw the sea gulls appear. There was mute excitement expressed in the many men who crowded the rails. By noon we saw the haze on the horizon which we have learned means land. And it grew and grew. New York lay ahead. We passed the Statue. Everyone was quiet. It reminded me of a story I heard of a group of soldiers returning from Europe after the last war. Hundreds of men were jammed against the rails, hoping to get an early look at the land they loved. When they passed the Statute of Liberty you could have heard a pin drop. One soldier cried. Another whispered, "Home at last." What should have been a joyous homecoming was turning out to be very sad. But one soldier was so overcome with joy that he yelled, "You can lay the torch down, Baby, I'm home." The passengers sent up a loud uproar. That's how I felt in my heart.

As I write this, the ship is tying up to the dock. The PA has just announced liberty. The men are crammed in the head, readying for liberty. You never saw such a bunch of old ladies in your life! All going for a hunk of good stateside "whoopy". I'm in no hurry. Duty tonight . . . but leave tomorrow.

This will be my last letter to you, for now I am back. What can I tell you about your land that you don't already know? I am back—another American living on the American Scene. You know it so well; I will recapture it.

Your Salt,
A. Sailor.

"... And this is Schmoe the new HN just up from NavHosp Corpus, Sir."

Navy Belles

BY GEORGE

Winter has come to Maryland and it sure is cold when we start the work day. Football was enjoyed by many and turkey and fixin's by all on the holiday. Basketball starting the first of December.

A hot dog roast was enjoyed by many of us Friday, November 17. The fire sure felt good.

"Just Around Our House"

The surprise of the week was when Corrine Kuse was married the 15th. We knew she was buying silver and making plans but it was a surprise, and a happy one. We hope you will always be as happy as you are today.

We are having so many changes in girls at 123, we can hardly keep track of them all. They come and go so fast. You just get to know a girl and bingo, she is gone.

X-ray school finished November 17, and Betty Schuhmann, is going to Quonset Point, R. I., for duty. Violet Kindschi is going to San Diego, but we are going to keep Margaret (Posie) Posipanka, here for duty in X-Ray.

Speaking of X-Ray, We are all very happy to have Joy as the night M.A.A. in the barracks. Now she can stay up without getting dressed and undressed 50 times during the night.

Among the new girls reporting aboard we have Joan Madsen, JOSA from the Lakes for Center Command.

Mabel Eller, HM1 from Anacostia has reported in for duty in Research.

We have five new girls in for Physical Medicine school. This makes the total of 8 girls for that school counting Alma, Jeannet, and Jo.—Lois Everhart, and Marjorie Dilley, from the Lakes. Katherine Nelson, from the Navy Yard in Philadelphia. Phyllis Snook, and Patricia Anne Long, from Portsmouth, Virginia.

"Lou" Zimney is packing her bags for 2 weeks (with pay). She can hardly wait for the time to come.

"Pancho" and "Hammy" should be back this week if they don't miss the train.

The basketball team is doing the finishing touches for a heavy season. They have their uniforms, new shoes, and sweat suits. They must be limbering up, because they are not so stiff and sore when they come home. Next week they are going to play Rockville, a practice game. The first game of the season in the first week in December. I will keep you posted.

The end, for now, from the heart of Maryland's girl, George.

Dental Explorer

to see at the info desk. He is replacing Chief Tombrello in building No. 123. The Chief is turning in on the sick list with his leg injury.

What is the matter, Keller? Can't you ever go off the base without attracting half of the members of the local bastille?

We all have been watching Dr. Flocken lately. He is reading and re-reading "Rocks and Shoals". What does it all mean.

I have been out of my cage now for almost an hour so I had better climb in before some one gets me. You know, around here, if there were a cage, I think that Brouillette would figure out a way to get me sent in it. Be seeing you when I find that 'dear' . . .

HMC J. E. McClain Receive BuMed Letter Of Commendation

John Edward McClain, HMC of the Photo Lab, NMS, was recently commended for his outstanding performance of duty during the Food Service Employee Training Course of the U. S. Public Health Service as photographer. Mc Clain attended under TAD orders to the Preventive Medicine Division of the Bureau of Medicine and Surgery from September 12 thru September 22. The commendation delivered by CAPT B. W. Hogan, Commanding Officer, NMS reads in part:

"Your willingness, skill and proficiency in photographic technique, together with your cooperation with the Department of Public Health as set forth in the recommendation letter of the Director of Preventive Medicine Division of the Bureau of Medicine and Surgery and the Chief of the Bureau of Medicine and Surgery's Commendation letter, is in keeping with the highest traditions of the naval service and is a credit to yourself, your shipmates and your Commanding Officer."

Mc Clain's hometown is Belington, West Virginia. He enlisted in the naval service as a seaman on September 13, 1937 at Richmond, Virginia. He received his "Boots" at Norfolk, Virginia. Following that he went to sea serving on board the USS Charleston, USS Erie, USS J. Fred Talbert, USS Bainbridge and the USS Overton. In 1939 he attended Hospital Corps School at Portsmouth, Virginia then he came to the old hospital here at Washington, D. C. It was here that he first became interested in photography and he started with a pharmacist mate, Buckhannon and Mr. Long.

Then he went to the Amphibious forces at Solomon Islands where they opened the amphibious base training into Flotilla '8' LCT's and took part in the invasions on New Britain and New Guinea. Mc Clain was commissioned a Warrant Officer in 1945 while at the Navy Yard, Washington, D. C. Then he did duty at the Naval Hospital Bainbridge, Maryland, Norfolk, Virginia and Camp Shelton, Virginia. He was the Maintenance Officer at the Naval Operating Base hospital, Norfolk.

In 1946 he went to the Medical Photo Lab School and after duty on the USS Franklin D. Roosevelt, reported here for duty. He played baseball on the station team, which was the first ball club here at the Center.

Mc Clain is married and his wife, Lois, and two daughters, Barbara Jean, age 4 and Virginia Lee, age 2 now reside at 7004 23rd Ave., Lewisdale, Maryland. After his twenty years he hopes to retire to a little farm in the West Virginia Hills.

Never mistake the don't in eyes for dew.

MARINES

(Continued from page 1)

countries.

His great friendship for R. and Mrs. Willcutts dates from his duty in Peiping China, where Dr. Willcutts was the Medical Officer of the Colonel's Comm. Time goes on and as the Colonel prophesied, he now salutes great pride the Admiral's flagging at our Medical Center.

Then there is another friend of the Colonel's, Capt. R. M. Gillett, Commanding Officer of our Hospital who the Col. again prophesies "Will in due time also have a two star flag!" Prior to coming here Capt. Gillett served at Bethesda with close relationship between command, the Naval Hospital, the Marine Barracks commanded by Col. P. M. Rixey, Jr.

"No wonder the Marine at National Naval Medical Center joyed the 175th Birthday Party November 10 on T18 of the hospital. RADM Willcutts and Capt. Gillett officiated on the occasion and the Marines are deeply grateful," the Col. said.

The tall, stately, 71 year old still retains the military bearing characteristic of the Marine Corps and of a long life of useful service to his country. He has been discharged from the hospital and resides at his home 1203 8th Washington Street, Alexandria, Virginia.

Gary Cooper, Mallard Mitchell PO R. J. Ursin On Location

How would you like to spend five weeks on location with Gary Cooper, Mallard Mitchell and lovely Jane Greer? Well, Robert J. Ursin, C of the Hospital Command did just that while on TAD to the USS 1168.

Twentieth Century Fox filmed picture, "The Flying Teakettle," a story that actually happened. The story was filmed around the island of Portsmouth and Norfolk, the hundred and seventy foot USS PC 1168 and the crew, as well as the cast. Among the many things remembered are—as the most interesting, when they crash into a pier—a scene that they did over and over until it was perfect; as most dangerous, when the ship rolled and when it crashed into the bridge. Then too, he remembers how Gary Cooper's hair was trimmed his hair.

"The movies," said the Chief, "are exact and everything is pre-arranged and efficient: Time to them is money. They had a crew of seven with them and all of the (Continued on page two)

Girl 13 Makes atl Request President

(APPS) A simple postcard request from a 13-year-old girl to President Truman got "priority" here recently. Linda Keller of Hyattsville, Md., wrote to the President: "I think it would be nice if at 12:00 noon radio programs and work would stop and everyone would pray for the boys overseas. God surely protect us all."

Linda's request was forwarded to the Chaplain's Corps of the Navy Department. The chaplains passed the suggestion on to the managers of nearby radio stations. WWDC in Washington has inaugurated the program—others are expected to follow.

Kiddies' Xmas Party To Be Here Dec. 23

Some of the children may remember all the fun they had at last year's Christmas Party. Well, Santa will be on hand again this year for those deserving youngsters. It is anticipated that he will have an overflowing pouch, full of goodies and gifts for all those who attend.

The party is to be held in the Auditorium on December 23rd at 2:30 in the afternoon. There will be entertainment and refreshments served. All children who are present will receive gifts. Cartoons and movie shorts will be shown for, ah, the children's pleasure.

Everyone is invited to join in the spirit of the occasion; come and see the kiddies as they get their presents from Santa. Do not forget the time and date as arrangements are being made to insure everyone a good time this happy Christmas time.

Admiral Joel T. Boone Retires From Active Duty

Rear Admiral Joel T. Boone, MC, USN, Inspector General, Medical Activities, retired December 1, 1950, with the rank of Vice Admiral after 36½ years continuous active duty in the Navy.

The officers of the Bureau of Medicine and Surgery honored the retiring Admiral with a party and reception Thursday evening, November 30. Held in the Commissioned Officers' Mess here at National Naval Medical Center, the party was attended by many notables and friends of Admiral and Mrs. Boone.

Admiral Boone who has had a wide and varied Naval career was graduated from Hahnemann Medical School in 1913 and in 1914 entered the Navy as a Lieutenant (junior grade). In 1915 he served with the Marine Expeditionary Forces in Haiti. During that assignment, which extended to June 1916, he participated in quelling the "Caco" (bandit) uprising for which he received a Letter of Commendation from the Secretary of the Navy for "coolness under fire."

In World War I, he served in France with the Second Army Division, A.E.F. He participated in the following major battles

"A Murder Has Been Arranged" Here Dec. 23

The stage play, "A Murder Has Been Arranged" will be presented in the NNMCA Auditorium at 1900 on December 15. A production by the Westmoreland Players, it is directed and produced by Mr. Donald Osten.

The cast of nine includes Mr. Robert Pomeroy, active in amateur theatricals with the Westmoreland and Mount Vernon Players; Miss Lucille Hake, graduate of the Speech and Grammar Department of Catholic University; Mrs. John McIntyre, star of last year's Westmoreland Players; Mr. Robert Hogan, male lead, just returned from summer stock in Maine.

Also Miss Margery Harrison, graduate of American University Players; Miss Patricia Blackwell, Mrs. Dorothy Davis, Mr. Jack Kelly and Mr. Bernard Beall.

This production of three acts is a gripping mystery well worth seeing. Time—1900 December 15—Place—NNMC Auditorium.

FADM Ernest J. King Celebrates 72nd Birthday

Fleet Admiral Ernest J. King, USN, receives birthday cake from RADM M. D. Willcutts, Commanding Officer NNMCA. Others left to right: CAPT. I. L. V. Norman, Chief of Medicine, RADM H. L. Pugh MC, USN, Deputy Chief BuMed and Miss Flannagan, Tower Supervisor.

Fleet Admiral Ernest J. King, USN, celebrated his 72nd birthday November 23 on T 17. A patient here for some time, the Admiral was honored at the party by RADM Pugh, RADM Willcutts, Capt. Norman and Miss Flanagan, who were on hand to wish him many happy returns.

Admiral King, Commander-in-Chief U. S. Fleet, and Chief of Naval Operations during World War II was born in Lorain, Ohio. Appointed to the Naval Academy in 1897, he served two months as a Naval Cadet aboard the USS SAN FRANCISCO, during the Spanish American War.

Graduating with distinction in the class of 1901, Admiral King then served successfully on several ships, returned to the Naval Academy as instructor in the Department of Ordnance and Gunnery.

During World War I he served on the Staff of the Second in Command, Atlantic Fleet, as Aide and Squadron Engineer Officer on the flagship ARKANSAS, and later the USS WYOMING and the USS PENNSYLVANIA. He was awarded the Navy Cross "for distinguished service in the line of his profession as Assistant Chief of Staff of the Commander in Chief, U. S. Atlantic Fleet."

In July 1922, he reported for duty on the Staff of Commander, Submarine Flotillas, Atlantic Fleet, and served in that capacity until November 20, 1922 when he assumed command of Submarine Division Eleven. From September 1923 until July 1926 he was in command of the Submarine Base, New London and also served as Naval Inspector of Ordnance in Charge, Naval Mine Depot, New London.

The Distinguished Service Medal and a gold star in lieu of a second medal was awarded him "for exceptionally meritorious service."

News Shorts From The Editor's Desk

Captain C. F. Behrens, CO, NMRI, Director of the Atomic Defense Division will present a paper entitled "Evaluation of Radiologic Hazards and Therapy of Radiation Illness," at the meeting of the Radiological Society of North America, Chicago, Illinois, December 10-15.

Also attending the meeting will be CDR W. S. Cole, Staff Radiologist, from the Naval Hospital here.

Enlisted Regular and Reserve Navy personnel are eligible to participate in the annual nationwide competitive examinations to be held February 19 and 20, 1951 for appointment to the US Coast Guard Academy at New London, Conn.

Correction: In the last issue of the NEWS, November 27, page 2, the picture of the mother and twins was not Mrs. Chambers, but Mrs. Winauski.

The Navy is ready to consider applications for a one-year post-graduate course in comptrollership at a civilian institution to be announced later. The first class is expected to convene in September 1951. Eligibles are unrestricted general line, aviation, engineering (Continued on page two)

Admiral Boone Retires

Honoring Admiral Boone at a reception at the NNMC Commissioned Officers' Mess are, left to right: Mrs. Boone, Admiral Boone, Mrs. Swanson, Admiral C. A. Swanson, Surgeon General of the Navy and Secretary of the Navy and Mrs. Francis P. Matthews.

(Continued from page one) and campaigns, as Battalion and Regimental Surgeon, Sixth Marine Regiment, later as Assistant Division Surgeon of the Second Army Division, American Expeditionary Forces; Defense Sector, south of Verdun; Aisne-Marne; St. Mihiel, Champagne, and Meuse-Argonne. It was during this service in France that he was awarded the Medal of Honor By Congress. The citation states in part: "For extraordinary heroism, conspicuous gallantry and intrepidity in actual conflict with the enemy, at and in the vicinity of Vierzy, France, July 19, 1918. With absolute disregard for personal safety, ever conscious and mindful of the suffering fallen, (he) leaving the shelter of a ravine, went forward into the open field, where there was no protection, and despite the extreme enemy fire of all calibers, through a heavy mist of gas, applied dressings and first-aid to wounded Marines..."

Admiral Boone also had the honor of being physician to three Presidents, the late Presidents Warren G. Harding and Calvin Coolidge, and later to President Hoover.

During World War II he was Fleet Medical Officer on the staff of Admiral W. F. Halsey, Commander, Third Fleet. He was selected to be one of three officers to liberate Allied Prisoners of War in Japan to the military occupation of that country. He was the Naval Medical Corps representative at the surrender of the Japanese aboard the USS MISSOURI in Tokyo Bay on September 2, 1945.

He represented the Navy for three years (1919 to 1922) as Director, Bureau of Naval Affairs, American Red Cross.

Another outstanding assignment occurred in 1946 when he was assigned as Medical Advisor to the Federal Coal Mines Administrator and as the Director of the Medical Survey of the Coal Industry. In 1948-49 he served as the Executive Secretary of the Secretary of Defense's Committee on Medical and Hospital Services of the Armed Forces.

In the summer of 1949, he reported to the Office of the Secretary of Defense for duty having been appointed Chief of Joint Plans and Action Division Office of Medical Services.

During the year 1949 he served as President of the Association of Military Surgeons.

Admiral Boone is the most decorated medical officer in the history of the Navy wearing in addition to the Medal of Honor awarded by Congress: the Distinguished Service Cross (Army); the Silver Star Medal with five

Oak Leaf Clusters (Army); the Bronze Star Medal with Combat "V"; the Secretary of the Navy Commendation Ribbon; and the Purple Heart Medal with two Oak Leaf Clusters (Army); the Haitian Campaign Medal; the Marine Corps Expeditionary Medal; the Victory Medal with six battle stars; the Army of Occupation in Germany Medal; the American Defense Service Medal; Fleet Clasp (USS ARCONNE); the Asiatic-Pacific Campaign Medal with two bronze stars; the American Campaign Medal; the World War II Victory Medal; the Navy Occupation Medal (Japan). He was made an Officer of the Legion of Honor by France. He also has the Croix De Guerre with two palms and the Order of Fourragere (three awards), awarded by the French Government; and the War Cross and Diploma, awarded by the Government of Italy.

Admiral Boone was born in St. Clair, Pennsylvania, on August 29, 1889. Mrs. Boone is the former Helen E. Koch of Pottsville, Pennsylvania. They have one daughter, Mrs. Milton F. Heller, Jr., and two granddaughters, who reside in San Mateo, California.

Admiral and Mrs. Boone have not determined where they will establish their permanent residence but will reside in Washington for the immediate present at 4000 Cathedral Avenue, Northwest.

NEWS SHORTS

In order to allow a greater number of patrons to use facilities at the following stores a system of shopping on alternate days has been established: Cameron Station, Alexandria, Fort Meyer, Arlington, Fort Leslie J. McNair, Washington, Army Medical Center, Washington.

Holders of even number permits will be allowed to shop on even numbered days, and those with odd numbered permits will be allowed to shop only on odd numbered days.

For information pertaining to making application for commissary permits, see your personnel officer.

CDR Eric G. F. Pollard, DC, NDS, presented a registered clinic entitled "Oral Photography" at a meeting of the Greater New York Dental Society held December 5-7, Statler Hotel, NYC.

HMC Carstens Wins Third In Photo Contest

HMC Robert Carstens of the Photography Laboratory was recently notified that his print "Tempest" took third place in the Second All Maryland Camera Club Competition. The picture locale is a rugged stretch of sea shore in Maine. The chief took the shot while traveling through that state. Bob has been an avid camera fan for a long time. He attended school here and was retained on the staff after graduation. He has been here for a year and a half and lives with his family at Mt. Rainier, Md.

The chief has just bought two hundred acres in his home state of Texas and plans to establish himself there on completion of his twenty. "Back to good old Texas, the country within the country," says Carstens. His ranch is situated just outside San Antonio. Photography is not his only avocation. He is intensely interested in

the growth and culture of orchids. He is a member of the Orchid Society of America and has a total of 150 orchid plants boarded out to different friends across the country. Upon completion of his rambling he hopes to gather all his plants and take them back to his ranch.

ON LOCATION

(Continued from page one) Hollywood people are wonderful persons."

Chief Ursin hails from "The City of Brotherly Love." Before entering the Naval Service he was a professional midget auto racer and also did some dirt track racing. He enlisted in his home city, Philadelphia in 1940. His naval career started with "Boots" at Newport, R.I. and the training for hospital corpsman at the Hospital Corps School, Portsmouth. Then followed varied and different duty, ashore and afloat.

Most of his duty ashore has been in schools: Deep Sea Diving School, Washington, D.C. in 1944; Independent Duty School in 1945; and Physical Medicine School in 1946.

At sea he has served on the USS Solace in 1941-1942 and the USS YSM 88 in 1943. He also spent some time in TAD aboard an Australian minesweeper, His Majesty's Ship Bungarie in 1943. The year 1944 saw him on board the USS Senator John Pope. He served on the USS Consolation in 1947 and part of 1948. Then he went aboard the USS G. K. Mc Kenzie, a tin can which, in the Mediterranean, represented the United Nations in Palestine; they also were Honor Guard for Count Bernadette.

"Seems like I've spent most of my Navy life in Norfolk, cause of leaving and meeting ships there," says Ursin. The Chief says in his opinion the finest Navy duty is in the European waters. His hobby is tropical fish.

The Chaplain's Corner

By Chaplain D. R. Kerrigan

Does Christ Make Christmas

The epistle of the Christmas Midnight Mass is Saint Paul's letter to Titus: "The grace of God, our Saviour, has dawned on humanity, schooling us to forego irreverent thoughts and worldly appetites to live in this present world, a life of order, of justice and of hope. We were to look forward, blessed in our hope, to the day when there will be a new dawn of glory, the glory of the great God, the Father of our Saviour Jesus Christ; Who gave Himself for us, to ransom us from all our guilt, a people set apart for himself, ambitious of good deeds. Be this thy message, leading all authority to thy encouragement, and thy reproof. Let no man lightly esteem thee."

As we enter the Advent Season—the time set apart on the Christian calendar for the preparation of Christmas—the period of penance and mortification for the more worthy welcome of the Christchild—it is well for all men, whether they be Leaders of Nations, or their followers; whether they be Religious leaders or their followers, to ponder gravely their content. It will not be amiss here to consider a few of the points in the recent issue of "Information" entitled "Whose day is this." It points out that much of the Interfaith concept that constantly hear is more "Internonsense". Where, under the guise of "understanding", religions have to be watered down and pruned every conviction that makes them individual and intelligible, show every controversial point, divested of their bones of contention so they collapse like slithering blobs of jelly that can't possibly "hurt" anybody, the result is neither understanding or religion. You can't understand a blob of jelly. You can't agree or disagree with it. You certainly can't respect it."

Understanding is a tremendous and necessary thing. But let us at last, use the same dictionary—and mean the same thing by "understanding". Given a man who acts a certain way because he has a certain set of beliefs, how do we go about understanding him? Certainly not by ridicule or worse. Understanding what a man believes does not in the least mean we have to agree with him. If he sincerely believes what he does, even though we think him wrong, we must respect his belief, knowing that God asks no more of any man than that he live up to the dictates of his own conscience according to the light he has been given. Understanding what a man believes makes us understand how he thinks and why he acts. When we really understand a man, we can never again dislike him, for it takes ignorance to breed dislike.

Thus, the only thing that makes Christmas intelligible is that Christ is God Himself, the eternal God born into our world that He might suffer and die for us, that He might open heaven for us. But we take Christ out of Christmas, lest we offend. We have Rudolph, the Red-Nosed Reindeer, more suitable for mixed company. The blazing, unfathomable eternal truth that Christ is God can't be softened for mixed company, so we say nothing about it. We scratch around until we find the least common denominator we can all agree on. Though it may not make sense, at least none can object. So, we have pretty snow scenes or jolly Santas to greet our friends, we trim our trees, and we go on mad spending sprees with the fervent hope that we will get at least as much as we give.

There is no question of offending. Our Creed is not an insult to those who do not subscribe to it. It is a plain statement of fact. It lets people know where we stand, and if they are not ready to stand with us at least they respect us for standing where we do, instead of shying around. Christmas is the perfect time to demonstrate. Christmas is the first step to Heaven. Its eternal mystery is too profound for the greatest of theologians, and yet it is a picture book primer for the unlettered. Christmas is our Feast of Light. That Light should be spread, not shaded. Of course they find it uncomfortable and we rather have us turn it down to a dim and less revealing glow. But it is the Light by which we, and everybody else will find our way to Heaven. It would shine a lot brighter, and spread a lot farther if so many wouldn't get in its way.

Navy Middies Defeat Army Cadets 14-2

Center Takes 3rd Title

Powerful Center Touch Backers Stay Undeclared

The Center Commanders clinched their third consecutive football championship last week by defeating N.P. 25-6. It marked the twenty-first victory for the Centers against one lone defeat. Led by team captain Funk the "Blue Wave" swept over all opposition with comparative ease. Picked as the No. 1 team of the league the Centers did little to disprove their backers as they defeated X-Ray 27-0 and dumped Dental.

The Dental Center game was probably one of the most vicious ever played here at NNMC. Despite Center's lead of 16 points the Dental crew did not give up until the last minute.

Brothers to Funk combination the aerial department scored most of the Centers' points while backs and Woods led the offense. The blocking of Polizzi was nothing short of spectacular. Polizzi on a Centering play dropped three N.P. in their tracks.

Bill Hausherr, probably the best defensive end in the league, lined up with center Dick Waters to battle most of the opposition's line attacks. Hausherr's speed and shing looked like the fifth man in opposition's backfield. The effectiveness of the Commanders' defense team is better proved by the fact that their goal was crossed twice throughout the season.

Since the birth of Intramural football here the Center Command has copped the trophy every year and has the distinction of being the field in all statistics by a wide margin.

A good bet that when next season rolls around Center Command will be well represented on the field.

NNMC Admiralties emerged from their first league game with a 39-27 win over the Henderson Hall Marines last Tuesday night. In an 8-7 edge at the end of the first quarter, the Waves held the lead throughout the 32-minute thriller.

Shot artist Shook HA, led the team, dropping in 26 winning points. Supporting captain Shook with fast balling, Madsen JOSA, scored points while ENS Whiteman led for 5.

Rds Olsen HM3, Glendenn HM3, and Johnson HN, gave visiting Marines a fight for point. Relieving the first guards were Nelson HA, Gary HM3, and Ross HA, with DT3 and Burton on hand. Playing in the closing minutes of the game were Hopper HM3, Wadsworth and Taylor DN.

led by "Shorty" Edwards and Jack Brandon DN since October, the Admiralties play light-to-the-finish game with a lot of team work. An exciting game is promised with 22 league games with nearby Wave, Waf, and Marine teams.

Games with Quarters K Waves at 8:00 on Thursday night and two more games with the visiting Waves Friday and Saturday nights were played too late to report the results.

Admiralties Take First Game Lumps Down; Shook Sinks 26

Doctors Attend Indoctrination Course Here

The Naval Medical School has completed a special course on "Indoctrination of Medical Officers." The course lasting from November 20 to December 9, was inaugurated as a model. One Commander or Captain from each of the Naval Hospitals attended in order that they could be briefed and in turn establish a standardized indoctrination course at major naval medical activities for incoming officers.

Those that attended the course were: CAPT C. L. DENTON, NH, Charleston, S.C.; CAPT J. H. WARD, NH, Bremerton, Washington; CAPT E. F. EVANS, NH, San Diego, Calif.; CAPT J. N. C. GORDON, NH, Oakland, Calif.; CDR J. G. Stubenbord, NH, Pensacola, Florida; CDR T. L. DUFFY, NH, Great Lakes, Ill.; CAPT T. I. MOE, NH, Portsmouth, Virginia; CDR J. A. Syslo, NH, St. Albans, N.Y.; LT W. T. Lineberry, NH, Jacksonville, Fla.; CDR W. A. Robie, NH, Chelsea, Mass.; CDR J. R. Bierley, NH, Philadelphia, Pa.; CDR R. O. Canada, NH, Bethesda, Md.; and CDR C. S. Stroud, Jr., NH, Newport, Rhode Island.

Pin Action By The Ten Pin

The Intramural Bowling League got off to a fast start on Wednesday November 29 with 17 teams competing on the Center lanes. A qualifying round to establish handicaps found Teter of NNMC rolling the high game of 212, closely followed by Sperry of Recreation with 193 and Medcalf of NNMC with 191. Teter also annexed the honor for high string with 488.

First weeks league competition saw Tiny Schroer's Fisfits (NMS Lab-2) take Stokes NNMC four-some to the tune of 4-0. The Misfit "Beef Trust" needs only to bowl its own weight to win the league.

Biggers NSHA-4 team trounced NH 4-0 with Blanchard's 196 pacing the winners. Dias 170 was high for the losers.

NMS Lab-1 split 2-2 with NSHA-3. Pearson of NSHA rolled a big 218, while Skinner had high pins for "Inman's Terrors."

Led by Meitl, with a professional string of 207-167-185, NSHA-2 swamped NDS-1 by a score of 4-0. NSHA-1 nosed out NDS-2 by 3-1, with Wallace standing out for the winners and England for Dental.

NDS-3 salvaged Dentals reputation by shellacking the CPOs 4-0. Tippet toppled 206 and ran up a string of 492.

Teter's Researchers took Floyd's Filthy Four (NMS) by a 3-1 count. "Head Pin" Van Bellois rolled a record 230, causing NMS to mutter something about "The Thing" being inside his ball. Van also racked up a high string record of 514. Jaeger's 178 topped the losers.

In the final game of the first round, Quarters 12 sank Recreation 4-0. Roberts and York shared honors for the victors.

The second round got underway December 5th with NSHA-6 hitting the win column 3-1 over NSHA-4. Hill's and Carimi's steady bowling was too much even for Nelson's 207.

NNMC pulled itself up to a 500 standing by shutting out NSHA-3 4-0. Belken's 196 and Deloche's 210 paced the winners.

NSHA-1 continued its winning ways 3-1 over NMS Lab-1.

102,000 Fans See End Of Cadets 28 Game Streak

Navy's amazing and exciting upset of Army Saturday so moved Judge Michael A. Musmanno, an old Navy man, to drop Admiral Willcutts a line as follows: "If I were a sports writer, I would write a lead to the Army-Navy game story something like this."

Coach's Corner

The night before the season's opener, the coach of a team whether it be the 21st Avenue Flashes or the Golden Bears of California is without the benefit of sound slumber. His mind is in a kaleidoscopic swirl of mental gymnastics juggling the defensive and offensive potentialities of each squad member, hoping against hope that in the heat of play, their practiced strategems become automatic. Through your trends of thought runs a hazy pattern of the past; your first Navy team at the Marine Corps Base in San Diego, to which base were funneled players from the Embassy at London on one side of the world and the Peiping Legation at the other extreme. Three hours of practice a day, ball control, one and two count pivots, split vision all went into taking the measure of such teams as the Frosh from Stanford, California, University of Southern California, Saint Mary's, Santa Clara, San Jose State, the varsity of San Diego State, Redlands, Occidental, Whittier, twenty-seven wins and no losses. During the war years, Andy Philip and Joe Fuks now of the Philadelphia Warriors, Alvin Dark the Giant shortstop, Bumps Elliott, Michigan's great quarterback all played for the Fourth Division team. Twenty-one college captains vying for a fifteen man squad.

Come on coach, you are shrouding yourself in the mists of antiquity, what about that game tomorrow night? Well, we can field a team for the opening whistle averaging 6-2 in height and tipping the Fairbanks at 172, a good rangy bunch who are well versed in the possibilities of a zone defense whether it be 2-3, 3-2, 1-1-3 or 2-1-2. The five that I have in mind can execute a smooth defensive glide, keep their arms extended, double-team or sink in on a good offensive opponent and are particularly keen on making the most of a fast break, the end result of a good zone.

On the other hand we have a bunch of fast boys who, while not as tall as the former group, are agile, scrappy, good passers and fair shots. Perhaps with this team we can employ a pressing man-to-man defense at the opening toss and thus upset the team morale of our opponents causing hurried shots and poor passes. What about the teams? Well, as it stands now we have played nine practice tilts, winning eight of the nine, could have had a straight win column but every aspirant received a game chance to display his wares. My last thought, will everyone be able to get off the watch list in order to play??

In as dramatic and conclusive an upset as John Paul Jones' victory over the Serapis, the Navy football team vanquished the Army eleven like Dewey sank the Spanish fleet in Manila Bay. At no time did Army have as much chance as the lumbering Merrimac before the rapid, fire-splitting, shifting Monitor in Hampton Roads.

Once it was made clear that Army had met its most formidable foe of the year, Navy sallied forth with battlewagons, tin-cans and PTs, throwing into the fray every gridiron projectile which must have reminded Army of Adolph's attempt to stop the Normandy landing.

Farragut, lashed to the rigging of his flagship in the churning torpedo-strewn waters of Mobile Bay, Nelson measuring the enemy from his one good eye at Trafalgar, and Commodore Perry scratching off his immortal dispatch from the deck of the Niagara, may all look down today from their maritime heaven and order that Navy fly its most cherished pennant—WELL DONE!

Dental Explorer

By L. P. 'Louella' Burger

Got back off that "dear" hunting trip. Had fun too. Only one trouble. Had a good sized frost down in the hills of West Virginia. About 40 inches in places.

A few of the guys here have taken the fatal step and have begun to frequent Giffords now. Right, McCline, West and Haupt?

We are glad to see Adams and Chief Pelick back to duty, but in getting them we lost Penner and Dibble. Penner had a slight accident with his motor scooter. What's the matter George? Won't it stop by itself?

From the looks of things in 123, Bobo and Bray are going to stand a fire watch of their own. Bray, all you had to do was pull the plug out of the socket!

Leave chits are really pouring in here now. Most everyone is putting in for that Christmas or New Years leave.

Say, Elgin, the crew around here really takes to that book that you are drawing, entitled "The Bethesda Navy."

From up our way, this is about all so I will get hot and meet my deadline now, and get ready for another of the 'ice cream socials.'

MAIN OPERATING ROOM

Corpsman, get that Commissary Officer up here, immediately!

Assist Chief Nurse Makes Commander

LCDR Kathleen Smith, NC, USN, the Assistant Director of Nursing Service at the hospital here has received notification of her selection to the rank of Commander, Nurse Corps, U.S. Navy.

Miss Smith was born in Cambridge, Mass. and graduated from Gloucester High School. She then went to Burdett Business School in Lynn, Mass., and started a career in secretarial work. On New Years Day, 1925 she entered nurses' training at Providence Hospital in Washington, D.C. and graduated from Georgetown in 1928, which at that time was affiliated with Providence Hospital.

Born in Massachusetts, nurse's training in Washington, D. C. and entering the Naval Service in Detroit, Michigan on June 10, 1928 gave CDR Smith a good start in her naval career. She has seen duty at many stations, this being her 19th and only one station ever being repeated. These included Guam, Philippines, Smith College and Naval Hospitals north, south east and west.

Lab 15 Under Low Power

By Moe and Gizz-Moe

Here we are back with the dope on Lab. 15's happy technicians—to us this is really some hot stuff, so hang on while we reel off a few incidents of importance.

The chemistry section has returned to class under the loving (?) care of Chief Thrasher while the pathology section, having completed all classes, is being split up to give Med. School staff the benefit of their assistance in the 3rd deck's labs.

One of our more ambitious classmates has been looking for a partner to travel with him to Pittsburgh by dog sled. Any volunteers for this expedition please contact Pleasant—Dorm B.

The latest member of Lab. 15 to create a sensation on the third deck was "Potent Pee-aire" Pelletier. Whatever he was advertising on the back of his jumper really raised a riot.

Your reporters made a startling discovery recently. The rumor that Chiefs Kennedy and Spangler use the same rag to comb their hair is true!

Now that Miss Cooper has completed pathology, she will have lots more time to spend with her frequent visitor to the third deck. We wonder, could this be Irma's secret love???

Mystery of the week: Who were those fugitives who put that pile of snow in St. John's bunk? St. John has threatened to put Sherlock Holmes on the case, so you had better give yourselves up, Bartley and Strout.

We're still trying to figure out where Oddis got that electric beer sign which lights his cubicle. He must have picked it up on one of those lost—pardon us—long weekends.

We have been asked at this time to give our opinion of some of class comedian "Uncle Miltie" Fronko's corny gags. Our opinion: "Phew!"

We could not bear to leave without a word about our parasitology instructor, Chief Robinette, who proved to be quite an authority on Hawaiian "hula" gals and Egyptian "belly dancers" as well as on the subject of parasitology.

That about winds us up for this time, so we'll be seeing you in the next edition.

Crew's Library:

New Historical Novels By Masters

All of your favorite writers of historical novels are coming forth with new novels so whether you're a Roark, Jennings, Fletcher or Edison Marshall fan, here are the books for you!

Jennings' latest is called *THE PEPPER TREE*—this action-packed story took place when the lure of pepper drew men across the seas to face danger and death for the sake of gold. Exciting things happened on voyages to the Indies in those days particularly when the Captain's wife turns out to be the girl the second mate loves!

BENNETT'S WELCOME is Inglis Fletcher's new title; here we follow the adventures of a gallant cavalier fleeing from Cromwell, to come to Virginia as a bond servant hoping to win freedom and fortune in the New World.

RAINBOW IN THE ROYALS by Garland Roark takes place during the Gold Rush in California. Bill and Jim Quick race their sailing ships from New England to San Francisco. Bill made a game of it, Jim took it seriously. The race was for more than fame and profit as both men were in love with the same girl.

INFINITE WOMAN—(it would take Edison Marshall to think that one up!) Lola Montero, Irish born, Indian bred, devotes her life to being an adventuress! Ambitious and determined she became a Countess and the toast of Europe. May be read as a fast paced romance or as a biography of Lola Montez.

Cottage Capers

By Danny Deaver

Every day around the Center you hear an old familiar gripe. Quote "This place is really dead. I'd like to make a liberty but I'm so sick of bars. (This last does not apply to everybody and movies. I wish that just once I could do something different."

Well my friend, the next time this happens to you I've got a suggestion. Have you ever been down to the "Y" Cottage? Now don't say baloney, there's nothing to do down there. What do you like to do? Dance? Every Thursday and Sunday nights they have a lot of swell Junior Hostesses and some good records. Read? They have a large library of everything from "The Secret Memoirs of Count Hayadu Sigaski" to "Little Annie Rooney Goes West". Play cards? Every Monday and Wednesday they have bridge and pinochle is always being played.

You say you like classical music? They have a swell collection of classical records and a good phonograph. All in all they have just about everything including a sincerely friendly atmosphere, and believe me when your nerves are all shot after a tough day in a noisy barracks it's rather nice to just drop in at the cottage, plunk your frame into an easy chair by the fireside and just relax. And oh, one other little item of interest to you Carles and Cavallerros, at the cottage there are not one, but two pianos, no waiting. Come on down and try 'em out.

Don't forget the formal dance in December, it promises to be loads of fun. So long for now. See you at the "Cottage".

Four Strippers Soon

The recent ALNAV announcement of selections for promotion included the above nine NNMC Dental Officers. Publication of the selection for Captain came eight years (almost to the day) after the promotion in 1942 to rank of Commander.

All of these officers are attached to the NDS, with the exception of CDR Schlack of NMRI. Starting with the back row, these officers are: CDR A. R. Frechette, CDR S. W. Brown, CDR K. O. Turner, B. W. Oesterling, CDR F. M. Kyes, CDR S. T. Kasper, CDR C. Schlack, CDR K. M. Broesamle, CDR E. G. Pollard.

16 NDS Officers Graduate

Graduation exercises will be held December 20 for dental officers who will have completed a six-month postgraduate course at the Naval Dental School. These officers are (starting with the back row): CDR S. W. Brown, LCDR J. C. Chapman, LT A. B. Noble, LT J. F. Penniston, LCDR R. C. D'Vincent, LT W. H. McNitt, LCDR F. P. Scola, CDR N. J. Overton, LTJG Mazzarella, LT D. W. Newman, LTJG J. Robinson, LTJG G. B. Hoffmaster, LTJG R. R. Troxell.

Special Courses Completed

In mid-December these dental officers will complete their months of instruction at NDS in advanced specialty courses. The officers and their courses are: LCDR J. C. Stoopack, Special Prosthodontia Course; CDR S. T. Kasper and LCDR H. R. Super, Special Oral Surgery Course; LT W. M. Marking and LCDR T. McKinney (inset photo), Special Prosthodontia Course. At the time the group photo was taken, LCDR McKinney was in New York under instruction, as part of his NDS course, at Memorial Hospital for Cancer and Allied Diseases.

Med School Scuttlebutt

By O. C. "Skip" Skinner

Snow has fallen; some are sad, it not Bruce Dietz, of Blood Chemistry, who has finally seen his at snow. He was running around letting everyone know that was snowing.

The world would end if... Jim would take less than a half hour in the morning to comb his hair; If Mr. Wells and Chief Langston didn't have that 0830 cup of coffee; If Kimmell and Mattox missed a weekend at Winchester; Chief Bitley failed to keep the station going; If J. D. Brown led to polish his golf trophy; If LCDR Floyd lost his golf balls; and if CDR Ayres stopped smoking cigars.

According to some of the latest news "Muscles" Bonfield has seen his best friend's girl away?? that so Ragoozis???

This reporter wishes to predict forthcoming marriage of Jerry Mattox HM3 to Miss Donna Mcughton.

Congratulations are in order for old friend Dick Waters who took the fatal step November 30. Dick is well known around Med School command as he has the Print Shop Teams on the ball diamond and in various other sports. It am sure all the command joins me in wishing him his lovely bride all the luck and happiness in the world.

John Knight and his buddy Ferguson seem to be well on the way to the wedding bells ring. They have been going with their presents for more than three months which is indeed unusual for these "lover-boys."

Med School has three teams ended in the bowling league this year. From the looks of things of them will be on top with the others not far behind. Leading "S" "terrors" is CDR Floyd, Le Inman and Shroer are lead Lab 1 and 2 respectively. Wishing the boys lots of

Some of Lab 15 are happy, the others are mighty sad. Half that were in Practical now getting their taste of Blood Chemistry, while the other half now in the practical part.

Reporting to the staff a short ago was Gene Merklein HN is now running the morgue. was in Lab 16, but after a weeks on the sick list had to out. He reported here from months duty at San Juan, P.R. hands give a hearty welcome

ough while

"I bet you think I'm a perfect Oh, none of us is perfect."

General director to aged mourn- "How old are you?" "I'm 97, be 98 next month." "Hardly worth going home, is it?"

A hillbilly discovered a mirror had been left behind by some pers.

He had never seen one before looking into exclaimed, "Well, ain't my old pappy, I never had he had his picture tooked!" sneaked the mirror home and to the attic to hide it. But wife spied him and later slipped to the attic and found the mirror. "Mmmmm," she thought, looking the mirror; "So that's the old he has been running around

Personalities About The Center

V. S. Obos, HM3

"I was working for an officer once who told his messenger: 'Get Obos for me.' The messenger did not return for hours. The officer was about to send the MAA after him when the messenger returned dejected. 'Why didn't you get Obos?' inquired the officer. 'Sir,' said the messenger, 'I asked every musician on the base, but we don't have a single Oboe here.'" Actually the officer was hunting for Victor (cross the t) Stanley Joseph Obos, HM3.

Obos is Center Command's funny man. He loves to play with words. A favorite line of his: "I can't say big words... take automobile... I can't say that, automobile—that's short for car." Obos is an English Teacher's nightmare.

He entered the Navy in September 1944 and has had duty on the USS Ajax and Bayfield. Also, a tour of duty with the 1st Marines and at NAS Kodiak, Alaska. Among shore establishments he has been at the Naval Hospitals, Seattle, San Diego and Great Lakes.

"Dopey" is his favorite. She's an Alaskan spitz, and Obos says she's the smartest dog around. Every night, she goes to the front door exactly a half hour before his arrival and waits for him. Other pastimes include swimming, dancing and wrestling.

Obos is married and lives with his wife and 10 year old daughter, Joanny, in Riverdale, Md.

Patients Make Xmas Gifts

During the past several weeks the Red Cross Craft Office has been humming with activity. Many patients are concentrating on making Christmas presents for their family and friends. There is a wide variety of crafts from which to choose.—For that important gal in your life, do you think she would like a new table place setting? Maybe she would prefer a new rug—or bracelet or belt? And how about a little felt animal for a son or niece or nephew? They are very fond of them. Perhaps you would like to make something for yourself—could you use a new wallet? We are able to offer a limited amount of work in leathercraft.

If you are an ambulatory patient, you might like to visit the Red Cross craft shop which is located in Room 205B—on the second deck near 6C. If you are a bed patient, you'll see the Gray Ladies on your ward soon with the craft cart. They are happy to be of assistance and help you with the craft project which you choose.

R. R. Richards, HM3

"Soccer is the best game there is," says Robert R. (for Ralph) Richards, HM3 of the Naval Hospital. He played the "National Game of Britain" while in high school.

Born in McKeesport, Pennsylvania on January 14, 1929 he attended McKeesport High School and Kisher Prep School before entering the naval service. He enlisted on "April Fool's Day," April 1, 1949 in the city of Pittsburgh.

His indoctrination in the ways and means of Navy life was taken at USNTC, Great Lakes, Illinois. Following Recruit Training he was taught the why, how where and

Experience is the name everyone gives to his mistakes.

Oscar Wilde

when of a hospital corpsman at the Hospital Corps School at Great Lakes, Illinois.

Upon completion of Corps School, he reported to the hospital here to put the theory into practice. Since his arrival he has done duty on Wards 109, 6B, 6C and Tower 15. He is presently working at the Information Desk.

Richards' hobby is going home on weekends (when he can). He plans on leaving the naval service when his hitch is done and starting a new and different hitch, one that lasts a lifetime.

Navy Belles

BY GEORGE

From all the different sizes and shapes of boxes coming in you can see the ol' Christmas spirit taking shape. Talk of Christmas leaves and going home for Christmas—every one hopes they will be on the list.

Now that football season is over with a few lucky girls getting tickets to the Army-Navy game. December came in with a full Basketball schedule the very first week. On the 5th the girls played the Marine WR's from Henderson Hall, on the 7th they play Barracks K, Waves. Over the week end we had as our guest the Waves from Norfolk, and played them 2 games. With a line up of—Madson, Shook, and Miss Whiteman as forwards — Olsen, Glendenning, and Johnson as the guards for a starter they should keep any team busy for an hour. We have a group of girls standing by every bit as good to fill in as soon as they are needed.

Just Around Our House

The biggest thing that hit our Barracks was the storm that broke loose when Joy Shrader got her orders to England.—Joy has been here for a long time and we all envy, and hate to see her go. She

Albert Jones

"His hobby is his joy forever," if Keats will permit the slight alteration. In the case of Albert H. Jones of the Civilian Guard, however, the saying is exact, because poetry is his hobby and one of his biggest joys. He first became interested in the intricacies of meter in his high school days, but did not accomplish much writing until some years ago. "Some people think it's sissyish, but I maintain that poetry is downright fascinating," declares Mr. Jones.

Mr. Jones, along with Mr. L. R. Gray, are the only two left from the original crew which arrived here in February of 1942. Since his arrival he has become Assistant Supervisor.

The Black Hills of South Dakota is home for him. He came to Washington in 1941 to live with his daughter. He has several of his poems published in newspapers and small periodicals. Mr. Jones submits the following:

A Friend In Need
Times like this, when things go wrong,
And hope seems sure to end,
Like a ray of blessed sunshine
Comes a message from you, friend.
A kind word, a card or letter
Have my sorrow shared by you.
I will thank my God in Heaven
For a good friend, tried and true.
Often burdens seem unbearable
If we but pray to God above
He is sure to send us comfort
In a friend whom we may love.
So the burden of my sorrows
Lightened by the word you send
May God bless and keep you safely
Is the prayer from me, your Friend..

left December 4th. for 10 days leave then she reports to New York, awaiting orders—Bon Voyage Joy.—In case any of you girls want to go to Merry old England I will tell you a secret. This is what Joy did, she promised to teach the English Hill-Billy music.

The new faces you have seen around in the past month belong to the five girls arriving from Barracks K. Three want to go to Dental school and two want Hospital Corps School.

Besides spending much time working with the basketball team, Rusty Olsen has a couple guinea pigs up on third deck. I think she has them in training too. Maybe she is teaching them basketball as a sideline.

Happy Christmas time from the girl in the heart of Maryland.

The famous scientist scanned the heavens through the huge telescope. Intent upon the sight, he spoke to his colleague, without turning his head: "It's going to rain tonight."

"What makes you think so?" "Corns hurt," said the scientist.

Old Lady: "You don't chew tobacco, do you little boy?"
Small One: "Nope, but I can let you have a cigarette."

Not Much Research Involved

By T. J. Conto

Another deadline to meet and another column, I hope that this will continue to hold your reading interests in the future as last edition did.

There are many new arrivals to mention: Officers—LT Murray, USN; ENS Duckworth, MSC; LTJG Baldrige, MSC; LTJG Bassett, MC; Enlisted men—McElroy, HM1; Silvers, HM1; Williamson, HM1; Swanson, HM2; Conley, HM3; and Weddell, HM2; Austin, TSgt, USMC; Civilians—Harris, GS11; Snodgrass, GS9; and Blackburn, GS3. Yours truly along with the entire staff at NMRI wish to welcome you all aboard and hope that you find the working and recreation atmosphere to your liking.

Jackie James, the beloved steno in the library pulled a fast one on father time. It seems that she was curtailed in Erie, Pa. over the weekend due to heavy snow storms covering Pa. During this time she must have had many hours to think over the seriousness of matrimony, because she went headlong into the holy sacrament before she had previously planned. Regardless of the crew feeling disconsolate over not receiving any wedding pastries, we wish her many happy years ahead.

Dr. L. Cecchini, coach of the NMRI basketball team relates that there has been a suprising turnout for the team this season. The team has speed, aggressiveness, and determination. They should go to the top of recognition providing that the attributes mentioned remain throughout the entire season, and no fade away into oblivion because of high opposition.

A recent visit was made by Gloria Pagano, ex-wave of radiation technology. She came to bid the crew farewell and also to announce that she and her Army corporal husband produced a fine baby girl. She leaves next week to her home in Brooklyn, N.Y.

A bowling team has been formed recently. D. E. Teter took over the helm as captain and stated men as Van Belois, Bruntmyer, Johnson, Talbot, etc, will be doing the striking and sparing. Good luck in all competition.

The most talked about subject is Xmas and New Years Leave. It seems that more than half the men want X-mas with few wishing to turn in the New Year. It should bring a nice problem to LT Sabbag, personnel officer and HMC Tolar, CMAA.

On Friday, 1 December, the Institut's entire staff was confronted with getting prepared for personnel inspection. It has been reported that it went over very nicely and that the inspecting officers were greatly pleased with the presence of the officers and enlisted men. Late flashes show that D. E. Nigh is showing off his bowling form against HMC Liles at the alleys of the Rec. Center. Better luck next time chief.

At this time in the column I wish to mention that Mr. H. J. Mark, chemist at the Institute, will be serving God in high esteem. On the 15th of this month he will be leaving the area to join the Franciscan Monastery. With him will go our desire that his life will be full of blessing and acknowledgement of such a sacrificial endeavor in joining one of the highest ecclesiastical professions.

Again comes the part of a column that a good reporter hates to encounter, the end, so till the next edition, I bid you all adieu.

NCPI 195.5

For many years men of industry have been endeavoring to increase the interest of management in various programs for better employee relations. During the recent war this type of program gained new impetus and we saw suggestion boxes, and employee group meeting notices posted on bulletin boards which had previously been used only for an occasional posting of literature used in connection with a fund-raising campaign.

The Navy Department too has placed new values upon such efforts in the years since the war. Navy Civilian Personnel Instructions and other official and non-official publication have been eagerly referring to work improvement programs, work measurement programs, safety programs, incentives, awards, and the like.

Within recent years new periodicals have come to our attention—"Management Digest", "Advanced Management", and others. Institutions of higher learning have established new or broader courses on personnel management and industrial relations. Societies have been formed for the advancement of such ideas, and the President himself has originated a fact finding body, the prime purpose of which is to sit down with labor and management and try to steer a course somewhere between the desires or demands of each.

In the field of safety none can deny the importance of the work which has been done by the "life you save may be your own" people. Certainly no field has had more attention from the press and radio, nor has any field more room for expansion where the individual is concerned with getting along best with others.

New and improved mechanisms require new and improved curbs upon their operative potential for the general safety. It requires little imagination to expose the facts concerning our ability to destroy ourselves.

At the Naval School of Hospital Administration the course in personnel management has been accelerated and broadened to place new emphasis upon employee incentives and awards for commendable service to the Government.

Civilian employees of the military establishment are too frequently left out when the commanding officer holds meritorious mast. This is not an intentional omission but rather it follows the thought (or lack of thought) concerning the status of these civilians whose service of length or particular merit should no more be overlooked than that of the man in uniform. Such service will never go unrewarded if the command is to prosper.

For suggestions of merit which find their way from the suggestion box into actual money saving application, the Navy Department has paid, and continues to pay, considerable sums of money from time to time, depending upon the extent of application of the idea to use throughout the naval establishment.

The value of good employee relations is an old story to those of management who have used it as a measuring rod to determine maximum effort and results. Now more than ever before maximum effort is required of everyone if we are to continue to enjoy our society and its blessings of freedom of the good old "laissez-faire" variety.

ADMIRAL KING

(Continued from page 1)

ious service" as officer in charge of the salvage operations of the USS S-51 which was sunk off Block Island, September 25, 1925 and the USS S-4 which sank off Provincetown, Mass. on December 17, 1927.

After serving as Commander, Aircraft Squadrons, Scouting Fleet, he was named Assistant Chief of the Bureau of Aeronautics and served in that capacity from August 1928 until April 1929. In April 1933, he completed the senior award course at the Naval War College and with the rank of Rear Admiral served as Chief of the Bureau of Aeronautics until June 1936.

In August 1939 in his permanent rank of Rear Admiral, he reported for duty as a member of General Board of the Navy and in December 1940 he returned to

sea as Commander Patrol Force, United States Fleet. On February 1, 1941 with the rank of Admiral, he was designated Commander in Chief, Atlantic Fleet.

Appointed Commander in Chief of the United States Fleet on December 20, 1941, he assumed command December 30, 1941. The duties of Commander in Chief, United States Fleet and Chief of Naval Operations were combined under Executive Order of March 12, 1942. On March 13, 1942, President Roosevelt nominated Admiral King as Chief of Naval Operations and he was confirmed to that office on March 18, 1942.

For distinguished service concurrently as Commander in Chief of the U. S. Fleet, and Chief of Naval Operations, during the World War II period Fleet Admiral King was awarded a Gold Star in lieu of a third Distinguished Service Medal with

citation in part, as follows:

"... In his dual capacity (he) exercised complete military control of the Naval forces of the United States Navy, Marine Corps and Coast Guard and directed all activities of these forces in conjunction with the U. S. Army and our Allies to bring victory to the United States. As the United States Naval Member of the Joint Chiefs of Staff and the Combined Chiefs of Staff, he coordinated the naval strength of this country with all agencies of the United States and all of the Allied Nations, and with exceptional vision, driving energy and uncompromising devotion to duty, he fulfilled his tremendous responsibility of command and direction of the greatest naval force the world has ever seen and the simultaneous expansion of all naval facilities in the prosecution of the war..."

The holder of seven honorary

degrees, Admiral King has also had conferred upon him Orders and Decorations by several governments of foreign countries. His distinguished achievements have also earned him many awards by fraternal groups.

Admiral King has six daughters and a son, LTJG Ernest J. King, Jr., USN. The King residence is at 2919 Forty Third Street, N. W., Washington, D. C.

Then there was the actress who married a director, longed for children and didn't have any. So she married a producer.

We hear that the weaker sex is often the stronger sex because of the weakness of the stronger sex for the weaker sex.

New Score Board For Rec. Gym

The lights of the new scoreboard show a victorious home team. Actually, there was no game when the picture was taken. The score was flashed simply to illustrate what happens and we hope does, happen to opponents who come up against the 50-51 Admirals.

All Star Talent Show Expected Here Dec. 25

Arrangements are being made for top flight talent review on our stage Wednesday, December 27 at 8:00. With the array of stars expected, it is difficult to say who gets top billing. Here goes with some tho—Myrna Loy; the ever popular Burl Ives, "The Wayfaring Stranger"; Edward Arnold; "Her Nibs" Miss George Gibbs; Danny Scholer, star of Broadway musical comedy "Texas Lil' Darlin'"; Scotty Grammer, appearing at the Park Avenue Restaurant, New York; Capitol Reading Star, Mary Mayo; Allen Grey; Doles Dickens, and others. If arrangements are completed and the show becomes a reality, we think it will, some of the talent will fly in to Washington just for our show. This top notch show planned for patients and staff that will not be able to go home for Christmas is produced by Mr. Hirsch de la Paz, President, Washington Music Guild, and will be MC'd by Arnold, Night Club Editor of the Washington Daily News. Watch the Daily Bulletin for definite announcement of this great show.

News Shorts from The Editor's Desk

The Navy has modified recruitment standards to permit enlistment of persons with dependents. They will accept candidates in pay grades E-1, E-2, and E-3 who have more than one dependent.

The United States Navy Band is conducting symphonic band concerts every Friday evening at 8:30. The concerts are given at the Departmental Auditorium, and the admission is free.

(AFPS) Twentieth Century Fox recently began production of "Frog", a full length feature on United States Water Demolition Team exploits.

Commander Kenneth O. Turner, Chief of the Department of Operative Dentistry, NDS, will present a poster clinic entitled "The Silver Amalgam Restoration" on 30-31 January, 1951, before the Philadelphia County Dental Society.

Season's Greetings

ADM Willcutts Extends Xmas Greetings To Personnel

Battle casualties need not dampen the cheer of Christmas. The stories of high courage and heroic valor gleaned at the bedside of our wounded youths, veterans over night; the undaunted spirit of our Marines who from their foxholes on distant Korea, proclaim new medical rules—"we don't yell 'til we're hit twice," spur anew the American tradition for a fervent and joyous Christmas celebration.

So again the Christmastide, festival of The Nativity, the Glorious Birthday of The Martyr Who gave His Life that goodness might be ours.

Our American way of life is good, it is priceless, and will be defended, maintained, at all costs. Hence our thrill and ecstasy in revering the sacred anthem sung by the heavenly host in announcing the good tidings of great joy—"Glory to God in the highest, and on earth peace, good will toward men."

To the sick and wounded of our hospital, to the naval and civilian staff of the component commands of our great Naval Medical Center, Mrs. Willcutts joins me in sincere greetings and hopes for a truly Merry Christmas, a Better and Happier New Year.

M. J. Willcutts

Rear Admiral, MC,
U.S. Navy, Commanding

26 Wounded Soldiers Get Purple Hearts

Twenty-six soldiers, patients here, were awarded Purple Hearts recently for wounds received in the Korean fighting.

Col. M. L. Sheppeck, Executive Officer of Walter Reed pinned the medals on the men in simple ceremonies held in the wards. They had been injured during August and September, when UN troops were retreating toward the Pusan area.

Most of the men were 18 and 22 years old—among those injured were: PFC Wm. H. Creed of Route 2, Alexandria, Va., who was hit by mortar fire while fighting along the Nakdong River line on August 16, was among those receiving medals. He is the son of Mrs. Hilda J. Creed.

Cpl. Roy S. Shoemaker, 20, of Hancock, Md., was wounded while fighting with the 35th Infantry Regiment, 25th Division, in the Masan area.

Sgt. Mumaw, Woodstock, Va., the only recipient who still is con-

Purple Heart Heroes

Pfc John E. Mumaw of Woodstock, Va., is congratulated by Col. Michael L. Sheppeck, MC, U.S. Army, Executive Officer, Army Medical Center, after presentation of Purple Heart for injuries incurred in the Korean Campaign. Others pictured are LTJG Edward A. Thompson, MC, USN, Ward Medical Officer and ENS Joyce A. Rodgers, NC, USN.

Purple Heart

Continued from page 1

fined to his bed, was knocked off a tank by mortar fire while attacking a roadblock.

Pfc. Howard Tipton, Big Stone Gap, Va., who celebrated his 19th birthday last Sunday, was shot in both eyes.

Pfc. Richard A. Czainot of the 1st Cavalry Division lost his right eye and suffered concussion of the ears when a mortar shell fell next to him during the fighting for Hill 303—the hill that changed hands 11 times in the Waegwan area.

His buddy, Pfc. Gary D. Wilcox, of Parkersburg, W.Va., was shot during a retreat from the hill. Pvt. Wilcox was found by the Reds and raked with a burp gun that hit him in the shoulder, face and hand. They left him for dead but later that night he crawled 800 yards down the hill until he was found by friendly troops.

All of those receiving Purple Hearts were flown by Military Air Transport service from Japan to Bolling Air Base.

Santa Is Huge Success With Kiddies

The NNM auditorium was the scene Saturday of the largest kiddies Christmas party ever held here.

The party included children of all NNM staff, both military and civilian.

Santa on stage with presents and goodies piled high behind him, charmed the oldsters as well as the youngsters. Everyone seemed to have a good time.

Heart Machine Ready To Save Human Lives

(AFPS) A mechanical heart-lung designed to take over the job of the human heart and lungs has been invented.

Developed by doctors of the Hahnemann Hospital, Philadelphia, the machine will enable operations to be performed hitherto considered impossible.

Acting as a substitute heart, the device keeps up the flow of blood through the body and maintains the proportion of oxygen and carbon dioxide in the blood stream for a heart that "dies" during an operation.

As yet untried on human beings, the mechanical heart has been successful on animals. It is being held in readiness at the Hahnemann Hospital to be applied to the heart of any patient who might not otherwise be revived.

Pointed Pearls

Sympathy is never wasted, except when you give it to yourself. Some people think they have made a success in life, when all they did was to make a lot of money.

The only reason some people don't give themselves a pat-on-the back is that they aren't double-jointed.

LTJG Hollis Studied At Minnesota U.

Often there are novel circumstances in the Navy of which a majority are never apprised. The case of an administrative resident in our midst might well be considered in this vein. In July of this year LTJG Thomas L. Hollis, MSC, USN, came to us fresh from a course in Hospital Administration at the University of Minnesota. Mr. Hollis is one of several of our Medical Service Corps officers who have taken advantage of this opportunity afforded by the Navy.

Hailing from deep in the heart of Texas, he first joined the Navy in March, 1934. His sea duty started early, when he went aboard the USS OKLAHOMA in San Diego, California and went around to Portsmouth, Virginia. There he attended Hospital Corps School and upon completion was assigned to the Naval Hospital, Norfolk, Virginia.

In addition to his indoctrination cruise, Mr. Hollis has served aboard the Naval Vessels, USS HENDERSON, USS LOUISVILLE, USS RELIEF, USS HOLAND, USS ORTLAND, USS CASCO and USS ALLENDALE. He has served in numerous departments in Naval Hospitals, San Diego, California, Seattle, Washington, San Leandro, California and Newport, R. I. All of this duty has been vitally important in attaining his present position.

Lt. Hollis' Naval service has enabled him to become a registered nurse and sanitarian in the state of California. In connection with this, he attended the University of California from 1946 to 1947 studying sanitation and rodent control. Completing this, he served as assistant to the District Medical Officer, Eleventh Naval District, in preventive medicine. From there he went to the University of Minnesota.

While his role here at the Naval School of Hospital Administration is but an additional duty, his instruction in administration aids immeasurably in preparing students for the field. Mr. Hollis was a student of the school here when it was still in its infancy.

The Chaplain's Corner

Chaplain H. Grady Gatlin

Christmas is here. The atmosphere is full of the genuine Christmas spirit. The true spirit of Christmas is to bring joy and happiness to—to broadcast love, friendliness and good cheer. Some of us are to lose sight of the significance of the real Christmas season and the of Galilee. Christmas implies infinitely more than merry making, feasting—more than sending and receiving cards or the exchange of What is the real meaning of Christmas? Why do we pause in the of pressing problems to observe the birth of a babe—an event that place more than 1900 years ago? WHY? Because that babe was son of God. Take "mas" from Christmas and we have CHRIST, unto you is born this day a Saviour, which is Christ, the Lord. God in the highest, and on earth peace, good will toward all men, Hebrew but human; not only of yesterday but of to-day and to-m and forever. He belongs to the ages—all ages. In him were huma divine elements. He brought to earth a part of heaven. He gave world a new ideal. He brought to the individual freedom and libert revealed to a blind and stumbling and hungry humanity a GOD of I and MERCY.

In all spheres we find Christ. He is to be found in literature, al all works that are uplifting and for the betterment of mankind, every step of progress for the forward march of civilization. Take out of the world and chaos would follow. Literature would be erished. Art and music would be robbed of their beauty and ho No one age can claim Christ, for he is a MAN of the eternities. nation can call him her own for he is a cosmopolitan with no localism clinging to his garments.

Christ is the ideal of the heart, the goal of humanity.

"If Jesus Christ is a man,
And only a man,—I say
That of all mankind, I will cleave to him,
And to him will I cleave always.
If Jesus Christ is a God,
And the only God,—I swear
I will follow him through heaven and hell,
The earth, the sea, and the air."

"And she brought forth her first born son, and wrapped him in ling clothes, and laid him in a manger; because there was no room them in the inn."

NEWS SHORTS

(Continued from page one)

Correction: In the last issue of the NEWS, December 11, page 4, lower right picture, the outline listing of the five NDS Dental Officers and their advanced specialty courses should have read: LCDR J. C. Stoopack, and LCDR T. F. McKinney (inset photo), Special Oral Surgery Course; CDR S. T. Kasper, LCDR H. R. Superko and LT W. M. Marking, Special Prosthodontia Course.

A Teen-Agers' Dance will be held in the Commissioned Officers Mess, NNM, December 28. The Oak Leaf Room will be reserved for the group from 9 til 12 p.m.

All teen age children of Medical Corps, Dental Corps and Medical Service Corps are cordially invited. Girls formal.

For reservations call Mrs. Shaw (Sh 2445), Mrs. Raines (WI 3669), Mrs. Frazier (OL 2975) or Mrs. Delaney (OL 3895) prior to Tuesday, December 26.

RADM M. D. Willcutts, C.O. NNM, delivered an address at the Annual Meeting of the Boston College of Surgeons December 11.

The meeting was held at Harvard College, and the subject of Admiral Willcutts' address was "Mass Casualties."

College students of station families home for the holidays are: Betsey Bradley, Wellesley College, Wellesley, Mass., daughter of CAPT and Mrs. Bradley, Executive Officer NH; Bob Gillett, Bolles Prep School, Jacksonville, Fla., son of CAPT and Mrs. R. M. Gillett, CO, NH; Neil McNamara, Duke University, Durham, N.C., son of CDR and Mrs. P. J. McNamara, Assistant Chief of Surgery, NH; and Dave and Mort Willcutts, both attending Indiana University, Bloomington, Ind., sons of RADM and Mrs. M. D. Willcutts, CO, NNM.

L. F. Salazar Studies Color Photo Process

Louis F. Salazar, Chief of Audio Visual system, Malario-Venezuela is a visitor-to the Medical School here, learning photography process for t in Venezuela.

He was born on February 1917 in Carupano Edu Sucre, Venezuela. He now holds a Bae of Science degree in public h

This is Mr. Salazar's first t the United States. He is tra under the supervision of CDR Amberson, MC, USN and is instructed by HMC J. E. P. USN. He spent two months i lanta, Georgia prior to ar here where they prepared a training course in Audio V Production. His visit is spons by the Ministerio de Sanida Asistencia Social, Division de lariologia, Venezuela.

Admirals Pound Hoop For 62

The boys journeyed to Dahlgren to take on the gunpowdermen on their home court. Still smarting under their setback at the hands of the Flyer hoopsters from Anacostia, the local casabans started tossing the leather at the nets with a quick basket from the jump by Hawley. Ramer took a side-set, a free toss and a corner one-hander to put the green and white into a good lead. Walsh whose aggressive tactics drew vitriol from the hospital bench canned three successive shots to put the men from Virginia in the ball game. Mosley and Ramer working off beautiful passing from Oddis. Beversdorf and Rock, connected for eight points before the home team took time out. The all court press as used by the starting lineup was now changed in favor of a 2-1-2 zone with 'Ski,' and Williams working at the guard spots, Miller handling the center lane and 'Battery' Brothers holding the forward position with Day. This team forgot to bounce the ball and started throwing, with Kurzawski and Williams hitting their long sets, Miller moving through and around the charity center; the hospital boys never looked so good. Dahlgren's Walsh was outstanding on his floor coverage and offensive eye but Quantico would have taken a tumble at the hands of the Bethesda team this night.

Navy Belles

BY GEORGE

Dear Santa Claus

The girls just around our house have been very good during the past year. I am sending you a list of things needed.

Louise Miller, some safety pins for her first aid kit. Betty Hopper, a coat to wear while her other one is in the cleaners. Jerry Pringle, more fouls before she can be put out of the game, and "Josh" Shook a few pillows to fall on during her games.

A violin lesson or so for Hammy, since Sandel has moved into first deck with her accordion. Posy needs a ski for her Bike, because it snowed after she unpacked it. Marjorie Meacham wants a bone for Queenie.

Dorothy Fleming wants some new records to play. Rusty a salad for her guinea pigs, and Irene Ramos a new knitting teacher after the outcome of the beautiful shawl she made.

Please don't forget the rest of our girls. I remain your friend, the girl from the heart of Maryland.

George.

Dental Explorer

By L. P. Burger

Well, 'Good Tom' is back! Nuff said there.

New faces are continually appearing here now. Up in the main prosthetic lab we have Martin Crook, DT3, who just returned to the service. We also have Cdr. A. P. Sweet. Welcome aboard.

All hands getting ready for the big celebration of the coming New Year. And leave is becoming the byword now. Taking leave we find Swedberg, Zagrosky, Ramos, Farrington, Ford, Owen, Diaz, Chappell, Britsky, Haupt, West, Hawley, Adams and Sandel all with their bags packed and rarin' to go.

T. R. Smith, DT1, we see, is now a proud papa! Congratulations to the Smiths.

We have a pretty nice snowman in front of building No. 123. The boys called it "Johnny Reb Up North". About seven feet tall too. The labor was put forth by Jose, Gattis, Gray, Exton, and Winteringham. Say, boys, if the men of the South are that big, what happened back in '65?

Looks like this it, so I will close the year by wishing all hands Happy Holidays. . . .

JETTY

I'd love to have that adorable sweater, but I'm flat busted.

Admiralettes Stand 1 For 2 In League

Defeating the Henderson Hall Marines 39-27 and losing to Quarters K Waves 53-33, the NNMCA Admiralettes find themselves with a one-for-two standing in league games. Taking a holiday breather, they have no more league games scheduled until 8 January.

It was one out of two again in the two practice games with the visiting Norfolk Waves on 8 and 9 December. Rallying in the fourth quarter, after trailing throughout the game, NNMCA Waves came within two points of the leading Norfolk team as the final buzzer sounded with the score reading 28-26.

Out for a decisive win the following night, the Admiralettes held the lead for four quarters taking Norfolk 31-19. After a considerable lead was piled up, the second string played most of the fourth quarter.

Planning to return the practice match on the Norfolk courts, the Admiralettes are looking forward to a trip to Norfolk after the first of the year.

Shook HA still holding down the spot of high point forward has sunk 40 points in the last three games. Madsen JOSN follows with 29 and Ens. Whiteman with 18, while second-string forwards Taylor DN, and Hopper HM3 have 2 and 1 points respectively.

Manager and guard-captain "Rusty" Olsen HM3 says she hopes to schedule another practice game with the Rockville team or a local high school team before resuming the league play in January when the Admiralettes will meet the South Post Wacs in the NNMCA gym.

Med School Scuttlebutt

By O. C. "Skip" Skinner

Everyone is waiting for the two biggest holidays of the year which are just around the corner. Half of the command is on leave in various parts of the U. S., while the other half is awaiting their turn at the leave part.

Everyone is still wondering about the names of some of "Lover Boy" Kurzawski's women. He seems to be hoarding a large black book that any single man would love to get his hands on. Better be careful and keep a stronger guard on it "Ski".

"Tiny" Schroer and "Moose" Kovarik are still boasting of a championship Bowling team in Lab 2. So far they are still undefeated and look like the number one team this year, along with NNMCA.

All hands wish to welcome Chief Burnett aboard! He came to us from the FMF at Camp Lejeune, North Carolina. His assignment here is the Pathology department.

Until the Holidays are over the news is scarce, but until all of the crew gets back and the scuttlebutt is flying again I will sign off, and take this opportunity to wish all hands a Merry Xmas and a very Happy New Year.

Say, tell me if I'm in your way Doc.

Not Much Research Involved

By T. J. Conto

Here again with news and fact, written with care and tact, you enjoy our column views, please and read this week's news.

Now let's have a little sports. THE ALLEY SIDE: Our bowl-team came thru nicely with a rout of three game victory over d. School. Van Belois paced the for the Research team by striking and sparing to a high score of 20 points for only one game.

In the following contest, Research edged out of the winning column by Quarters 12. McClelland edged the losers with a high score-game. Best of luck in the futtilts.

ON THE HOOP SIDE: The Baseball team defeated Print Shop the tune of 37-7. For 4 quarters Research team monopolized the boards and thrust offense and defense that couldn't be harnessed by the opposition. Oddell paced the Researchers to victory with a total of 14 points.

In their second game, the team and the going tough against s. Med. In the third and fourth quarters, Phys. Med rallied to victory by edging our speedsters 23-24. Sanchez paced the losers a 6 points. Let's all go out and cheer the team on to success on the comeback trail to victory.

It has been reported that a certain HMC Biles has been recently coming with pride and hopes of avenging the past, his prize, a last offspring of Benny's Maxwell. (Ah! to be young again.) We wish at this point, to remind our readers that Friday, the 15th of December was the 159th anniversary of the Bill of Rights. These Freedoms we lived in unity, and for the guarding of the city, and prevalence of these laws, we shall protect with our lives, if necessary on the soil of the corners of the earth.

To the staff Officers and Enlisted and their families, to all civilian personnel and their families of Institute and all other commands, we wish a very Merry Xmas and a safe, Happy and prosperous New Year.

With the New Year rolls in and a new column begins, adieu.

Centermen Win Opener Played At Anacostia

The local hoopsters journeyed to the Naval Air Station gymnasium at Anacostia to take on the USN Communication Center in their league opener. Starting with an all court press, the "Mighty Mites," so called because they hit the yardstick under the six foot mark, garnered a comfortable lead for the zone defense boys who tally over the six-one measure. In the first ten minutes, Mosely, Ramer, Day, Rock, Oddis and Beversdorf ran the communicators into the boards with beautiful close guarding to set it up for veteran courtman Cornell Brothers who laced the meshes for 22 points. Tommy had good support as the hoopsters worked effectively off Miller, Ski and Williams in the pivot. Williams tallied 13 points in the last half as he led the Center's fast breaking pattern.

Anacostia Tips Admirals Here

The all court press was effective in causing the sharp NAS quintet to have trouble in the opening canto of the Admiral's second league encounter. For the first seven minutes, the hospitalmen commanded a lead as Ramer sank a short set, Oddis drove through the post for two quick buckets and Mosely followed with a one hand push off the slot for an early lead. At this stage the boys were working a vertical weave off a single post with precision but Eggleston, big center for the flyers started to evade the close guarding of Rock with his deceptive glide and racked three quick ones off the pivot. Price followed with two counters and the airdales were in the lead as the zonemen entered the game. White shoved in a long one-hander from side court, Williams went to the charity line for two and once more the lead changed. Eggleston intercepted a hook pass to tally one and then fish-hooked for a lay-in. Centermen took time, and changed the zone to a 2-3 as Eggleston again hit from side-court. The lead saw-sawed as Hillgoss and Warton connected for the visitors while Kurzawski with his excellent ball handling set up Day to take ten fast points. Brothers took a pass from Williams for a lay-up to tie the game up. Price for the bird-boys went to work and hammered the orange ring for eight fast ones while the medics stood by, to push the men from the river bank into the lead and the game.

Saint Nick Had The Duty

[Arranged by a hospital corpsman, name unknown, while on duty at the National Naval Medical Center a few years ago and is reprinted by request.]

'Twas the night before Christmas, the barracks was still.
The sailors were sleeping as most sailors will.
The seabags were hung by the lockers with care
In hopes that St. Nicholas soon would be there.
The men were all peacefully dreaming in bed,
As visions of liberties danced in each head.
The chief in his skivvies and I in my sack
Had just come from town with a quick midnight snack.
When out on the deck there arose such a roar,
I ran to the porthole to find out the score.
I pulled up the shade and I started to shout,
"Just what in the heck is this noise all about?"
A moon made for boondocking shown on the snow
It was pretty cold out, about 7 below.
What I saw looked like one of those carnival floats,
'Twas a rowboat drawn smartly by four Navy goats.
In the boat was a man who seemed quiet and moody.
I knew in an instant St. Nick had the duty.
As quickly as Monday, his billy goats came;
He whistled and shouted and called them by name.
"Now Perry, Now Farragut, Dewey and Jones,"
"What's the matter, John Paul, got lead in your bones?"
A little to starboard, now hold it up short,
No fluffing off now or you'll go on report."
As a squeegie goes over a new coat of wax,
Leaving a wide shiny path in its tracks,
So out in the moonlight, the little boat stopped.
St. Nicholas stood up and the anchor was dropped.
The goat's breath was white in the frosty night cold,
They made quite a sight in blues trimmed with gold.
I opened the porthole quite narrow and round,
The old Saint hopped in with a hop and a bound.
He was in his dress reds, and they fit like a charm,
Had hash marks that covered the length of his arm.
The gifts to be issued were all in his pack;
Beat me how he got in with that on his back!
His eyes—they were watering, his nose caked with ice,
He wiped it with Kleenex, then sneezed once or twice.
He opened his mouth and started to yawn,
It looked like the sun coming up with the dawn.
The stump of a pipe he held tight in his teeth,
And took a small nip from a bottle beneath.
He wasn't so big but he must have been strong
I figured. He'd been in the service so long.
He was chubby and plump, a right jolly old tar.
He said, "Evenin' matey here have a cigar."
He filled every seabag with presents galore.
Tossed a whole pile of discharges there by the door.
Then out through the porthole and into the night.
The snow had stopped falling. The landscape was bright.
With an "Anchor Aweigh" he climbed into his place,
A broad smile creeping all over his face.
One look at his watch and he started to frown,
"This night shift is certainly getting me down.
Merry Christmas," he said as he drove on his way.
"Now I'll finish my rounds and sack in for the day."

Coach's Corner

Basketball season is in full swing now with the local court in use from five until ten in the evening. Intramural holds forth five to six, with the Waves hitting the boards at six-thirty and Varsity taking the floor at seven-thirty. In the Center League NMRI under the tutelage of Morales looks like the team to watch at this stage of league play. Anderson and the Phys. Med team should be the best conditioned, what with their daily workouts and Ike being a tower of strength off the key-hole.

Some well meaning souls are always coming up to the coach telling of a player they saw mite in the intramural league looks like varsity timber. Naturally we get all enthused and wait to see this court hopeful in action. Ninety-nine times out of a hundred the man shows up with two legs, two arms but no sense of team play, or wants to take every shot and have the other players look on.

Sure, the fellow looks like an unorganized ball but when he has to knuckle down and be absorbed into a pattern of play which changes as the defense shifts, he generally leaves a lot to be desired. Too often also, we find that the 'gymnasium star' will be a rooting section takes over and the clock is running out—ever if he can put the ball through the hoop with a high degree of consistency we can generally find the player to team play and this is the story on how to make a varsity squad.

The Bowling League is also rolling, thanks to the efforts of Comdr. Floyd of the Athletic Committee whose job it is to see the matches are played off and league standings kept up to date. At this point it appears that devotees of the mineralite play under the colors of NavMed and the NDS' contingents are nipping and tucking battle for first place. In the big IF column we could say that if they were available for Comdrs. King and Superko would be a great help to Dental, as last year they were two of the best players in the city of Washington.

Well, the local boys are off to a good start in the Potomac Naval Command League with wins registered against one Practice injuries and the loss of one man on emergency leave really hurt. Georgie Funk, 6-2, a 190 pounder has a severe sprain and will be lost till the end of the year. 'Prof' Echols has leave school for a few weeks to be at home and with the loss of two key players went out hoping to rebound on both boards.

axiomatic in basketball to control the backboards to win and these boys were 'jumping' just time and again the bench will note their hands high above the imaginary cylinder which is above the ten foot ring. Considering the benching of the aforementioned we were blessed with a tured navicular in Don Pollock, other six footer whose ball-handling played a prominent role in this season optimism.

"Evening Star Revue" Beauty Pageant Stars Here Sunday

Some of the stars shown here—left to right—first Miss Dorothy Rosser, third Miss June Mitchell, fourth Miss Joanne Weiler, sixth Miss Nancy Crawford, in blackface, Miss Senta Von Erigfried.

Patients, staff and their guests will be entertained here Sunday, January 21 by State, City and British Pageant Beauties.

MATS Evacuation Plane Unveiled For Casualty Air Lift

A new air evacuation version of the C-54 Douglas Skymaster has been unveiled by the Military Air Transport Service before high government officials and ranking officers of the armed services prior to entering the Pacific Airlift. The Commanding Officers of the NNMCC were present at the unveiling, held at the Washington National Airport on December 27. The C-54M, it is designed specifically for quick conversion from a standard air cargo port to a special 32-litter air transport airplane, providing new means to sick and wounded military patients.

The unveiling, Maj. Gen. Laurence S. Kuter, commander of the Military Air Transport Service, Maj. J. P. Whitney, USN, vice commander MATS, and Brig. Gen. Ford F. Hall, air surgeon MATS, stated the C-54M was a carefully engineered conversion, developed over a two-year period. Features scheduled to be incorporated in future transport aircraft.

(Continued on page six)

Ward entertainment will take place in the afternoon followed by a stage performance in the NNMCC auditorium at 1800.

Featured in the entertaining group will be, Miss Anne Urie, "MISS MARYLAND 1951" who will be assisted by, Miss June Mitchell, Birmingham, England, a Queen of British Pageant Beauties, and Miss Emily Longacre, "MISS PENNSYLVANIA 1951."

All of the young ladies of the show, attired in evening gowns will visit wards from 2 PM to 4 PM, entertaining and distributing chocolate bars to those patients who are unable to attend the evening performance.

Members of the cast include the following talented young ladies: Miss Anne Urie "MISS MARYLAND 1951," Singing and piano selections; Miss Emily Longacre "MISS PENNSYLVANIA 1951," Singing songs of the Pageant; Miss Nancy Crawford "MISS YORK," Baton Twirling; Miss June Mitchell "QUEEN OF BRITISH BEAUTIES," Contralto singing; Miss Dorothy Rosser "MISS ALLENTOWN," Ballet and her original Slave Dance; Miss Joanne Weiler "MISS GREATER LANCASTER," Concert Pianist; and Senta von Ehrenfried "MISS

News Shorts From The Editor's Desk

CDR Frank M. Kyes, Head of Full Denture Division at NDS will lecture on "Special Problems in Full Denture Construction" at the District of Columbia Dental Society Postgraduate Clinic, being held March 11-14, at the Hotel Shoreham, Washington, D. C.

The Navy's shore establishment fire loss record hit a 10-year low in the Fiscal Year 1950. Losses from fire totaled only 1/100th of one per cent on property valued at almost \$15 billion.

(AFPS) The Navy has eliminated plane trigonometry and elementary physics as pre-entrance requirements for the U. S. Naval Academy. These subjects will be added to the Academy curriculum.

The Secretary of the Navy has authorized all ships and stations to issue enlisted men's blue trousers with pockets and zipper fly front immediately in sizes in which the stocks of button trousers have been exhausted.

When stocks of each additional size of button trousers are depleted, issue and sale of the improved trousers in those sizes will be started.

It was stated that either the buttoned front or zipper front style are regulation and will be worn for dress and undress concurrently in all naval units until a date that will be announced later.

Chaplain Kerrigan Transferred; Chaplain Austin Reports Here

Chaplain Dennis R. Kerrigan, USNR, has been transferred to the USS Columbus. He reported to Southampton, England where he boarded the ship. The former Senior Catholic Chaplain reported here for duty from civilian life in September 1948. He had a previous tour of duty during World War II, 1943 to 1946. Father Kerrigan was assistant pastor of a Lowell Massachusetts church.

Another USNR who reported here for duty is Chaplain Leroy Churchill Austin. LT. Austin was reactivated with the 4th Marine Infantry Battalion of Minneapolis, September 1950.

Originally, the chaplain came from Oak Park, Ill., but he was minister of the Lynnhurst Congregational Church of Minneapolis at the time of his summons to active duty. Chaplain Austin served in World War II aboard the USS Taconic, AGO 17, and at the Naval Air Station, Beaufort S. C., and Naval Training Station Newport, R. I.

Corpsmen, Patients From Korean War Area Here

Four Of Five Suffering From Frostbitten Feet And Fingers

Back row: H. E. Geddings, HM1; Walter Hunter, HM3; Frederick Bryan, HM3; Front row: E. R. Mickens, Jr, HM3 and Moss Jacobs, HM3.

Among the casualties received here from Korea are five hospital corpsmen. They received their injuries while on duty with the Fleet Marine Force in the combat zone.

Staff Dance

The first staff dance of the New Year will be held at the National Press Club on Friday, January 26. The doors will open at 2030 and close at 0030.

The station orchestra will supply the music, this being their premier appearance at a station function. Have no fear though, Bob Kuremsky and his boys are good, as will be attested by anyone who has heard them play in the CPO Club. A quote serves here to establish that last statement into fact: "They're small, but make plenty of noise!"

PAYROLL SAVINGS GETS YOU THROUGH!

OPPORTUNITY FOR ALL AMERICANS U.S. SAVINGS BONDS

Moss Jacobs, HM3 USN was born in Hay Market, Virginia on April 2, 1929 and graduated from Osborn High School in Manassas, Virginia on June 1, 1947. Jacobs enlisted in the Navy at Washington, D. C. on March 8, 1948 and received "Boots" and Hospital Corps School at Great Lakes, Illinois. From there he reported to the naval hospital at Chelsea, Mass. He reported to the FMF, 1st Marine Division, Camp Pendleton, California on August 2, 1950. He arrived in Pusan, Korea on September 6, 1950 and participated in the Inchon landing. While there he was frostbitten in action against an organized enemy on his feet and fingers. He arrived here on December 23, 1950 via USNH Navy #3923, USNH, Oakland, California and is now on Ward 3-C.

Frederick Bryan, HM3, USN, also a patient on ward 3-C was admitted on December 24, 1950 via Oska Hospital, Japan, Tripler General Hospital Hawaii and USNH, Oakland, California. Bryan was born on January 16, 1931 in Louisville, Kentucky where he attended Flagg High School. He enlisted in Naval Service in that city on January 19, 1948. After completion of Recruit Training and Hospital Corps School at Great Lakes, Illinois he reported to the naval hospital at Newport, Rhode Island for duty until July 31, 1950. At that time he reported to Camp Pendleton, California for duty with the Fleet Marines. After spending one day in Japan he was sent to Pusan and assigned to a Weapons Company, 1st Battalion, 5th Marines. Bryan also sustained frostbite of both feet while in action against the enemy in Korea.

Answer Please?

A \$25 Savings Bond was won by William D. Stewart when he answered correctly the question posed by the MC of the program "Fools Paradise." Stewart has been a patient here since November, 1950.

Acrylic Resins Replace Glass For Plastic Eyes WW II Brought Shortage Of Fine Glass Imported From Europe

Back in '44 the Naval Dental School started experimenting acrylic resins—a material used in prosthetic dentistry—to develop a plastic substitute for the old-fashioned "glass eye." Patients were mostly combat veterans, but the Maxillofacial Prosthesis Department, Dental School has also made acrylic replacements for a lot of service men who had lost an eye in traffic or other accidents.

The main reason for trying to find a substitute material was that the U.S.A. could no longer import the finest grade of glass for making glass eyes. We could get neither the special kind of glass sand from Europe, nor the secret formula for blending it.

While they were at it, the dental officers wanted more than a substitute. They wanted an improvement over the old glass prosthesis and its many shortcomings. Most of these faults were there because glass was the material used. The eyes would break easily; there are even reported cases of glass eyes "exploding" while being worn. They had to be selected from stock trays—like picking out a ring in a jewelry store. None of them would fit accurately, and the glass would become etched by secretions of the socket and irritate the tissues. Glass eyes never look quite natural; they usually stare straight ahead, and have a shiny, unnatural surface.

The acrylic eyes now being made by the Navy are light, smooth and tough. They can be dropped without breaking. Each eye is individually molded and painted—"tailor-made." It fits perfectly, matches the patient's natural eye, and has a natural appearance of depth.

A most important improvement over the old-style glass eye is the natural movement. Because the acrylic eye is in perfect, positive contact with all tissues, the muscles of the socket move it, along with the natural eye, when the patient glances to one side or the other.

Maybe you wonder how it happens that the Dental School was selected to develop the plastic eye. Well, it's a "natural" for the dental profession, for several reasons. The dental officer understands the anatomy of the head, and the peculiarities of tissues and muscles involved. The impression materials and the acrylic are the same ones the prosthetic dental officer works with when he makes dentures, and he understands the color, symmetry and other esthetic factors involved in improving the appearance of the patient's face. One patient who wears a denture as well as an acrylic eye explains it this way: "It's the same thing. You go to the same dentist who made your new teeth—only you slump down a little lower in the chair."

Basic Course For Junior Med. Off

The Naval Medical School announced that a new basic course for junior medical officers will begin here today. The training covers a five and a half month period.

This course of instruction will be a streamlined version of the one that has been given to medical officers for many years. The idea behind it is to give new officers some conception of the workings of the Navy. Appropriate to the curriculum includes such subjects as Naval Law and Naval Customs and Traditions for the edification of the officer. While, medically, they will be instructed in those phases of medicine which are particularly relevant to the Navy, topics such as amphibious, aviation and submarine medicine.

Thirty officers are expected to attend the first class. According to Captain Enyart, Executive Officer of NMS, the courses will continue and another class taken upon graduation of the present.

LCDR E. R. King Receives Presidential Unit Citation

LCDR Elmer R. King MC, USN command recently received the Presidential Unit Citation award to the U.S.S. BOGUE, Flagship, Six Anti-Submarine Task Group which operated in the Atlantic during World War II. The citation reads in part as follows:

"For extraordinary heroic action against enemy submarines in the Atlantic Area—Carrying out powerful and sustained offensive action during a period of German overseas concentration these Anti-Submarine Group tracked enemy packs relentlessly, and, by unwavering vigilance, a notable number of hostile boats. The gallantry and teamwork of the officers and who fought the embarked and who manned the BOGUE her escort vessels were largely instrumental in forcing the complete withdrawal of enemy submarines from supply routes essential to maintenance of our established maritime supremacy."

Dr. King was born in Licking County, Ohio. He received a Doctor of Medicine degree from Ohio State University in 1941, entered the Naval Service in October of the same year. Before reporting here, he was on duty at Cancer Research Hospital, Ridge Institute of Nuclear Studies in Tennessee.

Corpsmen

(Continued from page one)

A paraplegic patient, Walter Hunter, HM3, USN was born on February 7, 1921 in Golden Medal, Louisiana and after graduation from high school attended South Eastern College for two years. He enlisted on August 24, 1947 in New Orleans, Louisiana and took his "Boot" training and "pill rolling" course at San Diego, California. Upon graduation from Corps School he did duty first at the Naval Hospital, Dublin, Georgia and then at Charleston, S.C. From there he reported to the 2nd Marine Division, FMF at Camp Lejeune, N.C. and from there he was sent to the 1st Marine Division at Camp Pendleton, California. He spent two weeks in Japan before being sent into the combat zone in Korea where he received a missile wound in his back. He was admitted here on December 28 1950.

Edmond Raliff Mickens, Jr., HM3, was born in Ashland, Virginia on March 2, 1929 where he attended school. He enlisted on October 27, 1947 in Richmond, Virginia and received his Recruit Training and Hospital Corps School at Great Lakes, Illinois and upon graduation he did duty at the Naval Hospital there for one year. After which time he reported to the Naval Medical School here for one year course in laboratory technique. After graduating from school he went to St. Albans Naval

The Time Element

As we enter upon the New Year the serious minded are aware of the conspicuous part that the time element plays in the life of man—the manner in which we employ our time determines the character and nature of our individual lives.

Metaphysicians and mathematicians may argue that, in reality, there is no such thing as time and space—and yet the more we live and experience we become increasingly convinced of inescapable fact that the one asset we all have in common is Time.

An Italian philosopher was accustomed to call time his estate; an estate which produces nothing of value without cultivation, but improved, compensates the diligent worker. With perseverance the very odds of time may be worked into results of the greatest value.

Time is the only fragment of Eternity that belongs to man, and like it can never be recalled.

Marvel called time the prime minister of death; Longfellow, the life of the soul; Bacon, the greatest of innovators; Cicero, the herald of truth; Shakespeare, the nurse and of all good.

Time is like wax—we can take and mould it into something beautiful or something horrible.

The wise man treats time with respect and reverence and endeavors to accomplish worthwhile. The unusual man never ceases to study; never really leaves school. Gladstone took up a new language at seventy; Goethe finished his Faust when he was nearly eighty; Titian the painter lived to be ninety-nine, painting up to the last. When LaPlace, the astronomer, died at seventy-eight, he died young, for his last words were: "What we know is nothing; what we have to learn is immense."

As long as a man has that attitude of mind—a divine dissatisfaction with what he has learned, and an eager reaching out for more—he is young, no matter what the calendar may say.

Time measured by clocks and calendars is a man made system. Time cannot be measured or analyzed. It has been pointed out that science has been unable to grasp it. Real time is growth and changes and development and not an extension of points or seconds or hours or days.

"We live in deeds, not years; in thought, not breaths;
In feelings, not in shadow on a dial.
We should count time by heart-throbs.
He most lives
Who thinks most, feels the noblest, acts the best."

Wagner Choir To Be Here Tues., Jan. 20

The Wagner College Choir from Staten Island, New York will appear at the Auditorium on Tuesday evening, January 30, at 1800. Arrangements have also been made for the Choir to perform for Korean casualties on the wards.

This famous choir is conducted by the renowned Dr. Sigvart J. Steen who is well remembered as the conductor of the famed Great Lakes Naval Training Station Choir of World War II.

Korea where he sustained frostbite of both feet. He was admitted to the hospital here on December 24, 1950 via the USNH, Navy #3923, Tripler General Hospital and Naval Hospital, Oakland, California.

Reflections Of A Happy Holiday Season

Fond memories of Christmas 1950 at NNMC linger on like the feel of a warm coat on a cold winter's day. Memories of a season celebrating the most joyous event of mankind, a season of good cheer, of fellowship, of exchanging gifts—but more than that, it was the giving of oneself—time, energy and talent so that others might enjoy. Pictures 1, Eileen Wilson, 5, Danny Scholl, 6, Alan Carney, 7, Doles Dickens and his Blue Mirror band, 12, Francis, 15-16, Acrobatic Trio, and 18, "Gay Nineties" scene show some of the many stars who gave their talent for the enjoyment of patients and staff in a gala stage show December 27 produced by Mr. Hirsch de la Vies. The Navy Band did a 4.0 job in furnishing accompaniment for the entire show. Pictures 2 and 8. Public Works with Lt. Pollard, Messrs McGahren, Williams, Dewitt, Malatesta and their departments came through with much of the decorating and lighting. Pictures 3 and 14. The wonderful dinner served on Christmas Day by the Commissary Department under Lt. Edlund, CWO Dicarlo and Chef Martin. Pictures 4, 9, 11 and 17. Children and parents will long remember the excellent job done by CDR Turner and all who served on the committee for their party in the auditorium December 23.

Picture 10. One of the ten TV sets generously given for patients' enjoyment by U.S. Department of Agriculture, Travilah Darnestown Homemakers Club, Alpha Sigma Alumnae Group, Enlisted Services and Records Division at the Bureau of Naval Personnel, Blessed Sacrament Church, Military and Civilian Personnel at the Naval Photographic Interpretation Center, Mr. Walter H. Gardella, an anonymous donor and one donated jointly by the Catholic Daughters of America, D.C. League of Republican Women, and the Knights of St. John. Picture 13. Fellowship among good shipmates at the NMS staff party held in the CPO Club December 27. Red Cross and the Gray Ladies sponsored many happy occasions with patients on the wards, they were responsible for most of the attractive decorations inside the buildings, and they also sponsored Santa's visits to the wards and barracks. Every person on the station contributed to the Season's spirit through the Recreation Fund which furnished the beautiful trees, roping and wreaths that came freshly cut from the mountains of North Carolina. Each Commanding Officer granted maximum leave and liberty, and did every thing in his power to make Christmas 1950 at NNMC a happy Season to remember.

Not Much Research Involved

By Conto & Gismondi

To start the New Year right we are going to feature a poem by a well known and well loved stenographer within our walls in this issue and in each one to follow. We know that they will hold your interest as they have ours. The bard herself writes from the imaginative sensuality and trait of a professional. The odes and epochs are written according to the characteristic mood of the author. The following poem was written for the coming year:

YOUTH AND AGE

As a flame glows and fiercely burns,
Flaring years fade into smouldering embers,
Youth's promise of life and hope swiftly turns
To a past aged men forget and remember—
Ambitions, dreams, fulfilments, dismay,
Rekindled sparks in their withered souls
Only instants flicker then die away
Smothering youth forever in ashes and coals.

Gloria E. Gosnell.

Christmas is over! Many of the fellows tearing back from their leaves anxiously awaiting to stand guard duty for the coming year. Many events were planned for the members of the Institute! to name them all would put us into eternity! so here is one that was held in the Library. A choral group sponsored by BuMed came here on 22 December to enliven the premises with good spirit and joy for the occasion. Coffee was served to all who witnessed the splendid show.

Late news from the active side of the world reveal that WALSH, HARDY and FRENCH, men who were recently transferred from the Institute to Korea have been injured in action. All were hospitalized in Japan for some time and now are in the states waiting for further orders. The extent of the injuries was not serious; Walsh had a slash wound in the left arm; Hardy (who was hospitalized here several times to have his nose straightened and repair his handsome features) received a slash wound in his nose!; and French received a slash wound in his leg. Sam Burke, who was with them in the famous trap in North Korea, escaped uninjured and is now in Pusan to be regrouped. Good Luck and God's protection in their future exploits.

SPORTS: The basketball team was downed into the depths of defeat by a hard playing Commissary team to the tune of 45 to 15. Better luck in the future, men!

Till the next column deadline in Jan.; and in the past several columns, R. M. GISMONDI has been affiliated with this column. It should be known at this point that only thru typographical error was this not mentioned before.

Well, that about closes it for the present time. Except that T. J. CONTO, one of two, will be on thirty days leave, so in the future the column will be written by Gismondi.

Till further issues, we remain, for your reading interest, and bid you all a prosperous New Year and many more to come.

Lab 15 Under Low Power

By Moe and Gizz-moe

Here we are back for another bull session. It seems as though we missed last issue, due to the fact that both of us took advantage of that good old holiday leave. Ah, yes! Holiday spirits!

After scouting around what remains of the barracks after New Year's Eve, we have uncovered a few New Year's resolutions—We find the following resolution under "Pappy" Parpart's name: "I will not drive over 35 miles an hour during the whole year of 1951."—We hear he sent a copy of this to the Washington, Virginia, and Maryland state police.

"Professor" Foley resolved to study chemistry every night and also to answer at least one of Dr. Suddeth's questions right.

Lamino's resolution is to make a truce with his little play-mates in the Pathology animal room.

Creely resolved to get a hair cut at least every six months this year. Pleasant has resolved not to bet on any more Joe Louis fights. He has decided to take up "playing the ponies" instead. Wonder if Strout had anything to do with that?

Last and most unbelievable of the resolutions is the one made by James P. "Alky" Oddis: "I will limit myself to only twelve bottles of beer per night in 1951."

Now what we know pretty well what to expect in the coming year, we can continue with the business at hand.

We have been trying to find out what colorless liquid that Virgil "Bird Dog" King keeps in that 500 cc. bottle. Could it be that Virgil is brewing his own distilled water????

We have heard rumors that Chief Kennedy uses an Indian tommy-hawk to slice off those tissue sections in the pathology department. Maybe we can get him to do a war dance for us sometime.

We see that they are finally getting a new roof on the Chief's Club. The old one was raised on the night of that little shin-dig that Lab. 15 threw last month.

This about secures us for this time, but we shall return with the latest scoop. So long from "the shmoe with the nose for news", Moe and Gizz-moe.

Corpsmen

(Continued from page 2)

Hospital for seven months duty before reporting to the FMF at Camp Pendleton, California. From there he was sent to Japan and then to Korea where he incurred frostbite while in action. He was admitted here from USNH, Mare Island, California on December 28, 1950.

An old timer, Howard Edward Geddings, HMI, USN was born in Ashville, North Carolina. He graduated from School in Greenwood, South Carolina and first enlisted in the Naval Service in June, 1943. He received his Boot and Hospital Corps training at Bainbridge, Maryland. From there he went to Paris Island, S.C. and then to the University of North Carolina where they set up a hospital for the NROTC unit there. His next duty station was at Gross Isle, Michigan and then he went aboard the USS Tailfair APA 210 was discharged from the Naval Service in 1945 and reenlisted in January, 1947. Since then he has seen duty at the naval hospitals in Charleston, South Carolina and Brooklyn, New York, and dispensary duty at the Naval Training Center, San Diego, California. Upon completion of these came duty with the Fleet Marines at Camp Pendleton, and then overseas to Guam and

Compound Interest

By J. C. Woods

On New Year's Day Ships Service looked like the rescue center for misplaced St. Bernards. Like every other New Year's Day it brought in resolutions by the thousands and as many cans of tomato juice. Things haven't really changed much though, they're still saying goodnight to Irene and taking Kathleen home again.

It is not everyone that can have his picture in the Saturday Evening Post. But then not everyone's name is Staples. Its getting so you have to submit a chit before you can say hello to the boy.

Had Don "Snooze" Polizzi ever become a jockey it would have been the first time in racing history that the rider instead of the horse won by a nose.

"Don't cry Joe" Shannon is still waiting for a Christmas card from a certain Miss. That's alright Jim, remember what you said, "Sixty million women can't be wrong."

Bernard Risi, president of the local letter-tossers association dropped into the ship's service and asked for a "cup of mud." He got it. Do you readers get it?

If you've called Rockville lately and noticed that the line isn't too good, just ask George Bergmann the barber what happened to his nice new Oldsmobile convertible. Most people go to the polls, Georgie likes to go through them.

American Red Cross Health Service

One of the major functions of the American Red Cross is to conduct National and local programs promoting health and safety.

Red Cross Health and Safety Services provide, without cost, a broad program of instruction and consultative service in first aid and accident prevention, swimming and lifesaving, food and nutrition, home nursing, and preparation of nurses aides for service in hospitals and clinics. Adequate nursing care is assured for disasters and epidemics and nurses are enrolled for service in other community health projects.

The National Blood Program, through regional blood centers, supplies blood, without charge to doctors and hospitals for patients suffering from injury or disease and distributes to every state in the Union immune serum globulin to combat measles. This program of supplying blood for civilian use is not nation-wide, but it is being extended and geared to quick action in case of a major disaster. The program includes vital assistance in the scientific development of blood derivatives, which are expected to play a tremendous part in the relief of suffering.

The value of the Red Cross blood program to the Military was ably demonstrated in the last war. In view of the present emergency a new contract has been signed by the U. S. Department of Defense and the American Red Cross by which the Armed Services Medical Procurement Agency will provide financial assistance for the Red Cross to expand its facilities for furnishing blood to the Armed Forces. Under the terms of this contract the Red Cross will be reimbursed for costs incident to collection and shipment of blood and in relation to processing laboratories where dry blood and other derivatives are produced. None of the fund will be used for the Red Cross civilian blood program and none of the funds is used to pay

In Search Of Truth

Truth is a grain of gold
And for its sake
Men walk on blistered feet,
Nor stop to slake
Their agonizing thirst.
Though backs may bake
In torrid summer suns,
Or ice may make
The panning arduous,
Still they will take
All risks there are to find
One golden flake.

From Poet's Reed

FBI Guards Our Nation In Every Way

(AFPS) Don't shoot! G-men, don't shoot!"

With these words from "Machine Gun" Kelly as he surrendered, a new tag was placed on the Federal Bureau of Investigation and another case was closed.

Back in 1933 when the members of the FBI received their nickname from the notorious Kelly, they were just reaching the public's eye. Now G-men are synonymous with justice.

In times when our national security is endangered the paths and purposes of the FBI and the Armed Forces come close together. They too were established to safeguard the national security.

The Bureau, under its present head, J. Edgar Hoover, has traveled far since its beginning in 1908. That year Attorney General Charles Bonaparte received authority to set up a bureau to handle investigation for the Department of Justice.

With young Hoover at its helm in 1917 the Bureau underwent a reorganization. The record established in tracking down criminals such as Dillinger and the Nazi agents put ashore during the last war, has proven the worth of Hoover's leadership.

There are at present 4,100 trained investigators working out of 52 field offices. Men who either have degrees in law or accounting and whose physical and mental makeup enable them to cope with any law breaker.

They are not concerned with local or State law violations, nor do they investigate violations of Federal Laws pertaining to the Post Office or Treasury Department. But the FBI does offer training to local peace officers to better train them for their problems.

The life of a G-man is not a glamorous bed-of-roses. Hoover sums it up: "Law enforcement is a career of service. Each FBI officer must dedicate his life to the service . . . live a life beyond reproach and censure . . . renounce the pursuit of wealth . . . match his wits with the most cunning criminal, and bring him to justice."

Casualty Airlift

(Continued from page one)

craft assigned to air evacuation duty.

The C-54Ms not only provide accommodations comparable to those of a hospital ward but when not engaged in air evacuation operations can be fully utilized as a standard air cargo transport airplane

for the blood itself. Up to December 1, 1950 all of the costs incident to the collection and shipment of blood to the Armed Forces since the beginning of hostilities in Korea were paid for by the American Red Cross.

Naval School Of Hospital Administration

It has often been said there is no hope for a contented man in the Hospital Corps there are a number of us, who, once attained a technical specialty, settle back into apparent contentment. Not with Thomas E. Locklear, I now a student at the Naval School of Hospital Administration, than four years ago, he gradu-

from the Medical Property and Accounting Class here at this school.

From here he went to the Hospital, Annapolis, Md. There, he felt that he had been himself somewhat but somehow didn't satisfy his appetite for knowledge. His status remained at a standstill until finally the idea of an idea shattered this view. Why not set out for MAT training? This germ grew until it left its idea stage and became a reality last August.

There are many of us who are prone to say, "Aw he just got breaks!" So let's delve into the private life of Chief Locklear to learn what actually happened.

He joined the Navy in Birmingham, Ala., on June 17, 1935. In the first few years of navy life he was typical of those of any sailor. Then along came a fatal December 7th which cut many of us short. This was the beginning of an exemplary career. When the sun rose on that day Locklear was stationed at the Navy Yard, Cavite, P. I. Between August 9, 1942 and April 9, 1942 for his acts he was awarded the Secretary of the Navy Commendation, Navy and Marine Corps Medal, Bronze Star Medal. In addition these he is entitled to the Army Unit Commendation ribbon or all of these citations credit on the man that earned them as well as the Hospital Corps.

Unfortunately the next day and a half years of his life was lost in numerous prisoner of war camps. He was finally liberated on the 15th of September, 1945. After rehabilitation, he determined to make up for those lost years. These are the breaks!

The last time the Chief was attending school Dan Cupid interfered with his life. He met his wife Violetta at the School's Exchange and they now own a home here in Gaithersburg, where they plan to settle down.

The education and foresight the Navy has afforded Chief Locklear is paying handsome dividends.

"I really feel able to go anywhere now," said Locklear. "Confidence instilled in me by the teachings here at the Naval School of Hospital Administration, made me feel capable of almost any job."

Action

By The Ten Pin

Local maple lanes continue busy nightly with league NMS Lab-2 and Quarters 12 maintaining a hot pace and, as to press, are in a tie for place. The lead has changed several times in the past. An improving NDS-1 quattered Quarters 12 out of the pot before the holidays with help of "All Star" King (local champ) whose string of 176-1 set a new string record of

Sperry's Recreation team, Harrison, Tommila, Beversdorf, Wachowicz and Pugh) took a from Schoer's Fat Four to them into a tie again with Quarters 12. The latter crew of Mon. White, York, Roberts and Zizi are carrying some of the best averages in the league.

HA-2 toppled a record team of 1845 in downing their mates on NSHA-4. In Meitl have the leagues high average per, plus a lot of steady play Watts, Mosley, Wetzell and

not to be overlooked NDS-3 some of "Powder ball" Henderson, Avocato, Matson, Taft and continues to press on the of the two leaders.

With the addition of Bachar and "Big Jim" Crawford, who's long scores read like his golf scores, the Naval Hospital outfit started to hit the win column. Babitsky is running a close with Hill of NSHA-6 for the of being the pin setters. Eventually one or the other will throw the ball all the through the pit padding.

Intramural Touch Football Winners

Center Command's Touch Football team receives its first place Trophy from RADM M. D. Willcutts. Runner up, NP team, also shares in the glory of the game by taking second place.

Admiraltes Fight Way Back To Top

Downing the South Post Wacs 36-24 last Monday night, NNMC Admiraltes fought their way back into the running for first place in the league, having two wins and a loss to their credit.

Trailing 8-2 in the early minutes of the first quarter, the Waves began to click when Madsen JOSN dropped in her second goal of the evening and Ens. Whiteman ended the quarter with a long scoring loop from the floor. Gaining the lead in the second quarter, the Waves steadily built it up using a combination of Shook HA's south-paw hooks, Madsen JOSN's lay-ups and Ens. Whiteman's accurate long shots.

Back for the first time since her knee injury "Johnie" Johnson HN was in for the defense with guards Olsen HM3, Glendenning HM3, and Salisbury HM3 who played their best game of the season keeping the ball in the hands of the NNMC forwards for the majority of the game time.

Breakdown of the final score left Madsen with 15 points; Shook, 12; and Miss Whiteman, 9. Forward Hopper HM3 and guard Nelson HA came in to play in the fourth quarter while Pringle DT3, Burton HM3, Rose HA, and Igou HN were on hand as reserves.

All league teams have at least one defeat now which leaves the race for top honors wide open once again. The Admiraltes face the North Post Wacs tonight in the NNMC gym. Thursday night's game with Andrew's field was played too late to print results.

Next weekend will find Bethesda Waves returning a practice match on the Norfolk courts. Leaving here the 19th, the team will play two games with the Norfolk six before returning the 21st.

BuMed Exhibit On Display In Chicago

The Bureau of Medicine and Surgery will display a scientific exhibit at the annual meeting of the American Academy of Orthopedic Surgeons to be held in Chicago, January 27 to February 1. The title of the exhibit is "A Comparison of Fresh Homogenous Frozen and Freeze-Dried Bone Grafts."

The exhibit will depict by means of photographs, x-rays, photomicrographs, microscopic slides and color transparencies the results of studies of various types of bone graft technique conducted here at the National Naval Medical Center.

Lieutenant G. W. Hyatt, MC, USN, Officer in Charge of the Tissue Bank here will represent the Bureau Of Medicine and Surgery and will present a paper entitled "An Evaluation of Fresh Autogenous, Frozen and Freeze-Dried Homogenous Bone Grafts."

Senior author of the paper is Captain E. P. Kruez, USN, Chief of Orthopedics at the Naval Hospital.

Comm. And EENT Cagers Tie For Lead

RESULTS			
EENT	34	Cardiology	25
Lab 15	27	Print Shop	20
Commissary	39	Phys. Med.	17
Cardiology	19	NDS	18
Lab 15	29	NMRI	20

STANDING			
Commissary	4	0	1,000
EENT	3	0	1,000
Lab 15	2	2	.500
NDS	2	2	.500
Cardiology	2	2	.500
Phys. Med.	1	3	.250
NMRI	1	3	.250
Print Shop	0	3	.000

As the Intramural Cagers reach the half way mark, the record book shows Commissary and EENT sporting undefeated marks. Lab 15, with the addition of Jim Oddis and Ed Danforth, displayed a sparkling offensive in their past two games and hit the .500 mark. As the second half gets under way, the date of January 24, when the league leaders meet, looms as the possible "big game."

EENT started the New Year with their third straight win coming at the expense of Cardiology. The shooting of May, Kaulius and Gado was hot and with McKivitt controlling the boards and Taylor demonstrating beautiful passing, the Yellow Shirts were never in trouble. Bishop and Parrish starred for the losers.

Danforth's floor work and the sharp eye of Oddis were too much for the Print Shop as Lab 15 won their first game. The Printers, short of height and class, possess plenty of scrap and this observer looks for them to spring a real upset one of these afternoons.

Commissary's fourth straight was over the Wheel-less Phys. Med. White and Dias, with 19 and 11 points respectively, led the winners. Don Polizzi came through with six assists and "Ike" Armstrong and Stevens played well for the losers.

Cardiology eked out a 19 to 18 win over the Dental Dukes in the most thrilling game to date. Dr. Drickman and Cronan came through with timely pointmaking in the last quarter to assure the winning margin. Carden and Dube led the losers in their valiant battle.

Danforth's left-handed push shots from all sides were too much for NMRI as Lab 15 won their second straight. Gismond's set shots from the corner kept the Researchers close for three quarters.

"Evening Star Revue"

GREATER LANCASTER 1951" in her Blackface Pantomime as the great Al Jolson.

Mr. John Shutak and his colorful French poodle will act as MC. The colorful show is produced and directed by Dr. George J. Breet and promoted by Mr. Franklin Tragger.

Med School Scuttlebutt

As I have been on leave it has been hard to accumulate all of the known happenings that have recently been going on, but with the help of the man that knows, "Tiny" Schroer, I have gathered much info.

Dan Cupid finds Med School his "Happy hunting grounds" for 1951 with "Moose" Kavarick leading the parade of notables to the altar, and others to follow will be Johnny Knight, Gene Feronti and the inevitable, unpredictable "Ski" Kurzawski.

Congratulations to Karl Koupous HM3 well known man about town who has been working in the personnel office for the past year, he was wed December 30 to Miss Barbara Patricia Geers of Milwaukee, Wisconsin.

Talk of the School "Grumpy" Rundell has bought a new stop watch, Purpose: To time "Willy" from the Blood Collecting Dept. to MAA Shack.

More predictions for 1951 find a gigantic change of personnel, Pulner and Martin "The gold dust twins" still debating the issues concerning the Blood Collecting Dept.

According to the latest scoop Sherman has been tagged with the nickname of "Red Hot". This was attained through the many years that he has been a "firebug".

Many cards were received over the holidays from shipmates who departed from us in 1950. One was received from the old "Lover Boy" Frank Adams himself. Others sending greetings were D. M. Myer, H. E. Soper, and Lt. (jg) Parker.

I leave you with this thought in mind: The slip of a foot may break a leg, but the slip of a tongue may break a heart. Keep your chin up and keep smiling—

Chalk Two

Chalk two for the Admirals! This scene typifies the action that goes on when the Admirals invade the basketball courts.

Coach's Corner

The maintenance department is hard at it again. For the past few weeks, their efforts were directed toward enhancing the festive spirit of the season by their well-placed wreaths, trees and electrical effects. No small measure of credit goes to L. T. Pollard, Harry McGarhen, 'Volts' DeWitt and their smooth running organization.

The end of the first week of the New Year finds one crew of men back in the woods working on the new fairways. Underbrush is being removed to a depth of fifty feet along the borders of seven, eight and nine. Both beginner and scratch players will welcome this operation, serving to make it less difficult to locate the errant gutta-percha. As our popular golf professional, Bill Downing, put it the other day, "'Oil Immersion' Floyd, whose ricocheting Top Flites during the past season, caused the woodpeckers countless moments of displeasure, can forget his hand mashie and play the ball as it lies."

Now that the poison oak, ivy is being cleared out we will see more players joining the bare-knee cult so well established by cinderpathmen, Jim Crawford and Wes Ayres.

Sperry of the golf shop reports that Senor Crawford, late of Mexico City, blasted a 41 the other Sunday with the mercury hovering around the 20 above mark. May this serve as warning to Captains Gillett, Hogan, Gross, Delaney to zipper their coin purses in the spring Nassaus.

Landscaping is well underway on the lake at the foot of number seven tee, further tribute to the vision of Admiral Willcutts who planned its development.

Bud Malatesta and his brush wielders have painted a six inch red border on the basketball floor, outlining the margin of play. On the Garden court in New York, the out-of-bounds line is two feet of black enamel which serves to help player, official and spectator be cognizant of boundary infractions. This recent addition to the gymnasium floor will meet with the hearty approval of the PRNC players and the local basketball official's union.

The locker rooms located adjacent to the natatorium are undergoing modification with Admiral Willcutts giving the green light to LT Atkinson to purchase some 350 wire baskets. Contemplated 'modus operandi' calls for clothing to be placed in the basket and deposited with the locker room attendant. Some forty steel lockers will remain for the use of varsity and visiting teams. The proposed action will serve to many advantages; increased dressing space, less padlocked lockers, lessened opportunity for clothing to be lost, et al.

All right! I'm sorry I hurt you! Now please come back down!

Not Much Research Involved

By Conto & Gismondi

To start the New Year right we are going to feature a poem by a well known and well loved stenographer within our walls in this issue and in each one to follow. We know that they will hold your interest as they have ours. The bard herself writes from the imaginative sensuality and trait of a professional. The odes and epochs are written according to the characteristic mood of the author. The following poem was written for the coming year:

YOUTH AND AGE

As a flame glows and fiercely burns,
Flaring years fade into smouldering embers,
Youth's promise of life and hope swiftly turns
To a past aged men forget and remember—
Ambitions, dreams, fulfilments, dismay.
Rekindled sparks in their withered souls
Only instants flicker then die away
Smothering youth forever in ashes and coals.

Gloria E. Gosnell.

Christmas is over! Many of the fellows tearing back from their leaves anxiously awaiting to stand guard duty for the coming year. Many events were planned for the members of the Institute! to name them all would put us into eternity! so here is one that was held in the Library. A choral group sponsored by BuMed came here on 22 December to enliven the premises with good spirit and joy for the occasion. Coffee was served to all who witnessed the splendid show.

Late news from the active side of the world reveal that WALSH, HARDY and FRENCH, men who were recently transferred from the Institute to Korea have been injured in action. All were hospitalized in Japan for some time and now are in the states waiting for further orders. The extent of the injuries was not serious; Walsh had a slash wound in the left arm; Hardy (who was hospitalized here several times to have his nose straightened and repair his handsome features) received a slash wound in his nose!; and French received a slash wound in his leg. Sam Burke, who was with them in the famous trap in North Korea, escaped uninjured and is now in Pusan to be regrouped. Good Luck and God's protection in their future exploits.

SPORTS: The basketball team was downed into the depths of defeat by a hard playing Commissary team to the tune of 45 to 15. Better luck in the future, men!

Till the next column deadline in Jan.; and in the past several columns, R. M. GISMONDI has been affiliated with this column. It should be known at this point that only thru typographical error was this not mentioned before.

Well, that about closes it for the present time. Except that T. J. CONTO, one of two, will be on thirty days leave, so in the future the column will be written by Gismondi.

"Till further issues, we remain, for your reading interest, and bid you all a prosperous New Year and many more to come.

Lab 15 Under Low Power

By Moe and Gizz-moe

Here we are back for another bull session. It seems as though we missed last issue, due to the fact that both of us took advantage of that good old holiday leave. Ah, yes! Holiday spirits!

After scouting around what remains of the barracks after New Year's Eve, we have uncovered a few New Year's resolutions—We find the following resolution under "Pappy" Parpart's name: "I will not drive over 35 miles an hour during the whole year of 1951."—We hear he sent a copy of this to the Washington, Virginia, and Maryland state police.

"Professor" Foley resolved to study chemistry every night and also to answer at least one of Dr. Suddeth's questions right.

Lamino's resolution is to make a truce with his little play-mates in the Pathology animal room.

Creely resolved to get a hair cut at least every six months this year.

Pleasant has resolved not to bet on any more Joe Louis fights. He has decided to take up "playing the ponies" instead. Wonder if Strout had anything to do with that?

Last and most unbelievable of the resolutions is the one made by James P. "Alky" Oddis: "I will limit myself to only twelve bottles of beer per night in 1951."

Now what we know pretty well what to expect in the coming year, we can continue with the business at hand.

We have been trying to find out what colorless liquid that Virgil "Bird Dog" King keeps in that 500 cc. bottle. Could it be that Virgil is brewing his own distilled water????

We have heard rumors that Chief Kennedy uses an Indian tommy-hawk to slice off those tissue sections in the pathology department. Maybe we can get him to do a war dance for us sometime.

We see that they are finally getting a new roof on the Chief's Club. The old one was raised on the night of that little shin-dig that Lab. 15 threw last month.

This about secures us for this time, but we shall return with the latest scoop. So long from "the shmoe with the nose for news", Moe and Gizz-moe.

Corpsmen

(Continued from page 2)

Hospital for seven months duty before reporting to the FMF at Camp Pendleton, California. From there he was sent to Japan and then to Korea where he incurred frostbite while in action. He was admitted here from USNH, Mare Island, California on December 28, 1950.

An old timer, Howard Edward Geddings, HMI, USN was born in Ashville, North Carolina. He graduated from School in Greenwood, South Carolina and first enlisted in the Naval Service in June, 1943. He received his Boot and Hospital Corps training at Bainbridge, Maryland. From there he went to Paris Island, S.C. and then to the University of North Carolina where they set up a hospital for the NROTC unit there. His next duty station was at Gross Isle, Michigan and then he went aboard the USS Tailfair APA 210 was discharged from the Naval Service in 1945 and reenlisted in January, 1947. Since then he has seen duty at the naval hospitals in Charleston, South Carolina and Brooklyn, New York, and dispensary duty at the Naval Training Center, San Diego, California. Upon completion of these came duty with the Fleet Marines at Camp Pendleton, and then overseas to Guam and

Compound Interest

By J. C. Woods

On New Year's Day Ships Service looked like the rescue center for misplaced St. Bernards. Like every other New Year's Day it brought in resolutions by the thousands and as many cans of tomato juice. Things haven't really changed much though, they're still saying goodnight to Irene and taking Kathleen home again.

It is not everyone that can have his picture in the Saturday Evening Post. But then not everyone's name is Staples. Its getting so you have to submit a chit before you can say hello to the boy.

Had Don "Snooze" Polizzi ever become a jockey it would have been the first time in racing history that the rider instead of the horse won by a nose.

"Don't cry Joe" Shannon is still waiting for a Christmas card from a certain Miss. That's alright Jim, remember what you said, "Sixty million women can't be wrong."

Bernard Risi, president of the local letter-tossers association dropped into the ship's service and asked for a "cup of mud." He got it. Do you readers get it?

If you've called Rockville lately and noticed that the line isn't too good, just ask George Bergmann the barber what happened to his nice new Oldsmobile convertible. Most people go to the polls, Georgie likes to go through them.

American Red Cross Health Service

One of the major functions of the American Red Cross is to conduct National and local programs promoting health and safety.

Red Cross Health and Safety Services provide, without cost, a broad program of instruction and consultative service in first aid and accident prevention, swimming and lifesaving, food and nutrition, home nursing, and preparation of nurses aides for service in hospitals and clinics. Adequate nursing care is assured for disasters and epidemics and nurses are enrolled for service in other community health projects.

The National Blood Program, through regional blood centers, supplies blood, without charge to doctors and hospitals for patients suffering from injury or disease and distributes to every state in the Union immune serum globulin to combat measles. This program of supplying blood for civilian use is not nation-wide, but it is being extended and geared to quick action in case of a major disaster. The program includes vital assistance in the scientific development of blood derivatives, which are expected to play a tremendous part in the relief of suffering.

The value of the Red Cross blood program to the Military was ably demonstrated in the last war. In view of the present emergency a new contract has been signed by the U. S. Department of Defense and the American Red Cross by which the Armed Services Medical Procurement Agency will provide financial assistance for the Red Cross to expand its facilities for furnishing blood to the Armed Forces. Under the terms of this contract the Red Cross will be reimbursed for costs incident to collection and shipment of blood and in relation to processing laboratories where dry blood and other derivatives are produced. None of the fund will be used for the Red Cross civilian blood program and none of the funds is used to pay

In Search Of Truth

Truth is a grain of gold
And for its sake
Men walk on blistered feet,
Nor stop to slake
Their agonizing thirst.
Though backs may bake
In torrid summer suns,
Or ice may make
The panning arduous,
Still they will take
All risks there are to find
One golden flake.

FBI Guards Our Nation In Every Way

(AFPS) Don't shoot! G-men, don't shoot!"

With these words from "Machine Gun" Kelly as he surrendered, a new tag was placed on the Federal Bureau of Investigation and another case was closed.

Back in 1933 when the members of the FBI received their nickname from the notorious Kelly, they were just reaching the public's eye. Now G-men are synonymous with justice.

In times when our national security is endangered the paths and purposes of the FBI and the Armed Forces come close together. They too were established to safeguard the national security.

The Bureau, under its present head, J. Edgar Hoover, has traveled far since its beginning in 1908. That year Attorney General Charles Bonaparte received authority to set up a bureau to handle investigation for the Department of Justice.

With young Hoover at its helm in 1917 the Bureau underwent a reorganization. The record established in tracking down criminals such as Dillinger and the Nazi agents put ashore during the last war, has proven the worth of Hoover's leadership.

There are at present 4,100 trained investigators working out of 52 field offices. Men who either have degrees in law or accounting and whose physical and mental makeup enable them to cope with any law breaker.

They are not concerned with local or State law violations, nor do they investigate violations of Federal Laws pertaining to the Post Office or Treasury Department. But the FBI does offer training to local peace officers to better train them for their problems.

The life of a G-man is not a glamorous bed-of-roses. Hoover sums it up: "Law enforcement is a career of service. Each FBI officer must dedicate his life to the service . . . live a life beyond reproach and censure . . . renounce the pursuit of wealth . . . match his wits with the most cunning criminal, and bring him to justice."

Casualty Airlift

(Continued from page one)

craft assigned to air evacuation duty.

The C-54Ms not only provide accommodations comparable to those of a hospital ward but when not engaged in air evacuation operations can be fully utilized as a standard air cargo transport airplane

for the blood itself. Up to December 1, 1950 all of the costs incident to the collection and shipment of blood to the Armed Forces since the beginning of hostilities in Korea were paid for by the American Red Cross.

Naval School Of Hospital Administration

It has often been said there is no hope for a contented man. The Hospital Corps there are a number of us, who, once attained a technical specialty, settle back into apparent contentment. Not with Thomas E. Locklear, now a student at the Naval School of Hospital Administration. More than four years ago, he gradu-

from the Medical Property and counting Class here at this school.

From here he went to the Naval Hospital, Annapolis, Md. There, he felt that he had better himself somewhat but someone didn't satisfy his appetite for knowledge. His status remained at a standstill until finally the idea of an idea shattered this view. Why not set out for MAT training? This germ grew until it left its idea stage and became a reality last August.

There are many of us who are prone to say, "Aw he just got breaks!" So let's delve into the private life of Chief Locklear and learn what actually happened.

He joined the Navy in Birmingham, Ala., on June 17, 1935. The first few years of navy life him were typical of those of any sailor. Then along came a fatal December 7th which cost many of us short. This was the beginning of an exemplary career. When the sun rose on that day, Locklear was stationed at the Navy Yard, Cavite, P. I. Between December 9, 1941 and April 9, 1942 for his heroism he was awarded the Secretary of the Navy Commendation, Navy and Marine Corps Medal, Bronze Star Medal. In addition to these he is entitled to the Army Unit Commendation ribbon. or all of these citations recorded on the man that earned them as well as the Hospital Corps.

Unfortunately the next day and a half years of his life was lost in numerous prisoner of camps. He was finally liberated on the 15th of September. After rehabilitation, he determined to make up for those lost years. These are the breaks!

The last time the Chief was attending school Dan Cupid interfered with his life. He met wife Violette at the School's N Exchange and they now own home here in Gaithersburg, where they plan to settle down.

The education and foresight Navy has afforded Chief Locklear is paying handsome dividends.

"I really feel able to go anywhere now," said Locklear. "Confidence instilled in me by teachings here at the Naval School of Hospital Administration, made me feel capable of almost any job."

In Action

By The Ten Pin

The local maple lanes continue to be busy nightly with league NMS Lab-2 and Quarters 12 maintaining a hot pace and, as go to press, are in a tie for place. The lead has changed several times in the past weeks. An improving NDS-1 quattered Quarters 12 out of the spot before the holidays with help of "All Star" King (local champ) whose string of 176-201 set a new string record of

When Sperry's Recreation team, Morrison, Tommila, Beversdorf, and Pugh took a from Schoer's Fat Four to put them into a tie again with Quarters 12. The latter crew of White, York, Roberts and Puzzi are carrying some of the best averages in the league.

NSHA-2 toppled a record team of 1845 in downing the old-mates on NSHA-4. In Meitl have the leagues high average roller, plus a lot of steady play by Watts, Mosley, Wetzel and Phippy.

Not to be overlooked NDS-3 some of "Powder ball" Henderson, Avocato, Matson, Taft and Bett continues to press on the of the two leaders.

With the addition of Bachar and "Pimp Jim" Crawford, who's scores read like his golf scores, the Naval Hospital outfit started to hit the win column. Ski Babitsky is running a close with Hill of NSHA-6 for the of being the pin-setters. Eventually one or the other of them will throw the ball all the through the pit padding.

Intramural Touch Football Winners

Center Command's Touch Football team receives its first place Trophy from RADM M. D. Willcuts. Runner up, NP team, also shares in the glory of the game by taking second place.

Admiralettes Fight Way Back To Top

Downing the South Post Wacs 36-24 last Monday night, NNMCM Admiralettes fought their way back into the running for first place in the league, having two wins and a loss to their credit.

Trailing 8-2 in the early minutes of the first quarter, the Waves began to click when Madsen JOSN dropped in her second goal of the evening and Ens. Whiteman ended the quarter with a long scoring loop from the floor. Gaining the lead in the second quarter, the Waves steadily built it up using a combination of Shook HA's south-paw hooks, Madsen JOSN's lay-ups and Ens. Whiteman's accurate long shots.

Back for the first time since her knee injury "Johnnie" Johnson HN was in for the defense with guards Olsen HM3, Glendenning HM3, and Salisbury HM3 who played their best game of the season keeping the ball in the hands of the NNMCM forwards for the majority of the game time.

Breakdown of the final score left Madsen with 15 points; Shook, 12; and Miss Whiteman, 9. Forward Hopper HM3 and guard Nelson HA came in to play in the fourth quarter while Pringle DT3, Burton HM3, Rose HA, and Igou HN were on hand as reserves.

All league teams have at least one defeat now which leaves the race for top honors wide open once again. The Admiralettes face the North Post Wacs tonight in the NNMCM gym. Thursday night's game with Andrew's field was played too late to print results.

Next weekend will find Betheddas Waves returning a practice match on the Norfolk courts. Leaving here the 19th, the team will play two games with the Norfolk six before returning the 21st.

BuMed Exhibit On Display In Chicago

The Bureau of Medicine and Surgery will display a scientific exhibit at the annual meeting of the American Academy of Orthopedic Surgeons to be held in Chicago, January 27 to February 1. The title of the exhibit is "A Comparison of Fresh Homogenous Frozen and Freeze-Dried Bone Grafts."

The exhibit will depict by means of photographs, x-rays, photomicrographs, microscopic slides and color transparencies the results of studies of various types of bone graft technique conducted here at the National Naval Medical Center.

Lieutenant G. W. Hyatt, MC, USN; Officer in Charge of the Tissue Bank here will represent the Bureau Of Medicine and Surgery and will present a paper entitled "An Evaluation of Fresh Autogenous, Frozen and Freeze-Dried Homogenous Bone Grafts."

Senior author of the paper is Captain E. P. Kruez, USN, Chief of Orthopedics at the Naval Hospital.

Comm. And EENT Cagers Tie For Lead

RESULTS			
EENT	34	Cardiology	25
Lab 15	27	Print Shop	20
Commissary	39	Phys. Med.	17
Cardiology	19	NDS	18
Lab 15	29	NMRI	20

STANDING			
Commissary	4	0	1,000
EENT	3	0	1,000
Lab 15	2	2	.500
NDS	2	2	.500
Cardiology	2	2	.500
Phys. Med.	1	3	.250
NMRI	1	3	.250
Print Shop	0	3	.000

As the Intramural Cagers reach the half way mark, the record book shows Commissary and EENT sporting undefeated marks. Lab 15, with the addition of Jim Oddis and Ed Danforth, displayed a sparkling offensive in their past two games and hit the .500 mark. As the second half gets under way, the date of January 24, when the league leaders meet, looms as the possible "big game."

EENT started the New Year with their third straight win coming at the expense of Cardiology. The shooting of May, Kaulius and Gado was hot and with McKivitt controlling the boards and Taylor demonstrating beautiful passing, the Yellow Shirts were never in trouble. Bishop and Parrish starred for the losers.

Danforth's floor work and the sharp eye of Oddis were too much for the Print Shop as Lab 15 won their first game. The Printers, short of height and class, possess plenty of scrap and this observer looks for them to spring a real upset one of these afternoons.

Commissary's fourth straight was over the Wheel-er-less Phys. Med. White and Dias, with 19 and 11 points respectively, led the winners. Don Polizzi came through with six assists and "Ike" Armstrong and Stevens played well for the losers.

Cardiology eked out a 19 to 18 win over the Dental Dukes in the most thrilling game to date. Dr. Drickman and Cronan came through with timely pointmaking in the last quarter to assure the winning margin. Carden and Dube led the losers in their valiant battle.

Danforth's left-handed push shots from all sides were too much for NMRI as Lab 15 won their second straight. Gismond's set shots from the corner kept the Researchers close for three quarters.

6 Hours Old

Very contented is Randolph Stephen Aguirre in this new world of his. He seems in his six hours of life to be fully cognizant of the delight of a good nap. Steve is the son of Henry W. Aguirre, HM1, NMS.

Navy Photog. Praised For Historic Pictures

(AFPS) By mere coincidence, a Navy enlisted man has received the recognition he so justly deserves.

While serving as a photographer's mate on board the cruiser USS Santa Fe during World War II, William Bates had opportunity to photograph the epic life, and near-death, of the carrier USS Franklin. When the "Big Ben" received what appeared to be killing blows from Japanese Kamikazes, the Santa Fe stood alongside to assist. Bates doing a "routine" job, photographed the scene.

Later, in what Life magazine termed the most outstanding pictorial record of the war, Bates' photo appeared with credit being given to the noted Navy photographer, Captain Edward Steichen, USNR. Captain Steichen wrote Life informing them of the error. Immediately, a search was conducted for the true photographer.

It was then that Bates came upon the stage. The Navy Photographic institute has given Bates a citation for the famous picture. He is now serving as a photographer in the Korean sector with the Navy.

Somebody Owes Somebody Some Time, It Seems

(AFPS) This gag has been around a long, long time. It's always fun, though, to dig it up every now and then to task the minds of the mathematically inclined.

In the Armed Forces, we don't work as hard as we think. Here's the reason:

There are 365 days in a year. You work eight hours a day, so you have two-thirds of a day off. Two-thirds of 365 is 244 days. That leaves only 121 days you have to work.

Ordinarily you don't have to work Sundays. That cuts out 52 days a year, leaving 69. Most men have at least 15 days' leave a year plus an average travel time of six days. That leaves only 48 days of work.

Usually you get a "48" once in each of the 12 months. That is 24 more days off, and the total work days are cut to 24. The average man manages to rate about six days' special liberty during the year so the total is brought down to 18 working days.

Most Servicemen spend an average of 10 days a year checking in, checking out, straightening out personal records, answering sick call, getting dental work done, seeing the chaplain, explaining those four hours' AOL to the CO, and cutting various forms of red tape. That leaves eight days a year in which to work.

During peacetime, you don't

Alvin Real, Local, Wounded In Korea

Alvin W. Real, HM2 recently of Center Command, was reported wounded in the side by shell fragments in fighting near the Chanjin reservoir. Real is remembered by many here for his work in various departments in the Center.

Real first reported to Center Command from Med. School in July 1947 and was transferred in July 1950 to the Receiving Station, Washington, D. C.

The native Texan has seen action before, in World War II in the Pacific area. Real is married and his wife Ellen May and infant daughter, Darlene, reside in Arlington.

Army To Return Navy Doctors

The Navy announced today that the first 100 Navy Medical officers from a group of 570 now on loan to the Army will be issued orders in the near future to return to duty with the Navy. It is expected that they will have reported back to the Navy by early February. The remaining 470 will be ordered back to the Navy in monthly increments.

The medical officers were ordered to the Army several months ago by directive of the Secretary of Defense to alleviate the shortage of doctors in the Army Medical service.

Captain Charles F. Behrens, MC, USN, CO, NMRI will represent the Bureau of Medicine and Surgery at a meeting of the Joint Panel on Medical Aspects of Atomic Warfare of the Research and Development Board, January 24-25-26 in Rochester, New York. He will also attend a Conference for Teachers of Clinical Radiology in Chicago, Illinois, February 10, 1951.

Joe—My sister picks up things fast.

Moe—She must be brilliant.

Joe—No. She's a shoplifter.

1st GI—That gal is sure a snob.

2nd GI—Yeah her nose is turned up so high she nearly drowned.

1st GI—How?

2nd GI—It rained into it.

Sign stuck on squadron bulletin board by a character who just had three day pass turned down—"In case of fire just call the first sergeant—he'll throw a wet blanket on it."

Driver—The way some pedestrians walk you'd think they owned the streets.

Pedestrian—Yeah, and the way some motorists drive you'd think they owned their cars.

GI—I've been misbehaving and my conscience is troubling me.

Psychiatrist—I see, and since I'm a psychiatrist you want something to strengthen your will power?

GI—No, something to weaken my conscience.

work on Christmas, New Year's, Thanksgiving, Washington's Birthday, Lincoln's Birthday, Independence Day, Armistice Day or Memorial Day.

So actually you don't work in the Armed Forces at all.

Wonder what happened to those Saturdays we used to have off?

Crew's Library:

"Operation Cicero" True Spy Story

Have you ever heard about OPERATION CICERO — the true story of the most extraordinary spy of World War II? It all began late one night in 1944 when a mysterious Albanian, whose code name was "Cicero", and who claimed to be a valet to a British Ambassador, told a German Attache that he was in a position to photograph Top Secret British documents. There is no doubt of the validity of this book which proves to a certainty that truth is stranger than fiction!

WHO IS MY NEIGHBOR, by Nigel Balchin, is another book about foreign agents—fiction this time—with the theme that of a scientist who discovers the way in which epidemics spread. If the discovery is made known, human suffering could be greatly relieved but an enemy might use this same information with disastrous results. Hence the government forbids the information to be published and assigns a Security Office detective to see that the order is carried out.

In a totally different vein is THE TIN SWORD by M. S. Boylan—an entertaining but fabulous tale to be read for fun; the author set out not to prove a thing and succeeded beautifully. Joshua Doty, a solemn young-old boy with an urge for soldiering became a Lieut. Colonel in the reserve at 19 but was drafted in the first World War as a private. Don't try to read between the lines.

(Cont. in col. five)

You get all kinds of offers in show business. Take for instance, Adele Jergens, the neat little trick above. After playing part of a burlesque cutie in a recent flicker, the management of a burlesque show offered her a part in his production. She'd look good either way.

Navy Belles

BY GEORGE

With the year well under way we find the basketball team snowed under with practice and games. The Christmas choirs made such a hit that they are trying to keep together. Lois Everhart is gathering people for one while "Rocky" Carrino is gathering for the other.

After much ado Roseann Bristkey and Ide Mae Chappell said a fond farewell and sailed away to Hawaii.

Just Around Our House

Nadine came home from Christmas leave with a new hair do. . . . Also "Possie" has a new hair do, thanks to the brave effort of her roommate.

Brown and Diedrich are living out of half packed foot-lockers, planning to leave soon for Corps school—Lou Zimny is out of circulation while on night duty this month.

Louise Miller, singing "I'm packing my bag and I'm leaving today." She has the Blood Bank Watch. We think she has her sling shot packed. Poor "Rusty" has to eat her own salad these days since she took her little pets to Minnesota. Erma Cooper is sewing on new clothes she is buying. Easter early this year?

Millicent gets up at all hours of the night to study while her roommate, Alma Rose, has cut down on her night life to spend evenings home with her books.

"Connie" getting to work on time these days after a good start the first of the year.—Hammy is taking up cooking eggs this week, making coffee and using up all the hot water.

"Katie", with the injury of the week, came home from basketball with her arm bandaged from the wrist to the elbow—a scratch she received in a game.

"Kay" Nelson, is our new-found song bird. Pringle, wanting sympathy while she was getting her tonsils taken out.—Irene Ramos, walking in a dream, using her left hand to light the way. Ruth Flora, dancing all over her room, just getting in practice for the next dance on January 26.

Corrine Donovan is knitting these days. I think I will take up knitting too. Tell you about it later.

Bye for now from the heart of Maryland's girl.

Laugh Awhile

Mountain girl: "Pa's the best rifle shot in these hyar parts."

Serviceman: "Yeah, what does that make me?"

Mountain girl: "My fiance."

The well dressed tourist to Europe next spring will wear Khaki.

An after-dinner speaker gushed on and on. Deacon Miller nodded and presently fell asleep. The chairman touched him on the head with the gavel. The Deacon opened one eye and said, "Hit me harder I can still hear him."

Shakespeare must have been a T/Sgt because he said, "We cannot all be masters."

One nurse at a military hospital was so conceited she always deducted 10 beats from a male patient's pulse to allow for her personality.

"Waiter, will you please tell me if it's raining outside?"

"Sorry, this isn't my table."

0000.30 Jan.

At thirty seconds past midnight on January 1 the first infant in the Washington Navy was born here at NNM. His mother is Mrs. Wayne Smith, wife of a Radio Technician. First who is now stationed in Japan.

Dental Explorer

The New Year has arrived with it a lot of new developments and new faces here at the Dental School.

All hands rung in the second half of the century in ready fashion, each to his or her meaning. We all had our moments of noise making, and as a whole, the crew took it and began to wonder what the year might bring. And we still wondering!

We just started a new dental officer post graduate course with seventeen officers reporting aboard for the class. In the end ranks, we have two new W. Mary Moudy and Columbia. Also reporting in Dental school at the Lakes have E. Stottley, E. Kent, R. Ketcham. Welcome aboard.

Last week we lost Britsky Chappell for they have decided they like the sounds of the 'hulas', so it is off to wait for them.

Congratulations are in order a couple of the kids here. I who is the cute trick at the desk, and Keller of our pathology lab, we found, are going to be changing those "I do's" some in the next few months. Couldn't have happened to a couple, so again—congratulations.

The entire crew of the department who live in building 123 are all keeping their peeled for Eric Campbell, who still working hard on his book—cartoons depicting the various members here.

We are all glad to have Pelick back off the sick-list. In getting the chief back, we Paul Gattis on New Year's Eve the sick list. Hope you are again soon there boy.

Space for the column and for a deadline is running out until we see each other again. is, if you come this way adieu. . . .

(Cont. from col. three)

Another different novel MONEY by Meloney—an story of an undertaker in a town in New York. He knew secrets of the town and soon later every thing that happened came to his notice. Maybe what caused him to drink liquor by the bottle instead of glass. But he was the town's tolerant and unselfish citizen if he was its worst drunkard. cause recollections of Spoon R Anthology.

M2 Litchfield Commissioned To Permanent Rank Of LT USNR

Captain B. W. Hogan, CO, NMS administers the Oath of Office to M2 George A. Litchfield in the presence of Captain Enyart, LCDR Wiltre, and Ensign McMahon.

By O. C. Skinner

M2 George A. Litchfield, who has been working in the personnel office of NMS, for the past year, has been commissioned to the permanent rank of Lt. USNR. He returned from leave January 16, 1950 to his commission. He will be transferred to Barber's Point, T.H., where he will be a Ground Training Officer. Lt. Litchfield previously held the rank of Lt. USNR before leaving the naval service shortly after World War II.

In 1948 he decided to re-enter naval service and did so as a enlisted man, with the intention of making the Navy a career. He was promoted to Hospital Corpsman. Under the advice of NMS Commanding Officer, Captain Bartholomew W. Litchfield put in for his commission and after a short time received it.

Litchfield has accomplished much for his years, having attained BS, and BA degrees. He attended the University of Miami, and the University of Georgia. He (Continued on page 2)

NSHA Chief Becomes Warrant; Held Rank During Last War

By George E. BACHERT

In the March 27, 1950 issue of this colorful example of news presentation, a representative of NSHA wrote his last official article. His name no longer appears as a by-line, but he is by no means forgotten by many of the center personnel. This personage is none other than the ex-Chief Master-at-arms of the Naval School of Hospital Administration, Charles B. Bernard, III.

January 13, Commander M. E. ZIMMERMAN, Commanding Officer of the NSHA administered the Oath of Office and Bernard was appointed Warrant Officer, Hospital Administration. (Continued on page 3)

Six Months Box Score Of Damages By UN Forces Announced

Vice Adm. C. Turner Joy, commander United Nations Naval Forces, recently posted a six month box score of damage inflicted by United Nations Naval Forces against Communist installations and forces in Korea.

The cumulative totals of damage and destruction compiled from official action reports up to midnight December 30 reveal that enemy troops, rolling stock, rail installations, (Continued on page 6)

Navy Dept. To Bear Costs Of New Off Duty Study Program

Off duty college work received a major shot in the arm this week, with the inauguration of an educational program to be effective throughout PRNC. Under the terms of BuPers CirLtr 178-50 the Navy Department will bear most of the cost.

George Washington University's new college of General Studies, working with the Information and Educational Officers of the various commands, is presently engaged in setting up a series of courses, in all degree-granting areas of study.

For service personnel emphasis will be placed on a program leading to a BS in Naval or Military Science and Tactics. However, it is not necessary for studies to be confined to that field. You may elect a major in any field you (Continued on page 2)

New Chief Nurse, NH

CDR Kathleen Smith, NC, USN is now the Senior Nurse Corps Officer, known to most as "Chief Nurse", of the Naval Hospital here. She was the Assistant Chief Nurse until the transfer of CDR Helen C. Gavin, NC, USN, who has gone to the Naval Hospital, Oakland, California.

Chef Martin Retires After 28 Years

After approximately twenty-eight years of service, Chef Reginald W. Martin has decided to lay aside his menus and retire to a life where his wife will do the cooking. Mr. Martin has been the invisible hand behind many a sumptuous meal here at the Center.

The retiring Chef began his career in the culinary art in 1923 as a mess attendant. He rose steadily in rank and in cooking skill: Chief Cook in 1926, Steward in 1947 and finally Chief Steward in 1950. All his service has been at the old Naval Hospital and here. (Continued on page 2)

Noted Conductor To Present Concert Here Tomorrow Nite

Dr. Sigvart Steen (Lt. Comdr, USNR), formerly director of the famed Bluejacket Choirs, at Great Lakes Naval Training Station, will direct the Wagner College Choir in a concert to be held in National Naval Medical Center Auditorium tomorrow, Tuesday, January 30, at 1800.

Selection Board Meets For Med Dept. Admirals

Medical Department officers from throughout the Navy composed the selection board that was in session last week to select officers for promotion to the rank of Rear Admiral in the Medical Corps.

The board consisted of: RADM M. D. Willcutts, CO, NNMCMC, President; RADM A. H. Dearing, Assistant Chief of BuMed for Personnel and Professional Operations; RADM J. B. Logue, MO, 6ND; RADM J. Q. Owsley, MO, 13ND; and RADM L. O. Stone, MO, 1st ND. LCDR Clarence Shearer, MSC, USN, is Recorder.

"Operation Toy" Is A Success For Fraulein

Renate Oehl, 12, of the Hofheim District, Mannheim, Germany was surprised, happy and very thankful for Christmas presents she received through "Operation Toy" sponsored by the Recreation Association of the Navy's Bureau of Medicine and Surgery.

Renate, in a letter to Miss Helen E. Cunningham of 1028 Connecticut Ave., N.W., Washington, D. C. says "Today we get any Christmas Presents up here in Hofheim. All the gifts, we get, came's all from American pipels. So, I was the one, she get's a nice Coloring-Book and them Color-Crayans. I thank you very much for.—That American Officer and his wife give me your Adresse, so I can say: Thank you for the gifts. —I don't can writhe the english, but one of my brothers friend's can speak and writhe english. So I tell him,

During World War II the Bluejacket Choirs were heard by millions of listeners each week, on three major networks. Prior to his commission, Steen was director of the Northland College Choir and it was while there that he became recognized as one of the outstanding choral directors in America, receiving unanimous praise from critics throughout the United States.

A graduate of Luther College (Iowa) Steen studied under Christiansen at St. Olaf College and undertook graduate studies in the University of Berlin and New York University. In September 1949, Dr. Steen became Chairman of the Department of Music at Wagner College, Staten Island, New York, and since then the Wagner Choir has sung in principal cities throughout the East. Nationally known critics have recognized the Wagner College Choir as one of the outstanding choral groups of its kind.

The Choir, which devotes itself exclusively to sacred a-cappella works, is composed of 47 men and women students. This is the first time the Wagner Choir has sung at the Medical Center. Concerts are scheduled for Washington, D.C., Baltimore, Md., Pittsburgh, Pa., Altoona, Pa., Reading, Pa., Trenton, N.J., and several other cities on the Eastern seaboard.

that he writhe to you."

Miss Cunningham, an employee of the Navy's Bureau of Medicine and Surgery and Vice President of the Recreation Association, said she would answer Renate's letter and would send her more presents.

The Christmas party, one of 13, was arranged by Mr. Charles T. Butler, State Department Resident Officer of the Kreis Main-Taunus, The District between Frankfurt and Wiesbaden.

Is Church Group Present "Present Fighter" Feb 9

February 9 the Falls Church Community Theatre will present Coward's amusing comedy "PRESENT LAUGHTER" here in the auditorium at 1900. This is a Noel Coward entertainment—light, sophisticated, and funny.

The play has been produced in the Church and also at Walter Reed Hospital, to the hilarious enjoyment of its audiences. Don't miss it. The Director is Mr. Frederick H. Chase, Jr. of Chevy Chase, and the cast includes the following: MARY, Paul Carmi; LIZ, Ann tenburgh; MONICA, Isabel JOANNA, Barbara Kingman; O, John Bold; MORRIS, M. O'Brien; DAPHNE, Jean (Continued on page 3)

The Chaplain's Corner

By Chaplain Arthur P. Finan

Are You Irritable?

In a hospital "Irritability" has a penchant for cropping out in about any corner.

A patient may be irritable to a corpsman; a corpsman may be irritable to a nurse; a nurse may be irritable to a doctor; and, saving all reverence, a chaplain may be irritable to everybody.

Pardon then a few words on "Irritability."

Irritability is the flaw of character whereby people permit themselves to be unpleasant, curt and ill-mannered with others for no other reason than that they do not happen to be feeling just right. It differs from outbursts of anger in that the latter are usually a reaction to some real or fancied injury that has been inflicted by another. Irritability, on the other hand, may manifest itself when nothing has been said or done that could possibly be construed into an offense. When a weak character is in an irritable mood, it is impossible to say anything to him that will not occasion grumbling and unkindness.

There is no one who has not experienced the irritability of others, and every such experience should make one more determined not to permit it to appear in one's own conduct. An irritable husband has something mean to say to his wife when she merely asks him an innocent question about the state of his business. An irritable employer will speak sharply to employees, even though, at the moment, their work is being done perfectly. An irritable mother will suddenly begin to rant at her children for some innocent action that cannot possibly be deserving of reprimand. The slang word for this fault is "ornery"; you just can't please "ornery" people.

Irritable people make many specious excuses for their weakness. Some say that is due to their nerves, which are in bad shape. Others attribute it to high blood pressure, or low blood pressure, or insomnia, or indigestion. Still others say that their unpleasantness with those around them is due to the fact that they have so many worries and responsibilities that they cannot be expected to consider the feelings of others.

All such excuses are more in the nature of subterfuges. Irritability signifies a lack of self-control, inability to subject one's feelings to the demands of charity, woeful immaturity of character. It is not so much frayed nerves that causes irritability; it is the irritability that causes frayed nerves. One who is subject to being cross and unpleasant with others for no visible reason, needs to come face to face with the fact that he is thinking too much of himself. He is like a child who has not yet learned that his feelings are not the most important things in the world.

CHEF MARTIN

(Continued from page 1)

Born in Fairfield County, S. C. in 1900, he attended the Episcopal Elementary School in Columbia and Allen University. He came to Washington in 1918.

Statistically speaking, Mr. Martin was the youngest Chief Cook in the Navy and the first man to hold the rating of Steward at NNMC. He also is the only Chief Steward ever rated here.

"My naval service has been a very pleasant life throughout," states the Chef. "I want to thank the NNMC personnel throughout the years for being a wonderful group to live and work with." He also said that he was leaving the Commissary in good hands in the person of Lucius Parker who relieves him.

Mr. Martin and his wife plan to make their home in Southern California, around Los Angeles.

LT LITCHFIELD

(Continued from page 1)

was well known in college as one of the leading Bantam-weight boxers in the Southern Conference. Lt. Litchfield has been interested in sports since his childhood days in Quincy, Mass.

Lt. Litchfield is married and has a small infant daughter. He was well known in the Med School command and all hands join in wishing him the best of luck and success in the world.

Notice for Patients Requiring Dental Prosthetic Treatment

Service personnel, active or retired, who require full dentures, and are sure to be available for treatment during February, are urged to report to the NDS Information Desk as soon as possible for examination prior to such treatment.

News Shorts From The Editor's Desk

HMC Eric Taylor will relieve HMC Harold Betzner as Mess Treasurer of the Chief Petty Officer's Mess (Open) on Feb. 1.

Captain C. F. Behrens, Director, Atomic Defense Division of the Bureau for Research and Medical Specialties and Commanding Officer NMRI, will represent the Bureau of Medicine and Surgery at a conference for teachers of Clinical Radiology to be held at the Palmer House, Chicago, Ill., February 10. The conference will devote a large part of its program to Civil Defense problems relating to atomic weapons.

CDR E. R. Cronkite, Head of the Hematology Division of the NMRI, will accompany Captain Behrens. CDR Cronkite will present a paper entitled, "Diagnosis and Treatment of Radiation Injury as Produced by the Atomic Bomb."

(AFPS)—The United Nations flag flown by the Battleship Missouri while engaged in the bombardment of enemy-held territory on the east coast of Korea is on display in the US Naval Academy Museum at Annapolis, Md.

(AFPS) Among the Naval vessels scheduled for early return to duty is the veteran 27,000-ton aircraft carrier Essex, known during World War II as "the fightingest ship in the Navy." Another large carrier, the Bon Homme Richard, is due to join the Pacific Fleet. Also being recommissioned are the submarines Tench, Lionfish, and Scabbardfish, and the heavy cruiser USS Los Angeles.

(AFPS) Recruit training at Great Lakes, Ill., and Newport, R.I., has been compressed from the usual 11 weeks to nine to handle a heavy rush of enlistments since the recent holidays.

This new uniform identification card will be regulation for all Armed Forces personnel after June 30 1951. Similar card in different color will be issued to Reserve component members.

Seems that barracks 112 has acquired a protector in the form of "one big german police dog" named Prince. On his hind legs he stands as high as a man, and his jaws leave no shadow of a doubt that they could do a bit of destructive work should the mood move him. Seems the MAA's are afraid to disturb the rest of the men now that Prince is there, so don't be surprised if you see reveille held about 1200 some one of these days.

Doctor Jose Jose, Director of Riverview Hospital in Manila, P.I., was a recent visitor here at the hospital. Dr. Jose is in this country on a Good Will Tour. He was here to observe the department of surgery's organization and procedures.

Korean Heroes Under Treatment At Naval Hospital

Pvt. Charles Monroe, U.S. Marine Corps (pictured, left) and the doctor here are trying to save the remaining of sight in his left eye. This may take about 9 or 10 months and many operations. He was wounded near Chongjin Reservoir in Korea November 28 and his right eye to be removed at the USNH, Land, California.

While the people back here were planning a "Charlie Monroe Day" in his honor, he arrived January 17 from Oakland.

Sgt. Richard A. Bristow, U.S. Marine Corps (pictured right) of Fairfax, Virginia, was with an infantry company leading the withdrawal when he was wounded by enemy bullets in both his legs.

After spending 5 hours in there with gunfire all around him he was finally evacuated to rear and eventually placed aboard the hospital ship, U.S.S. CONSOLATION.

He is a veteran of WWII and the Battle of the Bulge. He was former assistant city engineer Petersburg, Va. His wife and 3 month old son now reside in Fairfax.

SCHOOL COSTS

(Continued from page 1)

choose, provided you meet the educational qualifications for that subject. You may elect to work for a degree as BS, BA, or the two year degree as Associate in Arts.

Work toward a Masters or Doctorate may be pursued provided that sufficient people show an interest in that subject.

To inaugurate a class in any subject the only requirement necessary is that a minimum of 15 qualified students be enrolled. These students do not necessarily have to be from one command, or even from one branch of the service, in fact they may be civilians and come from anywhere in the district.

Full credit towards a degree will be granted for work completed under this off-campus plan. Regular instructors from the University will conduct the courses and University standards will be adhered to. Classes will be held at the most conveniently located military activity.

As a departure from their former policy the University will grant advanced standing for successful completion of the College Level GED tests, and for certain service connected training. For non-high school graduates, successful completion of the High School Level GED tests will meet the college entrance requirements.

Two methods of paying the costs of this program are available. One is the GI Bill for all eligible personnel, the other, the new Navy program, where the Navy Department will pay three-quarters of the cost per semester hour. This new Navy-wide program is designed to promote a higher degree of professional capability and add to the proficiency and experience of all hands who take advantage of this opportunity.

This program is available to all qualified personnel whether officer or enlisted, and it is the desire of the Navy Dept. that all qualified personnel take advantage of the facilities at their disposal.

Dependents of service personnel and other civilians will be eligible to attend these classes, upon payment of the full enrollment fee.

A questionnaire soon to be distributed will enable anyone interested to show what general areas of study they are interested in, and will also enable Information and Educational Officers to determine what courses should be set up first. The importance of the prompt and accurate filling out of this form cannot be over emphasized.

Classes under this program will start as soon as the details can be

ironed out, and enough people have indicated their desire to attend. Complete details are available at the Information and Educational Officers throughout the command and all interested personnel are urged to contact the Information and Educational Officers as soon as possible.

Tea At The Blair House

The First Lady of the land, Mrs. Harry S. Truman, graciously entertains patients from NNM and Walter Reed at four afternoon functions during the month of January. An unexpected thrill was added when the President himself appeared to greet the fellows.

Med School Gutterbutt

By O. C. "Skip" Skinner
The Commanding Officer, Captain B. W. Hogan, has announced a new basic course for junior medical officers has convened in Medical School. The training covers a five and a half month course of instruction will be a streamlined version of the one that has been given to medical officers for many years. The idea behind it is to give new officers some conception of the workings of the Navy. Appropriately the curriculum includes subjects such as Naval Law and Naval Customs and Traditions for military edification of the officer. While, medically, they will be instructed in those phases of medicine which are particularly vital in the Navy, topics such as field, amphibious, aviation and marine medicine.

Junior officers are expected to lead the first class, according to Captain Enyart, Executive Officer of NMS; the courses will conclude and another class take up the graduation of the present question that is being asked around the command is just what is Med School's most ardent "Boy at the present time?" "Boy" is a tossup between "Kovarick," "Ski" Kurzwand and Charley Chase. Recently Med School lost two of its most notable characters. They have been here for quite a spell and doing so had attained many life-time friends. They were "J. D." and "Tiny" Schroer. "Brownie" was one of the golfers on the base and took a place in last year's Handicap. "Tiny" was well known for his sea stories and also was the Cog in NMS's Lab 2 bowl team. It is a sorrow to see a journey from our midst, but wish them smooth sailing with U.S. Marines. Congratulations are in order for Mrs. George J. Palmer. Early morning January 14, at approximately 1000 they became the parents of a bouncing 7½ lb baby boy. Jim is presently in the Pathology department, where he has been since his graduation with Lab 13. Best of luck and many more little Palmers. Most of the crew have been waiting out the rating exams. They have been taking place the few weeks. Those bureau tests like they are getting the boys.

Not Much Research Involved

By R. M. Gismondi

On the alley side of the athletic scope, the bowling team of NMRI, captained by Don Teter, and led in total pins by Van Bellois, came in closer to the top of competition by tying with Lab-2 with the tune of 2-2. In their second struggle for top recognition they pulled out a clear and complete victory over NSHA by 3-1. It was the straight, no-gutter ball hitting of Van Bellois that aided tremendously in this effort.

If you can remember back far enough, NMRI was really rated quite high in comparison to competition. They have upheld that compliment to the utmost. Our congratulations for past victories, and our sincerest wishes for 4-0 playing in future tilts.

The basketball team on the other hand, captained by L. Cecchini, is having a mighty rough time of it. They were recently defeated by Lab-15 for their third straight defeat, to the tune of 29-20. Their start in this field of baskets was a victorious one. They trounced Print Shop 37-7; things looked very good for the hoop-ball artists, but then they were consecutively defeated by Phys. Med., Commissary, and previously mentioned Lab-15. This sudden lack of victories can only be attributed to the fact that there is a definite lack of experienced players. Their reserve bench is quite empty, when the regular five is on the playing floor. All towering young males who are interested in this sport contact Mr. Cecchini or F. Sanchez who will gladly accept any promising offers. Even participating as a rooting spectator will be beneficial to the team. Remember, that praise for any man or group does not emanate from criticism.

RUMORS . . . FLASHES

Once again the walls of science and intellect open their doors to all requesting knowledge. The second Isotope class has started. So to procure a practical foundation in the field and its many by-ways, the students receive four hours tutelage from a recent graduate of the school who is stationed in Radiation Technology. Their names are as follows: C. Kincaid, HMC; C. B. Burgland, HMI; W. E. Noel P1RR4; E. L. Swartzundruber, HM3; R. J. Hartleroad, HM3 and A. O. Pacosky, HM3.

Red Cross Takes Inventory Of 1950 Services To Patients

January is the month in which we take stock of ourselves, looking back over the 12 months just gone. Inventories are taken, annual reports written and plans made for the next 12 months.

Red Cross at this station has looked back on the 12 months of 1950 and has tried to evaluate its service given. During this year the Red Cross Staff here was reduced in numbers. We lost a recreation staff member, a case worker and a business staff member but have tried to carry on with the services we have agreed to give. A brief review of Red Cross activity for 1950 as follows:

During 1950 the case workers had significant social service contacts with 2298 patients and military service personnel here. 2586 minor services were given. Some of these Social Service contacts covered a brief period of time and some of them carried over from month to month for patients having long periods of hospitalization. These services included personal counseling on social problems, services to visiting relatives, the lending and granting of money for emergency situations where it was needed, the writing of social histories in connection with medical treatment, verifications for leave extensions, the giving of health and welfare reports, assistance with applications for disability compensation, etc. as well as referral to many useful community resources.

Recreation services continued with a program of ward parties, craft activities, entertainers, trips, ward movies, games, musical sessions and concerts. This department has available for patients supplies of games, playing cards, classical and popular music, craft materials and art supplies.

Our volunteer services conducted by 125 Gray Ladies, included finding temporary living quarters for visiting relatives and for incoming staff, regular shopping service on hospital wards three days weekly, regular reading service two days weekly to the children on Tower-6, library cart ward service and numerous other activities such as minor mending jobs for staff and patients, letter writing for patients, assisting with recreation programs, and guide service in the hospital.

Red Cross Chapters in the surrounding areas made a continuing significant contribution to the hospitalized servicemen here. They have taken responsibility for carrying on with needed social service to numerous patients leaving this hospital. They have provided volunteer motor corps service for recreation trips and for patients needing special transportation. Their volunteer groups have supplied Recreation Equipment, Christmas Gifts and Surgical Dressings.

Looking back on what has been done makes us also look forward. It takes the combined effort of all people to make this program possible. The many volunteer workers, the generous public who each year in March contribute money to finance the program and the professional staff.

40th Anniversary Of Carrier Take-off Celebrated By Navy

On January 18, 1951, the Navy celebrated the 40th anniversary of the first successful landing and take-off by an aircraft from the deck of a Navy ship.

The event commemorated was the historic flight by Eugene Ely onto and from the deck of the USS PENNSYLVANIA in San Francisco Harbor on January 18, 1911.

Here in Washington, the National Air Museum and the Navy placed a display of equipment and photographs in the lobby of the Navy Department building, 18th and Constitution Ave., N.W.

The display included the engine and the propeller used in the old Curtiss plane in which Ely made the flight, photographs made of the flight and of Ely and his machine, and a series of pictures showing the development of naval aviation through the years.

Naval aviation had its beginning in September 1910 when Captain W. I. Chambers, who had been detailed to take charge of aviation correspondence for the Office of the Secretary of the Navy, launched a thorough study of the scientific construction of aircraft suitable for use with the fleet.

Capt. Chambers was desirous of finding out whether or not a plane could be launched from the deck of a ship. He persuaded Ely, a Curtiss test pilot, to make the attempt which resulted in the first take-off from a ship, the USS BIRMINGHAM.

The success of this experiment led to the flight which proved that aircraft could be utilized aboard ships at sea. Ely flew from a field near San Francisco to a platform on the deck of the USS PENNSYLVANIA. After an hour on deck the airplane was turned around and Ely flew back to his base.

From this humble beginning has evolved one of the greatest fighting forces in history. The use of aircraft enabled the Navy to form a new type of fighting unit; the carrier task force. It is a swift, compact striking force which has the advantage of speed, mobility and surprise and possesses the fire power to stand and slug it out with any enemy force.

Naval aviation has been an integral factor in the ability of the Allied forces to withstand the onslaught of communist forces in Korea. The high speed jets and

tal Corps. This is the second time for Mr. Bernard who held Warrant and Chief Warrant during World War II and was reverted, as were so many, during the cut-back in 1946.

He first enlisted in the Navy in 1935 and received basic training and Hospital Corps School in Norfolk and Portsmouth, Va. respectively. After his initial Hospital training at USNH Philadelphia, Pa., he served aboard destroyers until the outbreak of the last war. Between his tours of sea duty, he sandwiched in a bit of recruiting duty in Milwaukee, Wis., where he met and married Mrs. Bernard.

His first appearance at NSHA came when he attended Officer's Class number six. After graduating, he was assigned to USNH

Memphis Tenn. where he served as assistant commissary officer. From there he went to San Juan, P.R.

Mr. Bernard returned to NSHA once more, this time to serve as an instructor in Commissary Procedures. His presence in this capacity has aided many MAT men in the performance of their duties as senior petty officers in various commissary departments throughout the Navy. In addition to his duties as an instructor, Mr. Bernard has been keeper of Audio-Visual equipment and CMAA. He has also been active in CPO club matters.

Entertainment Features Charm And Good Cheer

The "Evening Star Revue" featuring a cast of beauty pageant winners sponsored by Dr. George J. Brett of Lancaster, Pa., visited the Medical Center Sunday, January 21. The show, packed full of beauty, charm and talent, toured wards in the afternoon. The players made

bedside visits with patients and passed out candy bars. At 1800 they presented a stage show in the main auditorium. Mr. John Shutak, versatile Master of Ceremonies did a wonderful job in making the performances in the wards and on the stage a great success.

1. Sgt. R. B. Stienburg, Wd 3-c and his mother greet the young ladies with a smile. Dr. Brett is shown in the background. 2. James J. Donnelly, FN, USN, Wd 4-c sits among the entire cast completely charmed; left to right—Misses Senta von Ehrenfried, Nancy Crawford, Dorothy Rosser, Miss Brett, Emily Longacre

("Miss Penn, 1951"), Joanne Wiler, Miss Brett and June Mitchell ("Miss England, 1948"). Incidentally, all the pageant winners are from Penn. with the exception of Miss Mitchell. 3. "Gosh fellows, I never thought this would happen to me"—Miss Jacobs, HM3, USN, Wd 3-c takes one on each cheek. 4. PFC Edgar Melia, USMC, Wd 3-c enjoys it all with Miss Pennsylvania. 5. Miss Senta von Ehrenfried does a high step in the auditorium, a number that brought the house down. 6. Miss Nancy Crawford in baton whirling number. 7. Misses Mitchell, Longacre and Crawford in finale. 8. PFC Carlyn Hunt, USA, Wd 4-c poses with the Brett identical twins, "Miss Pennsylvania" and "Miss England".

Coach's Corner

This column meets the line-up of the first half of the PRNC basketball tournament has been selected with the ADMIRALS in the way tie for second place. With interest that we note, of the top four teams, the are the only boys who do have full-time gymnasium positions during the normal working hours. The Receiving Station, Naval Air Station and Patuxent quintets are all assigned to respective gymnasium staffs to assist in the preparation of the night's showing and assignments aimed at the development of good team play, the aftermath of daily association. At Bethesda we are content to have a player so imbued with his daily work as a highly skilled technician that basketball interest to which he can devote his time upon completion of daily assignments. Our only lament is that not since the season started have we had the full time we can devote to practice. Interest in winning the PRNC is so high among the players that there have been instances in which players have actually shipmates to take their duty so that they could engage in a game play. More and more fans are coming to the games in the Recreation Building as the end result of hold-over double-headers with the team, the preliminary to the contests. By the end of the season the Wave cheerleaders will be equipped with megaphones in collegiate style. Close to 300 spectators viewed Wednesday's double-header against the Reed basketball team. Cornell players who can hit the mesh 20 pts, as easy as pulling on a string was restricted to 23 markers in the evenings' play, thanks to the catalytic co-ed rooting section. Players were on the roll for the played golf this last Saturday which augers well for the future with almost 40 of the divots being personnel attached to command. The smartest ap- proach two some seen to date on the course is that of Captain and Norman; with Irv wearing "Jacquard" sweater, a Christ- mas, and Mrs. Norman with a partly-tailored grey outfit. Fortin and Jim Crawford warming up their irons ap- proaching number three on Satur- day afternoon with Maury pres- suring putter down all the way to the cup, I'll take the hole in one, Maury! To get in for the forthcoming spring season, we find two schools, right on pre-season practice; one, the station's longest hit- tings his odd moments swing- ing club in the basement of his while the reigning champ, King hies himself off to the for some well-earned la. Could there be doubt in es mind, that while Cap- ittle went south to see his child, he is probably spend- ing daylight hours smacking ball around the local courses. Other night Abe Rosenfeld, the University's cage mentor and asked if we could an evening on their floor in practice scrimmage, natu- rally responded in the affirma- tive taking along Don Polizzi whistle tooter, came out on the end of 89-92. The ses- sion was hardly underway when asked if we would refrain use of our shifting zone de- the highest compliment we had all season. A few days Orrrel Mitchell, local prep

Admirals Trip Airmen To Tune Of 72-67

The Airdales from Patuxent hit the high barrier wires set up by the local quintet in as fast a con- test as anyone would care to wit- ness. The visitors started with a fast bucket off the opening toss by Sugg, a smooth, shooting guard, followed by a pass interception, which Croley of the fly-boys turned into a basket. Mosley, took a bounce pass from Williams, pivoted and handed off to Brothers for the Center's first points. A re- bound by Echols, a left hand float- er by Kurzawski and the boys from the turnpike were back in the ball game. Sugg drifted a- cross the key for his left hand push, Ski countered with a right hand push from the corner, Wil- liams arched a long one. With Brothers, Funk and Ski hitting the twine with as beautiful a shooting exhibition as one would see in the Garden, the Admirals enjoyed a thirteen point lead as the squads went to the dressing rooms.

In the second half, Patuxent overloaded the right side of the floor to free, Sugg on the left for his arching sets to even up the score. At this point George Funk started faking and feinting the op- posing center off balance to lace the meshes for five straight bas- kets. Brothers on a drive-in was double teamed and hit the floor, hard, necessitating his removal from the game. Raymer appeared on the scene in the place of the injured Brothers and with Mosley an

excellent ball handler, Day, Haw- ley and Weber now in the ball game for the Center, the Hank Iba control style of play came into be- ing. The closing horn found the Maroon and Gold hoopsters on the long end of the score. Lt. Comdr. Murray presented a well-coached aggregation and told us, that they would be waiting, in the season closer at Patuxent, what with their stands jammed with two thousand cheering, gobs at every game, we will have a tough game to handle.

coach asked if we would engage in a practice scrimmage with his Georgetown Prep squad as his team would play Gonzaga in a few days and the latter employed a zone.

A Potomac River Naval Com- mand order that has been in effect for over two years, is that visiting teams will be given a full meal after an athletic contest. Its mighty easy for all the other Com- mands in the District to serve 'late warm chow' due to their use of enlisted personnel in the culin- ary department. In order to feed the visiting firemen, Lt. (jg) Ed- lund, Chiefs Barrett and Murphy have more than gone out of their way to plan an adequate meal and this column wishes to thank the Commissary Department for their effort.

Pin Action

By The Ten Pin

Records fell left and right dur- ing the past two weeks of league bowling. Belken of NNMCC eclipsed the old high single game mark with a sparkling 241. His glory was short lived, however, as Rob- erts of Qtrs. 12 rolled a big 242 a few nights later.

Robert's team mates weren't far behind him as they established a new team score of 636-596-746- 1978, breaking the old record by more than a hundred pins. That kind of kegling will stand up in any league.

Still another new record was set by Meitl of NSHA-2 with a string of 209-209-168-586.

Records will not be un-noticed at the end of the season. Besides trophies for members of the win- ning and runner-up teams, there will be individual trophies for the high individual single game, high individual string and high team string.

As the half way point is neared, Quarters 12 and NMS Lab-2 con- tinue to battle for the lead with the latter team holding a momen- tary advantage by 12 percentage points. Lab-2 lost its anchor man, Tiny Schroer, but have picked up an ample replacement in Spofford.

An on-rushing NMS Officers team of Numes, Jaeger, Boonstra and Floyd has pulled itself up into contention by winning 10 out of the last 12. Three tenth frame "turkeys" took the starch out of Meitl and his NSHA-2 crew in a recent match.

A surprisingly strong CPO out- fit of Reynolds, Henderson, Gul- lison, Brown, Adkins and Bernard, after a slow start has moved up steadily and has taken over the third place slot from NDS-3.

Another team that will bear watching is Roller's NSHA-1 fore- some, Terpin, Torrisi, Norgate, Wallace and Sawyer, who have been near the top all the way.

NNMC Basketeers Win Close One Over MarCor. Institute

In a hard fought game from opening whistle to closing horn, the Centermen were hard pressed to win from a scrappy Marine Corps Institute five. On the opening tip, Echols to Mosley to Brothers found the latter driving through the keyhole for the first points.

Second Half Shoots Admirals Ahead

Three games in three nights al- most proved too much basketball for the local team as they were driven into the boards by a fast passing quintet of communicators in first half of play. Proving once more, that they are a second half team, the Admirals went to work in the third quarter. Trailing by four points, Funk tipped to Wil- liams who bounced a hard pass to Kurzawski laying in a left hander, Brothers arched a set from the side to erase the half-time de- ficit.

Echols, whose play has been im- proving as the season wears on, tossed in two from off the free- throw line, followed with a hook pass to Brothers who knifed in across the post for a counter.

Phillips of the opponents found the range for his short sets to rack up three fast ones when George Funk started rebounding and the score was evened at the quarter mark. Tommy Brothers, being a marked man was the signal for the Center's marksman to hand off to Kurzawski; to double-roll off Brothers on the post for three baskets. Phillips a thorn in the side of the locals all evening came back for two more sets from out- side to knot the score up. Funk grabbed three follows off the char- ity line with Bargar of the Mar- ines coming back for a tap-in, a corner one hander and a long set from center to enable the Marines to leave the court with a half-time advantage of seven points.

Bethesda came back strong in the third quarter with Beversdorf and Ski setting up double-picks for Brothers who burned the strings for 14 pts in the third canto. With two minutes to go in the ball game and enjoying a lead of five points, instructions went in from the bench to set up a flat weave in backcourt. An overzeal- ous hospital substitute drove in across the key, lost the ball and Murray of the Marcor five canned a long one. Another miscue on the part of the boys from off the Rockville turnpike and the score was now 55-54 with ten seconds to go in the ball game.

The officials entered the scoring at this point and awarded an out of bounds ball to the Marines, the clock started to move, Fox of the downtown five, shot, missed and the boys from out Wisconsin way, went home to oxygen tents.

40th ANNIVERSARY

(Continued from page 3)
the ever faithful propellor driven aircraft of the fleet have repeat- edly blasted the enemy from their positions, furnishing our ground troops with an umbrella of safety.

Walter Reed Five Bows To Centermen

The stands were jammed with some 300 spectators in Wednesday night's game with the visitors from the other side of Rock Creek. Having for the first time in their two years of having played together, highly partisan supporters in the stands almost proved disastrous for the Admirals in the first half of play.

After the 'dressing room interlude' the boys came back in the third quarter to put the ball game away with 23 points. In this period, Echols and Funk started rebounding off both boards, using excellent timing and feinting, the smooth working pair amassed 19 points between them. Mosley, Raymer, Rock showed to advantage with the latter supplying the spark with his defensive talking. In the closing moments of the game a couple of decisions by the officials brought down the house, but it is to the credit of the players that no visible reaction was noted.

Commissary	32 EENT 26

STANDING

	W	L	Pct.
Commissary	6	0	1.000
EENT	5	1	.833
Cardiology	3	3	.500
Phys. Med.	3	3	.500
NDS	2	3	.400
Lab 15	2	4	.333
NMRI	1	4	.200
Print Shop	1	5	.166

In a brilliantly played game the Commissary Cagers attained sole possession of first place when they downed the hard-fighting Yellow Shirts from EENT. Led by Don "Hawk" Polizzi, Commissary, after trailing for the first half, surged back to match the "Double-E's" at 20 to 20 as the third quarter ended.

Three successive two-pointers by White, Dias and Polizzi soon after the final canto opened gave the Brown Shirts the bulge that they maintained until the final whistle.

Commander Frates, varsity coach, who officiated the game along with Chief Sherin, remarked later, "That was the finest played intramural game in my memory."

One hurdle remains now for the league leaders. They meet NDS on February 2 and a win will clinch the crown. This observer notes that Cardiology and Phys. Med., now tied for the third slot, and favored to cop their final games, should explode a new thriller if a playoff becomes necessary.

In the other games played recently, EENT won their fourth straight at the expense of Print Shop by the wide margin of 46 to 12. The oddity of this meeting was that EENT scored their entire 46 points with two pointers.

In a rough, overtime encounter Phys. Med. edged Cardiology 34 to 32. The eagle eye of Stevens at the free-toss line during the extra four minute period provided the winning points.

Commissary's fifth straight came at the expense of Lab 15 by a score of 36 to 19. Again it was Don Polizzi's shots and playmaking that shone. Oddis and Knorr led the losers.

In the season's upset, the victoryless Print Shop sneaked into the win column by a 32 to 30 win over the Dental Dukes. With Keith controlling the backboards and tapping in several beauts and Linn taking some long tosses for lay-ups their mission was accomplished. Dube's set shots kept the Dukes "hot on the trail" until the final whistle.

EENT's fifth straight came against a weakened Research outfit by a score of 33 to 8. NMRI lost a couple of key operators recently by transfer and although they displayed plenty of fight, they were no match for the skyscrapers in Yellow Shirts.

Phys. Med. hit the .500 mark when they downed Lab 15 in another thriller 32 to 30. Two buckets by Wheeler in the closing minutes provided the edge. Ed Danforth led the Labsters with 13 pts.

Dr. Driekman's tosses from the key led Cardiology as they also hit the .500 mark with a win over the Printers 31 to 11. Fox and Parrish also came through with some beautiful sets from the sides. Van Dusen with 6 points led the losers.

Lab 15 Under Low Power

By Moe and Gizz-Moe

The big deal this time has turned out to be those "advancement in rating" tests. Quite a few of the Lab. 15 students took a crack at the chance to sew on another stripe. Some of us may make it, and the rest of us—oh, well, there's always next time.

The "ain't love wonderful" department: Ever since "Robbie" Robbins came back from holiday leave, he has been going around with "that look" in his eye.

Another victim of Cupid's arrow is "Nose" Horrobin, who has completely "reformed" since returning from leave—funny how a gal can have so much influence, even when she is miles away.

Wootton's days are also numbered—he is scheduled to take that fatal step some time next month. There are rumors that Bill Lotz is headed in that direction, too.

Prediction: By the time the next issue is out, the nation's top tune will be "I Thought I Thaw a Puthy Cat" as sung by crooner "Foo-Foo" Fronko of Parasitology.

For all you amateur distillers—"Dillie" Williams of Lab. 15 has discovered how to make sweet cider hard within four days by addition of a certain ingredient. Take note, for this may be the discovery of the year.

It won't be long until Myers receives his Masters degree in Blood Collecting. Not far behind are his "understudies" Henderson and Gerlitz.

St. John has moved ashore—he has decided either that his shipmates are boring company or that he wants to get his extra rations.

We wish to correct an error in last issue. We stated that James P. "Alky" Oddis would limit himself to twelve bottles of beer per nite in 1951. We meant to say "cases" instead of "bottles."

Well, that closes the door on another one of our exclusive bull sessions. We'll be back next time with the news as we receive it—hot off the wire.

Sailor: "Hello, Shore Patrol? I just wanted to report that I found that wallet I reported stolen last night."

SP: "What are ya, wise guy or sompin'. We've already arrested the guy who took it."

The 1-ring circus was visiting a town in the hills and the folks recognized all the instruments of the band except the slide trombone. One old settler watched the player for quite some time, then said: "There's a trick to it; he ain't really swaller'n it."

Mechanical Brain

With all the publicity about "mechanical brains" or computing machines, it should interest everyone to know that the darn things are invading the Medical Center. The Research Institute recently acquired a very small computing machine to speed the solution of some of the problems which would otherwise take months of work with calculation, slide rule and graph paper. The front of the machine looks a bit like a switchboard. When the connectors are plugged in properly, the solution to the problem appears on the face of a cathode ray oscilloscope and may be traced or photographed. When the machine learns to do our experiments for us, we'll all quit and try that nice beach combination vacation.

NMRI

(Continued from page 3)

Jackie James, steno in the library before marriage, is with us again. This goes with saying that the age-old "Once a research typist, always a research typist," is true. Give have you back again Jackie.

There have been some transfers recently, here are the ones I am up to date on. C. Juarez, Johnson, K. Sealy, R. Pichon, W. Pendergast. We regret having to leave us but wish luck at their new stations.

A recent new addition to library has been reported, Mrs. Olive Weathersby, wife of LT Weathersby, staff member of the Institute for quite some time. We all wish you a long and happy stay.

L. R. Kelley has been quoted as having said that the only thing better than night duty at the Recreation Center is sleeping during the day. It seems that this is a curtail some of his extra-curricular activities at the "Y" Cottage was a staunch visitor to the dances by same organization.

W-2 forms are in circulation again. This time of the year produces some unhappy faces at the pay line. HMC Davis owes the government from last year.

Cigars will be in order for men who recently took the for advancement in rating without getting the word as to their status. The test certainly was of caliber and standing. Good to all who participated.

Donald Heye, on the main arms force on NMRI, is continuously complaining to me that name is never mentioned in paper. Well, Donald, here it is, hold it high, guard it well. Puppy.

Well another column to matter of history thanks for coming with me and till the next adieu.

CAPT Behrens, NMRI, Selected for Rear Adm.

Congratulations are in order for T. Charles Frederick Behrens, USN, Commanding Officer, NMRI here who has been selected for promotion to Rear Admiral. His newly selected medical officers for promotion to Rear Admiral are: CAPT Warwick T. Brown, CO, NH, St. Albans, N.Y.; T. Clyde W. Brunson, CO, NH, Philadelphia; and CAPT Sterling Cook, CO, NH, Oakland, California. Capt. Behrens has been Commanding Officer of NMRI here since April 1948. Behind this

News Shorts From The Editor's Desk

(AFPS)—Fifty-three years ago—February 15, 1898—a historic battle cry began echoing throughout the land: "Remember the Maine!" For it was on that date the USS Maine exploded and sank in Santiago Harbor, Cuba, taking 260 Navy men to their deaths.

An incensed public, already fired because of strained relations with Spain, demanded action. The result was the Spanish-American War, the establishment of the U.S. as a world power, and the liberation of Cuba from Spanish rule. The total war lasted only 114 days.

In Arlington National Cemetery, where stands the mainmast of the Maine as a memorial to her many dead, Americans will again pay tribute to the men of the sea who died with the birth of "Remember the Maine!"

Dave and Mort Willicutts, sons of RADM and Mrs. M. D. Willicutts, students at Indiana University are at home for mid-term vacation. Danny Bauman from Kewanee, Ind., also a student at Indiana U. is here with Dave and Mort for the holidays.

Valentine's Day is a feast in honor of the martyr Saint Valentine. The custom of sending love tokens on this day has no actual connection with the saint, whose name was probably introduced through some mistake. The day being known as a day of love and affection.

(Continued on page 6)

HMC Eric Taylor New Mess Treasurer CPO Mess (Open)

HMC Eric Taylor took over the reins as Mess Treasurer of the Chief Petty Officers Mess (Open) February 1. He relieves HMC H. H. Betzner who has been the treasurer of the Club since its commissioning July 8, 1950.

Chief Taylor comes from Naval Air Station, Anacostia, D. C., for his new post. No newcomer to NNMC he has had two tours of duty at NMRI.

Although this is his first billet as a Club Manager, he has what it takes for the job. While on duty at NMRI he served as senior member of the station dance committee and did a 4.0 job on many occasions. He has a pleasing personality and bounding enthusiasm for entertainment and likes to see everyone have a good time.

Born in England 1918, he grew up in Los Angeles, California and has about ten years Naval service.

Chief Betzner, who has done an excellent job as Manager, will go to NNMC Command for duty.

RADM Brown Appointed Ass't. Chief Of BuMed

Rear Admiral Clarence J. Brown, MC, USN, was appointed to the office of Deputy and Assistant Chief of the Bureau of Medicine and Surgery on Monday, January 29, 1951.

Rear Admiral Brown first entered the Naval Reserve Force in 1917. Later the same year he transferred to the Medical Corps, U. S. Navy. At the close of World War I, he was serving at the Naval Aeronautical Station, Pensacola, Florida. He has served at sea, at intervals, on the USS Milwaukee, Battle Force Cruiser; USS Relief, hospital ship; and the USS Holland, a submarine tender. He has also served at various Naval Hospitals on both the East and West Coast. His foreign service assignments include Cuba, Haiti, and Guam. At the termination of hostilities, World War II, he was serving on the Staff of the Commander,

RADM Lamont Pugh, Twenty-First Surg. Gen. Of The Navy

RADM Lamont Pugh, MC, USN was sworn in by Rear Admiral George L. Russell, USN, Judge Advocate General of the Navy, as Surgeon General of the Navy and Chief of the Bureau of Medicine and Surgery on Monday, January 29, to succeed Rear Admiral C. A. Swanson, MC, USN. The ceremony took place in the office of the Secretary of the Navy, Francis P. Matthews.

First Navy Doctor Killed In Ko. Action

Complete figures on Navy Medical Corps casualties released January 18 list the first Navy doctor to be killed in action in Korea.

LT Peter Emilio Arioli, USNR, of Berkeley, Calif., was one of 38 Navy Medical Corps personnel who have been killed in Korea and the first Navy doctor to lose his life there. He was killed by sniper fire while serving with the First Marine Division.

A total of 263 enlisted Navy Medical Corpsmen have been casualties while serving in support of Marines fighting in Korea. Of these, 37 have been killed and 10 are missing in action. Three Medical Corps officers have been wounded. All medical care for the Marine Corps is provided by the Navy.

Staff Dance

A Valentine Dance for staff will be held in the NNMC Gymnasium on Thursday, February 15 from 2000 to 2330. The music will be furnished by the Navy Band and refreshments will be served. (See cut on page 8).

NSLI Dividend Due In March Says VA

(AFPS)—First payments of the second dividends from National Service Life Insurance now are not expected to be made until some time in March, the Veterans Administration has announced.

New dividends will be smaller than the first paid last year totaling \$2,800,000,000 because the first dividend covered an eight year period. The new dividend will cover the years 1948-50.

The V.A. said dividends for policies with January and February anniversary dates will be mailed to policy holders some time in March.

Policy holders with March anniversaries will get their dividends in March or early April. Thereafter, policy holders will receive their dividends about ten days after policy anniversary dates.

The amount of money to be distributed to 8,200,000 policy holders and the rate of payments has not been announced.

Admiral Pugh is the 25th Chief of the Bureau of Medicine and Surgery and the twenty-first to hold the title of Surgeon General of the Navy. The office of the Surgeon General was created in 1871 and the first four incumbents of the Office of the Chief of the Bureau of Medicine and Surgery did not bear this title.

Admiral Pugh is the second Virginian to be appointed to this office. He is also the second Surgeon General to be appointed while serving as Deputy and Assistant Chief of the Bureau. The first Surgeon General from the state of Virginia was the late Rear Admiral Presley M. Rixey whose term of office was from 1902 to 1910. The first Surgeon General to be appointed while serving as Deputy and Assistant Chief of the Bureau was Assistant Surgeon P. J. Gorwitz, whose term of office was from 1865 to 1869.

Born in Batesville, Virginia, February 5, 1895, he received his preliminary education in public schools of Virginia. Served as an enlisted man, U. S. Marine Corps, first World War. Graduated in medicine from the university of Virginia in 1923. Entered the Naval Medical Corps as Lieutenant, Junior Grade, June 1923. Has served at numerous stations and aboard various vessels at home and abroad. Field of chief professional interest was surgery. He served as Chief of Surgical Service at Navy's largest hospital, San Diego, Calif. Certified by the American Board of Surgery in 1940. Mem-

"R" For Reserves On Active Duty Dropped

Navy and Marine Corps reserves on active duty may drop the "R" from the traditional USNR and USMCR designations according to a directive issued by the Secretary of the Navy.

This move, the Secretary said, "makes suitable recognition" of the active duty status of Navy and Marine Corps reserves by requiring a "minimum of differentiation" between regular and reserve personnel.

Exceptions to the new policy would include Navy and Marine Corps personnel on training duty. Also, in matters such as personnel records, pay records and clothing accounts, the designations USNR and USMCR will continue to be used to keep clear the legal status of reserves.

Boxing Feature Of Variety Show Tonite

Most unusual and entertaining variety show will be presented in the NNMC Auditorium tonight.

The show will include outstanding talent, boxing and wrestling matches.

A wrestling team from Maryland University will be on hand for the boxing bouts. Will feature members of the Marine Corps, Quantico, Va., Police Boys of Washington, D.C. and the Catholic Youth Organization. A well rounded show is sponsored and produced by Mr. Jocko, chairman of the D.C. AAU Boxing Committee and Mr. James, WMAL and WMAL-TV broadcaster. Mr. Gibbons will be the program.

Don't miss this great show—Tonight—2000—NNMC Auditorium.

Abraham Lincoln

Today we celebrate the birthday of one of the greatest Americans this country has produced—Abraham Lincoln. It has been a full fourscore and seven years since he uttered the famous words of his Gettysburg Address. In this day, when our forces are again engaged in a war for freedom it is well to read and ponder over, "... the brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note, or long remember, what we say here, but it can never forget what they did here ..."

A Nurse's Prayer

By Helen M. D'Andelet
LCDR (NC) USNR (Ret.)

Our Father, who art in Heaven,
Hear my prayer tonight,
As I pray for my injured boys—
Boys who have already been in the fight
In the combat zones across the seas.
Boys who have always believed in Right—
Give them faith in Thee,
For it's hard for them to understand
Why they had to be the ones
Who had to lose their arms and legs
By fire from the enemy's guns,
Give them the patience that they need
As they lie day after day—waiting—
Wondering what's ahead for them—
Teach them Lord, how to pray,
Give them the will to fight again
In that hardest battle of all—
Groping for a new lease on life—
Sometimes even the best men fall!
And forgive them, please, when they doubt,
Or forget to trust in Thee,
Help them to remember that You died once
That men might be free,
And last of all, lead them not into temptation
Of remorseful thoughts,
But let their happiness increase!
Please hear my prayer tonight, O Lord,
And grant them Thy peace.

New Course Of Study In Isotopes Convened Today At NavMedSchl

A five-day course of instruction in Medical Aspects of Special Weapons and Radioactive Isotopes at the Naval Medical School will convene today, February 12 and continue to February 17, 1951.

The purpose of this course is to present problems likely to be confronted and techniques to be employed by medical and dental officers in the field of radioactivity. The subjects will be presented by speakers of outstanding prominence in their specialties and presentations will be informative and advantageous to all Naval Medical, Dental, Medical Service, and Nurse Corps officers.

This course is conducted primarily for the benefit of inactive Naval Reserve Medical and Dental officers; however, a limited number of officers of the medical department of the Navy on active duty are expected to attend.

Attention is invited to inactive Reserve officers that acceptance of orders to attend this course WILL NOT in any way increase the possibility of involuntary recall to active duty.

Patients Go Places With Red Cross

Do you like to go new places and see new things? Do you like boxing matches, concerts, dances, movies and parties?

If any of this sounds interesting, and you are an ambulatory patient, here's the scoop on how to go on some of these trips. The Red Cross Recreation Department receives many invitations for patients to attend off-post activities. The ward recreation workers will be glad to tell you of all trips, or, come by Room 102 for this information.

Transportation is furnished for the majority of trips by Red Cross Motor Corps and all trips leave from Room 102 which is on the first deck between Wards 3B and 5B. Should the trip be in the afternoon, Red Cross will secure approval from the ward medical officer for patients to attend.

Some recent trips which many patients have enjoyed were the teas given by Mrs. Truman at Blair House, the Golden Gloves Boxing Tournament, professional basketball games, and dances at local hotels.

CAPT Behrens

(Continued from page 1)

He is a Diplomate of American Board of Radiology; Diplomate of American Board of Internal Medicine; Member, American College of Radiology; Member, American Medical Association Member of the Association of Military Surgeons; Member of the Baruch Committee on Physical Rehabilitation; Member, Z-54, Committee (Am. Bureau of Standard on X-ray safety code); BuMed representative, Assn. of Physical and Mental Rehabilitation; Member, RDB Panel on Medical Aspects of Atomic Warfare. His interest throughout his professional career has been centered largely on roentgenology, but has much general experience and considerable clinical pathology and physical medicine.

Capt. Behrens is the editor of the first textbook on the subject of atomic medicine; entitled "Atomic Medicine," it will be revised this spring. He is currently preparing two new textbooks on disasters (atomic and others), and anomalies.

Statement of the Surgeon General, Rear Admiral Lamont Pugh, to the Military and Civilian Personnel of the Medical Department of the Navy

The Nation, and particularly its National Defense Establishment, has been going through a difficult and trying period since the world shaking events of the last war. My four years of association with the Bureau of Medicine and Surgery have made me keenly aware of the almost unsurmountable problems faced by the Navy's Medical Department during this period.

Today the Nation faces what may well be its severest test. It is probably no overstatement to say that we now stand as the last line of defense for freedom as we know it. In the trials to come I count the honor of heading the Medical Department of the Navy a great challenge, and am eager to devote all my energies to the health and welfare of the fighting forces and their dependents. To these obligations I pledge my word.

I know that I can count on the full support of the men and women who constitute the Medical Department of the Navy. With the guidance of Providence I am confident of our success.

The Chaplain's Corner

By Chaplain R. S. Sassaman

Our modern world is given often to measuring success in terms of money accumulated. To do so is not necessarily a fallacious procedure. Money honestly made and prudently saved indicates a certain type of genius. There is no virtue in poverty, and squandering money is one of our great American sins. Nevertheless, history has time and time again proved that a man's real value is not measured by what he can obtain from his products on the open market. Millais, the great English portrait painter, at the height of his career had an income of 30,000 pounds a year. His contemporary, Millet, the great Flemish artist died from a disease brought on by malnutrition, the result of his poverty. Yet this man, who was so close to the world such paintings as "The Angelus" and "The Sower" and "With the Hoe." A singer may croon a melody over the radio and receive a considerable lump to his bank account. Mozart, who wrote harmonies that have haunted the hearts of lovers for two centuries now, was a pauper and was buried in an unmarked grave in a potter's field.

Is it not clear that when we are downright honest with ourselves we know that success is something that a man is, not something that he has. What we make out of life, not the way we make a living, is a significant factor in measuring success. In the final analysis only one thing counts profoundly, and that is character. A regal character is a much truer measure of success than a regal pocketbook. The vital factor is being loyal to the royal in one's self, maintaining at whatever cost one's self-respect and self-integrity. A man's honor, his devotion to duty, his perseverance at his task, his love for the beautiful, the good, the true—these are the assets that make up his real fortune.

Loyalty to the royal in one's self is never easy. We are all human. To keep one's soul unstained and one's head unbowed calls for a constant vigil against the treacherous temptations that lurk in the dark and every man's trail. We all make blunders, but there is no need to continue them. To perpetuate such a trend is to ruin one's chances of success totally. Halt such a trend and start the flow in the other direction. Napoleon used to say of one of his favorite generals, "I like him; he battles, but he wins wars." That must be said for one who is successful in living. A temporary defeat does not mean final failure any more than a momentary victory means ultimate success. It is as foolish to heart over one mistake as it is to lose one's head over a piece of good fortune. No man is a success until he is willing to lose his soul to it, and no man who keeps loyal to the royal in himself is ever defeated. In the end he is the success.

CDR Carl A. Schlack DC, NMRI Appointed CAPT 31 January

On 31 January, CDR Carl A. Schlack of the Naval Medical Research Institute was appointed a Captain, Dental Corps, U.S. Navy. The Oath of Office was administered by Captain C. F. Behrens, MC, U.S. Navy, Commanding Officer, Naval Medical Research Institute at a ceremony in his office. Captain Schlack is a native of Philadelphia, Pennsylvania and received the degree of D.D.S. at the University of Pennsylvania Dental

School in 1929. After a period of private practice he was an instructor for five years and had a Scholarship in Research for three years at the University of Pennsylvania Dental School.

He entered the Navy in April, 1936 and has had a variety of interesting tours of duty which include U.S. Naval Training Center, Newport, Rhode Island; U.S. Naval Dental School, Houston, Texas. (Continued on page 4)

RADM Pugh Surgeon General Of The Navy

Photographs portray the ceremony Monday, January 29 when RADM H. Lamont Pugh was sworn in as Surgeon General of the Navy and Chief of the Bureau of

Medicine and Surgery. The ceremony took place in the office of the Secretary of the Navy, Francis P. Matthews.

Dental Prosthetic Technicians Graduate

Graduation exercises for sixty-two Dental Technicians were held last Wednesday afternoon, 7 February, in the Dental Annex Auditorium. The graduates included all rates, Dentalman through Chief.

The guest speaker, CDR Robert F. Burnett of the Dental Division of BuMed, was Head Dental Prosthetic Technician Training at the time this class started the six-month course in August of last year. Captain Louis D. Mitchell, Jr., Commanding officer of NDS, presented the certificates of graduation, and Meritorious Masts to Burkinshaw, Box and Cathers.

DENTAL TECHNICIAN PROSTHETIC CLASS 2-51.—Officers, front row: Chief

Elsey, CDR Burnett, Captain Mitchell, Mr. Shaw, Chief Bacon. Second row (bottom step): Matson, Pringle, Early, Rogers, Byrd, Cordova, Cathers, McCandlish, Gray Morris, Kesselring, Przymus, Hendrickson, Mitchell, Exton, Winteringham, Nicholson, Taft, Ramer, Dirian, Risley, Avocato. Third row: Littner, Patkoski, Tippet, Shear, Storino, Meyers, Burkinshaw, Cramer, Planenshek, Huck, Coleman, Webster, Deaver, Bradley, Mueller, Bray, Hamrick, Dudley, Levatino, Taylor, Phillip, Back row: Williams, Dube, Coburn, Long, Carden, Peagler, Box, Jose, Gatti, Bobo, McClimate, Lynch, Wilson, England, Carlson, Anderson, Bauer, Brandow, Godawski.

Navy Belles

BY GEORGE

The waves are growing! We have 71 girls, and we hear more are coming. We have double bunks in all the cubicles. Six new girls arrived; they are strikers; four start in hospital and two in Dental. They will be leaving soon for school.

The basketball team had some weekend at Norfolk so they say. On the 31 they were going to Patuxent River, but the weatherman changed their mind.

Just Around Our House

Have you seen the diamond Alma Rose won in a local radio contest? Kay made quite a hit singing at the last dance, so we hear. We have many song birds in our midst, with some of the girls joining the Catholic Choir singing at the services on Sunday Mornings. Every one seems to like the choir.

Marjorie Burton bid us a fond adieu, and sailed west again, this time to Hawaii for duty. Bon Voyage. Hope you like your new station, Marjorie.

Joan Madsen is out of the hospital and back playing basketball.

Hope, "Jo" and "Gerry" have finished school, and are leaving. Hope is going west, Jo north, Gerry is also going part way north to New York. "Josh" Shook also finished school; she is hoping to get leave.

The hospital girls are really pleased with the hours. They always did like the AM and PM shift.

Until next time I remain the girl from the heart of western Maryland.

CAPTAIN SCHLACK

(Continued from page 2)

Bethesda, Maryland, Philadelphia Naval Shipyard, and Senior Dental Officer of the U.S.S. Wisconsin.

Captain Schlack has been Head, Dental Division, Naval Medical Research Institute since September 1945, during which time he has had additional duty as Head, Dental Branch, Research Division, Bureau of Medicine and Surgery. He is also Head, Dental Branch, Bio-Science Division, Office of Naval Research. He has performed valuable investigation work in Oral Biologic Research and has had more than 50 scientific articles published in numerous journals and research reports.

Dental Explorer

By L. P. Burger

As we start the month of February here in the 'Tooth Locker' a fast look around the department finds all hands in a dither. We have just graduated the Student Prosthetic Class, the Dental Intern Class and are receiving a new crew for Prosthetic School.

On the seventh the Prosthetic School graduated the class, and the newly graduated 'Plaster Jockeys' departed to their new duty stations. To each of them we extend our wishes for luck and smooth sailing.

Following the Prosthetic Students, we graduated the Dental Intern class on the ninth. The group will be sent to various Naval Hospitals over the continental limits where they will continue in another six month course of instruction. Upon completion of that they will then be ready to enter the field. Good luck to all of you.

In the romance department we have seen that two of the boys here have exchanged the wedding vows. Bert Cook of the Dental Repair School and Don Brouillette of the staff. Congratulations to both couples, and best wishes for a long and happy married life.

"Pedro" Diaz left on the fifth for 30 days to take a long siesta in sunny California. Have fun, Pedro!

On the sick list are Bert Cook and Jack Cummings. Hope both of you recover and are back with us shortly.

The Staff Enlisted Training program is in full swing here now. The crew attends the classes two hours each week. The courses are all of a review nature of what is taught in the Dental School Technicians School, General. Our instructors, the Staff Dental Officers, deserve a big vote of thanks for the time and effort they have rendered to make the lectures such a success. We, the crew, wish to say 'Thanks.'

Two of the staff boys are preparing to bid farewell to Bethesda. Leaving us are C. T. Baker and 'Long John' Pennington, both going to Norfolk to pick up their ships there. Hope you have a nice cruise, fellows.

Noted for being the men about town lately are 'Taps' Ford and that green Hudson of his, and Bernie Plaske and Andy Farrington. Too bad those boys weren't born rich, instead of with such good

Lab 15 Under Low Power

By Moe and Gizz-Moe

Lab. 15 has just about taken over the third deck since the Chemistry section finished their theory. We are sure that they will all miss that chemistry homework as well as those "special problems" that Chief Thrasher thinks up now and then.

It seems we have a Hollywood celebrity in our midst—none other than Robbie "Jungle Boy" Robertson who played "Cheeta" in the last Tarzan movie.

Just about every morning we see Breffitt rushing down the passageway to Bacteriology to recapture the Hamsters from the Pathology animal room. He has been threatening seriously to chain each and every one of them up at night to prevent their escape.

The kids at barracks 140 have become ardent "monopoly" bugs during recent weeks. Hardly a night goes by that you won't find Danforth, Creely, "Rags", or "Bone-head" engaged in a brilliant battle of "wits" on the monopoly board.

Ed "I am against everything" Garland came in the other nite and had quite a bit of difficulty getting to his rack because of those bunks and lockers that kept stepping into the passageway and blocking his path. For those who know him well—No, the party was not at his expense.

Special tip to Lab. 16: We, your senior class, offer the following information for those of you entering Chief Spanglers Pathology class. (1) Never be late for muster. (2) Never disagree with him, even when he says he needs a haircut.

Our two dearly loved M.A.A.'s, Holliday and Horrigan are hot on the trail of those desperate criminals who broke the handles off all the brooms on last field day. Certainly nobody in Lab. 15 could have had anything to do with it.

The Blood Bank course claimed four more victims—Robbins, Stanton, Scheno, and Cooper will be getting the low-down on this technique for the next six weeks.

That takes care of things for this time. We'll see you next time if the F.M.F. doesn't get us first.

looks.

Time for the deadline has come and gone, so 'tis time for me to depart for another week or so. Be seein' you all . . .

Two Research MOs Promoted To Lieut.

At a ceremony in the office of Captain W. E. Kellum, MC, USN, Acting Commanding Officer, NMRI, promotions to the rank of Lieutenant, Medical Corps were delivered to Richard S. Farr and William F. Park on January 24, 1951.

For Dr. Park it was a race between promotion and transfer with the promotion winning by a neck. He was detached the next morning for transfer to the U. S. Marine Corps Air Station, Cherry Point, N. C., for duty. Dr. Park is a native of Maryland, a graduate of the University of Maryland Medical School and has been at NMRI since February 1950, where he has participated in scientific investigation in the Psychology Division.

Dr. Farr is from Detroit, Michigan, received his M.D. at the University of Chicago Medical School and has been working in the Hematology Division of NMRI since October 1950.

RADM BROWN

(Continued from page 1)

Twelfth Fleet. When appointed to the office of Deputy and Assistant Chief of the Bureau of Medicine and Surgery, Admiral Brown was serving as Chief of the Program Coordination Division, Office of Medical Services, Department of Defense. He previously served in the Bureau of Medicine and Surgery as Assistant Chief of the Bureau for Research and Medical Military Specialties and also Inspector General, medical activities.

Rear Admiral Brown was born in Plum City, Wisconsin, January 15, 1895, the son of Henry F. Brown and Mrs. Anna C. (Plate) Brown. He received the degree of Bachelor of Science from the University of Wisconsin in 1915, and the degree of Doctor of Medicine from Washington University School of Medicine, St. Louis, Missouri, in 1917. He is a Fellow of the American College of Surgeons; a Diplomate of the American Board of Otolaryngology; a member of the American Academy of Ophthalmology and Otolaryngology; the American Medical Association; the Nu Sigma Nu and Alpha Omega Alpha Medical Fraternities.

Rear Admiral Brown and his wife, the former Augusta Duwe of Middleton, Wisconsin, are currently residing at the Westchester Apartments, Washington, D. C. His official address is Plum City, Wisconsin.

Crew's Library:

"How To..." Books Show You How To Do Almost Anything

If you are after specific information along most any line, remember that Crew's Library may have a book with the very information you need for a starter; perhaps a new hobby, a new home, necessary repairs on the car or house whatever you want to do about, get in the habit of consulting the library. If you use card catalogue, you may smoothen at the numerous cards start "How to —".

For instance we have one which would be good for a beginner. It's called "How to Live" and you have ever wondered! Two different books have been written "How to Build Your Own Home" one by Laidman and one by Omy; the next step would be "to Beautify and Improve Home Grounds", by Aul; "How to Restore Furniture", haps, or, "How to Help your Grow Up", by Patri, or, "How Raise a Dog in the City Suburbs". After you have done all this, may have some free time and turn to "How to Make Money", or "How to make jewelry" or some other book describing a hobby. Or, if you're a fan of affairs, you will want to read "How to Speak" by Dixon or "How to Talk Well"; or if you will want to write a book yourself and will want "How to Write a Novel" by Komroff. If you are politically minded, come read, "How to Win an Argument with a Communist" and, if you lose the argument, the thing to do is to read "How to Survive Atomic Bomb".

Admiralettes Take Four Wins; Still Hed For Top Team

MC Admiralettes chalked up straight wins since 11 January which leaves them still tied for first place with only one league game on the books.

Andrews Field Wafers fell first 11 January to a decisive 46-32 with Shook HA sinking 22, Whitman 15, and Madsen 9.

North Post Wafers were edged out 15 January when Miss Whiteman ran up 21 points, most which were breath-taking long while Shook fought her way for the basket to throw in 18. Madsen in the hospital, Hop-HM3 was in as forward where displayed some fast ball hand-taking the rebounds and feeding the two shooting forwards.

Traveling to NAS, Norfolk on 15 January to return a practice NMMC returned with a 31-victory. With Hopper feeding, Whiteman was "on" again for her long shots running up 21 while Shook tallied 10.

North Post Wafers went down on 17 January 44-34. Miss Whiteman high again with 20, Shook 18, Hopper 6. Although the Admiralettes lost to the Walter Reed 17 January, the game was called under protest and will probably be rescheduled instead of counting as a loss.

Coached by Jack Brandon DN, guards use a shifting zone defense which has proved increasingly effective. Guards Glenden-HM3, Olsen HM3 and Salis-HM3 have been in every handling the bulk of the offense. Supporting them have Johnson HN, Nelson HN, Hams HM1, Ens. Jarvie, and HN. Wadenstorer HN went several times as forward while DT3, Burton HM3 and HA were on hand as reserves.

Teacher's College Night Hoop Ways

Hot and cold basketballers the center 'cut in' all boilers the embryo professors from town by 21 points. On the tip, Prof. Echols tapped to Brothers for the initial and from there on in, the gymnasium was a classroom to the study of higher mathematics. Zonemen: Brothers, Echols, Funk and Kurzawski left the court at half time giving a 13 point advantage. During the second half, with fast baskets by Day, a left tap-in by Williams and a court set by Beversdorf, the Admiralettes were never headed. On the Teachers, playing last game for the collegians

Pin Action

By The Ten Pin

First division teams in the Center Bowling League have been getting their lumps during the past two weeks. What appeared to be a run-away has turned into a dog fight between five or six teams, with a winning streak in the late stages of the schedule by any team apt to give them the trophy.

Quarters 12 was racked up 3-1 by both CPO and NSHA-2, but managed to hang onto a 12 percentage point lead by downing NMS Officers 3-1. Other bowlers have been cited for throwing fast balls, however, after seeing Roberts hit the pins on the first bounce we retract all former statements.

CPO was rapidly overtaking the leaders by identical 3-1 wins over Qtrs 12 and NMS, until they ran into Lab Class 16. A 4-0 loss plummeted them back into fourth place. NMS Lab-2 has also run into trouble under the underdogs. Both NMS Lab-3 and NH rocked them to the tune of 3-1.

Dental students making up ND S-1, 2 and 3 graduated on February 7 and were transferred. Indicative of the interest in bowling on the compound was the fact that three new teams were standing by waiting to take their places. NDS-1 was replaced by NMS Lab-3 (Dietz, Hawes, Stock, Sherman, Rousch and Feronti) a crew of glassware smasher from the Biochemistry Department. They lost no time in getting into the lime-light by upsetting Lab-2 by 3-1.

Lab Class 16 picked their eight high bowlers to replace NDS-2, and immediately made their presence felt by belting CPO 4-0. Schoepfer, Van Shoonhoven, Keith, Reynolds Stephens, Spencer, Cannady, Robb make up this new team.

NDS-3 high place in the standings was taken over by Paul Wells Dental Officers including such luminaries as Ted "Cash" Lesney, Ulrich, Gardner, Noble, Gray, Vincent, Staples, Link and King. On their first outing they ran into Dad Sperry's fired up Rec foresome and lost 4-0 to drop into fifth place.

Team managers are urged to use only the schedule revised for the second half. Copies are available in Room 322 Bldg. 1. To avoid forfeits and postponements, call your opponents several days in advance.

"Up For Two" - "In Or Out?"

In the photo at the left "Prof." Echols climbs space to drop in a two pointer. At the right, Beversdorf (11), Williams (14), Funk, background, and an unidentified Receiving Station player throw eyes upward on toss by opponent forward. RecSta downed the Admirals 59 to 51.

Anacostia Airmen Trip Admirals By 5

The boys from off the Rockville turnpike journeyed over to the left bank of the Anacostia river to lose a hard fought game to the sharpshooting airmen. On the opening toss, Eggleston of NAS took a high tip from Price the hardworking center of the host team to put a big 2 on the scoreboard, Echols of the hospital quintet followed a long set of Kurawski to even it up. Eggleston arched a corner set. Ruiz hit with a mid-court push, Funk hit off the

key and the airmen came right back with a layin by Price and another mid-court swisher from Ruiz. On a side-court out of bounds play, Price sneaked through for a 'crip' shot and intercepted a wild Bethesda pass for another one. Brothers finally found the range for a drive across the charity line, Echols tossed in a free one, George Funk cashed in a tap and the quarter ended with the 'buzz-boys' holding an 8 point advantage. Half-time found the local team on the short end of a 26-17 score. During the third quarter, Brothers potted two buckets in quick succession but Price neutralized this action with two of his own from his favorite corner. Funk drove through the slot for a layin followed by Ski with a one hand push from side-court. Wharton of the NAS dropped in a short-set following a pass interception and stole the ball once more for a layin. Late in the fourth quarter found Brothers leaving the game on five personals with a total of 12 points his all time low. Ramer entered the game and dribbled the length of the floor after a pass interception and followed it with a one hand pivot off the key as the airmen went into a freeze with beautiful ball handling.

Admirals Lose To Receiving Sta. 59-51

In an individual scoring duel Ithaca Brothers won out over O'Brien and the Centermen came home on the short end of the score, as Brothers racked the markers for 32 and his opponent totaled 21. The first quarter showed the hospitalmen to be in the lead by a score of 16-8 as Brothers, Williams, Echols and Funk found the range on the opponent's court. As the second quarter wore on, the officials took the ball game away from the players, with each passing moment, both coaches sent for shoulder-pads as the half found the Center leading by six points.

With the start of the third quarter, Kurawski went to the showers with five personals, hurting whatever chance the Admirals had for back court ball-handling. Wild passing in the closing minutes of the fourth quarter contributed to FIVE 'snowbirds' by the Receiving Station who were alert to take advantage of the Center miscues. During the last quarter, there were nine different occasions in which the Bethesda team failed to get the ball past the center-line for a shot. Echols of the losers was outstanding for his fine floorwork and terrific drive he showed, as two 'front' runners collapsed in the closing minutes. Dilich and Roland of the winners displayed excellent rebounding technique as they limited the visitors to just one shot from the field.

Coach's Corner

The local Varsity is beginning to find out what the term, 'good condition' means insofar as it applies to basketball. Having lost their last three league encounters the Centermen are out of the running for the PRNC title and can do no more than finish in a tie for second or third position. A year or so ago my friend Bob Addie, Sports Editor for the Times Herald visited the local campus on the afternoon his wife Pauline Betz Addie was playing an exhibition match for our tennis fans. The following morning, he devoted his full column to the description of the athletic facilities that Rear Admiral Morton D. Willcutts had developed. A paragraph in the column comes to mind as I view the won and lost figures, anent the local team: "Right now, not even sports has found to be a substitute for romance. You know how blue-jackets are—five minutes of liberty and boom—they want a date." One stops to realize, that of last year's squad, three men are already in convalescent hospitals as a result of duty with the First Marine Division in Korea and who knows, when members of the present quintet will receive orders for FMF. The only word given to the team on the subject of condition at the start of the season, when we knew that a winner was in the making: "A beer or two, six cigarettes a day and in bed by 2200." Nuf sed, but you're still CHAMPS in my book, fellows!

On the alleys, it looks like 'Legs' Gullison is finding the pins to his liking in much the same manner as number six on the golf course, always a par when this lanky mashie-wielder hits the tee by the tennis courts. Don Polizzi despite his left fore-arm in a cast is still able to propel the mineralite toward the maple sticks with the same ease he displayed on tossing the leather in the hoop as a member of last year's squad. I would gladly lay a century note on the line to have had the services of this 'never say die' athlete on this year's team. Dental with their three teams graduating in a few days have turned in their suits but rumor has it that one team will have its score taken over by an officers' team composed of members of the NDS staff, headed by Al Grunewald, 'Gloves' Lesney, Pablo Wells and a host of others. By the time this issue hits the news stands, one of the golfing standbys, who willingly put in an appearance night after night during the summer months when we started watering the greens at midnight to three in the morning, will be on his way to the USS Dixie. Bob Superko will carry with him the best wishes of all those who enjoyed taking his dimes on the nine hole course. Hermie Gross who canned a couple of thirty footers against Irv Norman in last year's finals is keeping his feather-touch in tune by tinkering with the latest addition to the Gross garage. Phil McNamara who with Mrs. McNamara won the first Mixed - Scotch two ball tournament, won't be back this spring to try a repeat performance; with his orders to the continent, looming up. Perhaps 'Dapper' Phil will be able to pick up a sou or two playing on the Riviera this summer.

NMRI	1	6	.143

Commissary's Basketeers copped the 1950-51 Intramural championship when they fashioned an easy 49 to 17 victory over the Dukes from Dental. This victory left the Brown Shirts undefeated and paved the way for their entry as Naval Medical Center's representative in the PRNC "Station Intramural Basketball Champions Playoff." These playoffs will be held during the week of March 5 at the U.S. Naval Receiving Station gymnasium.

Pat White and Bud Chatham's sets from the sides coupled with Dias and Tharp's control of the boards were too much for the out-matched Dukes. Dental fought gamely and a little more luck on some of their shots would have meant a narrower margin.

Hail the C H A M P S !

In the other games, Dental handed Research their sixth setback by a 32 to 25 margin. Carden and Ketcham led the victors while Waddel excelled for the Researchers.

Phys-Med. assured themselves of a tie for the third slot when they dumped the Print Shop in a free scoring game, 49 to 38. Wheeler and Armstrong with 20 and 18 points respectively starred for the Black Shirts while Keith massed 15 with his taps to lead the losers.

EENT'S sixth victory came at the expense of Lab 15 by a score of 27 to 20. The Labmen held the victors on even terms for three periods but Choryan, Goda and Co. went to work and opened a wide gap which they held easily to the finish.

Cardiology tied Phys. Med. for third position when they downed the Researchers by a 35 to 16 score. Fox shone for the winners by dropping in 16 points.

In the playoff for third position, Cardiology edged Phys. Med. by one point, 31 to 30 to earn the No. 3 trophy. The game was hard fought and the tenseness of the players on both teams is reflected in the 28 fouls that were called. Trailing by 2 points at the end of the third period, Cardiology, with Fox dropping in three successive two-pointers took the edge that they barely maintained until the final whistle. Hill playing his finest game of the season, led the losers.

Team trophies for the first, second and third teams as well as Oscars for the players on the first and second teams will be presented shortly.

Station Band, Gobs And Gals

In the photo at left, Bob Kuremsky and the boys pour sweet music at the Staff Dance held Friday 26 January at the National Press Club. Songstress Kay Nelson waits in the background. At right couples trip the light fantastic while others enjoy some cool refreshments.

Admiralettes Trip Ft. Meyer; Continue Winning Streak

Continuing their winning streak, the Admiralettes took the Fort Meyer Wafs last Tuesday night 32-24, in the Quarters "K" gym in Arlington.

Scorekeeper "Hamey" Hamilton HM2 recorded 13 points for Madson JOSN, 11 for Shook HA, 6 for ENS Whiteman, and 2 for Hopper HM3. Although the forwards managed to score often enough to keep the lead throughout the game, they lacked the coordinated teamwork which they usually display.

Guards Glendenning HM3, Salisbury HM3, and Olsen HM3 started in their usual positions. Salisbury and Olsen were relieved later by Williams HM1 and Pringle DT3. Colliding with one of the Waf forwards, Williams receive a bad blow in the forehead and had to be removed from the game. Tubb SA, a newcomer to the team, and Nelson HN were on hand as reserves.

Guard coach Jack Brandon DN coached the guards for the last time in Tuesday's game. He left Wednesday on orders to Receiving Station, Seattle, Washington. "Shorty" Edwards HM3 who has been coaching the forwards will take over the entire coaching job now.

After the game the team met in LT Butterfield's apartment to say goodbye to Brandon and to Pringle who is expecting orders shortly.

RADM PUGH

ber of numerous medical organizations and societies. Has contributed numerous professional articles on a wide variety of topics to medical literature. Appointed as Assistant Chief of the Bureau of Medicine and Surgery and Deputy Surgeon General, December 1946. Nominated by the President for Surgeon General of the Navy December 22, 1950.

Medical department officers of the Washington area, PRNC and the Severn River Command will honor Adm. and Mrs. Pugh and Adm. and Mrs. Brown at a reception to be held in the Commissioned Officers mess (open-NNMC Monday evening, 19 February, from 1800 to 2100.

Med School Scuttlebutt

By O. C. "Skip" Skinner

The personnel office looked more like a recruiting station January 18, 1951, when six men from the command shipped over and were sworn in by the Commanding Officer, Capt. B. W. Hogan. The six men were as follows: Charles Mayernick, HM2; Donald Dunn, HM3; Thomas Stephenson, HMC; William McKinney, Jr., HM2; Earl McLaughlin, HM1; and Clarence Vanderveer, HM3.

Del "cough drop" Thrasher, HMC, was the proudest father in the world Sunday, January 28, when his daughter Jean was the main attraction on the "kiddies" show, on radio station WGAY, Silver Spring. Jeanie was born in Cairo, Egypt and told how she used to ride on the camels and the various sights of interest she had seen. She also showed her collection of dolls, which are from various parts of Europe. Chief Thrasher is presently an instructor in Blood Chemistry.

Congratulations are in store for Drs. Arentzen, Boonstra, and Hamilton who have been promoted to the permanent rank of Lieutenant.

NMS now has four entries in the bowling league since the joining of Lab 3. Lab 3 is the new team just formed and from the looks of things are pretty good at mowing the pins down. Team manager Bruce Dietz and his crew went all out the other night to upset the 1st place Lab2 team. Lab 1 is on the up and coming trail but just can't seem to get rolling the right way. With the addition of "Fire Ball" Ferguson, however, they should start on a fast climb to the top. The officers' team seems to be improving a bit with Drs. Humes and Boonstra hitting close to the two century mark. Let's hope that one of our teams can bring home the bacon before the season ends.

Everyone is wondering why "Dead eye" Laimo makes those long runs to Brooklyn every weekend. Rumors have it that the little Casanova may take a trip to the altar before the end of the year.

Seems poor Feronti has had reason to weep lately, if you've seen the Studebaker in back of Bks. 112 that looks more like a collapsed accordion, you'll know what I mean.

Echols and Kurawski seem to be dragging in more and more every day. Of course the reason is that after putting eight hard hours a day in the Lab, they journey over and sink a few buckets for the Admirals. They are really doing a grand job, and at present are the only regulars from the Med School command. It might also be mentioned that this is the second year of varsity ball these hoopsters have played for the Admirals. Keep up the good work boys.

Compound Interest

By J. C. Woods

A Joke

Once upon a time there were two Irishmen, now there are millions of 'em.

A "Thing" or Two

Phil Harris sang a song about it, Life magazine did a feature on it, and W. J. Garrity had it out last weekend.

Hair Raising Story

A certain wave feels that a certain corpsman over at main quarters needs a permanent wave. The only drawback is which one has the monee, er, Toni.

Buoys Will Be Buoys

Victor Obos has a little pun he's been spreading around lately. It goes like this: at one time he worked in the post office and he handled the files from H to O. Now he is a life guard over at the swimming pool and he's still handling H2O. He was a mail boy, now he is a water buoy. Well, that's the story.

Ad lib: That's life—buoy.

An Original

Little-Mary from Boston had a lamb, now she is trying to get rid of the gout.

A Rare Bit

G. G. Metcalf, a member of the sanitation crew has quite a problem on his head. It seems his shipmates are calling him Mount Baldy due to the lack of crop on his top. A friend suggested he read hair raising stories, so far it's been a pretty slow process. That's okay G. G., just remember that old saying, "The dome wasn't built in a day". How funny can you get?

NEWS SHORTS

(Continued from page 1)

tion, though, probably stems from an old notion that it was on this day that birds began to mate.

* * *

Our bowling alleys have been inspected by the American Bowling Congress and a certificate has been issued, certifying that our alleys meet all the requirements as specified by the Washington City Ten Pin Bowling Association of the American Bowling Congress.

* * *

Men whose enlistments run out between July 1 1951 and June 30, 1952, might just as well settle down to an extra year of active service. A bill just submitted to the Hill by the Defense Department states this. Those who had their enlistments extended during the current fiscal year are not included and can get out at the end of their enlistment. Reservists who have been called up for 21 months have had their terms of service extended to 27 months.

Admirals Trounce Dahlgren Here 92-

In a regular PRNC league the Center hoopsters found collective 'eyes' to pummel Proving Ground quintet Dahlgren as the former tried to a local gymnasium record by tying the century mark. Early the season the Admirals put the score to 99 against a commercial league team from downtown Washington. Cashing in shots on a 41.35 per cent shot average, found five member the Center team hitting de figures with Funk leading the with 21 for his season's high.

Sunday night found the playing host to the Howard University Alumni five, a sweet bunch of ball-handlers and boasting 6 ft. 11 in. center in the person of "Shprty" Baylor. For the first minutes of the game, Brothers Kurawski displayed some handling ability of their own as they racked in 8 points before visitors could call time-out. First quarter found the hospo men leading 14-13. George took time off from excellent guing of Baylor to rebound it points while holding Baylor Booth moved into the picture this point and sank five successive sets from mid-court to put Howard five back into the game. Halftime showed the lead in the lead by 8 points. Kurawski pushed the lead to 12 with side-set and a looping one from off the key. Booth and lor went to work and scored twelve points before Bro could find the hoop. The ended with Day canning a set from side-court as the bu sounded.

Half-time score:

Naval Medical Center

Buffaloes

Personalities About The Center

Washington has always been a home for Mrs. Teresa E. Nichols of the Navy Exchange department. She was born here in 1917 and was educated at the Eastern High School. Preferring not to recall her scholastic years she says, "I was like most other High School students—eager to have it all over with."

After graduating in 1939, she went to work for the Times-Herald as a bookkeeper. But in 1940 she met another bookkeeper, the altar, and the former Miss Teresa E. Rooney became Mrs. G. Nichols. Mrs. Nichols left her job in 1940 but later, in 1943, came to work here for the Navy Exchange which was then the Ship's Store.

When she reported here, she became a bookkeeper again, but has since advanced to higher positions. Presently Mrs. Nichols is Civilian Manager and Assistant to the Navy Exchange Officer. Her favorite topic is her Dalma-Reveille Girl in which she takes great pride. Reveille Girl is five years old now and has produced two litters of fine pups—eighteen in all. The Dalma-Reveille is expecting a third event in March. Mrs. Nichols says she sells her pups from \$35 to \$50, but this is not so great an amount when one considers the time involved in caring for the pups and also paying for the Dalma-Reveille Girl who eats about two pounds of meat a day.

"Be sure to spell my name right, Daily is not Irish."

O. K. Robert Daly, HN, is a resident of Rochester, Minnesota, where he attended Rochester High and two years of Rochester Junior College, a branch of Minnesota University. He took a preliminary course in embalming while at the college and hopes to finish his school work when he can get out of the Navy.

Daly played the drums in his H. S. band for three years and was offered a job in a small orchestra, but he had just signed in the US Navy.

September 1948 he reported to the Lakes for recruit training and subsequently an indoctrination course at the Hospital Corps School. March 1949, he was transferred to the hospital here. Before transfer to the School of Physical Medicine, he served a year on ward 107 and three months on 3D. School days found him cramming more and more Anatomy and his other principal subject, massaging. Other subjects included physics, psychology and physical education. In physical education class they were taught beneficial exercises and (grunt—"Oh my aching muscles") how to do them; they participated in games and in swimming.

He and one other from the class were retained for duty in the Hospital's Physio Therapy Department. At present, Daly works in the Hubbard Tank Room. When asked if he has seen any beneficial results from this treatment he recalled to mind a man who was completely paralyzed except for a thumb, but who is now walking about. The tub is used especially for paraplegics, polio victims, and arthritis patients.

"Clancy (another corpsman who works in physio) is my pet peeve," said Daly, "and everyone in Physio EENT, and the Linen Room knows why."

"I've some hot dope for you, if you are interested". This is the way Chief Cecil E. Patterson, USN introduced the Navy's new off-campus college courses to personnel attending classes in the hospital corps classroom recently.

The Chief hails from the "Show Me" state—Missouri where he was born November 13, 1916. He graduated from high school at Summerville, Mo. After he graduated he spent a year teaching in a rural school and working in the Kansas oil fields and wheat harvest.

He enlisted in the Naval service from St. Louis, in 1938 and embarked on a widely traveled and colorful career. He received his recruit and hospital corps training in sunny San Diego, California. Upon graduation he reported to the Naval Hospital, Bremerton, Washington for duty.

Chief Patterson then went to sea. He reported on board the hospital ship U.S.S. RELIEF. The ship spent a year in Pearl Harbor, T.H. and then came to the East Coast.

After this tour of sea duty he reported to the 9th Naval District at Great Lakes, Illinois. From there he went to the aircraft and ship recognition school at Ohio State University, Columbus, Ohio. Later he reported to Treasure Island and then followed a commissioning detail for the U.S.S. OCK-LAWAHA. The Ocklawaha went to Pearl Harbor where he was transferred to the U.S.S. KANKAKEE (AO 39) and remained aboard this ship through the Pacific campaigns.

Then he was assigned duty with the 2nd Marine Division in Japan, followed by duty with the 1st Marine Division in China, from which he reported to Camp Lejeune, N.C. with the 2nd Marines.

After completion of this duty he reported to the Naval Hospital, Portsmouth, Va. and then to the Yard Dispensary there.

In the year 1948 he reported to the Naval School of Hospital Administration here. From NSHA he went to the Naval Powder Factory at Indianhead, Md. and reported back to the Naval Medical Center. He is presently working in the hospital Corps Classroom.

The Chief's hobby is photography. He is married and his wife and child are now in Portsmouth, Va.

Marine—I saw some guy trying to kiss your girl in the park last night.

Sailor—Did he succeed?

Marine—No.

Sailor—Then it wasn't my girl you saw.

1st MP—Did you get that guy's license number.

2nd MP—No. He was going too fast.

1st MP—That blue eyed blonde he had in the front seat with him sure was a pretty dish.

2nd MP—You can say that again.

NSHA Adds Vari-Type Operation HMC M. J. Brown In Charge

We are proud, and justly so, of the course of instruction administered at the Naval School of Hospital Administration, but we don't stop there. Each department is constantly striving to improve the instruction materials and teaching methods. In keeping with this policy, M. J. Brown, HMC, has just completed a week's course of instruction in Vari-Type operation conducted at Coxhead Corporation in Washington, D. C.

The Vari-typewriter is an office machine on which master copies are composed for reproduction purposes. The principal features of the Vari-typewriter are its interchangeable type faces and spacings. The Vari-typewriter has often been referred to as a "type-setting" medium comparable with the Linotype or Monotype, but with economical operating cost comparable to that of a typewriter.

With its more than 300 styles of

interchangeable type, including mathematical type and special symbols, the Vari-typewriter should be of immeasurable benefit in the preparation of curricula. Classes in the orientation of the Vari-typewriter are now being held at NSHA. All students are being given an indoctrination relative to the capabilities, limitations, and potentialities of application of the machine to naval medical activities. Chief Brown is now in charge of this phase of MAT training.

Brown was transferred from a student status to that of instructor in October 1950. His achievements in the Navy include Honor Man of his Recruit Training Company and graduating number one in his class at Hospital Corps School. He was appointed Pharmacist for temporary service in 1945 and reverted to Chief in 1946. At present, he is attending the Naval Instructor's School, Norfolk, Va.

Gypsy Of The Sea

*A creature bound to shores, perhaps never to sail a sea,
Or break conventional chains shackling wanderlust in me;
Or free the gypsy spirit awakened by the ebbing tide
Beckoning and calling from the sea I stand beside.*

*I would that I could sail on seas, watch the shorelines drown
In the lazy white capped waves gliding up and down,
From an ancient sailing schooner, billowing sails full-blown
Exploring ocean depths, uncharted courses, all alone.*

*I would that I could know the albatross' winged flights
Watch dripping moons rise in salty sea-filled nights,
Hear torrent storms shatter on wood-planked deck and mast,
Feel the burning, bleaching sun when storms are spent and past.*

*I would that I could know what dwells in fathomed seas,
Beneath foamy-blue surfaces of ageless mysteries,
Or that which dwells in foreign ports and islands faraway
Across vast and rolling seas that rhythmically sway.*

*Oh, I hear the pounding, beating of the ever-lashing surf,
While the gypsy impulse urges, I am rooted to the earth—
Mute and still yet hearing the pleas enticing me,
Calling, whispering, pleading from the deepness of the sea.*

Gloria E. Gosnell, NMRI.

In Berlin, two inseparable Texans in the occupation troops were discussing their home state when another soldier joined them. Pausing in his eulogies, one Lone Star booster asked the newcomer, "What state you from, Mac?"

Immediately the other Texan rebuked him. "Don't ever ask that," the partner drawled. "If a man's from Texas, he'll tell you. If he's not, there's no need embarrassing him."

The morning after—"Last night I had the jug and thou—today I have a hangover, and how."

She: "Isn't it odd that the length of a man's arm is equal to the circumference of a girl's waist?"

Recruit: "Let's get a string and see."

Constable: Hey, Miss, no swimmin' in the lake.

Fair Young Bather: Why didn't you tell me before I undressed?

Constable: There ain't no law agin undressin'.

During the war a sign on the Aiea Heights Hospital Storeroom: The extremely difficult we do immediately; the impossible takes a little longer.

Dental Officers Complete Intern Instruction

On February 9, thirteen Dental Officers completed the first half of one-year internship course, at the Naval Dental School. They are being assigned, for their last six months, among seven Naval hospitals approved for dental internship training by the American Dental Association.

A larger class of 24 interns will register at NDS next Friday. This group of officers has completed six months of hospital internship in advance of its assignment for instruction here at Bethesda. Pictured, front row, left to right: L. A. Holmes, T. B. McVeigh, Rantz, C. H. Prince, Jr., R. W. Huffman, C. H. Tiberii, S. C. Bartlett, T. J. Charles, R. J. Mazzara, C. H. Sarraf, A. W. Melsen, Mantone, W. E. Martin.

Jewish

The services of Rabbi Harry Kaufman, representing the Jewish Welfare Board, are available to all Jewish Personnel and Patients at the National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, Ext. 324, or by call direct—Office; RA. 5371—Home; GE 0755.

New York (AFPS)—Treasury Secretary John W. Snyder has revealed a Treasury Department plan to permit holders of Series E Savings Bonds to retain their bonds ten years beyond the maturity date at the same 2.9 per cent interest rate. The bonds begin maturing May 1.

This will not affect the right of bond holders to cash their bonds at maturity.

Mr. Snyder said another plan is being worked out under which holders of Series E bonds may at maturity exchange their bonds for current income savings bonds of Series G, bearing interest every six months for 12 years.

Bond holders, choosing the ten-year extension plan, may not collect the interest due on their present bonds at maturity, and the interest for the extension period will be paid both on the original cost and interest accrued up to the date of the present maturity, it was explained.

TV Short Circuit Starts Chain Reaction

South Bend, Ind. (AFPS)—Add to the woes of television enthusiasts the sad tale of Ernest Kolesiak. His TV antenna fell off the roof and across a 27,000-volt power line with the following results:

The plumbing began throwing off sparks and pipes melted around the kitchen sink.

Mrs. Kolesiak, peeling potatoes, found her spectacles speckled with molten metal.

Balls of fire bounced up and down on the roof with thunderous explosions.

The high voltage burned out the TV set and blew off one of the knobs.

The telephone burned out.

A glove lying in the yard burst into flames.

The house was scorched in three places where wires passed through the walls.

Kolesiak, who was trying to tighten the antenna guy wires, was only slightly burned.

The family dog ran off. He was found, but refuses to go home.

Sign on a 5D Office: Why be difficult when with just a little effort you can be impossible.

It's the little things that annoy us. We can sit on a mountain, but not on a tack.

Lake Magadi in Southern Kenya, British East Africa, is a 30 square-mile saucer of solidified sodium bicarbonate.

The boat-billed night heron of Venezuela owes its name to a beak like an inverted boat.

OH HAPPY DAY! Displaying her talents in a forthcoming film, "Storm Warning," is vocalist Doris Day. In the production, Doris will play her first straight dramatic role. By the way, above she's displaying charm and beauty in addition to talent.

"Airbrasive" The Dentist's New Method Of Cutting Teeth

The Naval Dental School is instructing dental officers in the use of Airbrasive — a technique that cuts through hard tooth structure, prepares the cavities by a high-velocity stream of gas carrying powdered aluminum oxide as an abrasive.

Commander K. M. Broesamle has been instructing postgraduate Dental Officers in the technique at Bethesda since last July, following three years of close association with the originator of the process, Dr. Robert B. Black. Dr. Broesamle was principal investigator in a BuMed research study of Airbrasive at the Naval Hospital, Corpus Christi, Texas, with Dr. Black as consultant.

Seventeen postgraduate Dental Officers have completed the Airbrasive course at the NDS to date, and thirty more officers are now under instruction. The original seventeen were the first practicing dentists anywhere to be taught the technique; heretofore all classes throughout the country have consisted entirely of dental college instructors.

Each of the dental schools of the nation has had a hand-machined experimental Airbrasive model unit for teaching and research. The developmental model used here at the Center will be replaced shortly by four new stock models, to be used for both classroom work and operative procedures on patients.

Airbrasive is often confused with sandblasting. However, airbrasive does not use sand, and has a fine, piercing jet rather than a diffuse spray. The fine jet of abrasive-charged carbon dioxide is directed under a pressure of 75 pounds, and at supersonic speed—over 1000 feet per second.

In general, the less resilient the material the airstream encounters, the greater is the cutting effect. The jet can safely be passed slowly across the palm of the hand at a rate that cuts through tooth enamel. This means that in the mouth there is no laceration of gum tissue as when a revolving dental bur strikes it.

The explanation of this is similar to the one the rubber company uses in the full page magazine advertisement—the one where the restless racehorse in his stall soon wears out the wooden floorboards, but does no harm to the rubber matting that is substituted underfoot.

From the patient's standpoint, Airbrasive differs in several respects from the traditional heat-generating dental burs used to. It is free of perceptible pressure, vibration, heat and conducted noise, and it cuts enamel four or five times faster than a conventional dental bur.

The dentist operating the Airbrasive nozzle must work entirely by what he sees, since there is no sensation of touch or pressure against the tooth, to be transferred through the handpiece.

It will be some time before Airbrasive will be in general use in the dental profession. Equipment is expensive, and the dentist must return to a dental school for instruction in the technique. A precision jet can not do everything now being done by the revolving dental stones and burs, but research is expanding the range of usefulness. In the meantime, Dr. Broesamle and his colleagues are continuing to operate and to conduct research, learning more about "operation airbrasive."

Charlie At NNM

"Have all your patients left, Doc?"
"Well, Charlie, two died."
"How many patients have you had, Doctor?"
"Well... er, er, er—exactly two."

General M. H. Silverthorn, Assistant to the Commandant of the Marine Corps, presents the Korean Theater ribbon to Pfc. Elmer P. Milam. A total of 44 other Marines received the ribbon at this presentation.

News Shorts From The Editor's Desk

Those who have applied for courses from George Washington University under the off campus plan may register on March 5 at 1630. As yet the courses to be given have not been definitely established, but they are expected to be Mathematics, English, Spanish, French, German and Psychology.

(AFPS) The Naval Training Center at Bainbridge, Md. has been re-commissioned for Navy recruit training.

The Bainbridge center, which trained recruits during World War II, will provide facilities for an eventual capacity of 20,000 recruits.

al Increase In ified Specialties

More than 16% of the Regular Medical officers currently on hold certification by American Boards, and in addition 44 have completed a portion of their Board examination. This is an increase over the number of certifications in 1949.

Certifications are held in the following specialties: Anesthesia 2; Pathology and Syphilology 9; Internal Medicine 36; Obstetrics and Gynecology 18; Ophthalmology 8; Otolaryngology 27; Orthopedics 5; Pathology 17; Pediatrics 1; Plastic Surgery 1; Psychiatry & Neurology 27; Radiology 23; Surgery 25; Urology 12; Preventive Medicine 1.

Four Dental Officers attached to the Naval Dental School have received notification of certification by the American Board of Prosthodontics.

Two of these officers, CAPT F. M. Kyes and CDR V. J. Niiranen, are staff instructors at the School. The other two, CDR S. T. Kasper and LCDR H. R. Superko, have been under special instruction in prosthodontia.

(AFPS) Development of a blood plasma substitute made from the vegetable okra was announced recently by Marquette University scientists.

The substitute has been used successfully. (Continued on page six)

Our U. Of Md. Instructors Teach English Course At NSHA

By G. E. BACHERT

The ordinary man, grammar means a set of somewhat arbitrary rules which he has to observe if he wants to speak or write correctly. The teacher of English, the subject has a different aspect: to him, rules are not necessarily what he has to observe, but what he observes (in a different sense) when he examines the tests and themes submitted for correction. Such is the plight of four English teachers at the Naval School of Hospital Administration.

Francis R. Adams, Jr., A.B., from the University of Maryland, is technically in charge of a Business English course administered to the enlisted men here. Mr. Adams is an instructor at the University of Maryland, where he earned his degree. He earned his A.B. from Williams College.

In line is Mr. John L. Coulton, who has an A.B. from American University and an M.A. from the University of North Carolina. Coulton is an assistant professor at the University of Maryland. Louise A. Bradley earned her A.B. at the University of

Magic With Almar On Stage March 2

"Oh she floats through the air with the greatest of ease..." without a trapeze. Almar, the famous magician, will be featured on stage in the NNMCA Auditorium March 2, at 1800. The renowned illusionist will present a full evening of magic, mirth and mystery.

Among the hat full of tricks, Almar will feature the French guillotine, Hindu cremation and the vanishing lady. But there are more occultical and oriental mys-

(Continued on page 2)

Valentine Verse Worth \$500 To 5A Patient Here

William D. Sellers, RMSN, a patient, was notified February 14 by Carl Blick, Public Relations Director for Loew's Theatres and The Hecht Company, Washington, D. C., that he is the winner of \$500 in prizes for writing the best Valentine to Lana Turner.

The contest was sponsored by Loew's Theatres and The Hecht Company Stores. Sellers, who is from East Liverpool, Ohio, has been in the Navy for six years. He is now a patient on Ward 5A here at the hospital.

The Valentine verse which was composed to the lovely Miss Turner follows:

I've seen all your movies, Lana
I never miss a one.
I'm going to see the new one,
Mr. Emperium.

Your time with Metro Goldwyn
Has been a great success.
To all the friends who've seen you,
You've brought them happiness.

You're the sweetheart of the movies
And I hope that you'll be mine.
So, I'm asking you now, Lana,
To be my Valentine.

VFW Dinner Honors Patients From Hospital

On Thursday evening, February 15, the Veterans of Foreign Wars held their annual dinner in the Presidential Room of the Statler Hotel, Washington, D. C., honoring members of Congress who have served in the armed forces.

Four service men representing the four branches of the Armed Services who have participated in the Korean campaign, were honor guests. Three are now patients here. Lieut. (j.g.) George W. Eienness, represented the U. S. Navy; First Lieut. Albert W. Braun, represented the U. S. Army; Tech. Sergeant Noel H. Brown represented the U. S. Marine Corps. The Air Force was represented by S/Sergeant Merrill R. Durling, a patient at Walter Reed Hospital.

Other honored guests consisted of General Omar Bradley, who presented Hal Boyle with the "Omar Bradley Award" given for outstanding contributions to the Military Services. Major Harry H. Vaughn brought greetings from President Truman. Charles C. Ralls, Commander-in-Chief of the V.F.W., extended greetings to the group along with Fleet Admiral Chester W. Nimitz.

Entertainment features consisted of Tiny Meeker's Orchestra and Revue, which featured the Television Star, Susan Raye and the Bob Mollison Comedy Act.

CDR McNamara Transferred Abroad

CDR Philip J. McNamara was transferred to the Staff, Commander Sixth Fleet, recently. While here he served as Assistant Chief of Surgery.

Born in Fitchburg, Mass., March 21, 1906, he received an A.B. degree from Holy Cross College, Worcester, Mass., in 1927; a Master of Science Degree from Georgetown University in 1928; and a Doctor of Medicine from Duke University Medical School in 1936.

Dr. McNamara received his commission in the Medical Corps of the Naval Service, August 21, 1937. He served at the old Naval Hospital in Washington, D.C., under RADM M. D. Willcutts, who was at that time Chief of Surgery. Dr. McNamara was on duty there from 1937 to 1939. He then served aboard the carrier USS WASP from 1939 to 1941.

At this time he was transferred (Continued on page 2)

Something New Added To Keep Chow Warm And Appetizing

"This chow is cold." "How do you expect me to eat this cold stuff?" No longer will such complaints be heard from bed patients in the ward, for something new is being added.

Korean M.D. Among For. Visitors Here

The National Naval Medical Center has always been a point of interest, locally, nationally and internationally. This is due not only to its beautiful and imposing structure, but mostly to the work and scientific strides that are made inside this tower of steel and concrete. Visitors here have been many from various places on the globe.

Dr. Myung Son Kim, Dean, and Dr. Joon Lew, Assistant Professor of Bacteriology, Severance Medical College Seoul, Korea visited here recently. Their main interest was in the hospital general. Dr. D. R. Masson, Scientific At-

(Continued on page three)

This something new is a way of insuring that food reaches the patient hot and also saves time. The Commissary Department has started using these food warmer units on Ward 5-C.

This warmer is a metal plate-shaped unit. Inside on the bottom is placed the hot stone and the plate of food over this. Then the unit is covered. This unit will keep a diet hot for a period of time from one to two hours. The unit is then placed in a regular Navy chow cart and the whole cart heated prior to reaching the ward diet kitchen.

Another advantage of this unit is that time spent by ward nurses and corpsmen in serving diets the old way is saved as the Commissary galley crew has this job completed by the time the cart is (Continued on page three)

Synthetic Arm New Navy Training Aid

A new Navy training aid, a Synthetic Arm, has been developed by CDR. John V. Niiranen for teaching military medical personnel to insert a needle in the vein and other body tissue. Some of the teaching methods for which the device is now being used are: Giving intravenous injections, hypodermic inoculations and blood withdrawal.

This device was demonstrated recently at the regular Pentagon press briefing for reporters. A motion picture of the demonstration was made and probably will be shown on TV.

The device, a flesh-colored vinyl resin life-like reproduction of the inventor's forearm, contains a series of light and dark latex tubing which simulate the veins in a human arm. In order to make the device more life-like, the latex tubes are filled with a colored fluid controlled from a built in reservoir. The foundation of the arm itself is of stone, overlaid with felt, then the latex tubing, and finally the outer "skin" (cover). The outer "skin" can be manufactured in various thicknesses so that the trainee may either see the veins or will be required to rely on his sense of touch to determine the site of needle insertion. It is also possible to set up a pulse rate in the "veins" for teaching purposes.

Commander Niiranen, of NDS, is one of the Navy's pioneers in the development of Ocular and Maxillafacial prostheses. He said the development of other synthetic body sections for teaching aids, such as, wrist, ankle, shoulder and neck are under consideration.

"Mobilize For Defense, For Family, Community, And Nation"

"Mobilize for Defense, for your Family, for your Community, for your Nation." This is the Red Cross slogan for the annual fund raising campaign which starts March 1. The American Red Cross this year for sufficient resources to expand and intensify every service program.

The nation's armed forces on land, on sea, and in the air are doubled in size. The Red Cross must be prepared to serve them at home and overseas. Chartered by Congress to serve as the link between servicemen and their homes and to mitigate the suffering caused by disaster, the American Red Cross has now been asked to assume greater responsibilities.

In the first days of the Korean campaign a newspaperman assigned to cover the activities of the 24th Division was astonished when he reached the front lines to find a Red Cross field director already on duty at a forward position. This field director was distributing copies of articles to the men and, when possible, assisting them with personal family problems. He was also fulfilling a basic responsibility of the Red Cross in serving as a means of communication between our armed forces and their families at home.

The same functions are carried on in military hospitals where Red Cross workers assist the hospital staff with medical social work under medical supervision, provide recreation and entertainment for patients. Some parts of this program are known to each service member here but how many realize that during the last fiscal year more than 1,600 paid Red Cross workers served the men and women in our armed forces at 1,306 military installations and 111 hospitals around the world?

The line of communication between men in the field or in hospital and their families at home has its other terminal in Home Service in Red Cross chapters, through which families of servicemen are advised and information is gathered for transmittal to the field. Together with chapter Home Service workers handled thousands of requests during the past year and made available more than \$5,000,000 in financial assistance.

An important part of serving the armed forces is accomplished through volunteers who help meet the recreational needs of hospitalized men and who assist Home Service. However, to recruit and organize volunteers to maintain permanent staff, to carry on communication, financial assistance and other services, the Red Cross will spend millions of dollars during the coming year.

World events have placed upon the American Red Cross the greatest responsibilities it has ever had to assume except in time of all-out war. Both the Department of Defense and the National Security Resources Board have requested the Red Cross to stockpile blood products for civil defense and the armed forces. This responsibility is added to the task of providing whole blood for our servicemen and for the sick and injured in communities served by Red Cross regional blood centers.

"If that blood hadn't been there, I wouldn't be here." These are the words with which a young casualty of the Korean war summed up the value of blood to the wounded. At the first aid station, on the battlefield and in the hospital, the lad was given blood—a gallon and a half. He got it because people had donated it through Red Cross. The Red Cross is the official blood procurement agency for the military forces, the Red Cross not only operates its own network of regional blood centers but is also responsible for coordinating the efforts of all independent blood centers cooperating in collecting blood for defense purposes. Through the National Blood Program blood is being provided for military and civil hospitals, for the battle wounded overseas, and for building a reserve of plasma and other blood products for the military establishment.

Additional responsibilities for blood collection have been placed upon Red Cross by the National Security Resources Board. Plans must be stockpiled for civil defense preparedness, which will make it necessary for Red Cross to plan, operate, and coordinate collection centers to provide the necessary blood. By the end of 1950 the Red Cross National Blood Program, inaugurated only 3 years ago, was operating in 38 regional centers and 55 mobile units. Several more regional centers will be opened during the current year. In addition, defense centers will be set up in metropolitan areas to collect blood exclusively for defense purposes. The government of the United States has requested the Red Cross to assist in the civil defense program, which will protect our communities to protect themselves against the havoc that might be caused by enemy attack.

These are the urgent missions your Red Cross must accept without delay! Disaster preparedness committees must survey communities for resources for mass shelter, feeding, and emergency medical care. Aid instruction must be given to 20 million citizens so that they know what to do for the injured in the first moments of disaster. At least 100,000 women must be trained as nurses' aides, and 1,000,000 men must be trained in home nursing. All the volunteer services must be recruited to build strength and prepared to serve our communities in the event of national emergency.

It is against this background that the Red Cross appeals to the American people in the 1951 fund campaign. The Red Cross must have greater resources to do its greater job. Expansion to meet military, civilian, and civil defense needs will increase the blood program by two and one-half million dollars of the current year. Serving the expanded armed forces will require a budget nearly three million dollars greater than the current year. The health and safety services which include the vitally needed training programs in first aid and nursing, will require a budget more than half a million dollars greater than the current year.

These things can and will be done with your support. The Red Cross appeals to the nation to mobilize for defense. Support of the Red Cross is a contribution to the security of our families, our communities, and the defense of world peace.

CDR McNamara

(Continued from page one)

to the Naval Hospital at Annapolis, Maryland, and in 1942 to the Naval Academy there. From 1943 to 1945 he served aboard the USS VINCENNES and 1945 to 1947

were spent on duty at the Naval Hospital, Philadelphia.

CDR McNamara then spent a year at the Lahey Clinic in Boston, Mass., taking a specialized course in surgery. He reported to the Medical Center in 1948.

The Chaplain's Corner

What Is Your Race?

A man in Russia sometime ago was asked to fill out a questionnaire. He came to that famous question, "What is your race?" He wrote: "Human."

What better "one-word parable" in a land which persecuted those not of its "fold." Don't forget it! That your race is, first of all, the human race; the race for which Christ died. For sentimentality's sake, there is nothing wrong about being glad about your Irish, French, Spanish or Italian ancestry. Such pride in nationality has been a great factor in human progress—we can appreciate it in art, architecture, literature or language of the various peoples of the earth. Each has its own unique and beautiful type of expression.

But that pride of nationality, which leads one race to hate another is a wicked thing. To hate people of another nationality is to hate Christ! We hate their ideas, but we cannot hate them. They are our race . . . the human race which Christ died to redeem. He loves every one of them. We are not "one in Him" unless we do the same. Love, not hate, defeats all evils, wins all good. God love You, I Do!

Solongfully yours,

CHAPLAIN PETER J. MARRON

A Striking Dream

Last night I had a shocking dream
That filled me with dismay;
Our fighting men had gone on strike
Demanding higher pay.
They wanted overtime, it seemed,
For dying in the mud,
And shorter working hours for
The shedding of their blood.
"How dare they strike!" the home front screamed,
When we give up so much,
Like candy bars and pleasure cars
And cigarettes and such!"
The foe broke through the picket line
And left a trail of graves
And overnight our people all
Were changed to fettered slaves.
I woke to find our boys still fought
And that the end seemed near
They weren't striking over there—
The strike was over HERE!

—NICK KENNY

Mr. Kenny is a reporter for the Morning Herald in Uniontown, Pennsylvania.

United We Stand

What love of country and of Government
Can plant our flag on far Korean heights
When greed and hate and ignorance are blights
By which our soldiers' minds and hearts are spent?
If communism is the tyrant's lust
For power veiled behind a Judas' guile,
What are those righteous leaders with their smile
Whose god is votes, whose lie "In God We Trust"?
Our fathers in their wisdom framed the state
With Christian virtues, which they sanctified;
The Congress, Courts, and President allied
Are balances they held inviolate.
Never was the need for unity
So crucial here, abroad, as freedom's name
Is desecrated in the blood-guilt flame
Of communism's far-flung treachery.

teries from the four corners of the earth to thrill you and keep you guessing as to what will happen next.

The presentation is one that the whole family will enjoy. Be at the Auditorium March 2 and you are assured of an evening of pleasure.

Specialties

(Continued from page one)

Medicine and Public Health 17; Gastroenterology 1; Neurosurgery 2; and Thoracic Surgery 1.

With the trend toward specialization in recent years, the goal of the Bureau of Medicine and Surgery is that the Medical Corps of the Navy will be maintained on a parity with the highest professional standards in the land.

Personalities About The Center

Art

"Art is the highest pleasing order out of chaos," is how Walter J. Ender, HM3, of the Medical Illustration Department, explained his conception of art. He maintains that the artist is the main force behind the success of a piece of work. If the artists' emotions can be conveyed best by abstraction, then that is his best method of conveyance, and, in that light, Ender accepts both modern and the more conventional art for what the artist himself has accomplished with his subject.

Born in Waco, Texas, Ender moved to Dallas in 1935 where he attended the Woodrow Wilson High School. He gained an early interest in drawing, and has followed through, it being his only ambition in the professional field.

Before Naval life began he worked for the McCallister Advertising Agency in Dallas. Here he did layout and lettering work for newspaper advertisements. While at work at the McCallister Agency he attended night classes at the Dallas Art Institute where his main subject was the human figure.

In 1947 he packed his brushes, easel and paints and headed for Chicago to attend classes at the American Academy of Art. His studies there were commercial, including color, design, technique and illustration. But in August of 1948 the Navy beckoned and this time he lay aside his brushes for a wooden gun in boot camp and later, a syringe in Corps School—both at San Diego.

Ender reported here from Corona October 1949 to attend the Medical Illustration course here and later was retained as an instructor. His formal studies continued here, for he attended the Corcoran School of Art at night, after his duties at the hospital were finished. Many will remember the full length murals that he composed for the barn dance and the many dance posters which he drew. He has submitted several works to the NNMCM NEWS and you can look forward to more work from his talented pen.

Music

"Music hath charms, etc. . . ." is an old adage but true. Classical music has charms which have interested Lois Andrews, LTJG, NC, USN, from childhood. It is more than a hobby or an extra-curricular activity for her.

Born in Meron, Indiana, she studies classical music in high school. She majors in the violin, but can also play the piano, drums,

Jet planes burn fuel so fast that instead of an ordinary gauge they carry a liquidometer that constantly ticks off the number of gallons left.

and the percussion instruments.

She received her nurses training from the Methodist Hospital in Indianapolis, and graduated in 1944. In May, 1945, she reported on active duty in the Navy Nurse Corps.

Among her many tours of duty were the Naval Hospital, Portsmouth, Virginia, where she went first; Camp White, Oregon; Naval Hospital, San Diego, California; Naval Hospital, Aiea Heights; and Tripler Army Hospital also in Hawaii. She reported to the National Naval Medical Center and the Hospital Command March, 1950. Since then she has worked on such wards as T-15, 3-D, 5-D, T-12 and 103 where she is presently working.

While on duty at the Naval Hospital, San Diego, she played in the San Diego Symphony. Then while on duty in Hawaii she played in the Honolulu Symphony. While playing with these she has worked with many famous artists and under the direction of famous conductors. Among these are Lily Pons, Andre Kostelanetz, the late Fritz Hart of Melbourne, Australia and James Wolfe, prominent modern pianist.

Foreign Visitors

(Continued from page 1)

tache of the South African Embassy visited NMRI lately. Also a visitor to the Research Institute was Dr. Zoltan Bay of Hungary. Dr. Bay is a Research Associate at George Washington University.

Captain Henrik Lageroff, MC, Reserve, was interested in plans and organization of the hospital, particularly facilities for treatment of war casualties. Captain Lageroff's home is in Stockholm, Sweden, where he is Chief of Medicine—Associate Professor of Internal Medicine of the Military Hospital. Captain Mario Tapia of the Chilean Army Medical Corps visited the hospital and NMS for the purpose of observing medical examining procedures.

Breathes there a sailor with soul so dead who never yet hath turned his head and said, "Mmmmm . . . not bad!"

Familiarity breeds attempt.

Sports

"Sports is my mainstay," says George Eugene Funk, HM3. And he proves his point by playing guard on the Admiral's basketball team. He was also the center on the NNMCM Command touch football team last fall.

This love of sports has always been characteristic of George. He made his first appearance on the court of life in Sunbury, Pennsylvania, August 4, 1929. He attended school in his hometown, but scholastic life was cut short by enlistment in the Naval service. While in school he played basketball, baseball and football.

He enlisted in Williamsport, Pennsylvania, April 14, 1948. Then followed the time honored tradition of "Boots" taken at the Naval Training Center, Great Lakes, Illinois. After his first taste of Navy life he attended Hospital Corps School at Great Lakes.

Following graduation from Corps School in August, 1948 he reported to the Naval Hospital Command here. He then spent two and a half months ward duty on Ward 107. From there he was transferred to the NNMCM Command and the Property and Accounting office. He is presently working in the Material Building.

Give!

Last year your Red Cross gave emergency relief and long-term aid in 390 domestic disaster operations, assisted 223,400 persons. The program, including long-term rehabilitation and medical care, cost \$5,054,480. No one knows where or when disaster may strike. Your Red Cross contribution helps make assistance available as it is needed.

Conscientious Corpsman

*In all the U. S. Navy you'll never find my peer
At swabbing down or dusting, but one thing I lack, I fear
I rarely get a chance to show my knowledge so profound
Because, when there's some work to do, I rarely am around!*

*Oh, I may be out in the galley,
Or hiding under a bed,
Or shooting the breeze with my buddies
In some hospitable head
Or catching up with my studies
In some convenient retreat. . .
My motives are PURE
But I gott'a make SURE
That work and I DON'T MEET!*

*I'm a conscientious Corpsman trying hard to get ahead
I'm really quite ambitious, when all is done and said,
I'm the Mayor of Bed Pan Boulevard by right of acclamation
And my beds, upon inspection, are the envy of the nation
You can comb the installation and not find one like me,
But still I stay an HA deuce . . .
How can that ever be?*

—By Ken Jones

Dental Explorer

By Phil Burger

The old homestead has been looking like Grand Central Station for the past couple of weeks, with all of the people coming and going. They are moving in and out so fast we can hardly keep account of them. Especially with eighty new faces here to keep track of. Trouble and double troubles! Too many Walkers and Mitchells now.

Staff here lost three men to the call of Prosthetic school. They are "Red" Adams, Mike Gafron and George Penners.

This past week Chief Stipkovich received his orders and departed for the West Coast, as did LCDR Superko. Have a nice cruise and good luck to both.

Welcome abroad to the new Prosthetic Class and the new Dental Interns, who are all here for a six-month stay. On the staff we welcome LCDR Grady to Oral Diagnosis Dept., and B. A. Routheau, DT3, recently recalled to active duty from the reserves.

Wedding bells rang on the 14th of February for "Maggie" Rozean. Best of everything to you (and an Air Force guy at that) and the lucky sucker. Congratulations.

The "ice cream" socials are rapidly becoming popular again with Campbell and McCline. They are even out recruiting new members for their club. Thus far they have drafted George Owen and his "hot rod." Well, at least they got wheels. . . . As the "Coach" would say, "Spider Legs" Hawley is really hot tonight." And the kid is showing his class all over the school.

All the guys are going agog here at the main building with all of these WAVES here now. Quite a contingent of them too. We now have, working here in the main building, Ramos, Connor, Rozean, Amott, Dennett and Smith. Gee, what are we going to do with all of these women around?

Say, Allison, when are you going to do something about that "Puddle Jumper" of yours and get a real car?

Alas, we no longer have the smiling face of Earl Beck here at the desk. He is living in the land of stock numbers and form "R's" now.

Gee, this looks about like the end so this is ole LPB signing off and reminding you to say "thank you" to Uncle George for being born on the 22nd so that we can have a day off. . . .

Not Much Research Involved

By R. M. Gismondi

AWLING—NMRI-1 RecCenter-2
NMRI-3 DenOfficers-1
NMRI-0 Lab 3-4

Terry Melchi invaded the high-ranking bracket of competition by killing errorless frames to a score of 215 pins. Even with this the NMRI team lacked the power to score victoriously and to RecCent by a close 2-1. It then NMRI all the way in the following contest with the Dental Officers, with all the members of the team topping their previous averages and going on to win 3-1.

ASKETBALL—NMRI-26 NDS-33
NMRI-15 Cardiology-32

Well, the basketball season is based now with the Commissary in coping the honors without any defeats and seven marks in their victory column. The Research team pulled out of the cellar and is then stapled to seventh place with one win and six defeats. It looked very promising in the beginning with Research taking in Shop 37-7, but from there on the future hopes of winning the game were at a complete end. They lost six consecutive games. They helped in the advance of clean sport throughout the world, so with them goes our heartiest thanks and wishes for better luck and promise next season.

Lab 16 Under High Pressure

By "The Thing"

Lab 16, after a long trial, has finally established itself within the portals of Med School. Thanks to outstanding classmates like Sweeney and Keith, the class is the most talked about subject on the compound.

Chief Burns with his frequent speed runs to Baltimore has a great portion of the class wondering. All I can say is that it's your car and your gas Chief.

We all have been wondering what would happen to Red if there weren't to be anymore weekends in which he could absorb his studies. For those who don't know it, Red's studies take in the field of bottled bacteria.

Some of us have been lucky and have passed on to Chemistry, while others of us have just passed on.

Wha' happen Dietch? We hear that Sweeney beat you out on that first chemistry test; and you thought that Salisbury was giving you a bad time. Keep up the good work Sweeney, and the next time that you dye your hair remember

Give!

Cheerful relief from long hospital hours is often an important factor in the quicker recovery of patients. That is why medically-approved Red Cross recreation programs are a vital part of the treatment process in military hospitals. Help that clock tick faster for a hospitalized serviceman by supporting the 1951 Red Cross Fund Campaign.

that green is for Irish. Sweeney, for those of us unfortunate enough not to know, is an Irishman from Texas. (Said with a smile.)

So far the pathologists in Lab 16 are doing okay considering the circumstances. The all-night sessions have just begun. This does not include those on the study list. Poor unfortunates.

Parasitology seems to be all about malaria. Ask around and you'll be amazed at the definition many have for "Parasitology."

If Chief Thrasher should by some chance forget to bring his math or arithmetic problems, as some of us call it, maybe we'd be able to keep off the study list. Eh, what Joyce, or was it Busby? Better luck the next time Peter.

Big John, Gringo, and Cannady have been keeping the new red-head at Bassins' busy these past few nights—serving beer that is. Don't forget to take your manuals with you men. Two heads are better than one.

O'Neil, known by some as "Muscles", believes in the body beautiful. He has and keeps regular working-out hours every day. What's going to happen when he finds out about the body beautiful called "Woman?" Live and learn R. J.

Special thanks to Lab 15 on their tip for Chief Spangler's pathology class. We'll be seeing you in the F.M.F.

That's about it for this time. This being the first issue the news is limited. Here's hoping for new scuttlebutt next time.

A Tragedy

1. Sailor and his pay.
2. Sailor and his pay and his girl.
3. Sailor and his girl.
4. Sailor.

Navy Belles

By George

We are still getting more girls in. Soon we will have a full house and still have to make room for more.

The basketball team is still playing a good game. Lost once to the Marines and Walter Reed, on the 16th. We play the Walter Reed team again.

Just Around Our House

The girls gave "Hammy" Hamilton a party with a cupcake birthday cake. She was greatly surprised and pleased.

Margaret Rozean, one of our new girls, was married February 14 in Rockville. Best of everything, from all of us.

"Maggie" McQuarrie was one of the new girls to arrive for Prosthetic School; is an old boot camp buddie of some of our girls. Also arriving for staff was Chief Jones for the Disbursing Office. Two more dental strikers arrived last week. We hope you like it here.

Ruth Ross told us all goodbye and sailed away to Patuxent River for duty.

Marjorie Meacham got N. P. School which started February 19. Good luck Marjorie; hope you can find a sitter for Queenie while you are in school.

Our songbird, Kay Nelson, is still in the hospital. Hope you get out soon, Kay.

Looks like "Josh" Shook is here to stay after her final orders arrived.

"Dee" Diedrick do you have a heart condition or is it something else? Heard you keep going to Cardiology!

"Lassie" Jamison has resigned from the Navy to be just Mrs. Jamison. We hate to have you leave, but good luck "Lassie".

Ruth Flora and Irene Ramos made lovely hostesses at the staff dance, didn't they? With only one full-length mirror in the house, it sure is busy on dance night.

Do you know the girls we live with? Let me introduce you to some of them. I will start with my neighbor Patricia "Pat" Long. She came here from Portsmouth, Va., for O. T. School. "Pat" likes good music, concerts and good plays. She is a good neighbor and, I hope I can be your neighbor as I remain the girl from the heart of Maryland.

"That Jimmy—Don't let his good conduct medal fool you."

The train came to a screeching halt. "What has happened?" queried a nervous nurse.

"Nothing much, we just ran over a cow," answered the conductor.

"Was it on the track?"
"No," replied the disgusted conductor, "we chased it into a barn."

Hollywood: A place where people spend money they haven't earned to buy things they don't need to impress people they don't like.

Purple Heart Heroes

Purple Heart Medals were presented four Marines and a Fleet Marine corpsman by Captain R. M. Gillett, CO, NH. The three pictured are, left to right, Pfc. Preston H. Hammerbacker, HM2 Marian B. McDonald and Cpl. Richard S. Ray. Those not pictured: Sgt. Robert R. Baird, and Sgt. Emanuel L. Airy.

Our Flag

Raise to the waiting breeze our flag
Unfurl it far and wide;
Let all who view that noble sight
Lift up their heads with pride.
We who abide beneath its fold
And worship our own God
Fear not the tyrant's burning lash,
Free on our sacred sod.
We are the favored of the earth,
The masters of our fate.
Take pause from life's unceasing round
Our flag to venerate.

—ALBERT RALPH KORN

NMRI

(Continued from page 3)

Congratulations are in order from the entire staff at NMRI to CAPT C. F. Behrens, CDR C. A. Schlack, and LCDR F. W. Chambers on their recommendations in advancement in rank to RADM, CAPT, and CDR respectively.

If you have never been to the little but rejuvenated tavern on Old Georgetown Rd., please for your own enjoyment do so. McDonald's has recently been redecorated to resemble the elaborate and exotic establishments of Park Ave. This all came about from the gracious but inebriated support of Frank Sanchez.

Suggestion

All hands interested in playing unlimited sandlot baseball in a well organized Sunday league, contact J. C. Wells at Ext. 448. There will be a league meeting in the near future to decide a schedule, rules and regulations. Advance notice of meeting will be posted.

High Hopes

To the following men who took the test for Chief Petty Officer we extend our wishes for a passing grade—Weiss, McGuiness, Furrey, Condomitti, Tillman, and Minard. And all others whose names I don't have.

Request

That in your prayers please remember Terry Melchi's mother who is in a critical condition.

Parting Thought

"All this talk about lowering the voting age makes Hopalong Cassidy the most logical candidate against Truman in '52." Cosmopolitan.

Till the next issue. . .

Lab 15 Under Low Power

By Moe and Gizz-Moe

Well, it will soon be Spring in Maryland. Yes, soon the snow will melt, the flowers will bloom and the local race tracks will open. This, we know, will make a couple of Lab 15 members very happy.

Let's take a look at this week's news events. We find that "Pent" Pelletier is looking for a wrist watch that will chime about so that his important business enterprises will not be interrupted by uniformed classmates forever inquiring the time of day.

Our barracks has acquired a new piece of furniture, a second television set to be exact. Rumor has it that this new set was stalled in the first deck lounge to keep the wandering students from their posts when they have watch. It also may mean that other of Lab 15's ill-fated students might be placed on "T.V. watch."

What is it that makes Mr. Kimmel stagger out of a phone booth, plow head-first into a right stanchion, and wonder why something resembling "The Tennessee Waltz?" St. Valentine, you say? No, we're afraid it's a much more serious ailment, something called the "love-itch."

Speaking of the love-bug, seems that this little insect is having an "open season" on Lab 15. From what we understand, "Tom" Mains and Tom Wootton have already acquired the ball and chain, and that there are numerous others on the way. We predict the following men will also be "dusted" soon: Robbie Robb, Dick Myres, Bob Horobin, Harry Stanton.

Here are some more effects of the love-bug that we have noticed: "Rags" Ragoozis has been inquiring about the costs and keep of a furnished apartment. Creely has taken up correspondence with a young lady from Philadelphia; and Mattox was seen with one of those certain applications obtainable at any corner house.

Well, that's about all we can do for this time, so we'll just be moving along, still attempting to recover from the last wonderful Staff Dance.

Business English Taught NSHA Students By Maryland U. Instructors

(Continued from page one)

South Carolina and her M.A. at the University of Wisconsin. Miss Bradley has the rank of assistant in the College of Special and Continuation Studies at the University of Maryland. She is the only woman instructor to pass through the portals here at NSHA.

And last is Mr. George L. Anderson, A.B., M.A., instructor at the University of Maryland. Mr. Anderson earned both of his de-

grees at the University of Pennsylvania.

The course in Business English given as partial preparation of efficient hospital administrators. The Harbrace College Handbook written by Dr. John C. Hodges, serves as the text for the 45-hour course.

The aim of the course is for more effective speaking and writing in English.

Coach's Corner

ENTRE NOUS, the time has come to ring down the curtain on Varsity basketball season a total of 26 wins and 8 losses; no more, never knowing who would be able to get off duty, working up to the last minute if transportation was to be provided, were factors in the development of that nebulous essential will to win. Right in our backyard, so to speak, we can find outstanding examples of top athletes being tops in their respective fields of professional endeavor. At the University of Indiana, Rear Admiral Morton D. Hitts was a cinder star, in his session, a Fellow of the American College of Surgeons and a Diplomate in Surgery. While an undergraduate at the University of Pennsylvania, Rear Admiral A. W. Chandler wielded a flashy stick in lacrosse, in his session, a Fellow of the American College of Dentists and a Diplomate in Prothodontia. The foregoing is not meant to pacify but to point out to those athletes who have given everything they had to put Bethesda on the map in the local sports sphere the same indomitable courage carry them to the winning of missions in the Medical Service Corps. How can you miss, fellows, Echols, Kurzawski and Mosstraight 100's in school and giving in despite the odds on the floor.

Paul Sherin, whose duties from day to day are in the office of "Wiltshire," spends his free moments in the evenings as an artist on the maple floors. In our game with Walter Reed, on the court, Paul called a technical foul on the hospital rooting section. The team captain of the Medical Center fully inquired of the official as to the reason for the call. Paul pointed to a section of the stands, the captain looked and scarcely believing his optics, burst out laughing. His infectious hooting contagious throughout the stadium. The spectators who have been guilty of unsportsmanlike conduct, joined in the hilarity. It seems that at Walter Reed, patients on the neuropsychiatric ward are garbed in pale blue and as toward a group of these patients that Sharon directed his finger. Following the game, the Walter Reed team invited us to take in plate after plate of food and eggs. At Patuxent, the night before, Commander Murphy invited us to steaks and more steaks. Maybe it was because of the lack of they gave our eight who made the trip. The air-crews have their OWN three cooks assigned to the basketball team. On the other hand, when visiting quintets enjoy the hospitality of their rural cousins in Montgomery County, we hand out cheese sandwiches and a glass of milk.

Captains Gillett and Hogan are giving notice on their colleagues this season on the links is to their best. The Kaiser-Frazer Lincoln have been parked out many a night while the golfing stars have been perfecting iron shots in their respective garages. Foreseen in this column many months ago, "RMG" admitted that he had gone on the links while down and "BWH" has been chasing a red ball around the snow-custed fairways at Columbia. "Petite" Whiteman and Shook continue to toss that casaba through the orange ring with unerring marksmanship as the Waves pile on their winning ways. "Petite" is deadly on her long sets, intent to dribble away from the

The Admiralettes In Action VS Ft. Myers

The Admiralettes show their style in a game against Ft. Myer. The girls have had an excellent team two years running. They seemed headed for the number one spot when fate stepped in to make a few baskets, but the Ad's still hold high honors in the league.

Admirals By Ten, Topple Marines

Coach Eddy of the Marine Corps Institute now knows that three games in three nights is pretty rough on a service quintet. In a loosely played ball game, Brothers and Funk shared scoring honors for the locals with fourteen digits apiece; high scoring honors went to Fox, marine guard, whose accuracy from the charity line aided his points scored column.

Question Box

Answers:

- Wrong: The international date line, at the point where it crosses the equator is NOT known as the Cross Roads of the World. It is called "Sloppy Joe's."
- Wrong: Bethesda is not 65 miles north of Washington. It just seems so.
- Right: James Fenimore Cooper did write "Forever Amber" and "Anthony Adverse." We believe the last two were married at one time. Check this with the Society Editor.

Note: Next week we will publish the questions. At the moment we have mislaid them.

hoop causing the defensive guard to lapse in her assignment, thus allowing the diminutive Miss to pivot and let fly. Shook's tactics are in contrast to those employed by her teammate; drives, tip-ins and off-post shots contribute to her offensive scoring. Coupled with the play-making of Rusty Olsen, one can readily see the factors responsible for the Waves success; an outside set-shot, an inside sharpshooter and an excellent playmaker.

Wash. Americans Win Over Admirals

Johnny Norlander, late of the defunct Washington Caps, and Dick O'Keefe, his teammate, have banded together a group of former college luminaries under the banner of the Washington Americans. Playing "pro" ball at Turner's Arena and in the Eastern Pennsylvania league, the team had won four straight and desired a good workout, so to Bethesda. The sailors did their best but were out-classed by the ball handling of O'Keefe and Booth. Lamon, formerly of American University, missed three shots all evening in a great exhibition of basketball wizardry.

Walter Reed Topped By Admirals 75-50

The opening bucket of Latimore of the home team put the soldiers in front from the first toss and they left the floor nursing a two-point margin. A small "fireside chat" at half-time and Cornell Brothers, aided by beautiful, peripheral screening of Prof. Echols and Don Polizzi, rang up 36 points. The play of the game: Echols missing a foul, Polizzi tipping over his head to Gene Devol who arched a corner-set as the horn terminated the game.

Admiralettes Tally Eight Wins 4 Losses

NNMC Admiralettes broke even with two wins and two losses in the last four league games. Although losing their position of being tied for first place, the Waves still stand high in the league with a total of eight wins and four losses.

Henderson Hall Marines walked away with a 45-16 victory on the 8th. Ens. Whiteman took credit for 9 points while Shook and Madsen were only able to score one goal apiece. Wadenstorer, coming in during the last quarter, scored a goal and a free shot. With the exception of guards Olsen and newcomer Tubb who played an excellent game, the team showed little of the speed and coordinated teamwork so characteristic of it the first of the season. Forward Madsen and guard Glendenning both fouled out in the third quarter.

Playing a better game on the 12th, the Waves downed the North Post Wacs 33-28 at the Fort Myer gym. Breakdown of the score showed Madsen 18, Miss Whiteman 7, Shook 3 and newcomer McQuarrie DN, 3.

South Post Wacs bowed out to an exciting 20-19 finish on the 15th. After holding a comfortable lead throughout the game, the Admiralettes found themselves with a one-point lead and only two minutes to go. Freezing the ball, the forwards played a fast game of keep-away with the frantic opponent guards and controlled the ball to the final buzzer.

Madsen was high again with 9 points, followed by Shook with 7. Miss Whiteman tallied 3 while "100 per cent Hopper" dropped in the free shot which gave the Waves their winning point.

Playing in the new Walter Reed gym on the 16th, the Waves took their fourth loss of the season, 33-24. Trailing 8-24 at the end of the half, the Admiralettes rallied in the final half, but were unable to get around the tall Army team. Miss Whiteman was "on" with her long shots, dropping in 14 points. Shook scored 6 and McQuarrie 4.

Guard Salisbury received a knee injury and had to be removed from the game. She was replaced by Tubb and later, Williams when Tubb fouled out.

Public Opinion: What people think people are thinking.

Pin Action

By The Ten Pin

After treading on the heels of the leaders for weeks, NSHA-1 forged into the league lead as Quarters 12 and Lab 2 faltered. Nourigates foursome (Torrisi, Roller, Wallace and Sawyer) took the measure of Naval Hospital 3-1 and NSHA-6 4-0 to take possession of first place by a full game.

Lab Class 16 continued in their role of giant killers by knocking off Quarters 12, 4-0, dropping them into fifth place. An oncoming NSHA-4 outfit (Biggers, Nellums, Nelson, Blanchard and Baine) pulled into a tie for third place by defeating Lab 2, 3-1. Lab 2 managed to hold onto second place by virtue of a 2-2 split with NSHA-2.

NNMC found it necessary to drop out of the league and their place in the standings and schedule has been taken by the Naval Hospital Internes, headed by Jack Baldwin.

Considerable interest has been expressed in continuing the bowling league until the advent of golf and softball weather. A league composed of 12 teams is contemplated. ABC rules will be more closely adhered to than by the present league. Teams will be composed of five players, a three-quarter handicap will be used and the foul line observed. The new schedule will tentatively begin during the week of March 18 and will run through the middle of May.

So far, entries have been received from NMS Officers, NMS Labs 1, 2 and 3, Naval Hospital, Naval Hospital Internes, Naval Hospital Officers, Lab Class 16-A and B, and NDS Officers. Other teams interested should contact LCDR Floyd at 379 before March 1.

Navy Too, For CAPT Harris's Daughter

Ensign Barbara Dawn Harris, daughter of Captain and Mrs. L. Marshall Harris, Quarters C-1, has reported to the U. S. Naval Communication Station, Norfolk, Va. for duty. Captain Harris is the Chief of the Obstetrics and Gynecology department here at the Naval Hospital.

Miss Harris received her B. S. degree from Northwestern University, Evanston, Illinois, June 1950, after which she was commissioned an Ensign in the U. S. Navy and reported to the General Line School at the U. S. Naval Base, Newport, R. I., for training under the Wave Officer Indoctrination Program.

Upon graduation December 15, 1950, Ensign Harris was ordered to report to the communication station billet at Norfolk, Va.

FBI Fingerprints Artificial Hands

(AFPS)—Progress made in the development of artificial limbs has been so great that fingerprints of the limbs are on file with the FBI.

The hands are manufactured of plastic then covered with a plastic glove which is molded from an actual hand. The work is so fine the model's fingerprints appear on the reproduction.

Experts can tell the difference between the model's fingerprints and the reproduced version. Therefore, to avoid confusion in identification, the prints are on file in Washington.

Navy Opens School For Dental Officers

(AFPS) — A regular "boot" camp for new Navy dental officers is now functioning at the Marine Corps Recruit Depot, Parris Island, S. C.

The basic training course, covering a two-week schedule, is designed to indoctrinate newly-appointed Reserve officers into military life and naval methods.

Current classes are a streamlined version of an experimental program conducted last fall when 24 new Navy officers received their indoctrination training.

Following graduation, the new dentists are assigned to naval ships and stations.

NSLI Checks Due In April Advises The VA

(AFPS)—The second National Service Life Insurance Dividend of \$685 million will be paid to some eight million policy holders starting April 1.

The new dividend, to average \$85, will take up where the first one left off and cover through the anniversary date of policies this year. Anyone who took out a policy before 1951 and held it in force for three months or longer during 1948, 1949, and 1950 will be eligible.

The amount of individual payment in each case will depend on the number of months the policy was in force, the plan of insurance, face value of policy and age of the insured at time policy became effective.

Unlike the first dividend, it will not be necessary for a policy holder to apply for the forthcoming payment. The VA automatically will send the check to his last address on the agency's records.

News Shorts

(Continued from page one) cessfully on animals and is being purified to meet the standards of the pure food and drug laws before testing on human patients.

(AFPS) Dr. Myer Selby, a Boston chemist, has perfected a method of preserving water in cans similar to those used for beer. He uses a can without a lining, which keeps the water palatable and permits sterilization by boiling.

NDS Artists Paint Acrylic Eyes; Look Like Real Thing

You may think you have seen this photograph of Miss Adelaide before. You haven't—but a picture of her in a similar pose was leading photo for a Saturday Evening Post article last December "Spare parts for Human Bodies." The article gave a good account of the NNMC's many activities, including the NDS Maxillofacial Prosthetics Division's work on acrylic eyes and plastic hand, ear and other replacements.

Med School Scuttlebutt

By O. C. Skinner

During the past few weeks the command has had several new men added to its staff. Could be that they are the ones that are bringing the changeable weather with them? The men are as follows:

John E. Gray, HM1, who reported aboard from the USS Chilton. John went through Lab class 4 here in 1946. He first entered the Naval service in February of 1942, and after attending Boot camp and Corps School in Great Lakes, Illinois, has had numerous tours of duty both ashore and afloat. While attached with the 15th Marine Air Wing at Bougainville he was awarded the CNO commendation for bravery in action. At the present time he is the understudy of the "B" boys, Bitely and Burnett, in the Pathology department.

Chief D. L. Stephens reported aboard sometime ago, and in the short time has made numerous friends throughout the command. He reported aboard from the 2nd Marine Division at Camp LeJeune, N.C. At present he is in charge of P&A and Biological Shipping here in the command. Chief Stephens is married, has two children, and at present is residing in Silver Spring.

Donald C. Perricone, HM2, reported aboard from the USS Roanoke, where he was aboard for two years. Previous to duty on the Roanoke, he attended Lab class 6 here at NMS. He first entered the Naval service in 1945 and took "Boots" and Corps School at Bainbridge, Maryland. He is now working in the Blood Collecting department on the third deck.

Clyde Limber, HM3, has reported here, just after re-entering the Naval service. He was discharged last June as HM2. He was with the 1st Marine division for two years in the bitter Pacific fighting. At the present time he is working in the Bacteriology Department. All hands wish to welcome the above men aboard and also hope to make their tour of duty here a good one.

According to latest rumours "Valentino" Bonfield, of Lab 15, is limiting his dates to three hours only. Could it be that he is overworked?

"Hopalong Cassidy" Vanderveer has returned (Cowboy boots and all) from his re-enlistment leave,

A Center News write-up for January told how acrylic came to replace glass eyes, how natural the plastic eye can be made to look. Well, it looks natural partly because people like Horton and Mrs. Collison of NDS Art Department have learned to paint the iris to match accurately the color, size, and appearance of depth in the patient's natural eye.

An iris for an ocular prosthesis is painted on a paper disc in fading water colors, and then sunk in a shallow depression of the acrylic. The pupil is painted about average size; this is small in comparison with natural pupil, which enlarges contracts according to the brightness of the light it is exposed to. Some patients with light-colored irises have one acrylic eye for time use, and a "spare" with a smaller pupil, to be worn at night.

The light portion of the human eye, called the sclera, is never white. The artist paints this surface with water colors also, giving the correct amount of blue, yellow tint, and drawing the blood vessels to match those in a natural eye. After the skilful painting of iris and sclera, a thin layer of clear acrylic is added and the prosthesis is given final processing in a metal flask.

The other day, Dr. Niiranen, head of the Maxillofacial Prosthesis Division, fitted a Marine with an acrylic eye he had prepared and Miss Horton had painted. The Marine was no color at all, but he liked the perfect match of his new eye. He turned from the mirror on the wall and asked Miss Horton, "Now right handsome?"

"Sure," she replied, "right handsome."

"Hooray!" he shouted, "I never was before."

he journeyed to Mississippi then toured out of the states the vast wilderness vaguely known as Texas.

Congratulations are in store Tom Wooten of Lab 15 who walked down the long aisle 15 at Newark, N.J. His lovely bride was Miss Joyce Vanes of Newark.

With closing I will leave you with this little thought in mind. Look up and not down. Look forward and not back. Look out, not in. Lend a hand.

US-Canada In Accord For Over A Century

(AFPS)—Directly north of the United States is the world's second largest country—Canada, noted for its vast timberlands, its furs, its gold, and its red-coated Mounties.

However, another outstanding feature of Canada is her continuous friendly attitude toward the United States, accentuated by the fact that no fortifications have existed along the 4,000-mile boundary for more than 100 years.

Canadians are quick to defend the freedom they enjoy; the same type as fostered in the U. S. At present, her armed forces number 62,000, a small figure, but large when compared to Canada's 13½ million population. She has an armed forces expansion program under way. The Royal Canadian Navy is being enlarged, jet planes are in production, and an excellent gun factory is in operation. A three-year defense budget of \$5 billion has been voted.

As her part in the Korean operations, Canada has devoted several units of her small Navy to the United Nations' fleet in the Far East. She is a charter member of the U.N.

With an area of 3,845,144 square miles, Canada's 59,672-mile coastline ranks as the world's longest. The seat of government for the 10 provinces is at Ottawa. Canada maintains a sovereign and independent status in the British Commonwealth, like that of Australia. Trans-Atlantic planes shuttle in and out of Gander, Newfoundland, where the Canadian government operates one of the world's most important airfields. The Gander field has 10 million square feet of paved runways.

In June, 1940, Canada, as part of her defense program, outlawed 14 subversive groups, among them the Communist party.

UHHH . . . UHH—We're at a loss for words to describe Miss Elli Marshall. Besides the fact that she dances well and is a movie starlet, what more is there to say—after all, is it not written that one picture is worth 1,000 words?

Easter Dawn Service To Be Held At NNMCC

News Shorts From The Editor's Desk

HMC Emanuel H. Buckley, USN and HM3 Louise R. Miller, USN (W), maintained a 99 average throughout the 8 weeks course in the processing and standardization of blood transfusions, tying for top honors in the class. The commendation, which will be made part of their official records, was presented by CAPT B. W. Hogan, MC, USN, CO, Naval Medical School.

BuMed has announced that two formal courses in Neuropsychiatry Technic and one in Physical Medicine Technic, for enlisted members of the Hospital Corps now on active duty, have been established. Neuropsychiatry Technic will be given at NNMCC and at the USNH Oakland, Calif. Length of these courses will be four months.

The course in Physical Medicine Technic will be given at the USNH San Diego, Calif. Length of this course will be six months.

CDR Clay A. Boland, DC, USN, whose hobby is composing music, was notified recently that he has been selected to receive an Honor Medal Award for 1950 from the Freedoms Foundation for the prize winning song he composed, "I Like It Here."

CDR Boland is the Director of the Naval Reserve Dental Program, BuMed. He is the composer of such popular hit tunes as "Stop, It's Wonderful", "The Gypsy in My Soul", and "Stop Beating Around the Mulberry Bush."

A new monthly rate of payment for clothing became effective

Identical Twins Get Double-take

One of the men from NNMCC Command saw who he thought was Calvin E. Devol, HN standing in front of the post office. He stopped and asked him about a basketball game that Calvin had played in some few days before. The second person answered that he didn't know what he was talking about.

"OK. Cut out the wise stuff," the questioner said.

"But I don't," reassured the second person. "In fact, I never played in that game."

The confusion ended when the second person admitted to be Clark A. Devol, HM3, the identical twin of Calvin.

The twins were raised in Carbon Hill, Ohio. Both played basketball at the Ward Local High School where their father is the superintendent.

Enlisting together in June 1946, the twins graduated from boot camp together at Great Lakes, and were sent to hospital corps school at Bainbridge. They had duty together at the Naval Hospital in Bainbridge and later at the Naval Hospital, Portsmouth, Virginia.

It was at Portsmouth that the twins were separated for the first time. Clark was discharged and returned to Ohio to be a psychology major at Ohio University. Calvin, who plans a twenty-year course in the Navy, reenlisted for four years.

Called back from the reserves in January, Clark reported to Great Lakes and on January 15 joined his brother here. Clark is detailed in the NNMCC Personnel office, while Calvin is assigned to the recreation department.

Round Trip Tour Made By E. H. Ruble, HM2

Little did Estern H. Ruble, HM2, realize when he received orders to the West Coast as replacement that he would return here in 10 months. Ruble thought that he was Korea bound when he left P and A School in Portsmouth, Va., which he attended after transfer from the NNMCC Command here. But when he reported, he found that he was assigned to the USNH, Yokosuka.

Captain Hering Talks On Medical Problems In Korea

Following his lecture in the auditorium, Captain Hering presents the Gold Star to a Korean casualty, Walter Hunter, HM3 on Ward 6C, in the presence of RADM Willcutts, medical officers, nurses and patients.

Captain E. R. Hering, Jr., MC, USN, Division Surgeon, First Marine Division, FMF, delivered an address in the NNMCC auditorium, Monday afternoon, February 26.

The interesting and informative lecture dealt with actual battle experiences of the medical department of the Navy in the field during the recent Chosen Reservoir Withdrawal in Korea.

Captain Hering paid high tribute to the medical corps and especially the well trained hospital corpsmen in the 1st Marine Division in performing constant 24 hour resuscitative measures and definitive surgery at the very battle line, augmented by surgical teams from the fleet.

He stated that such campaigns as the Chosen Reservoir Withdrawal constitute a direct challenge to the regular Medical Corps who could give senior matured judgment in arduous duties involved in expeditionary, amphibious and actual combat. He made a plea that more senior medical officers volunteer or be receptive for such duty.

Following his address in the auditorium, Captain Hering visited Korean casualties in the wards and presented the Gold STAR in lieu of the SILVER STAR MEDAL to Walter Hunter, Jr., HM3, USN on Ward 6C. The Citation was read by RADM Willcutts.

Philmont O T Competition For All Servicemen April 11

Philmont Country Club announces its "Second Annual Armed Forces Occupational Therapy Competition" to be held on Wednesday, April 11, 1951 at the Philmont Country Club, Paper Mill Road, Philmont, Pa. This contest includes all servicemen regardless of grade or rank.

Only articles made in the hospitals or camps are to be used in the tournament.

Entrants' applications may be obtained by writing Mrs. Simmons at the Philmont Country Club. The judging will start at 4:30 P.M. Persons prominent in each field of craft will act as judges. Dinner will be served at 6:15 P.M. at which time the prizes will be awarded.

The crafts are to be divided into the following classes:

Hospitalized
Class 1, Ceramics; Class 2, Fine Arts; Class 3, Textiles; Class 4, Jewelry; Class 5, Leather; Class 6, (Continued on page 4)

Correspondence Training Div. Now Under NMS Cognizance

The correspondence training division, which has been located at the Bureau of Medicine and Surgery since it was first organized in the early days of World War II, will be under the auspices of the Naval Medical School as of March 15, 1951, under the supervision of Captain Bartholomew W. Hogan, Commanding Officer and Captain J. L. Enyart, Executive Officer.

The division itself will be headed by Captain C. W. Reeder, and assistant LCDR Clarence Enyart. Their offices will be located in Room 201 in building 141. Courses are offered to all active and regular service personnel including Officers of the Hospital Corps, Medical Corps, and Hospital Men and Officers of the Hospital Corps.

Some of the courses that are offered at the present time are as follows: Medical Department Organization, Medical Department Administration, Naval Preventive Medicine, Insect, Pest and Rodent

Control, Clinical Laboratory Procedures, and Special Clinical Service. These are just a few of the curriculum offered by the CTD.

Anyone interested in taking any of these courses must first send a letter through his commanding officer, to be sent to the CTD. All books, pamphlets and other equipment is the property of the Training Division and must be returned upon completion of the course. Only one course may be taken at a time. This, however, may not interfere with courses given by other activities.

Gettysburg College Choir To Sing Here Friday Night

Recognized by musical authorities as one of the leading collegiate choirs in the East, the GETTYSBURG COLLEGE CHOIR, under the direction of Professor Parker B. Wagnild, will present a concert of choral music in the National Naval Medical Center Auditorium at 6:30 P. M. Friday, March 16.

Coming from Gettysburg College, which is located on one of the great national shrines of Pennsylvania, the choir plans to celebrate its 15th anniversary with a 13-day tour through parts of Pennsylvania, New York, Ohio, and West Virginia. Last year the organization journeyed south to sing in Virginia, North Carolina, and Maryland.

Through the efforts of Founder and Director Wagnild, the choral group has gained the prominent position it now holds among musical circles in the country. Appreciation of his dynamic work is expressed by one critic who said, "Professor Wagnild conducts with a flawless precision, never leaving the chorus or the audience in doubt as to the message presented."

From the Roanoke Times, Roanoke, Va., come reviews praising the group for its unusual precision of pitch and its exceptional blending qualities in both full-choir and small-choir strains. The reviewer of the Daily News, Newport News, Va., gave special notice to the resonance and depth of tone displayed in the bass section. "Listening to this program," he concluded, "was more than what is sometimes called 'an experience.' It was a thrill."

In Kannapolis, N. C., the choir was acclaimed for giving "faithful interpretation of sacred and semi-sacred numbers, excelling in

tonal blending and precision." After a concert in the camp chapel at Camp Lejeune, N. C., the Camp Lejeune Globe, official organ of the United States Marine Corps, noted that the artistry of the perfectly trained group of songsters was obvious from the first note to the last."

In addition to the tour, which will include such cities as Buffalo, N. Y., and Pittsburgh, Pa., the organization will present concerts at the Naval Hospital, Philadelphia, and at Johnstown, and Baltimore. In all, 31 programs will be given by the choir during its 1950-1951 concert season.

The numbers constituting the program to be sung this year will be "The Spirit Also Helpeth Us," J. S. Bach; "O Come, O Come, Emmanuel," Plainsong; "When God Paints the Sunset," Norse Folk Song; "Bread of Tears," Paul Christiansen; "Vinea Mea Electa," Francis Poulenc.

In the second section will be included "Benedictus," Franz Liszt; "Yea, Though I Wander," Georg Schumann; "Lost in the Night," Finnish Folk Song, solo by Jean C. Sloop; and "Hodie Natus Est," Healy Willan.

Concluding the program are "We Have No Other Guide," Schvedoff; "Beauty in Humility," F. N. Christiansen; "Autumn's Art," F. M. Christiansen; solo by Maude Aurand; and "Advent Motet," Gustave Schreck.

E. H. Ruble

(Continued from page 1)

kosuka, Japan. There he worked in the medical stores department. They supplied most of the medical material for the Korean area.

Ruble ruptured an I.V. disk while carrying litters. "We had quite a number of casualties pouring in from Korea," he said. He went through a total of six Navy and Army hospitals before arriving here February 20.

A native of Lynchburg, Va., he attended recruit training at Bainbridge with a subsequent tour of duty at the hospital there. Then followed duty overseas at the USNH, Aiea Heights, T.H. and afloat on the USS Prairie (AD 15) and the USS Allen M. Sumner, DD 692. October 1947 he was transferred here and worked in several departments including the postal directory service, material and the recreation department.

The Chaplain's Corner

By CHAPLAIN L. C. AUSTIN

What If They Were Right

This story was told to me by the Executive Officer of a ship that had no Chaplain. On a certain Saturday the ship dropped anchor in the stream off Norfolk. Information was received from a nearby craft carrier that Church Service on board the carrier would be held at 0900 the next morning. Several men expressed their desire to attend the service, so a Church Party was organized by the Executive Officer. It turned out that Sunday was a very bad day with fog, rain, and a choppy sea. They left at 0830 in two small boats only to find upon arrival that the service had been cancelled. They were referred to another ship anchored some distance away. Upon arriving there, they found that church had already been held and that they were too late. From there they went to the beach and, marching some distance, arrived at the Station Chapel for an 1100 service. When they finally got back to their own ship they were wet to the skin, tired and too late for lunch.

In telling me of the experience later, the officer in charge said, "We were coming back, wet, tired and realizing that we had missed a nice hot lunch, I thought of all the men who had decided not to attend church. They were on the ship, were rested, dry, comfortable and enjoyed a delicious, hot Sunday dinner. A terrible thought came—what if they are right and we are wrong?"

As this article is written, we find ourselves in the heart of the Lenten Season. Many devout Christians have been using the Lenten season to prepare their lives for the Resurrection of the Christ. On Easter morning, they will once again affirm their belief in the victory of life over death. In song, prayer, and sermon the story of immortality will be told. Thousands will find new hope and courage to go on living in this chaotic world, remaining true to the ideals of the Christ.

But many more thousands have traded their belief in God and Christ and immortality for a belief in the material things of life—selfish pleasure. Inevitably the thought will arise—"What if they are right and we Christians are wrong?" What if there were no Easter? What if there had been no Resurrection on Easter morn so many years ago?

It is obvious in this materialistic age that many people do not believe in immortality. Their selfish lives give mute testimony to the fact that they do not believe. And yet, I wonder if they fully realize the significance, the implications of their disbelief.

The Apostle Paul faced this same question centuries ago. Writing to the Corinthian Church, he said, "If Christ be not risen from the dead, then is our preaching vain and your faith is also vain." So the deeper implications of a world without Easter, the poet writes:

"If Easter be not true,
Then all the lilies low must lie;
The Flanders poppies fade and die;
Then spring must lose her fairest bloom
For Christ were still within the tomb
If Easter be not true.

If Easter be not true
Then faith must mount on broken wings;
Then hope no more immortal spring;
Then hope must lose her mighty urge;
Life prove a phantom, death a dirge
If Easter be not true.

If Easter be not true,
'Twere foolish men the cross to bear;
He died in vain who suffered there
What matter though we laugh or cry
Be good or evil, live or die,
If Easter be not true.

Well, there we have it! If Easter be not true our faith is vain, the suffering in the world has no meaning. Man is no better than the animals of the field. With all hope gone, life does "prove a phantom, death a dirge." It matters not whether "we laugh or cry, be good or live or die." Must we then give in to such a belief and accept a meaningless, purposeless, unintelligent and hopeless world? Not if we believe in the risen Christ of the Easter Story. Thanks be unto God, there is an alternative.

A ray of sunshine through the rain,
Of spring across the snow;
A balm to heal the hurts of pain,
A peace surpassing woe.

Lift up your heads, ye sorrowing ones,
And be ye glad of heart,
For Calvary and Easter Day
Were just three days apart!

With shudder of despair and loss,
The world's deep heart is wrung,
As, lifted upon his cross,
The Lord of Glory hung . . .

When rocks were rent and ghostly forms
stole forth in street and mart
But Calvary and Easter Day,
Earth's blackest day and whitest day . . .
Were just three days apart.

If Easter be not true
But it is true that Christ is risen!
And mortal spirit from its prison
Of sin and death with Him may rise
Worthwhile the struggle, sure the prize
Since Easter is true.

Admirals Pugh And Brown Honored At Impressive Social Event

The most colorful social affair in the history of the Navy Medical Department was held in the Commissioned Officers' Mess, February 1954, when officers of the several corps which comprise the medical department were hosts at a reception in honor of RADM and Mrs. Herbert Pugh, Surgeon General, United States Navy, and RADM and Mrs. J. Brown, Deputy Surgeon General. Approximately 1,000 active and retired Navy medics with their families and guests, including doctors, dentists, nurses, and medical service officers from the Washington, Annapolis and Quantico areas, gathered at Bethesda to pay tribute to the recently appointed surgeon general and his deputy, and their charming ladies. Admiral and Mrs. Morrell Willcutts, commanding officer of the Naval Medical Center and senior Navy medical officer on duty locally, assisted the Pughs and Browns in receiving the large number of friends and guests. Admiral Willcutts was assisted with the presentation by an aide, LCDR Charles Crawford.

All the facilities of the club were utilized for the party with the receiving line stationed in the Eagle Room near the stairway on the second floor. The entire first and second floors were decorated in a seasonal floral motif with great food and refreshment bars strategically located. There were ample lounge chairs and divans to provide opportunity for old friends and shipmates to refresh memories of bygone days in a quiet atmosphere.

Orchestral groups furnished music for dancing in the Anchor

Room which was popular with the younger set.

In addition to the honored guests, others welcomed aboard included: The Vice President and Mrs. Alben W. Barkley; The Honorable and Mrs. John T. Koehler, Assistant Secretary of the Navy; The Honorable and Mrs. John F. Floberg, Assistant Secretary of the Navy for Air; Admiral and Mrs. L. D. McCormick, Vice Chief of Naval Operations; VADM and Mrs. John W. Roper, Chief of Naval Personnel; VADM and Mrs. John L. McCrea, Director of the Staff, Personnel Policy Board; General and Mrs. Clifton B. Cates, Commandant, United States Marine Corps; Major General and Mrs. Raymond W. Bliss, Army Surgeon General; Major General and Mrs. H. G. Armstrong, Surgeon General, Air Force; Major General and Mrs. George B. Armstrong, Army Deputy Surgeon General; Brigadier General and Mrs. Dan C. Ogle, Deputy Surgeon General, Air Force; Doctor Leonard A. Scheele, Surgeon General, United States Pub-

Not Much Research Involved

By R. M. Gismondi

Sports

Bowling—NMRI 3, NH 1

The research strikers totaled 1664 pins to 1635 for NH. It was Dias for NH with an individual high average for three games with 158, and Don Teter, captain of NMRI, led the local talent with 136. Despite their losing NH had a low average of 123, produced by Babitsky, while our own favorite Bruce "Fish" Talbot rolled a tremendous 97 three-game average, hitting over 100 dead wood only once with a 101 in the three game melee. (Local boy makes good.)

Leave

W. A. Hamilton, HM1; Cliff Smart, DC2.

Transfers

Ashore—Weiss, G. C., HM1 to Camp Lejeune, N.C.; West, C., HMC, to Bainbridge, Md.

Aboard—Gray, J. B., HMC.

Flashes

Party—Recently, there was a spaghetti dinner and bingo party held by the women stenogs and secretaries here at the Institute. It was a gala affair held at the manor of Mrs. O. Nowicki. Helen McNeely, former secretary in the PersOff, copped the grand prize in the bingo contest. Eventually all the participating women won some sort of a prize and went home contented.

Before the starting of the party, the main power circuit aided in the obstacles that always occur before any planned party, by blowing out, but this was checked with satisfaction before the guests arrived.

The savor and spices were graciously contributed by chief chef Mae Rhodes, and assisted by the hostess, Mrs. Nowicki. Also attending the affair were G. Gosnell, V. Conaway, M. Chichester, B. Greaves, M. Gilchrist, M. Hines, A. Owens, G. Brown, M. Clark, O. Weathersby, and J. McEntee.

G. Brown was well on her way to the dining table with care and nonchalance, but in her haste to reach her destination of spaghetti and "Chianti", she descended the stairs in an end over end fashion so to speak, but with no serious results. Toll House cookies were donated by G. Gosnell, poetess and stenog.

To mention something about the trend of the bingo games, one of which was well commenced with, one of the fair lassies, obviously unfamiliar with the game, commented openly, "I can always get the numbers called but the middle (free space) one." She was politely steered in the proper direction by another close-by player and the game commenced without further interruptions. Congratulations on a fine event.

Production

Congratulations to J. F. Johnson, HM3, formerly attached to the Institute, and wife, on the delivery of a fine baby girl on 2-17-51, name Donna Catherine, both doing fine.

Reminder

The 15th of March, or IC day, is slowly but surely creeping closer. Those who haven't filed their 1040 or 1040-A, better do so at their earliest convenience.

Apartment

Dan Hartlieb recently moved to a spacious but quaint adobe on Norfolk Ave., Bethesda. All parties interested in an apartment there, providing they're available, contact Dan in the Bact. Div. He's a good sort about such things.

Monitor-Merrimac Battle Brought New Era For Ship Design

(AFPS)—It was on the afternoon of March 8, 1862, that the nostalgic days of wooden ships became history. It was the day that a single ship met and defeated the cream of the U. S. Navy. And on that day ship designers, of the world realized that a new era in shipbuilding had begun.

The Confederate iron-clad Virginia (commonly called the Merrimac) steamed out into Hampton Roads, Va., and sank the 24-gun Union sloop, Cumberland, destroyed the 50-gun frigate Congress and caused the 50-gun frigate Minnesota to run aground. The Merrimac has only two 7-inch rifles, two 6-inch rifles and six 9-inch smooth bores. Despite broadsides from the 10-inch guns of the frigates, the Merrimac emerged from the battle unscathed.

However, on the following day, she met her match. In a running battle, the Merrimac was engaged by the Union's iron-clad, Monitor. Eleven-inch shot from the Monitor raked the Merrimac to the point of riddling her stack and loosening her armorplate.

Able Bodied

Class 1, Ceramics; Class 2, Fine Arts; Class 3, Textiles; Class 4, Jewelry; Class 5, Leather; Class 6, Weaving; Class 7, Plastics; Class 8, Woodwork; Class 9, Photography.

If you find that there are some crafts that cannot be put under the categories listed, will you please let Philmont Country Club Servicemen's Committee know by mail. Unless some limit is applied to various classes of competition, the committee may find itself with too many classes and not enough entrants. The tournament is open to amateurs only.

Decision

After giving the matter considerable thought, the National Geographical Society has finally decided that the tomato is legally a vegetable but botanically a fruit. To the ham actor on the other hand, it remains the lowest and juiciest form of dramatic criticism.

Parting Thought

"Responsibility wears a strange little coat woven from the fabrics of small, wooly fears, and strengthened with the stout, uncomfortable seams of duty."

—Cosmopolitan.

Till the next deadline, adieu.

News Shorts From The Editor's Desk

(Continued from page 1)

March 1. Based on continuous active duty, the rates are as follows: for under three years, the rate jumped from \$3.40 to \$5.10 monthly over three years, from \$4.20 to \$7.20; for CPO's under three years, from \$6.00 to \$7.20; over three years, from \$6.60 to \$8.40.

A Navy Juniors' Dance will be held in the Commissioned Officers' Mess, NNMC, March 28. The Oak Leaf Room will be reserved for the group from 2100 to 2400.

An orchestra will be on hand to furnish music, and refreshments will be served.

Juniors of Medical Corps, Dental Corps, Medical Service Corps and Hospital Corps Officers are cordially invited.

For reservations call Mrs. Grazier (OL 2975) or Mrs. Spalding (SL 6704) prior to Saturday, March 24.

The Second (Indian Head) Division Association, 116 N. 3rd St., Camden, N.J., is anxious to obtain the names, addresses and units of the returned wounded veterans of the Second Division. We are keeping on file in our National Headquarters a list which will locate any member upon request. We need your help in this matter.

Thousands of Second Division men are not listed with our Association. On several occasions, persons request the location of a former member. Without this information we cannot possibly be of any service.

The Indiana General Assembly has extended the final filing date for the Indiana World War II Veterans' Bonus until April 30, 1951.

Applications may be obtained by residents by contacting their local County Service Officer, American Legion, Veterans of Foreign Wars, Disabled American Veterans, or the Red Cross. Out of state residents who qualify for the bonus may obtain forms by writing to—

Bonus Division

Indiana Dept. of Veteran Affairs

431 North Meridian Street

Indianapolis 4, Indiana

or by contacting the field office of the Department of Veterans Affairs in the state in which they now reside. All applications must be received before midnight April 30, 1951. No further extension of the filing period is contemplated.

High rubber boots, basketball uniforms and hats will be the uniform of the day for the Admirals tonight when they meet the Admiralettes in a novelty basketball game in the NNMC gym. The Admirals will be further encumbered by having to carry an apple in a cup in one hand during the game. After playing their scheduled league game with the Fort Belvoir Wacs at 1900, the Admiralettes will challenge the handicapped Admirals.

Regular Navy personnel who enlisted or re-enlisted subsequent to August 15, 1945 in a pay grade lower than that in which previously discharged will be provided an opportunity to compete for advancement to the pay grade held at the time of such previous discharge, the Navy has announced. An exception to the policy is that personnel discharged from ratings now included in the rating structure only as emergency service ratings will not be eligible for advancement except by regularly established means.

Patients Here From Korea Say Red Cross, "Good - Darn Good"

Warfront casualties at the National Naval Medical Center many stories to tell about Red Cross aid received both here and in Korea. Private First Class Locke, 21-year-old Army artilleryman, wounded in sniper fire on the Pusan beachhead days, "I've nothing but praise for Red Cross." Private Locke spent Christmas at home through the efforts of the Washington, D. C. Chapter. He was in a body cast for months and the Red Cross at Christmastime took him both to and from home in an ambulance.

HM/2 William Madera was wounded during the Changjin Reservoir fighting and has been in four hospitals since—in Japan, Honolulu, Oakland, and Bethesda. "This place is wonderful, and the Red Cross people here have given me the best of treatment."

Marine Sergeant Emanuel Airey of Baltimore, Maryland says, "I never saw the Red Cross in the last war but they've stuck to me like flies since I was evacuated." Wounded in the hip by sniper fire, he says the Red Cross staffers have been "good—darn good to me this time."

"It doesn't sound like very much when you sit here and talk about a free package of razor blades or cigarettes, but when you're up front or in an evacuation hospital it means the top of the world," one serviceman said. Yes, these little things, and the big ones, too, like communications with anxious relatives, or financial help to families having trouble with government allotments can mean a lot to a serviceman. Your contributions to the Red Cross Campaign a year ago made all that possible. You supported an organization that could swing right into action along with the Armed Forces and still keep up its responsibilities in Military Hospitals and in the community. The contribution you are giving this year will mean that your Red Cross can continue to meet the demands put upon it by individual and community local, national, and international disaster.

Captain Hering

(Continued from page 1)

"For conspicuous gallantry, intrepidity in action against the enemy while serving with a reconnaissance company in KOREA on 5 November 1950, about 0800 while accompanying a reconnaissance patrol forward friendly front lines, Hospital Third Class HUNTER, service company corpsman, and the patrol were pinned down by intense and accurate enemy small arms and mortar fire. Several members of the patrol were wounded. He observed one of the wounded lying in an exposed area. Without regard for his own personal safety, he ran through the enemy fire and drug the wounded man to a covered position, administered aid, and then attempted to rejoin his patrol and render aid to the remaining wounded. While crossing the enemy fire area, he was severely wounded and lay in an exposed area, totally paralyzed, until friendly forces were able to reach him and evacuate him. Hospitalman Class HUNTER's heroic actions were in keeping with the traditions of the United States Naval Service."

Hunter had previously been awarded the SILVER STAR MEDAL "For conspicuous gallantry and intrepidity in action against the enemy while serving in a Marine reconnaissance company near Seoul, Korea, September 28, 1950."

Staff Dance Features Name Band And Floor Show

Naval School Of Hospital Administration

George E. Bachert

CDR John A. Oley, MSC, USN, gave a lecture to the officer students at the Naval School of Hospital Administration on the Duties of a Liaison Officer for New Construction on February 27. The lecture covered the points which Corps Officers should bear in mind in order to perform their duties with credit to the Medical Department of the Navy.

Mr. Oley stressed the importance of experience as the only training that can qualify one for this type of duty. The things learned and the methods developed in the performance of duties are emphasized as the necessary background and experience required to perform the duties of a Liaison Officer.

Mr. Oley has been serving at NH, St. Albans, N. Y., as Liaison Officer for New Construction as well versed in the requisites of that type of billet. His educational accomplishments include

years at the Peter Cooper Institute, New York, N. Y., one year at Lehigh University, Bethlehem, Pa., a course in Hospital Administration at Brown University, Providence, R. I., and a course in Hospital Construction and Alteration at Columbia University.

The lecture given by Mr. Oley is incorporated in the course at the school in order to prepare future

training officers. He has acted as training officer for Mobile Hospital as well as numerous other medical facilities ranging in bed capacity from five beds to 2000.

Mr. Oley concluded with this admonition: "It therefore behooves all to strive for that point of efficiency where we will have a knowledge of all hospital functions so that we can discharge our duties in a commendable manner."

A well designed and equipped Medical Department Activity is a monument to our efforts in services rendered to the medical Department for the care of our patients—our primary reason for existence."

RADM Willcutts Congratulates 18th Gray Lady Graduation

The eighteenth class of the Red Cross Gray Ladies was graduated in the National Naval Medical Center Auditorium Saturday, February twenty-fourth. An invocation by Chaplain Gatlin opened the ceremony which was presided over by Miss D. Elizabeth Davis, Red Cross Field Director. Admiral Willcutts congratulated the twenty-four new Gray Ladies on completion of this training and welcomed them into the Naval Service saying "I believe that I have a full understanding and knowledge of the great and constant need and demand for Gray Lady service in the wards of our Naval Hospital. . . . This need and demand has been augmented and approaches a true war-like complexion with the return of our wounded and sick men from Korea."

The subject of Admiral Willcutts' address was "Mass Casualties." He sketched the far reaching effects of modern warfare with the use of Atomic Bombs explaining the important highlights which should be known to civilian populations so that they might be prepared to act in time of disaster. Against this background Admiral Willcutts "welcomed aboard" the new class with these words: "You as Gray Ladies hold a very special corner in the hearts of all the Navy Medical personnel. The very term 'Gray Lady' means warmth of heart and intelligence of endeavor—service given in simplicity, without glamour, and in the dignity of selflessness, self effacement, to produce a tradition of unsung deeds of compassion, welfare, and devotion to our servicemen."

After reading of the solemn pledges of volunteer "service to the sick and wounded of the Armed Forces" in which the new Gray Ladies were led by Mrs. Edward A. Doyle, Chairman of National Naval Medical Center Gray Ladies, diplomas were presented by Mrs. David Finley of the District of Columbia Red Cross Chapter and Mrs. George Hartman of Montgomery County Chapter. Red Cross Volunteer Service pins were presented by Mrs. Frances E. Hildebrand and Mrs. Edward C. Sasnett, Chairman of Gray Ladies in the respective chapters.

Captain R. M. Gillett, Commanding Officer of the Hospital, accepted the new class as part of his staff and requested a benediction by Chaplain A. P. Finan. As the new Gray Ladies and their friends and families filed out to the reception prepared in the rotunda of the auditorium, organ music by Paul J. Carrino HMI, marked the warmth and solemnity of the occasion.

The graduating class:

Miss Margaret C. Evers and the Mesdames Frederick W. Berens, Jr., Vernon N. Briggs, Donald F. Brittle, Arthur M. Chaite, George M. Clarke, Jr., George Allen Dines, Albert H. Fechner, George L. Fite, Frank Lee Hewitt, Jr., Doris Mae Hissey, Thomas S. Jackson, E. Eugene Merriman, Edward M. Milans, Simon Murphy, Orlo C. Paculli, Russell C. Payne, Ralph Newton Read, Edwin M. Rudzisz, George A. Shaffer, Earl D. Sohm, Charles E. Stott, Olin E. Teague, Feltham Watson.

Med School Scuttlebutt

By O. C. "Skip" Skinner

Three of our personnel have received commendations from the Commanding Officer, Captain B. W. Hogan in the past two weeks. They were as follows: Chief E. N. Buckley and L. R. Miller, HM3, (W) were awarded commendations for their excellent services rendered to the Blood Bank while on student status. Both showed more than average interest in the course and their ability and aptitude was that of the highest category.

Chief R. H. Carstens, Jr., of the Photography Laboratory was awarded a commendation for his excellent collection of photographs that were taken during the swearing in ceremonies of Rear Admiral H. L. Pugh as Surgeon General of the Navy.

There have been many transfers recently of our good friends and shipmates. Those who have left our midst since the last issue are: Millard L. Rowe, HM3, who was transferred to the USS Block Island which is now in port at Philadelphia. Lee, as he was better known, was first assigned to the MAA force here in the command, and later worked in Biological Shipping.

John "Lover Boy" Knight, was transferred to the Marine Field School at Camp Lejeune, N.C. Johnny had been aboard almost two years and had made numerous friends during his tour of duty here. He was working in the General Chemistry Department, where he was until his transfer. He also was one of the main keepers on the Lab 1 bowling team and his loss will weaken the team somewhat.

Pasquale "Pat" Laimo, HN, was also transferred to the Marine Field School at Camp Lejeune, N. C. Pat was a member of Lab 15 until he dropped out a short time ago.

Lab 15 has only six weeks to go before leaving the good old Med School. Then they will be splitting up and going to various parts of the U.S. for duty as Laboratory Technicians. They are just about through with the tough grind and the Command hopes the remainder of their stay will be a happy one to remember.

"Tiny" Schroer, who went to Camp Lejeune sometime ago, was visiting friends here last week while on re-enlistment leave.

"Bubbles" Becker Talent Show Make For Best Frolic Yet

Fun, music, entertainment, refreshments—when good fellows and their ladies get together Thursday, March 22, in the NNMC gym for the biggest and best staff dance and party this station has ever had.

Crew's Library:

"Rommel, The Desert Fox", New Book By Desmond Young

The popularity of Schulberg's new novel THE DISENCHANTED and of Mizener's new biography THE FAR SIDE OF PARADISE has created a new interest in F. Scott Fitzgerald's books. Unfortunately most of these are out of print but Crew's Library has just been successful in finding a reprint of THIS SIDE OF PARADISE, first published in 1920. This will be read now as a picture of the speech, attitudes and behavior of that "lost" generation with which Fitzgerald himself is so closely identified.

Another of the new books for which there has already been a great demand is ROMMEL, THE DESERT FOX by Brigadier Desmond Young. This is a true but fascinating and exciting story revealing the life, adventures and strange death of Field Marshal Erwin Rommel, whose name inspired fear, respect and awe.

Rear Admiral Cope and Capt. Karig have just published a book called BATTLE SUBMERGED: an account of the thrilling exploits of the submarine fighters of World War II. The reader is taken aboard a sub to become a part of the ship's company and to share the excitement, humor and peril that are a part of the submariner's lives.

Two new historical novels are also to be found among the new arrivals; COME HOME AT EVEN by LeGrand Cannon goes back to Pilgrim America. Here we follow the lives of Robert Cargill and his wife Ellen as they move from a small village in England to Salem, Massachusetts. Work in the new world is hard, living is primitive and Ellen pleads to return to her native land; Cannon works out the solution in a deeply moving story which follows the traditions of his earlier novels.

Another story of England and America, though at a later period, is GIVE ME YOUR GOLDEN HAND by Eaton. The hero of this story is the son of royalty; disillusioned with the fashionable world of England and bankrupt in purse and spirit, he flees to America to become a bonded servant. After months of hardship and war, he meets a Quaker girl who gives him fresh hope in life.

Plans have been made for a full evening packed full of fun, dancing and entertainment topped by no less than "Bubbles" Bruce Becker and his famous orchestra. There will be no usual intermission but instead an hour floor show with beautiful and talented young lovelies.

Honor guests of the evening will be RADM and Mrs. M. D. Willcutts. Admiral Willcutts will be detached from command and will retire from the U. S. Naval service about April 1.

Buffet supper and refreshments will be served.

Anchors aweigh at 2000. All hands and their guests are invited.

Why Do Women Buy? Because! That's Why!

By Armed Forces Press Service
Why do women buy things? Frederic Schneller, merchandising manager, lists eight reasons as follows:

1. Her husband says she can't have it.
 2. It makes her look thin.
 3. It comes from Paris.
 4. Her neighbors can't afford it.
 5. Nobody's got one.
 6. Everybody has one.
 7. It's different.
 8. "Because."
- You know a better reason?

LCDR Jacobs Piles Work On Relief

Last Week LCDR J. J. Jacobs ("Jake") slid out from under the mountain of daily paperwork he has been signing, stamping (and misdirecting?) since April 1948. He goes to BuMed, as Administrative Assistant to the Inspector of Dental Activities.

Relieving Mr. Jacobs is LT A. L. Andersen, who comes to Bethesda from the Sixth District Dental Office, at Charleston, South Carolina.

"Jake" leaves with the best wishes of the NDS staff and enlisted personnel; LT Andersen takes over with Mr. Jacobs' best wishes and full sympathy.

Cottage Capers

Last Friday the Cottage held another orchestra dance at the Glenbrook Club. Each time the regular dances are getting better. Why don't you bring your date or come stag to one of these dances? It sure is a fine way to spend a Friday evening. When the weather warms a little more we will have them on the beautiful porch made especially for summer dances. In the meantime don't forget to come to Sunday night supper and dancing at the Cottage, or any other of our many programs. You're always welcome and the door is unlocked, so come ahead and have some fun yourself!

Boot: "Maw read somewhere that every fifth child born in the world is Chinese."

ALOHA, BOY! — Joy Lansing, currently decorating motion picture and TV screens, puts a flower between her teeth and demonstrates the allure of the South Seas — Hollywood style, of course!

Personalities About The Center

DN P. M. West

Yeoman: "Probably not. It's healed by now."

DKC G. T. Jones

Chief Jones' favorite pastimes are dancing and reading. "I like sports. That is, I like sports to the extent that I like to be in the stands."

HMC Tommila

He was sent to New London as an instructor in the use of the Momsen Lung, breathing apparatus used in escaping from sunken submarines. Besides the Chemistry course, the Chief has completed courses in Independent Duty at Portsmouth, Va., and X-ray at the USNH, St. Albans, N.Y.

Lab 15 Under Low Power

This is it! We've been hit! I mean to say that it's time to cure this detail till next time. As one wishing to contribute to the column may find us located in third booth on the left in Bas any night.

Nurse: "No change yet."

Unseen Beauty

If we could but see the beauty growing all around,
Never would we seek in gold what is only found
In all the blessings nature has bestowed upon the lot
Of these ungrateful mortals who live and see them not.

—Gloria E. Gosnell, NMR

Coach's Corner

The intramural basketball season has drawn to a close with the commissary's hoopsters, the winners of gold trophies. Sparked by Polizzi and White, a couple of jays whose vocal exhortations were in tempo with their ringing, the pre-season expectations of Commissary led to a happy reality. E.E.N.T., a capable leadership by the luminary "Buckets" Rock, led into the second spot to gather the runner-up awards. The coach statuette is to occupy a prominent vantage spot in the office. Captain Delaney who plans to add a matching fairway trophy this summer. Erstwhile college performers Doctors Drick and McShane, aided Cardiolino to take third place honors. During the presentation ceremonies by Admiral Morton D. Willcutts, Captain Gillett wore a grin from ear to ear, for all three places won by teams within the hospital command. The Dental Office's quintet, winner of last year's trophy, did not floor a team this season, due to the transfer of Doctor Kline. Ogden, Stoopack, and the grim realization by Lesney and your's truly, that the sport of men in the side of forty.

Successful tournaments on a small station are the end result of the welding together of innumerable factors into a nebulous entity, "ship's spirit". In the recently concluded cage tourney were colored shirts for each ranging in hue from the tressure of Dental to the beige commissary, scorebooks, officiating, balls and schedule maintenance by Chiefs Reynolds, Milla, and Pfc. Devol and Beverhoff. In order for the players to compete on schedule, it was necessary that each command juggle watch-lists. Chiefs Renard, Why and Stinson did their best of ledgerdemain in keeping players happy.

The bowling league in its close weeks is having a race to the between Wallace's NSHA-1, Kovarik's Medical School and Floyd's "Asceptic Four" of the Medical School. Interhigh in the kegling intramural to wellkept alleys, a baller, installation of automatic pinning machines and the persequation in the form of Tom who spends many an evening at home tabulating the scores maintain an up-to-date team record, for as all hands know, a handicap affair.

The golf shop under the mentorship of Major William Downing, Dale, has really been given treatment by Lt. Pollard and over-willing maintenance department. Walk into the shop and greeted by the charming smile of a lady, whose knack for the disking of milk shakes, sandwiches for Lt. Engstrom's well-kept enterprises is only shaded by her knowledge of golfing. To the left of the soda counter is a Dutch door which guards entrance to the inner sanctum of golfers, the club repair department. Bill has recently installed metal golf racks for the use of your clubs at a nominal price which includes cleaning and shining. Southpaw golfers will be accommodated this summer by recent purchase of five sets of clubs for the use of "Lefty" Sick, Brad Williams and others who come from the port stance. Sperry, assistant to the golf professional, collects the playing fees and issues such communiques as

Blood Bank Graduation

Pictured here are the recent graduates from the eight weeks' course in Blood Bank School at NNMCC. The course was under the direction of the Chief of Laboratories, NMS, CAPT W. M. Silliphant. Certificates were presented by CAPT B. W. Hogan, CO, NMS. Left to right, front row: LT Shaffer, NC; LT G. Saraniero, MC; CAPT B. W. Hogan, MC; CAPT J. Enyart, MC; CAPT W. M. Silliphant, MC. Back row, left to right: HMC L. A. Tyce, HMC E. N. Buckley, HM2 D. E. Armstrong, HMC H. F. Harris, HM1 R. R. Allen, HM2 R. M. Gertz and HM3 L. R. Miller.

Admiralettes Shut Out Quarters K

Shutting out their rivals, Quarters K Waves, 49-45, the Admiralettes turned their most anticipated game of the season into their most exciting victory in the NNMCC gym February 26. Suffering defeats in both games last season and in the first meeting with the Arlington Waves last December, the Admiralettes were prepared for a scrap. Displaying the best teamwork they have shown thus far, the NNMCC Waves kept the spectators shouting throughout the game. On the first play from center Madsen set the pace scoring a fast one. Shook and McQuarrie followed suit. By the end of the first quarter the Admiralettes had established a 17-7 lead.

Playing a fast passing game and constantly breaking through the Quarters K guards, the Admiralettes rolled their lead up to 30-11 at the end of the half. Meanwhile, guards Olsen, Glendenning and Hopper were giving the opposing forwards a scrap, continually intercepting passes and blocking their plays.

Quarters K staged a rally in the last half, whittling down NNMCC's lead to 42-30 at the three-quarters mark, but were unable to halt the Admiralettes who were out for a win. McQuarrie fouled out in the final quarter and Whiteman replaced her to make one of her clean, swishing long shots in the closing moments of the game. Guard Glendenning also fouled out after playing almost the entire game and was replaced by Williams.

Madsen accounted for 23 of the 49 points, while Shook sunk 14, McQuarrie 10, and Whiteman 2. Guard Nelson, who is recuperating from surgery in Ward 129, was kept informed of the score by frequent phone calls from the gym.

Faithful rooter and guardian of the first aid equipment, "Citation" Miller, was on hand in case of injuries. Scorekeeper "Hamie" Hamilton took the entire team out afterwards, as she had promised, for a win over the number one rivals.

"Number five has been topped today and the pin is on the back edge of number seven, Coach, so you had better lengthen that second shot."

COGNOMEN DEPT.: Chips Fortin, Legs Gullison, Barracuda Berry, Satchel Beversdorff, Cornell Brothers, Polly Funk, Hawk Polizzi, Miserable Floyd, Spider Hawley, Topcoats Owens, Tiger Beckley, Taps Ford, Golden Earrings Murphy, Swoop King, Louella Burger, Ding Hao Niranen, Pablo Wells, Blackstone Glawson, Major Soltysiak and Stretch Gardner are among the center personalities who answer to the aforementioned handles.

Pin Action

By The Ten Pin

Five teams remain in the running for honors and trophies in the Center Ten Pin League; NSHA-1, NMS Lab-2, NMS Officers, CPO and NSHA-4. The final two weeks play may see this order change considerably as each team faces formidable opposition in their closing bouts.

Roller's NSHA-1 crew are a game and a half in the lead but they finish the season against CPO, NMS Officers and Quarters 12, any one of whom could cool their pennant aspirations.

The "Beef Trust" of NMS Lab-2, considerably streamlined by the relegation of Kovarik and "Grumpy" Rundell to the second team, runs into the "Giant Killers" of Lab Class 16 and then completes its schedule with a grudge affair against NMS Lab-1.

Floyd's Frantic Four, NMS Officers, are making a belated move to overhaul the leaders and have pulled up into 3rd place. An all-important game with NSHA-1 could make or break either team's chances.

The CPOs complete their season against Jack Baldwin's Internes, NSHA-1, Rec and NMRI, with not a soft touch in the lot. Biggers and Company of NSHA-4 pin their hopes on blanking Paul Wells' Dental Officers and Dietz's NMS Lab-3 outfit in their final two outings.

Plaudits are due Jim Atkinson of the Recreation Department for speeding delivery of the pin setting machines now being installed at this writing. Said devices should increase the enjoyment of the local lanes no end. And kudos to the coach and his Athletic Council for the backing the bowling league has received.

An unexpected response resulted from the call for twelve teams to continue the bowling league through May. More than enough submitted entries and the twelve will be selected on the basis of their stability and the order of entry.

Admiralettes Nose Out Patux.

For Hair Line Win, 43-41

Patuxent River Waves gave the Admiralettes an unexpected tussle 26 February. Trailing until late in the 4th quarter, the NNMCC Waves took over 43-41. Starting with the familiar lineup of forwards Shook, Madsen and Whiteman, and guards Glendenning, Hopper and Olsen, the Admiralettes found themselves trailing 15-18 at the quarter and 27-21 at the half.

Wadenstorer, who usually plays reserve forward replaced Hopper as guard in the second quarter to stop Patuxent's main threat Murphy. Although not agile, Murphy is a head taller than any of the regular NNMCC guards. Wadenstorer, tallest member of the Admiralettes, held her down to 5 points in the remaining 3 quarters against the 9 she scored in the first quarter.

At the end of the 3rd quarter, the Admiralettes had picked up the trail and were on the short side of a 35-37 score. The final quarter in which the Admiralettes snatched the victory was a thriller with the lead shifting back and forth between the 2 Navy teams.

Shook fouled out in the closing minutes of the game and was replaced by McQuarrie. With 2 minutes to go and a 1 point lead, the Admiralettes froze the ball with deliberate passes near the center line. In the scramble to regain possession of the ball, a Patuxent guard fouled Madsen, who dropped in the free shot giving the 2 point margin which stood at the buzzer.

Whiteman was consistently accurate with her breath-taking long shots scoring 17 of the winning points. Madsen followed with 14 and Shook with 12. In this close-called game, Patuxent scored on 9 out of 17 free shots while the Center Waves made good on 5 out of 13.

Salisbury who is still having trouble with the knee she injured in the Walter Reed game was on the bench along with Miss Jarvi and Amott.

"But Sir! It's part of my art material!!"

Then there's the bandage-covered patient who lay in the hospital bed.

"What happened?" he asked.

"You had one too many last night and they made you bet that you could jump out the window and fly around the block."

"Why," pleaded the beat-up patient, "didn't you stop me?"

"Stop you, I had \$25 on you."

Accelerating Adets Run Over Belvoir

Clashing with the Belvoir Wacs for the first time this season, the Admiralettes returned with a 32-20 victory March 2. Off to a slow start, the first quarter buzzer found the Waves trailing 4-7. With a one-point lead, 11-10, at the end of the half, the Admiralettes settled down and began scoring.

McQuarrie replaced Miss Whiteman in the first quarter and played the remainder of the game. It was a rough, unpolished game for both teams. Although closely guarded, the Wave forwards found they could draw their guards out toward the center and then break behind them to score.

Madsen tallied 21 with her close layup shots, while Shook dropped in 6. McQuarrie, although unable to score a goal, ran up 5 points by sinking 5 out of 5 of her free shots. Miss Whiteman replaced Madsen in the last half of the fourth quarter to put in one of her long shots.

On the guards' side of the floor, Olsen was doing her usual job of intercepting passes and recovering the rebounds. Wadenstorer was in as guard again to cover a tall forward on the Wac team. Williams and Hopper both played guard since Glendenning was absent. Miss Jarvi, Amott and Salisbury were on hand as reserves.

This was the last off-the-station game for the Admiralettes who have only one league game remaining. They will meet the Belvoir Wacs again in the NNMCC gym tonight.

Adets Compress Air; Sail Over Waves

NNMCC Waves rolled up 3 straight wins downing two Air Force and one Navy team. February 19 saw the visiting Wacs from Andrews Field bow out to a 32-17 score. New forward McQuarrie took care of most of the points, scoring 19 while Shook, dropped in 7, Madsen 4, and Wadenstorer 2.

Traveling to Patuxent River February 20, the Admiralettes returned with a 33-16 victory. In this, the first easy game of the season, the Center Waves met little competition. Shook and Madsen dropped in 14 points apiece while McQuarrie took the remaining 5.

Guard Tubb played her fourth and last game of the season before shipping out to Corps School at Great Lakes.

Bolling Field Wacs proved an even easier match the 20th. In an "everybody plays" game the Admiralettes held a considerable lead throughout the game which ended 41-13. Hooper played the entire game as guard in the place left vacant by Tubb. Lacking height, Hopper has speed and is especially good at breaking up the opponents passing plays. Also in on the Wac game was a new addition to the team, Amott, playing guard.

Score breakdown showed Madsen 14, McQuarrie and Miss Whiteman 8 apiece, Shook 6, and Wadenstorer 5. In the last two minutes of the game guard Glendenning and forward Madsen exchanged positions much to the amusement of the rest of the team.

Lab 16 Under High Pressure

By "The Thing"

Here we are again. The first column went over with a big bang so we're here again. Any actual resemblance to the bang and the hole in my head is purely accidental.

The prospective pathologists of the class seem to be getting along pretty good at the present time. So far we have managed to cut only embedded tissue. Here's hoping that it will stay that way for awhile anyway.

By the way, Red, why are you getting Luke all shook up. There is a reason isn't there.

The Irish Texan of the class (said with a smile) has finally decided to get rid of his so-called automobile. In a month or so he will be trying to manipulate a motorcycle—or killocycle some call it—around the compound. The pedestrians will please keep the sidewalks clear as he may think he is in Texas and want the wide open spaces.

Reese, no relation to Rhesus, can't seem to figure out how the nicks seem to stay in his microtome blade. If you ask us Reese, maybe you don't get dem all out in de first place.

Hopalong Schroeffer and his Crooning Cronies hold their nightly hog calling contest in dorm D of Bldg. 140. That should explain the mysterious noises some have been hearing. This does not go for those fresh from Bassins'.

Chief Thrasher, so they tell me, has finally forgotten to bring his MATHEMATICS to class. Got a cough drop Chief.

WANTED: The joker who keeps throwing glass beads around in the chemistry class. One might bounce off Sweeney's head and hurt someone.

WANTED WORSE: The exterminator who put the mouse trap in Reds' bed. There is a reward for information leading to the apprehension of the culprit. Red could also use some advice. Meet him in Baltimore.

We regret to inform you that further information of the Lab 16 Einstein, otherwise known as Dietch, will not be published until the next issue. He is all shook up. Please leave him alone boys. You too Salisbury.

I'll close now with the hopes that I'll be again with you in two weeks and wishing you mucho many fives in Chemistry and a lot of ten micron tissue in pathology. For future classes here is a little

PRELUDE TO PATHOLOGY

Oh we're the boys from Spangler's Institute
We don't swear and we don't hoot;
We mount for hours and hours and then
We throw them back on the xylol again
After awhile our patience gives out
And everyone looks at each other with doubt;
In the dead lull of silence, a crashing we hear,
It's a slide bouncing off the bulkhead we fear;
The tissue he gives us is as fine as his hair
And it looks like it came from the old gray mare;
And to all future classes we here recommend
Keep a sharp blade right up to the end;
Now this is our warning and also advice
Keep a clear head and your blade on the ice;
When the course is all over you'll have to admit
That it really was fun, wasn't it?
—Author Anonymous.

New Intern Class Starts At NDS

The above 22 Dental Officers are beginning a six-month intern course at the Naval Dental School. Starting with the back row, they are: R. F. LeGendre, J. D. Nelson, C. E. Housekeeper, T. C. Enger, N. E. Duggan, J. E. O'Donnell, C. Dorn, Middle row: J. F. Hornyak, F. J. Finnegan, W. H. Mann, G. E. Sanquist, P. E. Zeigler, C. P. Johnson, E. H. Brown, L. B. Chaisson. Front row: J. H. Collins, Jr., P. W. Horne, R. W. Elliott, Jr., J. T. Wood, L. F. Snyder, Jr., W. A. Ruel, L. L. Ceparro.

MCI Tips Commissary 61 To 60 In Playoff

A successful foul shot with one second of play remaining provided the edge for the Marine Corps Institute's netmen over Medical Center's Commissary Five in the PRNC Intramural Basketball Champions Playoff played last Monday at the Receiving Station gymnasium. The final tally left NNMC's representative on the short end of the 61 to 60 score.

Operating with a beautiful 2-1-2 zone, Commissary kept their opponents well in hand for the first half and with Don Polizzi and Pat White hitting from all sides on their sets, our boys left the floor with a 34 to 21 margin as the half ended.

At the start of the third period, the Marines, switching their tactics, completely befuddled our cagers with a fast-breaking offense that found them closing the gap to 2 points as the final canto opened. At one point during this period, the opponents dropped seven successive two-pointers before Payne, Commissary guard, countered with a set from the key.

The final chapter found both teams matching each other's score right down to the final second when the foul and successful shot broke the deadlock.

The defeat was a heartbreaker but the Medical Center is rightfully proud of the clean, hard fight that was displayed by its men.

Mark Twain was once told that Americans have no aristocrats. He asked, "What is an aristocrat?" "An aristocrat," was the reply, "is someone who has no business or job, who travels as he pleases, who enjoys life, and doesn't work for a living." "Sure, we have aristocrats in America," Mark smiled, "only back home we call them tramps."

A little ditty which originated during Operation Portrex:
Oh mud, as splashed by truck or jeep,
You make my filthiness complete.
As through your slushy slime I creep
Sometimes on rear, sometimes on feet.

Wartime night clubs were like the gay nineties—the girls gay, the men ninety.

Former Staff Man Is Korean Hero

Robert R. Stanton, formerly working in the Record Office of the Naval Hospital, is pictured with Sergeant F. J. Hotman, USMC. Stanton rescued Hotman in a scrap on "Death Hill". The two are in the Naval Hospital, Yokosuka, Japan.

Navy Belles

By George

One more week 'til Easter and then Spring at last. Grey dresses will be on the line and our blues in mothballs for a while.

Our team will shine tonight. You should have seen our girls shine when they played Quarters "K", and then win the basket for a basket game with Patuxent River.

Just Around Our House

Five of our girls left for the hospital school the last of February. The first of March we received four strikers for the hospital and one striker for dental.

Alma Rose won her "W" for the game she played against Patuxent River and Betty Hopper won her "W" for her performance in the Quarters "K" game.

Minnie Smith has replaced Ruth Flora as Master-at-Arms of Building 123. Ruth is now on Tower 4 working in OPD. Hope you both like the change.

Louise Miller has finished Blood Bank School. Erma Cooper, who works in Blood Bank this month, goes through the chow line with every group of blood donors.

Marjorie Meacham likes her new school, but how do you like the classroom, Marj?

Jeannette Delk, from Dental, has taken over on night duty at the Waves Barracks for the month of March.

Louise, you'd better order a can of dusting powder for the Waves basketball team.

Know the Wave next door—Delores Amott, who arrived here from the Dental School, Great Lakes. Her home town is Haw-

Dental Explorer

By Phil Burger

Ah-h-h-h . . . peace and quiet reigns at NDS again. Now nothing but organized confusion. But then on the other hand what would we do if things were peaceful? Gripe about the fact that nothing ever happened.

On the 5th the school lost LCDR Jacobs to the bureau. Our loss being their gain. To "Jake," as he is known in the school, we all wish him a very pleasant tour of duty there.

Replacing "Jake," we recently received aboard from Charleston, S. C., LT. A. L. Anderson. Prior to Charleston, Mr. Anderson was attached to the Hospital Corps School, San Diego, California. Welcome aboard, sir.

Departing this week for the West Coast for sea duty is Burgess Allison and his Crosley "Puddle Jumper." Have fun B. B. and don't get too seasick.

"Coach" Frates, Chief Nagel and "Black" Bart are certainly going ritz on the rest of the peons now. Especially with their new stenogram—Miss Marion Habel. Say, who do I have to know to get a dish like that working for me????

We lost four of our WAVES this past week to Great Lakes. The gals are Connor, Smith, Sipmson and Rozean, who are all going to attend Dental School. Good luck, girls.

Bill Sickels has a new job now. He also has come upon a new name—"The Badge." How do you like the job of running 122 now, Bill? I for one wish you luck, as you are certainly going to need it.

In closing, I wish to leave with you a little reminder that when told to do a job, do the job first and then your griping. You get further that way.

P. S. I have been requested to print the following ad.: Anyone having any idea as to where a Greyhound bus, preferably a slightly used one can be obtained cheap, please contact Dr. "Cabin John" Flocken.

Korean Patients On Television

Two patients from the Naval Hospital, Corporal Sidney Hartley, USMC and HM2 M. Bruce McDonald, USN, appeared in television recently on the "Armed Forces Hour". This program is sponsored by the Defense Department over Station WAAM, Baltimore, Md. McDonald related some of his experiences as a hospital corpsman with the U. S. Marines in Korea. Hartley told how he was preparing to eat when he was wounded by a single round of mortar fire.

thorne, Calif. She is number "6" on the basketball team and sings like a yellow bird. What's more she has a new hair-do and fusses cause the curls will not fall down. Poor dear.

Till next time I remain, the girl from the heart of Maryland.

Captain E. Pollard Transferred To Sunny Hawaii

There is time-honored belief in the Navy that no one is indispensable—that a good replacement will be found to fill any man's shoes. This does not prevent an officer from filling his own shoes best while he is still the one who is standing them.

Which reminds us of Captain Eric Pollard. Captain Pollard is probably better known to patients and staff at NMCH than other Dental Officer. For several years, as Director of Clinical Services, he has examined dental patients of all rates, ages, sizes, shapes—corpsmen, admirals, sailors, veterans, FBI agents, foreign diplomats—before referring them to the appropriate departments for treatment.

As part of his practice teaching in oral diagnosis, Ca-

Pollard has developed an interest in oral color photography as a diagnostic aid. Several dental societies have learned of his interest in oral photography and have invited him to present as guest lecturer.

Captain Pollard's extensive professional experience includes years of practicing dentistry under most difficult circumstances. quote him—"as a guest of the Japanese government." Those years as a POW have not entered him; but they have left with a fascinating collection of yarns about the way the military, a typical Japanese prison works; about an a capella choir class in German, and other activities that helped maintain morale and about the bluffs and ruses, sometimes worked, sometimes backfired, in scraping together enough dental instruments and materials to treat fellow prisoners.

Two facts about Captain Pollard's embarking for Hawaii at the end of this month can be stated briefly: (1) He will be replaced by another good officer and (2) he will be missed.

Yipe! I knew that Medical Officer was up to no good!

CAPT. I. L. Norman To Be Executive Officer at Oakland

CAPT Irwin L. V. Norman, USN, was transferred recently to the Naval Hospital, Oakland, California. He will serve as the Executive Officer at that station. CAPT Norman previously done duty as

Franklin College Choir To Sing Here Saturday, March 31

The National Naval Medical Center will again play host to another famous college choir. The Indiana Franklin College Choir will present a concert here in the auditorium March 31 at 1800.

The Franklin College Choir is under the direction of Prof. Guy Owen Baker. Prof. Baker believes that physical exercise is as essential to successful choral singing as is vocal exercise. Therefore, any choral member not only must be able to sing, and to sing well, but he or she must be an athlete, and be willing to exercise not only his vocal muscles, but almost every other set of muscles from chin to toe.

He says that calisthenics loosens muscles, improves breathing and increases tonal quality. So, on any practice, you may find them bending and turning while singing. This rigid training, almost like that of an athlete, is new among Indiana's college choirs.

The choir will present concerts in Ohio, West Virginia, Pennsylvania, Delaware, New York, Connecticut and the District of Columbia during the college Easter vacation.

News Shorts From The Editor's Desk

From March 25 to March 31 inclusive (1500 to 2000), the swimming pool will be reserved for the YMCA's annual Learn to Swim campaign.

The King Kopp Varieties will present a show in the NNMCA Auditorium at 1800, April 2.

After more than twenty-nine years of continuous active duty, HMC John M. Jarman of NMS decided that another four year hitch would not hurt much. He first enlisted in the Navy January 29, 1919.

About a year ago the Chief made application to be placed in the Fleet Naval Reserve, but when the Korean incident broke out he cancelled his request.

Jarman has a son, John M. Jr., who is also in the Navy. He is a second class bos'n's mate, stationed at San Juan, Puerto Rico.

On March 22 the Navy increased its weekly quota for Regular Navy Wave recruits to 88 and shortened the recruit training course from ten weeks to nine. Under the old

Why Buy Bonds?

A few people may ask this question: "Why should we invest in Savings Bonds when prices are rising—shouldn't we invest, instead, in common stock, real estate, or other things whose value will rise as prices do?" The answer is simply this: The average saver has neither the funds nor the know-how to go into the stock market, the real estate market or any other form of speculative investment requiring constant watching, knowledge of values, probable yield and when to sell to make the maximum profit. Too many average Americans proved that in 1928-29. This does not mean, however, that one shouldn't invest in sound stocks or property for income over the long run, provided one can afford to take the risk. A Savings Bond is a riskless investment and does not fluctuate in value with fluctuating purchasing power of the dollar any more or less than bank accounts, life insurance, pensions, social security or any fixed income investment.

It is EVERYONE'S BUSINESS to help keep the dollar sound and the national economy stabilized. The dollar held in Savings Bonds does DOUBLE DUTY against inflation, helping to check it now and in the future, thus protecting the value of the dollar in your pocket, in your pay check, and in any other form of savings you may own.

quota 160 Wave recruits were enlisted in the Regular Navy every three weeks.

The new program applies only to enlistment of women with no prior naval service. Women with prior naval service may be enlisted in excess of the increased quota.

Mr. Alan Turnbull, Jr., Head of the Accident Analysis and Injury Compensation Section, office of Industrial Relations, recently completed a series of lectures on Accident Analysis and Injury Compensation at the Naval School (Continued on page 6)

RADM Morton D. Willcutts, CO, NNMCC, Retires from Active Duty April 1

Rear Admiral Morton D. Willcutts, MC, USN, Commanding Officer, National Naval Medical Center, will be detached from command to retire from the U. S. Naval Service April 1. He completes thirty-four years continuous active duty in the Navy.

Upon retirement he will be advanced to Vice Admiral in recognition of having been specially commended for outstanding performance of duty in actual combat during World War II.

Medical department officers honored the retiring Admiral with a party and reception Saturday evening March 24 at the Commissioned Officer's Mess here. The party was attended by many friends of Admiral and Mrs. Willcutts.

The chief petty officers of the station held a party in his honor yesterday at the NNMCC Chief Petty Officer's Mess (Open). RADM and Mrs. Willcutts were honor guests at the enlisted men's staff dance and party held in the NNMCC gymnasium Thursday evening March 22.

RADM Willcutts, born March 10, 1889, in Carthage, Indiana attended Greentown, Indiana high school; Marion, Indiana, Normal College, and Indiana University, where he received a Bachelor of Science degree in 1914 and a Doctor of Medicine degree in 1916. He served his internship at the Indianapolis City Hospital. On March 24, 1917, he was commissioned Assistant Surgeon with the rank of LTJG in the

Naval Reserve, and following transfer to USN on September 4, 1917, served throughout World War I in the rank of LT. Commissioned in that rank on June 6, 1920, he subsequently advanced through the grades to the rank of Commodore on April 3, 1945. His promotion to the rank of RADM was approved by the President on December 9, 1946. His date of rank as RADM is July 15, 1942.

(Continued on page 2)

Miss Neville, Benevolence Survivor, Tells of Night in Prayer and Horror

A bomb from an enemy plane or a torpedo from an enemy submarine could not have created more havoc on the evening of August 25, 1950. All that day, the USS Benevolence, TAH-13, had been cruising aimlessly in the harbor; it later made a trial run four miles from the Golden Gate Bridge. It was on the ship's return to port that disaster struck, swiftly and without warning.

Miss Rosemary Neville, a LTJG now on Ward 127, is a survivor of the collision. Her story is best told in her own words: "The fog was thick all day . . . and it became increasingly dense as the day wore on . . . all the nurses were assembled in their quarters when it happened. The Mary Lukenback, a heavily-laden commercial liner, rammed us forward, about even with the bridge.

"I didn't feel as though a great crash had happened. Although we were at the focal point, those midship and aft were jarred more severely. To me it seemed like someone dropping a heavy weight. It must have been a terrific crash because it knocked the civilian pilot off his feet. He later died of wounds received from that thrashing.

"I realized the seriousness of the situation when the ship, according to reports, listed 15 degrees to port. The squawk box confirmed my fears a second later. We were or-

dered to abandon ship. Within fifteen minutes the ship was on its side and we walked off the weather sides into the water. We didn't have time to lower life boats, so the ship's captain and Captain Riggs, MC, fastened a line around our waist.

Praying for Survival
"I couldn't swim but I had a life jacket. The water was very cold and, as you can imagine, very uncomfortable. None of us had hopes for survival, but we prayed. All the nurses were relatively calm. For a long hour and a half we floated; floated and prayed. Finally our prayers were answered. An Army tug picked us up and took us to Fort Mason. There an ambulance met us and sped us to Oak Knoll where I remained until was transferred here March 5."

Miss Neville says that she retains no horror from the experience. It was unfortunate but she believes that she could go to sea again without the haunting fear of August 25, 1950.

RADM M. D. Willcutts Retires

(Continued from page 1)

Following brief duty in the Naval Reserve Office in Washington, in April and May of 1917, RADM Willcutts served consecutively as Junior Medical Officer in the Naval Hospital, Brest, France and Base Hospital #5, Brest, France, until January 20, 1918 when he joined the USS APHRODITE, a destroyer then serving in French waters and served on her until November 27 of that year. Service from December 4, 1918, to September 1919, as Regimental Surgeon of the Fifth Regiment of Marines in the Army of Occupation, Germany, concluded his World War I duty. For meritorious service during the World War, he received a Special Letter of Commendation from the Navy Department.

Upon his return to the U.S. in September, 1919, he reported to the Bureau of Medicine and Surgery for instruction at the Naval Medical School, and following duty in the USS KILTY, served until October 26, 1921 at the Naval Hospital, San Diego. During subsequent years he served aboard the USS PATOKA, the USS HURON during her cruises to China, and as Chief of Surgical Service at the Naval Hospital at Canacao, P.I., until December 1923. Surgical service in the Naval Hospitals at League Island, Philadelphia, and Newport, Rhode Island, was followed by sea duty in the battleship TEXAS, then flagship for the Commander in Chief of the US Fleet, and later as Chief of Surgical Service in the hospital ship RELIEF, and from October 1929 to December, 1932, he served as Chief of Surgical Service in the Naval Hospital at Great Lakes.

For the three following years, he served as medical officer at the American Legation, Peiping, China, and was one of the first American Navy doctors to be called upon to treat victims of the Jap aggression. While there he took charge of a Chinese hospital and treated men wounded while fighting the Japanese in Manchuria. For his outstanding work in organizing the surgical service and treating the wounded he was decorated by the Chinese Government, receiving the CH'CU #148, Class A, Grade 1, the decoration and diploma of China. He returned to Washington in May 1935, and served as Chief of Surgery at the Naval Hospital and Instructor of Surgery at the Naval Medical School for five years. Upon detachment on April 20, 1940, RADM Willcutts was ordered to the USS WASP and served as medical officer in that aircraft carrier for one year, after which he reported to the Bureau of Medicine and Surgery.

On June 19 1941, just before the outbreak of World War II, RADM Willcutts was transferred to the Naval Hospital, San Diego, for duty as Chief of Surgery, with additional duty at the Naval Hospital Corps School. In March, 1942 he became executive officer and from July 20, 1943 until April, 1945, he served as Medical Officer in Command, Naval Hospital, with additional duty as Medical Officer in Command, Naval Hospital Corps School. During this four year tour of duty he won nationwide recognition for his efforts as administrator, surgeon, and medical authority, while he supervised the development of the United States Naval Hospital at San Diego into the world's largest naval medical center. Under his direction, this hospital became outstanding as a reconstruction and rehabilitation base for the thousands of veterans of the Pacific, with its newly developed departments for orthopedic, neuro and plastic surgery, and for rehabilitation, each of which has led in the perfection of techniques to speed the recovery of the wounded. For his services as Medical Officer in Command of the Naval Hospital, San Diego, RADM Willcutts received a letter of Commendation from the Secretary of the Navy with authorization to wear the Commendation Ribbon.

On April 4, 1945, in the rank of Commodore, RADM Willcutts reported for duty as Fleet Medical

Officer of the Fifth Fleet and served on the staff of Commander, Fifth Fleet. On November 4, 1945, he became Fleet Medical Officer, Staff, Commander in Chief of the Pacific Fleet (CincPac), serving in that position until ordered to the Bureau of Medicine and Surgery in 1946. For his services as Fleet Medical Officer of the Fifth Fleet, he was awarded the Legion of Merit, with combat citation as follows:

LEGION OF MERIT

"For exceptionally meritorious conduct in the performance of outstanding services to the Government of the United States as Fleet Medical Officer on the Staff of Commander FIFTH Fleet during periods of extended combat action against enemy Japanese forces in carrier strikes on Kyushu, Honshu, Japan; the capture and occupation of Okinawa and the occupation of Japan; from April to November 1945. Applying himself to the medical problems incident to Fleet operations, to the handling of casualties and the health of personnel, Rear Admiral (then Commodore) Willcutts took charge of the wounded on the main deck when the Flagship was hit by an enemy suicide plane. His professional skill and devotion to duty under enemy fire were in keeping with the highest traditions of the United States Naval Service."

"RADM Willcutts is authorized to wear the Combat 'V'."

From August 21, 1946, until he assumed command here, RADM Willcutts served as Assistant Chief of the Bureau of Medicine and Surgery for Professional and Personnel Operations.

In addition to the Legion of Merit, the Commendation Ribbon, and a Letter of Commendation (World War I) RADM Willcutts has the Marine Corps Expeditionary Medal (China); the Victory Medal, Overseas Clasp (Brest, France) Army Occupation Service Medal (Germany); the American Defense Service Medal, Fleet Clasp (USS WASP); the American Area and the Asiatic-Pacific Area Campaign Medals; and the World War II Victory Medal and Navy Occupation Service Medal (Asia). In addition to the decoration and diploma awarded by the Government of China, he has the Decoration and Diploma of Honor and Merit, grade of Officer, conferred by the Government of Haiti.

He has completed the general postgraduate course of the Naval Medical School, and a postgraduate course in surgery. He is a member of the Association of Military Surgeons; a Fellow of the American Medical Association; a Fellow and Governor of the American College of Surgeons; and a Founder Member of the American Board of Surgery. He is a member of the Military Order of World Wars; the (Veteran) Military Order of the Carabao; and a member of the New York Commandery of the Naval Order of the United States.

RADM Willcutts brought to the station a most delightful family. Mrs. Willcutts, the former Miss Marie Barbara Collins of Napa, California, was always interested

CAPT. Cokely, Urology Chief, To Go To St. Albans

The Naval Hospital lost another of its Chiefs of Service, CAPT Harold J. Cokely, MC, USN. CAPT Cokely was the Chief of the Urological Service, a job he has skillfully performed since he reported here for duty. The new Chief of Urology and relief for CAPT Cokely is CAPT A. C. Abernethy, MC, USN, who came here from the Naval Hospital, Portsmouth, Virginia.

The Captain's native state is Missouri where he was born on February 9, 1906. He attended the University of Missouri for two years and then attended Jefferson (Continued on page 4)

in the station's activities, and took every opportunity to give encouragement.

A gracious hostess and grand person, Mrs. Willcutts approved colors for the beautiful officers' mess. On many occasions she offered suggestions and gave active help that made the station an exceedingly pleasant place to live.

RADM and Mrs. Willcutts have four children; two sons, Dave and Mort, both students at the University of Indiana; two daughters, Diana and Anne live with the family here.

Those who have been privileged to serve under his command are grateful for the forceful leadership he has exhibited. He leaves active duty with the good wishes of countless associates who trust that he may have many years to observe from the outside with deep satisfaction his contributions to the National Naval Medical Center and to the Navy.

The Chaplain's Corner

By Chaplain H. Grady Gatlin

Blind Guides

Jesus condemned the scribes and Pharisees for ostentatious affections: they had neglected the "weightier matters of the law, justice, mercy and faith." "You blind guides, straining out a gnat and swallowing a camel." You have betrayed the finer instincts of the soul; you emphasized the outer appearance of things.

The 18th century Deists taught that God had separated himself from the world after the creation—they paved the way for atheism—the stage for modern social irresponsibility.

Feudalism, Monarchy, Nazism, Fascism, Communism, Imperialism, Secularism, materialism and agnosticism. **BLIND GUIDES ALL made their bid for the soul of the world.**

False prophets have arisen all over the world and they have been feeding on the despair of the masses. They told the people that old God was dead, that humanity was bankrupt; that justice and mercy were outmoded phrases; and that only force could change misery, that only guns produce bread; that peace is sordid sickness; war true heroism.

Our neglect increased the power of these blind guides; until combined to threaten everything that is dear and sacred to us.

The four horsemen of the apocalypse have been turned loose; the false, hypocritical pretense of peace.

There is an atheistic and godless ideology prevalent in the world today that is bidding for the leadership of mankind... these false evil are blind guides.

"And if a blind man leads a blind man, both will fall into the pit."

May we not be led astray by lying propaganda, false leaders, blind guides.

An Easter Dawning

Blue starry night evaporates with dawn
Who scatters rosebuds in eastern skies.
Gold lilies in valleys array emerald lawns;
All nature is radiant in rainbow dyes.

Warm winds are gentle and echoing chimes
Beckon each soul to worship at will
Near the foot of the crude silhouette shrine
Of Easter implanted on the far lofty hill.

Imprinting a shadow in the rosy clouds,
Holy cross forever is a symbol undying,
Enduring in hearts of the human crowds
Living in its grace; all evil denying.

Buds of dawn burst forth in full bloom
In radiant brilliance, an Easter dawning.
Christianity triumphant o'er evil's doom,
The world is exuberant in joy this morning.

—GLORIA E. GOSNELL

Patients Active In Red Cross Rallys Here

Many N.N.M.C. patients shown their ability in publications and public speaking at this Red Cross campaign. have participated in a variety of programs including radio and vision shows, and Red Cross rallies. First to take the plunge was Sgt. L. E. Wimpee, USMC, 3-C, and Pfc. R. G. Locke, 3-C, who described their observations and experiences in Red Cross in Korea. Accompanied by Miss Davis, Field Director, Eastern Area Office of Red Cross in Alexandria, Virginia. Next, Don C. Dolly, USA, Ward 105, active in Anderson N.C., speaking at a Red Cross Rally March 18th. LCDR Francis DelMare, Tower 13, volunteered to make the same day that Montgomery County Chapter called to if there two patients who would be interested in being part of radio broadcast. On Sunday March 18th, he and Cpl. C. Hartley, Ward 6-C, did a special job on WBCC, broadcasting 1500 to 1515.

NNMC in Retrospect with RADM Morton D. Willcutts

ADM Willcutts assumed command of the National Naval Medical Center July 26, 1948. His entire command. The interim has been happy productive years for the station. ADM Willcutts has given active wholehearted support to every project that would increase the efficiency and scope of service rendered by this great medical institution he commanded. Always keenly aware of the importance of the welfare of personnel, he was directly responsible for the stepped-up tempo in athletic and recreational activities. An excellent golf course was completed and placed in operation. A Chief Petty Officers' Mess (h) and a Commissioned Officers' Mess (Open) were constructed and placed in commission. The station newspaper was enlarged and improved to better serve the personnel it represents. The Navy Exchange was moved from building 23 to building 2. The attractive store, veranda and outdoor patio was constructed along the main corridor. The better service offered increased net profits which reverted to the recreation fund of the station. The theater, almost unbearably hot in the summertime, was completely air conditioned. The facility of the Bank of Bethesda was installed on the main corridor of building 2. Living spaces for personnel were increased by the construction of additional hard surfaced

parking areas. Additional public quarters (F, G and H) were constructed to house key professional personnel on the station.

A Bone Bank was established, rendering access to live bone tissue for reconstructive surgery. The medical library was dedicated as the Edward Rhodes Stitt Library in memory of the late medical admiral who was the first commanding officer of the station.

The medical library was dedicated as the Edward Rhodes Stitt Library in memory of the late medical admiral who was the first commanding officer of the Naval Medical School. Among the public utilities, much of the inferior

Among the public utilities, much of the inferior wartime material was replaced, the galleys were equipped with stainless steel fixtures, sinks and working surfaces. Iron piping was replaced with copper tubing. The concrete floor in the basement of building 1 was covered with asphalt tile.

A concrete building was constructed just outside of the main building to house a 2,000,000 volt generator for x-ray studies and research in radioactive isotopes.

Additional greenhouses were constructed to provide flowers for patients throughout the hospital. The station was beautified by landscaping which included two 100 year old holly trees planted in the island in front of the main building.

Admiral Willcutts' two star flag flying from the mast of this station established a precedent for the Medical Corps. It was the first medical department command pennant ever flown in the U. S. Navy.

Personalities About The Center

DA Amott

Here is one girl who is responsible for many shining teeth around the station. Delores Amott, DA, spends most of her working day cleaning teeth.

A native of California, she was born in Englewood and took her scholastic training there. While attending high school she was very active in such sports as volleyball, swimming, baseball and basketball, the latter sport in which she is a two-year honorary letterman.

Upon graduation she worked as a dental assistant in Hawthorn, California. She held this job for two years and then on August 21, 1950 she became an SR in the US Navy when she took her oath in Los Angeles, Calif.

Recruit training and Dental Technicians School followed for Delores. Both were taken at Great Lakes, Ill. Upon completion of dental training she reported to the NDS here for duty.

Delores is quite a busy gal. She likes to sing semi-classics. This has earned for her the name "Canary" among her friends. She also played on the Admiralties Basketball Team.

In her life she has taken lessons in ballet, tap dancing, modeling, piano and voice. "None of these lasted over two months," admits Delores.

She likes her job and when asked why she joined the Navy, Delores said, "I wanted to specialize in the dental field and also I like to travel. One of these days I will put in for London, Timbuktu or Catch-as-catch-can."

SH1 Miller

Whenever "breaking horses" is mentioned we immediately tend to visualize a bucking bronc, a westerner with a ten gallon hat, and a rodeo. According to Orville R. Miller, SH1, of the Navy Exchange, who has broken his share of horses, it isn't always that way. "Depends on what kind of horses you're dealing with," he said.

Miller trained thoroughbreds for W. E. Shaw, an owner of the Kurer Empso fruit and vegetable canning company. The owner had about ten saddle horses and it was Miller's daily job to put them through their gait, and generally care for them.

"When an unbroken horse came in," Miller explained, "we first got him used to a saddle. We don't mount him though; just put the saddle on and take it off. After the horse is used to this, we train him to the bit. Finally we take him to a track and tie his head close to the saddle horn of a broken horse. By this the horse learns to go around the track, and his head being tied, he gets no ideas to buck. He is by then just about ready to be mounted."

Miller is a native of Brighton, Colorado. He attended the Brighton High School, where he was active on the varsity track and football teams. In track he excelled in the 100-yard dash and broad jumps, while in football he played fullback for one year.

With World War II imminent, Miller decided to join the Navy. October, 1940 found him in San Diego for boot training. Shortly after completing boots he was transferred to the USS Holland, AS 2. The ship was in the Philippines when the war broke out. He stayed aboard her for the remainder of the war. "She dodged a few enemy torpedoes and fired at some enemy planes. That was about the only close contact we had with the enemy."

Before Miller's transfer here in 1950 he did duty at Pearl Harbor, USS Yellowstone, AD 27, and NOB Argentinia, Newfoundland. While on the Yellowstone he made European trips to Italy and Greece and to Turkey in Asia. But of all the stations he has had he prefers Argentinia. Says Miller: "The country is bleak, but the fishing and hunting are very good."

The reporter asked the centenarian: "To what do you attribute your longevity?"

"Well, I don't know yet," replied the ancient. "I'm still negotiating with three drug manufacturers and two brands of liquor."

Sign in laundry window: "We do not tear your clothes with machinery. We do it carefully by hand."

Mary Hottinger

In an office, way back in the Commissary sits someone very few people see in a working day. She is Mrs. Mary Ann Hottinger, who takes care of the civilian personnel in the Commissary.

This is not the first time Mary has worked for the government. Kentucky born and Kentucky raised, she attended high school in Pineville. While in high school she took an avid interest in debating. Upon graduation, Mary went to Dayton, Ohio, and worked for two years as a civil service worker.

At the end of these two years she came to the Washington area. She then went to work in Rockville, Maryland, as a teletype operator in the Western Union office there. She worked in this job for five years and at the end of that time she came to the Medical Center's Recreation Department as a bookkeeper, a job she held for about 18 months. She recently went to the Commissary Department.

For pastimes, Mary enjoys dancing and swimming. In December 1945 Mary said "I do" and changed her name. She and her husband, a carpenter, are now living in Rockville.

CAPT. Cokely,

(Continued from page 2)

Medical School in Philadelphia. He obtained his degree from the latter in 1931.

CAPT Cokely then embarked on his Naval career. He interned at the Naval Hospital, Portsmouth, Va. Among his many tours of duty were: the Yangtze River Patrol in 1933, hospital duty in the Philippine Islands, U.S.S. Ranger, Naval Hospital, San Diego, and the old Naval Hospital here in Washington. He reported to the Medical Center February 13, 1945.

CAPT Cokely is certified by the American Board of Urology. He is also a member of the American College of Surgeons. He will report to the Naval Hospital, St. Albans, L.I., New York, for duty.

JETTY

"They teach them how to live on \$75 a month, then turn them back to us."

Not Much Research Involved

By R. M. Gismondi

SPORTS

T. Melchi once again poured on the steam and made available another string of glorious victories for the research team with a high game of 199 pins. It should also be mentioned that our own Bruce Talbot who recently produced that tremendous game of 97 pins, gave his contribution to the team's success with a total game of 97 pins, "Thank You Bruce."

FLASHES

The never ceasing tasks of studies and continuous experiments of American medical and practical sciences has made man progress faster than any other medium other than man's own will and determination to better the surrounding difficulties on his own accord.

Endurance, intelligence of high caliber, ingenuity and common sense are only some of the attributes possessed by the individuals concerned.

The Naval Medical Research Institute has received recognition, Naval and world-wide, as a center stepping stone to the ultimate goal of broadening knowledge over all of man's obstacles, pathological or physical, and how to deal with such obstacles.

One of many and main reasons why such credit is bestowed, is due largely to the undying and continual experiments run by the many and various departments within the Institute. Cooperation is one of the utmost importance and so is it pertinent to success, such unrestricted cooperation between these departments supplies that success. The officers and enlisted men, civilian employees, all join harmoniously to provide the necessary means to answer successfully the calls of duty that confront them daily.

A sincere and appreciative salute to all personnel at NMRI. (All the individual branches of science constitute the links of an endless chain, from which not one can be detached without destroying the harmony of the whole.)

SURPRISED CHIMES

Over the sound of the tapping of keys, over the humdrum of busy heels clicking in the corridors producing highways of traffic, over the seriousness of the daily tasks, comes the announcement of gaiety and awe!

Miss Gloria Gosnell, typist and poetess in the stenographer pool and HM1 Bob Burgess, PersOff, have silently and secretly, to the surprise of many, stood before God to unite their lives forever on 6 February 1951. Ronny Conaway, HM1(W) released the "restricted" information. They both went on leave to honeymoon in parts unknown, and returned with the indying sparkle of human love and understanding. Our sincerest and heartiest congratulations to you both.

EMERGENCY

Tragedy has again struck one of the personnel at NMRI. Homer E. Jones SN on the MAA force went on 30 days emergency leave to be at the bedside of his mother,

Miss McCormick Fire Wave to Receive PO Now Is Full LT.

LT. Edna E. McCormick, USN, received a promotion to full Lieutenant recently. She is presently the Blood Bank Officer in Blood Processing Department.

Miss McCormick first enlisted the Navy on October 2, 1942, Tacoma, Washington. She was first Wave to receive a Second Class Petty Officer's rating in the US Navy and was one of the first four enlisted Waves to be stationed at the Center, having arrived for duty January 4, 1943.

In August 1943, Miss McCormick was sent to officers training school at Northampton, Massachusetts and upon completion received commission of Ensign in the Hospital Corps. She was then assigned to Camp LeJeune, N.C., for duty with the Marine Corps.

Following the cessation of World War II hostilities, Miss McCormick was released to inactive duty. She accepted a position with the Spokane Community Blood Bank, Spokane, Washington.

The Navy, however, did not forget Miss McCormick. In October 1950 the need arose for an efficient Laboratory Technician and she received orders to again don her uniform and report for active duty here.

LT. McCormick is looking forward to a long and colorful career in the Navy. When asked about her return to the Navy, she said: "If I had been permitted to choose the one assignment in the entire Navy that appealed to me most, I would have chosen the one I now have." She is most enthusiastic about her work and derives much happiness in contributing her talents and skills to the great art of healing.

"... Boy, this new skipper is certainly a stickler for cleanliness..."

who was seriously burned when their home caught fire in Jonesboro, Arkansas, several damaging property contained within. In your prayers please remember their needy position, anything can booster their needed courage, prayers can.

PARTING THOUGHT

Marriage begins when you sink in his arms and ends with you arms in a sink.—Cosmopolitan

Till next edition—adieu.

Patients Here Active In Red Cross Rallies

(Continued from page 2)

On March 13, Cpl. R. L. Walls, USMC, Ward 131, Pfc. J. M. Novak USMC, Ward 5-B, and Pfc. C. E. Rakes, USMC, Ward 104, made excellent talks concerning their overseas contact with Red Cross to a report luncheon of the Alexandria Chapter in Alexandria, Virginia.

Four lucky patients from here heard Lady Astor talk to a group of Red Cross volunteers at a recent luncheon in the D. C. Chamber of Commerce Building. They were: Sgt. J. A. Krug, USMC, Ward 104, Pfc. C. E. Rakes, USMC, Ward 104, Cpl. G. A. Buenfil USMC, Ward 5-A, and Pfc. Joseph Riedinger, Ward 3-A.

Today we will learn whether Cpl. C. S. Hartley, USMC patient from NNM or M/Sgt. Julian A. Copelan, USA, a patient at Walter Reed, reigns as Mayor of Connecticut Avenue during the Easter Parade. Votes were cast by anyone who wore a Red Cross campaign button and the winner receives a round trip flight home with \$100.00 spending money. Both patients have spoken on local radio and television programs and received publicity in the newspapers. May the best man win!

NMS Lab-2 Wins Bowling League Crown

Naval Medical School and the School of Hospital Administration entered the trophy market in the bowling league, splitting the first four places between themselves. Med School took first and second places and NSHA settling for third and fourth spots.

NMS Lab-2, consisting of Ko-Stradtman, Rundell, De-Spofford and Gerlitz, took place by dint of a 4-0 win over Class 16 and a 2-2 split with "Grumpy" Rundell virtually winning the first match single-handedly with a once-in-a-lifetime 200-201-164 string.

Regiment and Company of A-1 took the measure of CPO and seemed to be a shoo-in for the title until they ran into a fight with the NMS Officers team. Trailing by a hundred pins after the first half, the aroused NMS foursome came back to take the next two halves the match. In their final game the Administrators returned into a buzz saw in Quar-

ter 12. "Beano" Roberts et al found themselves after a long slump and stifled title hopes. A new high score was racked up in this game Don Polizzi posted a Shannon a 188 and White a tremendous 780 total.

After holding NSHA-1 to a split, by a cheering section from NMS Officers coasted into place with a 4-0 win over

HA-4 squeezed into fourth ahead of CPO by means of a split with Lab-3 and then a decision over the Dental Officers helped no end by Laird's 2 game.

NMS Lab-2	43	21	.672
NSHA-1	42	22	.656
NMS Officers	39	25	.609
NSHA-4	37	27	.578
CPO	36	28	.563
Quarters 12	34	30	.531
Dental Officers	34	30	.531
NMRI	30	30	.500
NSHA-2	31	33	.484
H Internes	28	32	.467
NSHA-6	26	30	.464
Naval Hospital	29	35	.453
NMS Lab-1	28	36	.438
NSHA-3	28	36	.438
Lab Class 16	27	37	.422
Recreation	26	38	.406
NMS Lab-3	18	46	.281

considerable pride may be felt by team captains and others responsible for the smoothness of the league over the four months. Of a scheduled matches, 262 were played, a remarkable record for intramural sports, considering that watches, graduations transfers took a constant toll of players.

Record performances by the following bowlers were rewarded trophies:

Game—Roberts, Qtrs 12	243
String—Meitl, NSHA-2	586
Team String—Qtrs 12	1978
Charmed Circle	
Qtrs. 12	243
Qtrs. 12	206
ce, NSHA-1	207
Recreation	203
CPO	202
NSHA-4	222
ell, NMS Lab-2	200, 201

The spring bowling league began March 19 with twelve in contention. NMS Lab-2, the defending champs, must be led as the favorites, closely followed by the second and third NMS Officers and NSHA-4. However, use of the two-thirds cap. will favor some of the

Final Winter Sports Melee

With a game against the Fort Belvoir Wacs, (lower left) the NNSC girl's varsity team wound up a second colorful season of basketball. Part of the team (lower right) pose with "Shorty" Edwards, their coach. The season also had a comic ending in the game Admiral vs. Admiralties. In the picture (upper right) Williams, attired in a crepe hat, hip boots and holding an apple in a cup still manages to outjump the Wave center. The game resulted in a one point Admiralty victory. (upper left) The intramural league was climaxed with the presentation of trophies to the first, second and third place teams. Respectively: Commissary, EENT and Cardiology

other teams who have had to spot up to 100 pins in past competition. Meitl's NSHA-2 quintet will bear watching as will a revitalized Naval Hospital crew that appears fortified with the addition of some new keggers.

Mike Drickman's Naval Hospital Doctors—Arje, Cole, Walters O'Brien and McCarthy are an unknown quantity, who have been having practice sessions for several weeks in anticipation of making a big splash.

Dietz and his Lab-3 crew should show much better starting from scratch than they did with the impossible handicap they took over in the past league.

Lab Class 16 has shuffled its players and come up with two teams. Schroepfer's "A" squad won consistently against the top teams before and may prove to be the dark horse. Chief Ramos' "B" crew hasn't seen competitive action as yet.

Paul Well's Dental Officers ought to improve on their past performance, having some pretty fair bowlers on their roster. Bigger's NSHA-4 fivesome, potentially one of the best in the league, may also improve, finding the two-thirds handicap more to their liking.

CPO and NMRI complete the line-up of twelve. The Chiefs were tough opposition before and they have added strength. Research, an off and on outfit, practically unbeatable when Teter's hook is working and Talbot's straight ball is not backing up, will be in there all the way.

Man: "I can't see what keeps you girls from freezing."
Girl: "You're not supposed to."

Host: "Why are you washing your spoon in your finger bowl?"
Guest: "So I won't get egg all over my pocket."

"I wish we'd get a few shipwrecked sailors washed ashore," mused the cannibal chief. "What I need is a good dose of salts."

Adam's Apple Spells Defeat of Admirals

Ever since Eve the combination of women and the apple has spelled the downfall of man, and the novelty basketball game between the Admirals and the Admiralties March 12 was no exception.

Handicapped with red paper hats and rubber boots, the Admirals were required to carry an apple in a tin cup throughout the game. According to the rules as interpreted by referee Chief Sherin, every time an Admiral lost his hat, or dropped an apple, the Admiralties were awarded a free shot.

While the Admirals displayed great skill in making one-hand passes above the heads of their feminine opponents, the Admiralties employed an effective strategy of upsetting the apple cups.

Frequent complaints were voiced by the Admirals concerning the dubious impartiality of the referee as well as the integrity of the Waves' tactics. However, the complaining athletes were not above reproach themselves as they resorted to bending the tin cups or using their thumbs to hold the apple in place. And many an Admiralty who "accidentally" bumped into one of the tin cups received a shower of water for her trouble, for all the cups mysteriously became full of water.

The Admirals were represented by Devol, Brothers, Williams, Echols, and Kurzawski while Amott, Hopper, Madsen, McQuarrie, Olsen, Wadenstorer, Miss Whiteman, and Williams were in for the Waves.

After being defeated 14-13, the Admirals left the gym fatigued, and convinced that skill, height and masculinity are not match for the wiley ingenuity of woman.

Boy: A noise with dirt on it.

Admiralties Receive Individual Trophies

Members of the Waves basketball team received individual engraved trophies at a team banquet, Friday, March 9. After the steak dinners, which were provided by the Recreation department, Waves Barracks Officer LT. S. B. Butterfield awarded the trophies to the Admiralties. Coach "Shorty" Edwards was presented with a miniature silver basketball in appreciation for the many hours he has devoted to the team.

Shorty started the music rolling when he moved to the piano and played "Tonight We Love." "Moonlight Sonata" followed, contributed by Katie Glendenning. From then on, the entertainment was placed in the melodious voice of Dolores Amott, newest addition to the basketball team, she sang request after request for the Admiralties.

Receiving trophies were: Amott, Glendenning, Hamilton, Hopper, Johnson, Madsen, McQuarrie, Olsen, Salisbury, Miss Whiteman and Williams. Not present, but receiving trophies were: Miss Jarvi, Miller, Nelson, Pringle, Shook, and Wadenstorer.

Amid Chaos Waves Win Walk Away

As the audience laughed hilariously, the Admiralties walked away from the Bolling Field Wacs 44-7 in the NNSC gym the 6th. In a game full of blunders and misplays, the Admiralties increased their lead to 37 points at the close. Madsen ran up 30 of the points while McQuarrie dropped in 10. "Rusty" Olsen, who was celebrating her birthday, switched from guard to forward in the closing moments of the game to score 4 points.

Amid such unexpected things as having to stop the game while a kleenex was sent in for one of the Wacs who dropped her chew-

Coach's Corner

Chips Fortin, forsaking use of his usual six iron off the sixth tee, smacked a soft midiron into the cup for the first hole in one of the year on the local course. Captain Adrian J. Delaney holds the record for having been the first to can his tee shot on the sporty 190-yard Par 3 hole. Pablo Wells, popular kegler, sank a four wood on the sixth last spring. Number six offers a fine challenge to the shot-maker, a rolling approach, once safely over King's Ditch, a cavernous trap hugging the left fringe of the green and a sloping bank guarding the starboard apron. Of course, prior to teeing off, the golfer is distracted by the gazelle-like movements of the racquet wielders, the rumbling of approaching golf carts, trees bordering the fairway on the left and cars parked by the entrance to the garage beneath the Nurse's quarters. The ball is teed and at the top of the backswing someone says, "Hold it!" Small pause while the foursome on the tee reaches for the code book in the wing of the bridge, vainly thumbing the pages for interpretation of the wigwagging of the foursome on the green. Once more the ball is teed, for you have been waved on, address that gutta percha, start the slow backswing and across the tee bounces a cannonball serve of Frank Kyes, small interruption, errant ball returned to the court, address to Top Flite... a soft five hangs in the air, catches the left hand collar of the green and trickles into the yawning trap, nestling into a well defined heel print. Captain Jud Crawford, architect of the local layout and incidentally, a sub-par shooter, every day that he stepped on the first tee, habitually used a three-quarter six iron on this hole and never missed spanking the putting surface.

The Potomac River Naval Command League has been incorporated into a larger athletic set-up namely the Mid-Atlantic Military Conference. Membership is distributed among the Army, Navy and Air Force units ranging from Fort Meade to the Norfolk activities. Present plans call for the operation of a Northern and Southern division. Inter-division play-offs will determine the conference championship. Two years ago I had the occasion to talk to an individual, representing the higher echelon of Navy athletics, on the subject of intramural participation on an organized basis. This year, PRNC came through with a basketball tourney which attracted more spectators than the finals of the Varsity competition. It only took three minutes the other day to convince the Marines, Army, Air Force and other Navy representatives that intramural winners should meet in a tournament at the end of every Varsity season. First on the athletic agenda is softball; Varsity and Station; so all of you who enjoy belting the horsehide at 5 in the afternoon, contact Chief Reynolds.

ing gum, or Madsen finding her own wrist watch on the floor and turning it in as a lost one, the game had few serious aspects. With Shook home in Alabama on leave, Madsen, McQuarrie and Miss Whiteman were in throughout the game with guards Olsen, Hopper, Wadenstorer and Williams.

Although the forwards had their eyes on the goal, they had much difficulty in handling the ball. The Wacs, who seemed to have an off night too, offered little competition to the local Waves.

Dental Explorer

By Phil Burger

As I sit here tonight I am trying to thing (think-with what?) what has happened in the 'tooth locker' that might be worth reviving. So as I ponder let's see what comes out . . .

Another addition to the rapidly becoming famous handle of "The Badge" is E. R. Campbell, DT2, who recently assumed the duties of Barracks Master at Arms. The "Artist" or "Rembrandt" as we know him here is getting off to an excellent start on a hard and thankless job. Hard so far as the duties are concerned, and thankless from the standpoint that you can't please all the crew all the time.

To give a well deserved pat on the back where one is deserved, we should all turn eyes toward the 'Coach.' A day seldom passes without the strains of the 'Coach's' voice calling a greeting to 'Spider,' 'Taps,' 'Tiger,' or 'Louella,' or his stopping to pass the time of day with one of 'his boys.' That is the 'Coach!' We say "THANKS." Thanks for being a friend when something is amiss.

We are all very happy to see Capt. Grunewald, who was under the weather for a few days, back on his feet and feeling better again.

The welcome mat was extended for CDR. R. C. Millard who recently reported for a tour of duty aboard the USS NDS. Also recently reporting aboard was LT. J. A. Mitchell, and T. G. Cato, DN. Welcome aboard and smooth sailing.

We have a number of daydreamers about NDS, so lets take time out to look in on a few of them and see what their dreams are: Diaz-sunny California (even with its 'liquid sunshine') . . . McCline —A snazzy '37 Chevy hotrod . . . Phillips—how to be more regulation . . . Dr. Flocken . . . how to get that Greyhound bus . . . Campbell—what to draw as the greatest picture of all time . . . Arnott—how to win friends and influence people . . . Dr. Wells—how to roll that '300' game . . . and Burger—how to write a column that will be read.

With the coming of spring all of the greasemonkeys can be found in back of #123 exchanging viewpoints and tools in an effort to get ready for a big summer in the Nation's Capital. The cars are all getting that wax job, now all they have to do is run.

Speaking of running, I guess that is the best idea that I have had all day. I'll be seein' you . . .

of Hospital Administration.

The lectures were incorporated in the course on Safety Engineering administered at NSHA. The course is given in hopes that the "80 per cent of all accidents which are direct results of unsafe acts," according to Mr. Turnbull, can be reduced considerably.

On March 10, Admiral Willcuts celebrated his birthday. He was pleasantly surprised that morning when five patients and a Red Cross worker appeared with a beautiful cake and coca colas, and sang "Happy Birthday." The patients who took part in this festive event were Pfc. C. E. Rakes, USMC, Ward 104, Sgt. J. A. Krug, USMC, Ward 104, Pvt. J. L. Hogan USA, Ward 131, Cpl. D. R. Pound, USA, Ward 133 and M. S. Crossey, HN, USN, Ward 5-B.

Crew's Library:

Green Thumb Aids For Gardeners

No matter if you are a seasoned "dirt grubber" or the rankest of amateurs, this is the season when your fingers begin to itch to make a garden! Crew's Library is prepared with books to help you find success and satisfaction in beautifying your yard, be it large or tiny. Among others you will want to look over the following:

HOW TO GROW VEGETABLES by Cospier and Logan. This is a complete vegetable and fruit-growing book with chapters on advance planning, soil preparation, seed treatment, pest control, etc., for use in all parts of the U.S.

10,000 GARDEN QUESTIONS— Rockwell. Divided into ten sections, each covering a different phase of gardening, with an introduction by an authority in that field, this book covers soils and fertilizers, ten leading garden flowers, plant troubles and their controls home vegetable gardens and many other subjects.

GARDEN FLOWERS IN COLOR by Foley is a very valuable guide book for the beginner and a reference book for the advanced gardener. Its beautiful color illustrations will help you plan your planting and show you ways of combining plants in beds and borders so as to achieve the desired results for mass, height and color.

THE NEW GARDEN ENCYCLOPEDIA will tell you when and where to plant and transplant, how to grow every flower, vegetable, and shrub and how to plan your garden for economy, seasonal change and year-round beauty.

COMPLETE GARDEN HANDBOOK: Each step from preparing the ground for a garden to the final use of the product is explained in this book; each flowering plant or shrub has a separate article with directions for the kind of soil, location, planting, culture and varieties.

WEEKEND GARDENER—Jenkins: For gardeners with limited time and limited space, here is a good all-round advice as to selection of flowers, vegetables, trees and shrubs to grow with methods of cultivation to give a maximum of satisfaction.

Laugh Awhile

Joe: "Why didn't you laugh at the Captain's jokes last night?"

Jim: "Didn't have to—I'm transferring Friday."

Shipwrecked man to another who wants to share his raft: "Before you get on, old man, I think it's only fair to warn you that I have a rather nasty cold."

A great many so-called open minds should be closed for repairs.

You try to write
No ink will trickle;
Put pen in pocket,
And instantly it'll.

"That's the guy I'm laying for," muttered the hen as the farmer crossed the yard.

Letter from library to HN: "Your library card will be canceled unless you return the librarian you took out last week."

Lab 15 Under Low Power

By Moe and Gizz-Moe

Greetings, Ship-Mates. This seems a proper greeting, seeing that so many of our ill-fated classmates have received that dreaded call from the Personnel Office concerning their next duty station—"Which fleet and what type ship?"

Turning to a much more pleasant subject, let's see what our notorious classmates have been up to during the past couple of weeks.

You are perhaps wondering who the nut is that runs up and down the third deck passageway every morning with a butterfly net in each hand. Have no fear—it is only "Frank Buck" Fronko trying to corner an escaped hamster.

Seems like "Robbie" Robertson had a little accident while driving through the mountains between here and Hagerstown. Don't worry, Robbie, it won't be long before hoodless cars are in style.

Now that "The Voice" (loud and often) St. John has left Pathology, the people in this department will have to resort to the use of the obsolete "squawk-box" again. St. John is now giving the Blood Bank the benefit of his talents.

It is rumored that Arthur Murray has hired several of our ambitious classmates, including Stastny, Hurst, Bartley, Robinson, "Jonesy" and "Louie," to instruct his classes in a new step known as the "Winchester Shuffle."

Looks like "Bee-Bee Oddis has run into some rough going down at the "Show Boat"—Ask him to show you his battle scars.

Holtman, Jones and Peterson made an automobile excursion to Buffalo a while ago. From the way we get the story, Holtman was hired by Peterson as a chaperone on the trip. Don't they trust you, "Jonesy?"

Ball and Chain department: Kimmel and Mattox are the latest to leave the ranks of Lab. 15's bachelor society. Married life must be wonderful, but here we are, still safe, sane(?) and single.

Next in line for the preacher's door will probably be "Willie" Williams who has been pulling a sleeper on us for some time now.

This about puts the lid on another of our exclusive bull sessions, but with the grace of God and the Personnel Officer, we'll see you again next time.

Admiraltes Finish Basketball Season in Impressive Win

Running up an easy 45-19 score against Fort Belvoir Wacs March 8, the Admiraltes wound up the current season with a total of 16 wins and 4 losses.

One of the Belvoir guards seriously injured her ankle in the middle of the game and had to be carried from the floor. The Belvoir team, finding themselves very short of players at this point, asked permission to use "Jug" Martin, a visiting Wac from Camp Pickett as forward.

Trailing 3-23 at the half, Belvoir picked up in the last two quarters but could not come anywhere near the Admiraltes who were playing good ball with few errors.

Maggie McQuarrie, who usually feeds the ball, was on from the first whistle, scoring 24 points alone. Madsen followed with 11, and Miss Whiteman with 10. On the guard's end was Hopper, Amott, Olsen, Wadenstorer, and Williams interchanging.

Navy Fights Epidemics in Far East With Special Lab Ship

A complete Navy epidemic control laboratory, installed aboard a landing ship for mobility and equipped to cope with epidemics of contagious disease, has arrived in the Far East.

The ship, an LSI(L)—Landing Ship, Infantry, Large—used during World War II in Okinawa landings, is designed to move into infested ports or beachheads and knock out disease before it spreads to epidemic proportions.

Remembering that "typhus and allied diseases have caused more military defeats than all the generals in history," both Army and Navy medical officers have stressed control measures in Korea.

Typhus has been known variously as "war fever," "camp fever," "ship fever," "poverty fever," and "jail fever." It cannot be accurately diagnosed by physical symptoms alone. Laboratory blood tests must be made before treatment can be determined. The new floating laboratory will cut drastically the time required to send blood specimens to permanent laboratories in Japan the Navy said.

The new laboratory has been designated "Fleet Epidemic Control Unit One". Personnel includes two Navy physicians, entomological, bacteriological and sanitation specialists and 15 enlisted Navy hospital corpsmen who are all hand-picked technicians.

Commanding officer of the medical unit is Commander Joseph M. Coppoletta, MC, USN, a native of River Edge, N. J. He formerly headed a Navy shore based epidemic disease control unit at Norfolk, Va.

Commander Herbert S. Hurlbut, MSC, USN, a former entomologist with TVA, left a post with the Naval Medical Research Institute here to join the unit.

Ensign David O. Hamrick, MSC, USN, is in charge of procedure in the shipboard laboratory. Bacteriologist and former University of Florida faculty member he says the laboratory is one of the most complete and compact disease research units ever assembled—with white mice and rabbits not forgotten.

In charge of work with war-stricken Korean natives is Lt. Gerald A. Martin, MC, USN, of Baltimore, Md. Doctor Martin was reared in Korea, where his father taught medicine at Seoul University. He speaks Korean fluently.

Field work is directed by Chief Warrant Officer Robert S. MacDonough, HC, USN, University of California-trained sanitary engineer. He directs collection of specimens for diagnostic tests, immunization of population and decontamination of infested areas.

The Navy plans to send in advance eight vehicles, equipped with insect-killing power sprayers and drainage ditch gear, to any beach or port where disease threatens. When the laboratory ship arrives, 45 tons of epidemic

Navy Belles

By George

I hope you all had a wonderful Easter holiday, with lots of Easter things.

Just Around Our House

Erma Cooper turned in Sunday the 11th, on Ward 29 for a short rest. Hope you are feeling better soon.

Dotty Fleming is making mother a beautiful afghan. It should have it ready by Christmas. Well maybe Mother's Day, if we have a few more rainy days.

The girls got ready for the dance weeks before the 22nd. Ruth had to make Irene get ready so she could wear the same dress all evening. Did you Irene?

Do you wonder why you hear all the funny noises around house? Our neighbors are snowed in a French class which started the hospital a few weeks ago.

Our bride of the month is Don McNaughton, who was married March 9 to Jerry Mattox. We wish the best of everything to the happy couple.

The gayest thing of the month was the basketball game between the Admirals and Admiraltes—was quite a game and a long time since we saw anything so hilarious.

My deepest to two girls for letting their names mixed last time. Shirley Dennett is the DeWaves on night duty at our hospital. Jeanette Delk is a hospital Wac.

Do you know the Wave number? — Jeanette (Suchom) Delk was married last December and lives ashore. She comes from Wisconsin, and is attending Physical Medicine School.

See you around. I still remember the girl from the heart of Maryland.

control supplies, including large quantities of DDT, will be ready for use.

The job of getting the unit to infested areas belongs to Lt. George P. Miller, USN, of Astoria, Ore. He is skipper of the 160-foot 385-ton remodeled landing ship. Idea for the unit and its floating laboratory was advanced by Captain Albert T. Walker, MC, USN, Pacific Fleet Surgeon. The Navy will watch the success of the unit with an eye toward organizing other units aboard larger amphibious ships.

CDR Dean Relieves LCDR Crawford As Administrative Officer, NNMC

DR H. T. Dean **LCDR C. L. Crawford**

LCDR Charles L. Crawford, MSC, USN, was relieved recently of duties as Administrative Assistant to the Commanding Officer, NNMC, LCDR Henry T. Dean, MSC, USN.

Mr. Crawford reported to the Medical Center in April 1946 from Office of the District Medical Officer, First Naval District, Boston, Mass. He has been in the naval service for 32 years. During his four-year tour of duty here he has contributed in a large measure to the efficiency and the well-run atmosphere of this large medical center by untiring efforts, devotion to duty and loyalty to his superiors. LCDR Crawford reported to the Chief of the Bureau of Medicine and Surgery duty in the Armed Forces Medical Regulating Office.

Taking over the difficult task as Administrative Assistant to the Commanding Officer, NNMC, is LCDR Dean. Mr. Dean is no newcomer to the Medical Center. He reported here for duty as Finance Officer, the Armed Forces Medical Procurement Agency in New York.

Mr. Dean also "came up through the ranks" to his present rank of Lieutenant Commander with 31 years of service. He brings to his new post his unending energy and many capabilities as an administrator.

Nickie Ann Query Returns For Check Up -- "All Well and Normal"

Almost eight months ago, August 28, 1950, the NEWS carried a lead story about a little girl whose life expectancy had been more than tripled by an operation performed here for the time. Recently Nickie Ann Query returned for her first check up. After several tests and physical examinations, the cardiologist's report came: "all well and normal."

Nickie was a thin child who tired easily with the regular amount of play carried on by other children. She had no appetite and was listless. This was caused by a condition closely resembling "blue baby". In her case, an abnormality which connects the pulmonary artery to the aorta and which normally closes at birth remained open. To correct this condition, surgeons entered Nickie's chest and tied off the artery with non-absorbable sutures.

Now, eight months later, her mother says: "She's improved one hundred per cent—in fact, she goes around like a steam engine all the time." Nickie has gained eight pounds, is an inch and a half taller and "her little face has quadrupled." Another thing which Mrs. Query is happy to announce is that her daughter has no more blue tints.

(Continued on page 3)

Medical Department Personnel Awarded Action Decorations

The Navy's Medical Department Personnel serving with the Marines in Korea have been awarded the following decorations for outstanding performance of duty while in action against the enemy:

Silver Star Medal

G. L. Dunn, Hospitalman, USN, Montgomery, Alabama.

G. C. Mueller, Hospital Corpsman Third Class, USN, Shaker Heights, Ohio.

J. E. Hazelton, Hospital Corpsman First Class, USN, Battle Lake, Minnesota.

Legion of Merit

CAPT. E. R. Hering, MC, USN, Lemon Grove, California (Gold Star in lieu of third award).

Bronze Star Medal

W. E. Moffett, Hospital Corpsman Second Class, USN, Rio Frio, Texas.

LCDR. Jack Kelley, DC, USN, Latrobe, Pennsylvania.

Letter of Commendation (with combat "V")

T. F. Henzey, Hospitalman, USN, Cleveland, Ohio.

R. A. Showstead, Hospitalman, USN, Boston, Mass.

W. E. Moffett, Hospital Corpsman Second Class, USN, Rio Frio, Texas.

L. Des Jardins, Hospital Corpsman Third Class, USN, Port Huron, Michigan.

C. P. Carroll, Hospitalman, USN, Graham, Kentucky.

LCDR. W. C. Brandon, DC, USN, Portland, Oregon.

LTJG. G. R. Farrell, MC, USN, Philadelphia, Pennsylvania.

LTJG. Ramsey MacCordy, MC, USN, St. Petersburg, Florida.

LTJG. Henry Litvin, MC, USN, Philadelphia, Pennsylvania.

M/Sgt. and Mrs. Query who brought their daughter, Nickie, for a checkup, radiate their joy at hearing the cardiologist's statement that Nickie is in good health.

RADM Clifford A. Swanson Assumes Command; Relieves RADM Willcutts

Rear Admiral Clifford A. Swanson, Medical Corps, USN, assumed command of the National Naval Medical Center March 30, 1951, relieving Rear Admiral Morton D. Willcutts, MC, USN.

The change of command ceremony was an informal affair conducted in the office of the Commanding Officer in accordance with established naval custom. The Commanding Officers of the five subordinate commands were present and stood at attention while each of the admirals read his orders. Admiral Swanson, the new commanding officer, addressed the assembly with a few brief remarks.

Admiral Swanson has been on duty in the Bureau of Medicine and Surgery, Navy Department, as Surgeon General, U.S. Navy and Chief of the Bureau of Medicine and Surgery since December 1, 1946. Appointed to this office at the age of forty-five, he was one of the youngest medical officers receiving this high office.

A native of Marquette, Michigan, the Admiral distinguished himself early in his scholastic life. He was graduated from the Marquette High School as salutatorian, and in 1921 from the Northern State Teachers College, Marquette, Michigan. In 1925 he received the degree of Doctor of Medicine (magna cum laude) from the Medical School of the University of Michigan at Ann Arbor.

Appointed Assistant Surgeon in the Medical Corps of the Navy, with the rank of LTJG on June 15, 1925, he advanced progressively in grade to that of Captain, MC, to date from April 1, 1943. On December 2, 1946 he was appointed Surgeon General of the Navy and Chief of the Bureau of Medicine and Surgery, with the accompanying rank of Rear Admiral.

As a young medical officer in 1925, he served his internship at

the USNH Chelsea, Massachusetts and in August 1926 he joined the USS Dobbin. Thereafter he had the usual duties ashore and afloat of an officer in the Medical Corps, including three years' service at the USNH Canacao, Philippine Islands. He was already interested in the diseases of the eye, and while in the Orient saw many of the eye conditions so prevalent there. In 1935 he circumnavigated the globe, "Four hundred and fourteen years after Magellan," as he jokingly expresses it.

At the outbreak of World War II he was on duty as an Instructor at the Naval Medical School, Washington, D.C., and while in that assignment did valuable research on night vision, color vision and the effect of pressure and oxygen consumption on the eye, which was of great value in both aviation and submarine medicine. He served as physician to the Late Secretaries of the Navy Claude A. Swanson and Frank Knox. He also served as an Advisor for the design and equipment of the eye, ear, nose and throat department of the new hospital ship Solace. In February 1943 he was again assigned to sea duty, this time as Senior Medical Officer.

RADM Swanson New CO

(Continued from page 1)

ical Officer of the battleship Iowa and later served on the staff of Commander, Battleships, Atlantic Fleet.

In January 1944, he returned to Washington, D.C. and reported for duty at the Naval Dispensary. In this assignment he also served as Operating Surgeon at the Naval Hospital here, performing the delicate and highly specialized fenestration operation for the relief of otosclerosis. He was one of the naval surgeons who accompanied the late President Franklin D. Roosevelt's party of the Teheran Conference and also represented the United States at the Pan-American Eye Conference in Montevideo. During this tour of duty he was the medical officer designated to accompany the Congressional Committee making an inspection of the Pacific War Area, visiting Hiroshima and Nagasaki, and was present at the official party luncheon given by General Douglas MacArthur.

It was for his excellent performance of duty on these occasions and for the valuable research work done, particularly of value to aviation and submarine medicine, that he received a Letter of Commendation, with authorization to wear the Commendation Ribbon, from the Secretary of the Navy.

On December 1, 1946, at the age of forty-five, he was appointed Chief of the Bureau of Medicine and Surgery and Surgeon General of the Navy—the twenty-fourth Chief and the twentieth Surgeon General of the Navy. The office of Surgeon General was not created until 1871, and the first four incumbents of the Office of the Chief of the Bureau did not bear this title. At the time of his appointment he was one of the youngest medical officers appointed to this high office, and the second from Michigan, The Wolverine State.

He has had the following post-graduate courses: a general post-graduate course at the Naval Medical School, Washington, D.C.; in pathology at Harvard University, Cambridge, Massachusetts; and the University of Pennsylvania, Philadelphia, Pennsylvania, in diseases of the eye, ear, nose and throat, including a course in bronchoscopy.

In addition to the Commendation Ribbon, Rear Admiral Swan-

son has the American Defense Service Medal, the American Campaign Medal, the European-African-Middle Eastern Campaign Medal; the World War II Victory Medal, and the Medal of Merit—Government of Mexico.

Dr Swanson was married in 1939 to Vivienne Ackerman of Memphis, Tennessee and New York. They live at Quarters "A" on the station.

Dr. Swanson possesses a regular Fellowship and Honorary Fellowship in the American College of Surgeons. He is a Fellow of the American College of Physicians; Fellow, American Academy of Ophthalmology and Otolaryngology; American Laryngological, Rhinological and Otolological Society; Diplomate of the American Board of Ophthalmology; Diplomate of the American Board of Preventive Medicine and Public Health. He is a Member of the Board of Governors, National Board of Medical Examiners; Member of the Board of Directors, Gorgas Memorial Institute and Member, General Advisory Committee, National Society for the Prevention of Blindness.

He is a Fellow of the Aero Medical Association, and a Member of the Board of Corporators, Episcopal Eye, Ear and Throat Hospital, Washington, D.C.

He is an Honorary Director of the American Foundation for Tropical Medicine and Honorary Fellow of the American Association for the Surgery of Trauma and the International College of Surgeons. He is a Member of the Naval Historical Foundation; American Medical Association and holds the degree of Honorary Doctor of Laws, Northern Michigan College of Education. He is also a member of the Army and Navy Club of Manila, Philippine Islands, and the University Club, Washington, D.C.

Rear Admiral Swanson has written a number of professional articles dealing with his specialty published in the U. S. Naval Medical Bulletin, the Journal of the American Medical Association, Medical Clinics of North America, Transactions of the Academy of Ophthalmology and Otolaryngology, and the American Journal of Ophthalmology. An important article was printed in the Proceedings of the U. S. Naval Institute.

Before primitive men learned to write they used knotted cords for keeping records. This device, called "Quipus" or "quipos" from the famous Inca practice, was the forerunner of the still-followed habit of tying string around a finger as a memory jog.

Marine Cpl. Chosen 'Mayor of Conn. Ave.' For Easter Parade

Cpl. Carrol S. Hartley, USMC of Darlington, South Carolina, a 20 year old patient in the Naval Hospital here, was selected by popular vote as the Honorary "Mayor" of Washington's famous Connecticut Avenue and presided at the Connecticut Ave. Easter Parade.

The Campaign for "Mayor" was conducted by the Connecticut Ave. Businessmen's Association and the voting was done by anyone wearing a Red Cross button or having a certificate of donation to the Red Cross. Runner-up for the title was M/Sgt. Julian Copelan, a patient at Walter Reed Hospital.

In behalf of the Connecticut Avenue Businessmen's Association, Commissioner Donohue presented Cpl. Hartley with an award of \$100 and a round trip ticket home. The consolation prize of \$50 and a round trip ticket home was presented to Sgt. Copelan by Jerome McKee, president of the Businessmen's Association.

The day's activities started with a brunch at the DuPont Hotel where Cpl. Hartley and Sgt. Copelan were guests of the Businessmen's Association. The two candidates were then taken to the Mayflower Hotel where they were introduced to other notables including models Mary Ann Larsen and Julie Mairs. The best dressed dog was selected with the candidates serving as judges in this contest. The boys then joined the parading throngs along the Avenue riding in a beautiful convertible. Following this the winner was announced.

At a reception held in his honor by the American Women's Newspaper Club, Cpl. Hartley was presented with an Easter Egg that had been dyed by Mrs. Truman. The

Are You Afraid?

It is a popular practice for some psychologists and human relations experts to tell people that they should rid themselves of all fear. Fear from fear has become a kind of universal goal set before men. Few people realize that one of the surest ways to destroy human nature would be to deprive it of all its reasonable and instinctive fears. Strong characters are those that are moved by none but reasonable fears, strongly moved by them. Weak characters are those who are so strongly moved by them, or to no fear at all.

Fear is nature's means of moving men to defend and protect themselves against danger and evil. The basic reasonable fear is fear of God, i.e., fear of God's wrath and His punishments. This need not become an unreasonable fear, because God has given to every man the means needed to escape His wrath and punishments. The man fears God will naturally be a good man, a man who honors God, his neighbor and keeps all the commandments.

Fear is also intended to serve as a means of defense against moral evils. Man is not only bound to preserve his life, but he is bound with instinctive fears of those things that threaten life. A person who takes precautions against epidemics, infections, accidents, etc., is acting on reasonable fear, so long as his greatest fear is the fear of offending and losing God. There is also a reasonable fear of indigence and want, which is to be tempered by hard work and trust in Divine Providence.

It is the weak character that succumbs to foolish or unreasonable fears. All men who have given up fear of God will find themselves subject to foolish forms of fear. Some fear loss of reputation, some fear a lessening of their income as the greatest evil, even though they could live comfortably on half of what they have. Some fear disease unreasonably. Some fear ghosts and other mysterious forces that they know nothing about.

The only sense in which freedom from fear is a valid goal for human beings is that in which it means the elimination of unreasonable fears. Such will never be gotten rid of by any man who does not fear God more than anything in the world.

Song of the City

The city sings. A song spins from the whirling mass of sound, Catching a rhythm from footsteps as on the pavement they pound. The song is endless, a ballad heard in every alley and street, The pulse of life within the heart of cold steel and concrete. Its people are the notes, their way of life is the key Contrasting strange chords in weird melody.

And the song strikes a key; a bright chord is heard! A cosmopolitan note whose deep richness is stirred In the elegant structures of the elite neighborhood Of glittering theatres where famous persons have stood And in eloquence have delivered Shakespeare's great plays To the glamorous gay audience of smooth cultured ways, The opera house, the museums and exclusive night clubs, Long shiny limousines polished gleaming to the hubs. And this is a ballad in the song the city sings, A ballad of security and unlimited rich things.

A newsboy shouts "Extra" from his stand on a curb; Trolleys clang, brakes squeal, yet do not disturb Pigeons hobbling and feeding in an overcrowded park, Or the blind beggar, cane tapping his way in the dark. An off-key note rings from the alleys of skid-row, In a long sour tone vibrating low— A drunk slumps in stupor amid garbage and trash, Harsh laughter echoes above noise and blaring crash Of a player piano in a cheap smoke filled cafe. As a ragged urchin pauses by the drunkard to say, "Come home with me Pop," but is rebuffed with a curse As the drunkard vaguely rouses, his condition still the worse. Urchin son slowly turns, little face streaked with tears, Young-old child burdened with incomprehensible fears, Bred in filth such as rats infesting the water-front. Learning to thrive for survival, to scour and to hunt In the stench of skid-row for just something to eat— Learning to hide and outwit the cop on the beat! And this too, is a verse in the song of the city, An off-key verse written in heartbreak and pity.

Gloria E. Gosnell

Foxes abound on America's Aleutian Islands in three colors—red white and blue. The blue foxes are really white ones with a dietary deficiency, notes the National Geographic Society.

The "torpedoes" referred to Admiral David Glasgow Farragut during his Battle of Mobile Bay "Damn the torpedoes, full speed ahead!" were actually mines.

CAPT F. P. Kruez Transferred to Calif. for Duty at Oakland

The Naval Hospital again "good luck and a happy of duty" to another of its officers of Service. CAPT Frank Kruez, MC, USN, was transferred recently for duty at the Naval Hospital, Oakland, California. CAPT Kruez had been the Chief of Orthopedic Service since resigning here in 1945. Relief for CAPT Kruez is CAPT Chalmers R. MC, USN, who reported here to the Naval Hospital, Oakland, California.

CAPT Kruez's native state is Oregon, where he was born October 10, 1904. He attended Marquette University and Northwestern University. He graduated from Northwestern in 1930. He also attended the University of Vienna, Vienna, Austria.

In 1930, CAPT Kruez entered the Medical Corps of the Naval Service and his first tour of duty was at the Naval Hospital, Great Lakes. Then followed duty at various stations. Among the naval hospitals he has served at are: Annapolis, Washington; Canacao, and two tours of duty at the Naval Hospital, Philadelphia, Pa. He has also served on board various vessels including the USS Alaska while in the Asiatic Fleet, the USS Oahu while on the Pacific Patrol, the hospital ship

Madame Auriol Visits NNMCM

Madame Auriol, left, the wife of the French President, and Madame Bonnet, wife of the French Ambassador to the United States, are met by RADM Willcutts and CAPT Gillett, CO, NH. The dignitaries were conducted on a tour of the hospital, visiting wards 3C, T-18, the nursery and other departments in the hospital.

News Shorts From The Editor's Desk

Aboard the USS Repose in Korean waters — A Pasadena, California Navy hospital corpsman serving aboard the hospital ship USS Repose off Korea is glad his Armenian-American parents taught him the language spoken in their native land—and so are fifty Turkish soldiers—wounded, fighting with United Nations forces in Korea.

It all started when the Repose made a 30-mile dash through enemy minefields to rescue wounded members of the Turkish Brigade during the evacuation of Chinampo.

When the word got around that hospitalman Barkev H. Aharonian, USNR, spoke the difficult Turkish language, he was taken off his regular ward duties to spend full time interpreting for the Navy doctors. Aharonian a graduate of Pasadena City College, talked to the Turkish patients and described their troubles to the doctors. He assisted the doctors in minor surgical operations for the wounded Turks. Later he read and interpreted the war news for them.

Reduced round trip leave fares for military personnel, including Cadets and Midshipmen, traveling on written authority for leave, pass or furlough have been extended by railroads to January 31, 1952. Previous limit set was March 31, 1951.

(AFPS)—United States scientists may soon be busily engaged in building a moon. It is no secret that the launching of an artificial earth moon both for warfare and peaceful purposes, is being seriously considered by leading American scientists.

The moon definitely can be built and would be used for observations. The possibility of television recordings of what is happening in an enemy country is not being overlooked. The earth satellite that might cost a billion dollars or more, would be projected into its outer space position by rockets. It would

Hon. C. J. Brown Pays Tribute in Record To RADM Willcutts

On March 21, 1951, in the House of Representatives, the Honorable Clarence J. Brown of Ohio delivered a short speech in recognition of RADM Willcutt's retirement. The speech, taken from the Congressional Record, is reprinted:

"Mr. Chairman, I have asked for this time out of order to call to the attention of the House a news report which appeared in the newspapers this morning announcing that on April 1 Admiral Morton D. Willcutts, the head of the Naval Medical Center at Bethesda, Md., will retire from active duty, after having served his country and all humanity ably and well for 34 long years.

"Many of the Members of the House know Admiral Willcutts and appreciate his fine qualities and his great ability as a surgeon and as a physician, and the exceptionally remarkable services he has rendered this Nation as an officer in the Navy of the United States. I believe all Members of the House will join me in paying tribute to this great American and outstanding naval officer. I am sure we all wish Admiral Willcutts well upon his retirement to private life. It is our hope he may enjoy many years of good health and pleasant days in the future. Of him we can well say, 'Well done, thou good and faithful servant.'"

Bureau of M & S Reveals New 20 Week Instruction for H.C. Schools

BuMed has announced that selected applicants for the hospital Corps will receive a twenty week course of instruction in the Basic Hospital Corps Schools, effective April 1. Previous length of course was eight weeks.

The educational program for personnel of the Hospital Corps of the Navy is divided into four levels. They are: the lower, or basic school, providing the elementary professional education of new members of the corps; an advanced course designed primarily to prepare Hospital Corpsmen in the top three enlisted ratings for duty independent of medical officers; specialization courses training qualified Hospital Corpsmen in the technical specialties supporting medical science; and a school directed to qualify Hospital Corps Officers for administrative duties incident to the operation and maintenance of Naval Hospitals and other medical department activities.

Applicants selected for the Hospital Corps are required to meet certain high standards as to mental, moral and physical fitness. Personnel who meet these high standards and who are accepted for the Hospital Corps receive their primary professional education at one of the Basic Hospital Corps Schools. Students must attain a proficiency rating of not less than 62.5 per cent in order to graduate from the school. A period of training in general hospital duties, with emphasis upon practical nursing care follows graduation from the Hospital Corps School. This period of training is given at one of the Naval Hospitals.

The extension of the course to 20 weeks has been brought about to allow additional hours for the instruction in Nursing, First Aid, Minor Surgery, Hygiene, Sanitation, and the inclusion of 18 hours of instruction in Radiological Safety. It will also furnish Hospital Corps personnel of the Navy with a good basic background of their duties that will reflect itself in the already high standard of care and treatment given the sick and wounded of the Navy and Marine Corps.

'Pulse Beat' of NNMCM Attracts Visitors from Many Foreign Lands

The National Naval Medical Center has been called by many the "Tower Cross of Bethesda." It is a point of interest to many sightseers and a point of pride for Navy medicine. Many come here for treatment, but many more come here to see this imposing structure of steel and concrete with such an important "pulse-beat" within.

Among the many distinguished foreign visitors to the "Tower Cross" recently was Doctor Allan C. Burton, a member of the Defense Research Board Panel on Aviation Medical Research, University of Western Ontario. The Doctor visited the Research Institute. The United Kingdom Lithography Industry Team under the auspices of the Anglo-American Council visited the Medical School here.

Research Institute was also visited by a representative from India, Doctor C. W. Chacke, a Fellow of the World Health Organization. Another visitor to NMRI represented still another foreign place, the Belgian Congo, Doctor Ignace Vincke. Dr. Vincke is the Director of Medical Service and his main interest was in new advances in research in the field of tropical diseases.

Who's Who In Defense

Admiral Forrest P. Sherman

(AFPS)—Took oath as CNO and was promoted to Admiral, November 2, 1949.

Born in Merrimack, N. H., October 30, 1896. Graduated from Melrose (Mass.) High School. Was student at Massachusetts Institute of Technology when he was appointed to the U. S. Naval Academy in 1914.

Graduated from Naval Academy Class of 1917. Received Class of 1871 Prize for being most proficient in ordnance and gunnery. Was second in class of 199 graduates.

In 1921, Admiral Sherman, then a Lieutenant, was commanding officer of USS Barry. Assigned training duty at U. S. Naval Air Station, Pensacola, Fla., where he received his Naval Aviator's wings.

While on board USS Saratoga, he was in command of Scouting Squadron TWO, 1929, and Fighting Squadron ONE, 1932. He was in command of the carrier USS Wasp when she was sunk during the Pacific phase of World War II. Received Navy Cross for heroism.

Assigned duty as Chief of Staff to Commander Air Force, Pacific Fleet, 1942-1943. Deputy Chief of Staff to Fleet Admiral Chester W. Nimitz, Commander in Chief, Pacific Fleet, 1943. Was awarded Distinguished Service Medal for deft handling of plans and operations while on Admiral Nimitz's staff.

Admiral Sherman was in command of Sixth U. S. Fleet in the Mediterranean when appointed CNO.

'Mayor of Conn. Ave.'

(Continued from page 2)

Easter festivities were brought to a close with a dinner at the exclusive Duke Zebra restaurant.

Cpl. Hartley was with the First Provisional Marine Brigade, Fifth Marine Regiment in Korea. He was wounded in the fighting at Hamhung in November and is now a patient on Ward 6-C. Beside his reign as "Mayor" of Connecticut Ave., Cpl. Hartley has appeared on many radio and TV shows in the Washington Area. He enjoys writing, drawing and eating French fried potatoes. Hartley plans to go to college and study art, voice and journalism. He is currently writing his own personal story depicting his experiences in Korea.

Nickie Ann Query

once come down with a cold she left here, "Before," Mrs. Query stated, "Nickie's resistance very low."

Query is a Master Sergeant in the Marines. He will soon be transferred to California where he and Mrs. Query will join

little girl who is anxious to see people the star of her opera has a right to be justly proud

Bronze Star Awards

Cpl. Richard S. Ray, USMC (left) and Sgt. Norman E. Gates, USMC were awarded the Bronze Star Medal for heroic action in Korea. The presentation was made by RADM Willcutts in his office. Cpl. Ray's home is in Washington, D. C., and Sgt. Gates' home in Essex, Maryland.

Dental Explorer

By Phil Burger

Off again on another spree? Nope, not tonight. Just another mad attempt to do some writing.

The Dental Repair School recently graduated eight men, who have been detached to various stations to do their various types of tinkering. The graduating class consisted of DTC Gearhart, DTC Smith, DT2's Griffin, Arnott, Parton, and DT3's Shell, Pecararo and Huyer.

The welcome mat is still out here at NDS for any and all hands who are reporting aboard for duty. A new addition to the Dental Surgery is Lt. Hazel McQuerry, NC. Welcome to Bethesda. In the enlisted ranks we have Johnson, Reynolds, and Madden reporting from Great Lakes. The latter be members of the fairer sex.

Paul Bickel just returned from thirty days shipping over leave, and from all that can be gathered that leave is a wonderful thing. Joe Zagrosky also took a few days last month. All he did was gain a little weight from all outward appearances.

There is a new club forming in the Student Prosthetic Class. It's called "The Fat Men's Club". Thus far there are three members who are Huey, Dewey and Louie, formerly known as Bottles, Flesh and Bacon. Anyone wanting to be recruited, just contact Huey.

The ICS's (Ice Cream Socials) are gaining members all the time. Seems that Campbell, McCline, Swedberg and Burger are out enlisting new members all the time. The fee to be a true ICSer is to eat a Giffords.

The boys are all out back of 123 now with the ball, bats and gloves. Bill Sickels is working mighty hard to get a good team together this spring. But what is Hawley doing out there? Trying to make a hit with our next door neighbors?

A few rates have come through. Gene Keller made first and Jack Cummings and P. P. Box are the new staff seconds. Congratulations.

George Owen and Jim Boyce received their orders to the FMF last week, and made their departure for the West Coast and parts unknown. Good luck to them. Note: It has been said that a copy of the Marine Hymn has been sent to each of the boys.

It is time for me to rejoin the member of the seven o'clock club now, so back to the rack until comes time for another deadline.

NNMC Command Chitter Chatter

By C. R. Stokes

Well, after almost three years Center Command has lost its "Greatest Lover", Robert (Frenchie) Deloche, and its two best runners-up, Don Nichols and Willie Hausherr. All three men were members of the Center's touch football team which copped the station championship three years running. Also leaving the Center for duty with the FMF is Fitzpatrick, late of Center Files. But with leaving, Fitz, as they called him here, will add another stripe to his arm. Fitz was the lucky fella who made second class in the NNMC Command. Good luck to you Fitz.

Also doing the chore of adding a stripe to their arm is Frank Winn down in the pay office and Charles Duchene. Winn will advance to DK3 and Duchene to HM3. We hope the cigars they buy will be good ones.

With softball just around the corner it looks doubtful as to whether or not NNMC will put a team in the field. As yet, no go. Guess the men don't want to win all the time.

With the shipping over of C. P. Duchene and W. Garrity this past month it brings the number to 8 men that have signed over in the Navy, (by not twisting arm) in the past four months. Not bad.

At last NNMC Command has had a party and a swell one at that. Sponsored by the NNMC for LCDR C. L. Crawford, who left us for a new assignment. At the big blow-out, Mr. Crawford received a Parker pen desk set. We hope that the set will remind him of his days here at the Center, for I know that we will not forget him. Our thanks for the nice work of Taylor, HMC and Erdmier, HN that made the party a great success.

Better watch out for Upchurch, HM1 in the MAA office. I hear that he is hiding out a bandit called Cisco Kid Upchurch. The two gun terror.

Welcome back to G. G. Medcalf. We hope you enjoyed your leave, now get back to the bugs . . .

It doesn't matter how watchful and vigilant a girl is; if a fellow kisses her, it is ten to one that he'll do it right under her nose!

Bridgekeeper (to owner of old jalopy at toll bridge): "Sixty-five cents."

Driver: "Sold."

Not Much Research Involved

By R. M. Gismondi

Aboard: Bowers, T. G.; Engelberg, M. V.; Mickens, E. R.; Carson, B. E.; Dutko, M. Ashore: Tomilla, W. I., Flashes: Back from 30 days leave from Arkansas, reports that all is well and that he got married while on leave. Congrats. Keefer advanced from HN to HM3. Jeanette Norcross resigned as secretary to the CO. HMC Pierce and Ex-Marine Sgt. Francis Payne will be united in marriage soon. The wishes for happiness are extended by all at this time. For the occasion a poem has been written as follows:

NOW HEAR THIS

A Marine has landed;
Has the situation well in hand;
The sailor did not resist at all —
In fact he helped her land!
At first an unusual belligerent air
Had permeated the office atmosphere;

But soon by reconnoitering
And taking advantage of

loitening,
The Marine took over in the usual way.

Now very soon is their wedding day!

All good wishes to you "Sgt." Payne and to you, Chief Pierce, congratulations again. You are both very nice and your marriage will be best. Just have consideration, and the Lord will take care of the rest.

Sports: Bowling is the only sport active around the premises now. Our team engaged in the following games: NMRI 1, NH Officers, 3; NMRI 1, CPO 3; NMRI 3, Lab 16, 1. Softball followers may get their opportunity to take part in the sport soon. All those who are interested in playing for NMRI contact F. Sanchez or H. B. Garner. Your interest is necessary for their victories.

Leave: HMC Biles returned from 10 days leave and reports that his new baby girl and wife are doing fine.

The quarterly personnel inspection is over now much to the admiration and satisfaction of the CO and XO.

LT Bell, former OIC of Radiation Chemistry, and now working with Chemical Warfare on the West Coast, was back with us for a week. He looks exceptionally well.

Flashes (cont'd.): Notice should be given at this point to all hands that an NMRI booklet is now circulating around the Institute. I highly recommend it for good, interesting reading to familiarize all personnel with the work and goals of the Departments for which they work. For future reading in the Center News, your attention is invited to the coming recognition of our own HM1 Goepfert at the MAA desk. His picture and work of interest will be under the heading of "Personalities about the Center."

Expectations: Clara Brown expects a new addition to the family come this September. Weddell, J. F., expects to engage in holy wedlock this coming June.

Time and news are running right short, so for the time being, and till next issue, adieu.

In general the best watchdogs are said to be those with upright ears.

Dr. Stein (bottom) points out tuberculosis of the liver of to HMC C. B. Gordon, class adjutant, MAT Class No. 3.

NSHA Students Instructed In Inspection of Meat, Fruit, Veg

The requirements of a good MAT man embraces a good phases of hospital administration. Among these phases are inspections of meats, fruits and vegetables. In connection this, the Naval School of Hospital Administration has been honored with the presence of two men, eminent in respective fields, from the U. S. Department of Agriculture.

The first of these men was Mr. F. G. Robb, recently of the Production and Marketing Administration, USDA. Mr. Robb served for 33 years in one section or another of this department. He worked in the establishment of U. S. Standards in the old Bureau of Markets, now the P&MA. His lectures covered the inspection of each type of fruit or vegetable that could be expected to grace the trays of patients in our hospitals. Many of his terms and diagnoses were complex, but they were presented in such a manner that all knew the principles of inspecting fresh produce at the conclusion of his lectures. Mr. Robb used live subjects as well as wax displays to illustrate his points.

The other guest lecturer was Dr. J. S. Stein, Area Director of the Meat Inspection Division, Bureau of Animal Industry, USDA. Dr. Stein has served with this organization for 15 years. The text of his lectures was the Inspection and Storage of Animal Products.

Dr. Stein brought out the fact that the first forceful law concerning this was enacted after hearty endorsement by President Teddy Roosevelt in 1906. This was the Meat Inspection Act. He further added that Upton Sinclair's book "The Jungle", was undoubtedly a determining factor in the enactment of the law.

We are now in our forty-fifth year of continuous meat-inspection service. It is interesting to note that more than 77 per cent of all cattle, calves, sheep, and swine slaughtered commercially during the calendar year 1949 were slaughtered under the supervision of the Federal Meat Inspection Service.

You might ask, "How does all this affect me?"

First of all some of the purposes of the present system of meat inspection are to search out and de-

stroy diseased and otherwise meat; to see that meat is clean during the stages of ration and to guard against too of harmful preservatives. too, the role of Federal Spitions is important in the pu of meat for naval activities. it can readily be seen how tfects you.

All in all, the jobs per by men such as Mr. Robb a Stein ensure the quality of vegetables, and meats eaten naval personnel.

VADM William Chamberlain USN (Ret.), Commanding of the National Naval Medical Center from September 1944 to 1946 died of a cerebral hemorrhage in San Diego, California, M.

Personalities About The Center

Miss Little

Miss Ruth Marie Little is a beautiful brunette who works Ward 4-C. She says, "What you do, don't call me an 'I'm a Sooner.'" Naturally, a statement such as that, know immediately she is from Oklahoma — Weka, to be specific. After graduation in 1945 from Wetumka High School, she attended nurse's training at Oklahoma University. She was a member of the Delta Alpha Sorority, scholastic society under local administration. While in High School she belonged to the Future Teachers of America, a club similar to the 4H. When her nursing had all been completed and she received her cap in 1948, she stayed at the University Hospital for six months before taking a position with two oral exams. Of this employment she says, "It was very interesting and something I should like to go back to if I had to work on the outside again." In October 1949 she decided to join the Navy and was sent here to undergo an indoctrination period. She has been here ever since and has worked on many wards, of which are: 106, 103, 104, 6B and presently 4C. Her chief interest since she has been here is to visit historical places. She has been to all the museums downtown and has traveled from Norfolk, Virginia to Boston, Mass. visiting places of interest. New York held a particular thrill for her when she went to see the play "Mr. Roberts." She is interested in band and symphony music. Although Miss Little will not admit it in the Navy she finds it a wonderful career for women."

HM3 Glendenning

"I'm just an average girl, living an average life." This is the way many Waves regard themselves, and this is how Catherine Glendenning, HM3 introduced herself.

Catherine hails from the Midwest, in particular, Toledo, Ohio where she was born May 8, 1926. She graduated from Scott High School in the same city, and then attended Ohio State University for a short time. She then transferred to the University of Toledo, where she undertook a course in chemistry and pharmacy. An out-door girl, Catherine loves sports and plays tennis, her favorite of all, basketball, volleyball, hockey and swimming.

Before entering the Navy she worked in a pharmacy where she filled prescriptions and then in an industrial chemical laboratory. She enlisted in the Naval Service, February 10, 1949 at the Recruiting Station in Los Angeles, California. Recruit training at Great Lakes, Illinois was then followed by Hospital Corps School at San Diego, California. Catherine completed her course of instruction there in September of 1949 and reported to the Naval Hospital here for duty.

Since arriving here, Catherine spent most of her time working on the neuropsychiatric ward, 5-D. Then she worked for a time on the dependent wards. In November of last year she went to work in the Chief Nurses Office, where she is at present.

Catherine spends a lot of her spare time in playing tennis, weather permitting, and she is an avid reader and enjoys a good book on rainy days. For the last two seasons, Catherine has graced the basketball courts with her sharp playing and smiling personality as a member of the Admirals.

HN Czerechowicz

Frank Czerechowicz, Jr. maintains that physical fitness is a basis of good health and happiness. By fitness he understands a well rounded physical program which develops evenly all parts of the body, not an extreme of muscle building for muscle building sake alone.

An all around athlete, Frank participated in just about every sport offered by the Latin Technical High School in Chicago, his home town. He was a member of the following varsity teams: track, gymnastics, football, soccer, and softball. He also participated in hard ball, fencing, basketball and swimming. His major ambition is to continue on to college and become a physical education instructor.

Frank has an identical twin brother, Michael, who is himself, somewhat of an athlete. In fact, Michael participated in the very same sports as Frank. Together they gave gymnastic exhibitions in hand balancing at various parks in the city. These exhibitions were regular features in a show.

October 1948 Frank joined the Navy. He went through both Corps School and Recruit Training at Great Lakes, Illinois. From there he was ordered to duty here at the Naval Hospital where he has worked on T-8 and presently on the NP Service.

He served a TAD tour of duty in the NNMCC Command, working as a life guard in the Recreation Building. While there he conducted swimming classes for dependent children.

Frank's hitch is up in October of this year. He hopes to return to college to carry out his ambition of becoming a physical education instructor.

Important That Patients Check Through Red Cross

Many patients being discharged from service for medical reasons ask why they have to check out through Red Cross. One of the very important reasons why they do is to provide an opportunity for each patient to discuss with a social worker filing a claim with the VA. Each patient may stand to benefit greatly in filing such a claim whether or not he is to receive retirement pay. This claim is forwarded to the VA and serves as the basis for determining the eligibility of each veteran not only for compensation but also for other benefits such as future medical care.

Although this claim can be filed later at a VA Regional Office, there are several reasons why it is advantageous to file it here. First, all the facts about each patient's illnesses and hospitalizations are not only more clearly in mind but if some have been forgotten, they are available through the ward doctors. Secondly, the claim is processed through the hospital record office so that it leaves here with a transcript of the patient's medical record. This means that the VA does not have to wait until such records are obtained through correspondence before making the decision as to possible compensation. Thirdly, filing the claim here definitely establishes the fact that the patient was discharged from a Naval Hospital for medical reasons. Lastly, help is available to each patient through the ward social worker in filling out the form. This means that patients benefit from the accumulated experience the workers have had in filing these claims.

Lab 15 Under Low Power

By Moe and Gizz-Moe

Well, ardent followers, we have returned. Listen while we relate some more of the exciting escapades of our infamous classmates. Those visual acuity tests have proved a theory that we have held for some time. It is absolutely true that Strout cannot see the end of his nose without his glasses.

That loud noise you heard from the south end of the barracks was not an atomic explosion as you may have suspected. It was only "Hoppy" Pleasant conducting a Be-Bop session.

Since Laurel Race track opened, we have noticed the following horse-race addicts at the two-dollar window: Waymire, Middleton, Strout, Jones and "Sneaky Pete" Holtman. They're off!!!

Due to a change in plans, "Sam" Kimmel did not "tie the knot," as we erroneously reported in the previous issue. We are happy to relate that he is still with us bachelors, the lucky dogs of Lab 15.

"Notable Notes"; "Fatso" Parpart has gained two whole pounds!; "Gashouse" Breffit added a few more dents to his Ford; thirty-three lucky Lab 15 members are reading California travel folders; "Hot-rod" Creely made a triumphant return from New Jersey driving that "thing" he calls an automobile; "Alky" Oddis drank a glass of water! (quite notable, don't you think?); and finally, we have discovered that "Jelly-Belly" Duff does not walk down a passageway... he bounces!

The time has come to put the lid on another session, so we'll secure our well-beaten typewriter and head for Bassins. We know you all hate to see us go, but we must make a trip to the Korean embassy to get some information on a certain country we may be visiting soon.

Lab 16 Under High Pressure

It seems that we are together once again. The classes have alternated and everything is fine except the pathology section. It seems that Chief Spangler is giving them all a hard time. Cheer up fellow sailors, it isn't forever. After it is all over, you'll be telling each other that it wasn't as bad as it seemed.

R. E. Anderson is now happily married. He entered the portals of matrimony a couple of weeks back. We all wish you the best of luck, Andy.

The love bug has hit every one it seems. Reynolds, after that long trip of his to Florida, has decided to get married and save himself those trips. He is a bridegroom of nine days now.

Bob Brogdon, one or the other of the twins, has his eyes on a gal in Oklahoma. He is also looking forward to a certain day in June.

It seems that Red Gregory hasn't found his fountain pen yet. If any one of the readers of this column, (both of you) have found it, Red wishes to remind you that it will only spell for him. He will be only too glad to demonstrate it.

It seems that lately, Hop-A-Long Salisbury has been trying to get a flame in her section of the class. That's no way to catch your man Salisbury. Take it from here. Lighter fluid costs too much for that gat of yours.

That's it for this issue, so I will sign off with this one thought in mind. "Back in the xylo again" Eh What?

Med School Scuttlebutt

By O. C. "Skip" Skinner

While walking down the third deck you are apt to hear "South of the Border", and "Tennessee Waltz". These have been made popular by the great lover "Marty" Kimmel. Seems his favorite State is Tennessee.

The 27th will be the day when our many friends from Lab 15 will be graduating. There are many of them heading to sea duty at various points of the world. They have made many friends while here. Their graduation certificates will be awarded by the Commanding Officer, Captain B. W. Hogan, on the morning of the 27th.

At the same time there will be a new class coming in to take their place.

The Pathology Department has lost Chief Bitely to the Chemistry Department. This, of course, has broken "Peggy's" heart.

The main authority on stuck elevators in the command is none other than Miss Spears, who is OinC of the Serology Department.

At inspection on March 31, Chief McClain received a letter of commendation from Captain Enyart, Executive Officer of the command.

A welcome aboard is extended by all hands to William C. McQueen, HMC, who has just recently reported aboard and undertaken the job of CMAA. Chief McQueen has had a long and colorful career in the Navy. He was called back from retirement. He now has 27 years in the service. We hope his stay here is a happy one.

Bethesda Citizens Present Oscar

Admiral Willcutts was honored recently by the citizens of Bethesda with a Red Feather Oscar and a certificate of achievement in recognition of his wholehearted support in community activities. The presentation was made by Mrs. W. N. Morrell, community representative on the staff of the Community Chest, and by Mr. George McGill, representing the "Y" Cottage staff.

The Joy of Living

body smiled and nobody cheered
nobody helped us along—
every minute looked after
itself
the good things all went to
the strong;
body cared just a little for you
nobody cared for me
we all stood alone in the
battle of life
at a dreary old world it
would be
as sweet just because of the
friends
have made
the things which in common
we share
want to live on, not because
of ourselves
because of people who care.
giving and doing for some-
body else;
that all life's splendor depends
on the joy of this world, when
we've summed
it up
found in the making of
friends.

Minnie A. Smith, HM3, NNMCC

Coach's Corner

During the latter part of the winter season, the National Naval Medical Center was host to a well-traveled couple, Mr. and Mrs. ANAS BOSCHAS, lineal descendants of the Family Anatidae. With the advent of spring they have departed from the environment of the lake at the foot of number seven tee and winged their way northward. In the vernacular of the campus, a couple of mallards have left for Canada, prompted in their flight by the golf balls which are now disturbing the serenity of their lakeside home. Tiger Beckley and Lefty Burkinshaw are among the local notables who are daily churning the waters of number seven while getting in shape for the forthcoming tournaments.

One of the last official acts performed by Admiral Morton D. Willcuts before departing from the Center was to authorize the following improvements in the golf course: the tee on number two to be lengthened by 20 feet, the same treatment for the tee on number three with the addition of 8 trees to be planted on the right-hand margin of the tee, a shallow trap 40 feet in length to be placed at the dog-leg in the fairway.

The chances of scoring a "cheap" 4 on this hole are gone forever, as the first shot demands a straight ball for 100 yards by the short hitters and for those who fancy themselves as teemasters, that tail slice at the 200 mark will find haven in soft sand. Approximately 3 feet to the right of the green, on the only Par 5, will be placed an inviting trap to catch the errant second shots of Ted Lesney and Bill Cole, a couple of long ball hitters.

On number five, the left-hand margin of the fairway is to be decorated with a receptacle of sand just over the crest and fingering into the rough, long a favorite spot for many drives. On the back apron of the green the gardeners have experienced difficulty in maintaining good grass so this section will be replaced with a trap some 59 feet in length and 8 feet in depth at its widest point. Tom Floyd, whose fondness for sand whether it be in the traps or on the beach, will experience no difficulty in combating the new hazards. Chips Fortin is going to be assessed an extra dime every time he steps on the first tee as this fine shotmaker, on finding himself in a trap, becomes the nucleus of a small sirocco.

The rough alongside the fairways on number seven, eight and nine have all been planted with fescue, a wide-blade grass which does not grow very high and requires no care. In the carpenter shop, at this writing, are a pair of logs which have been split lengthwise as a step in the fabrication of rustic benches for the tees in the woods. On the path between the green of number eight and the tee of number nine will be a drinking fountain similar to that found at the foot of number five.

Turning to softball, we find interest so high that fully 10 per cent of the personnel of the Center will be actively engaged in play during the coming intramural season.

In addition to the above athletes, the Waves will field a team participating in the District League and the Varsity will hold forth in the newly created Mid-Atlantic

NDS Portrait Artist Is Important To Dental Education

There is the account of the congressman, some years ago, questioning the appropriation for dental care of Navy enlisted personnel. "What are these fighting men supposed to do to the enemy, anyway," he asked, "bite 'em?" That same statesman would want to be briefed today on why a trained portrait artist is necessary and important to a Naval dental school. He would be reminded that teaching dental procedures and dental laboratory techniques is the job of a dental school, that a school must use up-to-date texts, manuals and lecture material, and that these must be illustrated. And there, Mr. Congressman, is where Mrs. Collison comes in as one of the School's medical illustrators.

Mrs. Collison came to NDS with a background of accomplishment and recognition. As a student at Corcoran Art Gallery, she won top awards in both the figure drawing and oil portraiture classes; her illustrations have appeared in textbooks on art; she has shown her work at local and national exhibitions, and given one-man shows in several cities; she has taught art, and appeared in "Who's Who in American Art."

When Mrs. Collison was first learning to smear oil paint all over a canvas, her fingers, and her frock, she probably thought only of doing portraits in an attic studio with north light, or spending summer days painting daisy-studded landscapes. She actually did

plenty of that kind of art before she realized it was also preparing her for scientific work—for making highly specialized "portraits" of teeth, ears, eyes, pathological tissue, fractured maxillae—and for doing research in color-fastness of pigments for acrylic eyes, and lecturing to student Dental Officers on how to paint irises in ocular prosthesis classes.

Mrs. Collison has decided to spend her main efforts on medical illustration. Whatever her reasons, anatomists who have seen her superbly fine work believe portraiture's loss has been the healing arts' gain.

YMCA Learn To Swim Week

Kiddies had a splashing good time in the NNMC pool during the YMCA "Annual Learn To Swim Week", held March 26 to 31 inclusive. Approximately three hundred young boys from the surrounding area, 8 to 12 years of age, were taught the basic rudiments in our pool under competent YMCA instructors.

Military Conference. Anent the latter, disquieting rumors have reached the auricular appendages of the Coach that the "hardball clique" of last year will run the softball team. I would like to dispel such conjecture at this point by stating that players will be awarded berths on merit alone, in the same manner the basketball squad was run. Ability and team play will determine the starting lineup, not the number of letters won in some high school of 30 male students nor island recognition on some postage stamp atoll in the Pacific.

Lt. R. F. Jeager of the Medical School has been officially appointed coach of the squad. Kelly green uniforms have been ordered to equip 15 players and those interested in toppling some of the larger stations from their athletic perches are urged to contact Lt. Jeager.

Laugh Awhile

Two pigs met on the street one sweltering summer's day. Said one, "Whew, I never sausage heat!" Replied the other, "I know, I'm almost bacon."

What's the difference between a bachelor and a married man? When a bachelor walks the floor with a baby, he's dancing.

A woman got on a bus with about a dozen children who immediately romped all over the vehicle.

Inquired the driver, "Pardon me, Ma'm, but are those all your kids or is this a picnic?"

Replied the woman with a scowl, "They're all mine, brother, and it's no picnic!"

Pin Action

By The Ten Pin

The early season forecasts by this column have proven to be strictly bum dope, as the predicted favorites in the Center Bowling League have failed to live up to advance notice. NSHA-2 and 4, NH Doctors, NDS Officers and CPO are turning the league into a five team race, while the other seven quintets are finding it increasingly hard to win more than an occasional point. After a slow start Meitl's NSHA-2 team has white-washed their last two opponents and have taken over first place. Bigger's NSHA-4 crew has also come back with two 4-0 matches to pull up into a tie for second place. Mike Drickman, Sid Arje, Bill Cole et al, of the NH Doctors have a similar record and appear to be cup hungry. Paul Wells and "the downtown boys" of the Dental Team have faltered a bit but have managed to stay in a tie for second.

Some excellent bowling has been seen during recent matches. NMS Lab-2 posted an 865 game, Paul Wells of the Dentists turned in an individual string of 585, NSHA-4 set a team mark of 2381 which was immediately eclipsed by NSHA-2 with 2420. Both of these records being made against the NMS Officers, we are wondering why they are such an incentive to the other teams.

All hands express satisfaction with the new pin setting machines. Play has been speeded up and there are fewer aching GI backs among the pin setting gentry.

"There's a wolf following me? So what?"

Crew's Library: Non-Fiction Book Scan Varied Topics

When you see what interesting non-fiction books are being read these days, you will not be surprised to learn that the percentage of non-fiction books scanned in Crew's Library equals that of fiction. Here, for instance, are a few of the new ones.

MY PATIENTS WERE Z... is the true story of Dr. James McCord's experiences in a hospital where he lived an extraordinary life for forty years. It was necessary for him to cope with doctors, to perform operations under the most primitive conditions and to fight malaria, scrofula, tuberculosis and even the new diseases.

Another report of an extraordinary experience is MY SIX CONVICTS by Donald P. Wilson. Dr. Wilson, a psychologist, went to Fort Leavenworth to study drug addicts. His six convicts, ranging from a safe blower to a Chicago gangster, assisted him in his research through them he gained an insight into the criminal mind. This compelling human-interest story is a rewarding experience.

HIS EYE IS ON THE S... ROW is the autobiography of Ethel Waters and we follow her life story from the most sordid beginnings in Negro slums to the height of success as a Broadway star. The style is completely realistic but rich in color and idiom. All that is known of the inhabited continent of Antarctica to be learned by reading WHITE CONTINENT by T. Henry. It is a land of unbelievable beauty, majesty and utter isolation but it offers the greatest challenge to the explorer to be on this side of the moon. Leasing seals, killer whales, emperor guins and wild birds about this region which can fairly be called another world.

Navy Belles

By George

The girls turned in their ball suits, and all have turned to softball. After reading the of people ready to play any position they will play, you all look forward to a bright future.

Just Around Our House

Pat Long and Jo Feldt are counting off their fingers, evening after a day at the woodshop. Carter, Willworth Benesch have left for School. We wish you luck girls. Peggie Igio is back to work taking time out to have measles. While lifting slides Lab. school Terry Hawk has nursing her back ache. Alma came home from school with white mice. The mice must be you may stay in PRNC. All will miss Corinne Donvin has orders to Portsmouth, Va. to her Sailor Man. Dilly, Terry James of 123. Have you her yet? Kay Nelson is back 30 days leave. Joan Madser after 20 days.

With the end of Lab. school some of our very old friends looking for orders. Some and some go, we just stay on for me, I am going to the western Maryland for a show cation. See you later.

Patients Win Nine of Seventeen First Awards Inter-Service Occupational Therapy Competition

Patients and staff of the U. S. Naval Hospital, Bethesda, Maryland, were awarded 9 of the first prizes at the 2nd Annual Armed Forces Occupational Therapy Competition held at the Philmont Country Club, Philmont, Pa. The competition, which drew entries from all branches of the service, was divided into two general classifications: hospitalized or patients; and able-bodied or staff.

Rear Admiral C. A. Swanson, Medical Corps, U. S. Navy, Commanding Officer of the National Naval Medical Center, Bethesda, Md., presented the awards to the Center personnel 13 April 1951. Besides the 9 first prizes, Bethesda personnel won 10 second prizes, one third prize and one fourth prize.

The Occupational Therapy Department, which is under the direction of LCDR G. E. Vaupel, USN, is one of the Center's departments for rehabilitation for regiments and Korean casualties. Dr. Vaupel is assisted by LT Benson, NC, USN, in teaching the various arts and crafts.

Awards to patients were as follows: 1st prize for Fine Arts and 1st prize for Leather to LCDR J. J. Nan, USN, of 1722 19th St., Washington, D. C.; 1st prize for Woodwork to CDR O. H. Hill, of 5379 Allan Ad., Washington, D. C.; 1st prize for Leather to 1st chief gunner's mate, USN, of 101 Walnut, N.E., Washington, D. C.; 1st prize for Weaving to 1st sergeant G. F. Wos, USMC, of 101 Bridge St., Fairmont, Minn.; 1st prize for "Special" to Sergeant Pollock, USMC, of 366 Over St., Morgantown, W. Va.; 1st prize for Plastics to CPL. A. L. Lamb, USA, of Indore, W. Va.; 1st prize for Jewelry to K. G. (Continued on page 4)

Catching Machine Gun Bullets Is Great Sport for Navy's 'Frog Men'

Life is going by quietly for Chief Warren W. Denny of NNMC Command, who just re-enlisted for six years. But the Chief remembers times during the last war when the days were very turbulent. Times when he caught enemy machine gun bullets in his hand for the fun of it.

The Chief was stationed on the USS White Marsh, LSD, when he was told that men were needed for "dangerous work." "By that time in the game I was ready for most anything. But I didn't realize what we were going to train for." That was in 1943, when the Underwater Demolition Squads were not yet in the public eye. He was sent to the Naval Combat Demolition Base in Hawaii where he underwent a grueling course in what was to become the most famed outfit in all the armed forces. His qualification test was to

swim for a mile without stopping . . . successfully completed, there came: commando training, intensive study of explosives in demolition work, construction of underwater mines, study of tides affecting currents around islands and bays, shallow water diving. "The biggest thing we had to fight at that time was the scare of sharks, but we learned that sharks usually left people alone unless the swimmer were wounded."

With his fins won, he went to work almost immediately. He was assigned to UDT 5 and took part in the pre-invasion demolition work on Saipan and Tinian. His outfit was almost completely knocked out on that operation so he joined UDT 7 and with them, took part in pre-invasion work on Palau and Okinawa.

On D day minus five, the chief, dressed in trunks, fins, goggles, (Continued on page 2)

Coast to Coast Broadcast Over NBC Features Local Singer, HM3 O'Neil

The Phil Regan Armed Forces Show, a full half-hour over NBC, will be broadcast from the NNMC Auditorium, Sunday, May 6.

Cabin Cruiser Catherine Available to NNMC Personnel for Recreation

Commencing on Tuesday, May 1 and continuing through Sunday, October 14, 1951, the Commandant will operate the Cabin Cruiser "Catherine" as a recreation vessel for Naval personnel, their families and guests. The "Catherine" is normally moored between Piers 2 and 3, U.S. Naval Gun Factory; trips will be restricted to the Anacostia River west of the 11th Street Bridge and to the Potomac River area having its upper limit at Memorial Bridge and its lower limit at Quantico, Virginia.

The maximum number of persons allowed on board the "Catherine" is 12. Use of the cruiser is restricted to officers on Mondays, Wednesdays and Fridays, and to enlisted personnel on Tuesdays, Thursdays and Saturdays. Officers and enlisted personnel may use the cruiser on alternate Sundays commencing with enlisted personnel on Sunday, May 6. In order to allow the greatest number to use the "Catherine," small parties of less than six persons are discouraged, and repeat- (Continued on page 4)

The coast-to-coast broadcast, sponsored by the Pepsi Cola Company, will originate from the National Naval Medical Center on the occasion of National Hospital Week.

The audience is requested to be seated by 1620 for a full hour and a half program that will include the broadcast at exactly 1700.

Featured on the actual broadcast will be HM3 Robert J. O'Neil, USN (singer) from NMS Lab 16 and LCDR Ruth Erickson, NC, USN, BuMed and the auditorium show will include Richard L. Keys, HN, NH, novelty piano number and Eddie Morrow, MUSA, patient Ward 3-C with the banjo.

Bob O'Neil, Dick Keys and Eddie Morrow won spots on the show at auditions held last Wednesday by Mr. Henry Taylor, scout and writer for the show.

With Phil Regan comes Vic Valente and his orchestra, and the Ralph Brewster Quintet. Valente played for such programs as the Jack Benny and the Art Linkletter shows.

Bob O'Neil, station winner for the top spot in this program, will be entered in the finals, competing with the winners from other Eastern military installations to be held in Boston at a later date.

Sixty-Two Students Graduate from Laboratory Class 15

Members of the NMS graduating Laboratory Class 15 are: First row, left to right—Hawk, HM1; Guertner, HN; Robison, HM3; Gallagher, HM3; Feichter, HM3; Wiitala, HM3; Mowery, HN; LCDR Floyd, Officer in Charge, Bacteriological Department; CAPT Silliphant, Director of Laboratories; CAPT B. W. Hogan, CO, NMS; Mr. H. F. A. Long, Technologist (Radiology) USPHS; Fronko, HN; Kessler, HM3; Schene, HM3; Peterson, HM3; Cooper, HM3; Olsen, HM3; Berritt, HM2; Stastny, HM2; Kimmel, HM3; Bonfield, HM3. Second row—Stradtman, HM1; Pleasant, HM3; Gerlitz, HM3; Delaney, HM3; Duff, HM3; Cavaliere, HM3; Middle-

ton, HM3; Bartley, HM3; Hurst, HM3; Henderson, HN; Saidak, HM3; Waymire, HM3; Creely, HN; McCabe, DT2; Ruth, HN; Robertson, HM3; Robbins, HM1; Williams, DT2; Sotile, HN; Troop, HM3; Lotz, HM3. Third row—LaTouche, HMC; Hill, HM2; Horrobin, HM3; Mattox, HM3; Foley, HM2; St. John, HM3; Holtman, HM3; Pelletier, HM3; Oddis, HM3; Parpart, HM2; Ragouzis, HM3; Glasgow, HM3; Stanton, HM3; King, HM3; Danforth, HN; Hall, HM3; Knorr, HM3; Wootton, HM3; Garland, HM3; Strout, HM3; Kennedy, HMC. Fourth row—Spangler, HMC; Thrasher, HMC; Robinette, HMC and Coles, HMC.

News Shorts From The Editor's Desk

(AFPS) Assurance that veterans still in military service will receive their National Service Life Insurance dividend checks as promptly as those in civilian status was given recently by Chairman Hardy of the House Executive Expenditures Subcommittee. The Subcommittee has worked out arrangements with the Defense Department and the Veterans Administration for handling these checks.

The passageway to the temporary wards on either side of the hospital are receiving some support. It seems that years of traffic with chow carts, etc., caused the old wooden floors to weaken, so cement takes over from here on.

Vernon A. Starr was recently appointed consultant and administrator of the new Modoc Medical Center, comprising three hospitals at Alturas and Cedarville, California. A veteran of 20 years' service in the Navy medical department, he is a graduate of the NSHA. Mr. Starr was formerly associated with the Butte County Hospital, Oroville, California, and was administrator of the Mt. Shasta Hospital, Mt. Shasta, California.

(AFPS) The Navy will start releasing its inactive Reserves in July, and will send them home in "substantial numbers" by October.

Assistant Defense Secretary Anna M. Rosenberg disclosed the plans to the House Armed Services Committee, which is starting hearings on a broad new Reserve program, proposed by the Defense Department.

She said the program, devised in anticipation of approval by Congress of compulsory military training, calls for the release of all Reservists "At the earliest practicable time."

Plans for these releases from service are naturally dependent on the international situation.

A new basket system has been installed in the Recreation Building for the men's locker room. The 300 baskets will replace the 120 lockers which were inefficient. The new system will be speedier, more efficient, and afford better security.

Another call is made for personnel interested in varsity softball to contact LT. Jaeger at extension 379.

Beginners on the golf course are invited to contact the course Pro in regard to any questions they might have pertaining to the game. Bill Downing, the Professional, will be only too happy to get you started off in the game and answer questions about the game and about the course.

boys actually went ashore at night to study what defenses the enemy had behind the beach. At night, they usually swam above water, using a combination breast stroke and crawl which eliminated any splashing.

Off Okinawa, a shore battery scored six direct hits on his ship, killing a good part of the team which had just returned from a reconnaissance patrol. After this, Denney was sent back to the States for a rest.

Chief Denney who has been here since August 1950 is in charge of the Plant Account Inventory teams. He came to the Center from the Naval Air Station, Kodiak, Alaska.

The Chaplain's Corner

By Chaplain R. S. Sassaman

Human beings were made to worry; but they were meant to wisely. We were made to take life seriously and to feel the gravity of things. The man who never worries about his business will never be a business worth worrying about. Certainly we want our public to worry about their positions of responsibility. If it were not today that our national leaders were not worrying about the future of our nation it would cause more consternation than any report that are worrying. There are times when a doctor should worry about his patient, that a lawyer should worry about his client, that a farmer should worry about his crops, that every man should worry about the assigned him.

The trouble lies — not in our worrying — but that we go to ridiculous excess. It is our duty to worry about one or two — big things; things worthy of our worry; the things we were sent to the world to worry about. But instead of being content to worry this moderate and conservative scale, we very foolishly proceed to worry about everything. We lose our sense of proportion and the the penalty. By scattering our nervous energy over everything scatter it so thin that it effects nothing. What is needed is some concentrated worry on a few items that are really worthy of our mental physical capacities.

By such lack of discrimination as we so frequently exhibit we life inartistic and futile. It is the duty of a novelist to introduce characters but he must make one or two of them stand out. The must give attention to many parts of his painting but he must make one or two parts of his canvas conspicuous. The speaker must size one or two points among many; to emphasize all is to emphasize none. The writer, the artist, the speaker must pick out certain about which to worry above all else.

When they have done that they have learned to worry profitably; so that in the final analysis worry isn't to be discarded but rather developed. The human body is subject to pain; it is that way. What a calamity we would face if we knew not pain could not then tell when we were ill or when things were not. The human spirit is subject to worry; it is made that way. The important thing is not to halt there with our pain or our worry. What is to handle pain or worry wisely. So worry — but worry well!

Semi-Annual Inter-Agency Seminar Hospital Administration Underway

Men and women prominent in medical administrative are taking part in the semi-annual Inter-Agency Seminar on Hospital Administration now being held here at the Naval Medical Center, under the sponsorship of the Navy Medical Department.

Approximately 35 civilian and military hospital representatives from all sections of the country are attending the seminar. Participating agencies, among which the sponsorship of the Seminars rotates, are: Army, Navy, Air Force, Veterans Administration, Public Health Service, and the Bureau of Indian Affairs.

Seminars are held semi-annually to give hospital managers of the three military and three non-military Federal Agencies which control Government hospitals a broader concept of newer philosophies in the administration of hospitals. The Seminar scheduled for October 1950 was cancelled because of the Korean situation.

Hospital administration, government responsibility for hospitalization, executive leadership, personnel management principles, hospital nursing and medical education are among the subjects being discussed at the seminar.

The Seminar opened Monday morning, April 16, at 9:15 A.M., with a welcome to the National Naval Medical Center by its Commanding Officer, Rear Admiral C. A. Swanson, MC, U.S. Navy. F. J. Lawton, Director of the Bureau of the Budget welcomed the group on the behalf of the Inter-Agency Committee on Recruitment, Training and Education of Hospital Personnel.

Remarks also will be made by top officials of the cooperating agencies, including Rear Admiral H. L. Pugh, Surgeon General of

the Navy; Dr. Richard L. M. Chairman, Armed Forces Medical Policy Council, Department of Defense; Major General R. W. Surgeon General of the Army; Major General H. G. Armbrister, Surgeon General of the Air Force; Dr. W. Palmer Dearing, Surgeon General, Public Health Service; Dr. Arden Freer, Chief Medical Director, Department of Medicine and Surgery, Veterans Administration; Fred T. Foard, Chief, Branch, Health, Bureau of Indian Affairs.

Civilian speakers scheduled include:

First week—James M. McCombs, Commissioner, U.S. Civil Service Commission; Everett Jones, President, the Modern Hospital, Chicago; Miss Lucy Germain, Director, Department of Health and Nursing Education, Hospital, Detroit; Fred McNamara, Director, Hospital Division, Bureau of the Census; Dr. R. C. Buerki, Vice President in Charge of Medical Services, University of Pennsylvania School of Medicine, Philadelphia; Admiral F. J. Bell, USN (Ret.), Director of Human Relations, McCormick and Company, Inc., Baltimore; Dr. Eli Genzberg, of Business, Columbia University, New York City; George Executive Director, American Hospital Association, Chicago; Uphoff, Civil Resources and George Henigan, Department of Health, Education and Welfare.

Spring Has Sprung

Few people realize the ambition of their lives, but in this case it doesn't matter . . . Beneath a tree: a jug of coke, a paper too, and thou sweet spring . . . Oh wilderness were paradise enow.

Chief Denny Ships Over

(Continued from page 1)

HMC W. W. Denny is sworn in by RADM Swanson.

knife, and charting board left his base ship an Attack Personnel Destroyer, with other members of UDT 5. Saipan loomed in the distance. The enemy thought it was an invasion and began firing, but they must have been stumped when the LCPR's which the men were riding did not come ashore. Instead, they just patrolled up and down the coast. Of course, all this time, squads of swimmers were leaving their crafts and exploring the barricades set up by the enemy to trap our landing crafts. When enemy fire became heavy the "frog men," as they became known, initiated the game

of catching enemy bullets. The bullets, after hitting the water, lost their speed and were easily caught by the bare hand. Finally they went in again, set explosive charges to the obstacles and blew them up . . . then came the marines.

In the meantime, the Chief's ship was not altogether inactive. The ship's radar picked up movement on the horizon. It investigated. It sank five enemy freighters.

With Saipan as history, the Chief joined UDT 7 with which he took part in the work off Tinian, Palau and Okinawa. On Tinian the UDT

Personalities About The Center

Miss Walenga

Even though the sun fails to shine, Ward 104 is always bright and cheerful. The main reason is the ward nurse, dark, gracious LT E. V. Walenga, USN, whose contagious enthusiasm, smile and happy personality are always there to lighten the day.

Miss Walenga hails from Grand Rapids, Mich., where she underwent her nursing training and graduated from Butterworth Hospital. Prior to her training she worked as a dress designer in Chicago for four years. She still uses her talent for designing and sewing for her personal use.

She then enlisted in the Nurse Corps in 1943 and took her indoctrination at Great Lakes. Then she served duty at the New Orleans Reformatory Hospital where she is a blank owner. At that time, Walenga worked in the Physiotherapy Department, and T. Gross was the Executive Officer of the new hospital. Following this duty she reported to the Naval Hospital, St. Albans.

Upon completion of duty there, she served in the USS Refuge during World War II in the Atlantic Pacific theatres. The hospital at that time made an extension of both areas caring for casualties and prisoners of war. Ship was present during the division of northern and southern Italy. While in Naples, the hospital served several months as a floating hospital. It was during this stay that Miss Walenga thrilled with a memorable experience, when she and others attended an audience held by the

USS Refuge was also present during the invasion of Luzon, and took on board the prisoners of war who were survivors of the Bataan Death March. Miss Walenga looks back on this tour as the most eventful. It was also during this time that she became a shellback. "The hard way, is," comments Miss Walenga. On her return to shore, she worked at the naval hospitals at Puerto Rico, Calif. and Charleston, S.C. She then left the service for a year and upon her re-reporting to the Naval Hospital, Aiea Heights. She found it very much to her liking and hopes to someday return. She came duty on the Marshalls and Tripler General Hospital, following which she reported to the hospital here.

Miss Walenga carries her unending energy to her many hobbies. She likes horseback riding, swimming. Also she is very interested in photography and has many travel logs of the name, customs, crafts and skill at various duty stations.

She finds the traditional flower of Hawaii the most interesting. While on duty in the Marshall Islands she learned to manage an angler and is now an avid sailfan. She comments "I play piano like Jack Benny plays violin." She finds her work very interesting. Her greatest weakness is big, flowery

DK 3 Winn

"Smile Frank; Look pretty, Frank." Have you ever tried to have your picture taken with ten women on the sides looking on. That's how Frank Winn, DK3 had his picture taken for this issue.

Frank hails from the "Wolverine" state and he was born in Fenton, Michigan, February 27, 1929. He attended Fenton High School and graduated in 1947. After graduation he attended the Baker Business University in Flint, Mich. He spent one year there taking a course in accounting. Following this he worked in a factory of the Buick Motor Corp.

Frank entered the Naval Service August 10, 1948 in Detroit, Mich. His first glimpse of the Navy was given at USNTC Great Lakes where he received his Recruit Training. Then he attended the Disbursing Clerk School in Bayonne, N. J. Upon completion of this training there he reported to the Fleet Activities, Yokosuka, Japan, where he worked in the Disbursing Office. Following this tour of duty there he attended the Naval Academy Preparatory School at Newport prior to reporting here July 1950 for duty in the NNMCM Disbursing Office.

Frank is a great sports enthusiast — of all sports, but like all sportsmen, he prefers to play and not to stay on the side lines and watch. His future is bright with promise as he intends to leave the Navy for a time to attend college. There he will undertake a course in Business Administration. After his training he hopes to return to the Naval Service and obtain a commission in the Supply Corps.

HM 1 Goepfert

Upon entering the double doors at NMRI, one will be greeted by the ever jovial and efficient Assistant CMAA, Adam John Goepfert, HMI.

Known as "Jack" to all of his shipmates at the Institute, he is quite popular and handles his job exceptionally well. Jack hails from the "Empire State" where he first recognized matter on December 2, 1913. He led a reasonably clean life and graduated from Theodore Roosevelt HS. He then staunchly upheld a job in the advertising field until October 22, 1940 when his life became Naval property. He was 26 years old by this time and knew the life he wanted to follow.

He had "boots" at Newport, R.I., and then to HCS in Portsmouth, Va. His first tour of duty was NTC Great Lakes, Ill., then to the following places in their proper order, Mobile Hosp. 6, New Zealand; Base Hosp 2, New Hebrides; NH Brooklyn; USN Convalescent Hosp, N.Y.; Amphibious TC Detachment, Norfolk, Va.; USS LCFF 536; Sub Base, Key West; FASRON 103, Newfoundland; USS Dayton; USS LSMR 514; and to NMRI on June 21, 1949.

He married a local N.Y. girl in 1944 and since then produced a family of one boy and one girl.

His only comment at the present time is that he hopes sincerely to rejoin the "Cruiser Navy" when he is detached from NMRI.

Who Am I?

WHO AM I? I know not, nor of what within might be. Imprisoned spirits in me are rebellious, wild; Each of a complex nature prodding goals unknown to me: I know myself as a confused, bewildered child.

WHO AM I? I know not, nor whither I shall go. What pitfalls lay in wait. What heights to scale, Or what desires flaming in me perish, grow: How greater glory glows, how base a misery to fail.

WHO AM I? I think a dreamer viewing life so smug and sure. This confidence that greater things will come, And that this moment is a temporary phase I must endure Is but a beat of time from life's monotonous drum.

—Gloria E. Gosnell, NMRI

ABBIE AND SLATS

Reserve Officers of the Naval Service Present 7 Record Players

The Washington Chapter of RONS (Reserve Officers of the Naval Services) presented seven record players to the patients of the Naval Hospital. This is the first of a series of gifts. The gifts are provided by the organization's hospital funds.

Mr. John Heddon, Vice President of RONS, representing the officers, and Mr. John Fielder, representing the Board of Trustees of RONS hospital fund, made the presentation. Patients from 3C received the record players in behalf of all patients.

The RONS Board of Trustees of the hospital fund consists of Mr. A. Murray Preston and Mr. Richard K. Lyons. Mr. Milton Thomas is president of the Washington Chapter.

RONS is an organization comprised of Navy and Marine reserve officers. The Washington Chapter has four hundred members, consisting mostly of professional and businessmen from the Washington area. The men expressed their pleasure at being able to visit the hospital and to do their bit for the patients. They extend their best wishes to all patients and staff.

The services of Rabbi Harry Kaufman, representing the Jewish Welfare Board, are available to all Jewish Personnel and Patients at the National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, Ext. 324, or by call direct—Office: RA. 5371—Home: GE 0755.

Tickets for Senators' Home Games Will Be Available to Patients

Play Ball! The old familiar cry is heard throughout the land and everyone seems interested in watching his favorite team.

In case you would like to go to some of the home games of the Senators, here's the scoop: If you are a patient and rate liberty, you may go to any Tuesday and Thursday night game and those played on Saturday and Sunday. Red Cross furnishes transportation for all these games, and patients must go down in a Red Cross vehicle. Box seats are available for patients who might find it difficult to climb up in the bleachers. To get your name on the game list, see your ward recreation worker, or sign up in Room 102, the recreation office on the first deck near ward 3B.

Here are the dates of the home games during the month of May:
Saturday, May 12, (night game)
Sunday, May 13, (day game)
Tuesday, May 15, (night game)
Saturday, May 19, (day game)
Sunday, May 20, (day game)
Tuesday, May 22, (night game)

A sense of humor is what makes you laugh at something which would make you mad if it happened to you.

Young man: "Since I met you, I can't eat, I can't sleep, I can't drink."

Girl: (shyly) "Why not?"
Young man: "Broke."

He thought her a bloom from the garden of love,
She called him her hot potato,
The truth is he was a dead beat,
And she was an old tomato.

by R. Van Buren

Mimeograph Reproduction Now Taught NSHA Students by HMC G. E. Hack

By G. E. Bachert

The curriculum at the Naval School of Hospital Administration is constantly being broadened in scope in order to better prepare Medical Administrative Technicians for their future duty assignments at various medical department activities. One phase of this program consists of practical training in the use and operation of labor-saving office devices.

To implement this program, G. E. HACK, HMC, who has been in charge of labor-saving devices at NSHA for the past three years, was selected on the basis of his experience to present the procedures involved in Mimeograph reproduction to MAT class #3. His course of instruction is divided into the three important phases which influence good "Mimeography."

The first of these is the preparation of the stencil or "stencilizing." This phase includes the choice of the proper type of stencil for the work to be accomplished, preparation of the typewriter, the need for using proper cushion sheets, and use of the Mimeoscope for tracing, screening and stylus work. With proper technique, amazing feats of duplication can be accomplished on the Mimeograph.

The next phase is the operation of the Mimeograph machine. This includes proper methods of inking the pads, adjustments necessary for proper feeding of the various types and sizes of paper and cards used, adjustments for varying the positions of the material on the paper, the correct method for securing the drum and ink pad when the machine is not in use, and the use of colored inks for multicolor reproduction.

The last step includes maintenance of the Mimeograph machine which, in order to obtain good duplication, is very essential. This step includes disassembling, cleaning, oiling, and the proper care of the various parts of the machine.

Chief Hack, with the co-operation of the A. B. Dick Mimeograph Company, has been able to provide excellent displays of the various types of work that can be accomplished with a Mimeograph machine and the "know-how." The displays include numerous types of stencils, flexible writing plates, lettering guides, styli, cellophane sheets, operating charts, and many other aids to good Mimeography. We feel that the course is of definite benefit to all hands.

Clerk to sweet young thing in a form fitting sweater: "Would you like to step outside and try it for whistles before you decide?"

Then there was the Wave who always warned her escorts: "Before going on this date, Bub, there's one thing I want distinctly understood. Although I'm a sea-man second, I'm a lady first!"

Not Much Research Involved

By R. M. Gismondi

SPORTS

The bowling team downed Lab 16A to the tune of 3-1; Gismondi rolled the high single game for the researchers with a 198. The team as a whole was pretty well hard hit by the recent transfers that are taking place at the present time, so if any one is interested in helping out the team in their later stand in the competition, please contact B. R. Talbot or Terry Melchi.

The softball team, also hit by the transfers, has been doing very well in their exhibition games, by winning all of them so far, anyone interested in this sport please contact Condomitti.

TRANSFERS

Ashore—Weisner, HMC; Garner, HM1; Sweeney, HM1; Hamilton, HM1; and Gismondi, HM3 all to Camp Lejeune, N.C. for FMF duty. Aboard — Walters, HN; Wallace, HM3;

FLASHES

HMC Davis of Radiation Technology is expecting to leave soon for Dahlgren Proving Grounds in Virginia. He surveyed the situation over a few weeks ago and relates that the situation is well in hand.

A few weeks ago in one of the leading papers of Washington, D.C. a column was perpetrated for the sole purpose of explaining a long sought result in the field of research. Dr. Benzinger and Dr. Kitzinger have proven their theories of a machine that will calculate and record correctly the total amount as well as the individual sources of heat loss of the human body. This instrument was in the process since 1943 and is called the Calorimeter (differing from the present used type).

Weddell, HM3 wishes to announce a change and error in the column's last issue, he is to be married in September of this year and not June as related to you by yours truly in the last edition.

A certain fellow has been breathing on my neck for the past month that I made an error in the column a few editions ago, it was the following mistake, the newcomer to Radiation Tech is J. P. Luciani and not J. P. Juliani as was printed in the column, "so sorry."

In the future this column will be written by someone unknown at the present time for I have received my orders for transfer. I wish to take this opportunity to relate to all of my readers that I sincerely appreciate your past interest and urge all of you to continue to support the next reporter for the Institute, for it is for your own interest that this column is written.

I again thank you for all the wonderful compliments and unending cooperation.

My only regret is that I cannot continue to associate all the events taking place with the personnel concerned.

Until we have the opportunity to meet again, I remain,

Your grateful NMRI reporter

Cruiser

ed assignments to any one individual group, may be refused.

Scheduling for the "Catherine" started April 16. All parties interested contact the Recreation Of-

E. F. Ferris, M. J. Brown Appointed WOHC; Brown Serves Second Tour

Two HMC's, Ezra F. Ferris (right) and M. J. Brown (left) take oath of office from CDR Zimmerman, CO, NSHA.

By G. E. Bachert

Two HMC's were recently appointed WOHC at School of Hospital Administration. Commander M. J. Brown, Commanding Officer at NSHA, administered to Ezra F. FERRIS and Marvin J. BROWN, who were appointed on the basis of selection as a result of the evaluation sheet last July.

Miss Brutto Weds 1st LT R. G. Bull

Mrs. Stephen R. Brutto, of Morganton, W. Va., announces the marriage of her daughter Lee to 1st Lt. Richard Gregory Bull, US-AF, on Saturday, April 21, 1951 at Bethesda Md.

Immediately following the ceremony, a reception was held for the new bride and groom in the Commissioned Officers' Club at the National Naval Medical Center, Bethesda, Md.

The bride, Miss Lee Brutto, is the daughter of Mrs. Stephen R. Brutto and the late Mr. Brutto of Morganton, W. Va. She received her education at the University of West Virginia and has been the popular Senior Hostess of the Commissioned Officers' Club at the National Naval Medical Center since its opening in January 1950.

The groom, 1st Lt. Richard G. Bull, USAF, the son of Mr. and Mrs. Landon R. Bull of Central Valley, N.Y., is presently stationed at Andrews Field, Washington, D. C. as a jet pilot instructor.

Following the reception, Lt. and Mrs. Bull left immediately on their wedding trip to Las Vegas, Nev., where Lt. Bull will be stationed prior to going overseas.

ficer for the proper form which must be submitted in triplicate. Reservations may also be made by phone (FRanklin 5700 (code 142) extension 680) prior to submission of the written request. All requests must be accompanied by a check or money order in the amount of five dollars payable to "Custodian, Command Recreation Fund, PRNC." This amount is required due to the limited non-appropriated funds available for operation of the "Catherine." The full amount will be refunded if the trip is cancelled due to inclement weather, material condition of the cruiser or by the applicant.

For Mr. Ferris, this appointment to officer's rank was first enlisted in the Navy in September 1939, at Macdonald, where he went to the Naval School at Portsmouth.

Perhaps the highlight of Ferris' career was serving aboard the USS "Albatross" on independent duty. The ship was sunk after numerous "frog" landings along the Sicily at points behind the main lines. At this time he was wounded in action. Participation in these operations was given a commendation as commanding officer and to CPHM.

Here at NSHA, Mr. Ferris has been acting in the dual role of both student and instructor. He is a Commissary Procedure destined for the Naval School at Portsmouth, Va.

Mr. Brown is now on his second tour as a WOHC. He served for a time preceding the termination of the last war as an officer. He enlisted in 1939 in Minneapolis, received his basic training at Lakes, Ill.

Mr. Brown came to NSHA in August of last year and was transferred to NSHA in October. He served in the Maintenance Division and has been detached from NSHA and is now at the Bureau of Medicine and Surgery.

All hands at the Naval School of Hospital Administration take this opportunity to offer their congratulations to both Mr. Ferris and "bon voyage."

OT Awards

(Continued from page 1)

Moody, SK3, SN, of Waverly, Ohio; 3rd prize for Weaving to LT L. H. M. USN, of Colmesneil, Tenn.; prize for Leather to Fireman, USN, of 644 San Pedro, Calif.

Awards to staff were 1st prize for Woodwork to Nesman, HM3, USN, of Lips St., Nashville, Mich.; for Ceramics to R. J. U. USN, of 915 N. 5th St., Philadelphia, Pa.; 1st prize and 2nd prize for "Spec" to A. J. Benson, NG, USN, Box 71, Whitewright, Tex.

Dental Explorer

Here we go again, as the wheels progress, are continually turning here in the Naval Dental School.

The command is fully making the points of interest to the interested personnel, that can entice them to further their education while in the Navy. The Dental School, the Dental Recreation School and the Staff Enlisted Training program all are running on the same lines to aid in the advancement of rating for the personnel. It would be hard to say who devotes the most time to the training programs, but to the staff and every instructor the work of the entire crew is passed on.

Departing for the Fleet Marine Force this past week were two of our staff 3rds., Bernie Plaske and Larry Farrington. Both had been attached to the Dental School for little over two years. We hate to see you fellows, as your leave will mean the loss of a couple of good guys. About the best send that your shipmates can give is to wish you luck and the hope that you have some good

time the softball season is just about to get officially underway, and we the NDS team out every night weather permits having a little field and outfield practice. The team this year is being masterminded by "Lefty" Sickels and "Lefty" Beckley. A few of the players on this year's team, who also played the team spirit last year are Joe Hawley, Jack Cummings, Bickel and Chief Berry.

We recently welcomed aboard several new staff members. Ken Wherley DT2, who was recalled to duty. Also came aboard the good ship Bethesda had D. Rogers, DA, and R. Johnson, DN, both reporting from Great Lakes, Ill. Welcome to the Dental School.

There are recent additions to the staff are Stottlemeyer and "Soup" McCline and Campbell are new to that club.

We have been noticing the Coach Dr. King making the rounds on the golf course quite regular. Do they get the energy to go out in a single afternoon? I don't get enough to go six at an start in the morning. But about that tan you get out. It sure adds a lot. Just a winter in Florida. (I will be Cal. myself.)

Jack Cummings had a letter from R. L. Thompson, who was transferred to the Korean area last year. Bob is still there. Says he is back away from the best of it, but still takes Beth to Korea. When you answer letter, Jack, give Bob all the wishes from the Dental School. He has come for "Siesta", so it is.

We've Had It

LCDR M. J. Wiltshire Retires After 30 Years Colorful Duty

Born 25 April 1901 in Ithaca, Michigan, LCDR Wiltshire attended grammar school and high school in Onaway, Michigan and attended the Michigan State Normal College from the fall of 1919 until April 1921.

He began his Navy career when he enlisted in the U. S. Navy in Detroit, Michigan, 25 April 1921 as a hospital apprentice second class, taking his basic training at the Naval Training Center, Great Lakes, Illinois and Goat Island, San Francisco, California. Upon graduation as a hospital corpsman, he was assigned to the U. S. Naval Hospital, Mare Island, California. He has also had duty at the Naval Station, Tutuila, Samoa; U. S. Naval Hospital, Pensacola, Florida; U. S. Naval Hospital, Great Lakes, Illinois; Receiving Barracks, Pearl Harbor, TH; Marine Corps Base, San Diego, California and Recruiting Duty, Denver, Colorado, at which place he was appointed Warrant Pharmacist 18 February 1941.

Mr. Wiltshire has had sea duty aboard the USS Pennsylvania, the USS Arizona, the USS Saratoga, the USS Northampton, Destroyers—the USS Sloat and the USS Upshur.

During World War II, he had duty with Lion Two, Hura, Lion Four, and Cub Twelve. He was also stationed at the District Officers Office, 12th Naval District, San Francisco, California.

He attained his B.C.S. at South-eastern University, Washington, D. C., in 1944 and then attended the Naval School of Hospital Administration, Bethesda, Maryland. Upon completion of this course, he was given duty at the U. S. Naval Hospital, Memphis, Tennessee; the Naval Medical Research Unit No. 3, Cairo, Egypt.

On 1 January 1949, Mr. Wiltshire attained the rank of LCDR, MSC, USN.

Mr. Wiltshire came to the National Naval Medical Center as Administrative Officer of the Naval Medical School on 14 September 1949 and is now being retired from that position as LCDR, MSC, USN after thirty loyal years to the U. S. Navy.

In LCDR Wiltshire's own words: "My entire time in the Navy has been interesting and of inestimable value to me. I have never had a duty station where the duty was not interesting. If I had the past thirty years to live over it would again be all Navy beyond the shadow of a doubt."

Did You Know That -- ?

In order that all patients and staff might become better acquainted with the excellent facilities available here at the Naval Medical Center, the Recreation department has outlined below the various modes of enjoyment and recreation for the summer months.

Golf—A beautiful 9 hole course of 2,882 yards which circumscribes the entire compound. Tricky and testing you will enjoy an attempt to break par of 35. A greens fee of .50 is charged. Clubs may be rented for .25. A "Pro" is on duty should you desire a few lessons. Open from 0800 until dark. Passes are required and these may be obtained upon request from the Recreation department. Patients' blue identification pass is sufficient.

Swimming—Offering one of the best natatoriums in the East, Naval Medical Center's swimming pool, boasting a new aluminum springboard, invites you to refresh your muscles with a cool swim. All you need is suit and towel, plus a cap if you're of the feminine gender. Hours, except Monday are 0800 until 2000. On Mondays pool is secured until 1300.

Bowling—Complete with pin-setting machines and newly refinished alleys, the four maple lanes located in the basement of the Recreation Building offer the finest for your try at a "300" game. Tenpins only and you must furnish your own pinsetter. However this chore is a cinch with the machines. Available from 1300 to 1800 through May 18 when league bowling will end. After that date alleys will be open from 1300 until 2200.

Billiards—The lovers of "sinking the eight ball in the side pocket" have six tables awaiting them in the Pool Hall located in the basement of the Recreation building. Hours are from 0800 to 2200.

Tennis—Tennis courts for Officers are located between the Waves Barracks and Nurses' Quarters. Tennis racquets and balls have been provided BOQ and Nurses' Quarters. Courts for enlisted staff and patients are located adjacent to the No. 1 softball diamond, near the Jones Bridge Road gate. Racquets and balls for play on these courts may be checked out at the Information Desk, Recreation building.

Badminton—Racquets, shuttlecocks and nets may be checked out from the Equipment Storeroom, Recreation building.

Fishing—Fresh water and salt water reels and rods for those who crave the sport of stream or sea are available also at the Equipment Storeroom, Recreation building. However, due to the demand and supply, custody is limited to ONE week.

Softball—The Station has embarked on a full program in this sport, featured with a 12 game intramural league which promises to be loaded with good, close games. Also have a Varsity Men's and Women's teams which will compete in all-service leagues in this area. Drop around any afternoon about 1700 and watch a game. And if some of you patients feel like tossing a few around during the morning or afternoon, drop over to Recreation's Info Desk and check out gloves, bats and balls.

Gymnasium—The gymnasium is still open for workouts every day from 0800 to 2200. If you want to practice a few hook shots for next year's basketball or if you aim for the Golden Gloves, come on over and sizzle the speedbag.

Commendation Awarded To Sgt. B. Furches

In a ceremony held here recently, RADM C. A. Swanson, MC, USN, presented a Letter of Commendation to SGT Billy Furches, USMC. SGT Furches was awarded this Commendation for his excellent service in the line of his profession as a wire vehicle driver in Korea while serving with a Marine artillery battalion from 23 September to 3 October 1950. His skill, courage and confidence aided materially in establishing fast, efficient communications throughout the battalion. SGT Furches is authorized to wear the Commendation Ribbon with Combat "V".

Med School Scuttlebutt

By O. C. "Skip" Skinner

Many personnel have been transferred lately including both students and staff. Thirteen of our old friends on the staff received orders to the FMF. Lab 15 has left us for points all over the world. We will miss all of our friends that have left our midst for the time being.

The Med School softball team is tops this year and it looks like we will have a championship team. Under the management of Moose Kovarik, they should go far. "Grumpy" Grindell is the pitching ace at the moment. After a few warm-up games under his belt he will be ready to lead the boys to a championship.

Golf season is also coming into being. Many of the Med school golfers are in top shape for the various tournaments that will be held throughout the season. John Gray can be seen spending most of his spare time on the course. Also Berry and Myers spend a lot of time on the course, getting themselves into shape.

Lab 17 is aboard for a year of study. We wish to welcome them to the command and hope that their stay here is a happy one.

It won't be long until whites will be compulsory and the sweat and toil of ironing and starching will be here again.

Parties and Picnics—If you are planning a get together this summer, be sure to get your "Picnic Gear Bag." Assures you of a game of softball, football and volleyball.

Movies—The movie schedule will remain without change this summer. Two shows each night and remember the theater is now air-conditioned. So no matter how hot outside, the movies will offer a cool atmosphere.

In addition to the above, the Barracks, Nurses' Quarters and BOQ offer their televisions, radios, pianos, pool and ping pong tables and many wards enjoy Recreation's radios televisions, phonographs, etc.

BUILD UP IN THE SUMMER FOR A HEALTHY WINTER.

Two NMRI Doctors Demonstrated New Calorimeter Recently

A new type of calorimeter, an apparatus that measures the heat given off by the body was demonstrated recently to members of the press at NMRI. This calorimeter is the first of its kind. This calorimeter was invented and demonstrated by Drs. T. H. Benzinger and C. Kitzinger, of the Institute staff.

Differing from all other calorimeters in use today, the machine is so constructed that it continuously measures and records the total amount as well as the individual fractions of heat lost on different ways by a living body. An important feature of the new calorimeter is its response to changes in heat output in half a minute, and that there are no calculations to be made from the recorded findings, as the machine registers directly the rate of heat loss, in terms of calories per second.

The operating principle of the machine is based on the fact that when heat passes through a layer of heat conducting matter, a difference in temperature will be found to exist between its two surfaces. This difference, or gradient, of temperature is proportional to the rate of heat passing through the layer. To correctly measure and record this difference — which is only about 1/100 degree centigrade — Drs. Benzinger and Kitzinger devised and built a layer, consisting of hundreds of electric thermometers, so-called thermocouples, which are interlaced through plastic material and wired in series, forming what is termed a "Gradient Layer." The patient, or heat source, is placed within a metal boxlike structure, lined on the inside with this gradient layer, which thus completely surrounds him. The outer surface of the box is kept at constant temperature, to prevent any outside interference from striking the layer, which would cause a false result. Air for the patient is forced into the chamber by a pump. To prevent any heat escaping without being recorded, this air is passed through a simple arrangement of plate-shaped chambers, lined with gradient layers, where heat and moisture are recorded also as calories.

By setting at a certain level the temperatures of the walls and of the air for respiration, and by controlling the moisture, almost every atmosphere in which man lives can be simulated for study.

Drs. Benzinger and Kitzinger, for their planned investigations on the mechanisms of body temperature regulations, found no method which would give a fast enough response to variations in average skin temperature. They therefore devised and built a second instrument, a so-called "Radiometer," which picks up the heat radiated from the skin, thus allowing a direct and accurate determination of the body surface temperature. This instrument forms an inner lining on the gradient layer, like wall paper. Its response to radiated heat is recorded directly, within three seconds, either in calories per second, or in degrees Centigrade, which means the average skin temperature. No wires or any other instruments are attached to the patient. He is relaxed and comfortable at all times.

The simplicity of the apparatus in its construction and operation open the possibilities that it can be used by many other institutions for various types of research. The gradient principle may allow direct calorimetry to be used in hospitals and applied research units in the future.

A large adult size machine is being manufactured for the Navy's use, and will be delivered in 1952.

Coach's Corner

Fort Meyer's baseball team is gradually acquiring major league status with such names as Danny O'Connell, Pittsburgh Pirate short-stop, Johnny Antonelli, Boston Braves moundsman and Sammy Calderone, New York Giants catcher. Across the river at Bolling Field can be found six college captains recently plucked from their campus diamonds, together with nine professional ball players of varying league status.

Quantico is fielding a team, so loaded with luminaries, that an outfielder who batted .472 for the Marines last season makes his daily appearance in uniform to shag fly balls in batting practice.

Here at home we could put Tommy Brothers as the opposite of O'Connell, Beano Roberts to offset Antonelli, and George Funk as the playing opponent of Calderone, Don Polizzi to match Jackson of the San Francisco Seals and that's about where we would stop. A year or so ago we could point for Quantico all season long, but if we were to play hardball in the Mid-Atlantic Service Conference today, we would be out of our class, and hence the decision, one made with reluctance, to drop baseball as a Varsity sport.

19.5% Play Softball

The intramural softball program is off to a fine start with enthusiasm at an all time high. Each team is outfitted with colored jerseys, caps and furnished with a numbered bag containing gloves, bats and balls. Those bright red caps which can be seen anywhere on the Center and the Rockville turnpike mark a local softball player. On the statistical side of the picture we can point with pride to the fact that 19.5% of the station personnel are engaged in playing in the spring softball league.

Four Under Wing

Bill Downing, our local golf instructor has taken a daily foursome under his wing. All members of the group are wounded veterans of the fighting in Korea. Of the foursome, not a man played golf before and rain or shine these boys are out on the fairways all week long. In each case, the sight of one eye was lost and according to Bill, they are hitting the ball well. The professional further reports that they REPLACE ALL DIVOTS which is more than can be said for a few of the players who have been pursuing the rubber pellet for a few years.

Group golf instruction is now being sponsored by the athletic department for all beginners. Here is an excellent opportunity for personnel who would like to learn the rudiments of the sport at no cost. Information as to the hours of instruction et al can be gained at the golf shop from Bill Downing or Lowell Sperry. At the end of the season a tournament will be held in which entry will be restricted to those who have taken the group lessons. Match play will govern the tourney and the distance will be over nine holes.

Note to Fivesomes, etc.

The pleasure of a majority of players is frequently destroyed by the unnecessary deliberation and slowness of a few. In recognition of that situation, worldwide adherence is given to the following:

1. No more than four players may tee off together at any time.
2. Do not move or talk when a shot is being played as it may annoy the player. Do not stand immediately behind the player when he is playing off the tee or through the fairway. On the putting green stay off his line of

New Morning

The world of morning darkness is my world,
And all its silent shadows is my thought
Imprinted on the clouds within my mind.
The ribbon scent of coffee is unfurled
Giving freshness which cannot be bought
By man, but which a fool can find.
The morning of the open eyes,
The scope of which is limited,
Will by and by see sun arise,
And by and by, as morning dies,
The roads and paths of life unlimited
Stretch out in all directions to the skies.
The core of fear is my dejection:
To choose which road, in which direction.

—Ronald Bourgea, NNMC

HMC Melvin Runkel, NMRI Artist, Painted Pictures for CPO Club, Dance

Responsible for the art work at the last dance is HMC Melvin Runkel, of the NMRI Medical Illustration Department. Admiral Willcutts was so pleased with Runkel's work that he asked to keep the drawings depicting his naval career—the Chief completed the pictorial history by adding another series of four ships not represented in the first showing.

Runkel's art interest stems from early days in Los Angeles and San Diego. During High School days he followed art as a hobby, but upon graduation he decided to go on. He attended the Chinouard Art School in L. A. for two years. With this formal education, Runkel put his school knowledge to profit. He went to work for the Bullock Advertising Agency and did layout and interior display designing. "But," according to the Chief, "I got sick of that so I went to sea commercially."

On a tour of the Pacific sponsored by Bullocks, the Chief had

nothing to do but paint and travel. He was sent on this mission to paint scenes for the theme of the Pageant of the Pacific which was held at the San Francisco World Fair.

In 1940, "I got the sea bug again so I joined the Navy." After boots and Corps School at San Diego, he was sent to the Naval Hospital at Pearl and then for a short stay at Great Lakes. Finally he got what he was after, the USS Atlanta for two and a half years and following, the USS Duluth. In 1948 he was transferred to the Research Institute where his work consists mainly of painting detailed drawings of lab equipment and special scientific publications.

The Chief is also the man behind the CPO Club's fine murals, and many other works done for private individuals. When asked where he would like duty next, he submitted: "I like cruisers and would welcome the chance for sea duty again."

putt when he is about to play.

3. Do not tee your ball until it is your turn to drive. WAIT until the player farthest from the hole has played before playing your shot.
4. Move quickly off the green after your match has holed out. NEVER play into the match ahead, unless they signaled you to play through.
5. A single player has no right on the course. He must give way to a foursome. If a twosome approaches, he may join them or give way.
6. A PLAYER SHOULD SEE THAT ANY TURF CUT OR DISPLACED BY HIM IS AT ONCE REPLACED AND PRESSED DOWN, AND AFTER THE PLAY OF THE HOLE IS COMPLETED SHOULD SEE THAT ANY BALL HOLE MADE BY HIM IN THE PUTTING GREEN IS ERADICATED.
7. Smooth all footprints and areas of 'explosion shots' in the sand traps.

Navy Belles

By George

JUST AROUND OUR HOUSE

The softball team had a meeting on April 18, and elected "Hammy" Hamilton as manager. Then her troubles began, no left hand mitts or bats for her team's left hand players. Now she is looking for a left hand team to play.

First practice 1730, Friday, April 20. They are still wanting more girls to come out.

The week of the 20th also brought some welcomed Waves for hospital command: Dolores Lauby, from Wisconsin, Rose Pietrangelo, also from Wisconsin, and Delores Thornley, from Florida. They all came from the Lakes.

Henrietta Harchand, DT3 USNR came from down town to Dental's. Welcome.

Weekend of the 22nd found Irene in New Bedford, Mass.

Lois Peterson is looking for packing help, two lockers full to be put in one foot locker!

Lab 16 Under High Pressure

By The Thing

The softball season seems to be well on its way. The Lab 16 team with pitchers like Red Gregory and Royal Stephens should really go places. No comments Please. With Schroepfer at center field, Ferris at first and O'Neil at short stop, the team should win a couple of games. We might fool you because the team is being managed (?) and coached (?) by Coltey. Believe it or not.

The chemistry section of the class is on their way to becoming first class technicians. At about the time that this issue is out we should be following in the footsteps of Lab 15. We should be out on the wards drawing blood and making fast coffee runs to ship service during the day. We will be the senior class.

Dr. Sudduth with his daily lectures and Chief Thrasher with his cough drops and lab periods are keeping us well informed, or reformed which ever the case may be.

The pathology section of the class, under the guiding hand of Chief Spangler, is holding their nightly sessions of the Royal Order of Embedded Tissue cutters. If they don't cut the tissue, who will? Marriage has taken and is taking a heavy toll of the cleaning details in barracks 140 (dorm. D). Pretty soon there won't be any one there to clean it up. How about that, Luke?

Chief Thrasher, we hear, is quite the whiz with a slide rule. It only takes about 10 to 20 seconds to work out a purity problem by that method, where as by longhand it takes about 15 minutes. Man is he fast. O'Neil is official instructor, it seems, in instructing the Dorm D sleepers on the art of muscle building, and muscle building it is. O'Neil besides being pretty good with the barbells (for weight lifting) is a pretty fast short stop. With a little more practice he should be pretty good.

Bassins'. What a name. It seems to be on everyone's lips these warm days. For those of you who don't know where it is, it's very easy to find. Just follow pretty near anyone of the Lab 16 students and they'll lead you to it with no trouble at all.

Well readers, (pardon the expression) there are a million and one things to be done so Adios until next we meet. Remember It's good till the last drop.

Elwood Haynes is generally credited with building the first automobile on a commercial production scale in 1894.

So glad Kay Nelson will be staying here for a while, likewise "Peggy" Ruth.

It is told that the girls brought Terry a sauerkraut sandwich the other day, to be followed by potato chips.

Did you ever hear of a Dental Wave teaching first aid? We have one. "Maggie" is teaching knots and band-aids to her class.

The Lab. class has finished and Peterson, and Wiitala have started their cross country hop by car. We hope you like your new duty station; we will all miss you both.

Glamour Wave of the month is Miss Cheesecake, known to her friends as CC.

Lab 15 Under Low Power

By Moe and Gizz-Moe

This is it! The long-awaited day has arrived. Yes, a hectic of studies, watch-standing, beer-drinking has come to an end. Now our notorious classmates go forth to take their rightful places in the files of Alcohol Anonymous.

As this year has passed, many of our classmates have unfortunately fallen into the wiles of matrimony. Our "Ball and Chain" department has done its best to keep us out of the situation.

The first to bite the dust was Charlie Henderson, who was followed then by the Wiitalas, aliere, "Peggy" Ruth, W. Mattox, "Tex" Mains, Feicht Myers. The latest to fall was Garland and Bill Lotz.

Never will we forget "Hematology Blues" and "Ology Shakes" with Chief B. more, those days in Parasitology studying the life cycle of Robinette, and those long nights in Pathology under the watchful eye of Chief "Curly" Spang.

The Bacteriology class will always remember the comforting words of Chief Thrasher: "If you have a little stranger in the lab — also never to be forgotten the famous words of Chief instructor Chief Nygren: "Sdoc, that's a five."

Amongst our classmates, there are ones who, because of habits or accomplishments, forever stand out in our memories. Listed here are a few of these notables and also the attributes that have made them famous —

"Sneaky" Holtman and his morning glass of "grape juice"; "Robbie" Bartley and Louie, their extremely efficient beer delivery service; "Rags" and "Pee-aire" engaging in daily wiling bouts; Harry Gallagher leading those "picnics" in his cut; "Hot-Rod" Creely driving "Thing" to Jersey and back without losing any fenders along the way; Feichter leaving his car in Exec's parking space (accidentally of course).

Some of our classmates we remember because of their unusual and sometimes questionable talents: St. John giving forth operatic arias from the show; the morning (usually before 8:00 a.m.); "Pappy" Parparts ably touching the end of his nose with his tongue; "Hoppy" Pleasance's Be-bop sessions; "Uncle M." Fronko's self-inspired "jazz" selections (Patti Page on the phonograph); Mide handicapping the horse races.

Naturally we have reserved spaces for Chief Kennedy, the man in Lab 15 who can smoke half of a cigar and digest the other half; and Chief LaTouche, "Ladies' man" of Lab 15.

We imagine you have been waiting for quite a while now to find out the true identity of "Moe Gizz-Moe". Just ask anyone in Lab 15, for they will certainly be able to tell you who "we" wish, at this time, to be Pleasant, Oddis and Pelliter, their extremely valuable assistance in writing this column.

We shall close our final column by bidding farewell to Lab 16 Class fifteen, certainly not the most righteous of all Lab classes, but in our opinion, definitely the best of the past fifteen. See you all at Bassin's some day soon, hope.

Bethesda Patient and Wife Enjoy Vacation Free at Miami Beach

"Operation Vacation" was launched when the first of hundreds of wounded Korea veterans and their wives started free Miami vacations, sponsored by the Veterans of Foreign Wars.

The first to take the free vacations is Sgt. P. M. Sabato, USMC, hero of last winter's Chenju Reservoir battle, and his wife Clara.

They took off from National Airport, at 9:30 A.M., Friday, April 27 bound for Miami and two weeks in the sun and access to all the entertainment spots free in Miami.

Sgt. Sabato and his wife are the first couple to receive the all-expense vacations. Arrangements were made by the V.F.W. for the couples to fly by Eastern Airline to Florida and stay at the luxurious Saxon Motel.

A Marine Corps veteran of 8 years' service, Sgt. Sabato is on Ward 5-B here, as a result of injuries received in the Korean fighting. The Marine hero was knocked out by the concussion of enemy artillery during the reservoir battle. During the long 60-hour truck evacuation in sub-zero weather, he suffered frost bite to both feet.

Mrs. Sabato, an employee of the Washington Times-Herald newspaper, is the former Clara Ellen, Midland, Md., before her marriage to the Marine Corps hero two years ago. The Sergeant is formerly of Astoria, New York. In Washington the couple live at 1617 Holbrook Street, N.E. At the airport to see the vacationers off was Congressman James P. S. Devereaux, of Maryland, the former Marine Corps General who defended Wake Island during World War II, and the V.F.W. National Color Guard.

The V.F.W. stated that they intend to send a Korean veteran and his wife to the Saxon motel two weeks in a program planned to last two years. The vacations will be rotated among the men of the various branches of the armed forces and will be financed by motel management.

A. R. Demarest, HM3 Commended for His Performance of Duty

The Commanding Officer, NH, CAPT R. M. Gillett, MC, USN, recently presented a letter of commendation to Angus R. Demarest, Jr., HM3, USN, for his excellent work while detailed to patient personnel office.

The commendation reads as follows:

"I wish to express my appreciation for your splendid work which you have done in the Patients' Record Office of this command from 10 March 1949 to 4 May 1951. During this period of time you have performed your duties in a superior manner. Your attention to pertinent details and exercise of good judgment in dealing with the families of deceased patient personnel has reflected great credit to this command and is in keeping with the highest traditions of the U. S. Naval Service."

Demarest was born in 1928 in Montana and he graduated from school there. He enlisted in the U. S. Naval Service February 1948 in San Diego, California. There he received his recruit training and also graduated from hospital corps school.

Demarest reported to the hospital here upon completion of HSC in August 1948. He will report to the USS Missouri for duty.

Three NNMC Chiefs Play in 'Mr. Roberts'

Three Chiefs attached to NNMC are now performing duties both ashore and afloat. Each P.M. they depart for their chores aboard the AKA 601, currently berthed at the Gayety Theater. Forming part of the toughest, most arrogant crew in the Navy, you've probably guessed that they are part of the crew in "Mr. Roberts", the hilarious and very authentic reproduction of Navy life aboard a cargo ship.

The local thespians are HMC's C. F. Blakemore, Jr., of NMS; D. C. Barker, of NMRI, and H. Marrer of NMRI.

Open House, Band Concert Features of NNMC Armed Forces Day Celebration

Dramatic evidence of the nation's growing military, naval and air power will be seen by the Washington area public on Saturday, May 19, when the second annual Armed Forces Day is observed here.

An invitation for the general public is extended to visit NNMC. Guides will be present in the main lobby of Building 1 to show visitors through the Center's facilities. A band concert will be conducted at 1400 in front of the Main Building.

Planned as the annual report to the American people on the state of the country's defenses, the Armed Forces Day program in Washington will feature a colorful parade along Constitution Avenue and a joint exhibition and demonstration centered at Bolling Air Force Base.

The parade will present members of all branches of the armed forces, marching and riding in military formation, with many items of modern combat equipment on display here for the first time.

Reserve units of the armed services, representatives of veterans groups, high school cadets and many service and high school bands will march with the regular units of the services.

Starting at 10 a.m. on Saturday, May 19, the marchers will leave the Capitol grounds and proceed west on Constitution Avenue.

The President of the United States has been invited to review the parade from the stand to be erected on Constitution Avenue at 16th Street.

Officials of the Federal and District governments, and military, naval and air attaches of other countries will also be invited to watch the parade from the reviewing stand.

Bolling Air Force Base in southeast Washington will be the scene of the country's most extensive and spectacular Armed Forces Day program.

There, the Army, Navy, Air Force, Marine Corps and Coast Guard will place on display more than one million square feet of military, naval and aviation exhibits.

Bolling gates will open at 10 a.m. Then, at one o'clock, a continuous four and one-half hour demonstration of land, sea and air power will begin. More than 200 service aircraft of all types, from the Air Force's intercontinental B-36 bomber to the tiny fabric-covered Army liaison planes and 600-mile-an-hour jet fighters, will pass over the field during the afternoon.

Army demonstrations of the potent weapons used by armored units, chemical warfare troops, engineers and artillerymen will dramatically reveal the mobilizing strength of our ground forces.

The Army Quartermaster Corps will operate several of their field units, such as mobile bake shops and clothing repair trailers. The Transportation Corps will display an Army hospital train and other railroad equipment.

Illustrative material of medical service in Korea and motion pictures on the medical effects of the

atomic bomb will be shown by the Armed Forces Institute of Pathology.

Several Navy ships, including two fast transports and a self-propelled drydock, the USS Fort Mandan, will visit Washington over the Armed Forces Day weekend.

Arrangements are being made so that the public can inspect the vessels at their berths here.

A Navy carrier air group of 90 planes will pass over the Bolling area during the afternoon. Taking off from the USS Midway in the Atlantic, the air group will fly over the air base on a simulated air strike mission.

The armed services hosts expect a large turn-out for the Armed Forces Day events. Large parking areas will be set aside at Bolling so that visitors may drive to the base, although those who can conveniently do so are urged to use public transportation.

Servicemen and women will act as guides throughout the large exhibit area. A public address system will describe each of the demonstrations as it occurs.

Other local events will include an "open house" program at historic Fort Myer, Virginia, and a community parade in Falls Church, Virginia, both on Friday, May 18.

The Armed Forces Day observance here is being directed by Major General Thomas W. Herren, Commanding General of the Military District of Washington. Assisting General Herren in arranging the presentations are Rear Admiral Glenn B. Davis, Commandant of the Potomac River Naval Command, and Brigadier General Morris J. Lee, Commanding General of Headquarters Command, U. S. Air Force.

The Secretary of Defense has announced the Armed Forces Day theme as: (1) A tribute to the Armed Forces as an integral and interdependent part of the total material and spiritual power of America now being mobilized; and (2) A renewal of faith in our country's sacred heritage, the ideals of peace and freedom, to the preservation of which our power is dedicated.

"Defenders of Freedom" is the Armed Forces Day slogan this year.

IC V. W. Eischeid Comes New CPO's President

IC Victor W. Eischeid recently relieved HMC Renard as the president of the Chief Petty Officers' Mess (Open). Chief Renard detached from the Hospital and here for duty on board USS PC 1168.

Eischeid has fifteen years in the Navy. He was born December 28, 1915 in Iowa. He graduated from New Albin School at state. February 17, 1936, he took his first oath in the Naval Service is Des Moines received recruit training at Great Lakes. Following this he was sent to the Hospital Corps School at Portsmouth, Va. Among his many and varied assignments of duty are the Naval Hospital at Portsmouth, N.H.; Charleston, S.C.; and Great Lakes, Ill. He has also seen duty with MOB ON 3, and DREW 1. He served aboard the USS California and the Hospital Ship USS Repose. Eischeid attended Pharmacy school in 1946. He reported to Naval Hospital here August from the USMCAS El Toro. Upon arrival here he has been assigned to the Pharmacy.

DM G. B. Davis Be Commandant of Naval District

DM Glenn B. Davis, Commandant of the Potomac River Naval Command and superintendent of the Naval Gun Factory leaves present assignment to become Commandant of the Sixth Naval District and CO of the Charleston Base. The Admiral held position in this area for over years.

Admiral and Mrs. Davis plan a vacation before the new assignment is assumed on June 28.

Relieving Admiral Davis is Rear Admiral George H. Fott who was the Assistant Chief of Naval Operations and Chairman of the Ship Characteristics Board. Admiral Fott and his family will take the Commandant's quarters in June.

"I'm going to plant something that always keeps on growing—U. S. Defense Bonds."

Loose Scatter Rug Tells Story Of Patient's Returning Strength

RADM Swanson, CO, NNM, presents Cpl. Wos with trophy which was awarded the Marine for his first place scatter rug.

How often have we heard someone saying about an old piece of furniture: "If that mirror could talk, just think of the story it would tell." The few yards of cloth which are owned by Cpl. Gordon Wos, USMC, of ward 5C, likewise, have their story to tell. At first inspection, the hand-loomed scatter rug looks very similar to any other rug, but the judges of the Second Inter-Service Armed Forces Occupational Therapy Contest thought it rated a first prize in the weaving class. Why? Because the judges knew of the maker's story? No. The entries were marked only by numbers. Then why? Because, to a trained eye, the bit of cloth told the progressive story of a patient who had steadily gained strength. The rug, at its beginning end, is very loose and thin, indicating the little strength with which the maker wielded the beater. Toward the end, however, the rug is very tight—tight as you or I could make it.

Cpl. Wos is a polio victim. At one time he had lost the use of his whole body, except for his right leg. Although he has not completely shaken off the effects of the disease, nevertheless, he has staged a remarkable comeback. Today, Cpl. Wos has regained the partial use of his left leg, which is getting better every day. His left arm is now well except for reach. The Cpl. attributes his regained strength to Physio, Occupational Therapy and Mechano treatments.

Wos, a native of Fairmont, Minnesota, was stationed at Quantico, Virginia, when the disease struck. On the morning of September 19, 1950, he awoke with a headache and a stiff neck; by the 20th his right arm and left leg were paralyzed. He was rushed here and

Annual Meeting of Academy of Denture Prosthetics Held Here

The Academy of Denture Prosthetics held its annual meeting here at the Naval Dental School the week of April 30 to May 5.

The Academy is made up of the leading Prosthetics men in the dental profession. They came here from various parts of the country to present their clinics and essays.

Two of the staff officers of the Naval Dental School presented their essays. Capt. A. R. Frechette, DC, USN presented "Partial Denture Planning With Special Reference To Stress Distribution." Capt. Frechette placed special emphasis on the relationship between design of the denture and the ability of the abutment teeth to bear the stress. Capt. F. M. Kyes, DC, USN, presented "Pitfalls In Full Denture Service." He discussed the responsibilities of organized groups of specialists to the general practitioner. Capt. Kyes also deviated from his original text to present a short discussion on writings of the specialist and of the general practitioner in coordinating their efforts.

This Academy was founded in 1918, and has met each year since then at a different site each year.

The Chaplain's Corner

By Chaplain H. Grady Gatlin

There is anchored deep in the heart of humanity a noble sentiment that is intertwined with the love and memory of mother. Mother's Day gives an opportunity to bring out into the sunlight that sentiment and openly do honor to motherhood.

Poets have sung of the love of mother and artists have endeavored to place on canvas a typical mother and there is in the heart of us an ideal mother.

The very name mother is associated with everything that is pure, inspiring and uplifting. At the memory of mother our hearts are softened and in her presence we seem to be in harmony with the universe.

The memory of mother is sacred—it belongs rather to solitude than the hurly-burly life of business. When a man is discouraged at the giving up point the memory of mother somehow slips in and love and hope forces him to fight on.

The world pays homage to the memory of the mother of Lincoln. A man like Lincoln just had to have a great mother. Lincoln said: "All that I am or hope to be, I owe to my angel mother."

A man's greatness is built around his mother. There is truth in the hand that rocks the cradle, is the hand that rules the world. It is also true that behind every great man we find a great mother.

On Mother's day some of us will wear white carnations signifying mother has passed to the echoless shore. Somehow we didn't seem to realize the wonder she was until her voice was silenced by Her love and influence follows us still. Blessed is that man whose mother is still living, for this Mother's Day you can make some outward manifestation of the great love and respect you have for her.

Mother is your best friend, and a mother's love is a priceless treasure. Strive to be worthy of that mother's love and try to be the man that mother thinks you are.

"Love droops, youth fades, the leaves of friendship fall; a mother's secret hope outlives them all."

Bethesda, Ship of Mercy, USN

Anchored on land is this Ship of Mercy—Naval Medical Center, Bethesda, where the service families and the Navy under orders from Uncle Sam. Aboard this ship, relief from suffering is given those who enter. Floundering in a turbulent sea of pain, in a whirlpool of emotion! To heal the ill and stifle pain, all known scientific tests are made. By the trained, whose hearts and hands are dedicated to the sick. The officer, sailor, wave, the wife the same considerate treatment take. When doctors command, prescribe with efficient nurse as aide. Into the family wards come the brave wives of husbands in Korea afar. To give birth to their babies, while they fight to protect our rights. Uncle Sam from this Mercy Ship will no deserving dependent bar. All creeds, races are welcome if to the Navy family they belong. God bless the physicians and crew who with skill this ship man! Bethesda, within your towers, miracles for the services are performed. You're a haven for the weary, in body and mind, who strive on sea and land. Bethesda, we the Navy, who have known your healing, your comfort. Thank you.

—Jewel Ziegemeier, widow of the late RADM H. J. Ziegemeier.

Mystic Love

Gray twilight dims day's golden hue
As gently as the fog dims heaven's blue.
Night in her gown of purple chiffon
Glides with the grace of a fleeting fawn
To polish her jewels, the sparkling stars
And flirt with Moon, Saturn and Mars.

The Moon beams with illuminating glow,
A full Indian Moon as red as though
The Sun had spilled her scarlet dye
Tinting his face, while Night dancing by,
Flutters a ribbon of purple chiffon
Moustaching the Moon as she waltzes on.

Weird acrobatics the Cloud Nymph performs,
Whirling and coiling her misty forms
In rhythm with Winds serenading Night,
The Moon seeks to woo with silvery light.
Coquettish is Night; not easily won,
She flirtingly taunts; appearing to shun.

Silver darts from Cupid, smiling above,
Subdues the Night as Moon whispers love
So eloquent, its charm lulls heaven to sleep
And a rendezvous with each other keep.
In love they embrace, fade and are gone,
One kiss of love; one kiss that is dawn!

—Gloria E. Gosnell, NMRI

Beneficial Suggestion Award

Miss Gladys France is shown receiving a Letter of Commendation from LT Hewitt, Director of Civilian Personnel, for her idea of increasing efficiency in handling records in her office. Others in the picture are Mrs. Julia Smeltzer and Mrs. Helen Martin.

Miss France is the first civilian employee of the National Naval Medical Center to receive an award under the Navy Department program which provides valuable incentives such as Administrative Cash Awards to those who submit constructive suggestions. The letter to Miss France from Admiral Swanson reads in part: "The National Naval Medical Center sincerely appreciates your interest and effort in devising an original and efficient method of keeping vacancies and pending vacancies recorded for the use of the Civilian Personnel Office."

Submit your idea today. Thoughts that never get beyond the idea stage are wasted. Write them up and deposit them in your local beneficial suggestion box.

News Shorts From The Editor's Desk

Eight Navy Hospital Corpsmen assigned to the First Marine Aircraft Wing, while serving under the tactical control of the USAF's 21st Troop Carrier Squadron were awarded the Air Force Distinguished Unit Citation for their part in air evacuation of Army and Marine wounded from the Chosin Reservoir area last December. The corpsmen are: Mendell Brazell, HN, F. C. Conover, HN, E. L. Fox, HM2, J. M. Jank, HN, K. R. Marks, HM3, M. Rodger, HM1, R. S. Ruffin, HN, and V. F. Scanlon, HN.

(AFPS) The Veterans Administration has mailed out the first of the National Service Life Insurance special dividend checks, warning that Veterans in general should not expect to receive their checks until several months after the policy anniversary date. A year will be required to complete the disbursement.

(AFPS) A camera lens which can take close-up pictures from two to three miles away has been constructed at the Naval Ordnance laboratory.

The lens, designed to photograph from parachutes at great altitudes and for the study of missiles in flight, will also photograph objects invisible to the naked eye. The focal length is about eight times that of the normal telephoto lens.

The Navy claims that a photographer "shooting" from the top of the Washington monument could take close-up movies of a ball game at Griffith Stadium, almost three miles away.

Sunday, May 20, will be observed at the National Naval Medical Center as Armed Forces Day Sunday with special religious services in the main auditorium: Catholic Mass at 0830; Protestant Service at 1000. Navy personnel who plan to attend religious services off the station on Armed Forces Day Sunday are requested to wear the uniform instead of civilian clothes.

Commander Frank E. Frates, Jr., DC, USN, was guest speaker before the annual meeting of the Massachusetts State Dental Society in Boston during the week of May 1, 1951.

Reservists from USS Eldorado Send Love and Candy to Mrs. Rosenberg

Mrs. Anna Rosenberg and John Norris pass boxes of candy to the patients of 5-C. In the picture, seated, SN Green, DTC Tom-brello; second row, CSSA Shoffstall, and SN Plessner.

In appreciation of her "efforts on behalf of involuntary recalled reservists regarding their release and limitation of active service", Naval Reservists aboard the USS Eldorado (AGC 11), currently in action in Korean waters, recently presented Mrs. Anna Rosenberg, Assistant Secretary of Defense, with a huge chest of candy.

The presentation was made on Ward 5-C. John G. Norris, military correspondent of The Washington Post, acting for the USS Eldorado officers and enlisted men, made the presentation.

Mrs. Rosenberg, in accepting the huge decorated candy chest, immediately shared it with patients in the hospital, many of them Korean war casualties.

The Washington Post recently received the following letter from the USS Eldorado asking the newspaper to use an enclosed \$45 money order to purchase candy for presentation to Mrs. Rosenberg:

USS Eldorado, AGC-11
26 March, 1951

Editor, Washington Post
Washington, D. C.
Dear Sir,

A group of U. S. Naval Reserve officers and enlisted men aboard the USS Eldorado have followed with interest the efforts of Mrs. Anna Rosenberg, Asst. Secy. of Defense, on behalf of those reserves recalled involuntarily and without delay to active service.

It is the desire of this group to show its appreciation for the work she has done, and, not knowing any person in Washington, D. C. to whom we could address this request, we are taking the liberty of asking that you grant us the following favor:

Enclosed is a money order in the amount of \$45.00 made out to the Washington Post, with which we ask that you engage some local candy store or chocolate shop to prepare and deliver one oversize, appropriately decorated box of chocolates to Mrs. Rosenberg and include with it the card which we enclose. Any incidental expenses which you may incur in making these arrangements please deduct from the \$45 and the balance to go into the purchase and delivery of the candy.

The men and officers concerned sincerely appreciate the time and effort you may expend to accomplish this favor for us and may we extend our many thanks in advance.

Very truly yours
(Signed) James E. Thomas
PHG1

S. E. Hadden PI 1
O. F. Martin PHG C

The inscription attached to the gift follows:

Dear Mrs. Rosenberg:

We have heard of your efforts on behalf of involuntarily recalled reservists regarding their release and limitation of active service.

Anna — WE LOVE YOU!

Signed:

A group of involuntary recalled aboard USS ELDORADO (AGC 11) Korean waters (c/o F.-P.O., San Francisco, California)

RADM Clifford A. Swanson, CO, NNMCM, met Mrs. Rosenberg and escorted her to Ward 5-C for the presentation ceremony.

Fashion Show to Benefit Service Club

The Navy Dental Wives' Club is planning an Hawaiian Fashion Show to be held at the Shoreham Hotel, May 25 at three PM. The show is to raise funds for the Soldiers', Sailors', and Airman's Club.

A tea and hula dancing will be included in the bill of fare. Exotic flowers and leis will be flown from Hawaii for the event, as well as native costumes, fruits, nuts and rare food stuffs.

Mrs. Francis Ulen, wife of Captain Ulen, is the general chairman. She will be assisted by Mrs. Alfred Chandler, Mrs. Spry O. Clayton, Mrs. C. V. Rault, Mrs. Robert Irons and all wives of officers of the Dental Corps in this area.

Tickets may be obtained at room 174, next to the entrance of the Naval Dental School in Building 1, or by calling OL 0212 or DI 0213.

Can you imagine, Doc? Some dope told me you studied Zombism while you were in the Caribbean!"

Who's Who in Defense

Laugh Awhile

Two cowboys were about to leave for a trip to the Arizona desert. A stranger asked about their equipment. "My pardner and me are travelin' light. He's takin' nuthin' but whiskey for rattlesnake bites."

"And what are you taking?"
"Two rattlesnakes."

Scatter Rug

(Continued from page 2)

underwent immediate treatment. Wos, who by now was paralyzed from the neck down, was placed in hot packs to stop muscle spasms. This lasted for six weeks. Finally he was able to be transported to Physio where his long grind of recovery began.

He is now making his third rug. "It's a bit fancier and much tighter, now," the Corporal said.

MODEST MAIDENS

Jay Alan

"Twenty-five dollars for this suit and not one man has whistled—I might as well have left it off."

manimously confirmed as Secretary of the Navy on May 25, 1949. Has extensive experience in banking, welfare work and projects. Chairman of U.S. Chamber of Commerce Committee on Socialism and Communism to 1948.

born at Albion, Neb., March 15, 1901. Worked his way through Albion University by doing odd jobs and tutoring in Latin and English. Helped widowed mother support seven children. Received Bachelor of Arts, 1910; Master of Arts, 1911, and Bachelor of Laws, 1933. Member of American Bar Association.

Member of Board of Directors of Father Flanagan's Boys' Home, Joplin, Mo. One of the founders of the U.S.O. Chairman of Associated Services of the Armed Forces, 1950.

During World War II, worked in connection with welfare of the U. S. Armed Forces, for relief of peoples in liberated areas.

Secretary Matthews is a member of the National Press Club, an honorary member of the Army Club, Washington, D.C., and a Knight of the Knights of Columbus, 1939 to 1945.

The Navy Secretary is married to the father of six children.

Piano for Patients' Enjoyment

Captain Walter Karig, USN, author of "Battle Report", presents books and a piano to patients of the Naval Hospital on 6-C. The piano is a gift from the "Battle Report" Royalties Fund. Shown at presentation (left to right): HM1 Carrino at the piano; G. Madsen, VAB; Miss Bales, Mrs. Karig, Captain Karig, Pfc Moe, LCDR Manson, YN3 Yoder, Miss Frank, Pfc Bales, Pfc Neri, and Pfc Goodman.

Lab 16 Under High Pressure

By The Thing

The Lab 16 softball team is getting well on their way to playing ball. Another couple of practice games should have us ready for the field. We should have played a game when this issue comes out, and I hope that we haven't lost by too awful a margin. Say at least 20 points.

Most of you have heard of the absent-minded professor — well then, comes the sailor in Pathology who uses mounting, (or Mountain) fluid instead of egg albumin to mount his tissue on his slides. Here is a little bit of advice to you. It don't work. Put them back in the zylol again and start all over. It would be worth your while. Remember, Chief Spangler has to mark them. (I think.)

Everything seems to be running in tip-top shape in the parasitology section of the school work. It seems that one of the genuses or geniuses has made the study hall list because of a few little ole parasites. Is that right Dietch. Better luck the next time that you have to take a test. Now that Lab 15 has gone and we are the top dog here on the compound, things have changed. Boy, it sure is quiet.

Here is a little bit of advice to the students in Lab Class 17. You have just started a long year's study in lab work. If you plan to spend the warm evenings at Basins', take your book along with you. Two heads are better than one to study with. We as the senior class wish you men the best of luck. You'll need it.

It seems that lately all of the unknowns in chemistry haven't been turning out as they should. It may be the fault of the chemicals in use or, as much as I hate to say it, it may be the fault of the good Lab 16 technicians. By the way Filter Paper, 100 into 200 does not give you 100 for an answer. That's what I've been told any way. Chief Thrasher seems well pleased with the chemistry students. There is only one thing I can say—his answers for the unknowns do not tally with our answers. I think that it is about that time that we should get together. Better change your answers Chief. It's so much easier.

Lately, it seems that in all our dreams we see bottles of bourbon stacked high, but try and reach it. Yes, try and try. Before you do you'll be mighty dry. Hmm, I guess I'll give it a whirl. That's it for now. How about this column, huh? Don't know, do you?

Med School Scuttlebutt

By O. C. "Skip" Skinner

Many changes have taken place since the last issue. Carlson was transferred to Dahlgren, Virginia for duty, and Perricone was transferred to Patuxent River. "Moose" Kovarick was transferred to the USS Consolation in Korea.

All hands will sadly miss Mr. Wiltshire, who retired last month. Mr. Wiltshire had been the Administrative Assistant to the Medical School since the early part of 1949. He is planning on raising avocados somewhere in the vicinity of San Diego. Mr. Wiltshire was well liked throughout the command and his loss is our sorrow.

He was presented a fly rod by the staff of Med School. The presentation was made by LCDR Shearer. Mr. Wiltshire was introduced by Captain B. W. Hogan, Commanding Officer. Following the introduction, Mr. Wiltshire said "If I had it to do over, it would be the Navy."

The Med School Terrors softball nine have lost 2 and won 1 in pre-season play, but think they are now ready to give a big battle for the championship. The loss of Perricone and Kovarick will weaken the team somewhat, though ample reserves will be called on. The pitching burden still rests on "Grumpy" Rundell, who is improving all the time. The batting ace "Chubby" Waters has moved to short, and "Lanky" Stradtman is fighting it out for the second sack. At third finds "Sandy" Sandoval, in the outfield there are many aspirants fighting it out.

At the present time the third deck is slightly undermanned and causing much confusion until the arrival of Lab 16 in the Practical part of their schooling.

A hearty welcome is wished by all hands to the members of the new Optical class and also to Lab class 17.

Two members of the former Lab 14 have returned for blood bank school, they are Julian Branche, HM3, who has reported from Naval Shipyard, San Francisco, and Don Sorrels, HM3, who reported from Naval Hospital, Memphis.

Girls once dressed like Mother Hubbard when they went out to swim. Now they have a bolder whim—and dress more like her cupboard.

Not Much Research Involved

By R. Conaway

Sports

The bowling team tied the Dental Officers on April 27 with a score of 2-2. Not faring as well in later games, NMRI lost to NSHA-2 on May 2 with a score of 4-0, and on May 3, Lab-2 won with a score of 3-1.

The softball team gave X-ray a good run for its money, but lost with a close score of 7 to 9.

Arrivals

The Army has invaded NMRI in the person of Cpl. Charles Stevens, Army Lab Technician. Cpl. Stevens is here on TAD orders for special instruction in Radiation Technology. Glad to have you aboard "Charlie".

Transfers

Melvin Runkel, HMC, from the Medical Illustrations Department, is awaiting assignment from Commander, Western Sea Frontier. Looks like the Chief may get his wish for some "Cruiser Duty" after all!

Flashes

Dan Cupid has scored another direct hit on NMRI. The happy victim this time is Walter E. Roesch, SN, from Aviation Medicine. The date has been set for sometime in July and we are all wishing Walter lots of happiness in his venture along the path of matrimony.

Has anyone noticed the snazzy cream and blue "Catalina" HM1 and Mrs. Bob Burgess are driving around in these days? Mine were not the only eyes that were green with envy.

Our congratulations to former Ensigns J. W. Duckworth (Radiation Technology) and E. J. Wallace (Biochemistry) on their new rank of Lieutenant, junior grade. That extra stripe is mighty becoming on your sleeves.

With the coming of "Spring Fever" weather, the fishing bug is sure to bite many a mortal. Just the other day, D. E. Heye, SN, was asking one and all the whereabouts of procuring a fishing license. How big was the one that got away, Heye?

Scuttlebutt has it that Sanchez is no longer the main support of the Raw Bar. Jack Goepfert has relieved him of the responsibility and is upholding his end very nicely.

About all the news for now my little Researchites. See you all next issue.

Four NSHA Enlisted Men Awarded Prizes for Ability in Public Speaking

Four enlisted men from the Naval School of Hospital Administration were recently awarded prizes for their ability in public speaking. The prizes, awarded by Dr. James A. Bell, A.B., M. Ph.D., who is the instructor in Effective Speaking at NSHA, were the latest style Waterman Automatic Eversharp Pencils, personally engraved by Dr. Bell.

The presentations were made at an official ceremony conducted by LCDR G. W. Wiese, Executive Officer of NSHA. Of the four men, H. M. Marshall, HMC, and H. Schenck, HM1, were given prizes on the basis of the two speeches as of the 12th session of the course, and J. M. Thompson and I. L. Davis, HM1 were given theirs for showing the most improvement.

The course in Effective Public Speaking was initiated for enlisted men as a result of past Medical Administrative Technicians' suggestions. Dr. Bell has been instructing the officers' classes in subject for the past five years.

Some of the points covered in the course by Dr. Bell are important to each and everyone of us, both in public and private. A few, especially so, are: Catch your interest on the audience; on yourself; to be interesting must be interested, know what are going to say, be sincere what you say, and radiate personality.

In a few words from the foreword of the text used in the course, Mr. Chairman, Ladies and Gentlemen, written by former Congressman Jennings Randolph and Dr. Bell, we find an excellent reason for this type of instruction: "By every available means, to yourself, with the help of competent teachers, to say what is in your mind and heart on any and all occasions. In a word, learn to speak in public. It is the only way you can be absolutely fair to the world and to yourself." Strickland Gillilan, distinguished lecturer and author.)

We, the students at the Naval School of Hospital Administration, feel that the course has been measurably beneficial to all who were fortunate enough to be able to participate, and we wish to take this opportunity to thank Dr. Bell and wish him success in his future classes here.

Dental Explorer

By L. P. Burger

With the coming of warmer and better weather, the crew is putting on its stuff out on the ball fields and on the golf links. The golf course was loaded with the men of NDS this past weekend. Even though it did rain most of the afternoon, they were undaunted by a little water. Some of the boys out there are pretty good, too. Among the better golfers I noticed were Burkinshaw and Larson.

Hawley and Cummings received word from Bernie Plaske, who left here a few weeks ago to the FMF. Bernie doesn't like the idea of getting up at 0445. Can't blame him either.

Four men reported in for duty from Great Lakes this past week. They are R. C. Thomas, DA; S. A. Winner, DA; G. Simko, DA, and C. L. Barrett, DA. Welcome aboard fellows. We are glad to have you here.

Well, it is just about that time of the year for the Gunther's parties to begin at Great Falls. How about let's all get the ball rolling and see what can be done about it.

Have been noticing a number of the boys at the Country Club. How about that?

When you folks ever get over to the golf shop again, take note as you enter of the nifty sign that was painted by Elgin Campbell. It is quite sharp. (Also take note to what the sign says.)

There has been a recent addition to the DT1 R. F. Barton family; a son, R. F., Jr.

Be seein' you all again in a couple of weeks. So long now.

Two Silver, Two Bronze Star Medals

RADM Swanson presents citations: (left to right) Pfc. Ralph D. Fouts, the Silver Star Medal; Pfc. Robert R. Gomez, the Silver Star Medal; LTJG George W. Eidsness, the Bronze Star Medal; and Sgt. Laurence E. Wimpee, Jr., the Bronze Star Medal. Second row, Commanding Officers: RADM Swanson, CAPT Gillett, CAPT Hogan, CAPT Mitchell, CAPT Kellum, and CDR Zimmerman. In the third row is the Marine honor guard.

"Carbaugh's going to be surprised to find out the Chief discovered his secret sacking place."

Interesting Stories out Circus People, Key and Reporter

Did you ever try to doctor a puma? Or mend a puma's paw? Or amputate an alligator's leg? Or worm a polar bear? No? Doctor Henderson did! He was on the job of caring for the animals in Ringling Bros. and Bailey Circus. His fantastic cases make up the story **CIRCUS DOCTOR**.

Another true story is **STEP UP** by Dan Mahnix. Here you meet some of the characters who belong to a traveling carnival and share the adventures of the doctor as he progresses from fire-eating to sword-swallowing, to reading and magic of various kinds. The freaks of the sides are sympathetically described and the tricks of the trade are fascinating.

The third life story is **I RIDE** by Eddie Arcaro, who has been called the best race-rider of his time. Beginning as a stable boy, Eddie was later allowed to ride the horses and then to enter the winning circle. It took him two and a half years to enter the winning circle then there were accidents, suspensions and strict discipline because of his great record as a winner. Eddie Arcaro's career, we find what goes on in the stables, jockey room, the paddock, the racing gate and about the tactics of the riders.

Since Ernie Pyle's time have American people taken any reference to their hearts as they have guerite Higgins. Her **WAR IN THE AIR** is subtitled: *The Diary of a Woman Combat Correspondent*. This is her up-front, personal view of the human side of the war seen with a woman's discernment, and told with utter frankness. The hell and the heroism of the green troops maturing in battle never be forgotten in the annals of fighting men.

Mary Belles

By Joan Madsen

While George was on leave in the heart of her Maryland, I was here to sweat out this column. All apologies to George, and Bethesda Chamber of Commerce, there's no other word for it, seems like summer to me, but tell me this is a Maryland thing!

Ports and T-shirts, and bathing seem to be the new uniform—weekends, and the clap that to shoot the breeze over a cup of coffee in our galley can now find out enjoying that breeze blanket behind the barracks. Football is well underway now with coach "Cy" Lovitt and manager "Hamie" Hamilton trying to put a team in time for the season. Lineup for the Waveys seems to be the basketball—plus a few of the rooters.

Ag-gone CDR Mary Sproul (ner Waves Representative) brought sharply back to mind weeks ago when the lockers were ordered a year ago arrived. I found my cubicle via the long passageways created by congestion and knew how a rat feel running the maze. Caused a transfiguration or should I say a disfiguration? Anyway things are different—smell different too. Then I'm fond of cologne de

have seen so many unfamiliar around 123 that I thought I was living in a hotel till someone gave me the word. Seems I got a new crew for Lab school from Great Lakes, Casillas

Personalities About The Center

HMC Diamond

If some day, unhappily, you should find a pink slip on your vehicle for illegal parking you will meet the man who in his job sees many of these slips, the Chief Master-at-Arms of the NNMC Command, Emil Richard Diamond, HMC, USN.

The Chief issued his first mail December 14, 1916 in Saginaw, Mich. He attended school in Thomas, West Virginia and Boswell, Pa. Diamond enlisted in the Naval Service as an Apprentice Seaman in Baltimore, May 2, 1938.

The Chief then was sent to "Boots" at Norfolk, Va., followed by Hospital Corps School at Portsmouth. After graduating from Corps School his first duty as a Hospital Corpsman was at the old Naval Hospital, Washington, D.C. Following this came sea duty on the Carrier USS Wasp. The Chief was a plankowner of this famous carrier which was later sunk. Then the Chief reported to the ONOP, Nashville, Tenn., for duty. This was followed by duty in New Guinea with an Amphibious Hospital. He then was ordered to the famous USS O'Bannon, DD 450. He was on board this destroyer when she took part in every invasion of the Philippines and when she made the first liberty in liberated Manila. The O'Bannon was the first U. S. ship into Tokyo Bay and the first ship to return to the States after the peace treaty was signed.

The Chief was then transferred to the hospital here in 1946 and then he attended Commissary School in Philadelphia. Upon completion of his training he was ordered to Camp Lejeune and then to Independent Duty School at Portsmouth. Chief Diamond then returned to sea on board the USS Atlanta and helped to recommission the USS Henley. He reported to the Naval Medical Center March 1, 1951.

Chief Diamond also holds certificates for the Golden Dragon and Neptune. He is an avid sports fan. The Chief is married and has one son.

from Pensacola, Osterhout from Camp Lejeune and Young from Portsmouth.

Minnie Smith starts X-ray school next after a very efficient tour as MAA which saw us get a new washing machine, new dishes for the galley, and an improved linen exchange.

Betty Hopper came back from leave to find herself the new MAA. She signed the first little notice she left us "Your new mother," but then we all have our little complexes.

Must be off to find Pancho and retaliate. She stole all my clothes while I was in the shower the other night. That shower curtain didn't do a thing for me!

Mrs. Stevens

In a section of the country where most of the inhabitants are transient, a native always shines through. Many personnel have been warmed by the smiling, cheerful manner of Mrs. Francis Magruder Stevens when they have gone to the branch of the Bank of Bethesda located on the first floor of Building 2.

Mrs. Stevens was born in the house on Georgetown Ave. in Alta Vista where she and her children are still living. She pursued her academic training at the Rockville High School. After graduation she went to work for the Bank of Bethesda where—"I learned by the trial and error method." She worked in the Bank for five years before entering Civil Service. She then spent five years working for the Department of Labor in the U. S. Employment Service.

Mrs. Stevens then began to raise a family and has a son, age 10 and a daughter, age 7. Both attend the Alta Vista Elementary School. She also at that time worked part time in the Bank of Bethesda. Mrs. Stevens came to the Naval Medical Center when the Bank opened its branch office here October 17, 1949.

Mrs. Stevens likes to play cards (canasta) and is very active in Church work for the Presbyterian Church of Bethesda, of which her grandfather was one of the founders. Of Bethesda, Mrs. Stevens says, "I've watched Bethesda grow from a small country town to what it is now." She has many interests, "But," says Mrs. Stevens, "my principal interest is my children."

Rubber is believed to have been used by the American Indians before the arrival of Columbus.

HM2 J. M. Heald

Although John M. Heald, HM 2, of the Naval Medical School, does not wear cross bones as a rating insignia, he might just as well for he is an anatomy instructor in the Tissue Bank. Heald graduated from the nucleus class, which was then known as the Bone Bank School, and has seen several classes graduate since then. The bank now has a new operating room located in the south wing of building one. It has become known as the tissue bank because it incorporated bone and other tissue such as veins and arteries.

Heald was born in Jamestown, N. Y., but moved to San Francisco and then to San Antonio, Texas which he considers his home town. He attended the Alamo Heights High School where he played one year varsity football at left half. While in school he belonged to the Chi Sigma Chi fraternity.

San Diego gave him his first glimpse of Navy life. There he attended recruit training and Hospital Corps School. September 1948, he was transferred here to the Naval Hospital where he worked in the proctology clinic. He was then transferred to the staff of NSHA and finally back to the hospital for Bone Bank School. Upon graduation from the school he was retained as an instructor.

Heald was married April 21 to the former Miss Mary June Saunders of Washington, D. C. They are now living in Washington.

One of Heald's favorite hobbies is reading. He enjoys especially political literature and history, although he is not partial to any special type. From his preference in reading, it is not at all astounding that he someday wishes to become a lawyer. He hopes to attend San Francisco State College or the U. of California when he is discharged.

New Aluminum Springboard

After many wooden springboards had broken, the Recreation Department bought a new aluminum board which should stand up under hard punishment. HM1 Martin of the Rec. Department tries the new board out for spring.

Social Workers Double Up; Reason for Much Delay in Appointments

Recently the question has been asked by some of the patients in the hospital as to why it is taking more time these days for one to be able to see a Red Cross social worker. Since this problem has been brought up on an individual basis and since it may have occurred to others around the hospital, it really should be explained to all.

The main reason why there is some delay is that the Red Cross social work staff has lost two workers since the beginning of the year. These two people have not been replaced and this has meant a change in the assignments of the remaining staff. This also explains why there have been changes in workers on some of the wards. It has meant that each person is now responsible for more wards than before and naturally this means more people to be seen.

Each worker does try to keep a schedule but there are often interruptions to this plan, particularly to take care of things which have come up as emergencies. The workers do take care of such emergency requests first. Then, of course, the patients on the verge of leaving the hospital need to be seen prior to their departure so that they can have the opportunity to file a claim with the Veterans Administration. Because of the needs for such services to be given immediately, it does cause delays in getting to see patients on the wards.

It might be helpful to patients and staff if, included in this article, there is an explanation of what is the best way to reach the social workers and make arrangements for appointments. There are several Red Cross offices in the hospital but the main one is Room 109 located on the first floor corridor opposite the Barber Shop. Here, there is a receptionist on duty all day and she will gladly take messages from patients and try to locate the worker involved if it is an emergency needing immediate attention. If it is not an emergency, she will take the patient's name and tell the worker when she returns that an appointment is wanted. It is helpful if patients can tell her the times they can arrange to keep an appointment with the worker. This is particularly useful to patients who are able to be up and around the hospital.

For patients who are restricted to the wards, the nurse or corpsman can call Extension 621 and ask that a message be given to the right worker about the need for her services on the ward. Again, it is helpful to know if the situation is one needing immediate attention or if it can be scheduled at a later time.

Hopefully, there won't be many such delays encountered but perhaps if some feel they are having a difficult time in getting to see their worker, this explanation may be of some help to them.

For brainy people only: (Read this backwards:) Do fools all, it do would you knew we.

Pin Action

By The Ten Pin

As the Center Bowling League enters the final week of play, NSHA-2, NSHA-4, Dental Officers and CPO seem to have the first four places well in hand. With only a few percentage points separating the four, the remaining matches could radically change the order in which they will finish. Interest is at a high pitch and more and more spectators are noted in the stands.

After a mid-season slump, the CPO quintet has come back strong to win eight straight points and ensure themselves of a trophy. Against Lab 16-B, the Chiefs set a new team record with 2457 pins. In the words of Coach Reynolds: "This team is red hot."

Confirming the opinion of many that he is the top bowler in the League, Chief Spofford of NMS-2 set both a new individual game and individual string record with 232-188-191-611. If an all-star aggregation were to be selected from among the local keggers, Spofford would certainly head the writers list, which would also include Meitl (NSHA-2), King (NDS Officers), Drickman (NH Doctors), Wells (NDS Officers), and Wallace (CPO).

Were there a trophy for the most improved bowler, it would have to go to Goodwin of the Naval Hospital team. Starting with an average of 110, he has brought his average up to 147 with some fine bowling. At one time he shared high game honors with 224.

Trophies are nice to win, but good sportsmanship should not be overlooked while striving for an Oscar to grace the mantle-piece. One high standing team in the league has brought considerable criticism upon itself by its actions in a recent match. With the game hopelessly lost, this team is reported to have purposely bowled poorly in order to lower their averages for future matches. This sort of thing, besides being a direct violation of Rule 20 of the General Playing Rules and Regulations of the ABC, is frowned upon by all the other bowlers who have done their best, win, lose or draw.

The fairways and soft-ball diamonds are beginning to take their toll among the keggers. Several, including Jim Crawford, Bill Cole and your scribe, have indicated that they would be satisfied to swap their bowling scores with their golf tallies, or vice versa. Judging some three iron shots that more closely resembled "fat" nine irons, The COACH should be added to this list.

Coach's Corner

Playing under the lights at Gaithersburg, George Funk, popular Center athlete, banged out a triple and two doubles in four trips to the plate. As backstop for the Center's hardball team last season, George could hit the square canvas at second with a throw designed to flick the oncoming metatarsals. On the basketball floor, rebounding off the backboards, his hook passes to Tommy Brothers, Prof. Echols, Joe Kursawski, were only topped by a "clipping reader." Nuf sed!

Among the arbiters for the forthcoming softball season are such Center names as: Jackson Reynolds, accountant for the CPO Club; Gene Devol, whose management of the football schedule proved popular with the players, and Cornell Brothers, well-known sports figure, serve to round out the staff of ten umpires.

A recording device placed beneath or in the vicinity of second base would provide a wealth of "over the beer" entertainment when the question of tagging a runner comes up; Don Polizzi with Pat White covering the bag and Cornell, the man in blue.

Wearing the mask for Dental this year will be Ace Bickle, rotund maestro of the plaster bowl. Coaching chores will be divided between Tiger Beckley and Lefty Sickles, the former well-established as a mashie wielder and the latter an up and coming football official.

The hospital interns have Jack Baldwin, who is in a quandry over a decision he has to make whether it is more fun to smack a double into left center field or a Spalding Dot into the lake on number four. Just between us locker-room athletes JB, it's better to hook the pedal extremity into the second sack than to hook a drive into the woods.

On the fairways interest is high among the beginners, with sixty men from the Medical School and fifty some odd from Dental, signed up for the Recreation sponsored group lessons by Bill Downing. At the end of the year, the Captain M. J. Crawford Tournament, an annual affair held in memory of the man who designed the course, will be open to the beginners. Such an entry from the Medical School is sufficient proof that Captain B. W. Hogan is out to wrest the golfing supremacy from Captain L. D. Mitchell's Dental divot diggers.

Now that the golf epidemic has swept the Center it is high time to recount the rules of the game as promulgated by the United States Golf Association. A few definitions will be in order as the first class in "The Rules of Golf" is convened. There will be no examination in the subject upon completion of the course. Credit units will be advanced all those in attendance toward the diploma of Lifetime Enjoyment.

Definitions

(1) A side consists of one or more players. In the Rules, the term covers: (a) one or more players playing one ball, as in a single, threesome, foursome, three-ball

Commissary's White Tosses No-Hitter Against Qtrs. 12A

Commissary's Henry White's no-hitter against the strong Qtrs. 12A nine highlighted the opening games of the 1951 Intramural Softball League which got underway last Monday. Submarining a well-controlled fast ball, "Whitey" whiffed 11 of the opposition. Gwinn and Kurzawski, with two safeties apiece, led the victors' attack against Tom Dias' offerings. The Commissarymen displayed a tight defense and look like favorites to repeat their 1950 performance as champions.

In the season's opener, Lab 16 went wild in the 6th inning to amass 10 runs and overcome a 12 to 6 deficit. This game, played against a dizzy wind which had the ball playing tricks, was replete with hits, walks and miscues. Ferris led the winners with 3 singles while Gilliland starred for the losers with two triples and a single.

Surgery uncovered a smoke ball artist in Jim Day as they downed Naval Medical School to the tune of 14 to 2. Whiffing 10 of the opposition, Day limited the losers to 3 hits. Every member of the victors' nine hit safely once and, aided by 5 errors, were able to hit the decisive margin.

All the teams showed plenty of hustle and this correspondent foresees some thrilling games in the next two months. Recreation's staff of umpires have handled the games in a professional manner keeping the games moving at a snappy pace and the addition of flag markers in left and right field plus a well marked infield has enabled the arbiters to distinguish the foul balls with ease.

Intramural league games are scheduled every evening at 1700 for Field No. 2. On Fridays two games will be played, one on the regular diamond and the other on Field No. 1. Postponements will be played on the No. 1 Field when the Varsity are playing away.

August 6—Bethesda Medical Center vs. Army Medical Center
August 8—USS Williamsburg vs. Bethesda Medical Center
Note: Home games are those listed first.

famous Tucson, Arizona Boys' Chorus Sing in NNMN Auditorium June 5

famous Arizona Boys' chorus will sing a concert here on June 5, 1951 in the main auditorium.

Tucson choir of approximately 30 school boys between the ages of 10 and 15 has traveled considerably in the years since 1939, when it was formed by Eduardo Caso, its director. It has appeared on numerous national radio programs, television shows and concert stages throughout much of the United States.

National Broadcasting Co., has asked the chorus to appear on numerous network programs. The chorus has been described by the Chicago Tribune as "one of the finest singing groups in the country."

Chicago last summer, where they appeared at the Arizona day celebration of the Chicago Fair, boys were described by a newspaperman as "the greatest singing advertisement any city had."

their home town, where they are regarded with considerable interest. The Arizona Boys were described recently as "headed for big things to come." To that end, interested townsmen are contemplating the establishment of a school, where their schedules can be adjusted to make possible more rehearsals and more concert tours than now make.

In the East the chorus has been invited to visit the famous resort at Lake Chataqua. The group is sponsored by Washington, NE. Optimist Club. On June 3, they will appear on Sullivan's program "Toast the Town" and on June 4, on J. S. Capitol Steps.

King Kopp Varieties Give Big New Show June 10

The King Kopp Varieties will give a show here at 1800, June 10 in the auditorium. The show will be in place of the first movie which will run approximately one and fifteen minutes. This will be the second performance on the NNMN stage for the variety act, but the show will be entirely different. Those who remember the delightful talent of the last performance will vouch for the entertainment. Remember, June 10, 1800, in main auditorium.

News Shorts From The Editor's Desk

Fourteen Naval and civilian scientists from NMRI attended the Federation of American Societies for Experimental Biology held in Cleveland, Ohio from Apr. 29 to May 5.

NMRI staff presenting papers to the federation were M. F. Morales on "Muscular Contraction," J. J. Christian on "Effect of Cortisone and Other Steroids on Hibernating Gland of the Pregnant White Rat," and LCDR H. G. Wagner on "Subliminal Excitation and Refractoriness in Single Photoreceptor Elements."

LCDR D. Goldman and Dr. Esther Hardenberg, NMRI staff, were recently elected to membership in The American Physiological Society.

Emery R. Thompson, HM1 and Carl J. Kuopus, HM3, formerly part of the staff of the NMS personnel office, both received a Captain's Commendation May 5. Thompson and Kuopus are now attached to the FMF.

New Assistant Editor for the NNMN NEWS is Joan Madsen, JOSH who relieves Kenneth Chinnock, HM3. Miss Madsen was previously a contributor for the paper; she wrote WAVE sports.

The Navy has changed educational requirements and suspended a discharge option relating to requirements for application as Naval Aviation Cadet by enlisted Corps, and Reserve Component personnel on active Navy, Marine duty. The directive now requires that applicants who have graduated from an accredited high school or secondary school must also successfully complete the U.S. Armed Forces Institute college level General Educational Development (Continued on page six)

Three Medals, Commendation Letter Awarded to Korean Patients Here

Front row: Cpl. Strickland, LT Crutchfield, Sgt. Pearson, and TSgt. Grooms. Second row: Captain Mitchell, Captain Hogan, Captain Behrens, Captain Gillett, and RADM Swanson. Third row: the Marine honor guard.

A silver star award, two bronze star awards and a letter of commendation were presented to patients of the Medical Center Monday afternoon, May 14 by RADM Clifford A. Swanson, CO, NNMN.

Receiving the silver star was Cpl. Charles M. Strickland of Middlesex, N.C., for heroic services in Korea. Strickland was a squad leader in a rifle platoon during the movement of a battalion from Hamhung to Hagaru-ri when his company was ordered to seize and occupy an enemy held hill. Although painfully wounded twice during the action, he refused to be evacuated, remaining in position, calmly directing the fire of his squad on the counter-attacking enemy.

First Lt. James L. Crutchfield, USMC, of Hearne, Tex., was awarded the bronze star. Lt. Crutchfield, acting as a regimental liaison officer, was assigned the mission of commanding a convoy that was moving troops and supplies forward. Although he received serious wounds when his convoy was ambushed, he directed and assisted in the evacuation of other casualties and succeeded in maneuvering his vehicles around so that an effective route of withdrawal could be accomplished.

Sgt. Charles M. Pearson, USMC, of Duluth, Minn., was awarded the bronze star medal for heroic achievement in Korea.

Sgt. Pearson, serving as a rifle leader, exposed himself to a heavy enemy mortar barrage to direct air strikes and mortar fire on the retreating enemy. His actions were directly instrumental in the destruction of large amounts of enemy equipment and personnel. Technical Sgt. Stanley V. Grooms, USMC, of Huntington, W. Va., was with a Marine infantry company during operations in Korea.

Grooms was serving as company gunnery sergeant when an enemy attack penetrated his company's perimeter defense and attacked his command post. He fearlessly exposed himself to the enemy fire to help evacuate wounded Marines and carry ammunition. When his company counter-attacked, he was in charge of the right flank, where he directed such accurate and effective fire on the enemy that their attack was repulsed and his company's perimeter was reestablished.

The VA requested that policy holders refrain from writing to ask the amount they will receive because unnecessary correspondence slows the work of getting checks out.

CAPT Behrens to Speak At June AMA Symposium

CAPT. C. F. Behrens, CO, NMRI will represent the Surgeon General at an American Medical Association symposium on Asphyxiation to be held in Atlantic City, N. J. in June. CAPT Behrens will present a paper relating to hemorrhages in radiation illnesses. His paper will reflect the work done by LTJG D. P. Jackson, CDR E. P. Cronkite, and G. J. Jacobs at the Research Institute.

Condition 4.0

Greens keepers are continually on the job to keep the NNMC course in top playing condition.

Crew's Library:

Books from Sailboat Racing to Judo to Rifle Marksmanship

If you want to excel at your favorite sport, Crew's Library has books full of tips and pointers to help make you a champion.

SCIENTIFIC SAILBOAT RACING brings a new approach to small boat racing. Ted Wells, the author, proves that there is no secret magic to the way he wins races but that his success lies in the small perfections of construction, rigging, equipment and sails, handling, timing and tactics which he explains clearly and simply.

If the swimming pool is your favorite spot, come and get the new edition of **THE SWIMMING AND DIVING** manual, revised, brought up to date and published by the U. S. Naval Institute. Coaches, competitors and beginners will all profit from the techniques, problems and experiences of war time swimming instructors.

SHALLOW WATER DIVING by Schenck and Kendall shows the way to a fascinating sport or a profitable business such as underwater fishing, photography or salvage. Both mask and helmet diving are covered and diving equipment which you can build, buy and operate is explained in simple drawings and photographs.

SPORT JUDO by Charles Yerchow is an entertaining and instructive, safe for girls as well as boys. While self defense values are not overlooked, the emphasis is on the sports angle. Over 200 photographs illustrate balance, position, throwing, mat work, timing and fall-outs.

HOW TO BE A CRACK SHOT WITH A RIFLE AND SHOTGUN by Claude Parmelee, acknowledged to be one of the finest shots

Field Trip Portrays Realistic Problems Of Naval Medicine

Junior officers under instruction in the Basic Course in Naval Medicine returned last week from a six weeks field trip which included stops at Pensacola, Fla., Camp Lejeune, N.C., and Little Creek, Va.

The group spent one week at Pensacola, at the Naval School of Aviation Medicine and then went on to Camp Lejeune. Four weeks were spent there at the Field Medical Service School where medical problems of amphibious landings were studied. Dive bombers and demolition squads were on hand to offer a realistic portrayal of actual warfare.

A simulated amphibious landing was held at the Naval Amphibious School in Little Creek where the last week of the field trip was spent.

The purpose of the course is to acquaint young naval doctors with the variety of medical problems occurring in the Navy and aid them in choosing their own special fields. A trip to New London, Connecticut is planned in the near future to study medical problems created by submarine warfare.

After four months of this orientation, two of the doctors, LTJG John Egan and LTJG Donald Kent, made their choice and plan to join the 1st Marine Division, FMF in July shortly after they complete this course.

the world has ever seen, offers pointers to the gun fans. "Parm" has hit, without a miss, over 500 successive aerial targets with high power rifles of various sorts.

Additional Interest Offered to Holders Of Series E Bonds

You and your fellow American bondholders have a new opportunity which started May 1, 1951, the day on which the first Series E Bonds matured.

By holding those bonds after they mature you will receive interest on both principal and the interest accumulated during the first ten years.

If you hold your matured bonds an additional ten years you will receive 77 percent more than your original investment. During this time you will have the privilege of cashing your bonds any time you need the money.

Following is a list of questions and answers on your maturing Series E Bonds:

1. What options are available for holders of maturing Series E Bonds?

The Treasury has adopted the following plan: The holder may have his choice of: (1) accepting cash, if he so desires; (2) continuing to hold the present bond with an optional interest-bearing extension; (3) exchanging his bonds in amounts of \$500 or multiples for a current income Defense Bond of Series G, which would be payable at par on one calendar month's notice, at his request, any time after six months from issue date.

2. What must a holder of maturing Series E Bonds do to obtain the benefits of these provisions?

If a holder desires to obtain cash, all that is necessary for him to do is to present his bond, with proper identification, to any paying agent. If he desires to extend the matured bond he has absolutely nothing to do—just continue to hold it. If he has \$500 or a multiple thereof maturing in any 12 consecutive months and desires a current-income bond, the matured E Bonds may be presented to any Federal Reserve Bank or Branch or to the Treasury to be exchanged for a G Bond.

3. How will interest be accrued on the extended bond after maturity date and at what rate?

The extended bond will earn simple interest on the face amount, at the rate of 2½ percent for the first 7½ years and thereafter at a higher rate sufficient to provide an aggregate return for the 10-year extension period of 2.9 percent compounded.

4. When will Federal income taxes be payable on the interest earned on maturing Series E Bonds which are extended?

The owner of extended Series E Bonds has the option of: (1) paying Federal income taxes on the interest on his bonds in the year in which the bonds finally mature or are redeemed, or (2) if the owner so elects in accordance with income-tax regulations, reporting interest on an annual basis.

Diaper Derby

May 5—Linda Ann Seibert, 7 lbs. 3 oz., daughter of Francis G. Seibert HM3, X-ray school, NMS.

May 6—Robert Franklin Barton, Jr., 7 lbs. 5 oz., son of Robert F. Barton, DT 1, staff NDS.

May 12—Deborah Anne Hicks, 7 lbs. 15 oz., daughter of Miles M. Hicks, HM3, X-ray school, NMS.

May 15—Catherine Mari Berry, 5 lbs. 5 oz., daughter of Raymond E. Berry, HM2, Recreation Department, NNMC.

May 16—Henry Taylor Dean, 3rd, 7 lbs. 8 oz., son of LCDR H. T. Dean, Administrative Officer, NNMC.

May 18—Phyllis Burlage, 6 lbs. 12 oz., daughter of John L. Burlage, HM1, X-ray staff, NH.

The Chaplain's Corner

By Chaplain H. Grady Gatlin

May 30th is the day set aside by a grateful people in which homage and tribute to the memory of the heroic dead who made the supreme sacrifice, in order that our flag should continue to wave on the land of the brave, the true and the free.

Several years ago on All Saints Day in Manila I made a pilgrimage to the "City of the Dead." All roads leading to cemeteries were closed. It was estimated that 150,000 people in Manila made the pilgrimage to the last resting place of their dead. In this great multitude some moved by curiosity, some by wonder and appreciation and other devotion. The dead were silent. The living were reverent. The procession moved slowly. Carromatas, calseas, carretelas, bagon, carriages of ancient vintage all pulled by small horses, contrasted with automobiles of all makes; 300 uniformed traffic policemen kept traffic in motion.

The cemeteries were veritable carnivals of light—thousands of candles and electric lights, against the background of varied types of monuments and tombs, presented a spectacular sight—the living were kept watch over their dead—a great number had brought chairs—some brought lunch—some built canopies to shelter them from the rays of the sun—for this was an all day watch.

At one grave an old couple—man and woman—keeping vigil in front of an enlarged portrait hanging on a ornate statue—a woman, evidently a daughter. The grave was covered with flowers and many candles were burning.

The most beautiful sight was that of an old woman with a picture written in her face and depicted in her dress sitting alone at a marked grave—no candles—no flowers. She too was keeping vigil over her dead. In some way one was reminded of the widow at the mite observed by a dusty traveler nineteen hundred years ago.

Two Little Boys

Two little boys, one two, one three.
The dearest little boys that ever could be
And across each tiny button-like nose,
A teeny-weeny elf at night tiptoes,
'Cause freckle-like tracks in the morning appear
Sprinkled, and speckled—proof he was here.

Two little boys, one two, one three
Are as curious as two little boys can be,
They pry and poke the live-long day
Into magical wonders encountered at play,
With questioning lips and quizzical eyes—
Clamoring questions, "Whatsats and Whys?"

Two little boys, one two, one three
As mischievous as two little boys can be,
On some daring scheme connived together—
Mysterious silence is caution to mother
Who searches to find the warning quite right,
Little boys painting—Imagine the sight!

Two little boys, one two, one three,
The sweetest little boys that ever could be.
They cram each day with sunshine and joys,
Mishaps, confusion and tossed-about toys,
And I am blessed, for they share all with me
These two little boys, one two, one three.

Gloria E. Gosnell, NMRI

Premium Waiver Forms Available For Personnel

Staff and patient personnel who wish to submit a letter for waiver of premiums on term insurance may obtain the necessary blanks at their respective personnel offices now.

Available information from the Veterans Administration indicates it is advisable that all persons having term insurance in force apply for waiver thereby continuing policy or policies in effect on a non-participating basis while waiver remains in effect. This will entitle the holder the right to continue insurance after separation from the service.

Persons holding any permanent plan insurance may apply for waiver, but are advised to continue such insurance without change of allotment until further information and forms are available. Premiums for total disability income provision cannot be waived. Members desiring to continue total disability income provision must register a new allotment in the regular manner to continue their premiums. Waivers submitted now will become effective June 2, 1951.

Doctors, Corpsmen, Study Heart in Naval Hospital's Cardiology Department

Upper left: HM2 Caduto takes an ECG reading on patient; a series of electrodes are attached at different places on the patient and the machine records simultaneously these different readings. Upper center: HM3 Slover conducts basal metabolic rate, to determine rate of oxygen consumption. Upper right: Dr. Estes studies pa-

tient's heart borders by fluoroscopic examination. Lower left: patient submitted to the Master Two-Step Test to determine patient's ECG after exercise. Lower center: Dr. Estes records his interpretations of ECG readings. Lower right: Dr. Bishop conducts physical examination on patient.

The Cardiologist Must Be an All Around Diagnostician and Physician

The Cardiology Department of Naval Hospital is tucked unobtrusively behind a little sign which states simply its purpose for being. All that is visible to the passer-by as he walks down the main wing of building one is the open door which leads into the department's clerical and appointment section. Here you might see J. W. Ricketts, HMC, Chief in Charge, making an appointment or HM3 Slover typing busily as he listens to recordings through a contraption which resembles a stethoscope. Otherwise no activity, and you are apt to think, "Pretty good set!" Geographically the department covers more space than is at once

apparent. From the waiting room next to the elevators, it ambles almost to the end of the passageway. First, there is a dual purpose room, a cutting and mounting room and class room combined; then follows a dark room, the ECG room, clerical office, doctor's office where readings are made, the fluoroscopy and physical examination room and the BMR section, composed of several sections.

Although doctors and corpsmen work together as a team, three classifications as to types can be made. Three doctors compose the professional element: CDR M. M. Driskell, Officer in Charge, and LTJG's L. H. Bishop and E. H. Estes. The staff enlisted technicians is also a group of three: J. W.

Ricketts, HMC, W. A. Coduto, HM2, and A. F. Slover, HM3. The student body by far is the largest, composed of two classes, five men per class.

Cardiology, as the name implies, is a science which deals with the study of the heart. This study includes both the heart's normal and abnormal functions. After a conducted tour of the department one realizes only too vividly the many advancements made by medicine since many years ago when "bleeding" a patient was the only known cure-all for most disorders. Because the heart has some relation, through the circulation of blood, with the whole body, a cardiologist must in fact be an all

around diagnostician and physician.

To aid him in detecting abnormalities of the heart, the cardiologist subjects his patients to a series of examinations in addition to the usual physical examination. An outstanding electrical examination is conducted with the electrocardiograph which measures the electrical impulses which accompany the heartbeat. The machine records these impulses on a graph and the doctors compare the result with the ECG's of normal individuals to determine whether or not abnormalities exist.

In indicated cases, variations of the standard ECG are run. One such variation is called the Master Two-Step Test. An ECG is

made with the patient at rest, then another after exercise (amount of exercise is governed by a standard chart for weight, etc.).

Fluoroscopic examinations are sometimes done to determine the size and shape of the heart and also to determine if abnormalities exist in the movement of the heart's borders. The fluoroscopy acts on the X-ray principle except that the image is not recorded permanently on film but temporarily on a phosphorescent screen which is immediately visible to the doctor.

BMR or Basal Metabolic Rate is a specialized test to determine the patient's metabolism by determining the rate of oxygen consumption.

Left, a typical cardiology class in session. HMC Ricketts instructs the students by means of a visual aide chart. Center, these men are engaged in what is called cutting the tracings. Each test records readings taken at various points on the body.

These must be sorted and labeled. Right: Cardiology's clerical department. HMC Ricketts makes appointments for test to be run while HM3 Slover busily records the doctor's interpretations on the patient's chart.

Mrs. G. M. Kessel Regards Citizenship As Big Achievement

Mrs. Gertrude M. Kessel started work at the Naval Medical School, Pathology Department in 1948, where she was held responsible for all of the cutting, staining and special techniques that had to be employed in making the Atlas of Pathology.

Mrs. Kessel was born and educated in Germany, and came to this country in 1930 at the age of 19. Always having a desire to do laboratory work, she was first employed in this country by Mount Sinai Hospital in New York. Here she studied the intricate procedures of Neuro-Pathology.

It was at Mount Sinai where she studied under the expert leadership of Albert M. Kessel whom she later married in New York, and who now is the Chief Technologist at NIH.

In 1940 they moved from New York to Bethesda, where they have their own home at 8500 Elmhurst Parkway. Mrs. Kessel has been very active in Lutheran church work.

In 1943 Mrs. Kessel obtained her citizenship papers at Rockville, Md. She said, "It was one of the best moments in my life, and I am very proud of it. It was a very difficult task to become a citizen, due to being an enemy alien."

The Kessels have one daughter who is at present attending Mary Washington College in Fredricksburg, Va. After her education is completed she will receive further training at the University of Virginia Hospital in Charlottesville from which she hopes to get her BS degree in Nursing.

Officers their first win. Considerable credit is due Schooneas, who pitched an exceptionally fine game for the losers.

In another thriller the Naval Hospital Doctors scored three runs in the last of the seventh to trip Qtrs. 12 "B" by a score of 8 to 7. A costly error, coupled with a hit batsman and two singles gave the Doctors the edge. Dr. Drickman, winner's flinger, worked his good control pitches to advantage and killed off several uprisings by forcing the opposition to pop up. Hoch, with a single and homer, led the losers.

X-Ray continued undefeated and ran their victory skein to three with a decisive 19 to 8 win over Naval Medical School. Thirteen hits, eight walks and an error helped the league leaders ring up the high to date. The losers unloaded some heavy power by banging 4 round trippers. Morrison had a pair and Sandoval and Hoss one apiece.

CPO's Win Center Bowling Crown In Finale Of Exciting Three-way Tie

by The Ten Pin

Coach Reynolds and his "Red Hots" (Adkins, Wallace, Rosfad, Diamond and Vinson) climaxed a last half drive that carried them into a three-way tie for first place, by winning a round robin playoff for top honors in the Center Bowling League. NH defeated NSHA-2 for runner-up honors.

In a fitting finale for a league that had been see-saw all the way, three teams ended up in a dead heat for the lead. Meitl's NSHA-2 quintet (Watts, Mosley, Wetzel, Murphy and Smith), which had led most of the way, ran into a tartar in Mike Drickman's Naval Hospital Doctors team, and barely eked out a 2-2 split. This dropped the Administrators back into a tie with the CPOs, who had finished their season earlier.

Ski Babitski's Naval Hospital keglers (Goodwin, Dr. "Big Jim" Crawford, Bachar, Horek and York), with the help of an unavoidable forfeit from Lab-3, pulled up into the three-way tie by swamping a depleted Lab-2 team 4-0.

In the ensuing round robin play-off, with each team meeting the other two, CPO defeated NSHA-2 3-1 and NH 4-0 for a well-earned first place trophy. Chief Reynolds was the man of the hour in the first match with a couple of two hundred games, which couldn't have come at a more opportune time.

Fourth spot went to Paul Wells' Dental Officers, who were in contention all the way and finished only a game out of the play-off.

Consolation honors go to Biggers, Nellums, Blanchard, Nelson, Baine and Laird of NSHA-4. This well rounded team shared the lead from the beginning until the last two weeks, when they ran into two fired-up Lab Class 16 aggregations and were dropped into fifth place.

All twelve teams may congratulate themselves on a very successful bowling season. Of the 132 scheduled matches, 129 were played and two of the forfeits were due to team losses from transfers. A "Well Done" must be handed to Jim Atkinson and Company for their unfailing attention to the alleys and pins and their faithful corralling of score sheets for the league secretary.

Individual awards will go to Chief Meitl of NSHA-2 for his high game of 267, to Chief Spofford of NMS Lab-2 for a high individual string of 611, and to the CPOs for high team string of 2457.

Three-eighths of Montana is owned by the Federal government.

There are four tastes known to man: sour, sweet, salty and bitter.

Throughout its history, China has had 4,000 civil wars.

The U. S. Navy ship's washroom is called the "head" because the facilities in the old days were located in the forward part of the ship.

Two-Hit Pitching, Home Run Smash, Wins Ball Opener

The two-hit pitching of White, NMS, and a home run smash by Rock, NH, gave the NNMCM softball nine a 2-0 victory in their opening PRNC league game against the USS Williamsburg May 21.

Retiring the first eleven batters by strikeouts, White had a no-hitter going until the sixth when Notti singled cleanly between short and third. In all, the local fireball artist whiffed 14 and gave up only two hits, the last one in the seventh.

Rock's round tripper and hits by Kurzawski, Fitts and White were the offensive blows by the locals. Coach Yeager had little chance to get a line on the defensive play of his hopefuls with only 7 put-outs being received.

Big League Chatter

(AFPS)—Baseball rumor has it that Fred Saigh may dispose of his holdings in the St. Louis Cardinals . . . The Phillies are really worried over Jim Konstanty's failure to perform his relief chores in 1950 fashion. But some of his teammates aren't too sad about it . . . They declare he developed quite a case of bighead during the winter season . . . It's several months early yet but keep an eye on Michigan State when the new football season arrives. They may be the powerhouse of the midwest next fall.

Connie Ryan, Cincinnati second baseman, is up to his old tricks again. Hidden ball tricks, that is. In a recent Red-Giant game, Connie worked it successfully on Whitey Lockman, Giant outfielder. It made the Giants look so silly that their dandy little manager, Leo Durocher, blew his top and was banished from the ball park.

Hidden ball tricks are rarely tried in these days but Ryan insists he's worked it four times successfully in the big leagues. Most hidden ball tricks go awry through sleeping umpires rather than alert base coaches. It is the coach's job to protect against the hidden ball. The runner must concentrate on spiking the bases.

No doubt Durocher's ears will jingle for a long time over that one. Rival players love to needle him and the bench jockeys ride him unmercifully when the going's rough. Connie Ryan has pulled the hidden ball act on Leo's teams twice in two years and it may be that some of the fans, speculating that if Leo and his board of strategy are rock-headed in such plays, they may be losing a lot of valuable Giant mileage in the so-called inside baseball maneuvers.

"Every Intention Ending Season on Top," -- LT Jaeger

LT Robert F. Jaeger, M. USNR does not come to varsity softball team with experience in the game. NMS bacteriologist has always been active in sports. He pitched intramural ball in college, pitched for the State of Illinois Department of Public Health. While at Harvard he managed record of 13 wins compared to losses, pitching on his play team.

Of the NNMCM team, Mr. Jaeger says: "I feel that we have picked some outstanding players, representing every command of Medical Center. The pitching infield prospects are very good while the outfield is still untermained, but shaping up steadily. We have every intention of ending up the season at the head of league."

This is a second tour of duty for Mr. Jaeger. He first entered the service in 1943 as a communications officer for which he studied six months at the Naval Training School at Harvard, graduated in 1939 from Elmhurst College, Elmhurst, Illinois. Following graduation he took position with the State of Illinois Department of Public Health, biological laboratories and from 1941 to 1944 in the diagnostic laboratories. After his discharge from the Navy he went back to the Public Health where he was second in charge of the serology department.

In 1948 he applied for a change of classification from line to medical. In 1949, Mr. Jaeger was made director of laboratories for the City of Evanston, Illinois where he remained until recalled to active duty.

Mr. Jaeger remarked: "As officer in charge of the NNMCM varsity softball team, I'm looking forward to the fullest cooperation of commands in making the play available for all games."

The bridegroom, who was in a horribly nervous condition, appealed to the clergyman in a low whisper at the close of the ceremony: "Is it kismet to eat the bride?"

The Clergyman replied: "No, yet, but soon."

Two tramps, out of food, were wandering in the woods. One said, "I think, Jerry, if I had a big slice of ham, I'd have a ham sandwich, if I only had two slices of bread."

Some women attain their end by not taking enough exercise.

Sightseeing Trips, Parties, Wrestling, through Red Cross

Would you like to get away from the hospital awhile on these sunshiny days? Does having lunch at the Capitol and meeting senators of national prominence interest you? Or maybe a trip of the F.B.I. is more to your liking. The Red Cross Recreation Department has a large and varied program for patients here, and is constantly receiving invitations for patients to attend interesting events.

Some future activities which have already been scheduled are: Congressional Baseball Game May 25 (all good Democrats and Republicans should enjoy it), the big National Celebrities Weekend of Saturday, June 2 and Sunday, June 3 (this includes the celebrities golf tournament at the Navy-Navy Club and the variety show). Tentative bookings for the future include Ed Sullivan, Tony Martin, Andrew Sisters, Eddie Cantor, Judy Holliday, Perry Como, Kay Starr, etc., and the play on June 5 at the Christian Church sponsored by the Wiley-McCullough Post #22 and Navy Post of the American Legion (corpsmen are also invited to this party).

Many patients enjoy the weekly sightseeing trip sponsored by the Red Cross. The men themselves decide where they would like to go and if it is within reason anywhere in the Metropolitan Area, the Red Cross Motor Corps transports them. These trips go out every Friday afternoon.

If you are a devotee of the "ant and groan" activities, come to Room 102 and we will give you a ticket for the wrestling matches which are held every Wednesday night at Turner's Arena. And don't forget the Senators! Red Cross passes for all Tuesday night, Friday night and weekend baseball games. However, you must go in ARC transportation since the donors specified this. A more event which you should know while you are in Washington is the magnificent "Faith of Our Fathers." It begins June 1st and runs through September 3rd; Red Cross tickets for the second Thursday night of each month.

Summer has cast its spell over us and what you would really like is cruising down the river on a full moon (and who doesn't?) that is possible, too. We can't always guarantee the full moon, but we do have tickets for the S.S. Bear Mountain each Friday night that it sails down the Potomac. The cruises begin May 25th.

If you should like more details regarding any of these trips, see the Red Cross recreation officer or come by Room 102 and the Gray Lady will be glad to help you.

Jammed Crowd Greet Broadway Production of "Mr. Roberts" in Auditorium

Upper left: "Ah... What a liberty!" AK 606 liberty party coming aboard after first liberty in a south Pacific port. Upper right: During intermission Lawrence Blyden (ENS Pulver), Tod Andrews (Mr. Roberts) and Rusty Lane (the Captain) greet patients Sgt. Verne Powers, USMC, Wd. 6C; MMC Willis Weatherly and Sgt. Fred Beck from Wd. 5C. Lower right: ENS Pulver wades out of the ship's laundry through soap suds after testing the firecracker he intended to throw under the "old man's" bunk.

Mr. Roberts, starring Tod Andrews, brought its full cast to the National Naval Medical Center's auditorium for a matinee performance Tuesday, May 22.

Currently playing on the stage at the Gayety theatre, the play depicts life aboard an old Navy cargo vessel in the Pacific during World War II.

Particularly appealing to Navy fellows, it was enthusiastically received by a packed auditorium of staff and Navy, Marine Corps, and Army patients.

The performance at Bethesda was made possible through the cooperation of the American Theatre Wing and the generous donation of time and talent by the cast and company of this excellent production.

Lab 16 Under High Pressure

By The Thing

Well, well, well, here we are again. Lab 16 had a picnic at Seneca and what a picnic. There was fun that wouldn't cease. It took a little while to get most of us in a good playful mood but when it happened it really popped. Some of us went in swimming, voluntarily and involuntarily. One person in particular got himself a motor boat and believe it or not, when the motor let go he was up the river without a paddle. He also practiced abandon ship drills. After hitting the water he took off and swam to Virginia (A few yards away). I'm still curious as to what happened. Some of us played softball to keep the chilly air from freezing all the way to the bone.

Chief Thrasher—yup he was there too, and so was Stradtman and Chief Spangler and their families—was playing badminton and while chasing the bird he went ahead and slipped. Believe it or not, the mud was muddy. We don't quite understand where Chief Spangler got all of his energy all of a sudden but he was tossing those horseshoes like he invented the game. I'm still wondering who is to blame for moving the stakes everytime that he would throw the shoes. Maybe the horses were attached. Man oh man, are we a lucky lot to have a matinee performer on the compound. He's almost a Mr. Roberts himself. How about your autograph there Chief? I believe it is Chief Blakemore isn't it? They should have a cough drop scene in the play for Chief.

What happened to Joyce and Busby (Peter)? They seemed somehow to get themselves on the study hall list again. How about that, huh?

We won the first softball game at 16-13, but lost the second 14-10. We made almost as many errors as they made runs, but they can't take that honor from us. Stephens leads with 7 errors in two games and McKinney, Campbell, and Burns are tied with none. Let's get rid of those errors men.

Well that's the works for this time. Here's hoping that we can take on the next teams. Errors and all.

A high-hatted proverb: "Refrain from calculating upon the quantity of juvenile poultry prior to the completion of the entire process of incubation." Abbreviated: "Don't count your chickens before they are hatched."

A fool can find a thousand ways to get into trouble, but it takes a wise man to find the one way out.

Med School Scuttlebutt

By O. C. "Skip" Skinner

Everyone is looking forward to the Med School staff picnic which is a week off at this writing. Although it will have been over with by the time the issue is out, an early prediction is that a good time will be had by all hands.

Of course the big question is who will Lover Kurzwaski take to the picnic? It has been told that his Black Book is the size of New York's classified section of the telephone directory. It seems Ski is still Med School's most ardent lover, due to the recent marriage of Charley Chase. With Chase out of the way it looks as though Ski's main competition will come from Frank Laurent HMC, of the Hematology Dept. Frankie has had years of experience and may prove to be Ski's downfall.

Congratulations are in order for the Swartzendrubers who were the proud parents of an eight pound son the 15th.

Also Congrats to Charley Chase, HM3, of the Blood Bank who was wed to Miss Barbara Nolan on May 12th. Barbara was originally from Boston, Mass., but has been working here in Washington for the Telephone Company.

All hands wish to welcome Mr. E. W. Walker, Lt. MSC., aboard as the new Administrative Assistant. Mr. Walker has had a long colorful career so far, and we hope that his stay here at the Medical School will be a memorable one. Mr. Walker reported aboard from the Bureau of Medicine and Surgery.

The Medical School wishes to announce that a new class will convene from June 18-25, on the subject of "Aspects of Special Weapons and Radioactive Isotopes." This course is open to both reserve and regular navy medical officers.

Not Much Research Involved

By R. Conaway

Sports

The softball team is feeling the loss of some of its best players due to transfers. In a game with Lab 16 on May 7, NMRI trailed 13 to 16 at the end of a hard fought game. In their second game of the season, they lost to the Commissary Crew by the score of 10 to 1.

Aboard and Ashore

Many new faces are appearing in the corridors of NMRI of late. One usually first encounters the newcomers behind Bldg. 17 at morning muster. Among the newly acquired researchers are: Clayton Williams, DT2 from NMS, NNMCI; Harold S. Rienstra, ET3 from NAS, Patuxent River; and William O. Wood, HM2 from Mine Depot, Yorktown, Va.

LTJG R. D. Delong from Army Chemical Center and WOHC Earl W. Eades from the Receiving Station, D. C., are also recent arrivals.

Some come, some go; and on the 7th of this month, we lost Chief W. F. Wiesner, Jr., from Radiation Technology. The Chief left for duty with the FMF at Camp Lejeune, N.C.

I'd like to take a few lines here to wish our C.O., Captain Charles F. Behrens, MC, USN a fond adieu from all the Staff at NMRI. Captain Behrens is being detached on or about the 8th of June and is to be attached to the Staff of the Commandant, Eastern Sea Frontier. That old adage of "Our loss will be their gain" is certainly true in the case of Captain Behrens, for all will miss this truly fine, and well-liked Doctor.

The one consoling factor in our

Helen Taussig, M.D. Is Guest Speaker

RADM C. A. Swanson, MC, USN, Commanding Officer, NNMCI, and CAPT B. W. Hogan, MC, USN, Commanding Officer, NMS, presented a guest lecture in the auditorium of the Medical Center, Friday at 8:15 p.m.

Guest speaker was Helen B. Taussig, M.D., Physician-in-Charge, Cardiac Clinic, Harriet Lane, Johns Hopkins Hospital, Baltimore, Md. Dr. Taussig spoke on "The results of the first 1,000 patients with pulmonary stenosis or atresia submitted to Blalock-Taussig operation."

Navy Medical Department officers were hosts at refreshments following the lecture.

loss of Captain Behrens will be in the appointment of his successor, Captain Wilbur E. Kellum, MC, USN. Captain Kellum has been XO of NMRI since March 1950, and if the choice of a new CO had been left up to the staff of NMRI, none would have chosen any differently, for the Captain has earned the esteem and respect of all who have come in contact with him.

News Flashes

H. T. Meryman, LTJG, MC, USN from the Electron Microscopy Branch, recently took one step up the ladder when he made full Lieutenant. Our congratulations to you Lieutenant Meryman.

H. O. Williamson, HMI shipped over for a six year hitch on the 16th.

All of the old shipmates of Roy B. Tillman, HMI were happy to welcome him back to duty after a seven-month stay in the hospital. Roy is on the MAA Force at present, awaiting assignment by the XO.

I hear the stork paid a visit to the home of Chief W. I. Tomilla, a former member of the NMRI staff, and left the proud parents with a baby girl.

GENERAL ORDERS OF A SENTRY

TO TAKE CHARGE OF THIS POST AND GOVERNMENT PROPERTY IN VIEW.

HM2 W. G. Bransford Likes Stateside Duty

"Look at that lucky guy! Nothing to do all day but ride around in a car." The person in question is William G. Bransford, HM2 of NNMCC Command. He is the station's Guard Mail Petty Officer and he makes regular trips downtown to BuMed, BuPers, Pentagon, and the Naval Gun Factory. Figuratively, he could be called the miniature postal department of the Navy.

Bransford is a rebel from 'way back; way back to 1928, that is, when he was born in Thomaston, Ga. He attended the Robert E. Lee Military Institute in Thomaston and took part in many of the school's activities. Outstanding among these was the Crack Drill Platoon which won top honors in various competitions. The platoon won top honors, also, at the 1945 Military Night Competition, a state wide military school event. Among the other activities of school days, Bransford was a member of the rifle team and a varsity pigskin receiver at left end on the school's football team.

He attended "boot" and HCS at Bainbridge, Md. in 1945 and was transferred here to the Hospital Command for various ward duty and a stretch at the information desk. Nine months later, he got his first sea duty aboard the USS Consolation, AH-15.

For two years the Consolation made trips to the Caribbean and the North Atlantic. While aboard her, he visited Panama, St. Thomas, Trinidad, Cuba, Puerto Rico, Newfoundland, and Nova Scotia. When asked what he thought of these places, he answered: "They're all right, but I still like the States best."

In August 1948 Bransford returned to Bethesda for a second tour here. This time he reported to the NNMCC Command where he worked in Bks. 112, Center Files, and his present post of the Guard Mail Petty Officer.

Navy Belles

By George

I came back from 10 beautiful days in the heart of Maryland to find the "thing" in my cubicle. You've never seen such monstrosities as we now live with—lockers, lockers, everywhere, and not a place to hang our clothes!

Busiest place in the barracks lately is the area around the sewing machine if one is agile enough to climb over all the lockers stored in the recreation room. The girls are getting their summer clothes ready—lots of work with those yards of material in our greys.

Those that aren't sewing can usually be found out behind the barracks on the tennis courts, sun bathing, golf putting, or car washing. "Josh" Shook is taking tennis lessons while Erma, Peggie, Joan Osterhout, Katie and Hopper can be found on the golf range.

Erma Cooper and Joan Madsen are still trying to master the French language.

Physical Med. class finished the 25th and seven of our girls left us. Phyllis Snook is going north as well as Pat Long who has orders to Phillie. Cultivating southern accents as they packed their clothes to go south were Marjorie Dilly, Lois Everhart, Alma Wadenstorer, Jeannett Delk and Jo Feldi.

Last season's basketball team had an outing in Rock Creek Park on Mother's Day and took our new house-mother Betty Hopper along as cook. Eating, softball, and horse back riding filled the day. Terry didn't get poison ivy, but Hamie got two charlie horses from a strenuous game of catch.

"Johnny" Johnson is on leave in North Carolina. Louise Miller returned last week from there too.

Casualties for the month include Alma Wadenstorer with her foot, "Salty" Salisbury (she broke out the crutches for her knee again), and Phyllis Snook with a broken finger.

Welcome aboard to an old friend Alma Albrecht, HM2 who reported in May 18 from the Washington D. C. dispensary. Alma's working in the OPD clinic now.

"Madam," he said, "Will you please get off my foot?"

"Why don't you put your foot where it belongs?" she replied curtly.

"Don't tempt me, Madam, don't tempt me," he countered.

Armed Forces Testing Drugs To Combat Motion Sickness

When you're at sea, does your stomach do handsprings? Do you turn pale green and break out in a cold sweat? Or, when you're in a plane, do you foster the same symptoms? If so, brother, you're suffering from motion sickness.

But take heart. You're not the only one.

Because thousands of their personnel suffer the same thing, the three branches of the Armed Forces are testing new drugs to combat motion sickness.

On board ships of the Military Sea Transportation Service (MSTS), Army, Navy and Air Force specialists are attempting to find a safe and effective cure for that "I-don't-wanna-eat" feeling. Tests conducted by the Army with dramamine have proved 97 per cent effective in the prevention and cure of seasickness.

The Air Force found that benadryl, hyoscine and artane were as good as dramamine. However, the technicians are not completely satisfied. They want a treatment which will have no side effects.

In a typical test case, doctors on board the USNS General R. E. Callan found they had the ideal situation. For 18 hours the ship, loaded with soldiers, fought rough, stormy seas. Pitching and rolling, the men became sicker and sicker.

Doctors segregated them and conducted several different experiments. The men were checked closely to determine which group recovered quickest.

In addition to medical men, naval research experts are working on the project. They hope to alter future ship designs with the information they are gathering on motion of ships.

Who's Who in Defense

ADM William M. Fechteler, USN, Commander in Chief Atlantic, became Commander in Chief Atlantic Command and U. S. Atlantic Fleet, February 1, 1950 with rank of Admiral.

Born in San Rafael, Calif., March 6, 1896. Appointed to U. S. Naval Academy, 1912 and was graduated with credit in 1916.

During World War I, he saw service aboard USS Pennsylvania. Served later on assignments at the Naval Academy, Asiatic Station, Battle Fleet and in the Office of the Chief of Naval Operations.

Assumed command of USS Indiana, August, 1943. Ship acted in support of carriers during campaign for Marcus Island. Participated in operations during battles for Gilbert Islands and Marshall Islands.

Assigned as Commander, Amphibious Group 8, Seventh Amphibious Force. His forces participated in landings in the Admiralty Islands, at Hollandia, Dutch New Guinea and on Biak Islands. Conducted amphibious landings in Western New Guinea and near the entrance of Manila Bay.

Reported for duty as Assistant Chief of Naval Personnel March 26, 1945. Commander, Battleship-Cruisers, Atlantic Fleet, January, 1946.

In January, 1947 assigned duty as Deputy Chief of Naval Operations (Personnel).

In addition to his Atlantic Command, Admiral Fechteler is Chairman of the North Atlantic Ocean Regional Planning Group.

History Repeats Itself With U.S. Forces In Arctic

(AFPS) The recent return of American troops to Iceland recalls the year 1942 when U.S. sailors and marines first were sent to this island at the edge of the Arctic Circle.

In a land that can turn up 120 mile gales and enough snow and ice to make any construction a part-time affair, the task of building and maintaining airfields, oil storage and shipping facilities was a huge one.

Through agreements with England and Iceland, U. S. troops went to the island to stave off any threats to Greenland and insure the safe shipment of munitions to England.

Important fuel oil storage facilities were built, first with civilian labor and later by the apt Navy Seabees. A Navy airport and an Army airport were also constructed.

While having a population of 140,000, Iceland has no army, navy or air force of its own. Under provisions of the North Atlantic Alliance, the Icelandic government asked the U. S. to return once more to its shores.

This completes the series of defensive steppingstones of the United States. Recent agreements with Denmark and Canada, also under the Alliance, clarified the position of the United States in the entire North Atlantic.

Mona

Ever hear about Mona Knox? Well, you're going to hear more about her in the future. She is going to appear in a forthcoming movie. See you then, Mona.

HMC Simon O. Tolar Awaits New Orders

Simon O. Tolar, HMC, USN, Chief MAA, is usually on hand to greet all callers as they enter the hallowed portals of Naval Medical Research Institute.

The Chief, still a tax heart, was born at Rennett, Carolina in 1908. After finishing H. S. at Roanoke Island, he attended Wake Forest for one year and spent the next two years at the Medical College of Virginia studying pharmacy.

The call of the sea became irresistible at this time, and he joined the ranks of the Navy on January 4, 1929. He was promptly sent to HCS at Norfolk, Va., and from there, really up to that well known slogan, "Join the Navy and see the world." His first tour of duty was at New York Naval Hospital, at which he was stationed at the following bases: Shanghai, China; Canacao, P.I.; New London, Conn.; Parris Island, S.C.; USS Arkansas, USS Richmond; MOB 2; Mare Island, Calif.; PC-570 (the first of its kind to be put into commission); NMRI, Pearl Harbor; back to NMRI in 1948.

In July 1942, the Chief married a South Carolina belle, and now the proud father of two lovely daughters, Vikki and Linda.

Chief Tolar is now awaiting orders to "Places Unknown" and at Research will surely hate to the day arrive when we must bid bon voyage to a well-liked respected shipmate.

(AFPS) Providence, R.I.—Fifteen thousand starlings were routed by 1,500 rounds of roman candles in a Chamber of Commerce project to get rid of the birds. The starlings returned after the shot was fired.

Kenneth L. Hance, HM2T, 17 student, received a letter of commendation this month by Rear Admiral Smith, Commander of a blockade and bombardment force off Korea. He was commended for his excellent performance of duty from 1 to Mar. 1 while serving at the USS Manchester (CL-23) Wonsan Harbor, Korea.

The Recreation Office has reduced rate tickets for all home games at Griffith stadium.

The world's greatest concentration of telephones is in Washington, D. C.

Reports from Miami indicate this summer's bathing suits for women will have less cotton than you can find in an aspirin bottle.

CPT B. E. Bradley Leaves for New Job as CO at Key West

CPT Bruce E. Bradley, Executive Officer, NH, will be detached 15 to become Commanding Officer of the Naval Hospital, Key West, Fla., after 19 months' duty at

CPT Bradley began his Naval duty as an intern at Chelsea Naval Hospital right after graduation from the University of Virginia School of Medicine.

After coming to Bethesda, he served in Nicaragua, Bougainville, New Guinea, off the coast of Japan, and aboard the USS *Capella* in the Bering Sea.

CPT Bradley's replacement is CAPT Carl H. McMillan, Executive Officer, Naval Hospital, Key West, S. C.

Next Staff Dance Will Feature Music Of Freddy Martin

If some of you have been wondering what has happened to the staff dances, stop, for the idea has not been abandoned. In fact, the coming dance will be bigger than ever. Word has just been released that Freddy Martin and his famous band will provide the music.

The date has been set for Monday, July 30, and will be held in the gym as usual. Preceding the dance will be an hour stage show in the auditorium. Time schedules will be announced later.

In an attempt to provide better entertainment the recreation department has announced that name bands will be booked in the future.

University Sets Up Night Courses Here

Anyone interested in working toward a college degree, or earning college credits should investigate the off-campus college courses conducted here at the Medical Center by George Washington University. A questionnaire has been prepared explaining the plan in detail, and giving a curriculum for the AA degree which may be obtained through these night classes and by taking the GED tests.

Veterans still entitled to benefits under the G. I. Bill Educational Program must be enrolled in a course of instruction prior to July 25, 1951 or lose all benefits.

Wave Chief Displays Second Hash Mark

"Just think — my next hash mark will be gold!" said Eleanor Longcope, HMC, as she proudly displayed her second hash mark.

"Fluffy", as she is known, has 11 months to have been a Wave owner in the Waves. She received the service in June 1943 and took her recruit training at the College, which was the Navy women's training center at the time.

Her hospital Corps School was at the Naval Long Beach, where "I became a West Coast sailor." After graduation she was sent to Coronado, four years where she became a technician. In 1947 she was transferred to USNH San Diego.

After almost five years on the West Coast she was sent to St. Albans in 1948 and finally to Medical Photography School here in January 1951. Miss Longcope and Mrs. (another HMC to become a Wave next month) are the two Waves to attend photog- school.

Eleanor Longcope

"Fluffy" is a resident of Ambler, Pennsylvania.

News Shorts From The Editor's Desk

Back at NMRI again after a field trip to Eniwetok, where they were engaged in biological research in connection with Operation Greenhouse, are: LT C. S. Connor, MSC; LCDR T. E. Shea, MSC; LTJG B. G. Lamson, MC, USNR; CDR R. A. Conard, MC; CDR J. L. Tullis, MC; LTJG T. S. Ely, MC; CDR R. H. Lee, MSC; and CDR F. W. Chambers, MSC.

Two Naval Hospital doctors have received TAD orders aboard ship in conjunction with the summer training cruise of Naval Academy and Naval Reserve midshipmen. The doctors are CDR D. P. Hightower who boarded the USS *Missouri*, and LTJG F. B. Rogers who boarded the USS *Wisconsin*.

(AFPS) The Senate Post Office Committee has approved legislation to permit any Service member, including Coast Guardsmen, to send first class mail postage-free to any destination in the U. S., territories, or possessions. House and Senate have yet to consider the measure.

(AFPS) The Navy this year will receive 2,645 new ensigns, the largest number in any peacetime year. The Naval Academy June graduating class will provide 696 and 1,949 will come from colleges and universities, having been educated at Government expense under the Holloway Plan for granting Naval scholarships entailing an obligation for two years of active duty after graduation.

James D. Kelly, BBA, (CWO, HC, USN) has recently been appointed Business Manager of the Journal by the Board in Control of the Monroe Street Journal. The Journal is a student publication of the School of Business Administration, University of Michigan. Mr. Kelly is a former NSHA student.

(OIR) Recently in a typist examination conducted by a naval field activity, one of the applicants was a polio victim who, as a result of the disease, had lost the use of both legs and right forearm and hand. Typing with her left hand only, the applicant completed 46 lines of typing with only five errors in a ten-minute test. Her examination paper was the neatest of 631 competitors examined by the Board and her accuracy score was higher than that of any other competitor. This is an outstanding example of the proficiency which handicapped persons can demonstrate after proper training.

Hospital Corpsman and Marine Patient Receive Bronze Star Awards Here

Marvin B. McDonald, HM2, USN and Sgt. John H. Eggers, USMC, were awarded the bronze star medal at a ceremony here May 21. RADM Clifford A. Swanson, MC, USN, presented the medals to the two Korean veterans.

HM2 McDonald, of McConnelsville, Ohio, was serving as a company corpsman when his company was subjected to a strong attack by an enemy force of estimated two-battalion strength. Due to the fierceness of the attack which lasted throughout the night, numerous Marine casualties were suffered.

McDonald fearlessly exposed himself to heavy enemy fire to search out, administer aid and evacuate the casualties in the complete darkness and sub-zero temperatures. McDonald is now a patient on Ward 107.

Sgt. Eggers, of Clearfield, Pa., was acting as battery supply sergeant with a Marine artillery battalion. During the early morning hours of darkness, his battery convoy was halted by an enemy roadblock and was subjected to heavy enemy fire.

He volunteered to accompany a wire team and assisted in establishing communications to a forward observer that was positioned near the enemy roadblock. His actions materially contributed to the successful repulse of the enemy ambush. Eggers is now a patient on Ward 104.

Blood Bank Graduation Certifies 13 Students as Blood Bank Technicians

Med School graduated 13 students as certified Blood Bank Technicians June 1. Having previously completed a one-year course to become laboratory technicians, the 13 who completed the six weeks' course in blood bank techniques are:

HM3 Erma Cooper, HM2T Robert M. Foley, HM3 Edward H. Garland, HM1 Teresa R. Hawk, HM2 Donald C. Hill, HMC Lafayette L. La Touche, HM3 Patricia A. Olsen, HM1T J. M. Robins, HM3 Robert C. Scheno, HM2 Harold J. Stanton, HM2T Milton N. Stasney, HM3 Robert R. St. John, and HM3 Eugene S. Strout.

Five Nurses Make LTJG

Four NNMC nurses advanced from ENS to LTJG in May. Adding the new stripes are: June L. McCalla, USNR, of Ballardvale, Mass.; Elaine V. C. Charlton, USNR, of Beverly, Mass.; Dorine M. Fiorillo, USNR, of Bristol, Conn.; Loraine G. McGrath, USNR, of Lynbrook, L. I., N. Y.; and Jeanne Racey, USNR, of Ava, Mo.

NSHA Students Receive Lectures By Eminent MD's and MSC Officers

By G. E. Bachert

During the last few weeks, the officers' class at the Naval School of Hospital Administration has had the privilege of hearing lectures presented by various officers of the medical and medical service corps who are eminent in their particular field. The lectures have been given in

conjunction with the Administrative Liaison at NSHA which is a study of the duties of an administrative officer at a naval hospital, on fleet medical staffs, in district medical offices, and wherever an officer of the medical service corps might be called upon to serve.

CAPT Gordon B. Tayloe, MC, USN, member of the Armed Forces Medical Policy Council, presented a lecture on the organization of this council. Some of the highlights of CAPT Tayloe's lecture were the background history of the council, composition of the council, manner of appeals from decisions of the council, functional duties, and task groups that are now under study.

LT L. K. Thompson, MSC, USN, from the Armed Forces Procurement Agency, delivered a lecture on the organization and functions of the medical supply system of the Navy. Mr. Thompson went through the supply steps from the top level down, covering the organization and major functions throughout. One important point of his presentation was that if each hospital, ship, and station would submit properly prepared requisitions, which reflected their individual actual requirements, the Naval Medical Supply Depots and the naval medical supply system as a whole would always be able to do a good job. Requisitions would not have to be denied nor back orders generated.

The Organization and Management of the Medical Records Center, Garden City, N. Y., was the subject of a presentation by LCDR L. K. Schweinfurth, MSC, USN. Mr. Schweinfurth pointed out that if the record is to be kept you should see that all information desired is entered, and when filled or completed, the log or report is NOT destroyed, but retired at the designated time. Don't forget the other man in the service, for the record you hold is often the only one that exists or can be found, and is doubly important to him.

What has always seemed to be a great mystery to many was cleared up by LTJG E. J. Morel, MSC,

USN, Head, Complement Planning and Control Branch, Bureau of Medicine and Surgery. Mr. Morel spoke on the manner in which allowances or billets for medical department personnel are established and the connection between these allowances and the actual detail of personnel. He revealed the "whys" and "whatfores" of this procedure.

LTJG S. A. Zumbun, MSC, USN, gave a lecture on the Navy's Medical Illustration Service. The subjects under the Medical Illustration Service include photographic technique, photographic processing, photocopying, lantern slide technique, photomicrography, color photography, and lantern slide and motion picture projection.

While the lectures given over the past weeks have not been detailed, they have given the officers who will soon graduate from NSHA a broad idea of what is to come.

The services of Rabbi Harry Kaufman, representing the Jewish Welfare Board, are available to all Jewish Personnel and Patients at the National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, Ext. 324, or by call direct—Office: RA. 5371—Home: GE 0755.

Craft Projects Help While Away the Time

Have you wondered what you could do to help pass the leisure hours while you are hospitalized? In addition to reading, many patients have enjoyed learning some of the various crafts, which may be obtained from the Gray Lady who brings the craft cart to your ward.

We should like to suggest a few of the popular crafts that your wife or best girl might like to use as accessories with her summer clothing. Using pyrolace of a variety of colors, you can weave belts, bracelets and earrings to match. Shellcraft is interesting and easy to do.

A very popular craft project is the table setting or doilies made with carpet warp and crochet thread. Leather tooling can be fun, too, and the billfolds and secretarial wallets make useful gifts. For the children, you may choose to make some of the little felt animals which they will adore. The square knots you learned to tie in boot training may be put to good use now because we have Belfast cord which is especially good in making square knot belts.

It is interesting to note that quite frequently many of the patients continue to do craftwork after they leave the hospital. If you are interested in making any of these crafts, watch for the Gray Lady with the craft cart or come to the Craft Office, Room 205B, near Ward 6-C.

Plastic Naval Ships Seen as Possibility

White Sulphur Springs, W. Va. (AFPS)—The day of steel ships is passing and an era of plastic ships is dawning, Dr. Albert Lightbody, chief of the chemistry division of the Navy Ordnance Laboratory, said here recently.

He predicted that plastics soon will be used to make decks, masts, hulls, electrical equipment and hydraulic systems on Navy vessels.

Education

(Continued from page 1)

This may be your last chance to enroll.

Non-veterans may enroll in accordance with BuPers C/L 178-50. This letter entitles personnel to enroll in one or two of these courses and the government will pay \$22.50 tuition and the student pays the remaining \$7.50 (per course) plus any additional costs, such as text books. All courses that are successfully completed entitle personnel to three credits which are transferrable to any college.

Due to the time of the year, it has been determined that instead of having the courses convene for 15 weeks, they will meet two nights per week for a period of eight weeks. This will enable personnel to plan for leave during the summer months. To start a class, 18 or more students must enroll.

Proposed courses for this summer are Accounting I, History 71, Speech, German I, Psychology, and French II. No transcript of former schooling is needed and there are no entrance exams. Questionnaires and further information may be obtained in Room 209, Building 1.

With this excellent opportunity to further their education, all members of the Armed Forces and civilians are invited to enroll in any of these off-campus courses.

Registration dates and courses to be offered will be announced as soon as the questionnaires are all in.

The Chaplain's Corner

By Chaplain P. J. Marron

Father's Day

Sunday, June 17, that's D-Day this year—Daddy's Day. That's an occasion; it calls for a celebration. Oh, good "old dad"—what a man! We don't give him too much thought, time, or attention anymore. So how we sort of take Daddy for granted, and that's not so good, because he is the unobtrusive type, not always wanting to get into the act type, we tend to exclude him entirely.

Of course we fully realize that Father really doesn't care for spotlights; would rather be the good little boy—seen and not heard.

When I think of your Dad, or mine, invariably I associate those great men with the "Daddy of 'em all"—St. Joseph. In fact, I like to celebrate Father's Day on March 19—St. Joseph's Day. Your Dad, the Carpenter of Nazareth have so much in common. Who understands and appreciates the problems, headaches and heartaches of Daddy better than St. Joseph?

Dads such as yours, we think would be welcomed in the company of St. Joseph. It is not the honor and glory of St. Joseph we are less by the sharing, nor are we aspiring to place others beside him, or very special throne he occupies beyond the clouds. Of course not.

The "Chief Carpenter of Nazareth" knows so many things that your Daddy can understand. On that same terrible, beautiful night he came, time and time again, to say "No room, Mary, no room," must have been a depth of hopelessness, terrific discouragement in tones.

This housing shortage is not a new deal. There have been innumerable times then and now when shelter has been as anxiously sought, weary, waiting, tired wives. Breadwinners always have known heart-clutching fear that some day there would not be money for landlord of the inn. And the good "Chips" of old, driving nails and using a tired hand to wipe perspiration from a weary brow is one with fathers who have driven nails and welded picks or pens or violin bows any tool that suits their skill for earning money for their own.

When Joseph "shoved off" for Egypt, he blazed the trail for pilgrims in every age and country who fled any assassin that might disturb the security and sanctity of the home. And with the same courage, St. Joseph shouldered his possessions and rode dauntlessly into the desert, so, too, ride and have ridden fathers everywhere and in every over the ocean and wasteland for the sake of those they love and dear.

And when congratulations, gifts and tokens of appreciation are justly pouring in, then please remember, Dad, these are very inadequate symbols of your work well done. We will go further, we will do more, we will speak of you to Joseph and to God today—that yours really and truly be a happy Father's Day.

Hope

Hope forever burns in human souls,
Flames leaping high as logs are thrust
Into flickering sparks and smouldering coals
Of other hopes burned in the charred dust.
Or a twig is cast and swiftly devoured,
A half-hearted yearning, a fleeting dream—
Instantly squelched the moment it flowered.
Hope ebbs low; lifeless it may seem.

Hope, the twin soul shall never die,
Though flame may perish, never the spark!
Hope mirrors the soul; it is the eye
Reflecting light when all other is dark.
Dreams may scatter with the winds of earth,
Love may smother in hearts forever,
And life despair seeming not its worth.
All things may die, but Hope shall never!

—GLORIA GOSNELL, NY

... and Cigarettes, Too!

Pfc. John R. Hall, USA, from Cassopolis, Mich., receives a smile and a package of Old Gold cigarettes from Miss Peggy Hencke, former Ships Service office employee, who now works for the Old Gold company. Hall, an 18-year-old paraplegic patient in 6-C, wears the purple heart for wounds received last fall in Korea.

Physical Med Class No. 10 Graduates

Class No. 10 of Physical Medicine Technician's School which graduated May 25. Left to right: Front Row: LT Thelma R. Bare, MC, CAPT William M. Silliphant, MC, CAPT Bartholomew W. Homan, MC, LT Evelyn I. Erickson, NC, and LT Ruth Moeller, NC. Second Row: HM3 Riley B. Bingham, HM3 Josephine M. Field, Patricia A. Long, HN Jeanette S. Delk, HN Alma Rose Waden, HN Phyllis A. Snook, HN Lois E. Everhart, HN Marjorie Dilley, and HMC Roy O. Hartman. Third Row: HN Donald K. Stevens, HN Randal Littleton, HN Thomas G. Wilhelm, HM3 John P. Delello, HN Robert L. Gordan, and HN Marvin Zuckerman. Fourth Row: HN Thomas J. O'Connor, HN John R. Simpson, HN Jack A. Keenum, HN3 Louis J. Tomasiello, HN Anthony J. D'Amico, and HN Franklin H. Hill. Fifth Row: HN Edward C. Brown, HN Frank M. Furina, HM1 Earl C. Wheeler, and HN Gerald L. Hodges.

A Insurance Plan Outlined

Washington (AFPS) — Eligible veterans and present members of the Armed Forces may apply after charge for the new post-service insurance provided by the Veterans Administration has announced. No medical examination will be required for this insurance. To be eligible, veterans must have been entitled to indemnity protection under the Indemnity Act of 1951 and must have been ordered into active service for a period in excess of 30 days. This includes veterans ordered into active service who were in service on June 27, 1950 and those entering service after that date. The Veterans Administration is that veterans need not have served in the Korean campaign if the required service anywhere in the world will meet this eligibility requirement of the law. The second requirement is that

Class No. 10 of Physical Medicine Technicians' School graduated May 25 following the completion of a six months' course. Sixteen members were certified as physical therapy technicians and seven as occupational therapy technicians.

HN Marvin Zuckerman was class honor student with an average of 93.9, followed by HN John R. Simpson with 92.4, and HN Jack A. Keenum with 92.2.

The next class will commence June 18.

veterans must apply in writing to the VA within 120 days after separation from service. The application must be accompanied by the correct premium payment.

The new insurance is in the form of a five-year level premium term contract that is renewable every five years at the premium rate for the then attained age.

Applications for the new insurance, properly filled out and accompanied by the required premiums, are to be forwarded to: Central Office, Veterans Administration, Washington 25, D. C.

Navy Belles

Greetings from just around our house, and let me tell you a few things of interest. Have you noticed the new lights in the downstairs recreation room? Thanks to Betty Hopper and her extra work, the room is light as day now.

Welcome aboard this month to Ann Harder and Joyce Reining, from the Lakes for hospital staff. Ruth Ross is back with us—came here for school only to find the school was cancelled somewhere along the way. From the West Coast we meet Chief Catherine Puffer who came here to replace Chief Jones in the Disbursing office.

It was a good thing Rusty lived on one end of the barracks and Terry on the other. Goodness, I never saw so much gear (stuff) piled up in one place! Watching them pack I was sure they'd need a trailer truck to get them to San Diego where their new duty station is.

Another old-time Bethesda girl who shipped out for the New England States was Erma Cooper.

Marion Habel is the coffee drinker of our house. She always has a cup and asks every passer-by to drop in for coffee. Irene Ramos started to get ready for a picnic at nine which started at eleven, she'll be on time yet. Millicent Tschaep is back after her vacation in New York.

Our bride of the month is Mary Alice "Johnny" Johnson, who married Randal "Randy" Madson, May 22 in Virginia.

We are—We are not—We are having a softball team this season; even if Miss Butterfield has to play every game—so all you girls with some spare time are needed to help Bethesda have a team.

The newest golf fan is Louise Miller—spends all her time on the golf course.

Wave of the month is Chief Loncope who is celebrating eight years in the Navy. The chief is one of the first two Waves to go to medical photography school.

Intern Class 1950-51 Completes Training

First Row: (L to R) Dr. E. D. Willett; Dr. C. J. Savarese, Jr., Senior Intern; Dr. F. G. Burgess, Senior Intern; CAPT R. M. Gillett, Commanding Officer; CAPT H. A. Gross, Acting Executive Officer; Dr. T. D. Head; Dr. F. H. Harris; and Dr. J. G. Rossi.

Second Row: Dr. J. R. Baldwin; Dr. J. T. Bechtel, Dr. J. K. McShane, Dr. J. A. Ward, Dr. M. W. Wood, Dr. H. J. Horn, Dr. M. C. Pittard, Dr. J. W. Pate, and Dr. M. Markarian.

Third Row: Dr. M. Drickman, Dr. T. W. Tusing, Dr. M. H. Backer, Dr. J. J. O'Brien, Dr. D. A. St. Martin, and Dr. R. E. Hermann.

LT L. A. Jachowski Appointed to Staff Of Johns Hopkins

LT Leo A. Jachowski, MSC, USN, of the NMRI staff has recently been appointed to the staff of Johns Hopkins University as a Research Associate. LT Jachowski has been engaged for the past two years upon a detailed study of filariasis in American Samoa in collaboration with Dr. G. F. Otto, at Johns Hopkins University. He and HMC Marshall H. Powell have recently returned from a field trip to Samoa where they completed a comprehensive survey of the effectiveness of control measures set up under their direction a year ago. In general, these control measures have been carefully maintained and there are indications that they will prove effective in controlling filariasis.

"Hamey" Hamilton has given up counting rabbits' ears to be our new night-mother for the month of June, while Betty Hopper remains MAA for another month.

Active Service Won't Hamper Vets' Schooling

Washington (AFPS) — War veterans who have interrupted their government-financed studies and returned to active military service may continue training after discharge, even though they get out after the July 25 deadline.

A Veterans Administration announcement adds that such veterans need not have interrupted their training specifically to go back into uniform in order to resume training after the deadline. They must, however, have been making satisfactory progress.

The July 25, 1951, date for beginning training applies to World War II veterans discharged from service before July 25, 1947. Those discharged after that time have four years from the date of discharge in which to begin training.

NNMC Plays Host to Surgeon General's Symposium

The symposium of the Surgeon General of the Navy with members of the Medical Department was held here May 23-25.

The symposium is held annually, afford an opportunity for the Medical and Dental Officers command of the various naval medical department facilities to meet and discuss the many problems associated with the efficient operation of the Department. Such problems as: personnel procurement, finance, retirement procedures, hospitalization in other than naval hospitals, planning, and various current problems were discussed. Also, the latest developments in the field of Military Medicine

were presented.

RADM Lamont Pugh, MC, USN, Surgeon General of the Navy, delivered the principal address. The welcome address was made by RADM Clifford A. Swanson, MC, USN, CO, NNMC. RADM Clarence J. Brown, MC, USN, Deputy and Assistant Chief of the Bureau of Medicine and Surgery, acted as Chairman.

Present at the symposium were: USNH representatives:

CAPT L. R. Newhouse, Chelsea; F. R. Moore, Newport; W. E. Pinner, Portsmouth, N. H.; C. R. Wilcox, St. Albans; C. J. Stuart, Portsmouth, Va.; G. W. Smith, Philadelphia; H. L. Goff, Bain-

bridge; T. H. Taber, Beaufort; J. F. Hooker, Lejeune; J. F. Hays, Charleston; D. J. Warton, Jacksonville; B. E. Bradley, Key West; D. W. Lyon, Pensacola; J. R. Fulton, Memphis; J. P. Brady, Corpus Christi; T. F. Cooper, Great Lakes; E. P. Kunkel, Oceanside; O. B. Morrison, San Diego; H. V. A. Packard, Mare Island; J. N. C. Gordon, Oakland; M. S. Mathis, Bremerton; C. G. Hines, Annapolis; J. T. O'Connell, Quantico.

DMO's:

RADM S. S. Cook, 1st ND; RADM J. Harper, 3rd ND; CAPT J. L. Frazer, 4th ND; RADM W. T. Brown, 5th ND; J. B. Longue, 6th ND; CAPT O. A. Smith, 8th ND;

RADM W. J. C. Agnew, 9th ND; CAPT W. C. Baty, 10th ND; RADM P. M. Albright, 11th ND; CAPT H. D. Hubbard, 12th ND; CAPT W. H. Perry, 14th ND; CAPT C. W. Brunson, 13th ND; CAPT A. C. Smith, 15th ND; CAPT G. W. Dickinson, 17th ND.

Staff and Commands:

CAPT W. P. Dana, CNAT; CAPT I. B. Polak, PRNC; RADM C. A. Broadus, CINCPAC; CAPT C. R. Ball, CINCLANT; CAPT J. W. Allen, SRNC.

Supply Depots:

CAPT B. G. Geen, Oakland; CAPT W. L. Engelman, Edgewater.

District Dental Officers:

CAPT C. E. Kelly, 1st ND; RADM

H. R. Delaney, 3rd ND; CAPT M. D. Martin, 4th ND; CAPT A. F. Miller, 5th ND; CAPT E. W. Willett, 6th ND; CAPT R. A. Lowry, 8th ND; RADM D. W. Ryan, 9th ND; CAPT J. A. Tartre, 11th ND; RADM R. S. Davis, 12th ND; CAPT L. F. Snyder, 13th ND.

Staffs and Commands:

CAPT E. A. Hyland, CNAT; CAPT F. G. Ulen, PRNC; CAPT C. W. Schantz, CINCPAC; CAPT H. J. McInnis, CINCLANT; CAPT M. M. Maxwell, SRNC; CAPT R. W. Malone, Naval Dental Clinic, Brooklyn.

NNMC:

CAPT L. D. Mitchell, NDS; CAPT C. A. Schlack, NMRI.

Coach's Corner

HUSTLE, HUSTLE! keynotes the Varsity softballers under the mentorship of LT Yeager. Former court luminaries are in the spotlight at the keystone sack with Richie Rock cavorting in the short garden patch, Tiger Mosely at second, and that elongated mass of protoplasm, Kurzawski, guardian of the initial bag.

Toeing the slab with the same ease he displayed in rebounding is Whip White who is a pretty cool hombre when the opposition is levelling off against his offerings.

Smoke Day, a member of that combo of Mose, Ramer, Hawley, Rock and Day, a sweet-moving quintet, anyone of whom could rack fifteen points on three minutes notice, can also take a turn on the mound. Handling the backstop chores in a capable fashion is Goda, who has proven quite capable of handling that "riser" of Whip White's.

A couple of incidents caught the Coach's eye last Memorial Day when the Center took the flyers from Patuxent into camp by a 3 and 1 count: with a man on base, the catcher should get that ball back into the pitcher's hand without posing with it like a shot putter; on a ball into deep left centerfield, the whole infield stood still and expected White, who has one foot on the fence to throw it in with one bounce. How about someone going out to relay that apple? . . . The opposing pitcher was credited with a homer on what should have been a safe double.

Liked the way Pat White came in for that short blooper into center, the manner in which Joe stretched for that throw from Mosely; close decision on that play, Ski.

The boys felt like playing ball with some hundred-odd spectators in the new bleachers along the first base line. Noticed one dainty miss clicking the shutter on the gyrations of our first baseman who is displaying more movement on first than he did on the maple floor.

Last Sunday spent about fifteen minutes listening to a couple of fellows who should be wearing the striped pants and homburgs of the State Department in the persons of Wynne and Martin. Seated at a small desk in the foyer of the Recreation Building, the aforementioned men did a fine job in guarding the turnstiles to the swimming pool. The following is typical of what the boys put up with while the Coach was within earshot:

"I will have you know that my husband is so-and-so on duty at such-and-such and we put in an application only yesterday for the use of the pool and I would like to know WHY this hasn't been taken care of" . . . "I would just be so happy if I could bring in five guests—Only ONE? Whoever heard of such a thing?" . . . "Why can't I bring in a coke bottle?" (on cleaning the other day, the boys brought up three broken bottles) . . . "I lost my card, why can't I go in the pool?" . . . "Do you mean to say this card is outdated?—Oh yes, I didn't notice the fine print."

The above is routine, and to Wynne and Martin for handling the mob which descended upon them last Sunday, the pat on the back from all your shipmates for being as suave as a floorwalker at Tiffany's.

Queries have been made as to when the Center would hold a few golf tournaments and the answer to that is, the golf committee is waiting till the end of the month when the current group of recreation sponsored lessons would be completed.

It looks like there will be a few hundred entries in the first tourney with current interest being what it is. Surely this is the way we would like to see things go, rather than placate two individuals who would be in a small minority of some fifteen post entries. Center personnel have been mighty faithful on replacing divots; let's keep up the good work fellows and we will have grass to play off!

AMC Tips Admirals by 1, Ads Take Patuxent 3-1

Dropping their first game of the season to Army Medical Center May 1, 2-3, the NNMC varsity came back to take the Patuxent Naval Air Station 3-1 in a home game here May 30.

It was a pitchers' battle on diamond No. 1 in the Patuxent game. White again struck out nine of the birdmen, but at the same time Marconi fanned ten of the Medical Center hopefuls.

Hits were few and far between. Each team was able to get only two. Gilman, playing his last game for the Admirals, scored one of the hits. He was batting .333 and was the only man on the team who hit safely in all three games. Gilman, who has received orders to the FMF, will be a serious loss to the team.

Because of the walks issued by Marconi in the first inning and a timely hit by Kurzawski, the locals were able to get across three runs. This was the end of the scoring until Marconi connected with one of White's fast balls for a deep hit into left center field for a home run.

In the Army Medical Center game the week before, the locals lost 1 to 2 in spite of White's nine strikeouts.

Kotonias, who went in to catch after Goda injured his ankle, showed exceptional ability and will see a great deal of duty behind the batter.

Local Nine Loses Game In Clash at Cheltenham

NNMC varsity came out on the short end of a 5-3 score against the U. S. Naval Radio Station, Cheltenham, Md., June 6.

Finding stiff competition against a team that had previously won all its games by shutouts, the Admirals sent Hall, Rock and Kurzawski home for their three tallies.

Pitcher White allowed the Cheltenham team 7 hits while the Admirals took 8 off the opposing pitcher.

Still Time to Register for Local Tennis Tourney

The NNMC men's and women's singles and doubles tennis tournament, which was originally slated for June 4, has been postponed to June 18, in the hope of getting more entries.

Racquets and equipment will be furnished by the recreation department. Anyone who would like to participate in the tournament should contact the recreation department before June 13.

Waves' Softball Schedule

11 June—Waves vs. Ft. Myer WAFs
14 June—Waves vs. Quarters K
18 June—Army Medical Center vs. Waves
21 June—Waves vs. Ft. Myer WAFs
26 June—Waves vs. Marines
Note: Home games listed first.

Strikes, Spares, Every Man a Marker

At left, HMC E. F. Meitl of NSHA swings into action as he propels one for a one-three hit. Chief Meitl hit a 267 in the recently concluded Spring Bowling League. Center, the start of a perfect hit, No. 1 pin toppling as ball heads into 1-2 slot. At right, Members of champion CPO's, runnerup Naval Hospital, 3rd place NSHA-2 and 4th place NDS Officers, with trophies presented by RADM C. A. Swanson, CO.

Qtrs 12 'B', Doctors Take Two Apiece; Tie for 2nd Place

Qtrs 12B	9	Qtrs 12A	1
NH Doctors	7	Cardiology	3
X-Ray	7	Lab 16	0
NDS Officers	6	NMS	5
Qtrs 12B	17	NMRI	5
NH Doctors	10	Surgery	9

Standing			
	W	L	Pct.
X-Ray	4	0	1.000
Commissary	2	0	1.000
NH Doctors	3	1	.750
Qtrs 12B	3	1	.750
Surgery	2	2	.500
NDS Officers	2	2	.500
NDS	1	1	.500
Lab 16	1	2	.333
Qtrs 12A	1	2	.333
NMS	1	3	.250
NMRI	0	3	.000
Cardiology	0	3	.000

Overcoming a 10 to 0 lead with 11 runs in the last two frames, NDS won their first game by edging NH Doctors 14 to 13. Dental's Walker was unable to locate the platter and walked the first five men. Dr. Giorgio's four-bagger cleared the sacks and when the smoke had settled, the Doctors had raced to a 10 to 0 lead. "Tiger" Beckley assumed the mound chores for NDS and held the losers in check while his teammates pecked away at the offerings of Dr. Drickman to gain their margin. Some very costly miscues in the last two innings by the Doctors gave Dental opportunities on which they capitalized.

In a free-scoring contest Surgery won their second game by topping the NDS Officers 15 to 12. Surgery countered on 16 hits, three each by Maas and Taylor. Jim Day held the losers to 7 hits but was bothered by a sore back which caused him a couple of streaks of wildness. However, he was tight in several pinches to maintain the winners' edge.

In an abbreviated 6-inning affair, Qtrs. 12 "B" laced their arch rival, Qtrs. 12 "A" by a 9 to 1 score. Taking a liking to Tom Dias' offerings, the "B's" scored twice in the first two and thrice in the third to give them plenty of room for the win. Pat Wynne, with two base-clearing doubles and five RBI's, led the attack. Gilman, making his final appearance, held the powerful swingers of "A" in check throughout. Cardiology, minus their flinger, Schooneas, for five innings, lost their third straight to the lusty swingers, NH Doctors, by a 7 to 3 score. Singles by Drs. Pittard and Hall followed by a double by Dr. Smoak and a triple by Dr. Bishop, gave the Doctors a 3 to 0 lead. They increased the lead in the third inning to 5 to 0 as Dr. Pittard came through with a timely single to rescue two teammates who had reached via the error route. Dr. Drickman hurled a

Varsity Softball Schedule

Below is a revised softball schedule. Home games are listed

June 11
Naval Proving Grounds, Dahlgren vs. Naval Medical Center
June 13
Fort McNair vs. Naval Medical Center
June 18
Naval Medical Center vs. U. S. Naval Air Station, Anacostia
June 20
Naval Medical Center vs. USS Williamsburg
June 25
Army Medical Center vs. Naval Medical Center
June 27
Naval Medical Center vs. bye
July 2
Patuxent Naval Air Station vs. Naval Medical Center
July 4
Naval Medical Center vs. Skymasters (MATS)
July 9
U. S. Naval Radio Station, Cheltenham vs. Naval Medical Center
July 11
Naval Medical Center vs. U. S. Naval Proving Grounds, Dahlgren
July 16
Naval Medical Center vs. Fort McNair
July 18
U. S. Naval Air Station, Anacostia vs. Naval Medical Center
July 23
USS Williamsburg vs. Naval Medical Center
July 25
Naval Medical Center vs. Army Medical Center
July 30
Bye vs. Naval Medical Center
August 1
Naval Medical Center vs. Patuxent Naval Air Station
August 6
Skymasters (MATS) vs. Naval Medical Center
August 8
Naval Medical Center vs. U. S. Naval Radio Station, Cheltenham
August 13
U. S. Naval Proving Grounds, Dahlgren vs. Naval Medical Center
August 15
Fort McNair vs. Naval Medical Center
August 20
Naval Medical Center vs. U. S. Naval Air Station, Anacostia

steady 5-hitter and was never in trouble.

X-Ray won their fourth straight via the forfeit method as Lab 16 was unable to field nine men.

NDS Officers came through in the last inning to topple NMS by a 6 to 5 score. Coasting along into the final frame, sporting a 5 to 2 bulge, Dr. Nelson lost control and with the aid of four free trips coupled with a lone single, NMS tied the score. However, Dr. Nelson coaxed Rundell for a walk to open the bottom half of the seventh and wheeled around with a winning score on Dr. Housekeeper's bingle.

Qtrs. 12 "B" won their third straight when they handed the Researchers their third straight defeat 17 to 5. The winners' flinger, Havens, had an easy outing as his mates took to Cecchini's pitches in the first inning to bash out 6 singles which accounted for six runs. They added 4 more in the third, two in the fourth and 5 in the 5th as they scored easily. Talbot with three safeties led the losers.

In a thriller the NH Doctors reached the .750 mark when they eked out a 10 to 9 win over Surgery. Capitalizing on the wildness of Surgery's Sanders, the Doctors opened a 5 to 0 lead in the first two innings. Jim Day took over and held the winners in check well, except for two-run outbursts in the 4th and 6th frames. Meanwhile Surgery got to Drs. Ward and Drickman and as they came

D. C. Recreation Office Archery, Tennis Lessons

The D. C. Recreation Department is offering lessons in archery and tennis for both men and women. There is no charge for equipment or lessons for archery. Tennis lessons are offered for \$1.00 per session.

Archery instructions are Mondays and Fridays from 7:00 to dark at the 16th and Kenning Street archery range. After lessons and practice, teams will be formed from the groups and a tournament will be conducted in the early fall.

Tennis instructions are Saturday mornings from 10:00 to 12:00 and on Wednesday, Thursday evenings from 18:00 to 20:00. You may register at the Department of instruction.

For further information phone the D. C. Recreation Department, ADAMS 2050, extension 11.

to bat in the last half of the they trailed by a single tally. However, Dr. Ward had evidently saved his best pitches as he set up down 1-2-3. Taylor skied to Carlin, Kemp went out on a hopper to Dr. Ward and Maas ed things by missing a third strike.

Owing to the necessity of several postponements due to intramural participants playing for the Varsity, the schedule is being revised to contain changes—a minimum

Butterfield Says Duty is Very Good

Barbara Butterfield, MSC, is the busy Wave officer who is being Assistant Serologist NMS holds down the titles of Barracks Officer and Assistant Waves Representative.

Her energetic Lieutenant finds outside of her official duties to be one night a week to the Federal Choral Society in Washington, D. C. (a recreational chorus which holds concerts at Conception Hall twice a year).

Combining two of her hobbies, geography and horseback riding, Butterfield can show many 35 colored slides of her pack trips in Colorado and Idaho where she spent some of her leaves. Besides riding she enjoys swimming, and can often be found out fishing with the Waves basketball or softball teams.

Born in Albany, Ore., she attended grammar and high school in Umbra, Calif. After graduation from Pasadena Junior College, received her AB degree from Santa Clara College, Calif., where she majored in premed. She took her laboratory technician's training at Angeles County Hospital before entering the Navy.

Commissioned April 1944, Miss Butterfield served as assistant laboratory officer at the Naval Hospital, Seattle, Wash., and then went to civilian life.

In September of 1948 found her in blues again as LTJG, R., working in the NNMCM Bank where for two years worked under the supervision of Engelfried, the chief serologist at that time.

"His particular duty is very great deal to do with my designation over to the regulars 49." Advancement to LT in August of 1950.

Known to the Waves as an "who is never too busy to have an active interest in the barracks as well as the personal problems of the girls themselves, Miss Butterfield has earned a position of respect among the enlisted Waves.

Center Chatter

By Frank Winn

You're too late girls. "Freddie" Fredericks has set the date for August 11 with George Funk slated to be the best man.

May 29th Allen E. Smith departed from our happy home for FMF. We all wish Smitty the best of luck in his new assignments. Smitty wasn't here very long but was liked by all.

An addition to the Disbursing Office staff is Ruth Puffer, DKC, who reported for duty from San Diego, California. Originally assigned to NAS, Anacostia, D. C., Ruth's orders were modified to report here to fill the vacancy created when "Ginny" Jones, DKC, received orders to the NADO, Long Beach, California.

Also joining our midst on May 29th was Ralph C. Pedersen, HM1. Pedersen reported from the USS Jason, a repair ship. This will be his second tour of duty at NNMCM.

The absence of Clark Devol, HM3, who is now on the sick list, is very conspicuous around the barracks. Now we have no trouble identifying his twin brother Gene. And that isn't all. It sure seems good to get a good night's sleep. Just the same, all of us are hoping for a speedy recovery.

The Command party May 28th was a great success due to careful planning by Eric Taylor, HMC. Thanks Chief, the refreshments were tops.

Leading Gaithersburg's hitting attack two weeks ago was our own Frankie Belken. Belken garnered three hits in five trips to the plate and handled several fielding chances flawlessly. NNMCM has produced three regulars to the Gaithersburg lineup in Tom Brothers at third base, George Funk behind the plate, and Belken at short.

THE NNMCM supporter of the Washington Senators is beginning to wilt under the pressure along with the Nats as the Yanks and Chisox begin to make a runaway of the American League race.

All eyes are again on the bill before Congress to give the president authority to extend enlistments one more year. Included in this bill is a stipulation concerning a 17-month tour of active duty for reserves. Steen, HN, is the short-timer of the crew if this extension is not put into effect, with his enlistment expiring on July 12.

Boston Cheers Paralyzed Vet

Boston (AFPS) — Twenty-six-year-old Bob Grant cried when he heard "Evening Prayer" being played by the Boston Pops Symphony Orchestra. So did many women seated in the audience at Symphony Hall.

Grant, a paralyzed Navy veteran, wrote "Evening Prayer." He picked it out with one finger at the insistence of Mrs. Charles Davidson, a Red Cross Gray Lady.

The song tells of a man who cannot walk, giving thanks to God for the gifts he has.

Arthur Fiedler, conductor of the Pops Orchestra, played the song through a second time while the audience stood on its feet and cheered the young composer.

Grant's reaction was given in his statement: "It was the greatest night of my life. This happening to me is out of this world. It just can't be true."

"It was Swim or Sink" Says Mr. Toothman

Although swimming lessons usually are difficult for the beginner, Aubrey K. Toothman received all his lessons wrapped in one package. When 13 years old he was wading across the Ohio River, below the McMechen Dam and did not notice that the locks were open. The undercurrent carried him out into the middle of the stream where "it was learn to swim or go down." "I learned to swim," he added.

Mr. Toothman is the assistant foreman of labor cleaners and elevator operators—a total of 69 janitors and 11 elevator operators. He is a native of Fairview, W. Va., where he remained until he was 16. "I've always had the roaming urge in me," he said, "so I packed up and settled in New Philadelphia, Ohio."

Here Mr. Toothman worked for the Pennsylvania Railroad Company as a crewman on a wreck train. He witnessed a 60-car pile-up in 1929. The train was loaded with grain—it took two weeks to clear the mess away. Also in New Philadelphia, he worked as the single operator of the Nehi Bottling Co. "I also, with my other jobs, filled in as truck driver."

In 1931 he got the urge to move again. "I just happened through Washington and I liked it, so I settled down and decided to make it home." His first job here was for the Rock Creek Ginger Ale Co. where he stayed for eight years. In 1932 he was married to the former Rosalie Shraff of Martinsburg. He has a 15-year-old son, Harold.

In 1939 he worked for the Tru-Blu Beer Co. His government work began in September of that year when he took a job as a laborer at N. I. H. There he worked for Mr. McGahren who was later the foreman gardener here. At N. I. H. he worked at various jobs until he was put in charge of the janitor force. In 1942 he transferred here as night supervisor—in October 1943 he assumed full charge.

Canadian, Five Others, Graduate from Isotope Therapy Course

Graduating with the Radioactive Isotope Therapy Class was William E. Noel, P1RR4 (first class petty officer in radiography) of the Royal Canadian Navy. His rate entitles him to wear a uniform similar to that of a USN chief. Noel, originally from Victoria, B. C., has been in the Canadian Navy for 10 years. At present he lives with his wife, 12-year-old daughter, and 6-year-old son in Viers Mill.

Noel, who commented that there isn't too much difference in the two Navies except in size, said, "If it weren't for the difference in uniforms, I'd think I was right at home. Our Navy is very small compared to the USN." He went on to say, "I think the United States has as many corpsmen as we do sailors in our whole Navy."

Not Much Research Involved

By R. Conaway

It is commonly assumed that the Institute is a sort of ivy tower affair that is out of the realm of ordinary interests.

As a matter of fact, it presents an interesting variety show and anyone at all interested in medicine will find many items of interest at NMRI, and it might be a good idea to get better acquainted with the place. Buttonhole some friend or acquaintance who works there and let him arrange a visit; or call up the Institute and ask that a tour be arranged.

It might be of interest to note that far from being isolated, the Institute cooperates with the hospital and various schools in certain projects, furnishing lecturers and consultants.

It is working together with the hospital on isotope programs and will cooperate extensively in therapeutic application of high voltage X-ray as soon as the new 2 million volt Van de Graaf Generator is installed. Institute personnel under CDR F. W. Chambers, Jr., MSC, USN, are now making arrangements to effect installation of this Generator, which is to be housed in the strange looking building which can be seen outside the end of Ward 103.

Aboard and Ashore

Chief S. O. Tolar's relief as CMAA has arrived in the person of HMC C. T. Ashcroft. The Chief is busily briefing his successor on the Ins and Outs of the Institute, with special emphasis on the "Special Liberty" excuses. Looks like we will have to think up brand new reasons for a "Mid-Week Holiday." Taint fair!

Another recent arrival is W. Chapman, HN, from Camp Lejeune, N. C.

P. L. Davis, HMC, from Radiation Technology, left May 29 for Dispensary Duty at USN Proving Ground, Dahlgren, Va. Hear tell the fishing is pretty good down there, and next to golf, that is Dave's favorite pastime.

News Flashes

Homer E. Jones, SN, who recently said "I Do" to a preacher in Arkansas, has repeated those fatal words once again; this time to the CO as he shipped over for another six years!

Speaking of "I Do's," Chief J. H. Pierce and the former Miss Frances Payne from hematology department are off on a three-week honeymoon tour of the midwest; and with this last bit of information I, too, am off; till next issue, that is!

Navy Nurse Wants Hospital Ship Duty

"We was robbed!" Here is a distinctive phrase applied by those people coming from that country within a country, Brooklyn. If the pretty Miss Doris Friedman has never said this, she must have thought it plenty—she's a Brooklyn baseball fan.

Miss Friedman is a 22-year-old Ensign who just recently arrived at the Center for duty. She came to us from St. Albans where she took her indoctrination. At St. Albans she worked in Surgery, SOQ, and Neurosurgery. She arrived here May 19 and is working on Ward 6C.

She attended the New Utrecht High School in Brooklyn, graduating in 1946. After about a year she decided to go into nursing. For this training she went to the Long Island College Hospital for three years. Her next employment was at the Willar Parker Hospital in New York City where she was in charge of a mixed infectious disease ward (children). She joined the Navy in January 1951.

One of her favorite pastimes is sketching. She does work in charcoal, pencil and pastel. When asked what she liked to sketch best she said: "I'm very temperamental in that respect—whatever moves me I sketch. It may be a landscape or a human figure, depending on how the subject impresses me." Still on the hobby side, she likes to travel by car, "just anyplace."

She has still other interests. She loves horseback riding, tennis and swimming. Reading is probably one of her favorite hobbies. She likes serious novels best and some non-fiction.

"I would like to do duty aboard a hospital ship," Miss Friedman said. When asked why she desired this, she answered that she was "just a sailor at heart."

GENERAL ORDERS OF A SENTRY

Who's Who in Defense

CAPT Joy Bright Hancock, USN
Director, Naval Women

Appointed Director of Women in the Naval Service and promoted to rank of Captain, July 26, 1948.

Born in Wildwood, N. J., May 4, 1898 . . . Attended George Washington University, Crawford Foreign Service School, Pierce School of Business Administration, Paris Branch of New York School of Fine and Applied Arts, and Henry Berliner Aviation School.

Served as yeoman first class and chief yeoman in the U. S. Naval Reserve Force during World War I at New York Shipbuilding Yards and at the Naval Air Station, Cape May, N. J. . . . Mustered out of service in 1919 and became civilian employee at Naval Air Station, Lakehurst, N. J.

In charge of Editorial and Research Section and was Special Assistant to the Chief in Bureau of Aeronautics, 1934-1942 . . . Commissioned lieutenant, Women's Reserve, U. S. Naval Reserve, 1942.

Appointed Women's Reserve Representative for BuAer and for the Deputy Chief of Naval Operations (Air), 1942 . . . Assistant Director (Plans) of the Women's Reserve, 1946.

Sworn into Regular Navy October 1948, with temporary rank of Captain and permanent rank of Lieutenant Commander.

CAPT Hancock has been twice married. Both her husbands were killed in dirigible crashes. The first, LT Charles Little, killed in crash of the ZR-2 in England, 1921, and the second, LCDR Lewis Hancock, killed in crash of USS *Shenandoah*, 1925. Both were holders of the Navy Cross. A destroyer, USS *Lewis Hancock*, was named for her second husband.

Letter of the Week

Dear Matt:

You used to have a uncle a lawyer and you are an old friend. I would like help. My husband, Dan, wants to be a sailor again and hang around the USO with the piano in his new uniform showing off. He is getting me monopolies listening to his talk and says I will get some allot money and keep my mouth shut you old battle-wagon. I don't like his latitude and got no gredients against the navy, but I don't think he can be a sailor again because he has syracuse veins and both legs are shorter than the other. Thats my sediments anyhow. When I was sick in bed last month with all the heat and humidity he kept singing 'Ankles Away' and throwing salt water all over the house. My daughter Annie has a bosoms whistle he brought her home and I am crazy from the want of fear because she keeps blowing the thing all day and says she wants to be a SQUAW or something when she grows up. Do I have to let him be a sailor again? He acts a little homby and gave me a womens form to fill out with 2 wetnesses. Give me some dope. I am a fiscal wreck. Hope you are the same.

Louise B.

Med School Scuttlebutt

By O. C. "Skip" Skinner

The third deck crew has finally got some help, and can start taking things easier now. Lab 16 is finally in practical and so far has been doing a grand job.

The Med School "Terror" ball club is slipping slowly towards the bottom. Many of the star players have been transferred or have the duty on the night of the games. Of course, we must remember last year when we didn't win a game the 1st round and came back to a fast 2nd in the 3rd place for the season. Maybe we can do it again.

Rundell is still the sole man for the pitching assignment; Smith was taking his turn on the mound until orders arrived. Wetzel is still playing good ball in the centerfield slot, while Haus is at first base for the second year. "Lazy" Morrison is holding down the second sack and the rest of the positions are being held down by Sandoval, Waters, and DeJohn, who all are good utility players and can do anything except pitch.

John Gray, HMI, has developed an new nickname due to his recent visit to the sick list. He is now know as "Tachy" Gray.

Gene Merklein is still wondering when he's going to be a father. It will be any day now, but he can hardly wait.

Lab 17 has finally found Bethesda's chief beauty spots such as Bassin's and the Red Fox, and from the latest rumors their grades are showing as much.

The Med School picnic was a big success, plenty of beer, cokes, hot dogs, and black eyes, were passed out.

Lacy!

AFPS

ABSORBING the utmost from the health-giving rays of the sun is pretty Corine Gustafson. The black swimsuit is made of gossamer-fine lace and latex. Folks at Miami Beach were the lucky on-lookers.

Corpsmen Awarded Honors for Korean War Performance

The Navy's Medical Department personnel serving with the Marines in Korea have been awarded the following decorations for outstanding performance of duty while in action against the enemy.

Silver Star Medal

Paul D. Price, Hospitalman, USN, 3725 South Blair Street, Corona, California.

William W. Graham, Hospitalman, USN, 4357 39th St., San Diego, California.

Legion of Merit

Captain Bernard R. Reinertsen, Medical Corps, USNR, 475 Vassar Street, Berkeley, California.

Commander Howard A. Johnson, Medical Corps, USN, 156 Detroit Street, Norco, California. (Authorized to wear the combat "V")

Bronze Star Medal

Frank E. Vernarsky, Hospital Corpsman First Class, USN, 701 Maple Street, Warren, Ohio.

Eugene P. Vasusky, Hospitalman, USN, 6000 Forest Avenue, Gary, Indiana.

Harold H. Gipson, Hospitalman, USN, Marion, Ohio.

Lieutenant Commander Lawrence E. Banks, Medical Corps, USN, 1714 30th Street, Sacramento, California.

Peter C. Hegquist, Hospital Corpsman First Class, USN, 40 Flamingo Road, Levittown, Long Island, New York.

Letter of Commendation

Chief Warrant Officer Charles W. O'Brien, Hospital Corps, USN, 817 East 36th Street, Long Beach, California. (Authorized to wear the Combat "V").

Warren F. Kirby, Hospital Corpsman Second Class, USN, 1031 S. Walnut Street, Inglewood, California.

Theo. W. Whittley, Hospitalman, USN, Barksdale, Texas. (Authorized to wear the Combat "V").

Howard C. Gordy, Hospital Corpsman Third Class, USN, 1805 Starwood Avenue, Toledo, Ohio.

George R. Williamson, Hospitalman, USN, 269 Highland Avenue, Kearney, N. J.

Lawrence A. Westerfeld, Chief Hospital Corpsman, USN, 928 North Hill Street, Oceanside, California.

Alfred Kielwasser, Hospital Corpsman First Class, USN, 161 Park Street, San Francisco, California. (Authorized to wear the Combat "V").

Purple Heart Medal

Carl E. McGiffin, Hospital Corpsman Second Class, USN, 542 Myers Street, Toledo, Ohio.

Raymond G. Christman, Hospital Corpsman Second Class, USN, RR 1, Monroe, Indiana.

Diaper Derby

May 19—Diane Marie Bova, 5 lbs., 11 oz., daughter of HMC Joseph A. Bova, Chemistry School, NMS.

May 25—Karen Joan Buchanan, 6 lbs., 8 oz., daughter of LTJG George C. Buchanan, MC, USNR, Staff, NH.

Laugh Awhile

A drunk was trying without success to unlock the door of his house, when a passing policeman asked if he could handle the key for him.

"Nope," the drunk replied. "I can handle the key. You hold the house."

Exercise kills germs but the trick is to get the darn things to exercise.

Popcorn-Biggest Thing in Movie Says Son of Actor Wm. Powell

"The biggest thing in the movies today is the quality of the popcorn." With this joking remark LT William David Powell, USMC, patient on T-8, the son of the famous actor, opened a discussion on the place of the movie industry today.

Still on the subject of pop corn, LT Powell said, "In Baltimore, at time, a group of theatres had received new soft drink machines."

owners of the theatres decided some competition to see who could sell the most drinks. They pool about \$2000 and the contest ran specified course. The winner, very resourceful man, explained how he managed to sell twice much as anyone else: he salted pop corn to capacity and turned the power down on the was founts."

On a more serious vein, he said "The general level of pictures infinitely better, because Hollywood has more competition now."

This is a second tour of duty. LT Powell. He first joined in 1941 went to school under the V-12, did duty in Parris Island, Camp Lejeune, and Quantico where, 1945, he was commissioned as Lieutenant. He was sent to Diego as an instructor in weapons—"Here I was trying to teach battle-hardened marines to use an automatic rifle!"

In November of 1945 he was charged. Princeton followed where he received a BA degree. Almost immediately he followed the footsteps of his father, though not as an actor. He went to work for Warner Brothers in the studio department and in two years became Assistant Story Editor, then switched to Universal where he remained until his present call to active duty a few months ago. At Universal he worked way up to Assistant General Manager.

Mr. Powell is married to In Booth, former radio and TV tress. The family is presently limited to two, but an addition forthcoming—about August.

Another member of the Powell household is Strathrok Graybeard Sandstar III, otherwise known "Sandy". She is a whippet according to Mr. Powell, a reg show dog—when the cameras turned in the opposite way when the judges' backs are turned.

to Deitch and Salisbury. Deitch is working in the bacteriology department. Salisbury working in Chemistry. The dope was that she was running TPAG and BUN run. Is that Doris? Keep your eyes open your hands steady.

Some of the boys managed to blood bank school. A couple have already started on the journey thru a course of R.I.T.ives and negatives. "Don't shook; read your book."

Lab 16 Under High Pressure

By The Thing

Well Hello there. Haven't had enough of our scuttlebutt yet have you? Well maybe this time we can discourage you.

We have finished all of our theory in the class rooms and now most of us are in the laboratories, trying to piece together what was taught us by the very patient instructors. If it weren't for the cough drops, Chief Thrasher would never have finished out the eight weeks. Maybe if there were combs for certain Chiefs they would be spending all of their time combing what little hair they haven't got. That would have prolonged the classes a little.

Most of us are satisfied with our new assignments. The few who went to blood collecting are really enjoying their little stay there. I bet they never knew that there were so many needles and syringes in this hospital. Oh well men, it's not forever.

The couple of boys who went to Chemistry are really going at it. Isn't that right, Duke? Urinalysis, too, has its daily share of the work. The boys in pathology, especially Reese, have a high respect for that place after holding an inventory in the pathology archives in Barracks 40.

The men in parasitology see more parasites now than they ever thought was possible. Ask Muscles O'Neil. Many of you readers may be wondering what happened

Don't wake him up yet . . . this is the best show I've seen long time."

AFPS

Aviation Psychology Committee Meets Research Institute; New Chairman

The Executive Sub-Committee of the National Research Council's committee on Aviation Psychology met at the Research Institute Monday, June 18.

This committee on aviation and psychology has been actively engaged in direction of research during the past 12 or 13 years and has conducted an enormous amount of highly important research for the Navy and the Aeronautics Administration.

Funds for this work are provided by the Medical Department of the Navy and the Research Division of C.A.A.

During the past several years, Morris Vitell of the University of Pennsylvania has been the chairman of this committee which included many eminent psychologists. At this meeting the chairmanship was transferred to Meredith P. Crawford of the University of Maryland.

CAPT Wilber E. Kellum, CO, NMRI, and CDR Norman L. Barr, NMRI staff, have been members of the Executive Sub-Committee for the past few years.

One Thin Dime Works Double Time, Wins Bachar 1951 Ford

John S. Bachar, HM3, of the EENT department, was like many other sailors: saving his money toward the down payment on a car. Well, the nest egg was almost large enough to make a down payment, when it all happened.

Bachar got adventurous and bet a dime on a game at the Bethesda-Chevy Chase Carnival. He won. He bet his winnings—and won. This went on until he worked his thin dime up to the tune of ten dollars worth of tickets on the '51 Deluxe Ford which was being raffled. Lo and behold, he held the lucky ticket! He was richer by a new car.

Bachar was so excited about his streak of luck that "I didn't sleep a wink that night." And who could?

1st Place Awarded to NNMC Exhibit

LT G. W. Hyatt, NMS, LTJG A. L. Bassett, NMRI, and LTJG C. Turner, NMS, who attended the AMA Convention in Atlantic City and presented the prize winning exhibit shown above.

NNMC's exhibit entitled "New Methods of Preserving Skin, Bone and Blood Vessels" was awarded the Certificate of Merit for first place in the orthopedic section of the AMA convention in Atlantic City, N. J., June 15.

In addition to the exhibit a paper titled "The Use of Preserved Tissues in Orthopedic Surgery," written by CAPT F. P. Kruz, formerly of NH; LT G. W. Hyatt, NMS; LTJG T. C. Turner, NMS; and LTJG A. L. Bassett, NMRI, was presented.

These doctors work as a group on the job of evaluating experimentally new methods for preserving tissues and apply the methods at a controlled clinical research level through the NMS Bone Bank.

This exhibit represents two years' combined effort of NMS and NMRI personnel under the cognizance of CAPT B. W. Hogan, CO, NMS, and CAPT W. E. Kellum, CO, NMRI in cooperation with the orthopedic and EENT services of the Naval Hospital.

Contributing heavily to the project have been CAPT F. P. Kruz, former Chief of Orthopedics; CDR C. R. Carr, Chief of Orthopedics; and CAPT A. J. Delaney, OinC of EENT. The actual exhibit was designed and made possible by the Audio-Visual branch of BuMed.

News Shorts From The Editor's Desk

Local postal clerks advise that scotch tape should not be used on articles intended to go as registered mail.

The Defense Department has increased the monetary allowance authorized for families of deceased Service personnel for burial expenses. The new allowance is \$125 for burial in a private cemetery, and \$75 maximum for burial in a Post or National cemetery. Previous allowances were \$75 by Army and Air Force for burial in a private cemetery; no allowance for burial in a National cemetery. The Navy previously authorized not to exceed \$75 regardless of cemetery in which interment was made.

Junior officers under instruction in the Basic Course in Naval Medicine left June 16 for a field trip to New London, Conn. to study medical aspects of submarine warfare. The 31 officers attending planned to stay for a week or 10 days.

A five-day course in "Medical Aspects of Special Weapons in Radio Active Isotopes" was held at NNMC June 18-22. Approximately 150 U. S. and Canadian Naval, Army, and Air Force officers, as well as civilian public health officers attended.

CDR J. R. Kinston, NMRI, has been granted a degree as Dr. of Public Health by Johns Hopkins University. CDR Kinston has been on detached duty at Johns Hopkins during the last year working as a research associate on virus diseases under the direction of Dr. T. G. Ward.

The Fourth Annual Seminar of the Naval Research Reserve, Office of Naval Research, visited NNMC June 19. They assembled in the auditorium, Bldg. 141, where CAPT W. E. Kellum, CO, NMRI, gave the welcoming address.

Admirals vs. Skymasters In July 4 Home Game

Staff and patients will have an opportunity to see the NNMC varsity in action here on the Fourth of July at 1430. The Admirals will play a game against the Sky Masters (MATS).

The game is a league game and will be played on the varsity diamond No. 1. It is hoped that ambulatory patients and those able to get around in wheel chairs will be out with the staff rooting for the home team.

Roy Wilkes, William Breese Make CPO; Initiated With Traditional Trough

R. W. WILKES

W. W. BREESE

One of the biggest steps an enlisted man makes during his Naval career is the big jump from white hat to chief. Two NNMC men are mighty proud to be taking this big step. They are Roy W. Wilkes, Jr., of NNMC Command and William W. Breese, of the Optical School, NMS. The appointment to CPO became effective June 16, 1951.

CAPT W. E. Kellum New CO of NMRI

CAPT Wilber E. Kellum, MC, USN, assumed command of NMRI at 0830 June 20, relieving CAPT Charles F. Behrens, MC, USN.

In the Navy since 1928, CAPT Kellum has had a unique and unusually wide variation of duty assignments including duty on the battleship USS Maryland, the aircraft carrier USS Saratoga and with the Naval Electro Mission in Nicaragua.

In 1939 he participated in the establishment of the School of Aviation Medicine at Pensacola and was the Officer in Charge of the school for two and a half years before coming to NMRI as Executive Officer.

Interested in the problem of anoxia (the condition suffered by aviators flying at altitudes where

(Continued on page 4)

"I've got the Chief-of-the-day the first day it becomes effective," said Wilkes. He is a native of Columbia, S. C., and joined the Navy in 1942. After boots in Norfolk and HCS at Portsmouth, Va., Wilkes was sent to USNH Jacksonville, Fla., and subsequently to the Mobile Hospital Unit No. 10 on Banika Island where the unit took care of evacuated casualties. After a stint on the USS LCI 332, he returned to the States in 1945. He attended HCS, Intermediate Course in Portsmouth, Va.

Before being transferred to NNMC in May of this year, Wilkes served at the Naval Hospital, Philadelphia; Malaria Control Unit, Camp Lejeune, N. C.; NAS, Norfolk, Va.; NAAS, Chincoteague, Va.; USS Hazel, AN 29; NH Coca Sola, Canal Zone; and staff, HCS, Bainbridge, Md.

Second to take the advance is William W. Breese, a native of Compton, California. Breese also joined the Navy in 1942, attending boots and HCS, San Diego.

As is the lot of many corpsmen, Breese was assigned duty with the FMF and participated in operations against New Georgia and Guam.

In 1944 he was sent to the Philadelphia Navy Yard and later to Optical School in Brooklyn. After a tour of duty at the dispensary, Washington, D. C., Breese was sent to the USS Repose, AH 16. The Repose is still in Pacific waters. In April of this year, he was ordered here for a course in surface grinding at the Optical School.

Both Wilkes and Breese are to be commended and congratulated on their recent advance in rating. CPO is certainly and justly the enviable goal of many. But probably the feeling of these two men is better expressed in Breese's simple statement: "Darn happy!"

Marine Marries Here

Cpl. Peter Myers, Korean casualty from 3-C, married Joan Olson of New York City in the Protestant Chapel here June 12. The ceremony was performed by Rabbi Kaufman at 2100.

At the reception immediately following in the Chaplain's office, sandwiches and cake were furnished by the Jewish Welfare Board, and the Red Cross supplied the punch. Flowers were provided from the NNM green house.

The Chaplain's Corner

By Chaplain P. J. Marron

The Habits of Life

It's a well-known saying that everyone talks a lot about the way, but nobody does anything about it. The same can be said about habits of our lives. We all know that we have certain habits; some of us talk about them, but few of us actually do anything constructive about them.

Perhaps this is true because we do not realize the importance of habit in our lives. Put this down and mark it well: nothing is more important than our habits. Describe a man's habits to me and I can give you a pretty clear picture of the man's personality and character. As someone has said, "An act oft repeated becomes a habit. A habit comes a character and a character determines our destiny."

Habits rob us of our true freedom because we tend to substitute habit for thought. Something that starts as a mere inclination becomes a habit through habit a part of our lives. We cease to solve certain problems through on the basis of their merits, clearly and without prejudice, because we are in the habit of acting a certain way. We have developed good habits down through the years, all well and good. But many of us have through carelessness or disinterest developed bad habits.

Most people want to improve their personality and life. Like the rich, young Ruler in the New Testament they sense a certain lack in their lives. As proof of this witness the astonishing success of such books as "Peace of Mind", "Peace of Soul" or any of the "ten easy lessons" on effective speaking, being the life of the party, playing piano, telling jokes and so forth.

The tragic fact is that we cannot change the real self by taking "easy lessons." For call it what we will, in the struggle for personality and character we are up against a very real force of evil in the world. The philosopher Plato thought of himself as driving a chariot with two horses, one white and eager, the other dark and evil. Goethe's Faust said, "Two souls, alas, are lodged within my breast." The incomparable St. Paul said, "The good which I would, I do not; but the evil which I would not, that I practice . . . wretched man that I am." And of course we are all acquainted with "Dr. Jeckyl and Mr. Hyde."

Any improvement that we may make is only a surface affair if we go deeper; until we change our thoughts and habits. True progress will come only when we examine our own lives before God and make a change within based upon eternal values. Such an inner change results in new habits and a new life.

We can take no better example for our lives than Jesus, The Christ. In our Bibles we read that when as a child he was lost, his parents sought him in the temple. "Wist ye not that I must be about my father's business?" Later in His life we read of Him, "As His custom was He went into the Synagogue on the Sabbath Day." In His own words, "My meat is to do the will of my Father." When others who knew Him said of Him they said, "He did always the things which pleased His Father" and "He went about doing good." He had the habit of love, kindness and faith in Almighty God.

The early Christians were known by their habits. They were called "followers of the Way." That was their habit—"may it be ours," should be our prayer.

Moon Garden

*Because the moon is silent now, and all
The night is tense, exaggerating sound
To heights of mystic feeling never found
Before, I wait beside the even fall
Of shadows. Stretch a hand into the dark,
Expecting what? I do not know; yet care,
As fond remembrance still will let me dare,
Will search the shadows for a silken mark.
Here long ago, on such a night as this,
I found eternity within a glance,
As in the brittle sky, noon's waning dance
Recalls the magic of a single kiss.
Oh Swan of night, and spell within your arc,
Why do you kindle what was just a spark?*

—RONALD BOURGEA, NNM

Three Chaplains Arrive As Three Receive Orders

Senior Chaplain H. G. Gatlin announces the arrival of three new chaplains to replace Chaplains Finan, Austin, and Sassaman.

Chaplain Bronnie E. Nichols, LT, USNR, Baptist, from Tuscaloosa, Ala. arrived here for his first duty station since coming back from the reserves.

Chaplain John J. McGowan, LCDR, USNR, Catholic, arrived here from Oceanside, Calif. after returning from Korea. Chaplain Robert L. Patton, LT, USNR, Methodist, has also just returned from duty in Korea.

Chaplain Arthur P. Finan, LCDR, USNR, Catholic, left June 8 for duty at NOB, Norfolk. Scheduled to leave soon for sea duty are Chaplains Leroy C. Austin, LT, USNR, Congregationalist, and Robert S. Sassaman, LCDR, USN, Lutheran.

Crew's Library:

Frank Yearby's Fancy Among New Novels

A WOMAN CALLED FANCY is the latest by Frank Yerby, one of the best selling of all American historical novelists. It is the story of a carnival girl who outraged but bewitched the aristocracy of Georgia in the 1880's. Her provocative beauty brought her everything she wanted except the trust of the planter who married her for revenge.

THIS IS THE HOUR, by Lion Feuchtwanger, is a real event among historical novels, bringing to life the artist Francisco Goya and the Spain of Charles the IV. Goya's life long affair with the Duchess of Alba is recounted, as well as his rise from an artistic peasant to first court painter.

VENTURE IN THE EAST is Bruce Lancaster's latest book and it gives us a rousing story plus the authentic flavor of 17th century Japan in the days when the Dutch East India Co. had a rich but perilous foothold there. In spite of the rules which forbade a white woman to enter Japan, the heroine bribed her way in and became involved in a plot to seize the Philippines from Spain.

THE SCANDALOUS MRS. BLACKFORD is Harnett Kane's most exciting heroine to date; this fabulous American woman's love affair with the Grand Duke Nicholas of Russia electrified the world; she began life as a clergyman's daughter in Philadelphia, went on to the Parisian demimonde and then came the sensational romance!

THE RAGGED ONES, by Burke Davis, tells the sometimes pathetic but always heroic and dangerous effort of our Revolutionary Generals Greene and Morgan to outrun and outfight Cornwallis in the pre-

'No People Like Show People' Indicated As Artists Donate Time

Recently the patients and staff here were privileged to see two hits which were currently appearing in Washington. Mr. Roberts brought down the house and Paggiacci played to a very appreciative audience. You may have wondered how it happened that we were fortunate enough to obtain these excellent performances.

The Red Cross Recreation Department and the Navy Welfare and Recreation office have had many discussions and meetings with the Entertainment and Instruction Service of the D. C. Red Cross Chapter and the American Theatre Wing regarding entertainment for patients and staff. These groups are interested in bringing top shows and performers to the hospital.

They have found that there are "no people like show people" and that when they are made aware of the interest here and keen desire for good entertainment, they are happy to donate their services.

During the summer, the local entertainment schedule is naturally not very heavy. However, tentative plans are being made to bring the cast from Olney Theatre to present a play in the auditorium. When the fall season begins, we hope to have many top flight entertainers who are now being contacted regarding a personal appearance here.

Yorktown campaign. One is constantly reminded of the shortage of supplies, the haphazard enlistment and the looting by both armies or their deserters but there is also to be found a tender love story in these pages and a unique approach to history.

Shanty Town

Shanty town huddles in each city and community
Unabsorbing progress with unyielding immunity
On the wrong side of the tracks shabby, forlorn,
On the wrong side of life its tenants are born.

In a tumble-down shack there perhaps is a beauty
In flapping wooden shingles loosened with duty;
The warped grey boards or a broken-down step,
Crumbled chimney, weedy yard, littered, unkept.
In a huge sturdy oak spreading near the shambles,
The sagging picket fence where a rosebush rambles;
In twittering birds stretching soft restless wings,
Raggedy children scampering merrily at play,
Laughing, untouched by the impoverished way
Of life clutching them as their parents before,
Once children who romped by another shanty's door.

Still a beauty persist—in each shanty is found—
Pathetic, undescriptive seeming all to surround,
Echoing in laughter of children at play,
In family folk-singing at ending of day.
In hearts young and old beating steadily strong,
From what source growing only to them belong—
On the wrong side of the tracks in shanties forlorn,
The wrong side of life where its tenants are born.

—GLORIA E. GOSNELL, NMRI

NNMC First Hospital Host To Grand Opera

The cast of the Philadelphia Civic Grand Opera Company, under the management of Mr. Anthony Terracciano, donated their time to present the opera *Pagliacci* and a ballet from *Carmen* to patients and staff at NNMC June 15. This was the first time grand opera was ever presented at any Naval Hospital.

For an audience made up in part of people who had never seen an opera before, the dramatic story of "*Pagliacci*" was well selected. It tells the story of a group of strolling players. Tonio, the clown, is spurned in his advances to Nedda, the leading lady and wife of Canio, the leader of the troupe. For revenge he leads Canio upon the scene to catch his wife with her lover, Silvio.

Unable to catch Silvio, Canio, overcome with a jealous rage, says the only reason he has not killed his wife is because he does not yet know the name of her lover.

The second act begins with the troupe presenting a play. Nedda ironically plays the part of an unfaithful wife and Canio, her outraged husband. Suddenly Canio throws aside all pretense at carrying on the plot of the play and passionately declares how he will defend his honor against the cursed woman he had saved from starvation when he first found and then married her.

Nedda still refuses to divulge the name of her lover and Canio stabs her to death. "You'll call the name in your death spasm!" he shouts—and as she falls dying, she calls on Silvio for help.

With drawn knife her lover rushes up to the stage, but he is too late. Canio turns on him, stabs him to the heart, and then, turning in stupefaction to the audience, lets fall his bloody weapon as he utters the famous last, spoken line of the opera: "The comedy is over!"

Largely responsible for procuring the show was Mrs. Curt Schiffeler, chairman of Entertainment and Instruction Service, of the D. C. chapter of the Red Cross, in cooperation with the NNMC Recreation Department.

20 Lectures for NSHA

During the current year the following personnel of the Bureau delivered lectures to the students of NSHA:

CAPT H. H. Montgomery, "Team Concept in Hospitals"; CAPT F. P. Gilmore, "Performance Budget"; CDR A. F. Bigelow, "Inspection Duty"; CDR E. E. Hogan, "Legal Medicine"; CDR E. C. Stone, "Staff Duty; Medical Plans"; CDR L. E. Hedgecock, "Venereal Disease Control"; LCDR W. C. Calkins, "Appropriations"; LCDR G. L. A. Johnson, "Industrial Health"; LCDR K. E. Schweinfurth, "Records Management Center"; LT D. E. Jones, "Team Concept in Hospitals"; LT A. W. Kenney, "Accident Prevention"; LT F. E. Stewart, "Food Service, Sanitation"; LT L. K. Thompson, "Armed Services Procurement Agency"; LT S. H. Zumbun, "Naval Hospital Photography Laboratory"; LTJG E. J. Morel, "Base Naval Establishment Plan"; LTJG J. P. Ray, "Venereal Disease Control"; CWOHC C. A. Murphy, "American Red Cross"; CWOHC H. W. Willard, "Public Relations"; Mr. T. J. Hickey, "Performance Budget"; Mr. J. C. Larson, "Organization"; and LTJG L. W. Burr, "Interdepartmental Organization of BuMed".

T H R E E

Upper left, Nedda's lover courts Canio's wife. Tonio, a half-wit man travelling with the roving players, sees this love scene and, even by his rancor with having been repulsed by Nedda in his own attempt, informs Canio of his wife's disloyalty. Upper right, Canio and Beppe pose with Pfc. John Hall. Lower left and right, the

second act is a play within a play. Here Canio breaks away from the lines of the play and accuses Nedda of infidelity. The tragic scene begins. Canio stabs his wife, thereby causing her to disclose, in her dying breath, the name of her lover.

Bethesda-Chevy Chase Rescue Squad Parade

Above is a representative group of pictures depicting the NNMC try into the Bethesda-Chevy Chase Rescue Squad Carnival. Three hundred corpsmen marched in the parade. The group was split into

two companies and was preceded by a Marine drill team and drum and bugle corps. The inset photo was one of the most hilarious entries in the parade.

Two World War II Amputees Visit Wards To Explain Artificial Limbs

Upper left: "They can't STUMP me, I hold my socks up with thumbtacks!" says Herman Pheffer World War II amputee to Phillip F. Fehr, SA. Fehr is an 18-year-old sailor from Oak Harbor, Ohio who lost his leg during maneuvers aboard the destroyer USS Charles H. Roan in the Atlantic.

Upper right: Pheffer and Lonnie Carberry, who has two artificial hands as a result of World War II injuries chat with Tommy T.

Hernandez, AN from Fernadina, Fla. paraplegic patient in 6-C who was injured in Honolulu.

Lower left: ENS Doris Friedman watches Lonnie Carberry light his cigarette with his artificial hands. "You learn to take it easy, and not try to hurry," says Lonnie.

Lower right: Carberry talks to Walter Hunter HM3, paraplegic patient from 6-C who was wounded by burp guns last November in Korea.

Herman Pheffer, who walks on two wooden legs, and Lonnie Carberry, who has two artificial arms, both World War II casualties, came to the wards here to talk to amputee patients. On a 30-day tour as a morale-building team sponsored by the American Legion, these two ex-army men talk to men who have similar handicaps and tell them how they met and overcame the problems which now face these men.

"It only took me two weeks to learn how to walk on my new legs," said Herman Pheffer, who lost one leg above the knee and one below in action in Italy. "I wanted to walk again, and I didn't waste any time fooling around."

Pheffer, who received his artificial limbs in November 1944, represented the American Legion as a consultant in the United Nations sessions at San Francisco the following spring. Since then he has worked in the Veteran's Administration of the American Legion in New York as a rehabilitation representative, handling insurance and claims.

Pheffer likes to tell the story of a friend of his in Salt Lake City who also had two wooden legs. His friend, a man of five feet six inches, became interested in a girl who was five feet eleven. The girl listed as his only drawback the fact that he was shorter than she. A resourceful man, he showed up a few weeks later six feet tall. He had ordered a new pair of legs longer ones!

The other half of the morale-building team, Lonnie Carberry, lost both his arms above the elbow from a mortar-shell wound in Chartres, France in 1944.

Discharged early in 1946, he worked for Northrop Aircraft in Hawthorn, Calif., doing research work on artificial limbs. He volunteered for this 30-day tour of the American Legion because "They came to see me when I was hurt and it helped to know I wasn't alone."

Asked how long it took him to master his artificial arms and hands, Carberry said, "You learn something new every day. It's up to the individual." He plans to return shortly to his wife and five-year-old son in Waco, Texas.

Pharmacy Class Graduates Here June 8

Front row (l. to r.): HMC A. Maitre, instructor; CDR R. L. Taylor, Officer in Charge, and HMC R. W. Torneby, instructor.

Second row: Sgt. W. J. Carroll, HM1 W. J. Saul, T/Sgt. J. E. Sazon, HM2 B. J. Ravetto, HM1 M. Jones, and HM1 R. Neuman.

Third row: HM1 C. R. Brown, HM1 G. C. Weber, S/Sgt. V. H. Kemp, HM2 C. E. Kaylor, HM2 C. R. Mayernick, HM1 J. Peters, and HM3 R. A. Farney.

Fourth row: HM1 M. S. Fernandez, HM1 G. A. Hajdu, HM2 J. J. Alexander, HM2 J. L. Hurd, S/Sgt. A. Jatman, and HMC N. J. Humphery. Not pictured: HMC J. J. Krensele.

Saul Comes Out High In Graduating Class

HM1 W. J. Saul took top honors in the pharmacy class which graduated June 9 with an average of 92.09. He was followed by HM3 R. A. Farney with 90.38 and HM1 M. Jones with 89.39.

The nine months' course includes 570 hours didactic and 870 hours of practical work. Graduating with this class were four Air Force men who were the first USAF members to attend medical schools here.

CAPT Kellum

(Continued from page 1)

oxygen is not sufficient to permit breathing) he helped develop one of the early oxygen masks and later worked on improvements of the mask and on other oxygen breathing equipment.

After a spot promotion to Commodore during the war, he relieved RADM M. D. Willcutts as staff Medical Officer and Fleet Surgeon to the Commander in Chief of the Pacific Fleet and Pacific Ocean Areas.

CAPT Kellum has been the executive officer of NMRI since early last spring.

NMRI Atomic Medical Division Studies Biological Effects of Atomic Weapons

By R. Conaway

The Atomic Medical Division of NMRI headed by CAPT R. H. Draeger, MC, USN is engaged in the study of the biological effects of Atomic Weapons both in the field and in the laboratory. Members of the division have participated in Operations CROSSROADS at Bikini in 1946, Operation SANDSTONE in 1948, and Operation GREENHOUSE 1951. Emphasis to date has been on the biological changes induced by radiation such as X-rays, gamma rays and neutrons; however, flash-burns and blast studies are also being made. Thermal studies are being carried out by Dr. T. S. Ely and blast studies by Mr. Fred Harris.

A gamma ray irradiator utilizing a large amount of radiocobalt to be obtained from the AEC is to be housed in a well shielded laboratory building located at the north end of the animal laboratories. This equipment will serve to administer uniform total body gamma ray irradiation for experimental purposes. Mr. Frank Whitten has been active in the engineering of this project and in the

design of equipment for field tests.

The Atomic Medical Division so collaborates with other divisions of NMRI in planning and relating laboratory and field work. Among the divisions concerned are Hematology, Pathology, and Radiation Technology under CDRs Crankite, Tullis, and Chambers.

These Divisions have recently been very active in connection with Operation GREENHOUSE and members of the divisions have just returned from several months of additional duty in the Pacific where very successful experiments have recently been conducted. Data from this operation now being analyzed by CDR H. Lee, physicist and statistician, and reports are being written by the several project officers.

Clara: "Rose told me that she told her that secret I told you to tell her."

Belle: "She's a mean thing told her not to tell you."

Clara: "Well, I told her wouldn't tell you she told me don't tell her I did."

A hick town is one where there is no place to go that you shouldn't.

Yehoodi: The guy who pushes up the next piece of Kleenex.

Peeping Tom: A wolf window shopping.

Any man can have a wife, but only an iceman can have his pick.

Coach's Corner

The objective in bowling is to propel the mineralite along a highly shed hardwood surface in such a fashion as to cause ten upright pins to assume a horizontal position. An established maxim of alley fraternity, often quoted among keggers is, 'Hit plenty of wood a working ball.' The foregoing axiom is being observed on Holes 9 by Alvin Noble, a member of the charmed circle. Feathered wings of the wooded areas bordering the fairways, alerted by the grapevine, take a hurried departure from their leafy sanctuary in WOODY Noble tees off on number 7.

Fortin, Bill King and Bill Cole are going to be hearing a good deal of a young fellow by the name of W. Burke when tournament starts rolling around. On occasion it is just a drive followed by a nine iron to the pin on the long one in front of the hospital.

Golfing interest is at an all time high, with some 173 golfers teeing between sunrise and sunset last Memorial Day. Take into consideration that we are playing a nine hole course, presenting plenty of natural mounds and loaded with neophytes, the foregoing figure is a tribute to excellent work of our starters, Vic Obos and Lowell Sperry. A player's position in a country club is considered on the totem pole of importance, a notch below that of the golf professional. It is hoped in the not too distant future, the archway outside the golf shop will be closed in to enable the boys to keep one eye on the first tee and other optic focused on the cash register.

Over at Columbia, a sporty 18 hole layout, 322 teed off on Memorial Day just 10 short of an all time high. Naturally an 18 hole course allows playing times at number 1 and number 10 so in view of this, no one would cause to complain about our speed of play. One last thought on play through the fairways should be borne in mind by the novices in the game: when looking for a lost ball for a period of over three minutes and a clear hole ahead, wave on the following players and do not play your next shot till they are well out of range.

Numerous queries have been received concerning the hitting of flagstick by a ball in play. Rule 7, paragraph 7 of the Rule for Golf as established by the United States Golf Association is quoted for information and guidance:

"The flagstick may be removed by either side at any time. A player, however, always have the position of the hole indicated to him. It may be done by any player or caddie in the match, and the flagstick may be used for this purpose and held up. A player may send his caddie to attend the stick while he plays his stroke. The player playing the stroke may not require an opponent or an opponent's caddie to indicate the position of the hole.

If a player or a caddie holds or removes the flagstick when a stroke is being played, he shall be deemed to continue to hold the flagstick until the ball comes to rest. If the player's ball strikes the flagstick while it is held or has been removed by himself or his partner or by one of their caddies, his side shall lose the hole. If the player's ball strikes the flagstick when it is held by, or has been removed by an opponent or his caddie, the opponent's side shall lose the hole. The rule applies when the flagstick has been removed or when it is not, regardless of whether it be actually held when struck.

"If the ball rests against the flagstick which is in the hole, the player may remove the flagstick, and, if the ball falls into the hole, the player shall be deemed to have holed at his last stroke. In match play there is no penalty for striking the flagstick when it has not been moved or is not attended by either side. In stroke play when a competitor's ball lying within twenty yards of the hole is played and strikes the flagstick or the person standing at the hole, the penalty is two strokes. When the flagstick is attended the penalty is incurred if the ball is played from any distance. Neglect on the part of the player standing at the hole does not exempt the competitor from incurring the penalty."

All hands would save strokes on the greens by observing proper flagstick handling. When a player asks you to hold the pin, remove it from the pin hole, but keep it within the well against the side of the nearest you. DO NOT UNDER ANY CIRCUMSTANCES REST THE FLAG ON THE LIP OF THE CUP. The strict observance of the above will eliminate bent lips, frayed edges and save YOU strokes. A damp cup lip is the only reason for the 'curling off' of a smoothly stroked ball.

Six for Six Gives Ads 6-1 Victory

Making six runs on six hits, the local softball team took its fourth victory, against two defeats, in the PRNC League. White continued his outstanding pitching by fanning 10 of the air station batters. In the six games played to date White has been credited with 60 strikeouts. White received very good support from the other members of the team who played errorless ball. Ski showed that he could really stretch that long, lean frame of his while covering first base.

The three top batters on the Medical Center Team are Kotonias, alias "The Greek", .666; Rock, .400, and Ski, .357.

What happens to bad little Egyptian girls?
They become mummies.

Brown eyes gaze at mine—Vexation. Soft hand clasped in mine—Expectation. Red lips close to mine—Temptation. Footsteps—Damnation.

Commissary Leading Intramural Softball Followed by X-Ray

Commissary	9	Qtrs 12 "B"	5
NDS	15	NMRI	0
NDS Officers	15	Lab 16	3
NDS	7	Qtrs 12 "B"	0
Commissary	13	Cardiology	2
Qtrs 12 "A"	5	NMS	0
Surgery	5	NMRI	3
Commissary	10	Lab 16	8

STANDINGS			
Commissary	5	0	1.000
X-Ray	4	1	.800
NH Doctors	3	1	.750
NDS	3	1	.750
NDS Officers	4	2	.667
Surgery	3	2	.660
Qtrs 12 "B"	3	3	.500
Qtrs 12 "A"	2	2	.500
Lab 16	1	4	.250
NMS	1	4	.200
Cardiology	0	4	.000
NMRI	0	5	.000

The Dental School Officers topped X-Ray from the ranks of the undefeated by combining some tight flinging with timely hitting. The winners took a two run lead in the opening frame on doubles by Drs. Legemore and Nelson plus a single by Dr. Housekeeper. A single tally in the third was followed by a four run outburst in the fourth which put the winners well in the fore. Royal pitched well for the losers but several miscues by his teammates gave him trouble. Final Score was 9-4.

Commissary gained their 3rd straight at the expense of Qtrs 12 "B" by a margin of 9 to 5. Two walks plus singles by Rock and Petix gave the winners a first inning lead of 4 to 0. "Whip" White staggered through a first inning which saw three walks, a hit batsman but no runs. In the second frame, his wildness cost Commissary two runs. However his teammates came through with two in the 3rd and three more in the 6th to hit the nine mark. In the third inning Petix took over the mound chore for the winners and held the losers in check until the 5th when they broke out with a rash of hits to amass three tallies. Commissary's braintrust brought White back on the firing line and he held the "B's" in check.

Dental's Fitts pitched a brilliant two-hitter as NDS shut out Research by a 15 to 0 score. Beversdorf and Cummings led the 12 hit attack for the winners by banging three safeties apiece.

The Dental School Officers won their fourth game as against two defeats when they easily downed Lab 16 by the lopsided margin of 15 to 3. The losers' Cannady hit a wild streak and issued 6 walks in the second inning. Taking full advantage by adding 4 bingles the Officers tallied eight times in the second. Dr. Nelson limited the losers to five hits.

Commissary ran their unbeaten string to four when they romped to an easy 13 to 2 win over Cardiology. Giving their ace, "Whip" White a rest, the winners trounced Petix to the firing line and he came through with a neat five hitter.

With Tom Dias tossing brilliantly Qtrs 12 "A" blanked Naval Medical School by 5 to 0.

In what looked like the upset of the year for 6 innings Research lost their 5th straight when Surgery pounced on Cecchini's offerings in the final frame to overcome the losers. 2 to 1 lead. The losers, taking advantage of "Smokeball" Day's wild streak in the first inning opened a two run lead. The winners popped out with regularity until the 5th when Littleton reached on an error which was promptly followed by a Curran round tripper to right center. However the slugging first baseman failed to touch the hot-corner sack and research still led 2

Waves Take Wafs 10-4 In First League Win; McQuarrie Fans 13

The Admiralettes won their first victory of the season with an exciting 10-4 victory over the Ft. Myer Wafs here June 19. Taking first bats, the local WAVES sent pitcher McQuarrie across the bag to take the 1-0 lead in the first inning.

Scoring four runs in both the third and fourth innings, the Waves were well ahead throughout the rest of the game. The Wafs tried for a rally in the last half of the seventh, when NNMC's infield gave out two runs on errors, but catcher Allen caught the last foul ball retiring the visiting Air Force.

McQuarrie struck out twelve of the fly-girls, allowing only three girls to even see the plate in the second and fourth innings.

The night before at the Walter Reed game, the Waves came out on the short end of a close 8-5 score. McQuarrie pitched her best game to date, striking out 13 of the Wacs while allowing 4 walks, and also scored the only two-bagger of the evening.

Showing considerable improvement under the coaching of "Ski" Kurzawski and management of "Hammy" Hamilton, the feminine-nine is scheduled for three more league games, starting with the Henderson Hall Marines tomorrow night on the NNMC varsity diamond at 1830.

Admiralettes Drop 2 To Rival Navy Teams

NNMC Admiralettes dropped their first two games to Navy teams, losing to Patuxent 12-6 and to the Quarters K Waves 8-0.

Traveling to Patuxent for the first game of the league season, the Waves went on the field with a team that had never had a complete practice together as a team. They managed to hold their own pretty well throughout the game except for the fatal fourth inning when amid a series of errors Patuxent sent seven Waves across the plate to score.

The team's main asset, pitcher McQuarrie was credited with five strikeouts, one hit, two put-outs, and two assists. Of the Admiralettes' six hits, first base Hopper was the only one able to score a two bagger.

Although losing 8-0 in the following home game with the D.C. Waves, the Admiralettes showed considerable improvement, holding Quarters K down to two runs until the fifth inning. Again a series of errors allowed the opponents to score five runs.

McQuarrie struck out six, allowing two walks. Catcher Allen was in for the sole two-base hit. New addition Schmidt came in for two beautiful catches in center field.

to 1. In the top of the seventh Surgery caved the roof in on Cecchini as they came through with 3 singles and a big double by Lababaro to clinch matters.

The league leading Commissary-men had a scare thrown their way by Lab 16 but staggered through with a 10 to 8 win to run their undefeated skein to five. Scoring nine times in the opening inning on four free passes, five singles and a home run by "Barney" Gwinn, the winners were seemingly coasting to an easy one but the Labsters got to White and Petix in a big 6th for five runs. They added two more in the final frame and had the tying runs on 2nd and 3rd before White brought things to a halt by forcing Campbell to pop up.

"Wanna See Me Make
A Strike, Dad - Watch"

Gary Murphy, age 5, the son of HMC Murphy of NSHA, can't quite understand how his father lifts the ball, never mind getting it down the alley. Undaunted though, Gary yells, "Watch me make a strike, Dad."

Navy Belles

By George

Let me tell you some of the late news from our house. I have seen our softball team play and their spirit is terrific. Come see some time. They have sharp new blue uniforms plus their hats and "boots". You should see Shirley's boots. We need someone to decode the score book after Salty keeps it for the game.

"Hammy" is the Night MAA for the month of June. I wish some one would give her a pair of soft toe shoes for making rounds. "Lou" Zimney, the barber at our house, will need shears when she comes back from leave.

Kay Nelson and Marion Habel are also on leave this month. "Johnnie" Matson is still the Bride at our house. Who will be next Grace? or Stella? Possie started radio isotope school June 11. She is so wound up in her work she even works problems on her napkin while she is eating.

The latest girls to come aboard are Physio strikers. The school started June 18th. So welcome to Ruth Clarkson, from the Lakes, also Elizabeth Feaster from the same place. Paula Manning, and Marcia Scott, from Portsmouth, Va., Madlon Leininger, from Chelsea, Mass. and Gertrude Schmidt, from Annapolis, Md.

Goodbye to "Peggy" Clark going to Chelsea, Mass., after finishing X-ray school. We welcome Rosilyn Brant to the hospital X-ray staff here. Also leaving is "Willie" Williams, going on leave and back to Barracks K, and duty downtown. Nadine and she just finished Hospital Administration school. Elena went west again for duty at El Toro, Calif.

Many Bluejacket's Manuals floating around with the girls learning to be sailors for the next test.

Our banged-up Wave this month is Allen, with a smashed finger after a softball game the other week. Talk about cars getting stuck in the mud, you should push Al's car after it (Peter) has been sick.

Congratulations to my roommate "Josh" Shook whose adding another white stripe on the left arm for her advancement to HN.

Lab 16 Under High Pressure

By The Thing

Once again we are gathered together in so many words to bring you the latest scuttlebutt. As most of you already know, Red Gregory is a married man now. He seems pretty happy. So does the other member of the Club of the Happily Married. Bob Brogdon, finally happily married, after his wife's long trip from Oklahoma, is living in the same house as his twin brother Bill and his wife. Things must surely be complicated there.

We hear tell that Coltey has got his eyes on a Massachusettan gal. Did you say sometime in October ole chap?

Luke, the famous blood drawer of Blood collecting, is having quite the time with that blood drawing box of his. Take it from Griffin, Get yourself a golf cart, Luke, and your troubles will be over, except of course, for the cost of the oil to keep the wheels from screeching. Or better yet, Luke, let Griffin draw the specimens for you.

Somebody said that Big John Elkins is getting pretty good at readying the differentials. Well all I can say is that it is about time.

The barracks (140) is getting pretty well filled up with eager-to-go, future x-ray and phys med students. Dorm D is taking a lot of the burden. When you wake up in the morning to the tinkling of the bell, you take a quick glance around and you can't see any one of your classmates with all the fellows rushing like mad to grab the few mirrors that are in the head.

Why is it that everyone, the first thing on arising, has to rush to the nearest mirror and see if his nose is still there? Except Treivel, it's his hair that he's worried about.

Who-o-o-o- Done it? Who-o-o-o- done the gold fish in? That is what Treivel is trying to find out. Better watch it, Clem. He may guess wrong.

By the way fellows, how about putting some extra ash trays in the dorm? With all these new students moving in, it'll be rather hard for Spencer to find one. Don't you think?

Well shipmates, that's enough evidence for this time. Tune in again next issue and maybe we'll have some of these mysteries solved. Might even find out which one has the Toni.

Sailor: "Tell me the three words that will have me walking on air."
Wave: "Go hang yourself."

Commandant Visits NNC

On June 14 RADM G. H. Fort, new Commandant of PRNC, made an informal inspection of the National Naval Medical Center, visiting the several commands. Admiral Fort recently succeeded RADM G. B. Davis as Commandant. A luncheon at the Officer's Mess was attended by RADM Swanson, CO, NNC, and the Commanding Officers of the various commands.

Not Much Research Involved

By R. Conaway

The muster line behind building 17 is growing by leaps and bounds lately. New arrivals since the last issue of the NEWS are: D. J. Snowden, HM1 from USS Leyte—CV 32; W. M. Provo, HM3, from Memphis, Tenn.; and C. D. LeMunyan, HN, from Camp Lejeune, N. C.

H. B. Garner, HM1 and E. P. Sweeney, HM1, enroute to Camp Pendleton from Camp Lejeune, stopped off for a visit with their old shipmates at NMRI. It was nice seeing you boys once again.

I think I've been asked a dozen and ten times where "Hammy" is and why she hasn't been seen around Rad. Tech. lately. Well folks, the gal is on night duty in the Wave Barracks for the month of June. Hammy will be back (we hope) the beginning of July.

Another gal missing for the past few days is Mabel Eller, HM1, now a patient on Ward 129. However, we hope to see her back at NMRI soon, so hurry and get well Mabel; we all miss you. Till next issue—so long!

Towns of northernmost Mississippi, Alabama and Georgia are closer to the North Pole than Africa's southernmost tip is to the South Pole.

Center Chatter

By Frank Winn

The parade in Bethesda is long past and by this time all the swollen and sore feet should be back to normal. From my vantage point the Navy was the sharpest looking outfit there. The Marines ran a very close second.

By the time the paper is put to bed "Bud" Hill and Don Erdmier should be on their way. Their orders are due any day now. I'm sure they will be missed by the whole command.

The President has now been given authority to extend enlistments of all volunteers in the armed forces for one year. Guess we'll be around a while after all.

Looks like we are due for a three section watch again, at least for the summer months. With everybody planning to take leave during the next three months, it won't leave many to stand watches.

Reporting on board for duty 13 June 1951 was Irvin S. Harris HM3. Before reporting here, Irv was stationed at the U. S. Naval Hospital on Guam from October 1948 to May 1951.

Another General Service Rating joined our midst when Donald E. McDonald, RD3 reported here from emergency leave for a tour of Humanitarian Shore Duty. He is now working in the NNC Master-at-Arms Office.

Pat Wynne is the person with his nose in a sling. He and his Pontiac must have had fight. Of course it could have been the other individual that has been seen behind the wheel.

The Disbursing Officer has requested that a certain restriction of visits to the disbursing office be made for the next month or so. During this time, Disbursing Office personnel will be engaged in the semi-annual closing and renewing of pay records. This is a long and tedious job, often requiring many overtime hours to complete. If you feel there is something drastically wrong with your account, by all means, feel free to bring forth your questions. If it is just a matter of longevity due to you, try to hold off at least a month. Your cooperation in this matter will be greatly appreciated and will definitely help you get these small items of pay sooner.

This will be my last article until this transition of pay accounts is completed as most of my spare time will be utilized in Ward 102, behind a typewriter and calculator.

Six NSHA Students Receive Commendations For Good Work

CDR. Zimmerman commends six students for work well done. They are, left to right: HMC Meitl, HMC Bruster, HMC Marshall, HMC Gayon, HMC Hack and HMC Bachert.

Commendatory masts were given six student personnel of NSH exceptional zeal, diligence and initiative in the performance of duties. CDR M. E. Zimmerman, CO, NSHA, read the commendations to the men on June 15.

In the case of G. E. Hack, HMC, the commendation read in part: "You devoted long hours of off-duty time in research and preparation of instruction material. In addition . . . you conducted a course of instruction in the use and maintenance of the mimeograph machine . . ."

The following received similar letters of commendation: T. A. Gayon, HMC, for conducting class in the mechanics and operation of bookkeeping and calculating machines; K. M. Bruster, HMC, for similar reason; E. F. Meitl, HMC, also for similar reason; A. M. Marshall for instruction in commissary management; and G. E. Bachert, HM1, for his work as Enlisted Correspondent and assistant to the Public Information Officer of NSHA.

Laugh Awhile

Two tears were floating down the River of Time. "I," said the first, "am the tear of a woman who lost her man to another." Said the second, "Don't feel so badly; I am the tear of the woman who got him."

Modern version: Time, tide and women drivers wait for no man.

Girls worry about their hats and their shoes. Between the two there's enough to worry anybody.

A CPO is a man of few words which he keeps repeating.

Med School Scuttlebutt

By O. C. "Skip" Skinner

The look of the 17 men NMS, who have been ordered sea duty as of July 1, was most dismal the past few weeks.

The NMS softball club took another defeat 5-0 by Quarter Diaz' pitching was accurate smooth. Maybe the boys were in on the second round. get going fellows and bring in the bacon.

Lover Kurzwaski is still on loose, but from the sound of it he'll be trapped mighty soon.

John Gray has had his automatic land cruiser for a month now. The mileage is still low and the tires are still new. When are you going to do driving "Tacky"?

Chief Rostad of Lab 16 was married the latter part of month and the gang wishes all the luck and happiness in the world.

The golf tourneys are near and we are wondering who will be leading the Med School top places. Last year it was D. Brown who took second in the handicap, and Dr. W. Ayres who took second in the miral Willcutts' Tourney. have since departed and School will have to hope Myers, Haus and Forman can thru with honors. Good luck.

Naval School Of Hospital Administration Graduating Class

Front row (l. to r.)—Students: HM1 N. M. Calhoun, HMC J. A. Torrisi, DTCA B. Roller, HMC G. E. Hack, HMC J. W. McQuerry, HMC H. M. Clingempeel, Jr., HMC C. B. Gordon; Staff Enlisted: HMC J. W. Guinn, Instructor; HMC E. F. Rogers, Instructor; HMC D. K. Anderson, Instructor; Staff Officers: CWOHC R. C. Meyers, Jr., Instructor; LCDR H. H. Laramore, Instructor; LCDR J. M. Rutter, Instructor; CDR M. E. Zimmerman, Commanding Officer; LCDR G. W. Wiese, Executive Officer; LCDR L. E. Bond, Instructor; LTJG W. L. G. Cartier, Jr., Instructor; Staff Enlisted: HMC E. F. Hull, Instructor; HMC W. C. Henderson, Instructor; HM2 T. M. Holda, Assistant M.A.A.; Students: HMC P. B. Kinsman, HMC W. F. Thomason, HMC W. T. Smith, HMC D. C. McGarry, DTC H. W. Davis, HM1 L. H. Williams.

Second row: DTC R. E. Adkins, HMC L. E. Seaman, HM1 B. E. Connally, HM1 B. H. Bain, HM1 J. R. Salisbury, HM1 D. O. Scott, HM1 T. J. Laird, Jr., HMC J. C. Donnelly, HM1 F. J. Hollweck, HM1 G. E. CAMEL CARAVAN HERE JULY 17

Freddy Martin and Famous Band Give Show, Play for Dance

Favorite to millions of radio and record fans throughout the world, Freddy Martin and his celebrated orchestra are coming to the Center on July 30. A show will be staged in the Auditorium at 1800 before he plays for the staff dance in the gym at 2030. Versatile Freddy Martin received his greatest fame from

CAPT B. W. Hogan To Be New CO, Naval Hospital

CAPT B. W. Hogan, MC, USN, will assume command of the Naval Hospital on July 16, relieving CAPT R. M. Gillett, MC, USN, who is assigned overseas duty. Captain Hogan was Commanding Officer of the Naval Medical School prior to assuming his new command.

During World War II, Captain Hogan was awarded the Silver Star for gallantry in action and also the Navy and Marine Corps Medal for outstanding heroism

smooth, modern adaptation and arrangement of the Tchaikowsky concerto in B Flat Minor," which is musical history several years

Martin's popularity, however, has not been limited to his interpretations of the master. His RCA recordings of such hits as "Sable Boogie," "Come to the Grass," "Lovely Bunch of Bananas," and a host of others have passed the million mark in sales and placed him in the top category.

Associated with Martin and his "singing saxophone" are personalists Merv Griffin, pianist Ray Arnold and the Martin

while serving as Senior Medical Officer of the USS Wasp, after the torpedoing of that vessel by enemy Japanese ships on September 12, 1942. He was awarded the Purple Heart for wounds received in this action.

The Captain was born in 1901 at West Quincy, Mass. He received his degree of Doctor of Medicine from Tufts College Medical School in 1925 and was awarded the Phi Lambda Medal for highest achievement in medical studies. He entered the Navy in that year as LTJG in the Medical Corps. In 1945 he received a degree of LLD (Honorary) from Mt. Saint Mary's College in Emmitsburg, Md.

News Shorts From The Editor's Desk

(AFPS) the following bills affecting Armed Forces personnel have been introduced in Congress and are under consideration by various committees.

1. To extend for two years the period during which free postage for members of US Armed Forces in Korea and other specified areas will be granted.
2. To add three years to the period during which WW II veterans on active duty in the present emergency may receive college training under veterans regulations.
3. To amend the Armed Forces Leave Act of 1946 to increase to 120 days the amount of leave which may be accumulated.
4. To grant to persons in the Armed Forces in the present emergency and to their dependents certain benefits now authorized for WW II veterans.

(AFPS) Alnav 72-50 provides that all enlistments expiring on or after July 28, 1950, and prior to July 9, 1951, will be involuntarily extended for one year, unless affected members re-enlist or extend their enlistment terms voluntarily. Legislation is pending to extend involuntarily all enlistments expiring during fiscal years 1952 and 1953 for one year unless members affected re-enlist or voluntarily extend their enlistments.

Doctors Hyatt and Turner received TAD orders to attend the Institute of Biology Symposium on Freezing and Drying, June 29-30. The Symposium was held in the Royal Institute, Albemarle Street, London.

CAPT John L. Enyart, NMS Executive Officer, Takes Over Command

CAPT John L. Enyart will not be a stranger as Commanding Officer of the Naval Medical School since he has, for the past two years, been serving as Executive Officer. CAPT Enyart has had twenty-four years service in the Medical Corps, having served in many interesting and important billets ashore, afloat, and at foreign stations. Some of these are, for example: USS West Virginia, USS Phoenix, USS Lexington, USNH Guam, USNH San Diego, USNH Brooklyn, USNH St. Albans, and Executive Officer, USNH Philadelphia.

During WW II (1944-1945) CAPT Enyart was in command of the Royal Naval College Hospital in Dartmouth, England, relieving Surgeon Captain Johnston of the

Heading the star-studded cast is the popular singer of Western songs, Elton Britt, who is said to be able to yodel higher than anyone else in the world. He's half Cherokee Indian and came from the Osage Hills of Oklahoma to win fame in radio and records.

A new twist to playing comedy violins and some unique imitations will be spotlighted when the Three Arnauts take over the stage. They're three of the most-traveled and best-known clowns in the world.

Jay Kirk, an entirely different kind of comedian-emcee, enlivens his contributions with some of the trickiest acrobatics ever to be witnessed outside of a pretzel bending factory.

Beautiful Margaret Brown, noted young tap and specialty dancer, will be seen doing several of the routines that have won her a large and loyal following throughout the country.

The Quinlans—Kathleen and Ralph—will turn the stage into a roller-skating rink. They were once described as "greased lightning on wheels," and after seeing them perform, the reason for this description is apparent.

Arlene and Ardelle Terry, an identical pair of Georgia peaches, better known as the Terry Twins, are two beautiful, curvaceous young sisters who know how to "sell" a song. That's the only thing they'll sell during their appearance with the Camel Caravan, however, for they've been delegated the pleasant task of distributing free Camels to uniformed servicemen and women in the audience.

Music for the show is supplied by the Camel Four, headed by maestro Wally Milford, who has done a great deal of work for motion

U History Classes Start Here July 16

The George Washington University summer courses will start on Monday, July 16 at 1830. Students who have already applied complete their registration at that time and those who have not made application can also do so at that time. The course will be in history and will continue on Mondays and Wednesdays seven and a half weeks, two hours per class. Texts will be on sale at the class. The Educational Officer advises there has not been enough applications to conduct a class in history. Six more students are needed. If you are interested, contact Barkley at extension 331 as soon as possible. If enough students are interested a class may start on Tuesday, July 17.

Get Out of Your Rut

"And be not conformed to this world."
"Get out of your rut," I hear you say.
I'd like to, but I've always done the thing this way.
I follow my friends and try to conform
To the rules they've set as to what's the norm,
As to where to go and what to think,
And how to vote and whether to drink,
And what to say and how to dress.
It's easier though, I must confess,
And life can be lived without too much strain
With less wear and tear on my feeble brain.

Think for myself? And choose the way
I feel is right? Oh, no! I say
The theory is fine, and I'll agree
That perhaps it would be best for me;
But I'm always such a busy one,
I'll just do as the others have done.
It takes too much time to think things through,
I'll vote, dress, and talk as my best friends do.
No, that's not for me:
You might as well see
I'm doing my best, why don't you help me.
—MINNIE A. SMITH, HM3, Cardiology

CAPT Enyart

(Continued from page 1)

Royal Navy. While serving in this capacity, he participated in the Normandy landing in France, later joining Commander Naval Forces for France as Staff Surgeon in Paris. He also served as Assistant Staff Surgeon for Commander Naval Forces Europe. Captain Enyart states that he believes one of the most interesting assignments he has had was that as Medical Member of the United States Naval Advisory Group to China, where he served as Advisor to the Surgeon General of the Chinese Navy from July 1946 to August 1948.

CAPT Enyart is married and has one son, LT John Enyart, a naval aviator, now attending the school of Naval Intelligence at Anacostia.

All hands wish Captain Enyart a pleasant tour of duty in his new assignment.

Crew's Library:

Biographies By Men Big and Small

"Lives of great men all remind us"—we learned in school but today we read the biographies, not only of the "great men" but of many near-great and many average folks as well. Some of the recent biographies received in Crew's Library illustrate the three categories:

A SOLDIER'S STORY by Omar Bradley. General Bradley now gives us the story of his services in World War II, with a detailed account of the 12th Army Group. He is frank to admit the antagonism between himself and Montgomery but shows admiration for Marshall and Eisenhower.

WE BARRYMORES, by Lionel Barrymore. While there are glimpses of John and Ethel Barrymore, and some history of the famous family forbears, this is chiefly Lionel's story, with his stage, movie and radio experiences given in detail.

NEVER LEAVE WELL ENOUGH ALONE is Raymond Loewy's amusing but stimulating story of his career as an Industrial Designer, a profession he invented; he modernized the typewriter, the tooth brush, toothpaste tubes, automobiles and many other products from lipstick to locomotives. He tells his story with candor, humor and wisdom.

TALES OF A FOOLISH FARMER is by George Sessions Perry, a country boy who could never really leave the country. After traveling more than 50,000 miles around America, Perry bought 2 farms in Texas—250 acres without barns, fences, implements or dwellings. Plenty of trouble developed with "brainless cows", a bad tempered horse, the weather, dogs and workmen, but in spite of these, he seemed to find joy, contentment and great gusto.

Action Ruins Ship's Guns; Gets Repairs

By Armed Forces Press Service

The USS St. Paul is now undergoing overhaul at the U. S. Naval Shipyard, San Francisco, Calif.

The cruiser recently returned from Korea with her eight-inch guns worn out due to the heat generated from constant firing and from enlargement of the lands (ridges in the rifling of the barrel).

The amount of expansion was a mere 20/100ths of an inch, but that is enough to cause inaccurate firing and shorten the range.

Each new barrel—nine in all—will cost an estimated \$17,000. They are transported to the West Coast from the Naval Gun Factory at Washington, D. C.

The barrels weigh 18 tons, are 42 feet long, and require a crew of 20 men to install. Prior to installation, the guns are fired six times to insure proper functioning.

Following the termination of World War I, Secretary of the Navy Josephus Daniels spoke at the ceremony discharging the girls from the Marine Corps.

Accustomed to addressing seafaring men, the Secretary of the Navy apparently forgot he was talking to a group of women. Daniels speech to the women Marines read in part: "We will not forget you. As we embrace you in uniform today, we will embrace you without uniforms tomorrow."

The Chaplain's Corner

"THE GREAT SECRET"

By CHAPLAIN BRONNIE E. NICHOLS

There is an inherent longing in the heart of every normal man for wealth, for health, for happiness, and for the freedom to live and enjoy these things. It is natural to rebel against the narrow confines imposed upon us when either of these is absent, and much of our life is spent in a quest for the "secret key" to wealth, for the elusive "elixir of life" that will bring health, for the "magic wand" that will give happiness and for that Utopian community where these things may be enjoyed by all. We live the rich, full and abundant life that man feels he was created to enjoy.

As man has sought these things in life he has sent the scientist on a day-and-night vigil to uncover the hidden resources of the earth, to bring wealth. The medical scientist has also engaged in an endless struggle to harness the great therapeutic powers that science can insure health. The social planners of our world work ceaselessly to endeavour to find the "secret" of living together. The political leaders of our world labor and scheme to insure, at least for their citizens, freedom to enjoy life as they want it.

Despite all of these combined efforts, we have a world filled with poverty, ill-health, unhappiness and bondage. Could it be that the "en masse" cannot find, cannot possess the abundant life that all men desire for, and pray for? No! It is not that these things cannot be attained, but simply that, as individuals, we have not "found the secret" that makes them possible. Let us, in our imaginations, turn back the pages of history to about 63 A.D., and go for a brief visit in a certain house in the city of Rome, then stand for a moment and listen to the Apostle Paul as he dictates a letter to his fellow-worker, Epaphroditus, to be carried to the Philippian Christians. Paul, now a prisoner for the sake of science, writes this happy Epistle, which is filled with words of peace, happiness, despite his bonds, for he is able to say, "I HAVE LEARNED THE SECRET . . . I CAN DO ALL THINGS THROUGH HIM WHO GIVES ME STRENGTH."

We, too, may live the abundant life, the rich, healthful, happy life of freedom, when we "learn the secret" of following Him in "the Way, the Truth, the Life."

The Flower Queen

It was on the loveliest of summer nights
And stars rained forth their tiny lights.
The moon had risen to its throne in the sky
And nightingales sang a soft lullaby.
Fire-flies flickered lanterns of green
Lighting the way for the fairy queen,
To a festival held in the garden of flowers
Shimmering gaily from dew-sprinkled showers.

Flowers in excitement whispered delight
Each sure to be crowned as queen that night.
Blooming with beauty, bursting with pride,
Awaiting the moment when fairies would decide
Who in the garden was fairest of all?
Who in the garden would be queen of the ball?
Fairies with garments of spider webs spun,
Danced while dew as jewels to them clung.

In grandeur and pomp, the festival grew merry
Then came the moment! Out stepped a fairy!
He rang the blue bells for silence to hear—
The decision! Who was chosen queen of the year?
Murmured excitement swept through the flowers,
They were impatient from anxious hours.
A voice then spoke, "The Violet is queen!
No sweeter flower can ever be seen!"

She's not tall and gay or exquisite in pose
Nor slender and delicate as a blushing Rose.
With coquettish Tulips she could never compare
And certainly not with Daffodils fair.
Grace of the Lilies she does not possess
Nor vivid red of the Poppies' dress
Or the stately poise of the Iris bed,
Fragrance of Lilacs where bees have fed!

But sweet in character, blue as the sky,
So tiny, petite and a wee bit shy,
We crown the blue Violet fairest of all,
Most beautiful flower, queen of the ball!
Surprise and astonishment hushes the air
As a crown of tiny fairy jewels so rare
Is placed upon her sweet head of blue.
She shyly accepts this dream come true.

A bursting amber in the eastern sky
Brings quick warning day is nigh.
On wings of night the fairies flee
Banishing all trace of festivity.
Slumber wraps the garden in deep repose
But the restless Violet in rapture glows,
This night she was chosen queen of the ball,
The most beautiful flower, fairest of all!

—GLORIA E. GOSNELL, NMRI.

Col. Homer L. Litzenberg Speaks at Informal 7th Marines Reunion

Colonel Homer L. Litzenberg, USMC, a patient in the Naval Hospital, spoke at an "informal get-together" of the 7th Marines and R.C.T., on the patio of the Navy Restaurant.

Col. Litzenberg was officer in charge of the 7th Marine Regiment, Marine Division in Korea. The nine Division was formed at Pendleton, Calif., and landed at Inchon, Korea, on September 1950. He returned from Korea April, 1951.

Col. Litzenberg was the Senior Officer present when the 5th and Marine Regiments were trapped by five Chinese regiments at Chosen Reservoir, where 8,000 men successfully fought their way out of encirclement by 50,000 men.

The 7th Marines was the regiment that led the 1st Marine Division from the Chosen Reservoir to sea at Hang-Nun where they were evacuated in December.

The Colonel entered the Marine Corps in 1922. He has seen service in Haiti, Nicaragua, Guam and China. During World War II he served in North Africa and in the Central Pacific. Among his many decorations are: three Silver Stars, Legion of Merit and the Army Commendation Ribbon.

Colonel and Mrs. Alice Litzenberg have two children, a son, Peter L., who is a member of the ITC now in pre-basic Marine training in Quantico, Va., and a daughter, Betty Lee, attending the West School.

Lab 16 Under High Pressure

By The Thing

The weather has been hot and humid since the last issue was out. One of the old salts from Lab 16 has been going down to the beach on the weekends. (To be of course.)

The Irish Texan has packed his bag and has left us for more duty aboard a transport. I hope that he will enjoy his duties.

We hear that they have a new meteorologist aboard the station. What about that Dietrich?

That's this we've been hearing about Big John and Pee-Wee Heck and the place called "The Key"? Scuttlebutt is a lot faster than electricity. Sometimes, you remind the class of the sighted glowworm who tried to make love to a cigarette. Then there is the everlasting standby of nurse corps. "I'd like to neck with Luke if you'll promise not to get a heart attack."

There is a little bit of advice to Griffin. A girl and a car are similar. You can use a good paint and conceal the age but the girl will tell the story every time. After a few months here you'll all know that you can have any in Washington or Virginia if you can play one song, or tune. Remember this Schroeffer, it's the old March.

It seems that one more of the 16ers is hitting the road to matrimony. Chief Rostad is getting married shortly. In New

NMRI Bacteriological Division Investigates Many Medical Problems

By R. Conaway

Since 1946, the major investigative work of the Bacteriology Division of NMRI, under Commander L. A. Barnes, MSC, USN, has been directed toward prevention and control of recurrent shipboard epidemics of bacillary dysentery, a disease which at times has immobilized combatant ships. During the course of the studies, it was found that drinking water made aboard ships could be disregarded as a means of spreading the disease.

From early 1948 until just recently, extensive studies were made in connection with a field trial of the efficacy of a vaccine made of the type of organism causing the majority of shipboard outbreaks. As a result of this program, it appeared that inoculation of personnel with this material was a feasible procedure and would bring about significant immune responses. Also, extensive clinical and bacteriological studies were made with a group of asymptomatic carriers of the organism who were transferred from the fleet to NMRI; current belief is that such carriers distributed throughout the fleet, provide the most important means of perpetuating the disease. It was found that suitable treatment with one of the new antibiotics would eliminate the organisms from the carriers.

Plans have been made to investigate the development of a modified vaccine, combined with some of the routine inoculations, that could be used for the prevention of bacillary dysentery.

Other important activities in the Division include the identification, preservation, cataloging, and distribution of various members of the enteric group of pathogenic bacilli; studies of the nutritional requirements of enteric organisms and pathogenic fungi; and, the serologic and biochemic classification of certain groups of paracolon organisms. Bacteriologic examinations of different materials are made for other divisions in the Institute such as the Animal Laboratories, Pathology, Hematology, Physiology and Experimental Surgery.

A recent and active section of the Division is the Treponema Immobilization Laboratory under the immediate guidance of LTJG Robert A. Nelson, MC, USNR. In addition, the Division conducts minor investigations and tests upon request by the Bureau of Medicine and Surgery or other naval activities.

York City. Good luck to you from the whole class.

Stick around for the next issue men. We still haven't found out which one has the toni but Chief Spangler, is slipping, and Triebel is trying to hide the Richard Hudnut.

LCDR Jackson Retires After 30 Years Active Duty

LCDR Thomas S. Jackson, MSC, USN, of the Naval Medical School, has retired after thirty years of active duty in the U. S. Navy.

Arriving here in 1945, Mr. Jackson has been assigned to the Legal Office with collateral duties as Treasurer of the Officers' Mess. He was an instructor in commercial law at NSHA for the recently graduated officer class.

Trained at the Hospital Corps School in Newport, Mr. Jackson subsequently served on the USS Mercy, USS Ohlson, USNH Pelham Bay Park, NYC, in the Philippines, China, and the Republic of Haiti. During WW II he was assigned to the USNH San Diego, Calif., as commissary officer.

Mr. Jackson took undergraduate work at Western Reserve University in Cleveland. Later he obtained his LLD from George Washington University, while he was attached to BuMed.

During his long tour of duty, LCDR Jackson has been awarded the World War I and II Victory Medals, the Navy Expeditionary Medal, the American Defense

Ribbon, the American Theater Ribbon, and Good Conduct Medals.

He and his wife, Margaret, and their six-year-old son, Thomas, Jr., live at 8601 Irvington Ave., in Bethesda.

RADM Swanson, CO, NNMCM, presented LCDR Jackson with a "Well Done" letter.

For his thirty years of devotion to the health of Navy men, NNMCM salutes LCDR Jackson and wishes him the best of luck as a landlocked sealawyer.

Operational Command Headed by LT Sabbag

Operational Command of BuMed Unit One has been transferred from Commandant, NOB, Kwajalein, to Commandant, PRNC. LTJG G. J. Sabbag, MSC, USN, has been appointed Officer in Charge of this unit vice LT L. J. Smith, MSC, USN, who has been transferred to the Naval Radiological Defense Laboratory, San Francisco, Calif.

Five Marines, One Corpsman Receive Medals for Gallantry in Action

First Row: LT A. S. Parker, Silver Star Medal; HN R. S. Koonce, Bronze Star Medal; Cpl. W. D. Timbrook, Letter of Commendation, and Cpl. F. G. Hatton, Purple Heart. Second Row: RADM C. A. Swanson, CO, NNMCM. Third row: Marine Honor Guard. Not pictured are LT J. S. Affleck, Silver Star Medal, and Pfc. E. D. Grunder, Bronze Star.

Six patients at the Naval Hospital were recently decorated for their gallantry in the Korean War. Five of the men are Marines while the sixth is a hospital corpsman. The awards were delivered by the Commanding Officer of NNMCM, RADM C. A. Swanson.

First LT Austin S. Parker was awarded the Silver Star for conspicuous gallantry in action. He was in charge of an infantry company south of Koto-ri. Handicapped by driving snow, faulty communications, and prepared enemy positions of vantage, he moved across contested ground to an adjacent unit of his battalion. He related his plan for a joint assault, and moved on to a point of vantage to locate enemy positions. There he was seriously wounded, but Parker remained to complete his plan.

Cpl. Frank G. Hatton was awarded the Purple Heart for services rendered at the Chosen Reservoir.

Cpl. William D. Timbrook was awarded a Letter of Commendation. When all of his company's radios were short circuited due to heavy rain, he served as a company runner. Although subjected to heavy machine-gun, mortar and tank fire, he carried out his mission.

HN Robert S. Koonce received the Bronze Star. Koonce left his covered position five times to aid and evacuate wounded Marines. He continued to evacuate men, making trips alone under fire until he collapsed from complete exhaustion and had to be himself evacuated.

First LT John S. Affleck received the Silver Star. After his platoon was overrun, Affleck reorganized it and led a counterattack, recapturing the vital positions lost. Wounded three times, he refused evacuation until his executive officer later ordered him to the rear.

A Bronze Star Medal was awarded to Pfc. Edwin D. Grunder. Serving as a jeep driver, Grunder made numerous trips over a heavily mined road to secure needed ammunition for his platoon. When his jeep was completely demolished, he continued to evacuate casualties and run ammunition throughout the night.

Auctioneer: "Mine is a business that women can't infringe upon."

WAVE: "Nonsense. A good woman could make as good an auctioneer as any man."

Auctioneer: "O, she could? Well, just try and imagine a young woman getting up before a crowd and saying: 'Now, gentlemen, all I want is an offer.'"

Who's Who in Defense

COL. Katherine A. Towle, USMC, Director, Women Marines

Became director of Women Marines, November 4, 1948 . . . Was one of first three women officers in Regular Marine Corps.

Born in Towle, Calif., April 30, 1898 . . . Studied at Columbia University, New York City . . . Graduated from University of California with Bachelor of Arts degree and Master of Arts degree in political science . . . Was headmistress of Miss Ranson and Miss Bridges School for Girls, Piedmont, Calif., 1929-1932.

Commissioned a captain in U. S. Marine Corps Women's Reserve and called to active duty February 25, 1943 . . . Was first woman commissioned in Women's Reserve.

Ordered to duty in Marine Corps Headquarters, Washington, D. C. . . . Assigned as senior woman officer with Marine Detachment, Naval Training School (Women's Reserve), Hunter College, N. Y.

Assigned temporary duty in Washington . . . Then given duty on special staff of Commanding General, Camp Lejeune, N. C. . . . Assistant for Women's Reserve at Training Center there.

Transferred to Marine Corps Headquarters as Assistant Director of Marine Corps Women's Reserve, September 1944 . . . Became second Director of Marine Corps Women's Reserve, September 1944 . . . Became second Director of Women's Reserve, December 7, 1945, advanced to colonel on the same day.

Left Marine Corps June 12, 1946, and returned to University of California . . . Reported for active duty on September 23, 1948.

Research Corpsman Has Seen Sea Duty Aboard and Overseas

"Have you filled out a Form R?" asks Donald F. Nigh, HM3, whenever anyone enters the doors of the Property and Accounting Division of NMRI, looking for some supplies.

Nigh was born in Iola, Kan., Sept. 30, 1926, far from the booming surf that was to play an important part in his later life. He was graduated from Iola High School in June 1942, and shortly thereafter, the Nighs moved to Culver City, West Los Angeles, which is still "home" to Don.

The ocean's call must have become pretty strong to this mid-western boy, for in 1943 Nigh joined the Navy, leaving for boot camp in San Diego, Calif. After Boots, he remained at San Diego to begin his training as a hospital corpsman.

His first tour of duty was at the Oceanside Hospital, Santa Margarita Ranch, and from that day on, the sea was his almost constant companion. After Santa Margarita came duty with the Amphibious Beach Party at Oceanside; then the USS *Talefair*, APA-210; 1st Marine Division, Tientsin, China; Whidbey Island, Washington; USS *Antietam*, CV-36; and in 1948, NMRI.

Nigh was married in April of this year to a Cumberland, Md. girl, and at present, they reside in Bethesda.

Plans for the future! "The Navy," says Nigh, "will be doing my planning for the next twelve years or so."

"All My Life I Wanted a Dog," Says Ascher; She Has 12 Dogs and a Paying Business

Ruth Ascher, HM3, was born in Germany. As long as she can remember she wanted a dog. As a child she was never allowed to have any pets. Whenever she found a stray cat she would take it home and feed it. Always the cat mysteriously disappeared.

Ruth trained to be a nurse before she came to America at the age of 20. Here she took brush-up courses in nursing and worked on private duty jobs. Constantly in her mind was the ever-growing determination to have at least one dog of her own.

Several times Ruth bought a dog. Each time, inadequate housing or lack of a permanent residence caused her to give it up.

She enlisted in the Waves in 1945. After boot at Hunter College she saw duty at Portsmouth, BuMed and Bethesda. Last year she was called back into the service as a reserve.

But between the time when she first got out of the Navy and now, Ruth began to realize her ambition. She saw a picture of a little white dog in a magazine. Inquiries revealed it to be a West Highland White Terrier which sells from \$50 up.

Ruth bought her first terrier for \$75. Now she has six breeding stock and six puppies and plans for building the dog business up to a permanent job. She raises the

Not Much Research Involved

By R. Conaway

If any of you steady patrons of the RAW BAR should happen to miss C. J. Swanson, HM2, from the nightly muster down there, you can lay the blame on his recent transfer to Receiving Station, D. C. As a member in good standing, however, he may yet find his way back to the old haunt, and so be on hand to muster in with the crew.

Steve Volchko, SKC, who was on TAD here at NMRI, recently completed same, and has returned to the Receiving Station, D. C.

Ray Gizmondi paid a surprise visit to the Institute, only to find many of his former buddies already transferred. Giz is presently stationed at Camp Lejeune, N. C., with the FMF.

Arrivals

The Receiving Station at San Francisco is keeping us busy reporting on all the men we are getting from there. This issue finds four new "Researchites" aboard: R. C. Purdue, HM3; L. E. Jambura, HM3; T. P. Nordquist, HN, and B. A. Carmack, HN. From the opposite end of the country, St. Albans to be more specific, comes J. J. Jaffee, HM2.

From BuMed Unit One comes the following men: A. C. Allen, HMC; F. B. Folsom, HMC; P. E. Thompson, HMC; J. T. Istok, HMC; J. S. Otto, HMC; A. A. Nelson, HMC; H. P. Cordova, HM1; J. H. Freeman, HM2; N. J. Marbois, HM2, and C. J. Goebel, HM2. Marbois and Goebel were formerly the NMRI contributors to the NEWS.

The Civilian Stenographic Pool has a new addition in the person of Miss Mary de Metz. Since Cupid has been working overtime at the Institute making MRS.' out of MISSES, we wonder how long Mary will be able to dodge his arrows. But on second thought, why dodge? Till next issue—so long!

pups for two or three months and then sells them for \$75 to \$100.

"The first three months are so important," says Ruth. "They have to be cared for like a baby. They require special diets, vitamins, and a close watch. After three months of proper nurturing, they are ready to be sold and do not require so much specialized care."

West Highland White Terriers

Versatile HM3 Branch On Third Tour Here Calls NNMC "Home"

"This is getting to be home for me," said Julian L. Branch, HM3 of the Blood Bank School. With good reason, too, did he make this statement. It is Branch's third tour of duty at the Center. When he graduates from his present school he will have technical ability in three specialties: ECG, laboratory and blood bank technique.

Branch is a native of Florida. He comes from Tallahassee where he attended the Florida High School. Before graduation in 1943 he played forward on the varsity basketball team and quarterback on the varsity football team. Also, during three summer vacations he was a life guard at Wakulla Springs, a resort.

Almost immediately after graduation, Branch joined the Navy. He attended recruit training and hospital corps school at Bainbridge, Md. Then came his first duty at the Center. He was transferred to the Naval Hospital here where he worked on several wards before attending ECG school. Then he was transferred to the dispensary at the Patuxent River Naval Air Test Center.

In February 1946 he hung up his blues for civvies. After a few months of "just loafing" he attended the University of Florida for one year. But in January of 1948 he decided that Navy life was for him after all.

His first assignment was aboard the USS *Consolation*, AH 15, where he was assigned to the laboratory. On the ship he made several runs to the Caribbean and North Atlantic, visiting such places as Newfoundland, Nova Scotia, Trinidad, Panama, Cuba, Virgin Islands and Puerto Rico.

He was transferred to NNMC again for a year's instruction in laboratory technique. While under instruction he played on the class intramural basketball and softball teams. Again he left NNMC. This time to Hunter's Point Naval Shipyard, San Francisco. Finally he returned here for Blood Bank School in April of this year.

A man wandering in a department store squeezed one doll and it cried, "Mamma." Later he squeezed another one. It screamed, "Manager."

are small, white dogs resembling Scotties. They are not as well known in this section of the country as they are in California, New York or Canada. But as the dogs gradually become better known, Ruth hopes to make a paying business out of the realization of her childhood ambition.

Navy Beiles

By George

The news around our house is, "our house"—you should see it! We are having a spring coat of paint here and there, new bed spreads and a chest of drawers to dress up our cubicle. Then, rugs in the front room and solariums—new chair covers and drapes on the way, with a front porch in the making. Makes "our house" very cozy—a few vines of ivy, and, I even saw some gold fish.

Our deepest and heartfelt sympathy to Joan Madsen, who lost her only brother. She is on leave on the west coast.

While Lou Zimny has been on leave, the new barber is Kay Nelson. Have you seen her new hair cut? Looks cute now that she has it trained. Irene Ramos has been on leave in New Bedford, Mass., making many plans for her big day. "Hammy" is back counting rabbit ears, after a month of night duty.

This time I want to give a belated welcome to Virginia Nausedas, who came from Patuxent River for staff. New girls just moving in are Dannie Joe McCoy, from Charlestown, S. C.; Ruby Salloum, from Camp Lejeune, N. C., and Kay Nelson from Med. School staff. These girls are going to X-Ray School.

Do you know that Virginia Young, "Miss Boston of Class 17", sleeps with one eye open? She has to—there is so much going on in her cubicle.

If you saw Chief Green and Chief Longcope carrying funny looking bags around, they were looking for a subject for their final in Photo School.

Sports is still a good subject. Our softball team took a beating from the Marine girls, only to go out again and be defeated by Fort Belvoir! We still think they are wonderful and their spirits hit the top.

Then we change to golf. The tournament is the big point of conversation. I heard plans to open a lemonsade stand out by the sixth hole. (The one in back of our house.) What happened?

Until you hear from me again I remain the girl from the heart of Maryland.

Beat This!

Laura Elliot, Warner Bros., is to be seen in "Strangers on a Train," a suspense drama directed by Alfred Hitchcock.

Canadian Joyce W. For Year and a Half To Attend Lab Sch

Frederick Joyce is the sailor from the Canadian Navy to attend lab school here. Equivalent to our second class, he carries rate of P2LA2, RCN (petty officer second class, laboratory assistant, Royal Canadian Navy.)

Born in Chatham, Ontario, I, 1925, Joyce worked for the American Pad and Textile Co. where he manufactured work clothes before he joined the navy. He served from 1944 to 1946, then came interested in lab work and decided to join the regulars, stay in for the 20-year retirement plan similar to ours.

Twice to sea, in his seven years in blue, Joyce served aboard HMCS *Warrior* and the HMCS *Magnificent*, light fleet carrier. Avid photographer, he took color shots of Belfast, Ireland where he spent three months waiting for the *Magnificent* to be commissioned.

Joyce, who lists classical music as one of his main hobbies, likes tennis and badminton and taking golf lessons here on base.

Before coming to lab school, Joyce saw duty in Nova Scotia where he met Miss Miss Dakin, of Digby, Nova Scotia. Miss Dakin became Joyce's girl in August of 1950 and they are now living at 4730 Broadway.

"I waited a year and a half to get this school," said Joyce. "I really feel that I am getting a lot out of it." He expects to turn for duty to the naval hospital in Halifax, Nova Scotia.

Fiddler's Green

Imagine doing duty in a place where there's no real work, lots to eat all day long, plenty of shore duty, and everything is free.

There is such a place, restricted to sailors only.

Called Fiddler's Green, this ethereal paradise is the sailor's traditional conception of heaven. Fiddler's Green is believed to be the only heaven claimed by an occupational group on its own.

You never wait in line at this gay place, where everything is strictly non-regulation. Here the main pastime is dancing with lovely ladies singing all day long.

Every good seaman hopes to go to this happy land when he dies.

Coach's Corner

Liked the way Pat White arrived at first base in the game with the sacastia flyers, went down on the first pitch, rounded second, slid into torrid corner, scrambled to his feet and crossed the rubber without ing his stride, on two flyer miscues. In the third inning, Goda, in an empt to catch a baserunner napping, threw in front of the bag to Ski, o scooped the horseshide and returned it, calcaneus high to Goda who ew a beautiful block into the runner from third.

For a minute during the game, thought I saw Cornell on the mound the Center, when Whip White called time to the man in blue, charac- istic gesture by the arbiter, and the boys gathered on the mound. Whip quite vehement in his flag hoist gestures and quite right, from my of vantage. The time to clown around on the ball field is in the er room after the game.

On expiration of time the boys went to their positions, playing in manner which has put them at the top of the league.

Mickey Mantle of the New York Yankees took one off the fence in at field the other night at Griffith Stadium and threw to Bobby Brown the fly. We could see the same act on the center diamond IF George ik were in right field.

The Golf Committee will be at a loss to replace the services of Floyd who is slated for duty in the land of the Pharaoh on the east of the Nile. Tom was one of the original four who would make his rance at midnight till three in the morning, four nights a week, uring the greens during last year's water shortage. Over a two-month od the hours spent could be called "overtime" but not in the vernacu- of the men concerned; to them it was a job that had to be done if we e to have the beautiful course we play today. Good luck Tom and PAR be the order of the day.

Last Monday in the Professional Amateur Tournament held at the ntain Head Golf and Country Club in Hagerstown, Maryland, Dapper King showed the pros and ams what is meant by a "hot putter". oth stroking William had a grand total of eleven one-putt greens in eight-hole round. I can see Jim Crawford asking for strokes now. Captain Gillett is another who can handle that magic wand when gutta percha comes to rest on the creeping bent; on the other hand, ury Fortin from twenty feet off the apron can hole out with the same displayed by the average guy on a two footer.

In last week's tournament for the neophytes, as in all tourneys, a few tions came to light concerning the rules of play. On one occasion a , in order to determine the slope of the putting surface, dropped a , putted same, retrieved same, placed same in his pocket and without her ado, calmly addressed his playing ball and stroked his way to ir.

Rule 18, of the United States Golf Association, states, in part, "When player's ball is on the putting green, the player's caddie, his partner is partner's caddie may, before the stroke is played, point out a direc- for putting, but they shall not touch the ground on the proposed line troke. No mark shall be placed anywhere on the putting green (a e is permissible). DURING THE PLAY OF A HOLE, A PLAYER LL NOT TEST THE SURFACE ESPECIALLY PREPARED FOR TING, HE SHALL NOT ROLL A BALL or roughen or scrape the ace . . . If the player's ball, when on the putting green, moves after loose impediment lying within six inches of it has been touched by player, his partner or either of their caddies, the player shall be ned to have caused it to move. The ball must be replaced and the lity shall be one stroke. In moving loose impediments with the club ust be brushed ACROSS, NOT ALONG, the line of putt, and the club t not be laid with more than its own weight upon the ground, nor anything be pressed down, either with the club or in any other

cores in the qualifying round ranged from a medal of 97 turned in the stroking of J. Bachar, who you may recall parlayed a thin ten- piece into a Ford sedan at the local carnival, to a sizzling 189 sub- ed from the pencil of Lefty Sickles. The aforementioned are well n to the writer as the kind of guys who would count a stroke on selves but quick, if when addressing the ball in a sand trap the club d touch the surface of the sand on the backswing.

Let's start whittling those scores, fellows, so you all can get up there Dapper, Chips, Roentgen, Shorts, Peiping Union, Legs and Gloves, local par-busters.

In every organization, there are the unsung workers who keep the ly moving: on an aircraft carrier there are the plane crews who the fly-flys in the air, the engine crew who keep the landing deck e et al. The maintenance department of the Center under the ap- dication of Messrs. Pollard, Corbin, Christopher have been most erative on lending a hand to the golfing crew; Slim Armstrong and pefitters have placed a drinking fountain on the pathway between 9; Williams, Horner and the boys from the carpenter shop have ed in the archway outside the golf shop and those well-known hor- urists Christopher and Dove have lengthened the tees on 2 and 3. HANDS THANK YOU.

Evans Score With Army by 10-3 Victory

rd hitting was the keynote of Med Center's victory over the y Med Center recently. A run by Mosley (Lab 16), tri- by Goda (Commissary) and awski (NMS) and doubles by (EENT) and by Mosley, gave ve extra base hits out of the hits against the Army's pitch- Final score 9-3.

ended that inning. A beautiful throw by Straka from left field to third picked off Sequovia (Army catcher) who had gotten on by an error in the fourth inning. A great throw by Kurzawski to Goda picked off Sequovia coming into home plate in the seventh inning.

If anyone who saw the game is wondering how a player like Kur- zawski could make three errors I'll tell you why. It's a wonder he played the game at all, having caught his hand in a car door just before game time. More power to you Ski for your competitive spirit.

All in all it was a great game for us and this one evened things with the Army Medical Center since we lost the first game with them 2-1.

Wave Varsity Softball

Upper: Maggie McQuarrie, Louise Miller, Joan Madsen, Ester Allen, Marcia Scott, Paula Manning, Doris Salisbury. Second row: Helen Jarvi, Gertrude Schmidt, Flora Hamilton, Shirley Denett, and Delores Amott. Lower left: Maggie has a tough time of it. With no relief pitcher, she carries the load of the game. Lower right: Scene of action — an Admiralette cocks her bat, ready for the hide.

Qtrs. 12 "A" Trip NDS Officers; Move Into 2nd Position

Results			
NDS Officers	15	NH Doctors	4
Qtrs 12-A	10	Cardiology	0
NMS	4	Cardiology	3
NDS	21	Cardiology	1
Qtrs 12-A	12	X-Ray	2
NH Doctors	7	Lab 16	0
Qtrs 12-A	6	NDS Officers	1

Standing			
	W	L	Pct.
Commissary	4	0	1.000
Qtrs 12-A	5	1	.833
NDS	3	1	.750
NDS Officers	5	2	.714
X-Ray	4	2	.667
NH Doctors	3	2	.667
Surgery	3	2	.600
NMS	2	4	.333
Lab 16	1	5	.167
NMRI	0	4	.000
Cardiology	0	7	.000

The NDS Officer nine unleashed a barrage of 16 hits as they easily whipped their arch rival, NH Doctors, by a 15 to 4 score. Dr. Schneider, with three singles and five RBI's, led the onslaught. Dr. Nelson limited the losers to four hits and aided his own cause when he chipped in with a base clearing triple in the big 8-run third in- ning.

Tom Dias threw a beautiful one- hitter as Qtrs. 12 "A" whitewashed Cardiology 10 to 0. Delaney's single in the third frame was the ob- stacle to fame. Mercer led the vic- tors with three safeties while his teammates, Bowlby and Kaulius, each banged round trippers. The lanky chucker set the opposition down in one-two-three order in five cantos and came through with ten strikeouts in gaining his shut- out.

Med School jumped all over the offerings of Cardiology's Babcock in the final inning to gain a nose decision of 4 to 3. The Heartmen's slowballer had the winners pop- ping up with regularity for the first six frames and was leading 2 (Continued on page 6)

Special Notice

The following League games will be played during the next two weeks.

July 9	U. S. Naval Radio Station, Chel- tenham. There.
July 11	U. S. Naval Proving Grounds, Dahlgren. Here.
July 16	Fort McNair. Here.
July 18	U. S. Naval Air Station, Anacostia. There.

For games played here the start- ing time is 1730.

A sailor on leave was paying his hotel bill. He looked up at the girl cashier and asked what it was she had around her neck.

"That's a necklace, of course. Why do you ask?"

"Well, everything else is so high around here. I just thought it might be your garter"

So You Think You Know Baseball!

By Harry Simmons

Protested games are among the saddest events of a league presi- dent's life. They usually happen only when an umpire makes a mis- taken ruling or an ineligible play- er is used. Here is a hypothetical situation in which even a veteran umpire might go astray if he does- n't watch out.

Let's say it's the Cubs and the Reds in the seventh inning of a tight battle at Wrigley Field, Chi- cago. The Cubs come to bat, trail- ing 3-1. After one is retired, Roy Smalley scratches an infield hit. Andy Pafko is walked, moving Smalley to second.

Mickey Owen then sends a hop- per to shortstop Virgil Stallcup, but Pafko edges into second just ahead of Stallcup's throw. In an effort to nab Owen, the Red sec- ond baseman gets off a tremen- dous heave to first. A good throw

Diaz Sparks Ads To 3-1 Victory Over Skymasters

The Naval Med Center increased its win column today to six wins as against four losses in the PRNC League.

With Dias (Hospital) pitching his first League game the Med Center won by a score of 3-1. Sup- porting Dias was the infield com- bination of Hall, Rock, Mosley and Kurzawski. This is without a doubt one of the finest in the League. Fine support was render- ed in the outfield by McMinnis, left field; Pat White, center field, and Kotonias in right field. Goda did his regularly fine job as catch- er. He may not be the hittin'est catcher, but he is one of the catch- in'est catchers there is.

Offensively the Med Center came to life in the fourth inning and got three runs on four hits. From there on it was a case of not allowing the Skymasters to score and this was done. Dias gave up only 2 hits during the last 4 innings.

Early Inning Runs Cost Ads Defeat

Scoring single runs in the first and second innings, and two in the third, the airmen from Patux- ent took the Med Center by a score of 4-2. The Med Center did not score until the sixth inning when Pat White slammed a home run between the left and center field- ers. He was crossing home plate when the throw-in was made. In the seventh with a man on second and a man on first with no outs it looked as if this was the time for the Med Center to break the game wide open. However, we were able to score only one run, while leaving two men stranded. This was typical of the entire game, the Med Center having left 10 men stranded during the seven innings.

Nutzman (Lab 17) started for the Med Center and went all the way, allowing the Airmen only 4 hits. Nutzman was the victim of two errors and a fielding misplay involving Turene, Mosley and Fitts. Each thought the other was going to catch a fly ball and it ended up with no one catching it but having the ball drop for a hit, while the three of them stood there shaking hands.

Special mention should be made here concerning Pat White's out- standing fielding during this game. If it had not been for two sensa- tional catches by White in center field, the score against the Med Center would have been higher.

would have caught Owen, but the ball goes wild and lands in the dugout. Smalley scores. But how would you, as umpire, place Pafko and Owen in order to avoid a pro- tested game?

ANSWER: Pafko scored, too, but hold Owen at second base.

On this play each runner is en- titled to advance two bases be- (Continued on page six)

CAPT A. J. Delaney, EENT Chief, To Be Transferred to Calif.

The Chief of EENT, CAPT Adrian J. Delaney, will leave shortly for new duties as head of the same department at the USNH, San Diego, Calif. Dr. Delaney reported here in December 1945 from USNH Palm Beach, Fla.

Dr. Delaney was born in NYC and attended the Richmond Hill High School, Columbia University, and Georgetown Medical School. He received his BA in 1928 and his MD in 1931. In the same year, 1931, he was commissioned as LTJG in the US Navy.

CAPT Delaney is a Fellow of the AMA, Diplomate American Board of Otolaryngology, member of the American Academy of Ophthalmology and Otolaryngology, and a member of the Otosclerosis Study Club.

The Captain is a proud father. He has four children: Catherine P., 20, who was recently married; Ann B., 11; Adrian J., 7, and John B., 6. He married the former Florence Sullivan of Washington, D. C.

The doctor has seen an impressive list of duty stations, some of which are: USNH Washington, D. C., USS West Virginia, USS Downes, USS Cossin, Illinois Eye and Ear Infirmary in Chicago, USS Relief, USS Boston, USNH Parris Island, and USNH Dublin, Ga.

One GI Benefit Going Strong, Two Dwindling Swiftly

(AFPS)—The GI Bill has reached its seventh anniversary, with one of its veterans' benefits still going strong, another nearing the cut-off point, and a third ended for most veterans.

The Act for World War II veterans, signed into law June 22, 1944, gave three major aids to veterans in their efforts to return to civilian life. Two of these aids also benefited the veteran who decided on a service career.

The first, a guaranteed loan program, was open to both discharged veterans and those remaining in the service. The second, free education and training, was also available to both classes of veterans, while the third, allowances for unemployment and self-employment, could be obtained only by veterans discharged from the service.

The GI loan program is one year past its midway point, extending to July 25, 1957.

The education and training provisions of the GI Bill will reach the cut-off point for most veterans July 25. Veterans discharged before July 25, 1947, actually must be in training on that date, except for interruptions beyond their control, in order to continue afterward. Those discharged afterwards have four years from their discharge date in which to start.

The third major GI Bill benefit—readjustment allowances for unemployment and self-employment—ended for most veterans July 25, 1949, although a few applications continue from veterans still eligible.

If one and one art two
And one and one do marry,
How is it in a year or so,
There's two and one to carry?

Popular GI corsage: Four Roses.

"I shall now illustrate what I have in mind," said the Ensign as he erased everything from the blackboard.

88 Enlisted Men Graduate From NSHA Class 3

By G. E. Bachert

Eighty-eight Hospital Corpsmen and Dental Technicians from the third enlisted class in Medical Administrative Technic were awarded certificates of graduation at an impressive graduation exercise held at the Naval School of Hospital Administration on June 20, 1951.

The ceremony marked the completion of nine months of extensive training in courses of instruction in Property and Accounting, Bookkeeping Machine Operation, Clerical Procedures, Typing, Commissary Procedures, Maintenance Office Methods, Industrial Safety Engineering, Personnel Management, Business English, Effective Speaking, Uniform Code of Military Justice, and Teaching Methods.

CDR M. E. Zimmerman, MSC, USN, Commanding Officer of the Naval School of Hospital Administration, introduced the guest speaker, LCDR E. W. White, MSC, USN. Mr. White is the head of the Hospital Corps, Enlisted Branch, Bureau of Medicine and Surgery, Department of the Navy.

In his address to the graduates, Mr. White stressed the need for good, all-around hospital corpsmen. He brought out the fact that specialization was essential, but that in specializing we should not neglect keeping current in the care of the sick and injured of the Navy—our primary function.

Chaplains John J. McGowan and Bronnie E. Nichols, of the National Naval Medical Center, presented the Invocation and Benediction.

Presentation of the certificates was made by LCDR G. W. Wiese, Executive Officer of the Naval School of Hospital Administration, with the assistance of J. W. Guinn, HMC, USN.

Closing remarks were made by CWOHC R. C. Meyers, USN. All of the graduates, as well as guests at the graduation exercises left with the feeling that a job had been well done.

The Navy Band from the Naval School of Music, Naval Receiving Station, Washington, D. C., gave a musical prelude and sent the graduates on their way with the Star Spangled Banner.

X-Ray Class Graduates

Graduating X-Ray Class. First row: M. Clark, HM1; E. D. Greene, HN; C. L. Gibson, HM3; W. O. Ballew, HM3; H. Brake, HM3; D. G. McCowan, HN; J. R. Jewett, HM3; F. L. Pates, HM2; G. W. Wrenn, HM3. Second row: P. E. Rowley, HM3; J. R. Ross, HN; S. H. Forczyk, HN; B. Bartlett, HN; E. H. Bowland, HN; G. A. Ford, HN. Third row: M. D. Hicks, HM3; R. L. O'Brien, HM3; C. M. Evans, HM2; T. L. Griffin, HN; J. V. Jenkins, HM3; D. Medows, HM2; D. C. Davis, HM3. Fourth row: G. V. Mortimer, HN; J. F. Mutsch, HM2; R. H. McKenzie, HN; G. P. Warren, HM2; J. C. Armstrong, HN; H. P. Bishop, HM1; F. G. Dickson, HM2. With the class is CAPT B. W. Hogan, CO, NMS, and CWO L. J. Clark, Officer in Charge of the School.

A woman's idea of thrift is saving enough money on one purchase to buy something else she doesn't need.

Old Mother Hubbard went to the cupboard
To get something to quench her thirst,
But when she got there
The cupboard was bare,
The old man had gotten there first

Interns who received their Certificates of Completion. Left right (seated) J. G. Rossi, J. W. Pate, M. W. Wood, M. H. Back, M. C. Pittard, E. D. Willett, M. Markarian, T. O. Head, and standing C. J. Savarese, Senior Intern, and CAPT Bradley. Second row: O'Brien, H. J. Horn, D. A. St. Martin, R. E. Herrmann, G. H. Hart, T. W. Tusing, J. K. McShane, J. R. Baldwin. Standing: M. Drick, J. T. Bechtel. Missing at the time of the picture was J. A. W. The certificates were presented by CAPT R. M. Gillett, CO, NH.

Life as an intern is a grueling year of port and starb duty, learning, observing, assisting, and practicing, but to 20 doctors who recently received their certificates of intern it was worth it. They have completed their "living-in," a word intern implies, and are now ready to take over on their

Account

But before this point, suppose we turn back to the front of the book and see just what these doctors have gone through. The young doctor has completed many years of book learning, of theory, of cramming, and he now is ready for his internship. At NNMC, the doctor goes through a year's rotating internship. His first assignment might be a two-week sojourn in the G. U. Clinic where he does routine urological examinations, circumcisions, and other minor surgery. He will assist the veteran doctors in major surgery and observe cystoscopies. Following this stint, he will go to Dermatology where he sees and learns to diagnose major dermatological conditions. Next he studies the practices of the EENT specialists. He'll conduct several tonsillectomies, and assist on other minor and major EENT surgery.

Still More

Not finished yet—not by a long shot. His next assignment might be on the Orthopedic service where he receives training in the diagnosis and treatment of orthopedic problems—much practical experience is obtained here. Then comes Surgery. He performs an average of six appendectomies and herniorrhaphies, receives training in anaesthesia, proctology, and post-operative surgical care.

In the laboratories excellent training in biochemistry, blood bank, hematology, pathology, bacteriology, serology and parasitology is received. In OB he gains experience in normal and complicated obstetrical problems and in the more common gynecological problems. He delivers as many as 70 babies while on this service.

Not yet completely saturated with the knowledge of the MD, he goes to the department of Medicine and trains in cardiology, chest, infectious diseases, gastro-enterology, endocrinology (glandular disorders) and in other general medical problems. To round out a well balanced internship, the novice studies major psychiatric disorders and numerous neurological diseases are diagnosed and treated.

Finally, his certificate in hand, he is ready for the assignments to come, in Naval Hospitals, overseas, and aboard ship.

A bachelor's a crazy guy,
And has a lot of fun;
He sizes all the cuties up,
But never Mrs. one.

The Arabian camel, or dromedary, has one hump. The bacterian camel of Asia has two.

Qtrs. 12 "A"

(Continued from page 1) but consecutive, single Sandoval, Morrison, DeJon Wetzel accounted for three ers and the win.

NDS moved into third place a convincing 21 to 1 triumph Cardiology. The decision salted in the opening frame winners crossed the plate times. Cummings and Bre led the victors with four apiece.

Qtrs. 12 "A" moved into ond slot with victories over and the NDS Officers. The were 12 to 2 and 6 to 1. In games heavy stickwork with tight flinging by Tom provided the win. Pat White McMinnis were heavy stick both encounters as between they accounted for 5 and 4 the respective games. Dis continued his whiffing master striking out 8 from X-Ray from the Dental Officers.

Two forfeits marked the play, NH Doctors and Card winning against Lab '6 and 12 "B".

Owing to transfers, Qtrs. 1 has been forced to drop from league. It has been ruled the games played by this team shall be ruled by the records. Team agers will note their schedule to this decision.

Wise men rest before the of the morrow.

The largest racket in R Burma, is elephant rustling animals are driven across the dia-Burma border and sold a profit.

Tin cans are not tin at sheet steel coated with a of tin. This coating is only 1 1/2 per cent of the total weight of the can.

MEATBALL

Baseball

(Continued from page 5)

yond the base he held when the wild throw was made. This advances Pafko to home plate, but Owen only to second, as he had not reached first at the time of the throw.

(See Section 7.05E . . . "Each runner including the batter-runner may, without liability of being put out, advance two bases when . . . a thrown ball goes into . . . a player's bench . . . The ball is dead. When such thrown ball is the first throw by an infielder the umpire . . . shall be governed by the position of the runner, or runners, at the time the ball was pitched; but if a play intervenes between the first throw by an infielder and the throw is into the (dugout), the umpire, in awarding such bases, shall be governed by the position of runner, or runners (when the last throw was made)."

Before I married Maggie dear, I was her pumpkin pie, her precious peach, her honey lamb, the apple of her eye. But after years of married life, this thought I pause to utter: those fancy names are gone, and now, I'm just her bread and butter.

Sgt. Peter Meyers Gets Bronze Star For Korean Duty

Sgt. Peter Meyers, USMC, a patient on Ward 3-C, was awarded Bronze Star Medal for heroic achievement in connection with operations against the enemy in Korea on Nov. 3, 1950. The award was presented by RADM Clifford Swanson on July 9.

While serving as a fire team leader, Sgt. Meyers displayed great courage and confidence in performance of his duties when his company was in an assault on the enemy. By his aggressive actions and determination the enemy's attack was repulsed.

Sgt. Meyers entered the Marine Corps in 1945 and received his retraining at Parris Island, S.C. Before entering the Marine Corps he was graduated from Western Pines High School, N. C., and was a member of the U. S. Marine Service from 1943 to 1945.

Sgt. Meyers married the former Joan Olson of New York City in the NNMCC Protestant Chapel on July 12 of this year.

member Tonight

Don't forget—Freddy Martin and his celebrated orchestra will be here tonight. A show will be held in the auditorium at 1830 hours. He plays for the staff dance at the gym at 2030.

News Shorts From The Editor's Desk

LTJG Leslie Wayne Teller, Jr., MSC, USNR, in charge of Entomology Division, NMS, was awarded his PhD and elected to Phi Kappa Phi at the University of Maryland this month. He wrote his thesis on "The Meadow Spittlebug in Maryland."

Rear Admiral Carl A. Broadus, MC, USN. The first officer of flag rank in the Medical Corps of the Navy to be assigned as Fleet Surgeon recently reported to the Commander in Chief, Pacific Fleet.

Prior to his transfer to FMF, Camp Lejeune, George James Palmer, Jr., HM3, was cited for his meritorious service to the Medical School during his tour of duty here by CAPT B. W. Hogan, CO, Med School.

He was commended for being a reliable, industrious and competent laboratory technician. CAPT Hogan further noted the commendable reflection Palmer's attributes had cast upon the entire Medical School.

Hagerstown, Md. (AFPS)—A light plane, short on fuel, landed on the U.S. Highway 40, taxied up to a filling station, filled its tank—and took off.

The Navy's reactivated Bainbridge, Md., Training Center recently turned out its first group of new seamen since World War II. About 500 recruits completed 14 weeks of basic training. Another 1,500, still in training, marched in the "graduation" parade.

DT1 Johnson Cited For Aiding Injured Man

Peter C. Johnson, DT1, was commended at personnel inspection July 20 for his outstanding performance and devotion to duty in connection with the serious accidental injuries sustained by Walter J. Hershkind, AB1, last November.

The letter of commendation was signed by CAPT J. C. Renard, CO, USS Palau (CVE-122) which Johnson served aboard in the Atlantic last fall.

Hershkind was driving a tractor on the unlighted flight deck one night in November when he was struck in the stomach by a barrier cable. He was pinned to the seat of the tractor under about a thousand-pound weight from the cable.

Johnson came upon the scene, took the injured man to sick bay and assisted the doctor on duty to perform an emergency operation.

Originally from Fayetteville, N. C., Johnson is now a student in the Dental Prosthetic School which graduates August 17.

Dr. You Chan Yang, Korean Ambassador Visits Korean Casualties On Wards

3-C patient Robert S. Koonce, HN, suffering from a bullet wound in the left ankle received after five months duty in Korea, is visited by LTJG Charles W. Linart, MC, and His Excellency You Chan Yan, Ambassador of Korea to the United States.

Ambassador-Doctor Displays Interest In Medical Center

His Excellency You Chan Yang, Ambassador of Korea to the United States visited NNMCC July 3. Ambassador Yang, who speaks perfect English, visited the wards and spoke personally to many of the patients.

The purpose of his visit was primarily to pay his respects to Navy and Marine Corps personnel who are hospitalized at Bethesda as a result of fighting in Korea.

Inasmuch as the Ambassador is a physician and surgeon, educated here in the U.S., he was interested in the Medical Center professionally. He displayed great interest in rehabilitation methods for amputees which could be used for his own people.

A humble, friendly man, the Doctor expressed his gratitude for the U.S. troops in Korea. Dr. Yang, who makes a practice of mingling with his own people and gathering their opinions, said the Korean people were much impressed by the consideration of the American servicemen.

"My visit to the National Naval Medical Center was a most interesting and stimulating experience," said Dr. Yang. He went on to say, "It gave me great pleasure to convey my personal thanks to a few of the brave men who were wounded in my homeland in the defense of liberty for men everywhere."

CAPT Fred Harbert Replaces Delaney As Chief of EENT

CAPT Fred Harbert, new Chief of EENT reported recently to replace CAPT Adrian J. Delaney who was transferred to San Diego, Calif. CAPT Harbert has been Chief of EENT at USNH Philadelphia for the past five and a half years. In addition to being chief of the department, he will assume additional duties at BuMed.

Before going to Philadelphia CAPT Harbert served as Executive Officer at the U.S. Naval Hospital at Pensacola, Fla. Previous to that he had duty on board the USS Alabama.

He is an Associate in Ophthalmology at the University of Penn., and last February he was named Professor of Otolaryngology at Jefferson.

Dr. Harbert has contributed many articles, concerning his field, to national publications. He is also one of the few men to hold the degree of DSc in Medicine. This is the highest possible degree in the field.

'Extension of Enlistment' And Other Terms Cleared

(AFPS) President Truman's extension of enlistments of Armed Forces enlisted personnel, under the provisions of the Universal Military Training and Service Act, has caused some confusion among Servicemen.

Much of the trouble is centered around the two terms, "extension of enlistments" and "time left to serve on active duty."

"Extension of enlistments" applies to all Servicemen whose enlistments in the Regular components, Reserves or National Guard of the United States, expire between July 9, 1951 and June 30, 1952, inclusive. Such enlistments, if not previously extended, are extended for one year. The same applies to enlistments of Reservists not on active duty.

"Time left to serve on active duty" is broken down in this manner:

1. Inactive Reserves (non-pay) who were involuntarily recalled: Navy enlisted personnel in this comparable category will be separated after 12 to 17 months' active duty.
2. Organized Reserves (pay status) recalled to active duty: Navy enlisted men may be released after 15 to 24 months' service under a phasing-out schedule to be announced later.
3. Regulars: "Time left to serve on active duty" is governed by the length of enlistment. However, enlistments normally expiring between July 9, 1951 and June 30, 1952, inclusive, will continue for another year, unless these extensions are the result of a previous one-year extension.

High Caliber Work Nets Commendations For Three NMS Men

Three NMS men were commended this month by CAPT Hogan for high caliber work in their departments: Chester F. Blakemore, HMC; Vernon P. Perry, HM2, and Charles A. McCalla, HM3.

Chief Blakemore was cited for his excellent instruction courses in hematology and serology in the Clinical Laboratory Technic School. He was also given credit for organizing and directing recreational activities among the students, resulting in a school and class spirit seldom equalled in service schools.

Perry, who left for FMF at Camp Lejeune July 18, was acknowledged for significant contributions to the departmental program during the last year in the Tissue Bank. Specifically he was credited with the formation of an accurate filing system for the Tissue Bank and the development of a cold sterilizing plasma-salt solution using a closed system of bacterial filtration.

McCalla, also of the Tissue Bank, was cited for forming and supervising a curriculum that would do credit to the first and second year college levels of education. The commendation went on to say "You have been of noteworthy help in formulation and interpretation of the educational statistics resulting from the various post-graduate courses of the Naval Medical School."

The Picture on the Wall

Each joy must have its sorrow and pride will have a fall —
Our joy and pride for many years was a picture on the wall.
When Pa and I were married some thirty years ago,
Our choicest wedding present was this painting with sunset glow.

Why our oldest boy took to the sea was hard to understand —
Our ancestors on either side had always stuck to land;
The next son suddenly left us to sail the briny deep,
Leaving two younger brothers whom we had hoped to keep.

The third son sought adventure and left our happy home
To be an able seaman and evermore to roam —
The youngest son and heir then shipped as cabin boy!
Our home seemed very desolate and life robbed of its joy.

I dressed myself in my best gown and went walking on my way
To call upon our pastor and hear what he would say:
I told him we were lonely since all our boys have fled —
The parson gave a knowing look and this is what he said: —

"When I go to your house to make a friendly call
I am always deeply conscious of the painting in your hall —
A full-rigged ship goes sailing over the great blue ocean
With all its canvas spread and every wave in motion.

"The lure of that fine picture has often puzzled me —
Now it explains quite clearly why your sons chose the sea."
Our joy has brought its sorrow, our pride has had its fall
As we contemplate the picture that hangs upon the wall.

Pvt.: "Don't you think Ethel looks bad in that low-cut evening gown?"

Pfc.: "Not as far as I can see!"

Drugstore clerk: "Did you kill any moths with those mothballs I sold you the other day?"

Customer: "No, I tried for five hours, but I couldn't hit one."

Teacher: "Now, Johnny, if I lay two eggs here and three over there, how many will there be altogether?"

Johnny: "Personally, I don't think you can do it."

Y-Cottage Offers Interest for All

by C. J. Goebel

Elton Britt, Wally Milford, the Arnauts, the Terry sisters—a great combination of stars. I'm sure we all enjoyed the talents displayed by this group of entertainers during their recent visit here at the hospital. There really are "no people like show people."

But say, I wonder if I can tell you about another show which is going on every day of the year. I'm talking about your show—your show because you are the master of ceremonies, the actors, and the musicians, all rolled up into one. You are the star of the biggest hit show that ever barnstormed into this city. You are the star because you have to sell yourself—not to the chief nurse of the ward, not to the master-at-arms of the barracks, but to all the people you come in contact with in your every day life.

All right, you've got the talents; you've got the music; now all you need is the theater, and I know just the place. If you happen to be as interested in card playing as Mario Lanza is in singing; or if you happen to have top-billing on a ping-pong table or if you're just an average Joe Blow sailor like the rest of us USN or USNR swabbies and enjoy a little rug-cutting with a pert-hosed little bundle of charm—Glenbrook County Club is the place for you.

Every single Thursday evening the USO and the "Y" Cottage sponsors a free, informal, open house night at this club which is directly across Wisconsin Ave. from the hospital. They say that misery loves company but by glory so does happiness, and it's yours for the taking at these gala affairs. We've been having some wonderful crowds but because of the great roominess of the club you'll find plenty of elbow space to stretch out and relax.

Little Polly Bullard, receptionist extraordinary down at the old "Y" Cottage, has requested that I "push" along this info about the swimming parties out at Wardecca pool each Wednesday evening. I'm not too good of a hustler, but I will say that you will have a wonderful time on these outings. For more information pick up that phone and dial OLiver 7808.

It's a little late to be shedding tears and regrets and perhaps this isn't a very appropriate spot, but they say that your last words are remembered the longest. Well, if you remember these words then remember these names: Ed Sweeney, Jud Althus, and Leo Weber. Three wonderful guys who were the backbone of the cottage. If these words ever reach their ears at Camp Pendleton, or wherever they may be, then know ye that the gals at the cottage send all their love.

Incidentally, it might be added that the Waves, Spars, Wacs, etc., are just as welcome at the "Y" Cottage as are any male members of the Armed Forces. There's always something to do at the cottage.

Last minute news bulletin: Tuesday evenings have been designated as "Long Hair Jamboree Nites" at the cottage from the hours of 8-9. If you like the classics, this is your meat; if you tend toward such popular music as "Shot gun boogies" or Nat King Cole's "Too Young", we've got that too.

Mother: "Why, Bobby! Your nose is swollen. What happened?"

Bobby: "I reached up and smelled a sunflower."

Mother: "Sunflower? You mean sunflower. There is no 'B' in sunflower."

Bobby: "Oh, no? There was in this one."

The Chaplain's Corner

By Chaplain J. J. McGowan

Faith—Impossible?

So many times we have heard it said that it is impossible to believe in something that cannot be clearly demonstrated. Materially say it. They will believe that two and two make four. They will believe that if certain physical or chemical elements are put together there will be definite results. They believe that because it can be demonstrated. They can see it. They can touch it.

But they refuse to believe that there is an element in a man which is spiritual, namely a soul. They refuse to believe it because they cannot see it or touch it. At least, they say they do not believe it. They refuse to believe that there is a God in Heaven. They refuse to believe there is such a place as heaven. Why? Simply because, as they say, they cannot see God. And, being most logical in their conclusions, they argue that if there is no God, why then should there be such a place as Heaven?

This my friends, is a philosophy of convenience. If a man wishes to lead a life of sin, if he wishes to do things that are not according to the laws of God, if he prefers to over-indulge in this, that or the other thing, it is more convenient for him to think that he will not be held responsible for his actions by an Eternal, All-knowing and just God than to know that he faces an eternity in Hell (the existence of which he also refuses to believe).

So, having evicted God from His abode in Heaven and, thereby freed from all restraining influences, he goes along in life pursuing his own desires, ignoring everything that, to his mind, is a so-called commandment restriction. All this because he refuses to admit any such thing as God.

Why are some people so blinded to reality? How can they refuse to believe in something that is so obvious? Faith, simply defined, is the ability to believe something on the authority of another. In this case, the authority is God. Not at all. In fact, it is more impossible to get along without faith.

Everyday and countless times each day we practice faith, whether we believe in our own fellow man. We entrust our very lives to them without the slightest hesitation, and without question.

We ride buses without questioning whether the driver knows anything about driving the bus. We eat food prepared by others without questioning whether the cook knows the difference between butter and rat poison. We go to a pharmacist with a prescription without knowing whether the pharmacist is acquainted with the contents of all those little bottles and big, fat jugs. And without hesitation we gulp down the first dosage with the highest confidence that it will do us some good.

How many times have we entered buildings without even questioning whether the building inspector has inspected it as to its structural soundness. We seldom if ever thought that it might come tumbling down on our heads. How often have we stepped up to an Airlines ticket window and purchased a ticket for a ride from one end of the country to the other without ever giving a thought to whether the pilot was qualified to fly the plane? Did we check to see if the plane had been gassed before take-off? Did we thoroughly investigate the theory of flight through the air in a plane?

In so acting did we act intelligently in all these things? We certainly did not. We were practicing faith in human beings. And it was an act of great faith in every instance. But we certainly did act intelligently. We could not possibly act any other way. Life would be infinitely too short to do otherwise. By the authority of others we believed the cook was qualified to cook. On the authority of others we believed the pharmacist knew his business. On the authority of others we strolled leisurely into one building after another knowing that we were safe therein.

Knowing the care that airlines take with the training of their pilots we knew that, as far as is humanly possible, this pilot, entrusted with this plane and human cargo, was well qualified for the trip that we would arrive at our destination.

Faith in human beings is the ordinary thing. Certainly there is nothing impossible about it. We do it all the time.

The strange thing is that we so freely entrust ourselves to other human beings; frail, not-too-intelligent human beings; human beings no better than ourselves; human beings even inferior to ourselves; sinful, imperfect human beings. Why then, in the name of that is Holy and Good, do we hesitate and argue against and ridicule the very idea of Faith in an All-perfect, All-just, Infinitely-intelligent and Supreme All-mighty God!

The Spinners

Day rising mid't ravelling webs of night
Respins into gold — tangled purple strands,
Catching loose ends; spinning each tight;
Each silken thread with sure nimble hands
Into ribbons of time endless and strong,
Ever withstanding weights life may bear.
Night only spins webs, exotic, unstrong —
Laxed with burdens they forever must share.

—GLORIA E. GOSNELL, NMRI

Unspoken

Melodies of love pour from thy heartstrings
Sweetly as melodies from silver-stringed harps,
Enchanting thine eyes, thy voice sings
Lilting musical themes so gentle yet sharp,
In harmony blend with my heart's throbbing beat.
Though thy lips speak not one word of love,
Thine eyes, thy voice have betrayed love sweet.
My soul soars high as the white winged dove!

—GLORIA E. GOSNELL, NMRI

NDS Has New Post Graduate Course

Sixteen dental officers reported July 5 for special postgraduate study at NDS. They will complete their course about December 21. Four other officers who completed the course this year have returned to take specialized courses in oral surgery and prosthodontia. New students are: Front Row: LTJG V. H. Silberstein, LTJG C. Kohler, LTJG H. S. Kramer Jr. and LTJG W. B. Kovacs. 2nd Row: LTJG F. G. Evans, LTJG G. R. Courage, LTJG O. H. Hower Jr. and LTJG V. L. Hohson Jr. 3rd Row: LT W. A. Nelson, LT G. A. Pfaffmann, LT W. C. Resenberg and LT L. M. Kraske. 4th Row: CDR E. A. Walsh, CDR W. N. Gallagher, CDR N. Shipley and J. H. Atkins. Students for specialized courses are: 5th Row: LTJG W. R. Aples, LT R. M. Bishop, CDR G. L. Miller and CDR V. L. Anderson.

Basic Course Graduates

LTJG Brady Leads Class With Final 92.7 Average

LTJG Luther W. Brady, Jr., MC, USN, graduated June 30 from the six months course in Basic Concepts of Naval Medicine for Junior Medical Officers as honor student with an average of 92.7. He was followed by Allan M. Gunn-Smith with 91.6 and Charles H. Miller with 91.5.

Dr. Brady is awaiting temporary additional duty orders to Duke University for a five months course in Radio Active Isotopes, and then a three months tour of duty at the Atomic Energy Commission, Oakridge, Tenn.

Definition of a cynic: One who doesn't even believe that the stork brings baby storks.

Not Much Research Involved

By R. Conaway

From all reports, the NMRI staff picnic, held on Friday, July 6, 1951 was a huge success. The Researchites began to assemble at the Bethesda-Chevy Chase Recreation Center at 1630, and 'twas close to 2130 before the last weary, but contented straggler wandered home.

A good stiff game of softball was played by the more rugged members of the staff, while the rest of us just sat on the grass and did the heavy "looking on".

Plenty of refreshments and cold drinks added zest to this carefree and pleasant interlude, and provided a good background for the staff to become better acquainted with each other. Our CO, CAPT Wilbur E. Kellum, and our Personnel Officer, LTJG G. J. Sabbag, stopped by to see the Researchites at play, and both thoroughly enjoyed watching the sack races the fellows and gals engaged in.

Aboard for duty are the following: LCDR J. H. Stover, Jr., MC, USN, from Johns Hopkins University; L. C. Granger, HMC, USN, from Naval Medical Repair School, St. Louis, Mo.; C. J. Sylvester, DTG3, USNR, from Receiving Station, Great Lakes, Ill.; and R. K. Ledbetter, HN, from the Naval Hospital, Annapolis, Md.

Hear tell that R. R. Sullivan, SN, MAA of Barracks 142, was married on July 7. Preceding him by one week was J. F. Waddell, HM3, who took the step on June 30, and on July 8 W. J. Roesch, SN, also whispered "I do" to the preacher. I've said it before, and I repeat, "Cupid sure works overtime at NMRI!"

Some late scoops just in; the kind we hate to receive: Orders for E. T. Majchrzak, SN, and M. Heyliger, SN, to the U.S.S. Hood (DD 655); R. Shumaker, FN, transferred to the U. S. Naval Training Station, Newport, R. I.; W. J. Roesch, SN, to the U.S.S. Fremont (APA-44) at Norfolk; J. J. Dauksha, HN, for duty aboard the U.S.S. Coral Sea; T. H. Melchi, HM3, to Brooklyn for further assignment; H. Dressler, HMC, USN, to NAMRU, Cairo, Egypt; R. K. Burgess, HM1, to Brooklyn for further assignment; and S. O. Toler, HMC, to Charleston, S. C., for duty on the seagoing tug, U.S.S. Umpqua.

Med Photography Class Graduates Six

Front row: HMC A. Lee Green, CAPT B. W. Hogan, CAPT Enyart, and HMC Eleanor Longcope. Back row: HM1 Gerald McDaniel, HMC Lawrence Whited, HMC Raymond Oswald, HMC Harry Olfield, and HM2 James Miller. The class graduated July 6 with Chief Green and Chief Olfield leading the class with final scores of 95.

Center Chatter

By Frank Winn

The familiar face of Chief Henderlite moved about the grounds last week as the Chief took a little time off from procuring chow for the mess at Solomon's Islands to visit some of his old friends. Henderlite is serving on independent duty there at the Naval Ordnance Testing Lab.

The cut-over of pay records is nearly whipped now and I am happy to say that every voucher that was in the Disbursing Office prior to July 16 has been entered on the respective pay records. Everybody should be happy now as far as pay is concerned.

If you have any questions concerning items of pay due to you that you feel you haven't received, it would be a good idea if you made a show at the Disbursing Office prior to July 31. On August 1 the old pay records will be forwarded to BUSANDA for final auditing. It will then be several weeks before any back items of pay can be entered on your pay account.

This American League pennant race is becoming tighter each day. Our rabid Yankee fans, G. E. Miller, Tom Brothers, George Funk and a host of others, have had to crawl into a hole for the present time while Pat Wynne, S. J. Cooper, and Harris rub it in good. The Yanks have been faltering badly in the past two weeks but this writer doesn't expect this slump to continue.

When the end of the season rolls around the Yanks will be either riding on top or pushing the leader down to the final game. My team isn't doing so hot this year so I'm pulling for the Bosox although deep in my heart I know that New York will give them some very rough sledding.

In the past three or four weeks Tom Brothers has been giving further proof of his all around sporting ability on the local links. The first time out this year Tom shot a low 41 and has been shooting in the low forties since. It seems he doesn't keep score anymore when Jim Shannon and his famed left hook plays with him. Jim is very conscious of this hook of his. (So Tom tells it.)

The other night while they were teeing off on No. 7 down by the pond, Jim decided he had lost his last ball in the woods. He lined his feet up to play the hook perfectly and raised his club to swing. He met the ball squarely. You have never seen a straighter ball in your life—straight into the woods. At last report Jim hadn't given up the game but was thinking about it very seriously.

Congratulations to Gene Devol who took the fatal step while home on leave in Ohio. The new Mrs. Devol is planning to move east to be with Gene soon.

Navy Belles

by George

Just around our house: Beach chairs outside our house and girls hunting a place to keep cool. We have a shortage of ice cubes since hot weather set in.

The past few weeks the barracks has sounded like an unorganized study hall. From the subjects discussed you could tell the girls were learning to be sailors.

They tell me Joan Madden has joined a lonely hearts club—result of a mysterious letter she received. "Ginny" Young tells me she does not have a Boston accent; excuse please. It is a Maine accent, but it certainly has a New England twang.

Betty Hopper is climbing up the tennis ladder to the place Millicent has on top. Josh and Maggie are after the rail on the same ladder. Minnie Smith has a nice new hair dress.

Nadine is back after a long awaited leave. Ruth Ross is visiting Ward 129 with a broken arm; hope you are better soon, Ruth. The sewing machine has been very busy, and the night lamp is burning by Stella, who has many things to do before Aug. 9—the day of her wedding.

Welcome to Margrette Williams, DT2, USNR recalled, and Doris Stevens, DT3 from Barracks K. These girls reported in for dental staff.

Hopper is some carpenter—tore our dresser apart and put it back together with no pieces left over. Louise Miller is going to summer school taking history. I think she has just found out there are other states besides North Carolina. Also going to summer school are Minnie Smith, and Lenora Hill, who are taking speech. From all reports we think it should be called drama school.

Latest change of jobs: Millicent has moved down two decks. Hope you like your new job, Millicent. Tillotson has been entertaining the Army lately. When the change-over Tillie? Maggie McQuarrie is finishing prosthetic school and has been working in the school office. Dorothy Fleming is back in line after 20 wonderful days back home in Ohio.

The past weeks found our girls in a dither over where to find a formal to wear to the dance, and if they did have a formal where would they hang it?

July 24 found our softball team and rooters on their way for a return game with Fort Meade. After the game we had a fine time of singing and fellowship at the Wac's barracks.

To all my shipmates, Happy Waves Birthday from the girl from the heart of Maryland.

Camel Caravan Brings Fun and Cigarettes to Wards

The Camel Caravan came to NNMC July 17 with a colorful traveling road show. Before their performance in the auditorium, the stars entertained patients in the wards. Left: The Terry twins, Arlene and Ardelle, distribute cigarettes in Ward 105. Pfc. M. Gutfleisch of Brooklyn, N. Y., receives Camels from Ardelle. Right: HN Robert S. Koonce, Korean casualty, receives cigarettes from tap and specialty dancer Margaret Brown on Ward 3-C.

Commendation Letter Awarded to Chaplain For Korea Action

LT Robert L. Patton, Chaplain Corps, USNR, was awarded the Letter of Commendation July 9 for excellent service in the line of his profession while serving with a Marine infantry regiment during operations in Korea from Nov. 7 to Dec. 10, 1950.

The award was presented by RADM Clifford A. Swanson here at NNMC where LT Patton is now on duty as Protestant Chaplain.

Chaplain Patton constantly spent long tedious hours ministering to the spiritual needs of the members of his battalion. On one occasion he moved with a battalion which was spearheading an attack. Though constantly exposed to direct enemy small arms and automatic weapons fire, he worked tirelessly in administering first aid and consoling the casualties.

Before entering the Naval Service, Chaplain Patton graduated from the University of Tulsa, Tulsa, Oklahoma, and the Garrett Biblical Institute, Northwestern University, Evanston, Ill. He was the pastor of the Bethany Methodist Church of Chicago, 7749 S. Winchester, Chicago.

CAPT Hogan Congratulates NMS

To the officers, enlisted men, and civilians of the Naval Medical School:

I wish to tell you how proud I am to have been associated with you during the last year and that you should have a justifiable pride in yourselves for being a part of this Naval Medical School, for it is one of the most important installations we have. The school over the years has made valuable contributions to our Navy and to civilian medicine.

During the past year you have been responsible for bringing to completion the most outstanding medical publication in this country, The Color Atlas of Pathology.

You have seen the correspondence training division set up and function most satisfactorily for the benefit of thousands of regular and reserve members of the Naval service.

You have been responsible for the opening of the new school of optometry supplying all the highly trained technicians in this specialty for the Navy; the successful reestablishment of the post-graduate training for medical officers during the past year; and the continuation of the very important course in atomic medicine.

Of particular note during the past year was the evening guest lecture series bringing to Washington scientists of world wide fame. Also, the introduction of the course in epidemiology for medical officers, medical service corps officers; and organizing indoctrination course for other Naval hospitals.

Our 14 technical training schools have turned out technicians of the highest quality.

The Tissue Bank, placed in operation during the year, has gained world wide fame, and its exhibit won first prize at the American Medical Association convention in Atlantic City.

During the year our staff has presented papers to the leading scientific societies of the country and abroad. Two of our young doctors are in London today presenting papers on work done here.

I said I am proud of you and you should be proud of yourselves. I wish to express sincere words of thanks to you as a group and individually for having accomplished so much.

We owe a large measure of thanks to Admiral Pugh, Admiral Brown, and the Bureau of Medicine and Surgery, for their constant support and advice.

To Admiral Swanson and staff for their wise direction and assistance; the maintenance department has been exceptionally willing and prompt in filling requests made; to the Naval Institutes of Health for the generous use of their top scientists in our teaching program.

We have enjoyed from Captain Gillett and the hospital staff great cooperation and assistance and also from Captain Kellum of the Research Institute; Captain Mitchell of the Dental School; Commander Zimmerman of the School of Hospital Administration, who always gave us their full cooperation.

To all of these we express our warm thanks.

The duty as commanding officer of the Naval Medical School has been one of the most satisfactory of my career and I leave you with great regret. You are one of the finest outfits in the Naval Medical Corps.

The Naval Medical School under Captain Enyart, with your help and assistance, will continue blazing the trail of outstanding achievement. I congratulate you both.

Signed B. W. Hogan

New Finance Officer, LCDR Stevens, Began Career as Apprentice Seaman

In 1924 LCDR Eugene Stevens, MSC, present NNMC finance officer, began his career as an apprentice seaman. 1924 to 1950, when he received the rank of Lieutenant Commander, represents 26 years of hard work, coming the ladder step by step.

Perhaps the key to the success of the soft-spoken Mr. Stevens is his interest in his work. Asked about his job, he replied "It's something I like and understand."

Born and educated in Sacramento, Calif., Mr. Stevens joined the Navy to spend 18 years working his way up to his Ensign commission in 1942. His first assignment

found him as assistant fiscal agent at the Armed Services Medical Procurement Agency in Brooklyn, N.Y. School again—this time here at NNMC, NSHA ten months' course in

While attached to BuMed he attended the USAF Command School at Craig AFB, Selma, Ala. In April of this year he reported here to replace LCDR H. T. as the NNMC finance and phone officer.

At present he and his wife and three-year-old daughter live at Wilmett Road, Bethesda, Md. After years of USN, Mr. Stevens has plans of retiring. Pleased with his present assignment, he hopes to stay here for some time.

LCDR Eugene Stevens, MSC

as an officer was at Dutch Harbor, Alaska where, as the only hospital corps officer in the area, he was in charge of the medical store house and all the dispensaries on the islands.

In 1944 he received his BA in business administration and accounting at the Southeastern University in Washington, D. C. Later that year he was assigned as finance officer at the Long Beach hospital where he remained until 1948.

Crossing the country again, 1948

Decorate FMF Corpsmen For Gallantry in Korea

The Secretary of the Navy authorized presentation of five Silver Stars and four Bronze Medals to the Navy Hospital Corpsmen listed below for conspicuous gallantry and intrepidity while serving with the U. S. Marines in action in Korea.

Silver Star: Richard Hopwood, HM2, of Anacortes, Wash.; William LeGarie, 26, HM1, of Oceanside, Calif.; Charles S. Ray, HM3, of Long Beach, Calif.; William S. Trent, 37, HM1, of Los Angeles, Calif.; and Edward Yackley, 25, HM2, of Los Angeles, Calif.

Bronze Star: Robert S. Kellum, 20, HN, of Blytheville, Ark.; J. Lasso, 25, HM1, of Woodbridge, N. Y.; Salvatore A. Siani, 30, of Philadelphia, Pa.; and Edward Simons, 26, HM3, of Detroit, Mich.

ConditNH Staff Says Farewell to CAPT Gillett with Party-Dance

Left: The party's honeymooners, HN and Mrs. Billy W. Anderson, who were married three hours before the dance.

Center: CAPT and Mrs. Gillett cut the cake. Left to right—CWO, HC, N. J. McCurdy, Mrs. McCurdy, Mrs. Gillett, CAPT R. M.

Gillett, Mrs. Bonnell, LTJG T. V. Bonnell, Mrs. Winne, CDR K. F. Smith and LTJG R. E. Winne. Right: Chief Hollis S. Murphy who sang several songs at the farewell party for CAPT Gillett in the recreation building gymnasium July 6.

With the gym decorated with an oriental theme and couples dancing to the music of Sydney's from Washington, D. C., the enlisted personnel said farewell to CAPT Gillett July 6.

The Captain leaves his duties as Commanding Officer of the Naval Medical School for an assignment in Japan.

Present at the party-dance were CAPT and Mrs. R. M. Gillett, RADM and Mrs. C. A. Swanson, CDR K. F. Smith, NC, and other officers connected with the school.

Chief Murphy, HM2 R. B. rows and HM3 Catherine denning, with the help of the crews, saw that everything ran smoothly.

Coach's Corner

In every boy's life there comes a day when your father takes fishing; he allows you to use his rod; he points out possible s to cast a fly; he untangles your backlash from an overhanging gh; and you get the thrill of looking at your Dad's face after you e safely creeled your first rainbow. Such an experience you never e. However, it often marks the onset of trout fever, which is a urrent disease that affects many Waltonians throughout the world. ing cast a feathered lure in the granite fastness of the Sierra ada to the tundra banks of Frenchman's Creek on Adak, a name the Tobyhanna beckoned, and herein lies today's lead paragraph. Turning away the other day from Split Rock Lodge, on the Toby- na in the Poconos, it seemed a good idea to take the short cut ough Mauch Chaunk and hurry on to the Neversink for the even- ise. However in passing through the wilderness that surrounds Rock I came upon the Tobyhanna again, and stopped to watch fish rise. Three fish began to feed. Right then I pulled on my rs, set up a rod with a Grey Hackie and hurried through the to reach a point below the riffles.

The first change I noticed in the forest was a sudden silence, a that fell on all the singing birds; even the rustling of the leaves ed. The peculiar whine of an uncoiled automatic reel punctuated silence, giving a sharp reminder of a Nambu; looking up I saw a w angler melting into the alders, a warning gesture on his lips. I experienced that peculiar feeling we have all known. I felt, someone or something was secretly looking at me.

I thought that I might whistle a little tune, "to the shores of Trip- just to encourage myself and the other whistlers. I refrained and y inched forward marking the recurring cheerful chatter of the when I saw two deer all of a size, peering sedately out of a of rhododendrons. Their eyes and ears were turned toward a ring where a vista of grass and violet leaves arched between two ive gray rocks greened by moss.

My feeling was that of an intruder. I felt I should retrace my but there I stood fascinated by nature's tranquility, like a small with upturned nose pressed against the window pane of a pet I followed the gaze of the deer, my pulse quickening. To my ishment, I was looking right into an eye gazing over the top of rocks. Like a burnished oval of copper, this eye blazed me with ower. I made out the jaunty curve of the beast and one or two details, such as a wattle, but the majestic serenity of that wither- gaze fascinated me.

Next there came a shadow on that mossy strip, and at a proud my first wild turkey paraded into full view. For a few instants d a fleeting glimpse. His bronze wings and glittering chestnut equaled in beauty by the sweeping back, burned against the green an autumn fire.

I slipped away, clothed in that mantle of contentment akin to hav- visited an age-old cathedral. On the road back to the lodge I upon my fellow intruder, a sports writer from Gotham and ends the tale of my trip to the Tobyhanna.

A few nights back, Dental and Commissary tangled in a soft-ball for the league lead, with Commissary coming out on the long of a 5-4 count. The culinary gang, paced by the Varsity mound of White and Godda had their hands full up to the last two gs where the tide changed in favor of Mosely and company. s screaming drive toward the torrid corner handcuffed the pop- arbitrator, Moose Barker, who almost qualified for the lead in a ar Gilbert and Sullivan theme.

Chief Reynolds had his ace crew of umpires on duty for this cru- contest; Cornell Brothers behind the rubber, Winn on first and r on third, left no room for argument in their excellent handling game. Tiger Beckley, popular sports figure and guardian of the r sack for the Dental School, suffered a fractured metacarpal in fth inning and had to leave the game. His many friends wish a speedy recovery.

The subject of casual water came up the other day in the golf and the following is quoted for information and guidance. "Cas- water is any temporary accumulation of water which is not one e ordinary and recognized hazards of the course. Snow and ice casual water unless otherwise determined by local rule.

"If a ball lie or be lost in casual water through the green, the er may drop a ball, without penalty, on firm ground as near as ble to the spot where the ball lay, but not nearer to the hole. Ball when dropped, roll into the water it may be redropped with- penalty.

"If a ball on the putting green lie in casual water, or if casual r intervene between a ball lying on the putting green and the the ball may be played where it lies, or it may be lifted with- penalty and placed in the nearest position to where it lay which t nearer to the hole and which affords a stroke to the hole with- casual water intervening. A ball lying so near to casual water, the water interferes with the player's stance, may be treated as lay in casual water."

Ball scars are once more appearing on our greens—let's protect velvet, creeping bent by replacing all plugs on the putting sur- s. It is the duty of every player to perform this task and to point to others their oversight, or neglect.

Jimmy Nichols, One-Arm Golfer, Gives Exhibition Here; Displays Result of 22 Years of Hard Struggle to Top

Left: Jimmy Nichols demonstrates how he shoots using a right handed club with his left hand. Right: Mr. Nichols talks to 3-C patients (l. to r.) James Carroll, RMN1, USN; Pfc. Franklin Hoak, USMC; and Cpl. Charles Abbott, USMC. Losing his right arm in 1929 when his auto was struck by a train, Nichols learned to play golf and developed his game until he was hired for exhibitions by the Spalding Company.

Commissary's brilliant nine reel- ed off five more victories in the past two weeks to complete an unbeaten season and cop their second straight intramural flag. Transfers caused the dropping from competi- tion of Lab 16 and Surgery. A further ruling by the Athletic Of- ficer that all games played before dropping from the league shall stand in the records, leaves NDS in a good spot to tie Qtrs. 12 "A" for second position. In that event a playoff will be held on Thursday, August 2.

Commissary's sweep included a swamping of Med School by com- bining 18 hits with 8 walks and some loose opposition fielding to run up a 25 to 1 win. They fol- lowed this with a thrilling win over NDS by a slim 5 to 4 margin. Dental opened up a 4 to 0 lead and

with Tom Fitts mowing them down with regularity for four innings, the upset of the year looked like reality. However, the champions rose with a vengeance in the fifth to counter five markers on four hits, a walk and an error. "Whip" White settled down to whizzing and maintained the winning edge by facing only ten men in the last three innings.

Their next encounter saw "Whip" spin a no-hitter as X-Ray tasted a bitter 17 to 0 reverse. "Rocky" Rock moved from shortstop to the mound to hand the NDS Officers a 17 to 4 loss and in their final ap- pearance the champions were handed a real scare by the NH Doc- tors before they paraded sixteen men to bat in a big 11-run fourth inning. Mosley put the winners in front with a four-master over the left field fence for two runs. How- ever, the Officers countered with four on a long blast to right by Dr. Padgett.

They added one more in the third and with Dr. Cantwell toss- ing effectively the champions were "shook". Coach Cain settled them down with something for they stepped up in the big fourth to slap nine safeties for the lead and the win.

Qtrs. 12 "A" assured themselves of a tie for second with three straight wins. They edged the NH Doctors 4 to 3 on a Pat White blast in the sixth inning, good for two markers. They followed this with an easy win over the transfer-rid- dled Surgery nine. The score was 17 to 9. Research gave them alarm in their finale as they surged from a seeming defeat to score two runs after two were down in the last inning to tie at three-all. The winners rebounded in their half to counter the winning run on an

Admirals Win Two To Take 2nd Place

On Monday, July 23, the Admir- als traveled to the Gun Factory where they played the USS Wil- liamsburg. After seven innings of good pitching and heads-up defen- sive play, the final score was 13-3 in favor of the Medical Center.

Power at the plate was the key- note of this game for the Admirals. Mosley (Lab 16) hit a homerun in the third inning, Fitts (NDS) hit a homerun in the fifth and Houllion (NH) a homerun in the sixth.

Continuing the heavy hitting at- tack, the NNMV varsity whipped the Army Medical Center 8-0 July 25. Goda (Commissary) connected in the second, Houllion (NH) and White (NH) connected in the third. This makes six home runs in two games by five different players.

The seven-hit attack, including two homeruns, in the third inning broke the spirit of the Army Medi- cal Center team and from that point on good defensive play on the part of the infield and outfield gave Dias (Surgery) a shutout ball game.

LEAGUE STANDINGS

2nd Place—	National Naval Medical Center

error, passed ball and a single. McMinnis turned in a fine mound performance for the winners.

The losers protested this game on an arbiter's decision in which a runner was called out for running inside the baseline. The protest has been ruled down since the um- pire is correct in rendering this decision when such action inter- feres with an opposing player mak- ing the play at the base. The um- pire states that a ball was bunted and the batter in running to first, ran three feet inside the baseline and prevented the pitcher from making a play.

Research won their first game by topping the NH Doctors on two four baggers in a row in the last inning. Condomitti and Talbot wielded the winning sticks.

"Hammy" Hamilton Tells of Sea Duty

Flora L. Hamilton, HM2

"I was stationed at New Orleans when I got my orders for duty aboard the USS Ault, DD 695," says Flora Lee Hamilton, HM2, thus claiming the distinction of being the first Wave to serve aboard a destroyer.

Although the orders were only for a five-hour period while the Ault made a short run up the Mississippi River, Hammy can truthfully say she has had duty aboard a "tin can".

Hammy claims Mississippi as her home state; she was born on Feb. 13, 1923 in the town of Ofahoma. She attended high school at Carthage, Miss., and Central Junior College at Decatur, Miss. A year spent in Nurse's Training at the University of Tennessee provided a good background for her present assignment as a hospital corps wave.

In June of 1944, Hammy left for Hunter College in New York to begin her training as a Wave. After spending a stiff six weeks in learning how to become a good "sailor", orders arrived for Hospital Corps School, and St. Albans was the next top for this new Wave!

Her first duty station was at Parris Island, South Carolina; then came Charleston, S. C., New Orleans, La., Corpus Christi, Tex., and finally Bethesda, Md., for the purpose of attending Chemistry School.

After graduation from Chemistry School and 30 days leave to recuperate from the rugged 12 months spent in learning the ins and outs of "Bettas and Gammas", Hammy was transferred to the Radiation Technology Division of the Naval Medical Research Institute.

When asked about hobbies, Hammy claims she is pretty much interested in basketball and softball. As proof of her very active interest in these sports, Hammy was official scorekeeper for last fall's basketball six and was manager of this spring's softball team for the Waves.

Admiralettes End Season With 5-1 Win Over Wacs

NNMC Admiralettes finished up their league softball season with a 5-1 victory over the Wacs at Fort Meade. This was their second win of the season, having lost 6 league games.

But for a team who entered the league without one full-team practice and was often short-handed because of duty nights, the team showed considerable improvement in skill and spirit before closing the season.

Sole pitcher McQuarrie is credited with 60 strikeouts in 53 innings of play, allowing 25 walks.

Batting averages for the team were as follows:

	Games Played	Av.
Hopper, 1b	7	.538
Scott	3	.444
Dennett, 3b	3	.428
Shook	2	.428
McQuarrie, p	8	.366
Schmidt, cf	7	.350
Jarvi, lf	7	.277
Amott, 2b	8	.240
Madsen, ss	5	.210
Allen, c	7	.208
Salisbury	4	.200
Glendenning	3	.111
Miller, rf	7	.055
Nelson, 3b	3	.000
Johnson	4	.000
Manning	2	.000

Miss Szczypin Finds A Challenge in Work

LT Clara T. Szczypin, NC

LT Clara T. Szczypin, (Pronounced Shipin) NC, USN, instructs the neuro psychiatric technicians here in the newly opened N. P. school. Interested in psychiatry since she came in contact with this sort of work while employed by the Veterans Administration, Miss Szczypin is enthused over her job as well as with the progress being made in this young field.

In the Naval Reserve for three years during World War II, she had previously graduated from nurse's training at Misericordia Hospital, Philadelphia.

Miss Szczypin recently received her B.S. degree in Nursing Education at the Catholic University of America in Washington. She completed the work before returning to the Navy last February.

Among her varied interests, she lists people as the most prominent one, as she takes an active interest in the welfare of the patients, corpsmen and nurses. "The world is so full of interesting things to do, and so many opportunities in Washington — there just is not enough time to do all I'd like to," she said.

For hobbies she lists oil painting, gardening, and reading. She also plays the piano—both classical and modern music. Constantly interested in new things, she is looking forward to learning leather crafts and jewelry work.

The acquisition of her brand new Plymouth was quite an event in her life a few months ago and she spends much of her time taking rides and using it for transportation to picnics, concerts and movies.

Taking a serious interest in her work, Miss Szczypin feels the field of psychiatry offers a challenge, owing to its youth and to the ever-increasing number of mental patients being admitted to hospitals in the United States.

Did You Know?

Metal pellets that travel at speeds up to 3.7 miles a second, or 18 times the speed of sound, have been fired by the United States Navy.

Venice has 500 miles of canals. Traffic has so increased that the city has been obliged to install traffic police to regulate the flow of gondolas.

Professional boxing had a million-dollar gate on eight occasions — for the Dempsey - Carpentier, Dempsey-Firpo, Dempsey-Tunney (Philadelphia), Dempsey - Sharkey, Dempsey-Tunney (Chicago), Louis-Baer, Louis-Schmeling, and Louis-Conn fights.

Ho Hum: "Give me a sentence using the word bewitches."

Ham: "Youse go ahead—I'll bewitches in a minute."

Dental Explorer

Recent arrivals (not including those by stork): Margarette M. Williams, DTG2, reported aboard from the Naval Receiving Station in Washington, D. C. She is on duty in the Crown and Bridge Section of the Prosthetic Department.

Doris J. Stevens, DT3, reported from the Navy Department Dispensary in Washington, D. C. She has been assigned to the accounting office in Building 122. Lots of business in that office recently—all strictly Navy, of course.

Recent departures: CDR T. A. Lesney, DC, USN, departed for his new duty station on July 13 for Naval Medical Unit, Tsippler Army Hospital. We understand CDR Lesney is not a "Malahini" to that area, so to "Kamanina" Lesney, "Aloha" and best wishes for a pleasant tour.

Simplicio C. Parojinog, DTG2, and George Simko, DN, were transferred on July 13 to the Navy Department Dispensary, Washington, D. C. Warren K. Harding, DN, left for duty at Administrative Command, Naval Training Center, Great Lakes, Illinois.

To all, good luck on your new duty stations.

Success department: During the week of July 9 George Simko and Ronald C. Thomas were advanced from DA to DN.

Romance department: J. Turan, DT2, and Stella Sandel, DN, will exchange their wedding vows, weather permitting, on Aug. 11, 1951. Congratulations and best wishes.

What's Brooklyn got that makes McCline so anxious to visit it every weekend?

Distinguished visitors department: Elgin "Rembrandt" Campbell, DT2, recently transferred to the Atlantic Fleet, renewed old school ties here a few days ago. Says he doesn't care for sea duty, especially when all the CO can say is "No liberty for the crew tonight!"

Dr. Huff Brings Lizards Back From Panama Trip

Dr. Clay G. Huff

In June, Dr. Clay G. Huff, Chief Parasitologist of the Naval Medical Research Institute, visited the Gorgas Memorial Laboratory in Panama and made field trips from there to the interior of Panama, making collections of parasitological material.

Most important of the field trips was an expedition to the Province of Chiriqui, adjacent to Costa Rica. The extinct volcano, El Volcan, represents the southernmost range of a large genus of lizards. Dr. Huff found a malarial parasite in these lizards and brought back living specimens for study.

Traveling Olfield Joins Staff Here

Harry N. Olfield, HM

Travel was nothing to Harry Newton Olfield. When out of high school at 18, he joined the Navy. Born in Bingham, Utah, he had already lived four times, living in Colorado, Mexico, and then to Green, Wyoming.

Since his enlistment in 1932, he has seen duty aboard the USS Saratoga and the USS Lexington at Canacao, Philippine Islands; Tientsin, China, and during war years he was on Guadalcanal.

He has had duty at Great Lakes, San Diego and Philadelphia hospitals. He can claim quite a seniority at NNMC too, as he was here 13 months before the hospital was commissioned, with contracts for building material. Stationed at the Naval Medical Supply Store House in New Orleans from 1945 to 1946, he returned to the Pacific in 1946 for duty on the Johnson Islands and Hawaii until 1949.

Returning to the States, it was duty at the Naval Air Station, Quonset Point and then here at NNMC for Medical Photography School. The chief had been experimenting with photography about 10 years as a hobby, but attending the school. His interest was reflected in his grades and tied with Chief Green holding down a 95% average when the class graduated this month.

All of his Navy career has been hospital corps with the exception of two years in the 1930's when he was a fireman. With his 20 years in now, the chief says he is tired (when the government is) to retire. And when he does, he plans to catch up on a lot of fishing and hunting.

Wyoming is the place to go, according to him, where the hunter can choose among elk, deer, antelope, bear, cougars, wolves and wild cats. A good shot without gun, the Chief shoots in the 80's on the golf course.

Married since 1946, Olfield has a father of two girls ages four and two. He and his family live in Hyattsville. Since his graduation from Photography School he has been assigned to NMS Staff.

Junk man: "Any beer bottle for sale, lady?"

Aunt Matilda: "Do I look like I drink beer?"

Junk man: "Any vinegar bottle for sale, lady?"

Then there was the bitter match between two Scots and a broiling sun in which one of them had a stroke—and the other him count it.

MEATBALL

When it comes to beauty, let's take bewitching Rhonda Fleming. In this picture, she's listening to the roar of the surf in a sea shell. On location in Florida, Rhonda is working in "Crosswinds," in addition to the costume you see.

Pet Peeve Dept.: Old men who fall asleep on my shoulder on the bus.

Old women who fall asleep on my shoulder on the bus.

Young women who stay awake.

"Tell me more about their making you head man aboard ship!"

House Of Magic Comes To NNMCMC Next Saturday

"Seeing" around corners or through a brick wall might seem impossible at first though, but it's an easy matter for the "micro-unit," one of the many scientific devices to be demonstrated at the General Electric "House of Magic" show in the NNMCMC auditorium Aug. 18 at 1800.

The science show has been presented before more than 13,000 persons during the past six years, and was one of the hits at World's Fairs and major exhibitions.

The "House of Magic" got its start from the late Floyd Gibbons, a lecturer and foreign correspondent, who so dubbed the General Electric Laboratory, in which scientists discovered the phenomena presented in the science show.

A man shaking hands with his shadow, visible sound and light, a toy electric train which obeys voice commands, a light which explodes, lighting an electric light with a match—these are many other demonstrations to be presented.

Among the most impressive features of the show is that of sending a record across the stage on a light beam. A record is played, and music is sent across the stage on a loud speaker on a narrow beam of light. The lecturer is to interrupt the music merely by breaking the beam of light with his head.

Holloway Cited; 'Job Well Done'

Robert Lee Holloway, HM3, USN was commended July 31 by CAPT J. L. Enyart, CO, NMS, for outstanding work in the Tissue Bank.

A letter to CAPT Enyart from LTJG C. A. L. Bassett, MC, USNR, of NMRI, said of Holloway, "The excellence of his work in histology and histochemistry, in addition to his other duties in the Tissue Bank, has made possible a wider research program."

Originally from Pinckneyville, Ill., Holloway had been at NNMCMC since November of 1949. He was detached July 31 for further assignment from San Francisco.

C. K. DeWitt, NNMCMC's Man Friday

Chief Quartermaster Electrician Charles K. DeWitt is a man of varied talents and responsibilities. Besides being in direct charge of all air conditioning, refrigeration, electrical, plumbing and pipefitting repair maintenance he's always around to lend a helping hand with the installation of electrical wiring and PA system for special ceremonies and dances.

Civil Service position in 1928. Prior to coming to NNMCMC Mr. DeWitt worked at the National Art Gallery and the District Public Works.

Mr. DeWitt is married and has two sons. He and his wife, Laura K., who is Head of the Receipts Control Section of the Purchasing Office, live in Qtrs. C-2 on the base. On call 24 hours a day for any emergency repair work, Mr. DeWitt must be near at hand at all times.

As for recreation Mr. DeWitt places bowling in the winter and South Carolina fishing in the summer at the top of his list. He returned a few weeks ago from trying his luck at fishing and from all reports he did very favorably.

Having worked for over nine years at NNMCMC, he has 17 years Civil Service time. Mr. DeWitt has seen NNMCMC change and grow. He has served under six NNMCMC Commanding Officers, rising from electrician to Chief Quartermaster Electrician.

With no intentions on leaving this area for many years to come—Mr. DeWitt says that WHEN he does it will be either Florida or Southern California for him.

Born at Ravena, N.Y. in 1897 he started to work as an electrician at age of 13. During WWI he went overseas with the A.E.F. for months as an electrical Sgt. for Signal Bn. After being mustered out he served his apprenticeship for electrician throughout the country before accepting

News Shorts From The Editor's Desk

Graduation exercises will be held in the auditorium of Bldg. 141 Aug. 24 at 0930 for the 22 officers in the NSHA class.

A representative from the Navy Clothing Factory is in the office of the Center News, Ward 101, every other Wednesday. He is expected again Aug. 15. Watch the Daily Bulletin for the announcement.

The tide of convention was reversed on July 26 when the wife of Chief F. N. Nielson of NMS celebrated her 26th birthday by presenting her husband with a son, Larry Wayne.

Mr. Edward Smallwood, Foreman Laborer, retired from Civil Service on Aug. 2 after 27 years during which time he rose from laborer to his present position. Mr. Smallwood is married and has one son, who works for the Postal Department in D.C.

Prior to coming to the NNMCMC, when first commissioned, he worked at the old USNH Washington, D.C. for 17 years. Now that he has retired he says that he has no immediate plans for the future except to "take it easy in my rocking chair and enjoy life."

(AFPS)—U. S. Navy uniform regulations have been modified concerning the wearing of ribbons. The new change states that no longer will there be any space between rows of ribbons.

(AFPS)—Congress has been asked to give the nation's fighting men a federal income tax exemption similar to that recommended during WW II. A bill introduced by Senator McFarland (Ariz.) would give members of the Armed Forces exemption up to \$1,500 a year while in combat or occupational military duty.

HMC Diamond, DTC Davies Step Up From 'Chief' to 'Mr.'

Top: HMC E. R. Diamond being sworn in by RADM C. A. Swanson. Below: CAPT L. D. Mitchell congratulating WO R. C. Davies.

Great Lakes Duty Next for Diamond

At 1600 Aug. 2 Emil Richard Diamond, HMC, was sworn in as WO(HC)T, by RADM C. A. Swanson. Mr. Diamond is being detached in the near future for transfer to USNH Great Lakes, Ill., where he will assume the duties of Assistant Commissary Officer.

Mr. Diamond's assignment to the Commissary Department will not be a new experience to him as he went through the Commissary Technicians School at USNH Philadelphia in 1946. Upon graduation he worked in the Commissary at USNH Camp Lejeune, N. C.

Since March Mr. Diamond has been the Chief MAA and Assistant Chief MAA of NNMCMC. On departing his duties will be taken over by William Dorosz, HMC.

Mr. Diamond is married and has one boy, Emil Richard, Jr., who will accompany Mr. and Mrs. Diamond on their drive to their new station. Prior to reporting, the Diamonds are going to take a short vacation, stopping along the way to see some of the country.

Davies Makes WO For Second Time

You can't keep a good man down! (Sometimes you can't even keep a good man...) The truth of this old adage was again demonstrated at 0900 Aug. 2, 1951 when Robert C. Davies, DTC, was sworn in as Warrant Officer, Hospital Corps, by CAPT L. D. Mitchell Jr., CO of NDS.

This marks the second time Mr. Davies has been appointed Warrant Officer, for his ability was recognized during war time. He was made Warrant Officer in July 1944 and advanced to Chief Warrant Officer in February 1946, before reductions in force caused a temporary setback in his career.

Born a Pennsylvanian, Mr. Davies lived in Pasadena, Calif., several years before entering the Navy in 1935. He has completed schools qualifying him as hospital corpsman, general dental technician, and prosthetic dental technician.

He has had duty in practically every section of the United States, having been stationed in California, Pennsylvania, Texas, Massachusetts and New York. He's had

NMS Duplication Graduates 3 Men

CAPT J. L. Enyart, MC, USN; Commanding Officer of NMS, issued certificates of graduation to three men on Aug. 3 who have completed a year's instruction in Duplication Technique. The three men receiving the certificates were G. Y. Newhouse, HM1, USN; J. L. Sandoval, HM3, USN, who will both remain as instructors, and B. D. Harvey, HM2, USN, who is going to sea as soon as he receives his orders from ComServLant.

During their year's training these men became proficient in plate making, press and camera work, and all other phases of Lithography. This school is the only one in the Navy that HM's may attend and up till now there are approximately 50 HM's holding this highly technical rating.

Little known, but hard working, this small crew of men at the NNM duplicating room turn out 31,000 copies of the Medical News Letter twice a month, The Preventive Medicine Monthly, the Aviation Medical Supplementary, all Medical School instruction manuals and the telephone book, plus all other routine printing jobs that are requested by different commands.

This department is under the supervision of George J. LeBlanc, HMC, USN, who is ably assisted by I. Greenhouse, L. G. Johnson, T. L. Wetzel, R. M. Worters, R. S. Genett, J. H. DeJong, and J. F. Donahoe.

The Chaplain's Corner

by Chaplain Robert L. Patton

'Let-Down'

Perhaps you've heard the tale of the Father who attempted real child training. Each day he set his daughter atop the family car told her to jump into his arms. When she gathered up the courage to leap, he would catch her. Then, one day, when she jumped, the father stepped back and let her plunge to the pavement. After she finally crying, he pontificated: "Let that be a lesson to you; in this world can't trust anyone."

Such surrealist psychology exaggerates the let-down feeling comes with the hottest month, with partial incapacitation, etc. But we feel just as definitely let-down as the child who was "let-down" by father. Yet we know that present lassitude is in preparation for the productive activity of the near future.

Though it seems impious to express the feeling, some of us feel down even by our Father in heaven. The feeling itself is not impious. In one sense we are let-down. God's strength has supported us fully at other times than at this minute. Even Jesus on the cross from Psalm 22: "My God, My God, why hast Thou forsaken me?" Those who have the most intimate contact with the Lord feel most keenly regular periods of forsakenness. It is easy to sermonize that there is who never lets us down, but in actual existence we regularly experience the loneliness of lack of absorption in His goodness and love.

God guarantees His presence when you really need Him and yourself to Him. You do have other work to do so that absence of the fullness of His being are necessary. But after these periods available to replenish your powers. In the Psalm Jesus quoted psalmist includes the rest of the cycle: trust because God has been in the past and hope for the future. When a pitcher is full, it can be used. When it is empty, it should be returned to the well.

Red Cross Loses Some Functions To Civil Service

In March 1950 the Board of Governors of the American Red Cross informed the Department of Defense that beginning July 1, 1951, they could no longer be totally responsible for the maintenance of medical and psychiatric social work in military hospitals.

The Department of Defense, recognizing the thirty year demonstration by Red Cross of the necessity of social services in military hospitals, charged each branch of the service to work out its plan for continuance of this service in a way that would seem to best meet its needs. Budgeted funds for 1951 to meet the expense for this needed social service were allocated.

The Navy plan for making social service available to patients in hospitals for which it is responsible has as primary, two major objectives: (1) as little interruption as possible of existing service, (2) continued clarity for patients and staff about what service and where service can be procured. The aim is to establish one social service department in each hospital incorporating both Civil Service social workers and Red Cross social workers, under technical direction of a trained social worker.

Since the official line of communication for problematic social situations continues to be with the local Red Cross Chapters in their Home Service Departments, this plan appears to offer one way of maintaining connection of joint work of Red Cross Chapters and social workers in the military hospital.

Job descriptions for social workers under Civil Service in the Navy have been carefully worked out. All workers must have completed two years graduate study in an accredited school of social work. Supervisory jobs are set up at a GS-9 level (\$4,000 to \$5,350), and workers jobs at GS-7 level (\$3,825 to \$4,575).

Applicants are wanted by many Naval installations and should apply either to the Commanding Officer or to the Civil Service branch serving the installation. Application is made by filing Form 57. Applications are reviewed by the social worker technically responsible, references are consulted by her, and recommendations for consideration for employment.

Dr. Nelson, NMRI Makes Discovery In TPI Research

by R. Conaway

The Treponemal Immobilization Test, (TPI Test) is the result of a discovery in July, 1948, by Dr. A. Nelson, Jr., Department of Teratology, Johns Hopkins University School of Hygiene and Public Health. Dr. Nelson, now a LTJG, MC, USNR, is presently assigned to NMRI as Principal Investigator of the TPI research projects.

The Test is being employed by the Navy for all personnel having a positive standard serologic (STS) for syphilis (Kahn, etc.), but no other signs or symptoms of syphilis. As a result of studies at Johns Hopkins Hospital data were accumulated which indicated that positive STS may occur in significant numbers of individuals with diseases other than syphilis and occasionally in presumed normal persons.

To date, in all these individuals with a "false-positive" STS, the TPI test has been negative. The laboratory has been established at NMRI to determine incidence of "false-positive" STS in Navy personnel. This program was instituted at NMRI as a result of a circular letter 59-51, March 1951.

Dr. H. W. Smith, from the Department of Health, Ontario, Canada, recently visited NMRI as part of a program of the Navy when scientists from foreign nations are trained in the performance of TPI Tests for Syphilis.

This program was instituted in January 1951. Previous guests and scientists were: Dr. C. W. Chalmers, Wright Fleming Institute, London, England, and Dr. A. Sausse, Hôpital Saint-Lazare, Paris, France.

Five Med School Men Study Epidemic Control

Med School has five students busily studying the causes and methods of control of epidemic. This is the first time in four or five years that this six-month course in epidemiology has been held at NNM.

With CDR H. M. Gezon, USNR, as Officer in Charge, five students are: ENS T. G. Oers, MC, USN; LTJG J. S. Oers, MC, USN; LTJG R. L. Mager, MC, USNR; LTJG C. H. Miller, MC, USNR; and LTJG N. H. W. Benga, MC, USNR.

Right: The Martinmen playing for the NNM Staff Dance at the gym.

HMC John R. Oflin, one of the instructors, teaches theory to the class.

CDR R. R. Sullivan, MSC,
Department Head

Though ophthalmic lenses are of primary interest, all types of lenses and prisms are taught. Here LT A. E. Mibeck explains prism to HM2 Coretti.

Optical Students Receive Standardized Training

The optical school has existed since 1943. From 1943 to 1945 it was not an official school and its primary purpose was not training but for the gathering of personnel with equipment for overseas optical service units. The school was located in Brooklyn, New York.

In June 1945 the school was made official with two technical specialties. The "spectacle dispenser" underwent a two-month course in which he was taught to measure the patient's face, order lenses, check, fit and adjust them on receipt. On the other hand,

the "optical technician" (six-month course) was used primarily overseas in optical units. In 1947, however, the name of these units was changed from "optical" to "ophthalmic service units" to prevent confusion with optical units repairing rangefinders, field glasses, etc.

Until 1949 no ophthalmic units were within the continental limits of the U. S. All glasses were ordered from civilian companies. But in 1949 units were established in the U. S. and two major laboratories (Medical Supply Depot, Brooklyn and Oakland) were established. By this time all the fab-

rication of glasses for personnel in the Navy was accomplished by ophthalmic technicians.

When the Naval Medical Supply Depot moved to Edgewater, N. J. in 1950, student facilities were not available, therefore it was decided that the school should be brought here in August 1950. It was placed under the direction of the Naval Medical School. At this time the name of the school was changed to "The School of Optometric Fabrication."

When the new school was established it was decided to standardize the course. The length was set

at 11 months. Those technicians who previously went through the school are being recalled to finish the new course. The new school includes all the aspects of the ophthalmic and optometric program. The students take the following subjects: anatomy and physiology of the eye, spectacle dispensing, theoretical optics, mechanical optics, optical surfacing, and an additional program of instruction in visual screening and orthoptics.

Upon graduation the men will be utilized within the continental U. S. at dispensing units, ophthalmic service units or ophthalmic

lens laboratories or overseas in a newly designed field service unit.

In 1950 more than 50,000 pairs of glasses were fabricated in the U. S. as compared to 34,000 in 1949. Prior to 1943 spectacles in the naval service could only be obtained for General Court prisoners. All other personnel were required to buy their own.

LT Mibeck, officer in charge of the school, said: "I think that the optical program is one of the nicest the Navy has—not most important, of course, nor of a life saving eye and its well being cannot be overstressed."

HM3 Bowlby makes a test on the orthorater, a special screen instrument with standard lighting conditions. It measures depth perception, phorias (tendency of the eye to deviate from objects).

This picture denotes new tool bevel which is used for grinding the surface of lenses. Several of these grinders have been installed at the school.

Here HM1 Saunders uses the Keystone Professional Telebinocular on patient. The instrument is used in orthoptic training.

(To left) — Facial measurements being taken by HM1 Joyce. The technicians are trained to take measurement, order spectacles, and fit and adjust them.

(To right) — HM1 Scott using a Bausch and Lomb cylinder surfacing machine in process of polishing a lens.

NNMC News Loses Managing Editor; It Is FMF Duty for HM2 Bourgea

Ronald Bourgea, HM2, USN, Managing Editor of the NNMC News since November 1949, received orders for FMF duty. He will report to Camp Lejeune next week.

Bourgea became a steady reporter of the News shortly after arriving at NNMC in the fall of 1948, working up assignments in his spare time. When William Butt, HM1, Managing Editor at that time, left, Bourgea was assigned to his job.

Soon after he took over, the staff was enlarged to include an assistant editor and the usual three-page plus a pictorial, was increased to six pages. One of his first issues received the coveted Armed Forces Press Service "Pat on the Back" award.

Circulation jumped from 1,500 to 2,000 copies per issue. As the paper grew, he introduced such standing features as "Navy Belles", and columns from the different commands, recruiting volunteers on the base to hand in the material.

In his spare time Bourgea writes poetry, short stories and articles. One of his articles entitled "From Boot to Corpsman to Marine" which was printed in Our Navy, described the path of a corpsman through boot camp, corps school, ward duty, sea duty, and finally to an assignment with FMF. Little did he realize in writing it, how close a parallel his own Navy career was destined to be.

Ronald Bourgea, HM2, USN

Born in Nashua, N. H., he's a 20-year-man, and will have six years in this September. He spent 22 months on board the USS Conso-lation (AH-15) before coming to NNMC. At present his wife, Peggy, and their four-year-old daughter, Kathleen Ann, live in Hyattsville, Md.

Center Chatter

by Frank Winn

Congratulations are in order for Chief Diamond of the NNMC MAA force. Diamond recently accepted the appointment to Warrant Officer. He will shortly be detached for duty at Great Lakes. Center Command is losing one of its best liked men.

Patience, Grace, DK1 has received orders to NAS Memphis, Tenn. During his stay here Grace has been of invaluable service in the Disbursing Office. With him go our best of luck in his new duty assignment.

George Funk is back after spending a fine leave in Pennsylvania. George's brother, who just returned from Korea, was home at the same time.

Since my last article was printed the many rabid Yankee fans have been giving me rough going. First of all Webster was very indignant about being excluded from the "never say die" group of immortal rooters. Among the many queries thrown at me was, "Who's leading the league?", and "Where's the pennant flying?"

Naturally the only answer for both questions is New York, but the question at hand is where will it be at the end of September? There are various opinions. Some say Cleveland, some say Boston and of course others stick by the Yankees. 'Nuff said!

Tom Brothers hit a new low on the local nine the past week. Tom shot a blistering three over par 38. It won't be long before Tom will be giving Commander Frates a pretty rough go.

Davies (Continued from page 1) his share of sea duty, too, aboard the USS Houston and USS West Point.

Prior to coming to the personnel office of NDS, he was attached to Fleet and Force Dental Office, ComServPac, as Detail Chief for Dental Technicians, Pacific Fleet.

Mr. Davies is a resident of Silver Spring, Md., where he lives with his wife and twelve-year-old daughter Barbara Ann at 3104 Parker Avenue. Here he gets the opportunity to practice the art of outdoor cooking, which is one of his favorite hobbies.

Marine Patients Presented Medals For Korean Action

Cpl. Robert A. Baird, USMC was awarded the Bronze Star Medal and Cpl. Warren C. Funk, USMC, the Purple Heart Medal Jul. 31. Presented by RADM C. A. Swanson, CO, NNMC, both awards were for action in Korea.

Cpl. Baird of Knoxville, Tenn, now a patient on 6-C, was cited for heroic service in connection with operations against the enemy while serving with a Marine infantry company during operations in Korea from Nov. 1 to Dec. 10, 1950.

Baird, serving as an ammunition bearer in a 60mm mortar section, continually displayed a high degree of efficiency and courage in the assault, over steep, snow covered mountains, in sub-zero temperatures.

Cpl. Robert A. Baird, USMC

On one occasion, when his company was subjected to a sustained counter-attack by numerically superior enemy force, he, with complete disregard for his own personal safety, though painfully wounded by fragments from an enemy artillery shell, continued to deliver ammunition to the exposed mortar position, until the enemy counterattack was repelled.

Baird, who was a member of the Marine Corps Reserve, returned to active duty on Aug. 8, 1950. Before entering the Marines he was graduated from Knoxville High School, Knoxville, Tenn.

Cpl. Warren C. Funk of Alexandria, Va. received the Purple Heart for wounds received as a result of enemy action in the Korean area, on Apr. 10, 1951.

Cpl. Warren C. Funk, USMC

Funk entered the Marine Corps on Mar. 16, 1948 and received his recruit training at Camp Lejeune, N.C. Before entering the Marines he attended the West Junior High School, Warren, Ohio and was employed by the Keystone Reader Service, Victor Bldg., Washington, D.C.

Sailor: "Now, doctor, since I'm going to marry Elinor, there's one thing I want to get off my chest."

Doctor: "Tell me all about it."

Sailor: "It's this tattooed heart with the name 'Mabel' on it."

Drunk to S.P.: "Just because my eyes are red is no sign that I'm a drunk. For all you know, I may be a white rabbit."

NSHA Students Study Commissary With Practical In-Plant Training

Upper right: LTJG R. W. Kentner, LT C. G. Brooks, CWOHC C. Lenbeck, and CWOHC J. H. Griffith are shown around by wholesale produce dealers from the Florida Avenue Market.

Upper left: Two representatives from the R. L. Anderson discuss problems involved in the handling of tomatoes with LT R. W. Kentner, while LT C. G. Brooks, LT J. H. Gilpin, LT Graham, CWOHC A. C. Lembeck, and CWOHC J. H. Griffith look on.

Below: USDA inspectors examine meat at the Esskay Packing Co. in Baltimore.

Civilian Organizations Conduct Tours

For three weeks this spring, the students under instruction at Naval School of Hospital Administration participated in practical in commissary management.

LCDR L. E. Bond, MSC, Head of the Commissary Management, explains this "in-plant training" to be the active participation of the students in the operation of a commissary department, and a reduction to the processes of civilian organizations engaged in the business of food marketing and production.

It is common knowledge that those who produce, prepare, and market food products keep early hours. Student participation in this school proved no exception to this tradition. The break of dawn found reporting for instruction at the sources of foods used in the general of a naval hospital, the standards of quality required by the Federal Government, and how to render these foods palatable to patient staff personnel.

It took the combined efforts of many persons to bring these lessons to the prospective commissary officers and the cooperation demonstrated by the staff of the NNMC Commissary Department cannot be overphasized.

The Schludenburg & Kurlde Co., better known as the Esskay Packing Plant in Baltimore, and the R. L. Anderson Co. in Washington, rendered valuable service in this training not only through fine presentation of their respective enterprises, but also through the cooperative manner in which they answered and discussed the many questions by the students.

At Esskay's, officer and enlisted students were permitted to observe the complete process of meat antemortem inspection, slaughter, mortem inspection and like technique from the time the livestock entered the plant until it was rendered ready for packing.

The constant and thorough inspections by the U. S. Inspectors Bureau of Animal Industry, Department of Agriculture, demonstrate vividly the length to which the government goes to insure maximum safety of selection of meat products destined for interstate commerce.

Mr. Edward A. Wedemeyer of the R. L. Anderson Co., with the of the wholesale produce dealers of the Florida Avenue Market, illustrated in illustrating modern marketing methods in handling stone unturned in illustrating modern marketing methods in handling fresh produce. Receipt, inspection, refrigeration techniques, and final disposition of fresh fruits and vegetables were the subjects learned which will later be applied in commissary management, a vital and integral division of naval hospital administration.

Did You Know -- ?

When still, we use 500 cubic inches of air in a minute. When walking one mile an hour we use 800.

Portholes in ships were originally the openings through which cannons were fired.

In Reno, Nev., six weeks' residence is required to obtain a divorce, but it requires six months' residence to get a hunting license.

The average pressure exerted at the edge of a razor blade when it cuts a whisker is said to be five tons per square inch.

Coach's Corner

The Varsity softballers are in undisputed second place in the service league as this paper is put to bed. Coach Bob Yeager's are hustling on the basepaths with all the speed of a half-mile team. Playing host to the birdboys from Patuxent the other night, we were on the short end of a 2-1 count in the last frame of the seventh inning, two outs and a man on second. Pat White smacked off the glove of the chucker and in the chaos, our runner spiked rubber... game tied up. Pat stole second. Rocky walked. Change of pitchers for the airdales. First ball pitched, Pat burglarized the torrid aer. The flyers' bench at this point was visibly upset which added to the pitcher's composure. On the next pitch, White went home like a maway stage on Frontier Theatre, and Bethesda chalked up another

Three members of last year's starting basketball lineup are playing string for the horsehiders and if they can hit the hoop in the ner that they are meeting the ball, star-studded Quantico is in a shellacking. Remember the other year when we were one point d, five minutes hanging on the clock... Funk and Levi double- ened on the single post for Cornell, Waldrop was stymied and any whipped in for a snow-bird... the whistle-happy official called eling; we pulled it again, whistle, it worked once more; whistle, ll repeat on double-screen, small repeat on toot... we took time while Funk and Levi zippered Cornell's orbicularis oris, I made chat with harassed referee... game resumed, Waldrop arched a er-set and we were a dejected lot. Now you fellows get in and them the full treatment when you tangle in the playoff for the nionship down in Norfolk the latter part of this month.

The intramural golf championship is in full swing with CAPT an's devotees suturing up points as fast as they are offered, and is the reason why: in Saturday's match, CAPT Hogan and McMillan on Balboa and Cummings of Dental, garnering in three points for 18 hole tour. On number six, Cummings' tee shot was short of the m, the other three balls were to the left of the green, with two ing the sand cavern. CAPT Hogan took out his wedge and the Dot the bent, five feet from the pin, Balboa blasted out, about two feet a the pin, CAPT McMillan, nestled his metatarsals in the sand, peeked e pin, and dynamited with the ball just missing the stick, Cummings with his chip, back and short... all putts missed and the hole halved. The twosome of Jim and Jack, grabbed three points from and Pappy with Jack putting for birds on the back three holes Jim employing the anniversary woods without his slice from Sur- ra.

the day's top match between 'Sweet-swinging' William King, Brick kstone and Bill Burke whose partner York failed to show; par was order of the day. On number five, Burke's tee shot found a resting in the trees, King and Blackstone were within chipping distance he fairway, undisturbed by a bad lie and forced to swing a putter handed. Bill inched his approach to the carpet... what a golf to see and a competitor to play with, for you see, the twosome from tal were already on the green within birdie distance of the opening. six, all three tee shots spanked the velvet, just an ordinary little old was all they could get... shame wasn't it? Put Maury Fortin in foursome and you have the cream of the crop, masters of the temper shaft.

You Think You Know Baseball!

WHILE some baseball rules are everyday-use, others are so self-invoked that they are for- n by umpires and fans alike. s one, in a hypothetical ma- league setting, that would de many.

the Chicago White Sox, trailing Tigers five to three, come to at the top of the seventh at t. After Chico Carrasquel out, Busby draws a pass. Min- traps out a single, and another to Ed Robinson loads the s.

Zarilla, next up, swings hard first-pitch and drives a hop- right-back at Tiger pitcher l Trucks. Trucks throws to er Ginsberg for a force-out usby at the plate. Ginsberg relays to Kolloway at first But the ball strikes Zarilla, is running astride the foul not far from first, and bounds toward the stand. Minoso Robinson score the tying runs re the ball can be retrieved, Zarilla pulls up at second. ybe you as plate umpire are fied with the play, but you

can bet the Tiger manager won't be. Why?

ANSWERS

Zarilla, who was hit by a thrown ball while running astride the foul line, must be called out for inter- fering with the catcher's throw. The runs do not count as Zarilla failed to reach first base safely.

Batters running to first base when an infield play is being made on them must use the special lane which begins halfway up from the plate and is called "the three foot line." When a batter fails to use the lane and is hit from behind by a fielder's throw, he must be called out.

(See Section 605i: "A batter is out when, in running the last half of the distance from home base to first base while the ball is being fielded to first base, he runs out- side (to the right of) the three foot line, or inside (to the left of) the foul line, and in the umpire's judgement in so doing interferes with the fielder taking the throw at first base, except... to avoid a fielder attempting to field a batted ball.")

Naval Dental School whipped their arch-rival the Dental Officers in a close one, 9 to 8, thumped X-Ray 18 to 6 and earned the right to a playoff with Qtrs. 12 A for second position. They copped the runner-up cup when they edged the "A" men in a thrilling 9 to 8 encounter.

Fitts and Dias, Varsity twirlers, opposed in the "big" game and Qtrs. 12 A jumped into a 4 to 0 lead in the opening frame when they put together singles by Bernhart, Kaulius and White coupled with a pair of throwing errors on Dental's infield.

Dental rebounded in their half of the third when Dias lost control. Cummings, Dental shortstop, banded a single to center after Long had reached on Kaulius' error. Brewster rescued both with a double to right center. That small uprising upset the fireballing Dias as he free-ticketed the next four. Gasiewski followed with a single, Long reached on an error and Farrell was passed to total nine BIG markers.

The Orange Shirts cut the margin to 9 to 7 in the fifth when they tallied thrice on bingles by Ackerman, Bernhart and Kaulius plus a wild pitch. They added a single in the sixth when Messina led off with a sizzler through the box, advanced on a walk and countered on Bernhart's safety to right.

There was World Series tension as Pat White led off the 7th, reaching on Cummings' error. Shannon banged one to Farrell who elected to force White. "Pat" slid in safely but was tagged out as he overslid the canvas. Matter went out on an easy roller to Farrell. Messina picked out a juicy 2-2 pitch and banded a terrific line drive between left and center which had earmarks of a round tripper, but Gasiewski, with a Jesse Owens sprint, saved the game for Dental with a gem of a stab above the shoe tops.

NOTE: The Recreation Department requests that all softball gear be returned on or before Monday, 20 August, 1951.

"I just swatted five flies. Two were male and three were female."

"How can you tell?"

"Two were on the card table and three others were on the mirror."

"Do married men live longer than bachelors?"

"No, it only seems longer."

"Grandpa wasn't much on etiquette, but he knew what was good for him. At a formal dinner, the maid served him coffee. He took one gulp, and spit it out. Every- body gaped. "Waal," he drawled, as he looked at the surprised faces around him, "That coffee was too hot. Many a dang fool would have swallowed it."

Tourney's Top Golfers Get Trophies

Beginners Golf Tournament Winner and Runners-Up — Front Row: Michael J. Gofron, DN; Mark Cain, HM1, and Cyrus A. Livots DT3. Back row: John S. Bachar, HN, (winner); Robert D. Balboa DN; Donald R. Van Schoonhoven, MH2; and Harold H. Marrer, HMC.

Ads Stage Rally To Down Patuxent In Close 3-2 Game

Coming from behind to score two runs in the seventh inning, the Med Center won an official league game by the score of 3-2.

After a shaky first inning in which Patuxent scored two runs on one hit and an error, the Medical men settled down and held the visitors scoreless for the rest of the game.

Fitts (NDS) allowed a total of only three hits—one in the first, one in the fourth and one in the fifth innings. Fitts really bore down in the sixth inning, striking out the three men to face him. In all Fitts whiffed six airmen.

Hall (NMS) scored the first run for the Med Center after getting on base by virtue of the single. He scored on Pat White's drive through the shortstop.

Going into the last half of the seventh, Goda (Commissary) walked, but was out at second when Kaulius hit the ball to the infield. Kaulius was safe at first. Hall fled to the third basemen. Pat White was safe at first on an error by the first baseman, Kaulius advancing to second.

Rock (EENT) then hit a double, scoring Kaulius and White moved to third. With Mosley (NMS) coming to bat, Pointek came in to pitch for Patuxent. Pointek's second pitch was wild and White scored from third ending the ball game in favor of the Admirals.

NNMC Waves Win Interservice Golf

Margaret C. Posipanka, HM2, and Lenora Hill, HM3, both of NMS won first and second places in the 1951 Women's Interservice Golf Tournament held here July 29.

Competing with the Henderson Hall Marines, Quarters "K" Waves, and the Ft. Belvoir Wacs, the local Waves were the only two from NNMC to turn in final scores for the 18 holes.

A blind bogey tournament was selected for the contest to encourage beginning golfers to enter. The blind bogey was a number between 70 and 80 known only to Mr. Downing, NNMC's golf professional. The number, which was 79 in this case, was not made known to the players until after they turned in their scores.

Each player was allowed to choose her own handicap, and the player coming out with the score closest to the blind bogey would be the winner. Posipanka came within one point, turning in a score of 80, with Hill second with a 76. Both girls will receive trophies from the Women's Interservice Athletic League.

'Jimmy Legs' Medic Wants to be Baker

"I want to be a baker"—that's Ted Czarniak, HN, USN's idea of a good deal. When he joined the Navy in his home town of Chicago, Ill. in April of 1949 he asked to be sent to the Cooks and Bakers School — but the Navy found a niche for him in the Hospital Corps, and as yet Czarniak has had no regrets.

Upon completion of recruit training and HCS at Great Lakes, Ill. where he graduated fifth in his class of 30, Czarniak reported

Ted Czarniak, HN, USN

aboard at the USNH doing 15 months ward duty on T-14 before becoming a "Jimmy Legs" on the USNH MAA Force — a job that he likes very much.

For pastime, Czarniak plays golf, in the upper 90's, reads, listens to music, his favorite being "Moonlight Sonata," and bakes—but as he puts it, "Baking isn't a pastime, it is an occupation in itself." He and his fiancée, Lorraine Smegowski of Chicago, enjoy going to Polish folk dances as it keeps them in practice for folk dancing.

Prior to entering the service Czarniak attended the Taft High School in Chicago for three years. In the evening he worked as a baker's apprentice, attaining the rating of bakers apprentice third class. After completion of this cruise he is going back to his baking career. Ted says "I'm happy when I'm baking."

After a couple of drinks, the golfer turned to his opponent and said: "Sir, I wish you clearly to understand that I resent your interference with my game. Tilt the green just one more time, and I'll biff you over the head with this putter!"

Tramp: Do you have a nickel for a cup of coffee?

Sailor (day before payday): No, but thanks just the same. I'll manage somehow.

Cpl. Johnnie N. Tabor, USMC, receives the Navy and Marine Corps Medal from RADM C. A. Swanson, CO, NNMC.

Heroic Marine Cpl. Saves Four in N. C.

Cpl. Johnnie N. Tabor, USMC, a patient on Ward 133, was awarded the Navy and Marine Corps Medal for heroic conduct in assisting in the rescue of four men from drowning at Shackleford Banks, Morehead City, N. C., on April 23, 1950. The award was presented July 23 by RADM C. A. Swanson, CO, NNMC.

When two amphibian tractors swamped and sank while attempting to land in a fifteen-foot surf, Cpl. Tabor, who had succeeded in landing his own tractor with his crewman, quickly drove it back into the dangerous surf. He skillfully maneuvered his tractor into a position where he effected the rescue of four drowning men.

In addition, he swiftly and calmly assisted in applying artificial respiration successfully to one of the men who was in a semi-conscious condition.

A Marine since 1948, Cpl. Tabor is originally from West Virginia. He attended school in Whitesville, W. Va. and was employed by the High Coal Mining Company there.

Popular NDS ExecO New D. O. of Corona

CAPT Ben W. Oesterling, Acting Executive Officer and Director of the Officer Training Department of the Naval Dental School, has received orders placing him in charge of the Dental Department of the U. S. Naval Hospital at Corona, Calif. He was detached from NDS on Aug. 8, 1951, and proceeded to Corona to take up his new duties.

CAPT Oesterling, a graduate of the University of Oregon, was commissioned in April 1936, and prior to the war had duties at Bremerton, Wash., Pearl Harbor, T.H., and Mare Island, Calif. During the war he had duties aboard USS *Chicago* (CA-29) and USS *Consolation* (AH-15).

Following duty in USNH at San Diego, Calif., he came to NDS in July 1947 at a time when the procurement of dental officers for the Navy presented a pressing and perplexing problem. Under his guidance, the dental intern program, which is one of the outstanding developments of contemporary dental education, was instituted and implemented.

He assisted in the development of the residency program in prosthodontia. The number of post-graduate officers at NDS doubled; relations between NDS and the American Dental Association became closer and stronger, and the school enjoyed a marked advance in professional and educational standing.

Although CAPT. Oesterling's chief interest in dentistry has always been in the field of prosthodontics, his interest and ability in other areas is shown by his work on the committees for Dental Research and Intern Training. He is a member of the ADA, a Fellow of the American College of Dentists, a member of the American Denture Society, of Omicron Kappa Upsilon (Honorary), and Xi Psi Phi.

Navy Belles

by George

Open letter to the gardener: We thank you for the flowers you brought us for the lounge; they were beautiful. If you have any more to give away, the Waves of 123 will be more than pleased to have them. Thank you for thinking of us.

Just around our house: With the first of the month we had the regular monthly change of details—"Peggy" Ruth back in circulation in the third floor lab—Betty Hopper took her place as the new night MAA in the barracks—Margrette Williams, DT2, USNR from Dental took Hopper's place as the house mother.

Margrette was just called in from the Reserves. This is her first hitch with the Navy. During her last enlistment she was a Sgt. in the Wacs so we call her our new CQ instead of MAA. Sailor girls take note when she tells you to make your sack or scrub the floor. I hope we can soon get squared away on this Army-Navy lingo.

Miss Butterfield, one of our Wave officers, told us good-bye and went west to the Naval Research Laboratories, Oakland, Cal. Going to the hospital in Oakland, Calif. was Donna Mattox; she has wanted the West Coast to be near her sailor-husband's home base.

With "I will come back!", Ruth Flora, after seven years duty here, went to the air station at San Diego for her next tour of duty.

Welcome to "Connie" Connors for the Dental staff. Connie came back after attending dental school at the Lakes. Welcome also to Florence Gallagher, PNSA.

Leave: going and coming: Shirley Dennett, Henrette Marchand, and "Ronnie" Conaway. Irene Ramos is collecting little things and BIG things for her new home—P. S.—she has a can-opener.

Most interesting job of the month: "Digger" O'Salty, who is standing the morgue watch.

Injury of the month: Manning, slamming car doors on her future fingers of OT.

Sports of the month: Hopper—badminton, Posipanka—golf, Scott—pool, Shook—swimming, McQuarrie—Yo-Yo. I think I will take a long weekend in western Maryland, so till next time, I'll see you around.

Dental Explorer

They Just Saluted the Bridge: Nathan Bell, DA; Constance F. Connor, DA; John T. Sullivan, DA. All are from Great Lakes School for Dental Technicians on their first duty assignment. Good Luck!

Charles H. Neu, DTC, returned here after completing a full tour of duty at the American Embassy in Moscow.

To Other Shores: C. Z. Barrett, DN, and Venancio Diaz, DN, both were transferred to the Marine Corps School at Quantico. R. W. Oertel, SN, was released to inactive duty to complete his college study in dentistry at the U. of Pennsylvania. Be seein' ya, Doc!

Tired Of It All: B. A. Routheau, DTP3; J. D. Voigt, DT2; R. H. Quinn, DN; M. R. Crook, DT3; and C. G. Ford, DT3 were admitted to the Hospital as patients. All our wishes for a speedy recovery!

Romance Department: Carol Lawrenson, employed in LT Andersen's office, and George F. Willis, student at Maryland U., tied it all up on Aug. 11 at the Washington Cathedral. The bride, a native Washingtonian (is that good?) trembled charmingly. Alas for the records in the LT's office! Best wishes, Carol!

Visiting Firemen: John Pennington, DT2, who was here in P & A until Feb. 12 and is now on his first sea duty aboard USS *Fremont*, (APA-44) visited recently, stirring up ancient memories for the chiefs. Seems John had an excellent leave in Rome; became much interested in statuary; visited the halls where they (the statues) were all lined up, and is now an authority on sculpture, painting and pizzas. He advises everyone to get aboard a PA.

STARS AND STRIPES—Even a landlubber can appreciate the lines of this smooth nautical lass. Her name? Why, Miss Vivian Mason of the cinema, no less.

Definition of a split second: From the time the light turns green until the guy behind you blows his horn.

First Brig Inmate: "What are you in for?"

Second Brig Inmate: "It was at the officers' party . . . the captain told me to stand at the door and call the officers names."

NNMC's 145 Nurses Keep Lindner Busy

Maintaining a smooth schedule of working hours, assigning details, and keeping the records in order for the 145 nurses at NNMC constitute a few of the many duties of LT Mary J. Lindner, NC, USN, Assistant Chief Nurse.

It is a job she is well qualified to fill, having been Chief Nurse or Assistant Chief Nurse at hospitals scattered throughout the United States and the Pacific islands.

Born in San Francisco, she was raised and attended high school in Santa Maria, Calif. Receiving her RN from the Providence School of Nursing in Oakland, Calif., she joined the Navy in 1936. Ever anxious for more education, she completed a one-year course in dietetics at George Washington University in 1941.

LT Mary J. Lindner, NC, USN

This year she was one of the five nurses selected from the Navy to attend college to work for a degree. She is scheduled to leave the 23rd of this month to spend a year or so at Columbia University working for her B.S. degree.

If a yen for travel had anything to do in prompting Miss Lindner to join the Navy, she has certainly accomplished her aim. In the States she has seen duty in California, Florida, Oklahoma, Washington, D. C. and Maryland. One of her first assignments was aboard the USS *Relief* which was the only hospital ship in operation in 1938.

Overseas she has served at New Caledonia, Aiea, T.H.; and American Samoa. On Samoa, besides her usual duties, she had the job of instructing Samoan women who were taking a four-year course in nursing. It was for her work there in the summer of 1945 that Miss Lindner received the Commendation Ribbon and Medal.

When she has any spare time, she finds diversion in ceramic work, swimming, golf or bowling. No beginner at bowling, she has a trophy won at the San Diego Naval Air Station where she was a member of the station bowling team.

Asked about Maryland, she said she had to admit it was very pretty, especially now that everything is so green. But she added with a smile that California is still her state and she'd like to have duty there again.

Harry S. Bartholomew, HMI, USN

OT Corpsman Says 'No Hobbies for Me'

Harry S. Bartholomew, HMI, USN, paints, styles hair, copies short wave broadcasts, works printing, carpentry, photography and ceramics. Sounds like a lot of interesting hobbies, but Bartholomew says, "No, I don't have any for hobbies."

It's all part of his interest in philosophy on life. He believes in doing everything for a purpose. What many of us might take up as a hobby or a past time, he takes up with the idea in mind to learn enough about to make a living with it if necessary.

Born in Tampa, Fla., Bartholomew calls Columbus, Ohio, home. His wife and two-month-old son, Donald Edward, live there now. Before he was called into active service in September 1950, he worked in personnel insurance and hair styling.

Interested in Scout work, he has his own troop in Columbus where he used to invent educational games for the boys to teach them how to think fast in emergencies.

Assigned duty in the OT department at Chelsea, he had an opportunity to put his interest in carpentry and radio building to use. Besides building radio sets whenever the equipment is available, he likes to copy the different foreign news casts made in Morse Code and compare their presentation of the same news even.

As part of his present job, he teaches printing, photography, painting to the patients. He is both water colors and oils, he likes landscapes or wild life for subjects for his pictures.

When it comes to recreation, Bartholomew enjoys horse riding, swimming and taking walks. Among his serious interests he lists his interest in the church. He belongs to the First Church, a small sect with only about 60 members in the United States. Reading is usually of a serious nature too, with Emerson's essays classed as his favorite.

"I guess my biggest ambition now," says Bartholomew, "is back to civilian life and my family. I think I'll probably go to working in insurance and styling."

MEATBALL

DAFFY-nitions

Acoustics—What you play pool with.

Smelling Salts—Sailors with BO.

Gross Ignorance—144 times worse than ordinary ignorance.

Wedding Bell—Bachelor's curfew.

Jury—Twelve men chosen to decide who has the better lawyer.

Off Day—The day after a day off.

Quicksilver—What the Lone Ranger says when he's in a hurry.

Corpsman McDonald Lays Dead to Live

On the nights of November 2-3, 50, Marvin B. McDonald, HM2, N, now a patient on Ward 3-C, lay dead—lying within arm's reach of his would-be killer.

It all started when McDonald, other corpsman and four marines left their position a few yards behind the lines to hunt for wounded. The Chinese let this all detail of men pass through the lines before shooting off a flare. The instant the flare burst men froze in their tracks, the first, one of the marines, started to cover—he was cut down instantly.

When the flare died out and the darkness returned, the remaining started for cover. The darkness they became separated leaving McDonald and the other corpsman on their own with a carbine.

As McDonald was covering his buddy's "strategic withdrawal" saw a Chinese soldier ready to go on them—so he fired giving away their position. This drew a lot of return fire so he started to move out. He hadn't gone 20 yards when a lucky shot in the back hit his left leg, spinning him over to the bottom of a ravine—on top of the man that had wounded him. Not daring to move or as his wounded leg he lay there all day when his outfit advanced, retaking the position.

During the night McDonald and the Chinese soldiers moving out "their" position, trying to get warm. On several occasions enemy's rifle was laid across his back—using him as a rampart. His story tells but one of McDonald's harrowing experiences. In an earlier action, giving medical aid to 43 men of his company during one night's action, he was awarded the Bronze Star. There (Continued on page 2)

News Shorts From the Editor's Desk

Washington (AFPS) — President Truman appealed to cities and towns of the country to provide Service personnel with proper recreation and decent housing for their families in a recent speech marking the reopening of the U.S.O. — Traveler's Aid Armed Forces lounge in Union Station here.

The next staff dance will be Oct. 22 with the music of Claude Thornhill and his famous orchestra.

Civilian Personnel announces openings for the following jobs: In group III—Machinist. In Group IVB — Medical Technician GS-5, Clerk-Stenographer GS-3, Clerk-typist GS-2, Varitypist GS-3 and Printing and Publication Clerk GS-3. Anyone desiring information contact Mrs. M. A. Walsh, Civilian Personnel Office, Bldg. 101, Ext. 684.

John F. Haley, HMC of NMS Duplication School and John F. Reynolds, HN in NMS Lab 16 both shipped over for six years this month.

To avoid delay in receiving mail all staff and patients are referred to Standing Order No. 9, para. 14: "All personnel shall be instructed to inform correspondents of their complete address and to advise use of the NAME OF THE COMMAND to which attached, as well as National Naval Medical Center, Bethesda, Md. Patients should also include their ward number as part of their address."

A representative from the Navy Clothing Factory is in the office of the Center News every other Wednesday. He is expected again Aug. 29. Watch the Daily Bulletin for the announcement.

Basil Rathbone Star Of Stage, Screen Tours NH Scoring Hit With Patients

Left: Ward 133 patient Sgt. Paul Duke, USMC, receiving an autograph from Basil Rathbone who visited the wards Friday, Aug. 17.

Right: "Sherlock Holmes" chatting with two 3-C patients about everything from baseball to racing. Mr. Rathbone, who is doing summer stock in the theater at Olney, Md., visited the hospital through the efforts of the American Red Cross.

Navy Announces Release Schedule For Enlisted Reservists on Duty

The Bureau of Naval Personnel has announced detailed plans for the release of Enlisted Naval Reservists on active duty.

Veterans who were not receiving drill pay when ordered to active duty will be separated to the following schedule:

Inclusive dates placed on Active Duty	Date of Separation
July 21-Aug. 15, 1950	October, 1951
Aug. 16-Sept. 5, 1950	November, 1951
Sept. 6-17, 1950	December, 1951
Sept. 18-30, 1950	January, 1952
Oct. 1-18, 1950	February, 1952
Oct. 19-Nov. 6, 1950	March, 1952
Nov. 7-30, 1950	April, 1952

Those who were placed on active duty during December 1950 and thereafter will be separated on the date they complete 17 months active duty subsequent to June 25, 1950. The releases earlier than 17 months provided by the schedule are due to the Navy's need to phase or "spread out" the losses from the Fleet and to prevent overcrowding of separation centers.

Veterans who were receiving drill pay when ordered to active duty will be separated to the following schedule:

Inclusive dates placed on Active Duty	Date of Separation
July 21-31, 1950	October, 1951
August 1-8, 1950	November, 1951
August 9-16, 1950	December, 1951
August 17-24, 1950	January, 1952
August 25-31, 1950	February, 1952
Sept. 1-6, 1950	March, 1952
Sept. 7-12, 1950	April, 1952
Sept. 13-18, 1950	May, 1952
Sept. 19-24, 1950	June, 1952
Sept. 25-30, 1950	July, 1952

Those who were placed on active duty during October 1950 and thereafter will be separated on the date they complete 22 months of active duty subsequent to June 25, 1950. The releases earlier than 22 months provided by the schedule are for the same reasons as given for the early phasing out of non-drill veterans.

Enlisted Reservists who are not veterans but who were receiving drill pay when ordered to active duty will be separated after 24 months subsequent to June 25, 1950. Non-veterans who were not receiving drill pay when ordered to active military service will be separated after serving 22 months subsequent to June 25, 1950.

Promotions to LT For Ten Officers

Word has been received at NNMC that the below named officers will be promoted to the next higher rank upon successful completion of their physical exams:

To LT, MC, USNR
NMS—D. Y. Cooper III and M. E. Hodes.

To LT, DC, USN
NDS—H. S. Dramer, W. B. Kovacs, and M. C. Kohler.

To LT, MSC, USN
NSHA—L. W. Burr, H. A. Griswell, J. K. Moore, W. E. Riley, and R. V. Whaley.

New Navy Chiefs in Two Top Posts

Recent appointments in the Defense Department affected the Navy's two top posts. Under-Secretary of the Navy Dan A. Kimball (left) succeeded Francis P. Matthews as Secretary of the Navy, when Mr. Matthews accepted the post of Ambassador to Ireland. ADM William M. Fechteler (right), former Commander in Chief, Atlantic and U. S. Atlantic Fleet, became Chief of Naval Operations, succeeding the late ADM Forrest P. Sherman.

The Kopp's Musical Varieties Here Sept.

The Kopp's Musical Varieties will present a show here Sept. 9 at 1800 in the auditorium. This will be the third performance on the NNMC stage for the Varieties who were here April 8 and June 10.

This show will be entirely different from the last two. Those who remember the delightful talent of the last performance will vouch for the entertainment.

So remember, Sept. 8, 1800 in the main auditorium.

Long hours in bed are lightened for MSgt. Heyard Starling, USA, of Ward 3-C as Miss Nell Weaver chats and sketches his portrait.

Sketch Pad and Charcoal Pencil Amuse Men While Educating Nell

A slender, smiling blonde girl walked into a Navy hospital ward carrying a sketch pad and a charcoal pencil. Wheel chairs began to move in her direction and bed patients sat up or leaned on their elbows to smile at her. Ejaculations came from every side, "There she is." "Hi, Nell." "You're ten minutes late." It was easy to see that they were expecting her and her coming brought a wave of satisfaction and pleasure to men in the wards.

Passing down the middle of the ward, waving at one and then another, answering questions and talking with two or three at the same time, she came to a patient in the middle of the ward and stopped. His legs were swinging from a frame over the bed and there was a hollow space where his right eye had been. After a few pleasant words with this marine, she began sketching his portrait from the left side.

As she worked with skillful fingers men in wheel chairs got as close to her as possible, ambulatory patients peeped over her shoulders and stood around her chair. Many made wise cracks about her work which she took laughing or handed back with spirit. Two were interested in art and watched intently as swift strokes produced a likeness of the man on the bed.

Nell Weaver, sophomore art student at George Washington University, was on one of her regular trips to NNMIC. Nell is a small, trim blonde with clear blue eyes and light brown hair. She has been going to Army and Navy hospitals in and near Washington for several months.

"I just enjoy going," is the simple explanation she gives to every query about why she takes this much time visiting sick and wounded service men. The look of earnestness when she says this sat-

isfies every enquirer. "I do enjoy sketching and these visits give me plenty of practice for my classroom work, but I find visiting these fellows a lot of fun," she said with a glow. "Besides," she continued, "One meets a lot of interesting people."

She recalled the incident where a patient found an artificial leg and went all over the ward enquiring, "Is this your leg?" Another case was the soldier who had lost both legs. While coming from under the influence of the anesthetic and only partly conscious he kept calling for orange juice. "If you don't bring me orange juice, I will come and get it," he shouted, not realizing the impossibility of such a task.

"Men laugh at such things," Nell explains, "not because they are unsympathetic but because of their unbounded playfulness." Those who know the American soldier "up front" as well as in the hospital know that this optimistic cheerfulness is what makes the American youth the greatest soldier on earth and keeps him going no matter how rough are the conditions.

This article is made up of excerpts from a story written by Peter E. Cullom, Reserve Air Force chaplain attending George Washington University as a journalism student. It was written for publication in the "Baptist Student", Nashville, Tenn.

Med. Tech. Bulletin Wants New Writers

The Armed Forces Medical Publication Agency, which publishes the U. S. Armed Forces Medical Journal and the Medical Technicians Bulletin, is particularly interested in obtaining material for publication in the Bulletin from voluntary contributors throughout the medical department of the Navy.

The BULLETIN is published for the Medical Service Corps officers, Hospital Corps officers and enlisted personnel of the medical services of the Armed Forces.

The basic purpose of the Bulletin is to disseminate administrative, technical, and other information which will be of use and interest not only to our particular branch of the Armed Services, but in many cases to all three.

It is desired, for instance, to publish information on schools, notes on specialty techniques and achievements on the battlefield or wherever our members have distinguished themselves in medical activities in any manner.

Material should be in manuscript form and forwarded to: Medical Technicians Bulletin, Armed Forces Medical Publication Agency, Bureau of Medicine and Surgery, Navy Department, Washington 25, D. C., Attention: Code 26.

The Bulletin receives worldwide distribution; it goes not only to service personnel, but also to civilian and allied agencies in the United States and many foreign countries.

Criticisms and helpful suggestions on improving the Bulletin are also solicited.

Concerning photographs, send glossy prints with no markings on the back or front. The caption or legend for the picture should be typed or written plainly on a separate piece of paper and clipped to the picture in such a manner that it will not deface the picture.

The Bulletin is a long-range project. Anything received in the next two weeks, two months or two years will be welcome. Any material received for publication in the Bulletin will be given careful attention and consideration.

Diaper Derby

Aug. 4—Patricia Anne Williams, 7 lbs., 5½ oz., daughter of Lenard Williams, HM2 of NH.

Aug. 10—Deborah Vida Wrenn, 6 lbs., 6¼ oz., daughter of George S. Wrenn Jr., of NMS.

Aug. 14—William Randolph Parker, 7 lbs., 6 oz., son of William E. Parker, DTC, instructor in Dental Equipment Repair.

What God Hath Promised

God hath not promised
Skies always blue,
Flower-strewn pathways
All our lives through;
God hath not promised
Sun without rain,
Joy without sorrow,
Peace without pain.

But God hath promised
Strength for the day,
Rest for the labor,
Light for the way,
Grace for the trials,
Help from above,
Unfailing sympathy,
Undying love.

—MINNIE A. SMITH, NH

McDonald

(Continued from page 1)

are marines here at the hospital that will tell you that they would not be here if it wasn't for McDonald, truly a corpsman's corpsman.

The Chaplain's Corner

by Chaplain Peter J. Marron

Rubber Heels for Souls

The peace; the quiet; the calm of our hospital is soothing. It is good for us to be here.

The machine vibration in a factory, or in a defense plant, was wearing and tearing on his system, that a young man got a rubber mat and stood on it while he worked. Finding it so inconvenient to also carry the mat with him, he cut it up and attached the pieces to the bottom of his shoes. His name was O'Sullivan, on whose heels a good many of our readers doubtless stand today, to absorb the shocks that come out.

The "Shock" life of today is no less a wear and tear on the soul, you sit still a minute, someone is sure to ask if you feel sick. Home, morgue without the radio's blare or TV's startling ads. Jump in the Dash there! Never mind where you're going, just so long as we're the go.

The "rubber mat" for the mind, for the soul, of course, is in the Chapel or in Church, where quiet, peace and meditation, and remoteness from the crowd will "cushion our spirit."

This spiritual pause that refreshes—like the rubber mat of O'Sullivan—is always so convenient, just a little Church or Chapel 'round the corner from everybody. There we will find a Rosary, a prayer book, book of meditation, so handy for spiritual rest and so cushioning the troubled mind.

Any of the above can shut you off by yourself wherever you are. And by keeping you conscious of God's Presence, will make you unconscious of the many nervous little upsets that irritate and aggravate the "Little" people who stay small in spirit, because they never grow in God.

To The Amputees of World War II

by a Naval Officer's Widow

We knew the desolation of great sorrow, and the joy of gay laughter
We saw the moon rise high over the Memorial Fountain,
And watched the late sun sink beneath the tall trees in the chapel grove

We knew the delights of mischievousness rolling down the Red ramp,
And the small chase after butterflies in a wheel chair!

Our days brightened after the bitterness of yesterdays,
And our friendship grew with the vision of a new dawn.

We shared the thirst, and the great struggle for rehabilitation,
As we shared plans of peace, poems, and music . . .
And these things—

The dizziness of summer evenings
Weariness,
Exaltation,
The soothing fragrance of roses,
The chatter of lawn squirrels,
And the flash of furious lightning—

These entered into the pattern of our friendship
And made it fine . . .

These things we knew together . . .
And these things we will remember.

—A. NIEMANN, Ward 128

Navy Stages Fight Against High Rents

Washington (AFPS)—The Navy has adopted a "get tough" attitude in the nation-wide fight to bring unfair rents into line with existing conditions.

Putting teeth into the battle, Navy Secretary Dan A. Kimball has instructed Navy and Marine Corps commanding officers to place out of bounds any housing they find charging exorbitant rental fees.

The SecNav directive said: "In extreme cases, where housing is considered unsafe or unsanitary, commandants of naval districts or river commands, or commanders of Marine Corps supporting establishments are authorized to declare such housing out of bounds."

Intensification of the crack-down is in cooperation with a Senate Armed Services subcommittee's drive against rent-gouging in military areas.

Commanding officers are further instructed to cooperate with civilian groups in the fight, and to inform personnel under their commands of all rent control regulations and legal matters pertaining thereto.

Divine Service

Protestant

Daily—
1200—Daily Meditation broadcast from Protestant Chapel (Monday through Friday)

Sunday—
1000—Divine Worship
—Main Auditorium

Catholic

Daily—
0715—Mass—Catholic Chapel

Sunday—
0600—First Mass—Catholic Chapel
0830—Second Mass
—Main Auditorium

Jewish

Jewish Services will be held in small Protestant Chapel, Building Room 206-A, every Friday evening 2015.

The services of Rabbi H. Kaufman, representing the Jewish Welfare Board, are available to Jewish Personnel and Patients of National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, 324, or by call direct—Office 5371—Home GE 0755.

Dental Prosthetic Technicians Complete Extensive Six Month Course

Dental Prosthetic Technicians' School — Class 1-52

Top row: Walker, R. C.; Mullins; Gasiewski; Prunier; Kinner; Sobus; Neely; Turan; Thompson; Richings; Penner; Russ; Fellows; Fennell; Reimche; Shealy.
Fourth row: Carroll; Graham; Thrift; Willaman; Gross; Mitchell, L. J.; Rull; Fitzpatrick; Walker, D.; Desrochers; Lane; Adams; Scrimshire; Guillot; Balboa; Pasanelli; Kelsey.
Third row: Fitts; Craft; Jeansonne; Pigeon; Brewster; Mitchell, L. R.; Buch; Giacalone; Bennett; Gner; Feuguay; Gulko; Luke; Keenan; Baker; Turner; Johnson.
Second row: Endeley; McQuarrie; McGuire; Gafron; Perkerson; Nations; Ricciardi; Dellaventura; lone; Harrison; McCracken; Miske; Karl; Larson; Livoti; Herzog.
First row: Sickels; CWO Shaw; CAPT Mitchell; CAPT Frechette; Bacon; Phillips.

Dental School Graduates 67: Commends Honor Men and Wave

Completing six months training, 67 NDS students graduated at the ceremonies held in the NNMC auditorium Aug. 17.

Receiving meritorious masts for their academic achievement were three top men in the class, James E. Thompson, Jr., DT3 with a final grade of 92.75; James C. Scrimshire, DN with 90.77; and Jeter C. on, DT1 with 89.98.

Margaret R. McQuarrie, DT3, the only Wave in the group, also received a mast for her extracurricular assistance to the staff as a first instructor and for assistance in administrative procedures. The commendations were presented by CAPT L. D. Mitchell, Jr., Command Officer of the Dental School.

DR. F. E. Frates Jr., DC, USN, Athletic Officer, NNMC, presented dual trophies to the members of the NDS softball team who won first place in the intramural softball. Team members were: Baker, Fitts, Gasiewski, Long, Mitchell, Thompson, and Walker.

CAPT. Francis G. Ulen, DC, USN, Staff Dental Officer, Headquarters NNMC was guest speaker. Music was furnished by the Navy Band.

During the last six months the class has studied all phases of restoration, including making inlays, crowns and bridges, as well as complete sets of dentures. The accent was placed on practical work which made up 937 of the 1014 hours of school.

Besides such technical courses as oral anatomy and odontography (dental carving), dental technology, which includes forms and clerical duties, property and accounting and typing, was given. A 20-hour course in standard first aid was also part of the curriculum.

The school, which is designed to cover all the fundamentals of dental prosthesis, is under the supervision of CAPT A. R. Frechette, USN, Director of Enlisted Training, NDS; and LCDR J. C. Chapman, USN, Head, Dental Technician Prosthetic Division, Enlisted Training Division.

Dr. Chapman is assisted by WO(HC) C. Standish, USNR who received CWO(HC) F. K. Shaw, USN the first of June. Mr. Shaw had been Assistant Officer in Charge since the school originally moved to Dental School Annex in 1947, and is largely responsible for the reputation it has today.

The regular staff instructors include H. H. Elsey, DTC, USN; H. J. DTPCA, USNR; and W. R. Sickels, DT2, USN, with S. E. Phillips, USNR, clerical assistant.

Center Chatter

by Frank Winn

It is not necessarily news when a man ships over for six years. Some time ago, however, when S. B. (Tommy) Thompson, SO1, was sworn in he became the first General Service rated man ever to take the oath from ADM Swanson. This is seldom done, especially at medical department activities. He is undoubtedly the only Sonarman ever to be administered the oath by an Admiral of the Medical Corps.

Before leaving for Camp Lejeune Ronald J. Bourgea, HM2, received the letter of commendation for his excellent work as Editor of the Center News. Ron spent much of his own time to make sure that everything was just so before the paper was put to bed.

All eyes in the command are beginning to focus on the coming football season. Center Command, winner of the station intramural league for the past three years, again will go into the season a heavy favorite. We have lost several men from last year's Comanches, but have gained new support in the center of the line which will be a terrific help to Brothers, giving him all the time he needs to spot Funk with those precise passes. This is a formal notice for all NNMC activities to be prepared.

LTJG D. O. McAllister, MSC, USN, recently reported to NNMC as a relief for ENS McCurley in the Material Department. ENS McCurley was reassigned to duty at BuMed.

Qualifications for Commissions Set Up

(AFPS) Washington — Further opportunities for qualified enlisted men to attain commissioned officer status have been announced by the Navy. Four previous directives governing appointments have been cancelled and superseded by BuPers Circular Letter 127-51 (NDB, 31 Jul 51).

Eight basic qualifications are set forth in the new directive. Briefly, they are: 1—the applicant must be male; 2—he must be over 19 and under 27 years of age for appointment to the Unrestricted Line, and for the Restricted Line (Specialists) he must be over 19 and under 33 years of age; 3—must be a graduate of an accredited college or university with a baccalaureate degree (four-year course); 4—must be a citizen of the U. S. or a naturalized citizen for at least 10 years; 5—must be physically qualified according to U. S. Navy medical standards; 6—must establish mental, moral and professional fitness; 7—must be on active duty for a period of at least two months; 8—must have at least six months' obligated service.

Following the accumulation of required forms and documents, the applicant will be interviewed and graded by a board of officers. Detailed information on the forms and documents are listed in the new circular letter.

Upon receipt by the Bureau of Naval Personnel of all data, the information will be screened and, if qualified, the man will be ordered to a course of instruction at the Naval School, Officer Candidate, Newport, R. I.

His commission, upon successful completion of the instruction course, will be in the Naval Reserve.

Complete information on the various fields in which commissions may be granted is carried in the circular letter.

Savarese Takes Cut From LCDR to LTJG Just to be Doctor

To LTJG Charles J. Savarese, MC, USNR, the Navy has its ups and downs. When he stops to think of the "Old Navy" away back in 1946 when he was a Line LCDR—well.

With a spanking new BA degree from the University of North Carolina he got himself a half-inch gold stripe in 1943. By the time that the melee was over in 1946 he found that he had skyrocketed to the rank of LCDR in a period of three years. Thinking to himself "This Navy life is for me," he requested to be released to inactive duty so he could complete his education.

After finishing Medical School at George Washington University, Dr.

Savarese returned to the fold—figuring that if he could make LCDR with a BA he should at least get LTJG, MC, with his MD degree—which he did. This reduction did not phase the good doctor, for as he puts it, "I'd rather be a doctor than anything I know of."

Dr. Savarese is not the only Navy man in his family. His wife, Ellen, is also a Reserve—LCDR. They met while she was on an inspection party inspecting his ship. Oh yes, he has been Commanding Officer of two ships. The first was the USS SC-633, which was shipwrecked during the typhoon off the Philippines in 1945. His second command was the USS SC-1280, doing secret work with guided missiles.

The doctor was the Presiding Senior of the Phi Chi Medical Fraternity while in college. He is now the president of the Intern Journal Club here at NNMC; also past Senior Intern.

To be detached soon, Dr. Savarese looks forward to his next duty station, San Juan, P. R. He says "it sounds like tender duty."

Michigan and Vermont Vote Bonus to Veterans For Service in KOWAR

(AFPS) Two states have passed legislation granting bonuses to their citizens who serve on active duty during the Korean situation.

Michigan has granted a death benefit of \$500, and Vermont has passed a law granting a maximum payment of \$120 to enlisted men.

The Michigan payment of \$500 is made to surviving spouse, child or children, parent, dependent brothers and sisters or those who acted as parents for the deceased.

The service requirement states that the payment will be made in case of death if the Serviceman or woman was on active duty on or after June 27, 1950, and if death resulted from service causes. Information may be obtained from The Adjutant General, State of Michigan, Bonus Division, Lansing 1, Mich.

Vermont is paying \$10 a month, with a \$120 maximum, to those who served on active duty after June 27, 1950. The applicant must be an honorably discharged enlisted man or survivor of such.

Further information can be obtained from the Adjutant General's Office, State of Vermont, Montpelier, Vt.

WAVES Celebrate Ninth Anniversary with Party in Chiefs' Club

The crowd sings Happy Birthday to the celebrating WAVES as Miss Moon, Women's Personnel Representative, NNMC, cuts the decorated cake. Pictured on the right are Lee Green, HMC; Joan Madsen,

JOSN; LT Jean Moon; Annette Tillotson, HN; Joan Madden, DN; and Rose Pietrangolo, HA. Tillotson, Madden, and Pietrangolo comprised the committee which arranged and decorated for the party.

School of Hospital Administration Graduates 22

Naval Hospital Administration (Medical Service and H. C. Officers) Class No. 12

First row — Staff Officers: CWOHC R. C. Meyers, Jr., Instructor, Enlisted Class, Finance Division; LCDR H. H. Laramore, MSC, USN, Instructor, Personnel-Records Division; LCDR J. M. Rutter, MSC, USN, Instructor, Finance Division; CDR M. E. Zimmerman, MSC, USN, Commanding Officer; LCDR G. W. Wiese, MSC, USN, Executive Officer; LCDR L. E. Bond, MSC, USN, Instructor, Commissary Division; and LTJG W. L. G. Cartier, MSC, USN, Instructor, Personnel Management Division.
Second row — Student Officers: LTJG H. A. Griswold, LTJG W. E. Riley, LT G. A. Rustad, LT R. S. Nance, LTJG L. W. Burr, LT J. H. Gilpin, Jr., CWOHC A. G. MacBain, LT J. W. Fechter, CWOHC V. T. Engstrom, and LTJG R. V. Whaley.
Third row — Student Officers: LT S. C. Marcus, LTJG W. F. Anderson, CWOHC J. H. Griffith, CWOHC A. C. Fry, CWOHC A. C. Lembeck, LTJG S. V. Herrick, LTJG R. W. Kentner, LTJG J. K. Moore, LT S. Weinstein, LTJG O. C. Graham, LT C. G. Brooks, and LTJG C. "F" Wallace.
The class graduated August 24.

Out of Dream: Health for Thousands

Written by Lt. Col. William P. McCahill, USMCR, in July when was a patient in Towers 14 and 8, the following article was published in the magazine "Spark".

The Navy's Hospital in Bethesda, Maryland, is busier than ever with casualties from Korea. Despite that, it's as smooth working a ship as ever sailed the high seas, and being a patient here gives one a perfect opportunity to inspect it.

Its original 750 beds were increased by 1000 during World War II. Today, with 1100 patients, its peak Korean load was 365 casualties.

This sprawling plant with its 12-floor tower of steel and cement was a dream of the late President Franklin D. Roosevelt, brought to completion by his personal physician, Vice Admiral Ross T. McIntire, wartime Navy Surgeon-General, and Admiral Ben Morrell, former chief of the Navy's Bureau of Yards and Docks.

The dream continues to bring health and promise to thousands each day, from aged Cordell Hull on Tower 17 to the young marine private in the ward. What makes it real is a quietly efficient corps of nurses, corpsmen and doctors who travel endless miles up and down long corridors and towers to do it.

Bethesda is a place with a place for everything and everything in its place. The Navy may move slowly, but it still manages to pioneer daily in daring new techniques for snatching life from death or prolonging it a month or a year. Many of the young men and women here are newly drafted. Many are reserves, skilled in healing, brought back in an emergency. Most are regular Navy, sure and experienced.

CAPT R. M. Gillett, Hospital CO, believes cardiac surgery work on children is "outsanding." Many young patients with congenital heart disease leave here as good as new.

Special investigators probe the thyroid at the Isotope Laboratory and in the Medical Research Institute a small plastic disc which automatically records the amount of atomic radiation received has been perfected. Called the docimeter,

it may become as standard as tags. If your docimeter is blue you're dead.

Here blood vessels, arteries, and skin grafts are stored in tubes for use another day. If you want a plastic life-like hand, call the dental artist. Here a ceramic artist will paint you a new eye to match your own original.

There actually are six cemeteries here under the Naval Medical Center but this story is about the pitiful.

Purple Heart wards from here are good-humored places. You spot walking wounded marine army patients everywhere, also help out. A young orderly and errand runner, ward is very casual about "frostbite." When pressed, he admits he's minus the big toe foot of the army GI who in newspaper concession in the wards which quarter officers, a bit and his crippled hand hard time with change. Today came by in clean khaki and shirt he wore twin ribbons Korea and the Purple Heart with battle stars, above his trymen's badge.

Some of the patients will you where they've been and they've seen just by looking in the eye. The story of the cold nights and hot fights can read on their ribbons. In ways there are the busy discharging the wards, arranging riages, baptizing babies and ing the dead.

Youngsters from Korea and others from the Spanish-American and "banana" wars, of whom come here for their hours, have one thing in common: implicit confidence in Bethesda staff. They should have. They as fine a group of human beings as the doctors, nurses and corpsmen the Navy—as you'll find in the world.

Navy Tests Rocket; Making New Record

(AFPS)—History was made when the U. S. Navy's Martin Viking VII single-stage rocket soared to a record height of 135 miles. Even as the dust was settling from this astounding flight, military rocket experts were at work preparing a new test which, if successful, will shatter all existing records.

The current altitude record for rockets is held by the "WAC Corporal", a two-stage rocket which climbed to an altitude of 250 miles last November.

Experts estimated that the Viking VII hit a speed of 4,100 miles an hour. The missile landed 40 miles from the launching site.

According to the power thrust of the missile, experts believe that, as a war weapon, the Viking VII's 48-foot needle-like body would have a range of 270 miles.

Optical Classes Complete Courses

Optical Classes Two and Three — Graduated August 17

First row: G. W. Sumner, CDR R. R. Sullivan, CAPT J. L. Enyart, CAPT W. M. Silliphant, LT A. E. Mibeck, William Breese.
Second row: A. S. Bowlby, J. B. Boyd, M. Turrene, G. Neser, M. J. Corretti, M. A. Furgala, W. P. Goldwire, E. McLaughlin, A. J. Joyce, H. W. Wilcox.
Third row: W. L. Parrish, M. Paquelek, M. G. Makuta, R. B. Barker, M. Blank, W. A. Scott, J. Hale, C. H. Collins, I. Gardner.
Fourth row: F. R. Stansbury, R. J. Warren, R. Stang, E. Meyers, R. E. Fraller, J. L. Bridges, L. Krull.
Fifth row: N. E. Miller, H. C. White, W. Kuzma, A. B. Saunders, J. E. Fay.

Victory Over Death in the 'Golden Hours' -- Story of Navy Teams in Korea

The Korean war has seen the development by the Navy of a bold new medical technique which cuts to a fraction the former death toll among troops badly wounded in the first waves of an amphibious attack on enemy beaches.

Teams of Navy surgeons and enlisted assistants are now placed aboard landing ships furnished with fully equipped operating rooms and go in to the assault beaches at H-hour with the attacking troops. Thus they are on hand to operate immediately on men seriously hit in the head, chest or abdomen, who might not survive a long open boat ride to a hospital ship off shore.

Military doctors refer to the "Golden Period" when surgery can save the life of a fighting man badly hit in a vital part of the body. This Golden Period is the first few hours after the wound is received.

Proving ground for the surgical teams was the United Nations amphibious invasion at Inchon, Korea, last September, where six original teams carried out the revolutionary plan with telling success.

Almost 100 percent of the troops critically wounded in the early hours of the Inchon assault were treated by the four surgical teams who went in to the beaches in the Navy LSTs (landing ship, tank). The two remaining teams waited offshore aboard larger ships to receive casualties for further treatment and hospitalization aboard

the ships or evacuation to hospitals in Japan.

Somewhat similar surgical teams were used in the South Pacific operations and the Normandy invasion of World War II, but Inchon was the first landing where a carefully plotted technique was used to coordinate the work of the teams with the intricate military tactics of an amphibious assault.

Credit for developing the idea of the surgical team and for working out a detailed scheme for its use in amphibious landings belongs to CAPT Albert T. Walker, MC, USN, Pacific Fleet Surgeon. CAPT Walker is the same Medical officer responsible for the Navy's epidemic control landing ship now keeping the ports and coastal areas of South Korea free from typhus and other war plagues.

The organization and direction of the surgical teams' activities in the Korean war has been accomplished by San Diego's CDR Charles H. Eaton, MC, USN, who started executing Captain Walker's plan promptly following the war's outbreak.

Each surgical team consists of three doctors and ten enlisted hospital corpsmen. The number of persons in the team was determined after careful study of all the essential steps in preparing a patient for surgery, performing an operation, and evacuating the patient after surgery is completed.

No crack football team ever drilled more seriously or regularly than did the members of the sur-

gical teams preparing for Inchon. Each man had been made starkly aware that a fumble on his part would probably mean death for a soldier or marine who might otherwise be saved.

One corpsman had the task of giving plasma or whole blood to the patient while another cleaned the wounded area for surgery. Still another took care of fractured limbs. Sterilizing equipment and keeping it ready for use was the job of another. One man had the heartbreaking duty of writing down the names, rank, and cause of death for those men whose next of kin must be notified.

And the surgeons. They are men like tall, dark-haired LT Harold V. Palmer, of San Diego and Vancouver, who wears horn-rims and the look of a Latin and Greek scholar under his steel battle helmet.

Dr. Palmer took his Surgical Team Two to the Inchon beach in an LST laden with amtracks and ammunition. While the explosive cargo was offloaded from one side of the vessel's bow, Dr. Palmer, Dr. Cecil R. Glass, of Marlin, Tex., and Dr. Robert A. Loeffler, of Lemon Grove, Calif., operated on a stream of wounded brought aboard from the opposite side.

First patient to receive surgery from Team Two was television news cameraman Gene Jones, one of the famous twins, who was wounded by an enemy mortar or grenade explosion almost as soon as he set foot on the beach.

In the hours that followed, although enemy resistance in Inchon was only moderate, Team Two received 95 wounded, many requiring extensive chest or abdominal surgery. Not one was lost after reaching the operating table.

The anesthetist, Dr. Glass, administered the delicate intratracheal anesthesia to many of the patients under conditions always far from ideal. His record of no patients lost due to anesthetic difficulty is considered almost miraculous by his fellow physicians.

HM2 William E. Green, of Greybull, Wyoming, whose previous training in applying casts now stood him in good stead for he perfected his technique during the emergency so rapidly and thoroughly that he is now regarded as an accomplished cast-man.

Men with facial wounds were turned over to the skilled hands of Dr. Loeffler, a specialist in plastic surgery. One boy's cheek had been burst into three ragged flaps of flesh by a bullet which also shattered his upper jaw bone. Later the bone had to be replaced with metal, but thanks to Dr. Loeffler's meticulous stitching of his cheek from inside the mouth this marine will wear no unsightly scars when he goes home.

The second phase of the surgical team's work comes when the beachhead is secured and the fighting lines move inland. At this time the teams become available for work on the hospital ship, aboard large transport ships where extra

hospitals have been set up, in the case of Team Two, pack up their equipment and low the troops ashore. They still to reach the wounded in the Golden Period.

Three days after the Inchon landing Dr. Palmer's team inland and set up an operating room in a battered building Kimpo airfield. The field had wrested from the communists a few hours before. Their careful pre-Inchon training and previously sterilized instruments and towels, they was ready to start operating in 65 minutes after their rolled onto the airstrip.

Frequently the teams have reformed for missions back here. When UN forces were ing their way out of a Red Hungnam, after the Chinese communist intervention, one team flown to that port and was to parachute onto Hagaru where American troops were surrounded and cut the enemy. Before the jump be made, however, the Americans broke out of their encirclement.

When the team returned to Kosaka, they were stared in disbelief by members of the of the Naval Hospital, who received a report that the team actually made the parachute and had been slaughtered by the Chinese Reds.

Admirals Finish League Second

Coach's Corner

The aspirations of the Center softballers were dealt a severe blow the recent graduation of two veteran moundsmen, Whip White and Marvin Fitts. Whip completed his course in the Optical School and in was awarded a certificate from the Dental Prosthetic School. The loss of two hurlers of their proven ability is the reason for the mixed looks noted in and about the athletic department. Pitching three-quarters of the game in soft-ball but when in addition to their fine control you find two men who can hammer that apple on the end, a coach's dream comes to life. In the season's climb to the top place in the local service league, Whip's skill at the plate to hit and ball accounted for a goodly share of the wins registered by the team.

In the recently concluded intramural golf tournament, Captain Homashie wielders copped first place honors followed by Dental Medical School in third position. Play was on the Nassau order a total of three points being the margin that any twosome could win in during one match. Hospital edged Dental by six points in the final that went down to the last pairings. Interest was at an all-time high with members of the teams who shot in the hundred-and-over worrying about the line of putt as much as the long ball hitters fall in the seventy group.

As an aftermath of the tournament, sand traps are being smoothed and the greens as they never had in the past. Players are well aware of the number of strokes which can be lost by having a ball roll a footprint. Remember that in match play when you allow your ball to touch the sand prior to hitting on the downswing, you lose the hole and in medal play, just add two strokes to your score for that hole. During the best-ball matches the following was brought to light: notice to the opponent in match play and to the fellow competitor make play, a ball in play may be lifted for identification, but it must be placed on the spot from which it was lifted . . . when a ball not on putting green lies within a club's length of another ball, the ball nearer to the hole may, at the option of either the player or the opponent, be lifted until the other ball is played, and shall be replaced as far as possible to the place where it lay.

If either ball be accidentally moved in complying with this rule, no penalty shall be incurred, and the ball so moved shall be replaced. If the lifted ball be altered in playing the other ball, the lifted ball shall be placed as near as possible to the place where it lay and in similar to that which it originally occupied . . . if a player, when he hits a stroke, hits the ball twice he shall count the stroke and a penalty stroke in addition. Observance of the foregoing will add to the enjoyment of the game and at the same time prevent a possible incident of embarrassment in tourney play.

Swanson Tourney Underway

All qualifying scores for the Admiral Swanson Tournament, an affair, have been turned in and the pairings for match play ordered by the Golf Committee. In the championship flight, one of the pairings will have his name engraved on the perpetual trophy over in the shop, are eight golfers well known to the local fraternity. Defending champion, sweet-swinging William King, has his work cut out for him with the runner-up from last year, Chips Fortin, still around to take the trophy. Bill has been playing well as the partner of our professional, Downing, in the various Pro-Am gatherings held in the State during the season and using his new Kenneth Smith clubs to advantage. Long-ball hitter Bill Burke, whose forte is driving number seven, is a foursome is putting. . . Spike York, another smasher off the tee, is keeping his irons under control and is to be feared. . . Lefty Inshaw, a smooth swinger himself, a specialist at canning high scores. . . V. LeRoy Andersen, an Al Jamison product from Quantico, has been collecting quarters with ease due to his exhortation to small time golfers to putt. "Get eyes ball, get eyes." . . G. A. Locke Johnson, a white saddle shoes, tailored shorts, a devotee of the practice of who can shoot an even seventy with no strain. . . Coach Frates is the Championship Flight. Out of the above group will come the champion and he will be the one who has the hot putter during the tourney affair.

The First Flight are such campus notables as Jim Crawford and Al Dunn, the fairway twins, who enjoy taking unsuspecting two-into camp by such tactics as shooting a best ball six on the first and then wind up with even pars after the wagers (friendly) are made. Captain Hogan, genial skipper of the Hospital, finds the course after playing at Sequoyah in Oakland. . . Cornell Brothers, the all-around athlete who started playing the Scotch game this year at the insistence of the fellow who can take quarters from him in court. . . Mack Parker, the soft-spoken gent who can waggle a club, Connors, Dorosz and Teeter complete the first flight players. In the second flight, names like Giorgio, Homer Warden, Railroad John Bachar, the latter the winner of this year's beginners tournament and a fappy dan on the greens. . . Captain Evans, whose son Earl Daddy's strongest booster for cup honors will all be battling down the 36 hole finals.

In the third flight, Oscar Nagel, a tall gent from Dental, will be in there along with Berley, Jett, Shanon and Sumner to mention a few. Berry, and Morse are the dark horses in the above matchings. The fourth flight contains such entries as Milt McCline, the beer dispenser at the local sea food establishment. . . Spencer, Stearns and Chief, who never misses an evening on the course. . . Al Grunewald, seen spanking nine irons to the greens with all the precision of Chips Fortin. . . Nelson and Stradtman round out the contestants. The fifth flight boasts the presence of the "Assistant Pro" Sperry whose manner at the golf counter starts the boys off with a good tee shot. . . Wetzel Worters and Ernie Biele hope to make a hot for Chief Carnecross, Tolin and Shutters Bethouille.

The new series of traps at the bottom of the slope on number three, has been moved to the right of the tee on this hole will make it a little harder to play with the course being dry and the better players forced to roll over uncertain fairway. Now you all will admit that the

NNMC Varsity Team Travels to Norfolk In MAISAC Play

NNMC Admirals packed up their bats and balls and left yesterday to participate in the Middle Atlantic Inter-Service Athletic Conference Softball Tournament at the Naval Air Station in Norfolk.

The tournament, which will be either a single or double elimination depending on the number of entries, starts today and will continue through Friday Aug. 31.

Taking second honors in the MAISAC League, the Admirals promise some stiff competition to the entries from the Middle Atlantic Conference.

This will be the last time that Dias will pitch for NNMC as the capable hurler has received his orders for FMF duty. Dental's calm contribution to the mound, Fitts, will not be on hand at Norfolk as he received orders to Com-12 and left Aug. 17 after graduating from Dental Prosthetic School.

NNMC batters may find themselves facing one of their former pitchers, as H. C. White, former pitcher for the local nine has been transferred to Norfolk and will be manning the mound for them.

Baseball Puzzler

In the thousands of games played, the tricky situation described below has confused both fans and players repeatedly. Let's see if you know the answer.

Say it's the top of the eighth at Ebbets Field, with the Braves leading the Dodgers 6 to 1. Buddy Kerr opens with a spanking single to left. The Braves' pitcher then lifts a pop-up to Jackie Robinson at second base, tosses his bat down in disgust and jogs toward first.

Robinson gets under the pop. Noticing the Boston pitcher's lazy pace, he traps the ball cleverly and throws Gil Hodges at first base. Hodges tags Kerr, who is still standing on first, then touches the bag just before the Boston pitcher sprints up to it.

The Dodgers claim a double play, but the Braves maintain that in this situation a runner cannot be put out while standing on the base. How would you call it?

ANSWER

It's a double play, all right. Because a force play was created when Robinson trapped the ball. Kerr is no longer entitled to first base and is liable to be put out.

The procedure must be exact, however. Had Hodges touched the base before tagging Kerr, the force would have been removed and Kerr would not be out. The rule (Section 2.27) states: "A force play is a play in which a runner legally loses his right to occupy a base by reason of the batter becoming a base runner."

NNMC Varsity Softball Squad

First row: R. Hall, E. M. Goda, R. Rock, T. E. Wheeler, A. P. Kaulius, A. J. Kotonias.
Second row: P. White, R. R. Gutekunst, J. J. Kurzawski, T. M. Dias, J. M. Mosley.

Admirals Sail Over Anacostia 7-3 Taking Runner-up Spot in MDW

The Admirals clinched the runner-up slot in the Northern half of the MAISAC League on Monday, Aug. 20 with a decisive 7-3 victory over the fly-boys from NAS Anacostia. This was the final league game of the season and showed the boys sporting an impressive 16 and 6 record. Monday's win found the Ads behind the Naval Radio Station, Cheltenham, Md. by about two games.

Tom Dias went to the mound for the home team, and limited the airmen to five hits. In the first inning, Downs, the airmen's first sacker, caught a low outside pitch and lined it over second. Kotonias came charging in, was about to take it, and the ball seemed to "take off" and soared over his head. The "Greek" got his hands on it but couldn't hold it. Downs touched them all, putting the fly-boys in the lead 1-0.

Varsity Wins 18-2 In Dahlgren Tangle

On Monday, Aug. 13 the Admirals traveled to Dahlgren, Va. to tangle with the boys of the Naval Proving Ground. When the dust cleared away, our boys had latched on to another victory and a tighter hold on second place.

The boys lost no time in putting the game on ice. In the first inning they pushed across eight big runs, and this proved to be the deciding factor in the tilt.

Fitts went to the hill for the Admirals, displayed his usual good form, and walked away with another victory. In the first Fitts was a little shaky. The first two men up for Dahlgren walked. When Fitts grooved one, the opposing shortstop lined one down the first base line; Kurzowski pulled it from the ozone, stepped on first, and threw to Mosley covering the keystone sack. The throw was a fraction too late to triple the runner off second. Our first baseman missed the "Hall of Fame" by a fraction of a second.

The heavy hickory of Goda, Kotonias, Hall and Rock proved to be too much for Dahlgren from the first. In the top of the first inning 13 men went to the platter before the conflagration was finally put out. The Admirals tallied in every inning but the seventh to run the count to 18 big runs. Dahlgren's two lone tallies came after successive miscues by Hall, Rock, Kurzowski and a line single to right.

Mr. Wheeler, substituting in the absence of Coach Jaeger, cleared the bench in the fifth. In the sixth, "Richy" Rock, hotly contesting a decision of the umpire, was unceremoniously ushered from the game.

Luckily for the Ads, Mr. Wheeler was on the player roster. Stripping his tie, and casting his bars to the bench, he trotted to left field to assume this position. If it hadn't been for this "stroke of luck" the Ads would have come home with tears in their eyes and naughty words on their lips.

The boys displayed plenty of fight and spark—the kind which makes a winning team.

Woldt, a left-handed, left fielder, pushed a blooper over Hall's head at third, good for two sacks. He advanced to third on a passed ball. Schlipp layed down a bunt scoring Woldt. See bounced out Rock to Mosely and the threat was over, but the Admirals were on the short end of a 2-0 score.

Bond went to the hill for the airmen and held the Ads hitless until the third. Then the roof caved in. Hall led off and popped Hoch sent a liner into the left-center field pocket good for two bases.

After Rock was eliminated via the strike-out route, Mosely walked. Kotonias singled to left scoring Hoch from second. Pat White doubled down the left-field line; Mosely scored. Houllion singled in White, and Goda singled in Houllion. When the dust had cleared, five green-clad Admirals had touched the terminal platter.

In the fourth, the Ads pushed across two more runs. After Hoch singled, Rock worked Shepherd, who relieved Bond, for a free ticket. Mosely ripped a single over the keystone sack and little "Ollie" tore all the way. "Mose" worked his way to third to set the stage for the final tally.

Up came the "Galloping Greek". After working the count to two and one, he layed a beauty down the third base line. Mosely stormed home with number seven.

The airmen threatened again in the seventh. Kiefer, NAS catcher, worked Dias for a free ticket. Shepherd singled Kiefer to second, and he advanced to third on a passed ball. Trahan, the guardian of the keystone sack, pushed a bunt between the mound and first; the only play was at first and Kiefer scored.

After Downs fouled out to Hall in short left, Laird bounced out—Rock to Mosely. That was the ball game.

HM3 Baggio Gung-ho For Fleet Marines

Fiormante G. Baggio, HM3, USN

It has been said, about Fiormante G. Baggio, HM3, USN, by marines and corpsmen alike, that he is the type of man they like to have in combat with them. To a combat hardened veteran that is the highest commendation that can be bestowed on him. Baggio has many other decorations and commendations, such as: Silver Star, Letter of Commendation with V, Purple Heart, Presidential Unit, Army Unit, and the Navy Unit Citation; also the Good Conduct Medal.

Landing in Korea in September of 1950 at Inchon, his outfit, 2nd Batt., 7th Marines, 1st Division, fought its way through Seoul up to Ujambu, which is nine miles south of the 38th parallel. While in Ujambu a sniper fired upon Baggio striking the cigarette case in his left breast pocket. Luckily it ricocheted off, scaring more than injuring him.

"For conspicuous gallantry and intrepidity as a corpsman — cool courage, initiative and resourcefulness in saving others at the risk of his own life" — this sums up Baggio's action in Korea that won him the Silver Star.

Baggio received his Purple Heart for being wounded by a Red "burp gun," while on top of a tank getting a blanket for a wounded marine. He says that it was dark and he made a perfect target, but again luck was with him and only one of the some 20 odd rounds fired hit him, the others whining off the turret of the tank. He was evacuated to Hungnam via Hagaru-ri and then to the USNH at Yokosuka, Japan.

Looking back now at his experiences in Korea, Baggio has to laugh when he remembers how he and George Fisher, an ex-EENT clinic corpsman, got hungry for eggs one day. They approached every Korean flapping their arms and clucking like a chicken—trying to make them understand that they wanted some eggs. Finally one of the South Korean soldiers that could speak English got to them, telling them that what they wanted were "tegals"—Korean for eggs. So from that time on whenever they entered a town they asked for tegals.

Entering the Navy at his home town of Ysleta, Tex. in October of 1942, he spent WW-II aboard the USS AJAX. Discharged in January of 1946 into the active reserves it wasn't till May of 1947 that he finally "saw the light" and shipped back into the regulars.

Immediately after shipping back in he was sent to NAS Jax where he did recruiting duty and some

Not Much Research Involved

by R. Conaway

Well, back to the old grind after 14 days of heavenly leave, and is it ever hard to settle back into the old routine!

I find a few new names on the roster list, so I think I had best slip them into this issue. J. E. Babcock, HM3 from the Naval Hospital, NMMC; Ralph Wise, HM3, Receiving Station, D. C.; D. L. Clark, HM1, from Cairo, Egypt, and F. H. Hardy, HM2, from the FMF.

LTJG J. R. Barberio, MC, USNR was released to inactive duty on Aug. 15. Dr. Barberio has been on duty at NMRI since August 1949, and now that he is once more a civilian, plans to go into cancer research at the University of Washington Hospital, in D. C.

Wonder who it is the fellows from the NMRI Print Shop are calling "Rudy" these days? I hear tell it is because he has a definite "Valentino" way with the women, that he has been nicknamed after the so famous lover of the silent film days.

A certain lad from the MAA Force has been seen buying up many red roses of late. He claims he has just a "brotherly" interest in the gal concerned, but we wonder! If this be the case, I wish I had a brother so kind!

Jack Goepfert, HMI has switched from the MAA Force to the Personnel Office to replace R. K. Burgess, HMI who recently was transferred. In Jack's place comes R. E. Havranek, HMI from the Animal Laboratories, and D. L. Clark, recently arrived from Cairo, replaces Havranek. Quite a bit of moving around for such hot weather.

A new Clerk-Stenographer has been added to the Pathology Department of NMRI in the person of Mrs. Muriel Dessler. We know she will be very happy in her work at the Institute.

Then came the day when Research stopped at NMRI! A party of lovely sun bathers camped on the lawn directly across from the institute, thereby thoroughly distracting both Research workers and nearby golfers. The oddest part about the whole affair was the complete lack of sunshine; in fact, it was a decidedly cloudy day. The party finally moved on after being informed that their car was parked in a reserved parking lane.

All the chatter for now—so until next issue, so long.

shore patrol before being sent to the USPHS Hospital at Ft. Worth, Texas, for a course of instruction in NP Technique.

Arriving at NMMC in July 1949 he worked on the NP Service, also his present assignment, before going to FMF in August of 1950. Asked about the FMF, Baggio said, "If you like the out-of-doors, never want to take a shower or change clothes (I went seven months without a shower or taking my clothes off) and no liberty—get the FMF." But with all the "winning points" Baggio is still Gung-ho about the Fleet Marine Force.

Navy Belles

by George

Things have been very quiet around our house with girls still looking for a place to keep cool—this beautiful Maryland weather! Everything is quiet in our block since the dental fellows next door left. "Maggie" was the only girl in the class, and we are all pleased to add her to staff (people who stay here). We hope no one in the next class owns a motorcycle.

Bride of the month Stella Turan, is the bride still walking around with her eyes all aglow. She and Jack left the 17th for a delayed honeymoon. With that new diamond Ann Harder is sporting, it looks like she will be our next bride.

On leave at opposite ends of the country Henrietta Marchand in Massachusetts and Annette "Tillie" Tillotson in California.

Party of the month—The Waves had a birthday party Aug. 19 at the Chiefs' Club. Everyone had a wonderful time. I hear that Dental acquired a set of twins after the dance—who knows?

New neighbors — Patricia DeBerry from the Gun Factory and Marie Veras from the Brooklyn Navy Yard. We all had a nice surprise when Mary Murphy came back from Cleveland to see us. Mary had been here for a long time and shipped out last fall.

The latest thing in gray cars—"Hopple" in Leapin Lena, the terror of the compound. Watermelon parties are quite the past time for hot evenings at our house.

Sports—The girls are all interested in a new game of keeping cool, but Dorothy Fleming has taken up night base-ball. As the girl from the heart of Maryland, I'll be seeing you around.

Hmmm! Joan Caulfield does what few men would do when confronted with Joan in this type of sleeping wear — she yawns. She's starred in the forthcoming film, "The Petty Girl."

'Ice Cream Duty' HMC Salm's Goal

"Since I've been in the Navy I've had some good duty," says Frederick Martin Salm, HMC, USN, of the Patients Record Office, "but I'm waiting to get some ice cream duty . . . in the way of Paris, London, Rio de Janeiro, etc."

Entering the Navy in January of 1942 in his home town, Buffalo, N. Y., Salm went through "Boots" at Newport, R. I., and HCS at Brooklyn. Before going to sea with LION #3, Salm did duty at Lido Beach, the Navy Department in Washington, D. C. and USNH Portsmouth, Va., where he became an OR technician.

In late 1944 LION #3 got under way for Guam and by the time that they got back to the states in May 1946 Salm had become a clerical technician and had seen duty at Base #18 Hospital, Fleet Hos-

Frederick M. Salm, HMC, USN
pital #103 and the Island command of Guam.

Prior to entering the service, Salm attended the St. Aloysius Parochial School, Griffith Institute in Springville, N. Y., and the Chown School of Business Administration in Buffalo, N. Y. After graduation he was employed by the Sinclair Oil Company and the Bliss and Laughlin Steel Company.

A very easy man to get along with, Chief Salm has only pet peeve, and that is the New York Yankees. He says that his "favorite team" is any one that can beat the Yanks.

As for post-war duty Chief Salm did over a year with the Second Marine Division, and a year and one-half at the USNH Trinidad, B.W.I., before coming here to the NMMC in March of 1950. Chief Salm says, "I prefer foreign shore duty to sea duty."

Born a happy bachelor on Jan. 11, 1917, he says that he intends to stay that way for some time to come.

A pickpocket is a man who generally lines alone, but occasionally goes out in a crowd for a little change.

Lulu: "Do you know how to drive a baby buggy?"
Luke: "Not exactly. How?"
Lulu: "Tickle its feet."

15 USN Years Net Travel, Education

LCDR Judy A. Wilson, NC

In her 15 years with the Nurse Corps, Miss Wilson has more than her share of the globe with duty in Hawaii, the Aleutians and China all tucked away in service jacket. Reporting here in February, Miss Wilson is now supervisor of Bldgs. 3 and 5.

Born into a rather small town in Clarksfork, Iowa, mountain town with a population of 500, the friendly blue nurse remained in the North until she obtained her RN at Virginia Mason Hospital in Seattle.

After working three years government hospital in Anchorage, Alaska, she came down to Washington to put her name on the waiting line for the USN in 1936. Then, she proceeded to cover the corners of the U. S., serving in California, Washington, Rhode Island, Washington, D. C., and Florida.

1941 found her completing training in dietetics at Georgetown University here. Later in 1949 she received her promotion to LCDR became effective July 5, 1951.

Perhaps her most nostalgic memories are those of her duty in Tsingtao, China, where she spent 15 months in the FMF field hospital, during the time when there was much trouble between the different Chinese factions.

For relaxation Miss Wilson to work in the garden of her home on Manning dr., Bethesda, Md. and reel hold a high prize, too, and she likes to fish "anytime the biting is good." She recommends Montana as the ideal place for finding the elusive trout.

Montana is also the spot she picked out for that cattle she plans to buy when her 20 are up. Perhaps then she will trade her new red Studebaker convertible in for boots and a suit.

The tall seaman stood next to the grizzled chief drinking beer. The barmaid was flirting with the man. When the chief left she nestled close to the seaman. "Now's your chance, honey," said the seaman. "Sure is," said the seaman. "I quickly drank the chief's beer."

Golf Tourney (Continued from page 5)

hour-glass to the right of number four green is just a beauty and will take away from the cheapness of the par five. This gem is forty feet long and twenty feet wide in the ends with an eight-foot construction at the middle. Raymond Acheson, Pancho, Shipe and Red all promise that the course will be in shape, and when the sod is placed on the traps in three by Benny Harding we will have something to be proud of.

U Gives Staff Classes Here

Off Campus Program of the Washington University to offer the following sub-at NNM during the coming year. Tentative registration dates are: Sept. 5, 1951—His-72 and Psychology 1, Nov. 1, English 1 and Chemistry 3, 8, 1952—English 2 and Chem-4, Mar. 11, 1952—Introduction Economics and Introduction philosophy.

These courses will be taught weekly for seven and one-weeks and will each carry semester hours of credit. In addition to the above courses, U. will teach any course in area of knowledge on the college university level in which is sufficient interest to secure of at least twenty students, for which an instructor is available.

These courses may be taken under G.I. Bill, Navy Contract (Bu-C/L 178-50), or may be paid by cash. In order to schedule courses as stated above, interested students must produce evidence of a valid Certificate of Eligibility (Veterans Administration) or a deposit of \$7.50 to the I.E. Officer prior to registration as shown above.

The courses listed above will all require credit for either AA or BA degrees. For more information, contact L. E. Barkley, Rm. 209, Ext.

The following letter was written by Representative Albert Thomas, Eighth District, Houston, Tex. to ADM H. L. Pugh on Aug. 1, 1951:

Dear Admiral Pugh: I have just returned from a week's stay in the Naval Hospital at Bethesda, Maryland, and I want to commend Captain Hogan and his staff for the efficient, painstaking and scientific manner in which they are running the Hospital. I doubt if there is a better or more efficient and effective unit in the United States. The Navy has every reason to be proud of its institution and outstanding medical staff. With warmest regards and best wishes, I am, Sincerely yours, /s/ Albert Thomas.

News Shorts From the Editor's Desk

LT M. E. Hodes, MC, USNR is the new Head of Physiological Chemistry Dept., replacing LCDR H. C. Sudduth, MC, USN, who went to BuMed for duty last month. Assisting Dr. Hodes is LT D. Y. Cooper, III, MC, USNR, who heads the Department of General Chemistry and Toxicology.

CAPT F. M. Kyes, DC, USN, NDS, will lecture before the Georgia Laboratory Association in Atlanta, Ga., Sept. 22, on "The Role of the Dental Laboratory in Full Denture Construction." He will also give a series of lectures before the Georgia Dental Association Annual Meeting in Atlanta, Ga., Sept. 24-25 on "The Pitfalls in Full Denture Construction."

CDR F. E. Frates Jr., DC, USN, Head, Dental Technician Repair Division, Enlisted Training Department, NDS, will present a guest lecture entitled "Dental Assistant Training" at the Pennsylvania State Dental Society Meeting in Pittsburgh, Penn., Sept. 12.

The Elbrook Methodist Church offers NNM personnel a good time and a lot of fun every Saturday night with open house and dancing. Time: 2030 to 2330 every Saturday night. Place: The Elbrook Methodist Church, 4100 River Road, N.W., just behind Sears Roebuck and Co. Wisconsin store.

There will be a moonlight cruise tonight. Tickets are available at the Recreation Department office, Bldg. 23.

Beginning today the new hours for dependents using the facilities of the Recreation Building are: weekdays—1530-2000, Saturdays, Sundays; and holidays: 1300-2000.

The Commanding Officer of the Naval Medical School announced the attendance of CDR J. M. Amberson, MC, USN at a meeting of the Alaska Division of the American Association for the Advancement of Science at Mt. McKinley Park, Alaska, from Sept. 4-8.

This is in connection with the setting up of a Department of Cold Weather Medicine in NMS.

MedSchool lost four of its chiefs and a first class the last day of August when HMC Alber M. Potter Jr., of the personnel office, left for sea duty aboard an auxiliary cargo attack ship and NSHA claimed the following men: HMC Robert L. Gill, board room; HMC Paul J. Sherin, administrative office; HMC James H. Vinson, correspondence training division; and HMC Weller J. Shaffer, MAA office.

Chief of Surgery Detached Today

CAPT. H. A. Gross, MC, USN, Chief of Surgery, NH, was detached today to join the staff of the Commander in Chief, Atlantic Fleet, as Fleet Surgeon of the Atlantic Fleet. His headquarters will be at Norfolk, Va.

Dr. Gross has been Chief of Surgery here since October of 1948. He and his wife and two daughters, Hermine Louise and Peggy lived in Quarters E on the compound.

Born in South Chicago, Ill., he began his career in the Navy in 1929 as an intern at the USNH, Brooklyn, N.Y., and since then he has had duty both in this country and overseas. Dr. Gross is a Fellow of the American College of Surgeons, a member of the American Board of Surgery and, while here, was Adjunct Professor of Surgery at Georgetown University. Since leaving his post as Senior Medical Officer aboard the cruiser USS Minneapolis in 1942, he has been Assistant Chief of Surgery at USNH San Diego, Calif., and Executive Officer of the New Orleans Naval Hospital.

CAPT H. A. Gross

Before reporting here three years ago, he was Chief of Surgery as USNH San Diego from 1945 to 1948.

CAPT. Robert B. Brown, MC, USN, reporting in from the USS Repose (AH-16), will be the new Chief of Surgery.

Bainbridge Graduates Hospital Corps Class

The first class of Navy men graduated from the U. S. Naval Hospital Corps School, NH, USNHC, Bainbridge, Md., on Saturday, Aug. 25. They received their certificates of graduation from RADM H. L. Pugh, Surgeon General of the Navy, who was also the guest speaker at the ceremonies.

The Naval Hospital Corps School was reestablished March 15, 1951 with classes commencing on April 1. The course, a 20-week curriculum, will graduate succeeding classes weekly.

Tucker Advanced to CPO For Heroic Korean Action

HMC Tucker

CDR Zimmerman

Charles A. Tucker, a recent arrival at the Naval School of Hospital Administration for a course of instruction in Medical Administrative Technique was advanced to the Chief Petty Officer rating of Chief Hospital Corpsman on Aug. 18 for outstanding performance of duty and especially meritorious conduct while serving with the Marines in action against enemy forces in Korea.

SecDef Asks Blood Donors For More Blood

The supply of whole blood available to the Armed Services is critically low.

To meet the demands of the Korean campaign and insure that an adequate reserve is at all times available, 300,000 units of dried human blood plasma are required each month.

Currently only 30,000 units a month are being received.

The Secretary of Defense has therefore requested that immediate action be taken to persuade the civilian and military population to contribute whole blood to the Armed Forces.

Towards this end the Defense Department has directed the establishment of the Armed Forces Blood Donor Program.

Beginning today, Sept. 10, a continuing national campaign will be conducted by the Department of Defense.

The NNM Blood Donor Center is continuing its collection of blood to supply the needs of the Center. So far the Dental command is the only one which has filled its quota.

Anyone wishing to contribute blood should call Ext. 586 for an appointment. Appointments can be made any time between 0830 and 1630.

Tucker, while acting as Chief Hospital Corpsman at the Battalion Aid Station located in the Battalion Command Post worked long and tirelessly under intense enemy artillery and mortar fire to personally render first aid to the numerous wounded, and to aid the Battalion Surgeon in successfully directing the employment of the other corpsmen in treatment and evacuation of the wounded. Even though wounded himself, Tucker continued in the performance of his duties.

The Chief of Naval Personnel's letter advancing Tucker reads in part, "The Chief of Naval Personnel is deeply gratified by Tucker's outstanding performance of duty in action and takes great pleasure in authorizing this advancement in rating."

Tucker first enlisted in the Navy in January, 1943 at St. Louis, Mo. He received recruit training and hospital corps training at Great Lakes, Ill. During World War II he served at various hospitals and on board the old Eagle 19 and the YMS 370.

Commander M. E. Zimmerman, the commanding officer, in the presence of the crew at quarters, on Aug. 25, read the letter from the Chief of Naval Personnel which authorized this battlefield promotion, and congratulated Tucker on his outstanding performance of duty.

Brooks-Hamilton Wedding in Chapel

It was an "all Navy" wedding Friday, Aug. 31 in the Protestant Chapel when Flora Lee Hamilton, HM2, married Thomas Arnold Brooks, HMC (pictured above). Mabel Eller, HM1, was Maid of Honor with William Bradley, HM1, as Best Man. LTJG J. W. Duckworth, MSC, USNR, gave the bride away. With the exception of Bradley, all work in NMRI. Bradley is attached to NH.

A Letter

On the green shaded porch of a cottage
I noticed in passing one day
A sweet little lady, a man by her side.
They were aged, and wrinkled and gray.

I paused as I thought of my parents
I had left at the old home far away
And I said to myself, "That reminds me,
I must write them a letter today."

Their love for us we take for granted
Though we cannot be with them today.
Is it true that our time is so taken
That we can't send a letter their way?

For their loving care in our childhood
That has stayed with us yet as a man
We should write them today, say "I love you."
That is something to do if you can.

For next to their child being with them
What is sweeter than a letter from you
Saying, "I remember your teachings of yesteryear"
"And today I am following them through."
—ALBERT H. JONES, Civilian Guard

CREW'S LIBRARY:

Relax, Read, Enjoy

NEW BIOGRAPHIES

You will not be surprised to find that biography is the most popular type of non fiction in Crew's Library if you will take a moment to examine the range of new titles recently put out on the shelves.

There are two new general books of biography: the first, called **WRITING ON LIFE** is by Lincoln Barnett. Originally appearing in *Life* magazine, these 16 close-ups include Generals Eisenhower, Marshall and Giraud as well as The Astaires, Bing Crosby and Ingrid Bergman. The second is **NO PEOPLE LIKE SHOW PEOPLE** in which Zolotow discusses, in chatty fashion Tallulah Bankhead, Jack Benny, Fred Allen, Durante and others.

For the musician there will be great interest in **PUCCHINI**, by Marek, a very readable full length biography of the Italian opera composer and **THE MAESTRO** by Taubman, which is the life of the world famous conductor, Arturo Toscanini.

Charles W. Thayer in **BEARS IN THE CAVIAR** tells his true and funny experiences as interpreter to various ambassadors. Once his duties included teaching the Russian cavalry to play polo!

In **SAILS AND WHALES**, Captain Harry Chippendale, who was born on a whaling ship, writes a vivid and exciting story of his experiences on unseaworthy ships, with bad captains, mutinies, and near shipwrecks. He survived to serve in the U.S. Navy with daring and distinction in three wars.

THE GENERAL WHO MARCHED TO HELL, by Miers is a biography of William Tecumseh Sheridan. His march from Atlanta to the sea is seen from both Union and Confederate viewpoints drawn from memoirs and diaries of soldiers and citizens who lived through it.

Diaper Derby

Aug. 25—Larry Joseph Louviere, 4 lbs., 8 oz., son of Levis Joseph Louviere, HMC, of NMRI Biochemistry Department.

Aug. 29—Donna Lee May, 8 lbs., 4 oz., daughter of Arnold Dean May, HM1, NMS, Lab 16.

The Chaplain's Corner

by Chaplain Bronnie E. Nichols

Dead Spots in Our Prayers

If you have ever listened very much to a car radio you have tainly noted that you come occasionally into a "dead spot" in which there is no reception on the radio, regardless of the station to which you are tuned. The cause of this interference of proper reception may be caused by any one of several things. A long tunnel will shut out reception, as will a long under-pass. Sometimes in traveling through mountainous countries one strikes "dead spots" in the valleys, and in crossing steel bridges with overhead framework, radios are often "dead."

Whatever the immediate cause of the lack of reception on the radio, the basic cause is one and the same, that is, the "channel" by which the program travels from the broadcasting station to your radio set has been "clogged" with something. To remove this condition one must think of moving the broadcasting station, for that is not within our power, but he does think of moving the radio into a position where there is nothing in the "channel" that leads to the broadcasting station.

The "dead spot" in radio reception is suggestive of the "dead spot" we often find in our prayer life. All of us have at times felt that our prayers never "reach above our heads" because of the heavy cloud of oppression and sorrow. Many can testify to the prayers that have been lifted up to "brazen skies" that seem to fall back, hollow and into the face of the petitioners, or those that seem lost in an eddying vortex of darkness.

It does not require a man of deep wisdom to know that to receive proper receptivity on the radio one simply moves out of the area of the "dead spot" into a place where there is nothing to "clog" the channel that lead through the invisible ether waves to the broadcasting station which may be hundreds of miles away. Neither is the wisdom of Solomon needed to know that to bring about a change in one's prayer life, we simply have to get out of the "dead spot" where we have "connections" with the channels that lead to Heaven, and get into a right relationship with our Prayer-hearing, Prayer-answering, Heavenly Father.

That "dead spot" in your prayer life may be caused by "mountains" of doubts, by "valleys" of depression, by "tunnels" of fear, by "frameworks" of selfishness, or deep "under-passes" of living. Whatever the cause, get away from those things that block the "channel which leads upward to God," and you shall have perfect reception . . . answered prayers.

Hansbrough Retires with 33 Years

Abner Hansbrough, Cook Maximum, receives a "well done" handshake from RADM C. A. Swanson on his retirement after 33 years of civil service. Hansbrough's home is in Washington, D. C.

The Journey

On a journey we begin the first moment of our birth,
God gives a passage code to make our way across the earth;
The chartered road to travel that long before us lies,
While smooth uncharted road misleads our searching eyes.
Not one of us shall know where or when our journey's end;
There is no turning back; we go with the onward trend.

We travel not with ignorance or even blind deception,
We know death awaits; even this is not the question,
But shall we journey on to everlasting life
Or be blinded on the way by evil's path of strife?
And it shall not be for he who follows God we'll mourn or weep.
But for he who thought God's road was narrow and too steep.

One loved one from among us, his journey traveled well,
The road of God he chose, spurning fiery gates of hell!
He had not journeyed far when God stretched out his hand
Lifting him from out among us into the promised land.
Let not our hearts be saddened or tears fall from our eyes,
But rejoice! His journey ended beyond the heavenly skies!

Save the tears of sorrow for the living, not the dead —
The living, who see not their choice path lies doomed ahead!
Lose not faith or courage, journey onward as before,
'Til God holds out His hand flinging wide the heavenly door,
And the loved one from our midst, who passed away today
Shall smiling take our hand and lead us, too, away.

—GLORIA E. GOSNELL, NMRI

Doctor Kohen, Bronze Star Winner, Says 'Every Man There Was a Hero'

LTJG Roland J. Kohen, of NH surgical staff, received the Bronze Star with a device, Monday, Aug. 20, 1951 for bravery under fire in Korea. For a period of more than 48 hours he remained on duty with little or no rest.

Although shells fell near his aid station, and the tent walls were perforated by shell fragments, he remained at his post, refusing to leave cover, and continuing to treat the wounded.

Dr. Kohen was "loaned out" to the Army during his seven months in Korea. He was attached to the 1st Infantry Regiment, 2nd Infantry Division which, with one million of French, was completely surrounded by four and one-half divisions of Chinese near Yung-Ni last February.

For four days they were completely shut off from supplies and under constant fire. Dr. Kohen and four other doctors found themselves with 300 seriously injured men. Without proper instruments, they treated them the best they could, performing emergency amputations with no more equipment than their bare hands and a knife.

Evacuation attempts were made by helicopter, but failed as the enemy fire was too heavy. They received some supplies by airlift, but this too was sparse.

As the battle continued, the 38 medicals in Dr. Kohen's platoon were reduced to 15. Meanwhile, Col. Freeman, in charge, set up a defensive perimeter, a rough rectangle in shape, 4,000 feet east and west, and 2,000 feet from north to south, over the hills and flat paddy land.

Col. Freeman is given credit for one of the most strategic defenses in military history; one that will be studied in war schools for years to come. He held out against the enemy unit task force of 23 tanks of the

LTJG Roland J. Kohen

1st Cavalry Division pushed in to free his men from the bloody trap.

Agreeing with Army men who have recommended the entire regiment for the Presidential Unit Citation, Dr. Kohen said, "Every man in the regiment was a hero—there were no cowards—they all knew they had to pull together to survive, and they did—fighting and taking care of the wounded together."

"I took a lot of ribbing from them, being a Navy man myself," he continued, "but when it comes to fighting, those soldiers couldn't be beat; I am proud to have been part of their outfit."

The young, Florida-born doctor has been on the NH staff since July and is now working in Ward 128 and orthopedics.

Camp Lejeune Variety Show Entertains

One of the best shows of the year came to NNMC Saturday, Sept. 1, with an all-marine cast from Camp Lejeune, N. C. Packed full of talent and a lot of fun, they played in the wards during the afternoon and gave a full two-hour performance at 1800 in the auditorium.

Top left: Pfc. Edward Brown and Cpl. Annette Cooper do some tricky acrobatic skating.

Top center: Cpl. Al Estes, alias "Isieub", combines dexterity and wit with ludicrous costuming.

Top right: Spirited, agile Dick Hanchette and his fast-moving feet.

Lower left: "The Slop Chute Gondoliers": Bob Dixie with guitar, the show's m.c., Claude Delta and Charley Dingus on the rubraharp.

Lower right: Diversified Pfc. Don Johnson, singer and accordionist.

Two Korean Ribbons Authorized So Far

(AFPS)—In order to dispel much of the present confusion regarding the wearing of newly authorized service ribbons, military officials in the Pentagon have issued a warning to all qualified servicemen to be sure that they are wearing authorized ribbons.

There are only two ribbons presently authorized for wear that have been awarded for service in the Korean war. They are:

1. Korean Service Medal—Awarded to servicemen who have served in Korea and immediately adjacent waters between June 27, 1950 and a terminal date not yet announced. It should be worn over the left pocket.

2. Korean Presidential Unit Citation—Awarded to servicemen in particular units cited by the President of the Republic of South Korea, and authorized for wear by those serving within unit at the time of the citation. It should be worn over the right pocket.

Two ribbons that have received considerable publicity, but have not yet been authorized for wear are:

1. United Nations Service Medal—Although the Secretary General of the United Nations has announced the establishment of the medal, no authorization for its wear has yet been made.

2. Armed Forces Reserve Medal—Authorized by executive order, but eligibility requirements for its award have not yet been released.

The meanest thing you could do to a woman would be to lock her in a room with 1,000 hats and no mirrors.

Dental Exporer

by I. Ramos and C. Connor

It's ten to one that Stella Sandell—oops—Turan's feet haven't touched the ground since she returned to the fold again. Welcome home, Mrs. T.

That glow that you see emanating from room 160 is not from the sun, but from our own Mrs. Wills, formerly Carol Lawrenson, who has finally put her track shoes away.

It sure is nice to see Habel drawing her liberty card again; she is now a full fledged member of the PAL club.

If any person desires information about anything and everything, the man of the hour is not "Sam Spade," but Fetting.

Henrietta and Mrs. Mac have acquired a new song, "How Do You Do and Shake Hands". For a reasonable fee you too can hear them render their new tune.

Beaver of X-ray is trying to run a close second with Mario Lanza, but it is difficult to decide as to whether it is in singing or eating.

So glad to see the prosthetic students aboard. There's liberty tonight—Yippee!

It was good to see CAPT Grunewald and his daughter adding their talents to the golf course. Have you made that hole in one yet?

Chief Stinson, alias "Sparrow in the Treetop," has finally settled down to home life again since the boss is back.

In the automobile dept. it's a blue Chrysler for West.

This sudden case of hay fever that Brouillette has developed is due to quote, "Missing Charts, unquote."

The prosthetics lab will soon be sporting window boxes, and draperies. Maybe even doilies, since Maggie has joined their midst.

It's nice to see that LTJG's Enger, Chaisson and Sanquist have joined our family here in Bldg. 1.

Now that the new interns and PG's have all arrived, we can settle down to the business at hand, dispersing with all of these amalgams that we have had in cold storage.

Guess we'll be weighing anchor now and battering down the hatches; we remain, your dental explorers, the two gals from the HUB.

Cop: "You're about the worst driver I ever saw. I'm arresting you on four counts. You drove through a red light. You're going the wrong way on a one-way street. You've been hitting 50 or better right down-town. And you didn't pay any attention to my siren for 10 blocks."

The offender's wife leaned across her silent husband, smiled sweetly, and said: "You mustn't mind him, officer, he's dead drunk."

"Do you believe in clubs for women?"

"Only when kindness fails."

What a day. I lost my job. My wife left me. The Senators lost to Chicago. It's unbelievable—leading by three in the eighth.

CDR Norman L. Barr, MC, USN, and assistant, M. Novo, ALI, N, calibrating instruments prior to departure on a field trip into northern latitudes.

DR Barr Leading Arctic Expedition

by R. Conaway

Aug. 20, 1951, 16 officers and crew, headed by CDR Norman Lee Barr, MC USN, departed on a reconnaissance expedition to the Arctic. The group will make their first stop at Churchill, Manitoba, then to Edmonton, Alberta; Whitehorse, Yukon Territory; and Fairbanks, Alaska.

While at White Horse, Yukon, the party will probably be busy with research matters to investigate "The Shooting of Detective Dan McGrew" or to carry out an extensive search for "The Man on the Barroom Floor."

The expedition will include three planes, two Douglas Transports and a High Altitude Fighter. The trip is being made in connection with visual problems at

high altitude in northern latitudes.

A similar trip was made in June of this year to Puerto Rico in the Virgin Islands in order to study visual problems with the sun at its zenith.

Dr. Barr and crew expect to return to NMRI in mid September.

Corpsman's Hit Parade

"Liver Come Back to Me."
"Saline, Saline Over the Boundary Main."
"Begaue of You."
"Just a Little Fond Infection."
"Gall or Nothing at All."
"Itch You is or Itch You Ain't My Baby?"

Good Time for All as Dr. Saraniero Makes Promotion

Pictured in foreground: CDR Amberson on left of table; on right of table, LCDR Saraniero, HM3 Chase, HM2 Jett, and HM2 Gregory.

Surgeon Gen. Commends 3 MD's

LT G. W. Hyatt, NMS; LTJG C. A. L. Bassett, NMRI; and LTJG T. C. Turner, NMS, who attended the AMA Convention in Atlantic City and presented the prize winning exhibit shown above.

Winning Exhibit Nets Commendation

LTJG G. W. Hyatt, NMS, LTJG C. A. L. Bassett, NMRI, and LTJG T. C. Turner, NMS, were commended in a letter from RADM H. L. Pugh, Chief, Bureau of Medicine and Surgery for their work on the exhibit entitled, "New Methods of Preserving Skin, Bone and Blood Vessels."

The exhibit was awarded the Certificate of Merit for first place in the orthopedic section of the AMA convention in Atlantic City, N.J., June 11 to 15.

The three doctors work as a group on the job of evaluating experimentally new methods for preserving tissues and apply the methods at a controlled clinical research level through the NMS Tissue Bank. This particular exhibit represents two years' combined effort of NMS and NMRI personnel in cooperation with NH.

The Surgeon General's letter read in part, "You have reason to feel proud of your accomplishment in competition with the best in civilian medicine and the Chief of the Bureau of Medicine and Surgery takes pleasure in commending you for your fine work."

He always called a spade a spade until he hit his foot with one the other day.

Hospital Ship Duty For NMS' Dr. Hyatt

Leaving NNMCC with brand new LCDR stripes and the Surgeon General's commendation in his service record, Dr. G. W. Hyatt left his duties as Officer in Charge of the Tissue Bank last week to report aboard a hospital ship in the Pacific.

The young doctor's promotion to LCDR became effective Aug. 1, but he was unable to take his qualifying physical until the end of August when he returned from leave.

His commendation from RADM H. L. Pugh came after the exhibit he and Drs. Bassett and Turner presented at the AMA convention won first place.

Besides his work in the Tissue Bank, Dr. Hyatt had additional duties in NH in orthopedic surgery. He has been at Bethesda for the past 18 months.

Dr. Hyatt is married and has two daughters, ages four years and 18 months.

LTJG T. C. Turner is the new OinC of the Tissue Bank.

Instructor: "There are so many noisy interruptions in here that I can hardly hear myself talking."

Voice from rear: "Cheer up Mac. You aren't missin' much."

LCDR Saraniero Entertains Staff

Dr. Gioconda R. Saraniero, Officer in Charge of Hematology, gave a party for the Hematology and Blood Bank Departments on the afternoon of Aug. 20 in the Blood Donor Center upon her recent promotion to Lieutenant Commander.

Invited guests included RADM Swanson, CO, NNMCC; CAPT Hogan, CO, NH; CAPT Enyart, CO, NMS; CAPT Gross, Chief of Surgery, NH; CDR Martens, Director of Laboratories, NMS; and members of the Pathology Department and MedSchool personnel office. Ice cream, cake and soft drinks were served to the more than 80 guests present.

Originally from Brooklyn, N. Y., Dr. Saraniero received her Doctor of Medicine degree from Women's Medical College in Pennsylvania, which is believed to be the oldest college of this type in the country.

Entering the Naval Service in 1943, she was separated as LCDR, USNR in 1946, when she returned to civilian practice. She returned to active duty in the regular Navy in December of 1948 as a Lieutenant. Her promotion to Lieutenant Commander became effective Aug. 1, and she was sworn in Aug. 16.

Few States Paying WWII Bonuses Yet

In most states, the deadline for filing applications for WWII bonuses has expired, but in the case of a few there is still time to establish eligibility. Two states, Vermont and Michigan, have voted Korean Bonuses.

Massachusetts: No deadline. Maximum \$300. Application forms: State Treasurer's Office, Bonus Division, 15 Ashburton Place, Boston, Mass.

Michigan: WWII deadline expired. Korean Bonus: \$500 for survivors only of servicemen who die of service-connected causes. Application forms: Adjutant General, Bonus Section, Lansing 1, Michigan.

Montana: No deadline. Maximum \$400. Monthly rates: \$10 for domestic service and \$15 for foreign. Although approved by a popular referendum in November 1950 applications are NOT being accepted as yet pending a State Supreme Court ruling on the constitutionality of the law.

New Hampshire: No deadline. Maximum \$100. Application forms: Adjutant General's office, State House, Concord, N. H.

New York: No deadline. 1949 referendum repealed requirement which formerly demanded New York residence at date of filing. Application forms: New York

Not Much Research Involved

by R. Conaway

Aboard from San Diego is LTJG W. E. Huckabee, MC, USNR, and from Whiting Field, Milton, Florida, comes D. S. Toner, HN, USNR.

D. Hartleib, HM2, transferred to Med. School to attend a course in clinical lab technique. Also on the departing list is C. Goebel, HM2, who has left the Navy Blue to take up the role of "CI" (Civilian First Class). M. R. Gilliland, DC1 was sworn in on Aug. 31 by CAPT Kellum for another six long years. It isn't often that the C.O. of a Research Institution administers the oath to other than medical rates.

Many are the skills of the men of research, but few of us know of their secret ambitions. Take the case of R. W. Zimmerman, HM3, an aspiring athlete in our midst, who can be seen most any evening behind Bks. 142, practicing for the Cross-country Run. And the future protector of law and order, W. G. Clutter, HM1, studying his books on how to become a "Private Eye." Not to mention the mustache brigade, with Phil "Pierre" Minard taking the lead in the cultivation of "misplaced eyebrows." And though Hollywood may have Mario Lanza, NMRI has the haunting voice of our own operatic tenor, Michael "Caruso" Dutko.

On Aug. 31, "Hammy" Hamilton became Mrs. Thomas Brooks in a quiet wedding ceremony in the Protestant Chapel. Mabel Elller, HM1 was the Maid of Honor, with B. Badley, HM1 acting as Best Man. The bride was given in marriage by LTJG J. W. Duckworth, MSC, USNR from Rad Tech Division. A small reception was held at the home of a friend, immediately following the ceremony.

Another to follow the lead of Cupid was John J. Conley, HM3. Johnny went clear up to Massachusetts to exchange his vows on Sept. 3.

There being no further news to impart, I say adieu until next time.

Two KOWAR Vets Get Purple Heart

On Aug. 20 two marines, Charles E. Geiwitz, a patient Ward 6-C and Cpl. Roderick Thacker, Ward 133, were awarded Purple Hearts by RADM C. Swanson, the Commanding Officer of the National Naval Medical Center.

Thacker received his Purple Heart for wounds received March 5 in the Kori-goi sector of Korea. While serving as an ammo carrier for a machine gun section he was wounded in the left ankle. Feb. 28 Thacker was blown out of a foxhole by a grenade. The injuries that he got from that a few bruises and a bloody nose. For Geiwitz this is the first time Sept. 3, 1950.

he was wounded again, this time by a gunshot wound in his left foot. Shrapnel in the chest. Put in action for four months, he was evacuated at USNH Yokosuka and going back into action later in January.

Again bad luck caught up Geiwitz. While returning from patrol late in the afternoon, went into a Red bunker, set off a couple of trip grenades. explosion knocked him out for minutes wounding both of his arms and his left arm.

Canadian Dentist At NDS for Course

Fred M. Murray, Major, R.C.D.C., whose home town is Victoria, B.C. is attending an international four week course in crown bridge work at the NDS. Before coming to NDS Dr. Murray was in charge of all Royal Canadian dental activities on the West Coast.

Dr. Murray graduated from North Pacific Dental College, Portland, Ore. before joining the Army in 1940 as a Lieutenant. served with the Royal Canadian Air Force for four and a half years in Great Britain during the war.

Upon completion of this course Dr. Murray is returning to Victoria, where his wife is now, to resume his duties. He says that he feels very lucky to be able to take this course in a hospital of this caliber.

Washington: No deadline. Monthly rates: \$10 for domestic service and \$15 for foreign. Application forms: State Auditor, Division of Veterans Compensation, Olympia, Wash.

West Virginia: No deadline. \$300 maximum for domestic service computed at \$10 monthly; and \$400 maximum for foreign duty computed at \$15 a month. Application forms: Not yet available. More news later.

Coach's Corner

The Varsity softballers are mothballing their gloves following the off for the East Coast title. Playing under the lights for the first and without the services of the two veteran flingers, Whip White and Marvin Fitts, the boys dropped two games to the Crocodiles from e. Creek and the Naval Operating Base, Norfolk contingents. Tom e. the number three on Bob Yeager's club, did a wonderful job twirl for the locals on two successive days. All in all, finishing second in local league despite all obstacles is excellent in itself and no small

The Center Commanches have started training in defense of their won on the gridiron for the past three seasons. Missing from the er will be such names as Patridge, who slid around right end to e the count 14-13 with a minute to go against Dental a couple of back; Walters, a nice defensive center who could handle his dupois with the ease of Prof. Echols going in for a snowbird; Don zi, a bantam back who had a real nose for ferreting out passes from safety position; and Elias Bell, a great all-round athlete.

George Funk will guide the Commanches during the coming season as the boys downtown say, "It looks like a shoo-in for the Center d." Knowing that good leg work is essential, George has had the touring the fairways all summer long. Such notables as Legs al, Harry Gold, Woods, Shanahan, and Cornell will be the nucleus hat looks like a sweet ball club. Gold has exhibited a penchant for salvo after salvo of gutta percha at the family Merginae as they a by in column formation Dog in the water hazard just below the on number seven. Now that Gold has his new clubs maybe the life will get a rest.

Last weekend saw the windup of the Center-BuMed championship smooth swinging Bill King taking the measure of Locke Johnson, e sticker in his own right. Par golf was the order of the day and ugh the course is playing short due to the condition of the fair- Red Acheson, the greenskeeper, had the bent in shape to hold es and with Bill and Locke, masters of the wedge, the cup positions no terror as they went for every pin no matter where the fairway landed.

To reach the finals King had to shoot four birds in a row on the last holes to take Burke into camp, two over par to receive the hand- e of Lefty Burkinshaw. Locke spanked a 70 against the Coach's d two birds in a row to cope with LeRoy Anderson. Bill Downing, pro, refereed the championship match which played quite fast, due e cooperation of all hands in allowing the match to go through.

In the first flight, Jim Crawford and Teeter battled down the 36 rays with Jim taking the cup. Tommy Brothers and Connors were obstacles that Jim had to overcome prior to gaining the finals. r had a tough match for his first round with CAPT Hogan, the being settled on the nineteenth. Dorosz had a first hand look at Teeter putter before bowing out.

Second flight finalists, Giorgio and Bachar, had no easy path to the y showcase. Eide and Homer Warden were eyewitnesses to the e irons in motion while John Bachar treated CAPT Evans and worth to a free show of now you see it, now you don't, when the ar wand stroked the ball on the carpet. In this case Bachar admin- ed the tee anesthesia.

In the third flight finals, Chief Sumner and his plaid cap caused Morse to blink once too often on the putting green with Sumner y the nod. Berley and Berry joined the spectators at the invitation ef Sumner while Shipley and Nagel were sidelined by Morse.

Fourth flight cup winners were Captain Alvin Grunewald and Chief gler who battled thirty-six holes with Spangler coming out on the count. To win the flight, CAPT Grunewald had to topple Spencer elson while his fellow finalist topped Stradtman and Milt McCline. e "assistant pro," Lowell Sperry, sporting his new twenty-five Foot-Joys, Pedersen irons and new putting stance, gave free les- to Chief Carnecross and Wetzel, and finished off Ernie Biele in the to take home the bacon for the Fifth Flight.

During the tournament a couple of questions came up regarding the ng of a provisional ball with the hole in question being number The local rule on out of bounds on that particular fairway is that adway to the right and that behind the green is OUT. If a player d have the misfortune of slicing his tee shot into the road on this e must hit a second ball from the tee with loss of distance only. ayer is not certain as to whether or not his ball is out of bounds y play a provisional ball until he reaches the place where the us ball is likely to be.

in a great while a man- after handing his line-up o the umpire, will decide to a substitution in the line-up play begins. Except for rs, this is permitted. Where stitution is made without r notice to the umpire, how- it can become an expensive sition. Here, in a hypotheti- tting, is one such instance: -Yost is listed as lead-off man e game between Washing- t. Louis at Sportsman's Park. e last minute, however, the rs' manager decides he l use Gene Verble. The e gets up to bat before the e is notified of the change promptly slashes a line double enter field. Browns' manager comes out dugout on the run, claiming

that Verble is an improper batter inasmuch as his name does not ap- ear in the lineup. The Browns contend that the proper batter should be declared out and Verble taken off base. If you were offici- ating, how would you rule?

ANSWER

Let Verble remain on second base, and the game continues with no one out. Failure to inform the umpire of the substitution is going to cost the Senators' manager \$25 (Section 3.08), but an unannounced substitution is not otherwise punishable. (See Section 3.10a2, "If, through oversight, no an- nouncement of a substitution is made, the substitute shall be con- sidered as having entered the game when . . . if a batter, he takes his place in the batter's box.")

Golf Shop Expands and Improves with Time

Upper left: The newly constructed entrance and awning of the golf shop located in Bldg. 23. Upper right: L. D. Sperry logs in Biles of NDS. Lower right: Salesmanship is part of the assistant pro duties, whereas Obos demonstrates a new set of irons to LT Marino.

Sports Quiz

By Armed Forces Press Service QUESTIONS

1. True or false? If a batted ball strikes the pitcher's rubber and then bounds foul, is it a foul ball?
2. What is America's richest and longest stake race for jumpers?
3. Bob Fitzsimmons won the heavyweight championship in boxing from James J. Corbett. What distinctive honor did Fitz hold in addition to his title?
4. Who holds the American and world records for the mile run outdoors?

ANSWERS

1. True.
2. The Grand National Steeple-chase, run at Belmont at "about three miles." The largest purse was paid in 1947 to Adaptable. The horse got \$29,775.
3. He was the lightest heavy-weight to hold the crown, weighing in at a trim 167 pounds.
4. Gunder Haegg of Sweden holds both marks. In 1943 he set the outdoor mark of 4:03.3 at Cambridge, Mass. Two years later he broke the tape at Stockholm with a clocking of 4:01.4.

The 1951 Intramural Touch Football League will be underway on Monday, Sept. 24. At the present time five teams have entered rosters: Center Commanches, Dental, Lab 17, X-Ray and N.P. A final meeting will be held in the Recreation Department tomorrow, Sept. 11 at 1300 to discuss rules and schedule. This will be the final chance to enter competition.

Trophies for champions and runners-up.

1951 Best Year for NNMC Golf; Thanks Go to Pro and Committee

by Lowell D. Sperry, HMI

Since the dedication of the NNMC golf course and club house in June, 1950, Bill Downing, the pro, ably supervised by the golf committee, has introduced many new and worthwhile improvements.

When the golf course and club first opened there wasn't the enthusiasm that exists at present. On a regular week-end we usually had not more than 50 golfers registering to play; now there are days when over 150 play. Some of the reasons for this increase is the addition of the last three holes, the introduction of more sand traps and bunkers, finer greens, and well trimmed fairways.

The golf shop is manned by Vic Obos and yours truly. It is our job to log in the players, check passes, rent clubs, and make minor repairs on clubs. With the installation of racks in club house, we now have to clean, repair and issue the privately-owned clubs stored here.

At present there are 25 sets of men's clubs, 3 sets of left-handed, and 10 sets of ladies' clubs. Any one of these sets can be rented for 25 cents a day. In comparison to original 10 sets that we had, this is a great advancement, thanks to the diligent work of the golf committee.

We have opened every day without fail for over a year; now we open at 0800 daily except Saturday, Sunday and holidays when we open at 0700, closing at dark every evening.

Since the opening of the golf course and shop there have been innumerable changes and improvements made; the latest being the new red and grey metal awning over the outside counter. The original champion of the course, CAPT J. Crawford, would be pleased to see what he started and made possible with his untir-

ing work, thought and concentration. The present golf committee, in whose hands the job is now left, is pleased with the 2,493 that played last month.

To make a long story short, we are all grateful to the golf committee, Athletic Officer, CDR F. E. Frates Jr., and Recreation Officer LT J. O. Atkinson for making possible one of the finest courses in the metropolitan area.

They stretched the man out on the police station floor and the doctor examined him. "This man has been drugged."

The policeman who had brought him in turned white and said: "I might as well admit it—I drug him four blocks."

"He's a Boatswain's Mate... maybe he could get you a date with a Boatswain!"

Being a 'Home Pro' Satisfies Downing

Bill Downing

"See that kid teeing off? Well, just a few short months ago he had no idea that he'd be playing golf in the 80's by now. He is one of the boys that started playing when the Recreation Fund sponsored group lessons. I sit here and watch their progress day after day and it gives me more of a thrill than the students to see him hit the ball properly and well. The reason for this is that I want to be a good teacher—with low-scoring students to prove it. Sure I would like to be a *playing pro* but for the present I'm satisfied being a *home pro*." That was Bill Downing, our NNMCI pro, talking.

Born in Front Royal, Va., 29 years ago, Bill never thought about playing golf till he entered the V-5 in May, 1942, then only as a sport. He played a few times while taking pre-flight at the University of Georgia and basic at Hutchinson, Kans.

Bill received his wings in Sept., 1943 at Corpus Christi, Texas, being commissioned a 2nd Lt. in the USMCR. After operational training at El Toro, Calif., he shipped out to Iwo Jima, via Guam, for some boring sub patrol duty.

In December of 1945 he became a Captain, USMCR (Inactive). Heading for the golf links Bill spent his winters in Florida and summers at the Chevy Chase Country Club, where he was one of the assistant pros. Under the constant tutoring of some great name pros including Whiffy Cox and Lew Worsham, two of the greats of golf, Bill's game has improved steadily. Considering the length of time that Bill has been in the golf game his present game in the low 70's took long hours of practice, hard work and a lot of patience.

Entering the fertile fields of the NNMCI golf world in June 1950, Bill has devoted his time to making the club what it is today. He has turned a lot of *Sunday dubbers* into good golfers by sticking to the idea that "Golf is a science, a game that can be enjoyed by people of all ages and talents, if they are willing to practice and play according to set rules."

Bill has been in most of the local and Mid-Atlantic P.C.A. sponsored tourneys held this summer. In his last, at Manor, he placed fourth. That is a long way from his days of caddying and assistant pro duties.

His wife, Glenna, a golfer in her own right, is always on the sidelines rooting for him.

Asked if he had any good ideas for golfers to follow Bill said, "The man that chips and putts well is the man that will win."

Center Chatter

By J. C. Woods

Here at NNMCI the local golfers have performed quite a few birdies and an occasional eagle. But a rare piece of wood mastery was performed by Harry Gold the other day, he is probably the only man in the history of golf who got a duck. That was a beautiful drive into the number seven pond, Harry.

It looks as if the Center will have another championship football team this year. The team that was beaten only once in three seasons still has six regulars from last year and an impressive list of new talent on paper.

Pete Rollins has been seen doing quite a bit of exercise lately, he's been chinning bars from here to Hagerstown.

P. L. (Bandwagon) Wynn is now pulling for the New York Yankees, before it was Cleveland and Chicago. Don't worry Pat, one of them will come through.

The famous Center trio, consisting of P. G. Stoukas, H. Gold, and S. J. Cooper will sing at a benefit show for the Preservation of Canaries with Lacerated Larynges. They should convey the need.

Tom Brothers and his girl friend were down at the beach the other day. His famous last words were, "Come on in, the water isn't de-glpp."

R. J. "Lonely Hearts" Webster read the other day that there are five women to every man in Washington. Somebody is running around with ten, Webster.

George Funk and Joe Sandovel hopped into their car the other day. It goes like this, "How's everything on that side George?" "Fine Joe, there isn't a car in sight."—estimated damage \$210.

"Dear Mr. Atlas: I have completed your course, please send my muscles." /s/ Alvin Steen, Bldg. 112.

Navy Belles

by George

When you come to our house next time don't miss playing the green unlabeled record in the lounge; real good!!!

The first of September we bade Williams good bye as she went back to Dental and the barracks was taken over by Norma Schrader, PN1. Norma will be assisted by three more PN's which she hopes will arrive soon. Among our other neighbors we have Virginia Ervin, here for Blood Bank School. Welcome additions to the staff are Ruth "Fitz" Fitzgerald who is a member of the NP Staff, and three new girls for Dental.

Kay Nelson left us Sept. 29 for USNH St. Albans, we all hope she likes her new station.

Brides of the month turned out to be the surprise of the month. F. L. "Hammy" Hamilton and HMC Thomas Brooks took the narrow path down the marriage walk of life Friday Sept. 31 at 1630 in the Navy Chapel. The wedding party was followed to the Conaways' home in Rockville where the reception was held. Saturday Sept. 1 the Waves went to Annapolis for the wedding of Gertrude Schmidt to HMC Jim Hodson. We all wish them the best of everything in the future.

Paula Manning has been in sick bay, we hope you are better—we sure have missed your singing in the basement. "Peggie" Ruth has gone home to be "just Mrs. Ruth." Louise Miller is reading a book about John Adams, just to find out "how people in Massachusetts live."

Second Floor event, Madeline Lenninger singing "On Top of Old Smokey." There is a cellar party in progress and I must go . . . bye now from the Maryland girl.

Fred H. Hardy, HM2

HM2 Saves Himself In Helping Marine

Fred H. Hardy, HM2, USN, of NNMCI, left the quiet atmosphere of NNMCI just a year ago to join the 7th Marines at Camp Pendleton, Calif. From that time till he was rotated back to the States May 26, 1951, his life was filled with many memorable happenings.

It was while near Yu-Damn-ni that he had what he describes as his "closest call." Hardy and a marine were in a foxhole during a Red mortar barrage when a marine in front of them was hit. Hardy left the foxhole immediately to give medical aid. He hadn't gone 30 yards when an explosion behind him splattered him with dirt.

Looking back to the spot that just seconds before had been his protection, he saw the marine had been blown out of the hole and was covered with blood from head to toe. He would have been in the same condition if he hadn't been so concerned with the wounded marine's welfare.

His more calm pre-service days were spent in his home town of Providence, R. I., where he was born Sept. 13, 1929. Hardy attended the Central High School for three years before getting the urge to travel. On Nov. 16, 1947 Hardy joined the Navy, going through "boots" and HCS at Great Lakes, Ill.

Upon completion of HCS, Hardy saw duty at Newport, R. I., and San Diego, Calif., before coming to NNMCI in July, 1949. Hardy also did a two-month tour of duty at USNH Chelsea, Mass., after returning from Korea.

A 20-year man? At the present time Hardy is undecided. He says that he thinks that he will go out as soon as possible—"just to see what I can do on the outside. I got the Purple Heart, PUC with a star and the Korean area ribbon—that's enough for me."

At present Hardy works for Dr. Schleng on the cold weather project, a job that he likes very much. After duty in Korea Hardy says that this duty around here is "nothing but choice."

Reporter? Rooter? Let George Do It!

Her I.D. card says Phyllis McElfish, HN, but Center readers will recognize her as girl from the heart of Mary who gives the latest word on doings of the Waves in her column "Navy Belles."

Better known to her friends as "George," Phyllis works in Physical Therapy. You wouldn't work if you talked to her about her job, however. The only listed Wave in the department describes her job as fascinating and says it is the most wonderful one she has ever had.

Her interest in Physical Therapy is what prompted her to re-enlist in 1948. Her original enlistment in 1944, and after Hunter College boot and corps school here.

Phyllis E. McElfish, HN

spent two years at Camp Pendleton before being discharged. She is to take the six-year hitch plan next October when this enlistment is up, unless of course some unforeseen sidetracks her.

It took a year of duty at Camp Christi, Tex., which George describes as a futile attempt to get a Texan out of her, before she got her orders to PhysMed School. Completing the six months of service she became staff here.

It was in PhysMed School that she came to be called George. All the other members of the team were fellows, they decided to keep things uniform. And so she christened her George—a name which has stuck so well that often people meet and know her for weeks as George before knowing what her real name is.

George takes a great deal of interest in her sorority, the Beta Phi, an international organization of career girls. At present is vice president of the Sigma chapter in Washington, D.C. which meets every two weeks.

Born and raised in Cumberland Md., only 150 miles from here, is able to go home quite often.

When it comes to athletics, George is practically an honorary member of each Wave team because of her reputation of being the Waves' most faithful rooter.

HAWAII TO HOLLYWOOD — Green-eyed, brunette Carol Varga, who crashed Hollywood on a surfboard. She got a screen test and contract after a studio executive saw her in a surfing contest at Honolulu. Wolves may be interested in knowing that in addition to her surfboard skill, Carol also knows her judo.

Defense Bond Drive Opens At NNMC October 8

THE SECRETARY OF DEFENSE
WASHINGTON

GREETINGS TO DEPARTMENT OF DEFENSE PERSONNEL

I address this as a personal message to the military and civilian members of the Department of Defense to ask that they add to their already splendid efforts in our nation's defense by participating in the Defense Bond Drive.

Probably never before has there been so much at stake in the preservation of our freedom. It would seem clear that all of us that possibly can do so should participate in its defense by regularly purchasing Defense Bonds, thereby maintaining the necessary strength of our economy.

Faithfully yours,

August 30, 1951

Engstrom Leaves California

Florence H. Engstrom
Florence H. Engstrom, SC, NNMC's Navy Exchange Officer, will leave as soon as relieved duty in the disbursing office at the Island, California. She has been at NNMC for the five years and while under supervision the Navy Exchange moved from its former location in the Recreation Building to present site in Building 2. Originally called Ship's Service, and under the jurisdiction of the Comptroller Officer, the name was changed to Navy Exchange and under the jurisdiction of the ADA two years ago. Profits from the sales support the recreation and welfare fund of the station.

Engstrom, who manages the main store and the barber shop, the store and the back bar in Bldg. 141, the bar in the golf shop, plus the Naval Security Station town. It's been no small job to do all the ordering and supervising for these components which do an average \$60,000 monthly business. Engstrom, who has been with the public has its moments, like the time when a patient walked up to the girl at the counter and told her what she wanted to do. "Perfectly alright because she has been down to see LT Engstrom and he had OK'd it."

Engstrom, originally from Atlantic City, Miss Engstrom enlisted in the Navy and was part of the first boat to go through Cedar Falls, A year later, after working as a control tower operator at NAS Jacksonville, Fla., she was selected for the two months' course at the U.S. Naval Reserve Midshipman School at Northampton, Mass. She received her line commission in November 1943.

Engstrom's services were transferred to BuSAND, Miss Engstrom, continued on Page 4, Col. 2)

Price lists for officer and chief uniforms are available in the office of the Center News, Ward 101.

Three members of the Medical Photography Department presented an exhibit of "Photography in Medicine" at a meeting of the Photographic Society of America at Hotel Kenmore in Boston, Mass. last week. Attending were Mr. John Stringer, Director of Medical Photography, John E. McClain, HMC, and Paul J. Ellis, HMC.

Charles W. Chase, HM3, USN was commended by the CO of Med School on Sept. 10 for his excellent work while a student and later as staff of the Blood Bank. Chase transferred to USNH Bain-

bridge Sept. 12.

CAPT Rupert H. Draeger, MC, USN, Head, Atomic Medicine, NMRI left Sept. 12 for Cornell Aeronautical Laboratory, Buffalo, N.Y. for temporary duty in connection with Naval Research matters.

James M. Stock, HMC, of the General Chemistry and Toxicology Department received a meritorious mast Sept. 13 before he checked out for duty aboard the USS *Repose*. The mast, which was held by CAPT W. M. Silliphant, Acting CO of Med School, was for Stock's outstanding performance of duty while a lab instructor in General Chemistry.

CDR James Crawford, MC, USN head of Plastic Surgery, NH, and CDR Ferdinand V. Berley, MC, USN, Surgery Dept., NH, reported to BuMed Sept. 13 for temporary additional duty.

New York (AFPS)—Navy recruiting officers here recently swore in 285 men in one day, setting a post-World War II record for one day's enlistment.

The uniform and men's clothing shop at Quarters "K" opened Tuesday Sept. 4, 1951. It features a complete line of Naval officers and CPO uniforms and accessories, nationally known brands of shoes, shirts, ties and civilian accessories. For further information call Code 1256, Extension 21.

Pres. Opens Drive Urging Americans To Participate

On Labor Day the President of the United States opened a nation-wide Defense Bond Drive to continue until Oct. 27. All Americans are urged to invest regularly in Defense Bonds as the most effective action individuals can take during this emergency to relieve inflationary price pressures and help strengthen the national economy upon which the defense program will make its full impact in the next few months.

One of the most critical periods in defense of our freedoms will be faced on our economic front as the spending of billions for defense increases the national income while consumer goods become less available. Our economy has the capacity to pay the price of freedom but it is essential that price controls be supplemented with greatly increased personal savings so extra dollars in our money supply will not compete to raise prices.

Those dollars should be held safely in defense bonds for our collective security without which there can be no real personal security. It is re-emphasized that the practice of thrift and investment of a portion of personal income in defense bonds is a vital patriotic service every individual may perform.

The Navy will participate in the Defense Bond Drive as it has in all preceding Savings Bond campaigns. The Secretary of the Treasury has asserted that the long-range and continuing aspect of the payroll savings plan is the most important phase of the fall drive. The Navy maintains its payroll savings plan as a continuing administrative function in all commands employing civilians and proudly attained an average of 65.4 per cent participation of all civilian employees in July, the highest percentage since July 1946.

Eight of the eighteen Naval districts and commands have exceeded the 65 per cent participation objective. During July, Naval Shipyards had an average of 92.2 per cent of all employees enrolled as payroll savers and supply activities had an average of 76.6 per cent. It is desired that the personal benefits of the payroll savings plan be more equally shared throughout the Naval Establishment.

Farewell . . .

Friends of LT Helen L. Boyle, NC, USN presented her with a farewell cake during luncheon in the Officers' Club Sept. 6. Miss Boyle left her duties in the Tissue Bank and reported for duty under instruction in the curriculum for supervisor at Indiana University, Bloomington, Ind.

Any Good Ideas??

The hard-headed Budget Bureau calculates that the savings to the Federal Government through employee ideas have exceeded \$50,900,000 in the past three years. But the monetary value of employee ideas is not the only measure of their worth.

They build our national asset called know-how and raise our standard of living to the highest in the world. Production means so much to our nation, that every short cut, though it saves only a few seconds, takes on importance.

A Treasury clerk suggested that all checks to be sent out on the same day be dated on an addressing machine in advance instead of being dated individually—she received a check for \$25.00.

A lady suggested use of one long wrapping paper for bandages instead of two smaller ones—check for \$25.00 was her reward.

YOU could have made these suggestions. YOUR idea may win an award too. Remember—the Navy is looking for usable ideas, not world-shaking inventions.

The Chaplain's Corner

by Chaplain J. J. McGowan

That's A "Yoke," Son

The title is not a quotation from the script of the fictitious *Seven Years' Itch* out of the deep South. It's merely a title to introduce a short discussion of a possible gross waste here in our hospital — not a waste might warrant any Congressional investigation, however. We do propose to speak of wasting time, potatoes or bath towels. We said proposed a discussion of a possible waste. A second and saner thought says that it is about a waste of possibilities.

I am sure that we have all read in the Sacred Scriptures of "store up treasures in Heaven." Hoarding, in times of distress, is also criminal. That's in the material World. Hoarding of Spiritual Treasures is always honorable. Selfishness, in spiritual matters, is always virtuous.

So, what are we wasting? We are wasting the possibility of storing up those spiritual treasures. How? Well, we are all harnessed in a yoke. We are all in some way or other distressed or depressed. Our job isn't precisely what we like. The people with whom we are forced to associate are not entirely our type. Our illness of limb or faculty sometimes more than we can endure.

All this causes untold grumbling and unhappiness. Every day is a day of wasted effort. No day is profitable. What a waste! But what more can we do than exist under such circumstances? Isn't that enough? Yes. As a matter of fact it is too much. We are harnessed with a yoke and it is cutting into our very lives.

We even sympathize with a poor beast of burden when we see him hauling a very heavy load. The poor, dumb beast. Yet, when we see as we do, without any spiritual motive, we are nothing more than the poor dumb beasts. We are suffering in vain. Have we forgotten the inspired writings of our Divine Lord who also read his invitation "take up our crosses daily and follow Him?" Have we forgotten the assurance that "the yoke is sweet and the burden is light?"

Those troubles of ours. That job. That difficult person. Those excruciating pains that so many are suffering around this very hospital. That's a "yoke," son! — or a cross. Pick it up and it feels light. It hangs around your neck and it hurts. Accept it as coming from God Himself, the Arch-sufferer. Pick it up as cheerfully as you can. Give it all a spiritual background. Do all these things in God's Holy Name and for His greater glory and store up for yourselves "treasures in Heaven."

September Gypsy

With waning summer days the air grows crisp and cool,
And down stretching roads come tinkling sounds of bells,
Then summer catches one last glimpse in her mirrored pool,
Slips quietly from the woodlands, cooling hills and dells.
The tinkling bells grow louder—pattering feet are heard
Mingled with a wagon's groan and thud of horses' hoofs,
Louder still it grows and autumn winds are stirred
From lazy summer beds 'neath the sky-line roofs.
Now appearing round a bend in a winding road,
A nut-brown gypsy maiden in brilliant colors clad
Strolls gracefully beside a covered wagon load
Drawn by coal-black horses, reined by a gypsy lad.
Bare feet patter in the dust 'neath a swinging skirt
And silver bracelets jingle about her slender wrists
As she brushes from her hem a smudge of powdered dirt;
Her straight long ebony hair falls like a silken mist
About her lovely face and tumbles down her shoulder.
The travelers pause and turn aside from the dusty road;
Hastily prepare their camp near a sheltering boulder.
The animals are let to graze, lightened of their load
And night begins to blot the sky with a purple ink;
Soon a campfire crackles spitting smoke into the sky
And gypsy lad and maiden quick as the forest mink
Strip the sleeping woodlands that unsuspectingly lie—
Of emerald gowns to clothe them in a gypsy dress
Frosted with diamond dust that in the moon's light shimmer,
Then in a silent instant or perhaps a little less—
The gypsy band is gone; the tinkling bells grow dimmer
And seem to steal and drift away into a purple night
Down the winding road, dying like a campfire ember;
Morning wakes to find a world brilliant in her light
Costumed by a gypsy maid who calls herself—September!

Your Blood Will Help

Dept. Of Defense Pleads For Blood; Donations For Korea Badly Needed

(AFPS) This article is intended for members of the Armed Forces who can read this in surroundings where death and destruction are not daily events. Where the casualty lists are something you read about in the morning newspaper. Where the agonized cry of wounded men is too far away to hear.

Those cries, though, must be heard. They can't be subdued by delay or excuses. They're asking for blood—blood you possess—to mend their wounds and save their lives.

Mister, you're lucky. You're asked—not ordered—to give blood. Your "wound" is nothing but a pinhole through which the life-giving fluid flows. And your government is only asking you to sacrifice a pint of that blood—not the life that creates it.

The urgency in the need for blood doesn't have to be dramatized. There's more than enough drama in the directive issued by the Department of Defense:

"Supplies of dried human blood plasma have been gravely depleted by the demands of the Korean campaign. Its continued availability for military purposes is vital. It is imperative that action be taken to insure that an adequate supply is at all times ready for use . . . The quantities of blood received from civilian sources is today woefully inadequate . . . The essential reserve is not being created."

A former stockpile avoided a catastrophe. When the Korean war broke there was not time for appeals. Men were dying in mountains and rice paddies. They needed blood—and needed it quickly. A reserve, built up during WWII, was immediately shipped. That reserve is almost gone and must be replenished.

The importance blood plays can't be overestimated. For wounded men it is considered the No. 1 medicine. It is the best known therapeutic agent in prevention or treatment of shock. Science has been unable to produce it synthetically. Human blood has but one derivative—the human body.

The DOD has set a goal of 2,800,000 pints of whole blood by July, 1952. To be reached, donations must average 300,000 a month. Why the urgent appeal for such a small quota?

In May, 90,000 pints of blood were donated by the Armed Forces. This figure dropped to 70,000 in June and 40,000 in July.

At this rate the virtual exhaustion of the military supply of plasma is inevitable.

Any person in the military service between the ages of 18 and 59 may donate blood every two months, with their total donations not to exceed five times a year.

The Red Cross is working with the DOD in this drive. It is spending more than \$10,000,000 to operate a national blood program in 1951-52.

They'll be asking for your blood in the near future. One small pint to save the life of a man who is being asked to sacrifice his very life if necessary.

Power Plant Still Enlarging After Ten Years

Steam, Ice & Pressurized Air Produced 24 Hours A Day Here

On Dec. 15, 1941 the NNMC Power Plant started operation. The watch was set at 1200 with Joe Almond in charge. From that time on the plant has been running 24 hours a day, without fail, turning out steam, ice and pressurized air.

When the power plant first began operation it had 3 boilers and a crew of 11 men. With each additional bit of growth of NNMC, the power plant had to increase. It now has 22 employees, 5 boilers, its own machine shop for maintenance and repair, and a small laboratory for water analysis. Each man has his own sphere of work and responsibility. Qtrmn. Almond does the paper work, daily, monthly and annual reports, the water analysis, and generally supervises the workmen. Sven Andersen, the Head Engineman, is constantly on the move, giving advice, making decisions and assisting in the supervision. The seven firemen and seven enginemen work eight hours a day, five days a week. Being that most of the operational functions of the plant are automatic they must constantly be checking and recording the technical data read from the meters and devices. Then there are the laborers who care for the incinerator, keep the power plant clean and clean the boilers twice monthly.

To the average staff member of NNMC, the power plant is just another building—little do they realize the amount of work these 22 men do—or how essential or varied their work is. During the winter this 80,000 lbs. of steam is produced in an hour. To accomplish this takes 12,000 gallons of fuel oil, or about one gallon of oil for 120 lbs. of steam pressure. In the summer they manufacture 100,000 lbs. of steam a month, most of which is for the crews and officers' mess. In an average month, year around, they burn 250,000 lbs. of rubbish, use 870,000 gallons of water for the laundry, and wash and sterilize G.I. cans, and supplying oil to the various quarters on the base. This hard working crew of 22 unheeded men are a very essential integral part of the operation of the command.

Both Mr. Joe Almond and Sven Andersen have a lot of time behind them. Before starting to work at NNMC in 1941 Joe Almond was a steam engineer on the Southern Railroad for 16 years. Sven Andersen has 13 years of Civil service to his credit—but the man with the longest civil service time is Fireman Simmons; he has 33 years and expects to retire in a year or so.

(Upper left) The NNMC Boiler room, Fireman Simmons sweeping down. (Upper right) This machine is located in the basement of the power plant and is used to produce pressurized air for cleaning burners and steam presses in the laundry. (Lower left) This valve lets the cold air go from the power plant reefer room, at the rate of 175 tons per day, to the O.R. suites. Sven Andersen is the workman. (Lower center) Hourly readings have to be taken and immediately after cleaning the burners. Here Engineman Garvis reads the meters. (Lower right) Joe Almond, Qtrmn, Power Plant, analyzing the water to be used in the boilers. This job is exacting and takes about two hours a day.

Kopp's Musical Varieties Entertain At NNMC

Sunday, Sept. 9, Mr. Leroy Kopp again brought his Musical Varieties to the National Naval Medical Center. Appearing in the main auditorium, the show consisted of 22 individual acts of singing, dancing and comedy.

This lively group of youngsters from Baltimore volunteered their time and talents to entertain servicemen at many installations in the Baltimore-Washington Area.

Wedding Bells For Lucas-Kazik

Paul Martin Lucas, LTJG, MC, USNR and Loretta E. Kazik of Milwaukee, Wisc. were united in marriage by Chaplain Marron in the Catholic Chapel here, Sept 15 at 1400. Prior to coming to Bethesda for his internship, Dr. Lucas was a student at Marquette University. Mrs. Lucas was a nurse in the VA Hospital at Wood, Wisc. At present they are residing in Bethesda.

Navy Belles

by George

Many new things taking shape around our house—we even have room numbers now. Many things planned for the coming winter—games, pool, darts, ping pong bridge and a choral club. Nadine is asking everyone who plays bridge, while Gerry and Rosie are asking everyone if they sing. I hope they don't meet on the same night!

Welcome to Glenna McCullough, for hospital staff, Frances Aldrich, for B. M. R. School, and Shirley Kruger, for Bone Bank School.

On leave around this time you should miss Virginia Nausedas and Lenora Hill. Katie Glendenning and Millicent Tschaepé got back last night.

Madlon Leininger and Scotty Scott have decided to make ceramics their future occupation. Hammy Brooks is walking around with a gleam in her eye—favorite question, "Do you know where I can find something to put in my apartment?"

Maggie McQuarrie was elected the new Athletic Director for the Waves after Joan Madsen resigned. Quite an election we had. Posters and sealed ballot box and all. Maggie will have her hands full with volley ball season underway now and basketball and bowling coming up soon.

Just around our house—you'll find Lucille (0600) Thompson is probably the only person we know who wakes you up telling you what day of the week it is—Dorothy has started to crochet again—Katie is doing physicals in the downstairs lounge—Shirley Kruger, with a stiff neck and a flat tire in the same week—

Peggie is working with worms—should have stayed staff, Peggie—Petie, Gerry and Shirley are organizing a Waves chorus. Many of the girls have signed up and more are welcome. Nadine Calhoun and Peggie Igou have volunteered to aid the singing with music. I think I will teach them "I'm the Girl From the Heart of Maryland."

Center Chatter

By J. C. Woods

It looks as if the Center Commanches will have another championship football team this year. The Black Knights of Building 112 have an aggressive line and a speedy, well drilled backfield. Newcomers to the team are Pat White, P. G. Stoukas, J. Sandoval and Pat Wynne. George Funk, team captain, feels that only Hospital and Dental Commands offer any threat to the Commanches.

"Scene About": Jim Shannon with a WAVE in his hair. G. E. Miller kneeling before the temple of the Yankees and praying to the great Yogi. Bud Frommelt feels that the Cleveland Indians are a friendly team and want to bury the hatchet (right in the Yanks' scalps.) It takes a pretty shrewd operator to ask his girl out to dinner and then an hour before he meets her to slip down to the Hubbard House and fill up on hamburgers. Not mentioning any names but the initials are C. A. D.E.V.O.L.

Frank Winn has just returned from eighteen days leave. It seems he was driving through one of our larger cities on the outside of a streetcar. Frank was in a hurry. Frank started to pass the streetcar. Frank saw another car coming the other way. Would anyone care to buy a thin Studebaker?

The illustrious personality of S. J. Cooper will be missed by all the guys in Center. Stanley received his orders the other day and will be leaving in a few weeks. One of his favorite tricks was to play "Cool, Clear Water" in the shower with his trumpet.

Cornell Patsos working with the postal directory service forwarded one of his own letters to the Naval Gun Factory. Patsos doesn't care much for file work. He was a mechanic before entering the Navy. Well boy, that's the brakes.

Engstrom—Cont. from page 1

who was Ship's Service Officer at Olathe, Kans., transferred to — from the line to the supply corps.

Commenting on the fact that she is the only Wave Exchange Officer in the Navy, she laughed and said, "I'm going to give this job back to the boys." Her replacement will be LTJG Paul J. Metcalf, SC, USN, who is coming in from San Juan.

Famed Scientist To Work At NMRI

By R. Conaway

Dr. Cecil K. Drinker, well-known investigator in the fields of respiration, circulation, blood formation and industrial toxicology, recently joined the staff of NMRI as a consultant in problems of a physiological nature, especially those concerned with burns and frostbite.

After attaining his B.S. at Harvard College in 1908, Dr. Drinker attended the University of Pennsylvania Medical School where he received his M.D. degree in 1913. In 1915 Dr. Drinker joined the staff at Johns Hopkins as Assistant Physiologist and after serving in this capacity for a year, returned to Boston as instructor; then Assistant Professor at the Harvard Medical School and resident physician at the Peter Bent Brigham Hospital.

Dr. Cecil K. Drinker

From 1919 through 1932, Dr. Drinker was Managing Editor of the Journal of Industrial Hygiene and Toxicology, and later was Associate Editor.

Dr. Drinker served as Dean of the Harvard School of Public Health from 1935 through 1942 and later became a member of the Massachusetts Public Health Council while also connected with the Office of Scientific Research and Development, USA and USN.

Dr. Drinker studied under the famous scientist and Nobel Prize Winner in Physiology and Medicine, Dr. August Krogh. It was while engaged in the study of capillary physiology that Dr. Drinker became interested in research on lymph formation.

He is a member of the Association of American Physicians; the American Physiological Society (of which he was Treasurer, 1924-1925); the Royal Danish Academy of Science and Letters; Phi Beta Kappa; and Alpha Omega Alpha Sigma Xi.

Although busily engaged in numerous scientific matters, Dr. Drinker still manages to find time for his aquatic hobbies, sailing and fishing.

Ecuadorian M.D. Attending NSHA

LT Dr. Jorge Fajardo

For the first time since the commissioning of the Naval School of Hospital Administration, there is a medical officer student. Lieutenant Doctor Jorge Fajardo, Ecuadorian Navy, arrived here Sept. 1, to attend the class in Naval Hospital Administration.

Dr. Fajardo is attending this class to learn how the business phases of administration are conducted in naval hospitals.

Prior to his arrival here, Dr. Fajardo was Chief of the Ecuadorian Navy Medical Department. He has been a medical officer of the Navy for the past three years.

In civilian life, Dr. Fajardo was a professor of medicine at the University of Guayas for a number of months. The doctor has also attended medical schools in Rio de Janeiro, Buenos Aires, and Montevideo.

He has specialized in diseases of the chest, and was the chief of a program for the prevention of tuberculosis in his country.

Register Tomorrow For Classes In History 72 And Psychology

The schedule for the anticipated classes to be given at NMRI announced by memorandum of Aug. 27, and the Sept. 10 issue of CENTER NEWS has been changed.

Because students desiring to carry more than one subject over to having school four nights per week, the classes will run fifteen weeks and meet one night per week for each subject.

The subjects listed in the last issue will still be offered, but at different dates.

History 72 and Psychology 1 are planned for this fall. Classes will start about Oct. 8 and registration will be at 1800 tomorrow, Sept. 25. Classes and registration will be held in Rm. 325, Bldg. 1.

In addition to the above courses, G. W. U. will teach any course in any area of knowledge on the college or university level in which there is sufficient interest to secure a class of at least twenty students, and for which an instructor is available. Some interest has been evidenced for classes in Calculus and German.

Courses may be taken under the G. I. Bill, Navy Contract (BuPers C/L 178-500) or may be paid for by cash.

In order to schedule courses as indicated above, interested students must produce evidence of a current valid Certificate of Eligibility (Veterans Administration) or make a deposit of \$7.50 per course to the Insurance and Education Officer, ENS Barkley, Rm. 209, Bldg. 1, prior to Sept. 25.

Both History 72 and Psychology 1 will satisfy required credit for either the AA or BA degrees.

Pfc. Mucha Gets 2nd Purple Heart

Pfc. George. Franchi, USMC, a patient on Ward 13, received his second Purple Heart Medal Aug. 27 for wounds received March 5 near Su-dong, Korea.

Nov. 3, 1950 his outfit, D. 1st Engineers, made their first contact with the enemy. He was to go out and destroy an enemy tank that had been harassing the battalion post. He went after it with an M1 rifle and a land mine, with the thought in mind to get near enough to place the mine under the tank. As he approached the tank, looking for a blind spot, he was pelted down by withering fire. The slugs got him in the leg, putting him out of commission a couple of months and earning him his first Purple Heart.

Back to duty for a while on March 5 he was given a job of detonating Red trip mines. "It was one of those quiet days, one that you'd suspect that anything was to happen," related Mucha. He was trying to remove the mine when a grenade blew up, wounding his legs, his left arm and severely injuring his left eye.

"I wouldn't be here if it was for the 'steak' I received in Korea." To Marines in 'steak' is blood plasma. Mucha received ten pints of blood plasma when he was wounded and a known amount of whole blood.

To be surveyed in the future Mucha is returning to studies of civil engineering, says, "I'm just an engineer's heart."

Canadian Dentist At NDS For Course

Major Norman A. Butcher, DC (Royal Canadian Dental Corps), aboard now for a weeks' course in Endodontia (canal therapy), is the first Canadian to be admitted to this popular course at NDS.

Dr. Butcher is stationed at Petawawa Military Camp, Petawawa, Ontario where he is the dental officer. As an additional duty, he is editor in chief of the weekly Camp Petawawa Post.

In the service for the past years, this is his first visit to the United States. He drove down from Toronto, he left his wife and two children.

His 15 month old son was in Whitehorse, Yukon Territory on the Alaska Highway when Major had two and one half of duty there. His new daughter was born Sept. 5, two days before he left for Bethesda, so he had much of a chance to get acquainted with her.

Hi diddle diddle, the cat and fiddle, He called the chief a goom.

The SP's laughed to see sport.

Court martial—tomorrow He always called a spade a spade until he hit his foot with on other day.

out in a horrible rash? Tell us what it means "W. R."

Stoffmeyer has had so much business lately that he has managed to wear a path between the chairs and the dark room.

Our family is rapidly increasing. We also have Drs. O'Malley and McBride in our merry throng now. So glad "You Came to Our House."

Palie — Polie — no, uh Paleologo? (whew). May we suggest "Ace?" It is so much easier to stumble over so early in the morning. How about that Ace?

In the romance department, it was wedding bells for E. C. Beck who put one over on us and came up with a redhead. "Mrs. Beck" sure must have used some pretty strong bait to catch such a stubborn fish. Famous last lines: "I'll never get married."

Our Department sure has been keeping old Mr. Stork busy working overtime these days, what with just everyone picking out names; so far the girls have it.

Flash! — Last minute scoop: It looks as if CAPT Grunewald made that "hole in one" for we just received word that he was presented with a golf trophy.

Guess we'll be weighing anchor now and batten down the hatches. We remain, your dental explorers, the two gals from the Hub.

LCDR Laramore Lectures On Navy Hospitalization

LCDR H. H. Laramore, MSC, USN, Head of the Personnel Records Division Instructors at the Naval School of Hospital Administration, delivered a lecture this month on "Hospitalization in the Navy" to combined officers' classes at the Medical Field Service School, Brooke Army Medical Center, Fort Sam Houston, Texas. The classes consisted of 200 Army and Air Force Medical, Dental, Nurse, and Medical Service Corps officers as well as warrant officers undergoing instruction in various phases of hospital and medical administration.

"I had to marry you to find out how stupid you were."
"You should have known that when I asked you."

Local Waves Take Doubles Runner-Up In Tennis Tourney

ENS Barbara Garland of Med School and Joan Madsen, JOSN, of Center Command, took second place in the Women's Inter-Service Athletic Tennis Tournament held at Walter Reed, Sept. 8, 9, and 15.

Entering both singles and doubles, Bethesda's two entries teamed up to get to the finals in the doubles competition. Garland and Madsen downed Kuelthau and Kershaw (Walter Reed) 6-4, 6-1 in the doubles semi-finals and then went down in the finals to Adams and Eason (Walter Reed) 2-6, 7-5, 3-6.

In the singles quarter-finals, Garland was defeated by Walter Reed's Adams 2-6, 2-6. Kershaw, also from Walter Reed, defeated Madsen 5-7, 4-6.

Final results showed Walter Reed taking first place in both singles and doubles, Henderson Hall Marines as runner-up in singles, and Bethesda as runners-up in doubles.

Not Much Research Involved

by R. Conaway

A "welcome aboard" is extended to recent arrivals at NMRI. From New London, Conn. comes CAPT T. L. Willmon, MC, USN, new XO of NMRI; CDR S. W. Thompson, MC, USN from USNH Bethesda, Md.; R. B. Clark, HMC, USN, Port Lyautey, French Morocco; J. Rothbauer, HM2, USNH, Philadelphia, Pa.; and R. W. Gay, HN, from Camp Lejeune, N.C.

On the credit side of the ledger comes word of pending orders to ComServLant for C. L. Smart, DC2, H. E. Jones, SN, and R. R. Sullivan, SN. LT H. T. Meryman, MC, USN has changed to Army Khaki, at least for a short while. Dr. Meryman will be attached to an Army Research Unit for a period of about six months, while engaged in the study of frostbite problems.

Congratulations are in order on the recent promotion to LT of W. H. Chapman, MSC, USN, H. B. Baldrige, MSC, USNR, and T. S. Ely, MC, USN.

Mabel Eller turned in to sick bay—diagnosis—broken arm. It all happened one evening at 1630 when Mabel was climbing out of her car in front of Wave Bks. so no comments are in order.

Mystery of the week! Why are they calling D. E. Heye "J. B." these days? When I asked for particulars, all I could learn was that it has something to do with ignoring red lights.

Al Nicholson has been sporting a definite limp the past week, but refuses to give out with the information. All we know is that damages of about \$300 resulted from the source of said limp.

C. Gobel who was detached a few weeks ago—asked me to say good-bye to all his friends at NMRI and NNMC in this issue, and there being no further news to report, I'll take my leave also.

Many a rural romance has started with a gallon of corn and ended with a full crib.

She: "The baby has swallowed the matches."

CPO: "Here, use my cigarette lighter."

Coach's Corner

Football is really in the air with pigskins roaming through the atmosphere in and about all the barracks like some of the uneducated slices we have ducked on the fairways this past summer. Pat White, centerfielder on the Varsity, takes his charges through the woods for what Pat terms "windsprints." Small admonishment Pat, young Earl Evans was a recent guest in Tower Six with poison ivy and if there is anything that just feels great it is poison ivy rubbing against an old sweatshirt. George Funk, head man of the Commanches, is already singing the blues over the loss of Gene Devol, fleet wingman who suffered a couple of fractures among his Phalanges Digtorum Manus.

It's just about this time every year that numerous queries are levelled at the Coach on the subject of football at the Center. Sure would be swell wouldn't it, to have a big-time team, the way they do at Quantico, Naval Air Memphis and kindred stations? It was only a couple of months ago that I cancelled eleven intercollegiate games, nine high school contests and acceptance into the professional ranks on Sundays.

Gosh, that pre-game air of excitement engendered by packing those cleats, running over your check-off list, whistles, extra shirts et al . . . getting out of the plane . . . finding a cab to a hotel . . . walking the pavement . . . overhearing snatches of conversation on pre-game dope . . . talking over possible trick plays with the other officials . . . being warned by a coach to keep out of the way of the outside half in the last five minutes of the second quarter . . . arriving at the stadium, and while dressing, hearing the dull roar of a restless mass of humanity, the chromatic notes of the glockenspiel and finally, after wearing out your watch, you button up your jacket, check your whistles, horn . . . casually walk down the runway with an air of callous detachment, a bored indifference to the electrified audience, no response to a spectator's jibe. You're almost to the box seats . . . another ten feet and your cleats will be biting the turf . . . a strident voice, "You'll need a microscope today to find the ball, Doc!" sets my incus vibrating. You turn in the direction of the vocalist and wave . . . makes him a big shot in his area and everyone's happy . . . finally you hit the field . . . introductions all the way around, urbanity cloaking jumping hearts . . . introduction of the captains . . . toss . . . choice of goal . . . whistle . . . second whistle and down to business. You see fellows, I like football too, but pressure to get a couple of books out of the way and orders coming up . . . things are really tough.

First of all let's take a look at the student body, so to speak, of the Center. Ninety-five per cent are career men, intent on advancing themselves in their chosen specialties, willing to work long hours in order to better themselves. A goodly portion work after hours in gas stations, drug stores, as bus boys in restaurants, attend night school at local seats of higher learning, take correspondence courses from their state universities — a wonderful group of men. Do you for a moment think that they (some forty-odd would be needed) could be content to be assigned to the gymnasium detail for a period of three months, in order that they would be sure to get their rest and be available for practice at an early hour in the afternoon as we do not have lights on the athletic field? Young football players demand plenty of protein and they would have to be fed at a late hour, in itself a stumbling block. A coaching staff, full time, would have to be found and sent to various summer coaching sessions held in this neck of the woods.

So much for personnel. Let's take a quick glance into the physical plant. We have the field, build a tackling pit for the dummies which cost \$42.50 apiece, build a couple of sleds for the linemen to shove around seven standing dummies would come to \$229.25. Would need a visiting team and home locker room with dryout facilities for equipment, a physiotherapy room adjacent to the showers for our bruised athletes, and a couple of offices for the coaching staff.

The cost of football equipment has kept pace with other sought-after goods; for a squad of forty-four men the cost would be in the neighborhood of \$9,469.79. A breakdown would be too boring to the reader, but suffice to point out that pants no longer come equipped with built-in pads; you order a shell, \$23.00; thigh guards, \$3.25; knee pads, \$4.35; hip and kidney pads, \$22.60 and THAT would be for games. Another set would be needed for practice. 'NUF SED . . . would be nice to have a team, maybe at some other station, fellows, so we will be content to have our intramural program.

Over the last couple of weekends, the golf course was the scene of a couple of sponsored tournaments open to all card holders. The first was a monkey foursome in which one player used a driver, another a five iron, a third member the nine iron, and the remaining player in the foursome a putter. A rare sight to behold as there were times in which the driver (player) was forced to use the wood out of traps, rough and putt, whereas off the tee on number seven Brick Blackstone smacked better drives with his putter than nine out of ten who play the course.

Al Grunewald was a deadly putter with the five, and Whisper Parker blasted from the sand caverns with the wood. Another foursome was made up of CAPT Hogan, Jack Dunn, Jim Crawford and Trousers Giorgio, the latter with his cyclopropane chartreuse slacks, and this group of par-busters finished in second place. Perhaps by now you may get the idea that players had to play their shots in rotation no matter what lie the ball was in with their pre-game designated club.

In the Father and Son Tournament, such partnerships as Nichols and Son, Carr and Son, Evans and Son, Webster and Son, McMillan and Son took advantage of the manicured course with the honors going to CAPT McMillan and his son, Carl, down from the campus at New Haven.

Center vs. PhysMed in Opener

The 1951 Intramural Touch Football League gets underway this afternoon when Center's Commanches, bidding for their third straight title, take on PhysMed's well-practiced squad. Games are scheduled for every weekday afternoon except Fridays through October 29.

The Recreation Department has come through with a healthy staff of competent officials which should make for good, fast moving games.

The seven teams comprising the league are: Center, Naval Dental School, Lab 17, Research, X-Ray, Physical Medicine, and N.P.

Sea-going Sailor Likes NNMC Duty

SUGAR BAKER TARE!!!—When you hear that phrase being sounded in the passageways you'll know that someone is calling to Stanley Boothe Tompkins, SO1, USN the Bks. 112 MAA. Tommy is a sea-going sailor, an ex-right arm rate one at that, but he has to admit that this is the best duty he has ever had.

Tommy started his Naval career in Sept. '42 at his home town of Newberry, S.C. After Boots at Norfolk and Sonar School at Key West he went aboard the old *Eagle 27*. This ship was doing convoy duty in the Caribbean. It was while serving on the *Eagle 27* that Tommy saw his first and last duty with the "Old Navy" i.e. iron men and wooden ships.

Iron ships entered Tommy's life when he went aboard the USS *DeHaven* (DD-727). It was while serving in the *DeHaven* that they ship made the first torpedo run of the war in Tokyo Bay. At that time the *DeHaven* was a part of DesRon6. On Sept. 2, 1945 the *DeHaven* was the color guard ship for the "Big Mo" during the signing of the Japanese surrender.

Post war sea duty consisted of DD's in the Atlantic and Med

Stanley B. Tompkins

Fleets—with the 1948 midshipman's cruise being the highlight.

Upon graduation from a refresher course in Integrated Sonar at Key West, Tommy received his diploma from the hands of President Truman. He says that next to being a part of the "Sitting Duck Squadron" off Wolmi Korea, his receiving the diploma from the President is the most memorable part of his Naval career.

Tommy was awarded the Purple Heart for wounds received when his ship, the USS *Mansfield* (DD-728) struck a mine, losing its bow and injuring 12 of the crew. He returned to the states to put the USS *Goss* (DD-444) in commission, but before he could get too well acquainted he received his orders to NNMC for humanitarian shore duty.

Prior to entering the Navy, Tommy played the drums for dance bands touring the South, jerked sodas, worked in a dry cleaning establishment, and was a chief buyer for a textile supply agency. He just shipped over for another six years a couple of months ago so he has no worries about the future—but he says that when he does get out of the Navy he doesn't think he'll have a hard time getting a job.

Tommy is married and has two daughters. The youngest, Terry, age five, is undergoing treatment here. The Tompkins reside at 7125 Arlington Ave., Bethesda, Md.

USNR Goes Regular Dr. Miller Sworn In

LTJG Charles H. Miller

Tuesday, Sept. 11, the regular Navy got a welcome addition. LTJG Charles H. Miller, MC, USNR, was sworn into the regular Navy by CAPT W. M. Silliphant, ExecO, NMS.

This is not the first time that Dr. Miller has been USN. He was S1/C in 1944 when he was accepted for V-12 training. At the time of acceptance he was a student in radio school at Wright Junior College in Chicago, Ill.

Dr. Miller had his pre-med at DePauw University, Greencastle, Ind., and the University of Nebraska. He also took his medical school training at the University of Nebraska.

Following his internship at the Presbyterian Hospital in Denver, Colo., he reported to USNTC, San Diego, Calif., for duty. Dr. Miller came to NMS the first of this year for the Basic Medical Officers course, remaining to take a course of instruction Epidemiology.

Dr. Miller is married and has one child. His home town is Elm Creek, Nebr., but for the present he calls Silver Spring, Md., home.

* * *

The new baby has its father's nose and its mother's eyes. Yes, and if grandpop doesn't stop leaning over the crib, it's going to have his teeth.

Red Cross

A Buck Well Spent Is One Donated To ARC Flood Relief

The big news of the flood is over, but the big job: that of long-term help in aiding thousands of families to get back on their feet; that job is just beginning. Homes, farms, and stores destroyed; personal possessions wiped out; that's the picture facing the flood stricken families in the Mid-west. Flood waters show no mercy, but you can.

Imagine, if you can, a house completely covered with water, not clear water, but muddy river water filled with sand, oil, gas, garbage, sewage, dead animals, parts of buildings and everything its current had picked up for miles. Now most of the water has gone, but it left tons of dirt and mud.

In just such a house the flood found a 21-year-old corporal and his 16-year-old wife living in a furnished room in Topeka. It swept away all his wife's and his own clothing, including his civilian clothing and extra uniforms he had purchased.

A few days after the flood, to make matters more complicated, the corporal received orders to leave for a new station. With no groceries, money, or clothing, he turned to the Red Cross, which provided these necessities for him and his wife.

Why don't you give a disaster dollar to meet human needs? Do your part now by sending a disaster dollar to the Montgomery County Red Cross Chapter, Bethesda, Md. Look at the flood facts:

Number of families suffering loss, 51,033; number of dwellings destroyed, 2,366; number of dwellings with major damage, 7,402; number of farm buildings destroyed, 2,247; number of farm buildings with major damage, 3,606.

Remember, a dollar doesn't go as far as it used to, but you can send yours all the way to Kansas and Missouri!

NMRI's Ashcraft Is 'Proud Texan'

Charles T. Ashcraft

"A Texan by choice, an Arkie by birth." That's the way HMC Charles T. Ashcraft, CMAA of NMRI describes himself.

Since Ashcraft entered the Navy in 1935 he has really seen the world. His varied duty stations include pre-war and post-war Guam, airdale duty on a carrier, NAS Norfolk, NAS Pensacola and the old USNH Washington, D. C.

A holder of three technical specialties, Ashcraft became an O.R. Tech at USNH San Diego in 1936, Aviation Medicine in 1938, while at NAS Norfolk, and MAT in 1943 here at Bethesda. Of all the jobs that Ashcraft has held in the Navy he likes being CMAA of NMRI the best. "NMRI is nearly as good as Texas."

While a staff corpsman at the old USNH Washington, D. C. he was operated on by then CDR, now RADM H. L. Pugh, present Surgeon General. "This is an experience that not many men in the Navy can say that they have had."

As for recreation, Chief Ashcraft says, "I'm usually the first to arrive and the last to leave the CPO Club." He also likes golf and to watch football on TV.

The biggest scare that he has had since in the Navy took place here in D.C. in 1939. He had been paid off at Great Lakes earlier and had come to D.C. because after two years on Guam it was just too cold in Chicago. Once in D.C., he found out that the civilian world was a cold place all over. He went to the nearest recruiting office to ship back in. He was there before they opened in the morning, hoping and praying that they wouldn't refuse him. Once back in he made up his mind that he'd never get discharged without re-enlisting on board the next day.

Chief Ashcraft is married and has a home in Fort Worth, Tex. When he gets his 20 in that's where he can be found—talking young eligible Texans into joining the Navy; as Ashcraft puts it, "An outfit nearly as good as Texas."

Changes Made In New Waves MAA

It's probably just coincidence that the new MAA of the M. Barracks, Norma E. Schrader, PN1, USNR, reported in here a month after working in the discipline office of the Receiving station brig downtown.

Running barracks is no new experience to this personnel who will tell you she likes the job here, and thinks there is a lot of opportunity for improvement. "And she's made a few changes already, like enforcing regulations a little more, but at the same time a cigarette machine has been retained, a new piano is expected, and efforts are being made to get a juke machine."

Born in Brooklyn, but raised in Long Island and New Jersey, enlisted December 1944, taking a boot at Hunter's College. In days the Waves had a rate of Specialist (S), which was what similar to the present personnel rate. Anyway, Specialist (S) Schrader reported in to the mess hall.

"What I didn't know about barracks would have filled a book," she says. But evidently she has no trouble catching on, for

Norma E. Schrader she was discharged in 1946, two years after her enlistment, had made the rate of Sp(S).

While a civilian she attended Packard Business College in New York for nine months to be up on her secretarial work before she returned to Charleston to work at the Sixth Naval District Headquarters.

In May of this year, she received a greeting card from Uncle Sam so she donned her blues, packed her gear in her '49 Nash and reported back to duty, to be immediately transferred to Quarters from where she was recently signed here.

When 1630 rolls around Schrader locks up her "daddy whip," she likes to relax. When she says, "I like outdoor stuff," she means she likes horse back riding, ice skating, beach parties, bowling or any activity—just don't like to sit around.

Norma promises to give "Geography" plenty of competition for "Waves most faithful rooter." She is anxiously awaiting basketball season to prove it.

Tantalizing

ACTRESS SUSAN CABOT, 23, has been named Sweater Sweetheart of 1951 and nominated for the title of Queen of National Sweater Week by movie still photographers. The Hollywood lensmen have temporarily given Susan the title of "The Girl With the Most Tantalizing Torso."

ADM Agnew Relieves RADM Swanson As CO of NNMC

Command Changes Hands Oct. 3 With Impressive Ceremonies

RADM William J. C. Agnew, MC, USN, assumed command of NNMC Oct. 3, relieving RADM Clifford A. Swanson, MC, USN.

The change in command ceremony was conducted on the steps of the main entrance to the administrative building.

The Deputy Chief of the Bureau of Medicine and Surgery and other ranking officers of the Bureau along with the commanding officers of PRNC activities, and the Commanding General from the Army Medical Center were among the official guests. An honor guard of Marines from Marine Corps Headquarters participated in the ceremony and officers, enlisted personnel and civilian employees attached to the several commands of the National Naval Medical Center were present.

Following the reading of his orders, Admiral Agnew briefly addressed the assembly:

"Admiral Brown, Admiral Swanson, distinguished guests, ladies and gentlemen.

"I am pleased to again be in this area and back with my many friends. I deeply appreciate the honor conferred upon me by the Surgeon General of the Navy in assigning me to this important command. I am confident that all officers, enlisted personnel and civilian employees attached to the various commands under the Medical Center will cooperate and make a determined effort to make this activity the outstanding one in the fields for which it was established — the care and treatment of all who are sent here for that purpose — the training of Medical officers — Dental officers, officers of the Navy Nurse Corps, and enlisted personnel — and the advancement of medical research.

"In true Navy tradition I expect from all loyalty up and I assure you, you may expect loyalty down. I look forward with pleasure to my opportunity to work with you.

"Admiral Swanson, may I wish you good luck in your new assignment. Admiral Swanson, I relieve you of this command.

"Captain Hogan, will you please have my flag hoisted to the yardarm."

Admiral Swanson, following his detachment, departed for Great Lakes, Ill., where he will hold the position of District Medical Officer, Ninth Naval District. In his departing address he expressed sincere appreciation for the splendid loyalty and support given him by the commanding officers, the officers, the enlisted and civilian personnel of the entire National Naval Medical Center.

News Shorts From the Editor's Desk

CAPT B. W. Oesterling, DC, USN, Chief of the Dental Service, NH, Corona, Calif. will serve as Chairman of the Section on Full Denture Prosthesis at the 92nd annual session of the American Dental Association meeting Oct. 15-18, at the Shoreham Hotel, Washington, D.C. Formerly the Director of the Officer Training Department at NDS he was detached from NNMC Aug. 8, 1951.

(AFPS)—Prospective givers of Christmas gifts to U. S. Servicemen and women are reminded by the Defense Department that gifts to Service personnel in Japan, Korea, and other Pacific areas should be mailed not later than Nov. 1. Parcels for delivery in more remote areas should be mailed by Oct. 15.

LTJG Robert L. Magoffin, MC, USNR, under instruction in epidemiology, was sworn in as lieutenant, and **LTJG Ned H. Wiebenga, MC, USNR**, of NMS transferred to USN Sept. 26.

CWOHC Hugh A. Ferguson, USN reported in Oct. 1 to relieve WOHC Robert C. Davies, USN as NDS Personnel Officer. Mr. Davies left Oct. 8 to be Administrative Assistant to the Dental Officer at the Naval Gun Factory. Mr. Ferguson was formerly Administrative Assistant to the OinC of Naval Dental Technician School, San Diego.

The YWCA at 17th and K. N.W. is currently offering the following facilities free of charge: Music Hour: weekly Sun. afternoon programs, Barker Hall, 1630 until June; Young Women's Choral Cont. Page 7, Col. 5

Claude Thornhill's Orchestra Plays for Staff Dance Next Monday Night

Claude Thornhill

Christy Connor

Claude Thornhill, his piano, and his orchestra, featuring Christy Connor and the Snowflakes, will be on hand for the enlisted staff dance, Sat. Oct. 22 in the NNMC gym. There will be a performance in the auditorium at 1800.

The dance, which will commence at 2030 and last until 2330, will be decorated in a harvest theme using halloween colors. Civilian girls galore from Washington D.C. have been invited. Dress for men will be dress blues or civilian dress (coat and tie)—for women, formal or semi-formal.

Enlisted Men

There was good news for a long time for enlisted men this month as the advancement in rate began coming in Oct. 1. The list will become effective tomorrow, Oct. 16. Names are listed below according to command and rate.

NNMC
SKI to SKC
A. Thomas
HM2 to HM1
R. Eide
SD2 to SD1
S. Fisher
HM3 to HM2
M. Chirnock and L. Thompson (W)
JO3N to JO3
R. Madsen (W)
HN to HM3
G. Devol, P. G. Stoukas, R. J. White, and J. P. White
TN to SD3
Edrada and P. D. Morris

Chief Murphy, senior member of the dance committee, urges all personnel of the six commands to attend and promises a good time for all.

The Claude Thornhill band has been around for quite a few years, yet Thornhill's distinctive piano styling and unique orchestrations are still the most original musical offerings among modern dance bands.

Thornhill has a setup that includes five reeds, six brass, and four rhythm, paced by the leader's eloquent piano. Most unusual of all is the fact that in the six brass, there is a French horn. The horn, which is usually identified with symphonic orchestras, is being used to blend with the colorfully harmonious arrangements of the leader. Two vocalists round out the group.

Thornhill plays the piano with casual ease, his fingers gliding over the ivories with an effortless grace that belies the difficulties of the arrangements. His piano is heard to telling effect in the beautiful theme of the Thornhill band, "Snowfall," which he composed, and on virtually all of the distinctive Claude Thornhill arrangements which have made this band so outstanding.

Crew's Library:

New Books Sport 5 of Best Authors

It is something of an event in any library to receive a shipment of new books with five of the foremost authors of today represented in the collection. Crew's Library is happy to announce these new arrivals:

White Man Returns, by Agnes Newton Keith, is the sequel to **Three Came Home** and is as welcome as the return of old friends. In this sensitive and sympathetic story, written with Mrs. Keith's flair for detail and keen sense of humor, we find that after the Keith family was released from prison camp and had recuperated in Canada, they returned to help with the reconstruction of North Borneo.

The President's Lady is another of Irving Stone's biographical novels: this one dealing with Andrew and Rachel Jackson. Set against the opening of the West and the War of 1812, the book is full of color and melodrama. Rachel's background and the question of the legality of their marriage were weapons used by Andrew's personal enemies to destroy his political career.

Thomas Mann, at 76 years of age, ventures into an entirely new sphere in novel writing. Based on a medieval legend, **THE HOLY SINNER** is set in the Court of a Duke in Flanders. It is a sad story of Gregory, who after 17 years of solitude and repentance, was elevated to the Papacy.

To the list of John P. Marquand's notable characters in fiction, we may now add **MELVILLE GODWIN, USA**, a highly trained combat specialist who became a General. In dealing with the predatory Dottie Peale, Mel found himself in a field of action for which he had not been trained.

MOSES by Sholem Asch, follows the Biblical story of the great Hebrew leader with a wealth of background detail. We watch Moses grow in strength and wisdom as he is confronted with one test after another until he emerges with the scope and authority worthy of him.

Jewish

Congregation Beth El of Montgomery County will hold services every Friday night at 8:15 p.m. in the Social Hall of the All Saints Episcopal Church, Chevy Chase Circle. All Service Personnel are invited to attend.

The services of Rabbi Harry Kaufman, representing the Jewish Welfare Board, are available to all Jewish Personnel and Patients at the National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, Ext. 324, or by call direct—Office: RA. 5371—Home: GE 0755.

The Chaplain's Corner

by Chaplain P. J. Marron

Follow the Swallows

Summer is taking "leave." Fall is taking over. Strange are in the offing. On Oct. 23 at 1300 the famous swallows will arrive in California, at the old church of San Juan Capistrano, to be and will, in song, bid adieu to the U.S.A. This has been their for all of 165 years. They fly out to the open sea, thousands in formation. They will return, punctually, on Mar. 19, the feast of St. Joseph.

Where do they go? . . . when they take flight each winter out to sea, with the nearest land a thousand miles away? An old Mexican of the Mission Church explains: "They carry a little twig in their beak and when they tire they place it on the water, and rest on it."

It is a "burden" for a little bird, yes, but it is also a "lifesaver" is any man's cross—a burden, but a lifesaver on his way. "Follow the Swallow." Before taking flight on a long journey, the parent birds the youngsters on "short hops." They must "qualify" for their "work."

In the same way our Holy Mother, the Church, cares for her flock, gives us days of Fast, times of penance, seasons for Rosary or special devotions. Sometimes, too, even days of suffering and sorrow may our lot. In this way we may exercise ourselves in "Sacrifice!" ready; strengthening us, by carrying our little "twigs of crosses" that one day, some day, we may be able to bear the "big cross" which will be ours in a day unknown.

NMRI's New Executive Officer Has Long Career In 'Sub' Research

By R. Conaway

CAPT Thomas L. Willmon, MC, USN, a favorite son of the State of Texas, reported aboard on Sept. 5 as Executive Officer of NMRI. With 20 years of service to his credit, Dr. Willmon has seen many and varied types of duty.

It all started back in 1931 when, after graduating from the Medical College, he began his Naval Career as an intern at the Naval Hospital, Brooklyn, N. Y., following which he was ordered to New London, Connecticut for a Line Officer's Course of Instruction in Submarines, and to Harvard University School of Public Health for work in respiratory physiology, thus beginning a career in Operational Medicine and Submarine Medical Research.

At the time of the Submarine **SQUALUS** disaster in 1939, Dr. Willmon was a member of the Experimental Diving Unit at the Naval Gun Factory, engaged in research on the use of helium oxygen in deep sea diving operations, and served in the unit that effected the rescue of personnel and raising of the sunken submarine. This was the first operational use of helium oxygen in diving operations.

During World War II, he was Assistant to the Officer in Charge of the Naval Medical Research Laboratory, Submarine Base, New London and served chiefly in evaluating and selecting officers and men for submarine duty during the rapid expansion of that service. During the last year of the war, Dr. Willmon was Senior Medical Officer of USS *New Jersey*, following which he did a tour of duty in Research Division at BuMed.

His next assignment was to the Staff of the Commander, Submarine Force, Atlantic Fleet, with additional duty as Officer in Charge, Medical Research Laboratory, Submarine Base, New London, where he remained until his recent transfer to NMRI.

He is a member of the Panel on Shipboard and Submarine Medicine of the Research and Development Board; the American Physiological Society; and is currently a member of the Advisory Committee to the State of New York on problems of caisson tunneling and diving. A number of his articles in the field of respiratory physiology have been published in various scientific journals.

Dr. Willmon is married and has one son, Thomas, who is now attending The Kent School, Kent, Conn. Mrs. Willmon is maintaining their home in New London for the present, but plans to join the doctor in the very near future.

CAPT Thomas L. Willmon

Smith Cited by CO For Exemplary Work

Jack J. Smith, DTC, USN, dental technician in the prosthetic lab of NDS, received a meritorious mast before the assembled crew Sept. 21.

The letter of commendation read and signed by CAPT L. Mitchell Jr., CO of NDS. Smith was commended for his exemplary performance of duty from Nov. 1949 to Aug. 1951 during which time many of his staff, recent graduates of prosthetic school lacking the year of experience desired for this special duty.

The letter also cited him for willingness to work after regular duty hours in order to prepare and immediately meet the dental prosthetic needs of all patients.

Chief Smith leaves soon on duty at the American Embassy in Moscow.

Diaper Derby

Sept. 25—Janet Atkins, 6 lbs., 15 oz., daughter of CDR John Atkins, DC, USN, student in Naval Post Graduate Course.

Sept. 30—Elizabeth Ann Moler, 3 lbs., 4 oz., daughter of James Moler, HMI, of NNMC personnel office.

Oct. 1—Ronald Calder, 10 lbs., 10 oz., son of Calder W. Calder, HM2, of Mechano Therapy, NNMC.

I Wonder What That Is? . . .

Something has really caught the attention of charming little Mary Colleen Olfield, age two, daughter of HMC and Mrs. Harry "Barney" Olfield of NMS.

The Royal Guard

With majesty and dignity
In odd zigzag formation
A royal guard in purple dress
Solemnly stands attention,
Though white snow caps are queerly peaked;
Comically set askew,
They proudly sprawl and range for miles;
A parade in grand review.
Undaunted and impregnable
They present a mighty show
And cast gigantic shadows
On the twisted valleys below.

Their massive shoulders seem to rest
Against the moody sky
While stormy rains may drench their coats
And sunbeams bake them dry—
And though puffs of cotton clouds
Tumble playfully about,
In stony silence they tower
And only an echo's shout
Breaks the stillness of the guards
Immobile in their station,
The purple mountain sentries
Of Nature's royal nation!

—GLORIA E. GOSNELL, NMRI.

W. J. C. Agnew, MC, USN assumes command: "... Admiral Swanson, I relieve you of this command."

RADM Agnew Takes Over

The new Commanding Officer, William John Clarke Agnew, was born in High Falls, N. Y., on Dec. 6, 1891. He was graduated from the University of Vermont College of Medicine in 1914 and appointed Assistant Surgeon, Medical Reserve Corps, with the rank of LT (j.g.), on Dec. 13, 1916. Transferred in that rank to USN on Apr. 4, 1917, he was subsequently promoted to Rear Admiral to rank from June 21, 1942.

For a few months prior to the United States' entrance into World War I, in April 1917, he attended the Naval Medical School, Washington, D. C. He then served as medical officer of the *USS Conyngham*, which was part of the first division of destroyers to cross the Atlantic to Ireland during the war. In November 1917 he was transferred to the *USS Cassin*, also operating with the Destroyer Force based on Queenstown, Ireland, and in August 1919 he was assigned duty in the Naval Hospital, London, England. From April of that year until January 1920 he served at Naval Headquarters, London.

To Paris, France in 1920, he had command of the Naval Exhumation Unit, with additional duty as Naval Representative on National Commission for Military Cemeteries and Pertinent Affairs in France and Belgium. He also served with the U. S. Naval and Marine Corps Graves Registration Service, in Paris. He then returned to the United States, to the Bureau of Medicine and Surgery, where he served until December 1924.

Back to sea in January, 1925, he joined the *USS Omaha* and in November of that year was transferred to the *USS Richmond* on which he served until January 1927. In March 1927 he returned to duty at BuMed with additional duty aboard the presidential yacht, *USS Mayflower*. Detached from this assignment in January 1929, he reported for a year's duty at the Naval Hospital, New York.

From February 1930 until March 1932 he was stationed at the Naval Hospital, Canacao, P. I. On his return to the United States he again had duty in the BuMed. In December 1933 he reported for a tour of duty at the Marine Barracks, Quantico, Virginia, with simultaneous service with the 7th Regiment Marines. During that assignment he was first Force Surgeon of the Fleet Marine Force from January to September 1934. Detached from Marine Barracks, he returned to sea, joining the carrier *Saratoga* in April 1935, to serve until January 1937.

(Continued on page 6, col. 2)

Right: The new Commanding Officer and retiring Commanding Officer pass through the marine honor guard while inspecting the parade.

Lower left: Entire assembly salutes as the national anthem is played by the band from the Naval School of Music and RADM Agnew's two-star flag is hoisted to the yardarm.

Lower right: Panorama showing the staff, honor guard, and band in formation with families and friends at main entrance.

LCDR Haslam Relieves LCDR Dean As Administrative Officer, NNMC

LCDR Floyd S. Haslam, MSC, USN, (left) relieved LCDR Henry T. Dean, MSC, USN, (right) as administrative assistant Oct. 3. Mr. Dean had held the position since April of this year. Prior to that he was Finance Officer for NNMC. Mr. Dean left last week for Great Lakes, Ill., to assume the duties of Administrative Assistant to the District Medical Officer, RADM Swanson.

Mr. Haslam is a native of California, born in Santa Barbara. Enlisting as a seaman apprentice Apr. 1, 1927—24½ years ago—he was commissioned WOHC Jan. 15, 1942. His promotion to Ensign followed six months later. He became Lieutenant Commander Jan. 1, 1949.

Since his commission, his duties embraced all phases of the medical department dealing with personnel and administration. He was Administrative Assistant to Fleet Surgeon, CAPT (now RADM) Greaves. He had duty attached to MSTs in New Orleans, and was assigned to the personnel section of BuMed before becoming Administrative Assistant to RADM Agnew who was District Medical Officer of COM 9.

In a personal interview Mr. Haslam said, "I am very pleased to come to Bethesda for duty. I think it is a delightful place. I anticipate a busy tour of duty, and am glad to continue working with Admiral Agnew." He has been with Admiral Agnew since 1942.

LCDR and Mrs. Haslam, the former Miss Norma Jean Bush of Springfield, Ill., live at 1602 Carey Lane, Bethesda.

Red Cross Planning Parties and Trips For Patients Soon

The Red Cross Recreation Department has an interesting array of off-post trips and invitations to parties on its calendar planned for the patients in the near future.

Football is foremost on everyone's mind and football we have! We will have trips to most local college games such as the University of Maryland and George Washington University plus a few tickets each week to the professional Washington Redskins games at Griffith Stadium. Two top-notch games on our schedule are the Navy-Notre Dame game on Nov. 3 and the Navy-Maryland game on Nov. 10.

Many other trips are planned and cover a wide range of entertainment from sports and theatre events to parties on private estates. These trips may be signed for only the week of the trip. The trip list is posted on the bulletin board in American Red Cross Recreation Office, Room 102, every Monday at 1430 for signing up. There are also tickets available to District movie houses and other local events from time to time which are to be had for the asking in Room 102.

Many community groups are quite interested in the patients at this hospital and as a result, issue these invitations and tickets so that your off-post trips may be varied and fun!

FOUR

Turkish Captain Studies at NDS

A shy, reticent, but alert young man, in an unusual uniform bearing three shoulder stars, entered the Personnel Office of the Naval Dental School on Sept. 17 of this year, and indicated in somewhat hesitant, uncertain English that he was ready and anxious to begin the six-months, specialized post-graduate course in prosthodontia. The Personnel Office, although orthodox, proved again its resourcefulness, and in due process added to the course roster the name of Hasip Husnu Altinsel, Captain in the Turkish Army.

Capt. Altinsel typifies the spirit and achievement of the modern Turkey. After the Ottoman Empire crumbled, the Turkish capitol was set up at Ankara, and young Hasip grew up in a village about 230 miles from the newly established capitol. He entered the government School of Dental Medicine in 1939 and was graduated in 1943 with the degree of Doctor of Dental Surgery. After a year's internship in the military

Hasip Husnu Altinsel

hospital in Ankara, he was on duty three years as an instructor at the government Military School at El aziz in eastern Turkey. When the school moved to Konya, he accompanied it, teaching general dentistry to fourth year students.

He was so impressed by reports of the high quality of post-graduate work done at NDS that he applied for and was granted one year's leave in order to pursue studies here. Arriving in New York in January of this year, he spent some time there in language study. It is his opinion that the Turkish language is much easier than the English, for any character in Turkish writing always receives the same pronunciation, and this does not hold true at all of English writing.

Capt. Altinsel is very favorably impressed with the course he is taking, and hopes to extend his leave and his post-graduate study beyond the course term. When he returns to resume his teaching work, perhaps at Ankara, he intends to make excellent use of the techniques used both in dentistry and teaching.

Capt. Altinsel's wife and four-year-old son are now living in Istanbul. Like other Turkish youngsters, the boy, even at this age (according to his father) is playing Cowboys and Indians as he sees it done in American movies.

NDS Contributes TV Clinics To ADA Session Starting Today

The Naval Dental School will be well represented with television demonstrations, table clinics, and exhibits at the Ninety-Second Annual Session of the American Dental Association which starts today at Hotel Shoreham.

CDR J. V. Niiranen presented a table and television clinic titled, "Prosthetic Rehabilitation of Facial Trauma and Disease" before the American Society of Oral Surgeons at the Wardham Park Hotel Oct. 13. He is also in charge of the television presentations prepared for the ADA convention by doctors of NDS. He is assisted by CDR David P. Dobson.

Besides CDR Niiranen's one-hour demonstration, there will be five, three to five minute programs prepared by Drs. Colby, Peters, Parker and Blackstone. The television broadcasts will originate in Mt. Alto Veterans Hospital and will be beamed to the National Guard Armory on a closed circuit in color.

An articulator, (instrument on which dentures are made) two and one half times the regular size was obtained from the Hanau Co. to make the dentures to be used in the broadcasts.

Exhibits entered include: "Partial Dentures"—CAPT. A. R. Frechette and CDR M. L. Parker, "Bacteriology"—CDR C. E. Meyers, "Crown and Bridge"—CDR R. C. Millard, and LT. P. H. Wells Jr., "Prosthetics (occlusion)"—CDR J. V. Niiranen and LT J. F. Peters, "Operative"—CDR Paul A. Moore, and "Endodontia"—LCDR W. J. Hedman.

Table clinics will include: "Anatomy of the Face" by CDR F. E. Frates Jr., "Discussion on the Clinical Aspects of Direct Resinous Filling Materials" by CDR Robert B. Wolcott, "Amalgam Restorations" by CDR Paul A. Moore, "Wax Pattern Manipulation for Direct Gold Inlays" by CDR W. D. King, and "Occlusal Equilibration—An Aid to Periodontal Treat-

ment" by LT Jerome F. Peters. Also "Special Problems in Denture Construction" by C. Frank M. Kyes, "Mouth Preparation for Partial Dentures" by Mack L. Parker, "Insertion of Filling" by CDR Robert B. Wolcott, "Complete Denture Series" by CDR J. V. Niiranen, and "Selective Grinding in Periodontal Treatment" by LT J. F. Peters.

Mother: "Where do bad girls go?"
Daughter: "Everywhere."

A man I know cleaned his gun on the front porch yesterday and today his daughter had proposals.

MEATBALL

"... And then what did you do to the Admiral?"

Audio-Visual Takes Exhibits of Navy Progress

People all over the United States are hearing about the progress made and the research performed at NNMC. Over in Bldg. 141 is an audio-visual production office under the supervision of which this office sets up exhibits which portray the work done, covers made, and research performed by the Navy.

The exhibits, accompanied by amplified monitors, are sent to medical conferences and conventions all over the U. S. This month exhibits from NNMC were shown at The Association of Military Surgeons of the United States at the Palmer House in Chicago, Sept. 8-10.

TJG J. W. Pate of the Tissue Bank monitored the exhibit entitled "New Methods of Preserving Bone, Bone, and Blood Vessels." Hand with the "Blood Products Atomic Warfare" exhibit were DR Gioconda Saraniero, OinC Hematology, and LT Francesa, OinC of Serology. This exhibit deals with the use of whole blood, blood derivatives and blood plasma substitutes in the treatment of shock, burns and atomic irradiation due to atomic blasts. Audio-Visual also set up the exhibits for NDS which will be shown at the American Dental Association meeting starting today at the Shoreham Hotel downtown.

Armed Forces Plan Rapid Expansion

(AFPS)—With recruiting drives in most of the services going full blast, here is the latest information and figures regarding women in the Armed Forces.

AC—As of April 30, 1951 there are 11,495 on active duty. The quota is 30,000 by July 1, 1952 and quota is 210 per week. Retiring in the new drive is slighter than expectation, but it is expected that it will pick up in the

NAVE—Present strength is 10,000 with a goal of 10,000 expected to be reached by July 1, 1952. Present quotas call for 132 a week. AF—Present strength is 8,000 with a goal of 42,800 has been set by July 1, 1952. Direct commissions for 2,800 qualified women. The goal is reached the Air Force will have more women on duty than any other service to the large number of technical positions that can easily be filled by women.

WOMEN MARINES—Present strength is 2,213 with classes at Island accepting 150 new recruits every five weeks. Plans currently being considered for expansion but none has been announced.

CGAR—The Coast Guard reports there are 15 women on active duty with no drives or expansion coming in the near future.

Dr. Francis J. Braceland Noted Psychiatrist Opens Guest Series

Dr. Francis J. Braceland, Psychiatrist in Chief, The Institute of Living, Hartford, Conn., gave the first lecture of the 1951-52 Guest Lecture series at 2015 Friday, Sept. 23 in the auditorium.

Dr. Braceland was presented by CAPT. J. L. Enyart, Commanding Officer of NMS and was introduced to the audience of approximately 500 persons by CAPT. G. N. Raines, MC, USN, Head of Psychiatry Branch, BuMed.

The subject was "Psychologic and Psychiatric Aspects of Cortisone Administration." Dr. Braceland is an accomplished public speaker and presented his subject in a most instructive and informative manner.

Refreshments and a most pleasant social hour followed the presentation.

NMRI's Jachowski Represents Navy At Tahiti Meet

By R. Conaway

LT Leo A. Jachowski Jr., MSC, USN of NMRI, was Navy representative at an International conference on filariasis and elephantiasis, mosquito-borne diseases prevalent particularly in the territories of the eastern Pacific, which was held in Papeete, Tahiti from Aug. 21 to Sept. 1, 1951.

The objects of this conference were, firstly, to define the various problems raised by filariasis and elephantiasis, especially in the South Pacific; secondly, to determine the research work to be continued or undertaken in order to solve these problems; and, thirdly, to propose and recommend appropriate measures to be taken for the control of these diseases, taking into account the social and economic conditions existing in the area.

In addition to representatives of the South Pacific Commission, the sponsoring body, there were delegates from the United States, Australia, and New Zealand, three of the member governments, and from territories of Hawaii, American Samoa, Cook Islands, Fiji, Vietuam, and Tahiti.

LT Jachowski had been in charge of the unit sent by NMRI and the Research Division, BuMed, to Samoa in 1948-1950. In 1951 he revisited the Samoan Islands to further evaluate his experimental control program. His data on the disease in Samoa contributed materially to the success of the conference. At present, LT Jachowski is on temporary duty from NMRI to Johns Hopkins University in Baltimore, where he is preparing his findings for publication and is continuing in the laboratories there, the studies begun in Samoa.

Navy Belles

by George

The many changes in our house have made it a better place to live and we all have some time with our ship house. On Monday Oct. 1, we had a Waves party in the rec. room, a farewell party for Catherine Glendenning, Virginia Nausedas, and Betty Hopper going back to Boot Camp at Bainbridge.

—A wonderful time of fun and fellowship was had by all; group singing went on into the night (didn't it Dental fellows?). Margaret Wilkie, and Mary Jane Grandin are the new arrivals from the Lakes for hospital command.

Just around our house: Sewing circles—taking place tucks in the blues and some of the girls sewing on rating badges—"Pat" DeBerry sitting up with a sick rabbit—Virginia Ervin, polishing her boots and listening to cowboy music since she got her orders to Corpus (I've been to Texas)—Kathryn Yuhas, has finished OR school with a broken finger—received in the line of action—

Bride of the month is Irene Ramos, married Gene Keller, October 13, at Irene's home New Bedford, Mass. They found a house but you better give Irene time to learn the cook book.

The Physical Medicine girls are counting the days till they finish theory and come to the Physio Therapy Department (me too) —Salty, finishing Lab school and becoming NMS staff here—Volleyball games going strong with the girls finding new muscles.

The latest news: I just heard the first of the plans for a Waves party at Rock Creek Park the end of the month. Sounds very good. "Josh" and "Tillie" are looking for an easier way to get out of bed in the morning with no help.—I will see you next time—I am still the girl from the heart of Maryland.

Not Much Research Involved

by R. Conaway

The first week of October was a "red-letter" week for Bruce R. Talbot, HM3, who was discharged on the 3rd, shipped over on the 4th, and was transferred to ComServLant on the 5th.

L. H. Dedon, HM2 was released from Service on Oct. 3; F. M. Sanchez, SN, to ComServLant; W. H. Halsey, TDAN to Memphis, Tenn.; and G. E. Keim, HM3 to USS Tarawa.

Aboard for duty from Beaufort, S. C. is LT A. Prezyna, MC, USN; W. Gill, HMI from USNAB Little Creek, Va.; John A. Morrison, SA, from Great Lakes, Ill.; J. C. Canterbury, HM2 from MSTs, Brooklyn; and E. Elkins, HM3 from Naval Hospital, Bainbridge.

A random glance at NMRI off-duty activities finds D. E. Teter and R. Van Belois spending their spare time on the golf links; Carlos Schultz walking into an Ice Cream Parlor asking for a "beer soda;" Mabel Eller improving her skill as a one-arm driver; "Hammy" Brooks inviting the gang up for Lobster Newburg; and M. R. Gilliland sporting a broken leg from the last football game.

Guess I'm about dry on news for now so I'll call it quits for this issue. Just a word about that last staff picnic we had—"WOW!"

NNMC Corpsman Gets Bronze Star

Robert E. Haun, HM2, USN, the galley MAA, receives the Bronze Star Medal for his courageous action during operations against the armed enemy in Korea. The award was presented by CAPT B. W. Hogan, CO of NH before the assembled crew at inspection on Saturday, Sept. 22.

Before entering the Navy in July 1947, Haun graduated from Holy Cross Academy, Lynchburg, Va.

Navy Announces Dates and Changes For January Petty Officer Tests

(AFPS)—Competitive examinations for advancement to third class through chief petty officer will be held in January, 1952, the Navy has announced. Several changes have been announced for the tests which are scheduled as follows:

For third class petty officer; Tuesday Jan. 8

For second class petty officer; Tuesday, Jan. 15

For first class petty officer; Tuesday, Jan. 22

For chief petty officer; Tuesday, Jan. 29.

Among the changes are rulings which allow examinations for read-advancement only for chief petty officers. The military and professional subjects will be combined in one examination for each general service rate. Reservists will be instructed to answer questions known to pertain to their emergency service rate first and subsequently to answer all the remaining questions.

The Navy has also announced that the General Training Course for non-rated men is no longer mandatory for advancement to pay

grade E-2. Bluejackets Manual (14th edition) has been recommended for study in connection with military requirements for advancement to pay grade E-3 and above.

As in the July examinations, postal cards will be supplied with test papers for those who wish to be informed of results as early as practicable.

Sir, may I have your daughter for my wife?"

"Bring your wife around and we'll see."

Hero: "Did I tell you about when I was torpedoed on a destroyer and lived for 16 days on a can of sardines?"

Gal, "Goodness, weren't you scared of falling off?"

Who Said Women Fear Mice? . . .

If Doris "Salty" Salisbury, HM3, had any of the well-known feminine fear of mice, she had to conquer it to perform her present job. Salty works in the Endocrinology Lab on the third deck, better known as the "mouse room."

She is shown injecting one of the little white rodents used in the Ascheim-Zondek test which is used to determine pregnancy, tumors, and cancer. Her present assignment was part of her practical work as a student in Lab 16, but when she graduated last Friday she became staff on the same job.

as a matter of fact I DON'T you!"

Mr. Glawson Leaves For Norfolk Duty

LCDR J. J. Glawson, MSC, USN, who has been NNMCM's Legal Assistance Officer since February 1946, left Friday for Norfolk, Va. Mr. Glawson will be the Administrative Assistant to the District Medical Officer of the 5th Naval District.

His new relief is LT David H. Baker, MSC, USN, who came in from the carrier USS ORISKANY in the Mediterranean.

"The Judge" as Mr. Glawson is fondly called, has 35½ years of service in the Navy, joining in March 1916. Born in Americus, Ga., he is a graduate of the National University School of Law, Washington, D. C., with the degree of Bachelor of Laws.

His duties here have included giving instruction in Military Justice and Naval Courts and Boards. Mr. Glawson's married and has two daughters and a son, all of whom are now in school.

CAPT A. H. Grunewald Sets Example

Blood Bank Technician Louise R. Miller, HM3, draws a pint of blood from NDS's Executive Officer, CAPT Alvin H. Grunewald. Following their Executive Officer's lead, the Naval Dental School has volunteered 100% to give blood in the current drive. With a quota of two pints a month, NDS donated 58 pints in August.

AGNEW—Cont. from p. 3

From January 1937 until June 1938 he was on duty at the Naval Training Station, San Diego, and for three months thereafter he had duty with Hospital Corps School at that station. In September 1938 he again returned to BuMed, and on Nov. 20, 1944 he was appointed Assistant Chief of that Bureau. For "especially meritorious" service as "Director of Personnel, including the Medical Corps, Hospital Corps, and Nurse Corps, from the beginning of the emergency to Nov. 24, 1944; and as Assistant Chief of the Bureau from Nov. 25, 1944 to the surrender of the Japanese Empire . . ." he was awarded the Legion of Merit.

The citation states further: "Rear Admiral Agnew was able to coordinate the recruiting and training of medical personnel in Departmental duties, thereby insuring expeditious assignment to ships, advance bases, and hospitals throughout the world as well as to the shore stations and hospitals at home. Serving as Assistant Chief of the Bureau, he bore the responsibility for the operation of the Medical Department of the Navy during the absence of the Surgeon General and, by his quick grasp of essentials, his inherent ability to make immediate and correct decisions, and his calm performance of duty under stress, contributed vitally to the successful operation of the Medical Department."

In December 1946 he was designated District Medical Officer, 11th ND, San Diego, and in January 1947 was assigned additional duty as President of the Naval Retiring Board, 11th ND. In April 1948 he reported as DMO 14th ND with Headquarters at Hawaii. In November 1949 he was assigned DMO 9th ND, Great Lakes, and remained there until September 1951 when he was ordered to report as Commanding Officer of the National Naval Medical Center.

In addition to the Legion of Merit, Rear Admiral Agnew has the Victory Medal, Destroyer Clasp (USS Cassin); the American Defense Service Medal; American Campaign Medal; and the World War II Victory Medal.

He is a Fellow of the American College of Surgeons and a member of the Alpha Kappa Kappa and Theta Nu Epsilon fraternities.

Admiral and Mrs. Agnew, the former Miss Drika Fisher of Redlands, Calif., now reside at Quarters "A" on the NNMCM reservation.

Center Chatter

By Frank Winn

The big game of the year is over with the Commanches coming out on top by a score of 6-0 over N.P. In a game which will be long remembered as one of the roughest, long, hard fought games in several years. George Funk caught a pass from P. G. Stoukas in the end zone for the only score of the game.

Center has one big game left for the season with Dental. This game will be no push-over and the whole team realizes it, but they feel the worst is past.

Thanks to HMC Taylor for all the wonderful chow, other refreshments, and the complete planning of the shindig NNMCM Command held Monday night, Oct. 1. LCDR Dean, who has been detached to go with RADM Swanson to Great Lakes and 9th Naval District, was honored guest.

I would like to quote Joe DiMaggio at this time on a remark he made after the Yanks had lost the first game of the World Series. As the Yankees came into their club house after the game Joe said, "What's all the excitement about? They tell me this is a best of four out of seven series." Joe ought to know, he's been in ten of them.

The NNMCM Command fared very well in advancements in rate this time. Come Oct. 16 will find Archer Thomas trading his white hat for that of SKC. By the time Thomas completes his tour of duty here at NNMCM he will be a jack of all trades in the Supply Corps. Although this is not his first assignment in the disbursing field, most of his service has been limited to running storerooms, ship's service, and other activities of the Supply Department.

Also moving up the ladder were Eide to HM1, Lucille Thompson to HM2 Webster HM3, Joan Madsen J03, C. E. Devol HM3. Others making HM3 were Pat White, and P. G. Stoukas. We'll be looking for those cigars. Congratulations one and all.

If you notice hay seeds in Jim Moler's and R. M. Hansen's hair for the next two months just let it pass. More than likely they have either just returned from the corn field after doves or else they haven't been to bed all night after chasing some coon for twenty miles through woods and dale.

Energetic Miss Griffin Proves Ability Counts, Not Disability

In 1949 Miss Ruth Griffin, of the Medical Library, took a "walking tour" through Lucerne, Switzerland. So did half a dozen or so other tourists in her group. But to Miss Griffin the tour had perhaps a more significant meaning—because there had been a time when to walk at all was an impossibility for her.

Miss Griffin lost her left leg above the knee in a train accident when she was 10. After she received her artificial leg, it took her over a year of patient struggle to learn to walk without crutches.

At her home in Ackerman, Miss., she was part of a family of 10 children, which she says quickly dispelled any sensitivity on her part about her accident. "Far from being sensitive about my crutches," she relates, "I found out soon that they were very useful as weapons!"

Like so many other handicapped people, Miss Griffin has never allowed her accident to interfere with her goal in life. She graduated from Mississippi State College For Women and the Emory University Library School at Atlanta, Ga. She worked for a time as a stenographer and also taught English in a Mississippi high school for a year.

Before coming to NNMCM in 1946 she worked in the Army Medical Library and the Department of Agriculture Library. As assistant librarian here, she says her handicap has never in any way interfered with her ability to do her job.

Unable to participate in active sports, she finds recreation in other things, such as playing bridge which she enjoys very much. She spent seven weeks in Europe in 1949 when she traveled through England, France, Switzerland, Belgium, and Holland.

Last week was National Employ the Physically Handicapped Week. Miss Griffin is just one of the many physically handicapped people who work at NNMCM, personifying the slogan, "Ability counts, not disability."

Economic Stabilizer Eric Johnston said recently: "It is nice to think of the Defense Bonds we accumulate as negotiable securities that will buy the comforts of life when our arsenal has been filled, but today we are concerned with life itself and our Defense Bonds are one of the instruments of national survival."

Miss Ruth Griffin

Two NNMCM Doctors Attend Alaska Meeting

CDR J. M. Amberson, MC, USN, and LT J. R. Reynolds, MC, USN, of NH presented a paper entitled "Medical Problems of Southwest Greenland" at the meeting of the Alaska Division of the American Association for the Advancement of Science at Mt. McKinley Park, Alaska the first week in September.

Both doctors have been stationed in Greenland; Dr. Amberson in 1947 and Dr. Reynolds in 1950. Having the same latitude as Alaska, Greenland has many similar medical problems. Although the paper was originally prepared for the Navy's use, with the growing interest in Alaska, it was found to be of interest to the scientists and educators doing research on the colder latitudes.

The meeting was held in Alaska to inaugurate the Alaskan division into the Association as well as to enable attenders to make field inspections of the conditions there. The two doctors visited research units connected with Public Health and the Air Force.

Back at NNMCM now, they are busy establishing the new Department of Cold Weather Medicine which is located in the office of Tropical Medicine, Rm. 262, Bldg. 1.

At present the new department is assembling data on cold weather medicine and coordinating the work of the various government activities and universities, including the University of Alaska, engaged in cold weather research. Plans are underway for obtaining space later for research work and instruction.

"Now remember, if you fellows have any problems, come to see me. After all, I used to be an enlisted man myself!"

"It isn't the thing we do or say,
But all in the way we do or say it.
What would the egg amount to, pray,
If the hen got up on the perch to lay it?"

The NNMC bowling alleys located in Bldg. 23 have just been given new face. There are now four alleys with electric semi-automatic pinsters. The alleys have all been refinished and are all ready for the upcoming bowling season.

Volleyball Tonight: Waves Meet Wacs

The Waves volleyball team will meet the Wacs tonight at Fort Myer at 1830. This will be the third game of the season for the Bethesda Waves.

Getting a late start and entering the league after only two practices, the Waves gave Walter Reed quite a tussle last Monday. Matches consist of the best two out of three 15 minute periods.

Walter Reed, who had already completed a Wac tournament, had little trouble taking the first period 15-9. But the Waves came back to win the second 16-13, forcing the match into the third period.

The last few minutes were exciting as the lead was shifting back and forth and time running out. At the final whistle Walter Reed led 15-13, giving them the match.

The Fort Belvoir game Tuesday night followed the same pattern with the Wacs winning the first and last game and the Waves taking the middle one. Final score read 22-15, 11-6, 16-10 in Fort Belvoir's favor.

Both sports coordinator McQuarrie and team captain Amott are pleased with the progress made by the team in the short time they have been playing and think the team will be greatly improved by the end of the season.

Louise Miller is time keeper for the group with Doris Salisbury and Norma Schraeder both having had a turn at officiating.

Team roster for the two games included: Dolores Amott, Constance Connor, Shirley Dennett, Gertrude Hobson, Madlon Leiningner, Joan Madden, Maggie McQuarrie, Louise Reynolds, Marcia Scott, and Jocelyn Shook.

Resales Planned for Navy Football Tickets

In order to accommodate officers who are forced to make last moment changes in their plans to attend Navy football games, the Office of the Chief of Naval Personnel will act as clearing house for tickets. Officers who wish to avail themselves of this service may list their tickets for sale by calling the Aide to the Chief of Naval Personnel on Ext. 41101.

This service is intended as a convenience to the officers who are unable to present their tickets to the Naval Academy Athletic Association for redemption prior to the 5 p.m. deadline on the Wednesday preceding the game.

Tickets turned in for resale may be purchased by officer or enlisted personnel by calling the telephone number listed above.

Trophies are awarded to winning golfers in the Admiral Swanson Tourney held late in September.

Left to right: CAPT A. H. Grunewald (NDS), fourth flight winner, CDR J. Crawford (NH) first flight winner, DTI E. E. Beile (NDS) fifth flight runner-up, CDR W. D. King (NDS) championship flight winner, HM3 J. S. Bachar (NH) second flight winner, LT H. R. Morse (NH) third flight runner-up, HM1 L. D. Sperry (NMS) fifth flight winner, HMC E. W. Spangler (NMS), fourth flight runner-up, and DN D. E. Teter (NDS) first flight runner-up. Not shown: LCDR G. A. L. Johnson (BuMed) championship runner-up, and CDR D. J. Giorgio (NH) second flight runner-up.

Commanches Down N.P. in Thriller

RESULTS			
Center	38	Phys. Med.	0
N.P.	19	Research	12
N.P.	38	Phys. Med.	0
X-Ray	12	Research	0
Center	6	N.P.	0
X-Ray	12	Phys. Med.	0

STANDINGS			
	W	L	Pct.
Center	2	0	1.000
X-Ray	2	0	1.000
N.P.	2	1	.667
Dental	0	0	.000
Research	0	2	.000
Phys. Med.	0	3	.000

The Center Commanches opened the 1951 Intramural pigskin season by easily downing Phys. Med. by a 38 to 0 score. They followed up with a hard fought 6 to 0 win over the excellently drilled N.P. outfit. In the latter game, a large turnout, lured by the rivalry, crowded the sidelines to watch a three period deadlock. Both teams missed several chances in the first half. Center's wingman of nonpareil, Funk, closely guarded throughout, missed a couple of Tom Brothers' end zone tosses while N.P. missed a fine opportunity when the leather eluded the outstretched hands of end, Goda, who had faked the defense and found himself clear sailing.

In the final period an N.P. thrust was stopped on the Center 24 yard line and Tom Brothers went to work with short tosses which brought last years champions down to his opponents 30. On second down with the team lined up for an apparent try at an end sweep by the scatback, Stoukas, the bag of tricks was opened and found Stoukas tossing to Funk who had found an opening and the margin of victory had been gained. Rock and Kaulius were brilliant in the losing cause.

X-Ray toppled both Research and Phys. Med. to claim a tie for leadership with the Commanches and their game (too late for this issue's report) should decide the championship although a heavy rumor persists that the late starting Dental Dukes will field an aggregation capable of taking all.

NEWS SHORTS—cont. from p. 1

Club: Thurs. 1930-2130; Record Listening Hour: Mon. 1945; and Practice Facilities: open to both men and women.

LTJG Louis T. Foley, DC, USNR and LTJG George W. Thompson, DC, USNR both shipped regular last month. Both are interns in NDS and were sworn in by CAPT L. D. Mitchell Jr. Dr. Foley was sworn in Sept. 18 and Dr. Thompson on Sept. 26.

Worth I. Capps, HMC, USN of the Virology Division, NMRI, recently returned from six months TAD in Bogota, Columbia. At the request of the United Nations and under the leadership of Dr. Eric Traub, Head, Virology Division, NMRI, HMC Capps has given valuable technical assistance to the Columbian government on problems in connection with hoof and mouth disease.

In appreciation for the outstanding job he has done, a very fine commendation has been received for Chief Capps from Mr. R. P. Etchats, United Nations Representative in Bogota, Columbia.

The instructions for the use of the golf course have been amended to establish a family monthly rate of \$5.00. For this purpose a family is defined as husband and wife, and dependent children under 18 years of age.

Further, a green fee will not be charged patients of the Naval Hospital.

CWOHC F. C. Barbee, Maintenance Instructor at the Naval School of Hospital Administration, and **WOHC R. F. Christopher**, Assistant Maintenance Officer, NNMC, are attending the National Safety Council Conference in Chicago, Ill., in order to enlarge their knowledge of safety problems which might arise in various types of installations.

"Mommy, why is it Daddy doesn't have much hair?"
"He thinks a great deal, dear."
"But, Mommy, then why is it you have so much hair?"
"Eat your breakfast, dear."

Coach's Corner

The golf course will not seem the same without Chief Maurice, an excellent mashie wielder, a real competitor and a nice guy to y with any day of the week. CHIPS earned the aforementioned title by virtue of his uncanny wizardry from twenty yards off the pet. Runner-up to Bill King in three of the major station tournaments, CHIPS will have to motor to St. Johns, to play week-end golf in Newfoundland. Since this seems to be an ALOHA paragraph, Sweetening William will be departing the end of this month for Naples. His nearest golf course is in Rome, a half-day's drive.

Small note from CAPT Norman, "Have joined Sequoia Country Club, here in Oakland—Jim Crawford's high fade would do well on dog-legs." . . . card from CAPT Gillette, "The greens in Japan are manicured; there is no excuse for a lipped putt—bring a fast backswing to your pocketbook and I will acquaint you with the mysteries of island golf."

Tom Floyd in Cairo sends a papyrus communique, "This is it,addy for fifteen cents a round who among other duties performs such res as placing the ball on the tee, holding your cigarette, holds the on putting and returns the ball upon holding out—the course in r has sand greens, fairways, as you approach the tee an attendant eeps the surface of footprints. Upon leaving the tee the surface is omed. Nearing the green the same procedure is followed, but, my e feathered friend, those rolling hooks of Locke Johnson would er stop as I use a four iron on a 240 yd. hole.

In a patrol plane high off the coast of Korea, Lou Polansky, one those who really helped remove crab grass and water at midnight, bbles, "This is rough—sure wish I were there where you can e after work and in five minutes be on the course. . . if everyone rees, the ball scars on the greens, we will certainly have the best in yland."

Not all sporting interest is centered on the golf course as witness ren Hedman, making the metropolitan dailies with his recent wins the Potomac. Sailing in the Thistle class, Warren has brought POOK ss the line in first place in his last two races. 17 feet in length, ot beam, drawing about 3 feet and carrying about 250 square feet of res with a moulded plywood hull, the THISTLE is a fast growing rite among neophytes in yachting.

Bud Maltesta and his brush wielders have decked out the goal-posts green and white, the colors of the Center's Varsity teams. . . yardage ms, down marker, three officials all are helping to make the touch ball program. . . who said TOUCH, a whale of a success. . . the other noon, around five in the p.m., saw the Commanches edge out NP, Cornell Brothers tossing the pigskin with the deftness of Whip te, Varsity mound ace. . . with a shifting defense such as employed Richie Rock and his cohorts, maybe it would be pretty good, to knock first man down and forget the downfield assignment.

Gallucci proved a tower of strength in the center of the line with and Tiger Mosely dancing through the Commanche line for good age. . . slashing through at will, Richie Rock experienced little ble in cavorting in the Center backfield. . . George Funk had two on his track most of the afternoon. The big wingman was only to snare a small share of tosses from that pitching arm of FATSO. ds, Voluble Pat, and scat-back Stoukas caught the Coach's eye n their fine defensive play. . . Lefty Sickles, Jack Cummings and l on the gridiron, Bachar together with Falstaff Reynolds are doing apable job of officiating.

Left: Claire Emery, assistant professional at Congressional Country Club and present D.C. Open Champion, is a putt for a birdie on the first green. Right: Al Houghton, professional at Prince George's Country Club "alone" at a "golf clinic."

Tickets for GWU home games are available at the Recreation office at \$1.00 each.		
Date	Opponent	Place
19 Oct.	Wake Forest	Griffith Stad.
26 Oct.	Furman	Griffith Stad.
30 Nov.	Richmond U.	G.W. High Stad.
All games start at 2000.		

Margaret Rose McQuarrie

Waves Elect Maggie Sports Coordinator

Bethesda has its own "Margaret Rose" but in typical American fashion she's better known as Maggie. During working hours she is found in the prosthetic lab, Rm. 216, Bldg. 1 where dentures and partials are made.

Basketball fans will remember her as one of the regular forwards on the Waves team last spring and anyone who saw any of the Waves softball games this year will remember her as the only pitcher as well as one of the top hitters of the team.

Last month Maggie was elected as Waves Sports Coordinator and right now she is busy organizing a volley-ball team and making plans for bowling and basketball for this fall.

The five-foot-two-and-three-quarters DT3 is just about three thousand miles from her home in Seattle, Wash., where she graduated from Queen Anne High School. Later she lived in Pullman, Wash. while she majored in physical education for a year at Washington State.

After boot camp she became a dental striker while stationed at San Diego Air Station. Graduating from dental school at San Diego as honor student, she was transferred to the Receiving Station at Seattle.

Feb. 11, 1951, exactly two years after enlisting, she was assigned to prosthetic school here. At her graduation in August she was given another meritorious mast—this time for her extra-curricular work while a student.

For two years of her pre-Wave days she drove all types of vehicles for the Navy and then in February of 1949 she decided to work for the Navy from the inside, so went down and signed away three years of her life.

It was a decision she has never regretted, for as Maggie looks at it, "I learned a trade in the Navy that I would never have been able to in civilian life." And to prove she means it, this February will see her shipping over for six.

Harry Gold Sings For His Transfer

"I'm probably the only man in the Navy that has ever been transferred because he can sing. It all started, while I was a ward corpsman in the hospital, by my singing for the Protestant church services. I like to sing and wanted to be a Chaplain's Assistant, so I requested transfer to the Center Command to work for Chaplain Gatlin, a job that I like very much." That's Harry Gold, HN, USN of the Center Command talking.

Harry, a native Keystone state boy, was born, raised and educated in Alliquipa, Penn. After graduating from high school he worked in his father's office for a year. After that year he made up his mind that he didn't want to follow his father's foot steps by being a dentist, so he joined the Navy in Sept. 1948. He went through Boots and HCS at Great Lakes before coming to NNM in March 1949.

Harry L. Gold

Next to sports, golf and football, music and Italian food are Harry's favorites. Very active in inter-command sports, Harry is left end for the Center Commanches. He says that he wanted to play football in high school but the other men on the team out weighed him by 100 pounds so he didn't have a chance.

After football comes music. "I like any music that isn't hill-billy. Hill billy music has no depth; it doesn't show any original thought on the part of the composer." Before coming in the Navy Harry was a member of the DeMolay and a Past Master Counselor of his lodge.

As soon as his time is up in Sept. '52, or as soon after that as he is discharged, Harry is going to college to study the ministry. He says, "I want to be a minister because I feel that by being one I can do some good, and if possible I'd like to come back in the Navy as a Chaplain so that while doing good I can live good."

Cpl. Preston Hammerbacker, USMC, former patient of Ward 106, relaxes in the dentist's chair as LTJG George E. Sanquist, DC, USN drills out a cavity for filling with the latest thing in painless dentistry, the new "airbrasive method." Assisting Dr. Sanquist is Shirley Dennett, DN, USN.

"Airbrasive" Now Used by NDS

NDS is conducting research on the latest machine in dentistry—a machine which with the new technique called "Airbrasive," prepares teeth for filling without extensive use of a drill.

The machine, which was recently developed, is being evaluated by the Navy to see if its advantages justify the high expenditures involved in equipping Naval dental activities with these units.

An abrasive stream of aluminum oxide is sprayed through a nozzle under 100 pounds of carbon dioxide pressure. The powder, which attacks only hard surfaces, cuts away the tooth around the decayed area with greater speed than the ordinary drill. Eliminating heat, vibration, pressure, and bone conducted noise, the new method is less distressing to the patient.

Although the machine will not cut soft surfaces, NNM's dentists are doing extensive research to de-

termine the amount of tissue penetration of the gums.

A suction hood (a big pipe-like affair) is placed close to the patient's mouth and it picks up the dust and tooth particles. Many patients report feeling only a slight coldness in the tooth.

Requiring better visibility than the ordinary drill, the machine is especially adapted for lower and front teeth. In addition to cutting tooth structure, the machine can be used for cleaning teeth. A different kind of abrasive is used for this.

Real Joins Navy And Sees Marines

In his own eyes, Alvin Woodard Real, HM2, USN, Center Command guard mail petty officer, isn't much of a sailor. After nine years service he's had only two stateside stations and has never been ship's company aboard a ship.

Real's sea-going (??) life began Aug. 12, 1942, when he signed in San Antonio, Tex. After Boots and HCS and maternal ward duty at San Diego, he went to the FMF, serving with the 1st Marine Division from October 1943 till September 1945. While with the 1st MarDiv he saw action at Cape Gloucester, Peleliu and D-Day at Okinawa.

Back in the States in September 1945, he was discharged in November as PhM2c. But after four months of civilian life, Real made up his mind that it was the regular Navy for him, so he re-upped as a Slt. He was told at the recruiting office that BuMed wouldn't stand for him coming in as a Slt but he said that he'd give it a try as he was tired of being a PhM2c's Mate—he wanted to be a

Alvin W. Real

SK or a SK(D). Within a month he was an HAlc at the main dispensary, UNTC, San Diego, Calif.

From July 1947 til August 1948 Real was here at NNM assigned to the Western Union office—but as soon as the Marines needed corpsmen again he was on his way. This time he was flown all the way to pick up the 3rd Battalion, 5th Marines, 1st Marine Brigade at Pusan, Korea.—Just in time for the Inchon Invasion.

It wasn't till the second of December, after securing Seoul and getting surrounded at the Changgin Reservoir, that Real finally got wounded. It happened while he was attending to a Marine "with a belly ache"—He got a piece of shrapnel in the ribs knocking him down off the skyline—right on top of the Battalion 1st Sgt. The 1st Sgt. asked him if he was hit and Real said that he didn't know—and that he wasn't going to check because it was too cold to take his clothes off. So a day later when he got back to the Battalion Aid Station, and a war tent, he checked, finding that the shrapnel had chipped about an inch of one rib off—nothing more.

"In Korea blood plasma was so scarce that the company aid men were not allowed to carry it" said Real. "I saw men die of shock who might otherwise be living today if they had been given plasma soon after being wounded. One instance that I shall never forget is when I helped carry a wounded marine five miles to the Battalion aid station to get him some plasma—but by the time that we got there he was dead."

Crowned!

THE EYES HAVE IT. Here she is, men, Miss America 1952. Judges at the annual Atlantic City beauty pageant decided on the entry from Utah, Colleen Kay Hutchins. Yolande Betbeze (left) last year's title winner, places the crown on the 25-year-old national glamor queen.

Beckers Spotlight Review On Stage Tonight At 1800

Upper left: Bruce "Bubbles" Becker. Upper right: Gene Snead, a Ventriloquist. Lower left: Young, Vocalist.

view Cast Sports e Versatile Acts

The "Spotlight Revue" with the "Bubbles" Becker and his music orchestra plus five other and superb acts will present a one hour and a half show in the NMC auditorium at 1800 on Nov.

The vocalist is the exotic Toni Prather with her clever treatment of today's and yesterday's songs. With Anderson, who has appeared in Washington many times, will again show her star feats of prestidigitation which is simply sleight of hand.

A special incentive to the department is the acrobatics of the Prather.

Another headliner is Gene Snead with his ventriloquist act whose act is original and sparkling. The perfection of Buster Raye's singing is also well known and he is another headliner on the

music for this completely new 65 minute stage show will be furnished by Bruce "Bubbles" Becker and his orchestra. The show is free to all patients and staff.

Opera Guild Chorus Brings Talent Here

The Washington Opera Guild Chorus will present a concert in the NMC Auditorium Thursday, Nov. 1 at 1930.

The Chorus, sponsored by the Washington Opera Guild, Inc., is composed of promising young artists, both men and women, many of whom intend to make music their career.

Directed by Miss Dorothy Remington, the Chorus will present a lively program of classical and popular numbers which will include Romberg's "Silver Moon," "Wanting you," "Drinking Song," "Some Day" and "Deep in My Heart," Larg's "Granada," "La Danza" and "Largo al Factotum" by Rossini; Victor Herbert's "Romany Life," "Miserere" by Verdi; "I Love Life" by Malotte; Grever's "Bolero," ending with Faust Trio and Finale. Soloists for the evening are indicated in cutlines. (See picture on page 3)

This fine group of talented young people are not strangers at the National Naval Medical Center as they have presented many excellent programs for the patients throughout the wards of the hospital. However, this will be their first appearance for a full concert in the auditorium. Don't miss this unusual musical treat.

Seven Complete Course

Completing the three-months course in photofluorographic interpretation Oct. 15 were reserve doctors LTJG's F. W. Deck Jr., J. F. Strahan, S. M. Chernish, H. A. Cameron, D. D. Hanna, W. H. Spencer, and H. C. Wasson Jr. Most of the instruction was given at BuMed, while the doctors lived at NNMC and were attached to NMS.

News Shorts From the Editor's Desk

The United States Armed Forces in Korea Assoc. will hold a reunion Nov. 3 at the National Guard Armory. The big-time show features cocktails, dinner, dancing and stars of stage, radio and screen. The purpose of the reunion is to raise money for the Gen. Dean Scholarship fund and working fund for USAFK Assoc. Tickets for the show, dance and reunion are \$6.40 each. Tickets for the show only are \$2.40. All Korean veterans and friends are invited to attend. Tickets may be purchased from the Statler Ticket Mart, 14th and "G" Streets, N.W., Willard Hotel, and National Orchestra Ticket Office, 1330 "G" Street, N.W.

Free tickets for the National Symphony Orchestra at Constitution Hall are available for enlisted personnel at the Red Cross Recreation Office, Rm. 102. Dates of the concerts are: Oct. 31, Nov. 14, Dec. 5, Dec. 19, Jan. 9, Jan. 23, Feb. 6, Feb. 27, Mar. 19, and Apr. 2.

The Kopps Musical Varieties will present another show in the auditorium Nov. 11 at 1800. Those seeing the previous performances will vouch for the entertainment.

R. R. Eide, HMI, Assistant Editor of the NNMC News since August of this year, whose specialty was writing the "FMF stories," shipped out to Camp Lejeune this month for FMF duty himself.

The representative of the Navy Clothing Factory will be in Ward 101 again Nov. 7 from 1215 to 1445.

CAPT Alvin H. Grunewald, and CDR Robert Wolcott of NDS will leave Nov. 19 to present lectures before the Montreal Dental Club, Montreal, Quebec.

Purple Heart Award

RADM W. J. C. Agnew, CO, awards the Purple Heart to Alvin W. Real, HM2, Oct. 15 for injuries received in Korea on Dec. 2. Real is attached to NNMC Command.

Traditional Chow Troughs Initiate 16 Newest Chiefs

Melodramatic Play Slated Next Week

"The Petrified Forest," a thrilling melodramatic play, and Broadway and motion picture hit, will be presented at the Naval Medical Center Auditorium Tuesday Nov. 6 at 1930 by a cast from the Falls Church Community Center, Va. The play comes from a three-night run in Falls Church.

All action takes place in a restaurant and filling station near the Petrified Forest, where the paths of a philosophical hitch-hiker, a gangster, and a pretty, young girl cross.

Written by Robert E. Sherwood, the drama was first presented on Broadway in 1935, with Leslie Howard as the hitch-hiker and Humphrey Bogart as the gangster. Frederick M. Kerby, who has been active in dramatic work for 25 years, directs the present production. As an actor and director, Mr. Kerby has worked with various theatrical organizations and was a service director for the Army Times, Air Force Times, and Navy Times. He recently accepted the chairmanship of the U.S.O. Committee for the Bethesda-Chevy Chase area.

Appearing in the hitch-hiker role with the Falls Church group, is John Green, who has played recently in college and professional theaters.

In the feminine lead will be 16-year-old Tenny Jackson, who has already appeared in three other Falls church plays.

Cast as the gangster, Duke Mantee, is Paul Carmi, who won the individual best-actor award and appeared in "Present Laughter" which was presented by the Falls Church Group at this Command last year.

Above: The 16 new chiefs eat their noon chow out of the traditional troughs, Oct. 16 when the rates became effective.

Below: New chief Morton H. Beckley, of NDS storeroom, isn't suffering from a big head after his promotion—just a big hat.

Chiefs Pronounce 'Chow Excellent'

Much to the amusement of the crew, the 16 new chiefs were initiated Oct. 16 in the chow hall. Everything on the noon menu from soup to nuts, plus a dash of paprika, was mixed together in the 16 individually constructed troughs for the chiefs to eat.

Although not much credence is placed in their statement that it was "the best chow they ever ate," there were evidently no serious after-effects, for they were all on hand on the 19th when they sponsored free beer for the other chiefs in the Chiefs' Club before being issued their membership cards.

The 16 newest additions to the rate are: A. A. Thomas of NNMC; S. E. Shepherd of NH; R. H. Clark, T. R. Martin, L. A. Ruberg, and B. R. Sherman of NMS; M. H. Beckley of NDS; H. P. Cordova, P. P. Menard, and C. Schultz of NMRI; and C. K. Davidson, M. E. Ehle, W. J. Shaffer, A. F. Wadas, and B. C. Freeman of NSHA.

Meow! There's Really Nothing to It!

Not to be outdone, this cat gets right in the act as a would-be blood donor. Of course, it's just a publicity shot in the arm for lethargic would-be "human" blood donors. However, could be that the cat read the story below. Have you?

Old at 19

(by Armed Forces Press Service)

(Editor's Note: The author of the following article, Lt. Robert T. Fallon, of Richmond, Va., is now in an Army hospital recovering from five bullet wounds suffered in action in Korea.)

I want you to imagine for a moment that it is a very cold, wet wintry evening about 10 o'clock. You are on your cot on your barracks reading an evening newspaper. Just before turning in you decide to get a breath of fresh air.

The first thing you see is a great hole outside the door. Dirt has been thrown up all around it, outlined sharply against the white, even snow. Squatting in the hole is a hunched figure.

Let me tell you something about him.

He's been in this area now for almost a year, living in a hundred holes just like this one. The most apparent thing about him is that he is cold.

Every now and then he'll grab his shovel and dig a little deeper in the hole just to keep warm. That's the only way he has because he'll be seen if he builds a fire.

He's been cold and wet for a long time. He can't feel his feet, and he's getting worried because he's afraid they might be frostbitten. It's going to be a long night and it's going to get colder.

He's hungry, too. They didn't get his rations up to him until after dark and he couldn't build a fire to thaw them out. He looks old, with his beard and sort of hunched over posture. But he's only 19, though not like any 19-year-old you've ever seen.

What would you like to do with this man? Ask him in for a hot cup of coffee? Lend him your razor and let him take a hot shower? Give him a bed to sleep in instead of the dirt and cold of his foxhole? Sure you would! You wouldn't think twice about it. But I'm afraid you can't. He can't leave his position. Too many people are depending on him.

But you can't just stand there. There must be something!

There's only one thing that's possible. You can give that 19-year-old some extra insurance of returning home. That's all he cares about—that's all he dreams about.

He knows that if he is wounded (and he thinks about it often) the odds are that he'll recover. He knows he'll get the best medical attention in the world—and as much blood as he needs to recover.

He hasn't heard about the blood shortage. . . that the nation's reserve blood supply is critical. . . or about the drive underway for 3,000,000 pints of blood a month. He doesn't know and he doesn't care.

When he needs the blood he'll have it. He figures there are enough people stateside to donate pints for him and his buddies.

He's giving so much—risking so much—that he can't believe his country won't support him.

Maybe he'll be wounded by daylight. Maybe there will be the precious pint of blood—or maybe the supply in his area will be exhausted.

It's a question only you will be able to answer.

Navy Belles

By George

Many new faces at our house; they are coming in by the numbers now and our house is filling up fast. Welcome to Helen Niznanski, Ethel Weber, Kathryn Brown, Bethany Buelow, Ann Freeman, and Virginia Lux for Lab school. A special welcome for Barbara Hall and Ernestine Hawkins to Hospital staff.

Monday Oct. 22 the girls were all looking very gay as they went off to the staff dance featuring Claude Thornhill. They tell me they had a wonderful time. . . Tonight we are having a buffet supper in the recreation room in honor of our special guest, CAPT Joy Bright Hancock. . . Still making plans for the big picnic Nov. 1 at Rock Creek Park — bring your sweaters and come out for an evening of fun.

Connie, Heneritte, and I spent a wonderful weekend in New Bedford, Mass. at the Irene Ramos-Gene Keller wedding—a beautiful wedding. . . I wonder, how's the cooking, Gene?

Just around our house — Doris Stevens, Marie Varas, and Penny Pendleton packed their foot lockers and are on their merry way to Hawaii. . . Paula Manning, is out of the hospital; glad to have you back again, Sandy. . . A refresher course in math at our house; Ros has a front seat. . . Mabel Eller, Jerry Bourne, and Kathryn Yuhas are all wearing casts this month as part of their uniforms.

Bowling and basketball lists have gone up. Have you signed up yet? . . . The barracks sleepy-head is Tillie. . . We don't see much of Hammy any more since she moved out. . . How's the cooking, Hammy? Kathryn Yuhas finished OR school and is on leave. . . Salty and I have some of our Wave friends working in our departments now so we are on leave too.

Found out how it feels to be a civilian one day last week—see you when I come back from the heart of Maryland after spending some of that shipping over money.

Congregation Beth El of Montgomery County will hold services every Friday night at 8:15 p.m. in the Social Hall of the All Saints Episcopal Church, Chevy Chase Circle. All Service Personnel are invited to attend.

The services of Rabbi Harry Kaufman, representing the Jewish Welfare Board, are available to all Jewish Personnel and Patients at the National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, Ext. 324, or by call direct—Office: RA. 5371—Home: GE 0755.

The Chaplain's Corner

by Chaplain Bronnie E. Nichols

Watch Your Step!

"Watch your step!" is an admonition that is heard so often as to become trite, yet like many other sayings, it bears a message for each of us if we but heed its teachings. It is easy for us to see the physical necessity for the tight-rope-walker, or the structural steel worker on a sky-scraper, to "watch his step," and in our modern-day rush the pedestrian must be on the alert to survive. But our slogan for today has a far deeper and more significant meaning than that which is applied to the physical.

Holy Scripture says, "Christ. . . set us an example that we should follow in His steps." He said this for he knew that where ever we leave "footprints," footprints that shall become a path for others to follow to happiness or to sorrow, depending upon the direction we are traveling. Perhaps your footprints are not the first on the trail, but your "tracks" will make it easier for the next to follow, whether they lead upward or downward.

Watch your step today! For your own happiness and success depend upon the way you order your "steps" TODAY, for "tomorrow never comes." Great lives, like great buildings, are erected a brick at a time. Yet, before the first brick is laid, the architect must conceive of the completed structure and so order the builders. Do you dream of accomplishing great things, of climbing high on the ladder of success? Then it is important that you get a vision of those heights to which you would climb, and in careful, day-to-day living, select only the "steps" that lead to that goal. Some will say, "How am I to know which way to lead upward and which downward?" The answer is simple, just look to the "footprints of Jesus," if you see them follow on, if not, turn from that path, for if He never traveled that way, you are on the wrong WAY. He said, "I AM THE WAY". FOLLOW ME!

WATCH YOUR STEP TODAY!

Meet Your Executive Officer

Resourceful NMS Executive Officer Tells of Lab Without Microscope

Born in Prince Edward, Canada, CAPT William M. Silliphant, MC, USN, states he is an American by choice rather than by mere accident of birth. Adopting California as his home state upon entry into the country while a young man, he attended schools there, receiving his A.B. Degree from the University of Southern Calif., Los Angeles, and his M.D. from Leland Stanford Medical School, San Francisco.

Commissioned in the Navy in 1930 as a LTJG, Medical Corps, he interned at the U. S. Naval Hospital, Mare Island, Calif. Following this he served two years at sea, one as junior M.O. on the USS Colorado and one as Medical Officer of Destroyer Division 5.

His most exciting experience on that cruise was when on maneuvers one day with his Senior Medical Officer absent on leave. An anti-aircraft gun on target practice blew up on the USS Colorado, killing seven and injuring about thirty members of the crew.

Upon termination of sea duty, CAPT Silliphant was assigned to the Basic Refresher Course at the Naval Medical School, where he became interested in pathology and thereupon entered studies in that field. Detailed to the U.S. Naval Hospital, Chelsea, Mass. in 1935, in his first assignment as a laboratory officer, he has since held similar billets in many Naval Hospitals, including those at Pearl Harbor, T.H.; San Diego, Calif.; Great Lakes III; Canacao, P.I.; and Long Beach, Calif.

Arriving at Canacao about six weeks prior to the Japanese invasion of the Philippines in 1941, he served with the USAFFE in defense of these islands. Eventually falling prisoner to the Japanese, he suffered internment for 37 months, 33 of which were spent in Old Bilibid prison, Manila.

In Bilibid the Japanese permitted the establishment of a hospital for the prisoners of war, staffed mainly by captured U. S. Navy medical personnel. CAPT Silliphant (then LCDR) served simultaneously as Ward Medical Officer, Sanitation Officer, and Laboratory Officer.

Deprived of supplies and material with which to work, the internees learned to do much with little. CAPT Silliphant claims the distinction of probably being the only Naval Medical Officer to have run

CAPT W. M. Silliphant

a laboratory without the aid of a microscope and to have resorted to burying vaccines in the ground for their preservation, in lieu of refrigeration.

One of the surviving 16% of his original outfit, he was liberated on Feb. 4, 1945 when the American forces advanced into Manila.

Following a two-year tour of post-war duty at USNH, Long Beach, he was assigned as Director of Laboratories and Head of the Department of Pathology at NMS in May 1947, which billet he held until July 1951 when he became Executive Officer of NMS.

CAPT Silliphant is married to the former Jean Rice Morse of Seattle, Wash. CAPT and Mrs. Silliphant have two daughters, Mary Ruth, age 16, who attends Woodrow Wilson High in D.C. and Elizabeth Ann, 12, a student at Leland Junior High in Bethesda.

Dr. Silliphant is a Diplomate of the American Board of Pathology, a Fellow of the American College of Physicians, and a Fellow of the American Society of Clinical Pathologists. He is a member of the Phi Beta Pi Medical Fraternity.

Debbie Reynolds and Louise Albritton Entertain Patients On Ward

Left: Before touring the wards the group is greeted by RADM W. J. C. Agnew, Commanding Officer. Left to right: Mr. Hiser of the Hiser Theater in Bethesda, screen writer Mrs. Kellogg, Debbie Reynolds, RADM Agnew, and Louise Albritton.

Center: Debbie walks in on Ward 133 in the midst of their afternoon movie and steals the show as she sings and dances without her shoes. Right: Debbie chats with Carl N. Kerns, AT3, USN, in Ward 5-C while Willis V. Davis, CSG3, USN, looks on.

Debbie Steals Show Dancing Barefooted

A little girl made a big hit at NMC this month when screen star Debbie Reynolds entertained the patients on the wards. The 21-year-old Miss Reynolds, actress Louise Albritton, and screen writer Mrs. Kellogg, all in Washington for the celebration of Movietime, S.A., visited NMC Oct. 9.

Debbie sang, danced (often without her shoes) and signed autographs for the patients, as well as answering such questions as "Are you really the little girl in that movie?"

Debbie, who has appeared in the movies, "Two Weeks With Love," and "Three Little Words," told patients how she answers all her mail from servicemen personally. She received one letter from a boy overseas who told her he had written to her to win a bet. "Seems all his buddies had bet on their beer rations that she wouldn't answer."

"I sat right down," said Debbie, and sent him a couple of pictures. "A little note. A few weeks later I received another letter from him saying, 'I won the bet and I'm drunk for a week!'"

Miss Albritton, now the wife of Communist Charles Collingwood, visited many of the wards and talked with the patients. Attached to Universal International now, she is remembered for her parts "Sitting Pretty," "The Egg and the Fired Wife," and "San Diego Love You."

The Dental Equipment and Repair and Maintenance Class which graduated Oct. 12:

Front row (l. to r.) teaching staff: R. C. Mitchell, DTC; Paul H. Tanner; CDR F. E. Frates; O. P. Nagel, DTC; and R. F. Barton, DT1. Second row: H. B. Watson, DT3; J. B. Mason, DT1; H. H. Jamerson, DT3, and F. M. Maglicco, DT3. Third row: W. H. Cullum, DT1; R. E. Clark, DTC; J. F. Daniel, DT1, and J. D. Lindsey, DT2.

Dental Repair Keeps Honor Student

Francis M. Maglicco, of Brooklyn, was honor student of the Dental Equipment and Repair and Maintenance Class which graduated Oct. 12. Maglicco will remain at NMC for duty.

Twelve men are selected for each class. Completing their training they have learned a trade which they can use on the outside starting from \$300.00 per month.

This specialized group of men, of which there are 97 in the field

today, save the government money both in time and equipment, for with their skill and know how they enable the dentist to spend more of his time at the chair. They are trained to repair all makes of dental equipment in use by the Navy.

The six-month course includes both didactic and practical instruction, ranging in subjects from hydraulics and electricity to blue print reading and machine tooling.

Dr. Traub Instructs Bogota Students To Deal with Hoof and Mouth Disease

Under the auspices of the Food and Agriculture Organization of the United Nations, Dr. Eric Traub, Head of the Virology of NMRI, recently spent six months in Bogota where he acted as advisor to the Colombian Government in the diagnosis of vesicular diseases of animals, especially foot and mouth disease.

In order to carry on this work, it was necessary that a small, specialized laboratory be constructed, in which it would be possible to work safely with highly contagious viruses. When Dr. Traub left Bogota in September of this year, the construction and equipping of this laboratory was just about completed.

A full time course in Serological virus and type identification was given at the Instituto Nacional, to three students from the University of Bogota by Dr. Traub, with assistance from Chief Capps, also of NMRI, who contributed much to the training of these students and other personnel in laboratory methods and accurate work. These students were expected to take over the management of the laboratory after Dr. Traub returned to the States.

Studies of the distribution of vesicular viruses and their types were carried on in the field, and it was found that the main epizootic in Colombia is caused by Type "O", variant O₂ of the foot and mouth disease virus. Besides this, Type "A", variant A₂ was found as well as vesicular stomatitis, types "New Jersey" and "Indiana."

The initial assignment of Dr. Traub and Chief Capps by FAO was for four months, but at the request of the Colombian Government, their stay was extended by two months. Plans are now being made for their return to Colombia about Nov. 15, and this time, they hope to do much research on the foot and mouth disease problems.

Dr. Traub has been at NMRI since 1949. His studies here are chiefly concerned with research work on virus cell relationship and mechanisms of immunity of chickens to Newcastle disease virus.

A survivor of a torpedo ship was telling a horrified old lady of his terrible experience: "And, there I saw the torpedo, lady, coming for our ship!"

"Oh, dear," she gasped, "I do hope it was one of ours."

Clinical Laboratory Technique Class No. 16 Graduates; Salisbury Takes Top Honors with 94.8

Honor man for Lab 16 turned out to be honor woman Doris Salisbury, HM3, the only Wave in the class, who completed the 12-month course with a 94.8 average. M. M. Ritch, HM2, was second high in the class of 59 graduating Oct. 12, with a 93 average. Close behind him with 92.68 was W. H. Mackey, DT3.

Three members of the class were commended by CAPT J. L. Enyart, NMC Commanding Officer, for their work while under instruction.

HMC Albert K. Bartelt, and HMC Harold E. Le Fort were cited for assisting the instructors in preparation of materials for the class, resulting in the saving of considerable time.

Frederick Joyce, P2LA2, of the Royal Canadian Navy, was commended for his initiative, industry and thorough application to his work, which as the letter went on to say, "reflected high credit upon Canadian Naval Service."

First row: HMC W. C. Coles, parasitology instructor; HMC C. F. Blakemore, hematology and serology instructor; LT R. F. Jaeger, OinC, Lab School; CAPT J. L. Enyart, CO, NMC; CAPT W. M. Silliphant, Executive Officer, NMC; HMC D. Thrasher, biochemistry instructor; HMC E. W. Spangler, histopathology technique instructor, and HMC E. G. Allison, bacteriology instructor.

Second row: HMC Q. S. Coyer, HMC A. Bartelt, HMC V. H. Burnas, HN J. A. Yelich, HM3 S. B. Collinge, HN H. E. LeFort, HM3 J. E. Faulkner, HN J. E. Heckman, HM3 D. Salisbury, P2LA2 F. Joyce, HN J. B. Lamb, HM3 H. D. Griffin, HM3 G. W. Ferris, HM3 J. A. Garis, HMC H. Rostad, HMC N. S. Bogle, HMC M. F. Kelly, and HMC E. T. Ramos.

Third row: HM3 R. W. Coltey, HM1 B. E. Caughman, HM3 H.

Frey, HN I. Anderson, HN R. P. White, HN P. S. Buzby, HM3 W. H. Mackey, HM3 J. F. Bergner, HM3 P. A. Robb, HN R. E. Anderson, HM2 J. A. Boyle Jr., HN P. E. Drury, HN J. F. Reynolds, HN R. J. O'Neil, and HM3 J. R. Schroepfer.

Fourth row: HN B. R. Brogdon, HM3 B. T. Brogdon, HM3 J. M. Mosley, HM3 C. T. Goodreav, HM3 H. E. Ballard, HM3 J. H. Butler, HN J. L. Myrah, HM2 D. Van Schoonhoven, HM3 H. F. Keith (did not graduate), HM3 J. Elkins, HM3 R. T. O'Grady, HN H. D. Carr, HM3 R. P. Campbell, HM3 B. L. R. Spencer, HM3 B. C. Gregory, and HM2 W. E. McKinney Jr.

Fifth row: HM2 A. D. May, HM3 J. E. Reese Jr., HM3 W. H. Jernigan, HN L. A. Amicarella, HN R. L. Stephens, HM3 R. S. Truver, HM3 P. E. Trivel, HN J. W. Cannady, and HM2 M. M. Dietch.

CAPT Harbert, Chief of EENT, demonstrates speech reception testing apparatus to visiting doctors from Turkey. The doctors were especially interested in the research and teaching done here, as well as the equipment and technique employed in the labs.

Left to right: Dr. Emin Akaydin, biochemist; Dr. Fethi Tezok, bacteriologist; Dr. Chihat Borcbakan, surgeon; Dr. Hasip Altinsel, dentist attached to NDS; Dr. Necip Berksan, epidemiologist; Dr. Aziz Sevuktekin, physio-therapist; Dr. Osman Aker, pathologist; and CAPT Fred Harbert.

Dental Explorer

By C. Connor

Well, it looks as if the uniform of the day will be grass skirts and garrison caps for Varas, Pendleton, and Stephens who left us for the lure of the Islands.

In the stork department, it was a bouncing baby girl for Dr. and Mrs. Wilson; congratulation on the new addition.

All we have to say about CHIEF Beckley, is when it comes to the latest thing in hats, he's sure to be there first; he certainly caused a sensation with his latest.

Johnny come latelys are T. G. Cato, B. Fergot, and R. W. Ketchum; congratulations to all of you form all of us.

Beaver is going to have to give all the players on the team a dose of HADACOL; maybe then we can reverse the situation and come up with 26 for NDS and 0 for the hospital corpsmen.

Dr. Shipley was heard to make a very profound statement the other day when he came out with, "The saying used to be: wine women and song. Now-a-days it's beer, the old lady, and T.V." Wonder what Mrs. Shipley would have to say about that?

Well the big day has finally come for Roach; he is about to become a gentleman farmer. No longer will we have to turn the pages while he plays the music to the RECALL Blues. Good luck Mr. Roach (civilian, that is).

Irene can stop crossing off days now—she finally caught up with Gene. The bride wore white and looked lovely, but can't figure out who the poor fellow was who was dagging along, complete with ball chain, in back of her . . .

We'd like to take this opportunity to say Howdy to all the new repair students; hope you enjoy your tour of duty with us.

Lost one good mail man and MAA to the NAV Dispensary, namely Jack Voigt; lots of luck, Jack.

Well, guess I'll leave you for a while. Smooth sailing till next time (when my partner will be back)—The Gal from the HUB.

200,000 Gallons Keep Plumber Busy

Willis S. Armstrong

Did you ever stop to wonder how much water a reservation of this size uses? Well, the figures show that NNMC uses roughly 200 thousand gallons a month. That's a lot of water, and as Leading Man, Plumber, Willis S. Armstrong will tell you, that creates a lot of problems for the plumbing force.

Mr. Armstrong is in charge of the 16 men on the plumbing crew in Bldg. 110. On call 24 hours a day, they are called upon to cope with anything from a leaky shower to installing special apparatus for the research projects at NMRI.

Installing and maintaining equipment for X-ray, EENT, refrigerated developing tanks for the photo lab, dental equipment for the NDS chemical labs, and commissary equipment as well as installing drinking fountains on the golf course and maintaining the fire hydrants and sewer systems, are just a few of the routine jobs.

Mr. Armstrong, who has worked for the Navy nine-and-one half years here, is an ex-army man himself. Attached to the 2nd French Army Aero Park No. 5 during the first World War, when he was a sergeant first class in the Army Air Corps, he installed and tested plane motors.

But plumbing came first (he had been superintendent of Marquette Plumbing Co. in Chicago for 15 years before the war) and he went into civil service a few years after being discharged.

With 18 years in now, he has no definite plans of retiring, but when he does, he and his wife plan to do some traveling through the West and then settle down in Florida.

Not Much Research Involved

By R. Conaway

There have been many tears of farewell falling about NMRI this past week, occasioned by the rather sudden departure of some of the older members of the "Research Family." On their way to Camp Lejeune to don the "Marine Greens" goes J. A. Condomitti, HMI, A. J. Goepfert, HMI, R. D. Pearsall, HMI, R. Stehlin, HMI, and G. L. Keefer, Jr., HN. Soon to follow for assignment by Com-ServLant is W. G. Clutter, HMI, J. J. Devenney, HMI, and R. W. Ragland, HM3.

Aboard for duty is R. W. Degraw, HMC, J. G. Griffin, HMC, G. E. Maddox, HMC, T. E. Stephenson, HMC, G. M. Allen, HMI, M. E. Lane, HMI, J. A. Wilson, HM3 and H. R. Freeze, DA. LT B. R. Porter, MSC, USNR reported aboard for a two weeks tour of training duty.

I'm told that BKS 142 closely resembled a "Sewing Bee" with all the newly rated men getting those rates on in time for Oct. 16. R. Van Belois, more at home with a golf club than a needle, really burned the midnight oil trying to get that second class crow in place.

Seeing is believing—and it's a fact that Chief Carnecross was seen drinking TEA the other day. While on the subject of food, it seems that Chief Brooks, (husband of Hammy Brooks) is doing all the cooking at home. There is one gal who is breaking her man in the right way.

R. K. Burgess, HMI, late of the Personnel Office, dropped in on the crowd at NMRI to pay his respects. Bob is home for a few days in between trips to Germany.

Frank Sanchez wishes to say "Adios" to his many friends at the Institute and also the Hospital. He will be missed by all, but mainly at the Raw Bar, where he was a charter member.

And so it goes until next issue!

Diaper Derby

Oct. 11—Kim Anne Wilson, 6 lbs., 4 1/2 oz., new daughter of LTJG Thomas M. Wilson of NDS intern class.

Oct. 16—Raye Jean Houtz, 6 lbs., 15 3/4 oz., new daughter of Winsel Ray Houtz, HM3 of optical school.

Washington Opera Guild Chorus—(l. to r.) First row: Doris Conn (lyric soprano soloist), Lillian Geyster, June Shockey, Marie Janinek, Clyde Brantley, Mary Kreigh (soprano soloist), Jane May, Zoe Calevas (soprano soloist), Garnet Siple, Marion Caron, Helen McCarthy, and Kathleen Clardy. Miss McCarthy and Miss Clardy are LTs in the Navy.

Second row: Brad Haynes, Martin Carr, Robert Kreigh (baritone soloist), Donald Bell, Philip Vail, Jim Lucas, Charles Koepf, Robert Crockett, William Pruett (tenor soloist), Lou Dibble, John Damiano (soprano soloist and tenor, now plays first violin with the U.S. Army Band Symphonette and sings with the Army Band male chorus), and James Smith (soloist).

Other soloists for the evening not shown are Ben Gruker and Ruth Stanley (mezzo contralto).

NMS's Chemistry Technicians Class which graduated from their one-year course Oct. 5. HMC J. A. Bova was honor student with a final average of 91.3. HMI J. I. Myers was second with 85.4.

Front row: (l. to r.) LT M. E. Hodes, OinC Physiological Chemistry; CAPT J. L. Enyart, CO, NMS; CAPT W. M. Silliphant, Executive Officer, NMS, and LT D. Y. Cooper, OinC General Chemistry and Toxicology.

Second row: ENS G. S. Huber, instructor, HMI J. I. Myers, HMC C. G. Lombardo, HMC J. A. Bova, HMC M. S. Fortin, DT2 M. N. Nance, and ENS B. W. Garland, instructor.

Back row: HMC S. J. Rhett, and HMC T. E. Stevenson.

Dr. Clay Huff Elected Director Of Gorgas Memorial Laboratories

Dr. Clay G. Huff, Head of the Division of Parasitology, NMRI, was recently elected to a three year term as a Director of the Gorgas Memorial Institute of Tropical and Preventive Medicine, at the Annual Meeting held in Washington, D. C. on Oct. 10, 1951. The chief function of this Institute consists of directing the activities of the Gorgas Memorial Laboratory in Panama where Dr. Huff spent the month of June of this year as visiting Investigator.

Dr. Huff first came to NMRI in 1947, from the University of Chicago, where he was Professor of Parasitology. It was there that he began his work on studies on the exoerythrocytic stages of malaria. In collaboration with Dr. Coulston, he worked out the complete life cycle of one of the Avian Malaras within the vertebrae hosts. Subsequent studies have extended his findings to several other species of malaria.

During the war years, Dr. Huff and Dr. Coulston also were in collaboration on the study of human malaria, which was carried out at Stateville Prison, Illinois. In 1947, on the basis of these war time studies, Dr. Huff was granted the Theobald Smith Gold Medal in Tropical Medicine.

Dr. Huff is now engaged in the continuation and extension of his war time studies, in which many of the problems of malariology are being attacked from newer viewpoints, initiated by earlier studies. Previous concepts that malaria was entirely a blood disease have been

supplanted by the knowledge that some stages of the parasites live in fixed tissue cells. The program of his studies at NMRI include long term analysis of the part played by the tissue stages of malaria in the pathology, immunology and chemotherapy of malaria.

At the present time, Dr. Huff is Secretary of the American Academy of Tropical Medicine, Consultant to Camp Detrick in medical entomology and a member of the Study Section on Tropical Medicine of the National Institutes of Health. Dr. Huff is author of "A Manual of Medical Parasitology" and co-author with Hegner, Root, and Augustine of "Parasitology."

Professor of Surgery Presents Guest Lecture

Dr. Sumner L. Koch, M.D., Professor of Surgery, Northwestern University Medical School, Chicago, Ill., and attending Surgeon at Passavant Memorial Hospital, was guest speaker at the second of the 1951-1952 NMS Guest Lecture Series in the NNMC auditorium Friday Oct. 26.

Dr. Koch spoke on "The Treatment of Injuries of the Nerves and Tendons of the Hand." Injuries of the hand are by far the most common of industrial injuries and among the most common of accidental injuries. As with all compound injuries, the outcome depends first of all on the primary care the injured patient receives.

Coach's Corner

Nature's Paintpot, the autumn extravaganza of the NNMC Arboreal is now playing in the amphitheatre: Fairways Seven, Eight, Nine. Local thespians cast in the leading roles, are Sycamore, Oak, Elm and Poplar whose handbills are continually being distributed; russet harbingers of the snow to come. The choral arrangements of blade, petiole, and stipules provide nature's background when ed into sound by a passing northerner and on occasion the leafy press is broken by the caw of an angry crow and the scampering of ridae as he carries acorns to his winter's food locker. Elsewhere on the local campus, play in the annual station champion-came to an end with R. Ware taking the scepter from Sweet-ging William.

CHAMPIONSHIP FLIGHT			
King, W. D.	King		
McMillan, C. H.		Burke	
Anderson, LeRoy	Burke		
Burke, W. J.		Ware, R.	
Blackstone, C. H.	Ware		
Ware, R.		Ware	
Frates, F. E.	Frates		
Chapman, R. C.			

Play in the above flight was limited to those who qualified with s between 72 and 80. In every match birdies were no rarity, on occasion, two in a row were only good for halves, winners received clasps on margins of one up and two and one. Bobby Ware, the er, displayed steady iron play coupled with beautiful stroking on arpet, to win over Bill Burke in the gruelling 36 hole final, played e day.

FIRST FLIGHT			
Riesenberg, Willie	Riesenberg		
Hornbuckle, T.		Riesenberg	
Atkin, J.	Graves		
Graves, H.		Riesenbefg, W.	
Canada, R. O.	Canada		
Millard, Roberto		Canada	
Hogan, B. W.	Burkinshaw		
Burkinshaw, J.			

Captain Hogan, genial skipper of the Hospital, took Lefty Burkin-to the nineteenth in a ding-dong match, making Lefty post a bird e handshaking. Jiggs Canada, also took on a portsider in Betarm rd, former slab-ace of the University of Oregon, to win first l honors. Jiggs continued in his winning ways with that magic anning them from off the apron to take Burkinshaw into camp. other end of the bracket found Willie Riesenberg administering ount to Hornbuckle and Greaves before engaging Canada in the Final matches in all flights except the Championship Flight were the distance of 18 holes. Willie found the fairways to his liking aturday and received the congratulations of Jiggs on the eighteenth.

SECOND FLIGHT			
McGuckin, J.	Crawford		
Crawford, J.		Doohen	
Doohen, D. J.	Doohen		
Dever, J. A.		Doohen, D. J.	
Kean, Donald	Kean		
Outko, M.		Kean	
Van Belois, R.	Dorosz		
Dorosz, M. C.			

a Crawford, who developed his slice while playing in Java with SS Blackhawk for a residence, took the measure of McGuckin irst round fray, while Serge Doohen, a Korean veteran, hobbled in the opposite bracket. D. J. gained the finals over Jim by ex-g a feather touch on the creeping bent. At the other end of the e, Theodolite Kean, the new Public Works Officer, had no trouble ring the horizontal and vertical angles of the nine hole layout in g an early win over Dutko. The local gendarme, Chief Dorosz, ed past Van Belois to engage Don Kean on the following day with ick handcuffing the Sheriff with a pair of birdies. D. J. Doohen into the winners circle by subduing Don in the eighteen hole employing a wedge.

THIRD FLIGHT			
Morse, H. R.	Morse		
Sanders, M. C.		Teter	
Teter, D. E.	Teter		
Shiple, N.		Teter, D. E.	
Gaillard, R. A.	Hering		
Hering, A. C.		Bachar	
Bachar, J. S.	Bachar		
Snyder, B. S.			

eter, known to his golfing pals as Woody, mashed his way into the over the tee shots of Morse and Shipley. Coming up from the bot of the pile, Honest John Bachar, a pupil of Locke Johnson, edged Snyder and Hering to pair off against Teter. Hering encountered le in the form of Richie Gaillard who was doing his best to uphold onors of EENT, but Dick lost out to ten foot putts. Nip and tuck est describe the final match between Teter and Bachar, the latter have used a little of that luck, which won a Ford Sedan on a ten icket, going into sixteen.

(Continued on Page Six)

NNMC Personnel Watch Fire Fighting Techniques

In observance of Fire Prevention Week (Oct. 7 through 13), NNMC's fire fighting equipment was demonstrated Oct. 12 in front of Bldg. 123. LCDR Stuart, Deputy Fire Marshal; Mr. Schweitzer, Fire Chief, and the 16-man civilian employee fire fighting force cooperated with the Bethesda-Chevy Chase Rescue Squad to stage the demonstration, which was viewed by personnel from all commands.

Upper left: NNMC's fire department controls and extinguishes a gasoline and oil fire by the use of high pressure water fog nozzles.

Upper right: Here they demonstrate the control and extinguishing of a gasoline and crude oil fire by use of the standard CO2 fire extinguisher.

Lower left: The Bethesda-Chevy Chase Rescue Squad demonstrates a simulated removal of injured personnel from a barracks building by means of collapsible litters. LCDR Stuart and Fire Chief Schweitzer (extreme right) watch the proceedings.

Lower right: RADM W. J. C. Agnew inspects the emergency fire fighting equipment.

Center Commanches Win Third Crown

RESULTS			
Center	12	X-Ray	0
N.P.	12	X-Ray	0
Center	26	Dental	0
N.P.	7	Dental	6
STANDING			
Center	4	0	1.000
N.P.	4	1	.800
X-Ray	2	2	5.00
Dental	0	2	.000
Research	0	2	.000
hys. Med.	0	3	.000

Center's Commanches garnered their third straight Intramural Touch Football crown as they completed an undefeated, untied and unscored-on season. Lacking the services of their captain and ace slinger, "Curly" Brothers, the champions showed a loose brand of ball in the first half of their meeting with X-Ray. But in the final half they shifted to the wing of "Pat" White who found "Spring-fee" Funk for two tallies.

Brothers was back in the lineup in the fray with Dental but the hero of the day proved to be "Scat" Stoukas who ran for two TD's

Rivals Beat Waves In Volleyball Meet

The local Waves lost their volleyball match to the Quarters K Waves last Tuesday night, losing two of the three games in the contest. Playing their best game to date, the Admirallettes took the first game 17-14, but went down in the next two 25-15, and 26-19.

In a game that was outstanding for its long volleys, Bethesda lost most of its points because of back-row weaknesses. Accurate and consistent in first and second row play, the team has its greatest difficulty in controlling deep serves into its back row.

and passed for another.

N.P. gathered the runner up slot by easily downing X-Ray who were playing without their excellent tosser and defender, Fisher. They followed up with a thrilling 7 to 6 nod over Dental. In the latter game, Dental showed a brilliant offense and threatened often but N.P. had the gate closed within their 15 yard line. The margin resulted from a neatly executed pass play, Kubier to Goda.

Center Chatter

By Frank Winn

The Center Commanches have completed their football season with a very impressive 26-0 win over Dental. In a game that never was a runaway at any time, the Brothers to Funk combination clicked continually for steady gains. The running of P. G. Stoukas and John Woods was particularly outstanding. Stoukas scored once on a 25 yard run around end. Blocking was superb. On several plays, nary a man could be seen left standing in front of the ball carrier.

It now shows up that the Center Command team has been scored upon only once in the last two years with this year's team going undefeated and unscored upon. Next year may be a different story, however, as the Brothers-Funk combination will graduate into civilian life before another year rolls around.

Fond farewells have been bid to our departing comrades for FMF. V.S. Obos, P. G. Stoukas, Dick Caton, R. Eide, Webster, and Jim Moler have all left to exchange the Navy Blues for Marine Greens.

Tom Brothers has returned from the basketball coaching school at Bainbridge with a head full of new ideas for the coming basketball season. One thing can be sure, with Tom at the helm you will see a hustling Varsity team on the hardwoods this coming season.

The schedule that has been arranged poses quite a challenge as it lists such powers as Quantico Marines and NTC Bainbridge. Every one is welcome to try out and will be given fair chance to make the team. If you are even an average ball player but possess the fire and ambition to really play hustling ball, come out and let Tom have a look.

Instructor: "I will not begin today's lecture until the room settles down."

Voice from the rear: "Go home and sleep it off."

NNMC VARSITY BASKETBALL SCHEDULE	
1951 - 1952	
Dec. 4	at Ft. Myer
Dec. 6	at N.A.S. Anacostia, D.C.
Dec. 11	Ft. McNair
Dec. 13	at Marine Barracks 'QUARTERS K'
Dec. 18	N.T.C. Bainbridge, Md.
Dec. 20	at Marine Barracks "Receiving Station"
Jan. 3	Naval Photo Center, NAS Anacostia, D.C.
Jan. 8	Arlington Hall
Jan. 10	at Ft. Meade
Jan. 15	at Receiving Station
Jan. 17	NAS, Patuxent River, Md.
Jan. 22	Ft. Myer
Jan. 24	NAS Anacostia, D.C.
Jan. 29	at Ft. McNair
Jan. 31	Marine Barracks
Feb. 5	at NTC Bainbridge, Md.
Feb. 7	Marine Barracks
Feb. 12	at Naval Photo Center, NAS Anacostia, D.C.
Feb. 14	at Arlington Hall
Feb. 19	Ft. Meade
Feb. 21	Receiving Station
Feb. 26	at NAS Patuxent River, Md.
All games start at 2015. Those in bold face are home games.	

COACH'S CORNER (Continued from Page 5)

FOURTH FLIGHT

Grunewald, A. H.	Sperry	
Sperry, L. D.		Sperry
White, Pat	White	
Lieurance, R. E.		Giorgio, D. J.
Barriekman, R. V.	Barriekman	
Dennis, H. J.		Giorgio
Giorgio, D. J.	Giorgio	
Dunn, J. C.		

Lowell Sperry, who answers to the handle of "Assistant Pro" had to side step the pars of Alvin Grunewald to win a first round engagement, trip up Pat White, mainstay of the base-stealing Admirals, to put his foot in the finals. Jackson Dunn succumbed to the ethereal vapor manufactured by the Giorgio putter. Finding the mixture to his liking, our popular anesthetist employed same on Lowell to gain the victor's trophy.

FIFTH FLIGHT

Silberstein, V.	Hotvedt	
Hotvedt, D.		Nelson
Nelson, M. A.	Nelson	
Millburn, R.		Berley, F. V.
Henderson, W. C.	Berley	
Berley, F. V.		Berley
Nelson, W. A.	Nelson	
Eilderton, T.		

Digits Silberstein was sidelined in a first round canto by the per-simmon of Chief Hotvedt who in turn bowed to the pride of the NHSA, M. A. Nelson a sweet-sticker in his own right. Coming in from the other end of town we find Satchel Berley pivoting his anterior superior iliac spines past Henderson and Samba Nelson. At this time of the year the foliage of New Hampshire is somewhat akin to that of 7, 8 and 9 causing Samba to forget that he was playing golf against a tough customer in the personage of Satchel Berley. The good doctor slipped the stiletto to Chief Spangler on the seventeenth to herd home the bacon.

SIXTH FLIGHT

Spangler, E. W.	Spangler	
Berry, W. P.		Spangler
Biele, E. E.	Biele	
Reynolds, J. M.		Carr, C. R.
Warden, H. D.	O'Malley	
O'Malley		Carr
Carr, C. R.	Carr	
Evans, E. F.		

Every match in the Sixth Flight see-sawed from the opening round to the finals. Chief Spangler started the fireworks with a win over Berry, thanks to crisp iron play, to meet on the first tee Big Ernie Biele, a close winner over Falstaf Reynolds. Spangler's knowledge of the undulations of the back carpets proved the margin of victory over Big Ernie. From across the tracks came Rankin Carr, winner over Earl Evans in a par versus birdie match, victor over O'Malley, to tangle with Spangle in the finals. Rankin edged by Spangler in the woods to receive the handclasp on eighteen.

SEVENTH FLIGHT

Megan, W. F.	Stevens	
Stevens, R. L.		Stevens
Wetzel, T. L.	Fowler	
Fowler, N. E.		Moffatt, J. S.
Robb, P. A.	Moffatt	
Moffatt, J. S.		Moffatt
Funk, G.	Funk	
Leonard, R. W.		

Stevens booming tee shots smashed his way to the finals through the offerings of Megan and Fowler while on the other side of the board, Moffatt wedged his pitches too close to the stick for Robb and George Funk. George is a first year man in golf, a natural unassuming athlete who was a tower of strength rebounding off the backboards for the Coach's Casabans. To win over Stevens, Moffatt called upon the services of his trusty wedge to gain the winner's trophy.

EIGHTH FLIGHT

Cartier, B.	Bode	
Bode, R. H.		Bethoulle
Utle, T. J.	Bethoulle	
Bethoulle, A.		Bethoulle, A.
Winn, F. N.	Mitchell	
Mitchell, R. C.		Beckley
Roach, O. B.	Beckley	
Beckley, M. H.		

Shutters Bethoulle spends every noontime, weather permitting, on the grass behind Bldg. 122 practicing chip shots to ash can covers under the tutelage of Lefty Burkinshaw. The payoff, is in the fact that this neophyte in his first year was able to take the measure of Tiger Beckley, popular sports figure in the final marker of eighteen holes. To reach the pedestal, Shutters tripped up Bode and Utle while his fellow finalist subdued Spider Roach and Burhead Mitchell, a couple of fellows who carried their matches to the last hole.

W. Hawkins Downing the Golf Professional engineered all matches

(Continued in Next Column)

New Mouthpiece from Dental Staff Saves Wear and Tear on Athletes

When you see the Navy football team or the University of Virginia football team in action this fall, remember that nearly every one of the players is wearing a special custom-built mouthpiece designed and invented by Naval Dental School staff members.

CDR J. V. Niiranen, DC, USN, and CDR J. J. Towle Jr., DC, USN, inventors of the new mouthpiece, were both appalled by what happened to players' teeth during the 1950 season. Four thousand men, in sixty-two of the country's major colleges and universities, participated in football; seven hundred thirty-three of them had teeth either knocked out or chipped off.

CDRs Niiranen and Towle decided to do something about it, so they invented a resilient plastic interdental splint (mouthpiece, that is) which is made to order for each player.

The standard rubber mouthpiece used by boxers and other athletes is, as CDR Niiranen says, "as ancient and ineffective as a square wheel." It is easily dislodged, uncomfortable to wear, impossible to talk through, and it makes breathing difficult.

The improved mouthpiece devised by Drs. Niiranen and Towle is made of a resilient vinyl resin. It fits snugly against the teeth and soft tissues, and can be worn for long periods of time without discomfort.

It is so constructed that the pressure of normal occlusion, and like-

wise the force of a blow, is distributed to all the teeth, thereby greatly eliminating the possibility of chipping them or knocking them out. There's no difficulty in talking while wearing it. Through a series of dental procedures, each mouthpiece is made to fit one and only one person.

No wonder boxers and football players are enthusiastic about the new mouthpiece. It is even rumored that our Coach has a half dozen on order for himself; it seems he wants to save wear on his teeth as he makes his frustrated way around the golf course.

With adoption by outstanding athletic authorities, the new mouthpiece is obviously headed for wide usage.

Two little boys discussing their hospital experiences:

"Are you medical or surgical?"
"I don't know what you mean."
"Were you sick when you arrived, or did they make you sick after you got here?"

in a most capable fashion ably assisted by Lowell Sperry and Victor Opos. Orders are in for the latter pair and we who have enjoyed, the pleasure of playing on the local nine owe a terrific debt to their good nature, patience, and cooperativeness. The men were told to keep the Golf Shop like Bldg. 122 and that they did, sometimes not finishing till ten at night. All hands wish you both Good Luck and smooth sailing.

Add Bill Cole, a long ball hitter, Chief Fortin, master of the approach to the aforementioned in the championship flight and NMC could tee a par-shooting team against local golf clubs in the Maryland association.

Irving D. Falik, HMI

Irving Falik Tells Unique Sea Stories

Having big feet might not always be considered a blessing, but it kept Irving D. Falik, HMI, out of the Fleet Marines. Falik, who is projectionist for instructional movies at NSHA, completed his training for the field medical service corps at Camp Lejeune, N.C. He wears a size 13 triple A shoe, and when the marines were unable to fit him, they sent him back to USNH Philadelphia for duty from where he transferred here in June.

Falik's background as a hospital corpsman is unique too. Born in Simpson, Penn., he obtained his B.S. in Business Administration from the University of Scranton. Enlisting in the U.S. Guard in July 1942, he served almost three years and participated in the invasions of North Africa, Marshall Islands, Guam, Palau, Leyte Gulf, and Iwo Jima.

After three weeks boot at Manhattan Beach Training Station, N.Y., he went aboard the USS Joseph T. Dickman as an apprentice seaman. The ship was manned entirely by Coast Guard except for the doctors and corpsmen who were Navy. Eight months later he was selected for Pharmacy Mate's School at Columbia University in N.Y.

As might be expected, he didn't meet his wife in the usual fashion either. On a five-day leave, due to report to his DCGO for assignment on Sunday noon, he came to New York a day early to keep a Saturday night date. On route to the subway he met a girl named Lila Babin who wouldn't tell him where she lived. Falik, determined to know her better, checked the phone book, found two Babin listed, called the first one, which turned out to be correct, and received an invitation to come to her home.

Five months later he went overseas, but a year after his return, he and Lila were married on the fourth of July. She lives in New York now with their two-and-one-half-year-old son, Bruce Seley.

Discharged in 1945, Falik was employed by the Treasury Department as Internal Revenue Agent in New Jersey. Early last year he joined the Naval Reserve and was called to active duty last September. "My chief aim," says Falik, "is to get out and get back to making sure everyone pays their just due to Uncle Sam."

Chief: "I just heard of a baby that gained 20 pounds in one week on elephant's milk."
HMI: "Stop kidding me. What baby was it?"
Chief: "The elephant's."

She: "I've changed my mind."
He: "Does it work any better than the old one?"

HMC Eric Taylor 'Strikes It Rich'

"One good turn deserves another" is the apt expression for HMC Eric Taylor's fortune in striking a \$440.00 gold vein on CBS' "Strike It Rich" program last Monday.

One week earlier, Chief Taylor, on leave in New York City, was enjoying this same program in audience with his sister-in-law. One contestant stated that she was trying to win in order to buy some double deck bunks for her seven children. Chief Taylor promptly went backstage and offered the woman two bunks.

The program officials called for the popular Chief at the conclusion of the show and learned that Taylor was manager and treasurer of the CPO Club here. Their discussion led to his audience participation card and the CPO sponsored Xmas party. It was decided that an ample reward for the Chief's generosity would be the opportunity to "Strike It Rich" and help pay the party costs.

Chief Taylor "hit paydirt" by answering all queries. He is now back at his desk planning a good time for the kiddies.

Typing Class Convenes

The Naval School of Hospital Administration has provided instructors and facilities for the instruction of NNMC hospital corpsmen in touch typing. In order to meet the demand for typing instruction, NSHA has made available 25 typewriters for practice typing from 1630 to 2100 Monday through Friday. Formal instruction in typing will be given in Bldg. 141 on Saturday mornings from 0900 to 1100.

News Shorts From the Editor's Desk

Shipping over for six last month were Phyllis E. McElfish, HM3 of the Physical Therapy Department and James J. Kellner, HM2 of the Radio Isotope Department.

A sport show including tumbling, boxing and acrobatics will be presented by the Bethea Welch Veterans of Foreign Wars Wednesday, Nov. 14 at 1900 in the NNMC auditorium.

CWOHC R. C. Meyers, of the Naval School of Hospital Administration has been voluntarily conducting evening lectures in the Principles of Accounting in the Auditorium, Bldg. 141, for the benefit of those students who are experiencing difficulty in this subject. It has been gratifying to witness the turnout.

Five officer instructors of the Naval School of Hospital Administration have taken on the additional task of giving lectures to medical officers, who are attending the basic course in Naval Medicine, on Finance Division Management, Personnel Records Division Management, Maintenance Management, Civilian Personnel Management, and Food Service to familiarize the students in facilities provided by these services in naval hospitals.

Robert George Voorhees, HM3, USN reenlisted for six years. The Oath of Acceptance was administered by CAPT J. L. Enyart, CO, Med School where Voorhees, a laboratory technician, is on duty in the Bacteriology Department.

COs of Various Commands Greet the Royal Prince

Vice Admiral Prince Bernard, Inspector General of the Netherlands Royal Navy, visited NNMC Oct. 25. He was accompanied by his Chief of Staff, Captain G. N. H. Barron van Till, and his personal aide, Lieutenant Commander A. F. Elbers. CAPT P. H. Brady, USN acted as his U. S. Naval Escort.

Prince Bernard's party was greeted by the Commanding Officers of the various commands here before touring the Medical Center. Rear Admiral W. J. C. Agnew, CO, NNMC; LCDR F. S. Haslam, Administrative Officer, NNMC; and CAPT B. W. Hogan, CO, NH, accompanied the visitors on their tour of the station.

Chief Anderson Sworn In As WO In NSHA Ceremony

D. K. Anderson is sworn in by NSHA's Commanding Officer, CDR M. E. Zimmerman.

Radioactive Isotope And Special Weapons Course Convenes Nov. 26

A six-day course of instruction in Medical Aspects of Special Weapons and Radioactive Isotopes will convene here Nov. 26. The course, the first in fiscal year 1952, conducted by CAPT J. L. Enyart, Commanding Officer of the Medical School, is given primarily for the benefit of inactive medical department officers of the Naval Reserve.

Problems most likely to be confronted by medical personnel and techniques to be employed by them in the field of radioactivity will be discussed during the instruction period. The various subjects will be presented by guest speakers, each of outstanding prominence in his specialty, and will be of interest to all medical department personnel.

Inspection of Personnel of NNMC Effective Nov. 3

Effective Nov. 3, 1951, military inspection of enlisted personnel, attached to all commands, will be held on the second and third Saturdays of each month.

The uniform will be Service Dress blue Baker with gray gloves for officers and Service Dress blue Baker for enlisted personnel until Nov. 19. After that date, the uniform will be Service Dress blue Able with gray gloves for the officers, and Service Dress blue Able for enlisted personnel.

On specific dates, later announced, all personnel will be assembled in the NNMC auditorium following each inspection for an explanation of certain parts of the Uniform Code of Military Justice.

Second Trip to WO For Pacific Veteran

D. K. Anderson was recently appointed WOHC in a ceremony in the commanding officer's office at the Naval School of Hospital Administration.

This is the second time Mr. Anderson has been appointed warrant officer. The first time he served as WOHC from March, 1945 to August, 1946. He first enlisted in the Navy in December, 1934, in Minneapolis, Minn. During World War II, he participated in a number of the invasions in the South Pacific while serving on board the USS Hornet.

Mr. Anderson left the Administration Staff, Commander Service Force, Pacific, in July, 1949 to join the staff here at NSHA, where he has been instructing in clerical procedures. He is now awaiting orders.

Coleen Gray

'The Moon Is Blue' comes Next Week

Realizing the dream of the Washington Hospital Committee of the American Theatre Wing to bring Theater to hospital patients, "The Moon Is Blue," a three-act play starring Coleen Gray, Hirschman, and James Young, is presented in the NNMC auditorium at 1300 Friday, Nov. 23. Patients themselves will participate indirectly in the performance by building the stage settings. The play, Coleen Gray, is known for her roles in "Ridgely" with Bing Crosby and "Nick Cain" with George Hearn and James Young, are Navy veterans.

Coming directly from the Gayety stage, the cast and compromise an afternoon of entertainment to all patients and staff who are able to

Netherlands' Prince Bernhard and Party Visit NNMC

Rear Admiral W. J. C. Agnew explains NNMC's points of interest to Vice Admiral Prince Bernhard of the Netherlands Royal Navy and group. (l. to r.): Rear Admiral W. J. C. Agnew, Lieutenant Commander A. F. Elbers, Vice Admiral Prince Bernhard, and Captain G. N. H. Barron van Till.

Birth of November

October moon like a golden pendant
Swinging from a midnight sky
Spilling red-gold madness on a world asleep,
Casting eerie shadows where the darkness lie.

Spreading over slumbering fields
Your wanton light; shaping barren trees
Into grotesque and bizarre forms,
That lift tortured arms to evening breeze.

Then dipping down to rivers far below,
You gaze with rapt expression at the sight
Of the evil beauty of your shining face
Surrounded by the blackness of the night.

For this is the Eve when specters are about,
And goblins from all corners of the earth
Meet in silent graveyards to discuss
Plans for witching mortals, with ghoulish mirth.

And Jack-O-Lanterns grin in wild delight
To see the witches on their corn husk brooms
Riding through the darkness of the night
Framed in silhouette against the moon.

Then sinking fast, moon's waning light gives way
To a waking sun—red as a smoldering ember
That slowly grows into a new born day
Allhallows, the first day of November!

—R. Conaway, NMRI

Dental Explorer

By C. Connor

It looks as if our loss is Naples' gain as we bid Bon Voyage to Jack Cummings, CHIEF Beckley, and Bob Ketcham, who will join CDR King in sunny Italy for their next tour of duty.

It has been rumored that one of our doctors is quite an expert when it comes to fried chicken, steaks and other tasty tidbits. I won't say who but he is sure tall, and is slightly worn and torn from doing annual physicals, guess who? P.S. We'd sure like a sample.

It's good to see that Shirley Den-net and Marian Habel are back to roost again after a much envied week in Cape Cod (MASS. that is—). We sure missed you gals about the old homestead. All that's missing now is one Delores Amott, with her bubbling laughter; hope she'll be back again soon.

Building 122 sure has some smooth operators on their side of the house; Mountain and Cour have been seen mingling with the local natives, and I do mean mingling, (Brunettes Yet).

What corpsman (Rm. 162) has been seen buying ultra-sheer nylons for what certain redhead these days, mmmmm ??? mmmm. . . . Sounds interesting, how about some details?

The PGs are all squared away on their next duty stations now,

sure hope everybody's happy (what are we going to do for the latest in the joke dept., when CDR Shipley leaves us ??)

Wonder what happened to that pipe that Dr. O'Malley was sporting? He almost resembled the man who switched to you know what. Not only that but the pipe sure smelled better than the cigarettes.

Dr. Bishop is back with us again after a sojourn at Memorial Hospital in N.Y.C. and CDR Blackstone is replacing the troops. He left us last week for the big town.

Nothing new in the stork dept. but Dr. Evans sure has this gal chewing her fingernails, waiting for the phone to ring. (It's going to be a girl you know; it's a command and not a request.)

Wonder why Cato watches for Illinois postmarks in the mail every day? She sure must be cute, Mr. C.

Anyone desirous of dancing lessons consult Rogers. Such talent! And right under our noses too.

If you're not doing so well in the mail department lately just give our new MAA and mailman (Chuck Farthing) the word. True to his duties he will see to it you will receive one especially from him. Louise Reynolds was the first to find this out.

It looks as if Mr. Anderson and

Governor McKeldin Speaks at Meeting

Maryland's Governor Theodore McKeldin spoke at a meeting of the Men's Organizations of the Bethesda Churches in the NNMC auditorium Oct. 24 at 8 p.m.

In a short welcoming address, RADM W. J. C. Agnew assured the group of Bethesda's leading citizens that the National Naval Medical Center staff desired to be a part of the community and would participate in city activities as far as we are permitted to do so.

Crew's Library

New Books Offer Varied Reading

Since there are less than 50 days before the new year, it might be well to prepare for it. One way would be to read Will Cuppy's *How to Get From January to December*. This is an unorthodox almanac which includes such tidbits as what to do when you feel Mondayish on Tuesdays and how to coax moths to eat old tuxedos, as well as many other miscellaneous items of amusement. Another book strictly for laughs is Max Shulman's *The Many Loves of Dobie Gillis*. Like his famous predecessor in Barefoot Boy with Cheek, Dobie had assorted misadventures at the University of Minnesota and there were girls, girls, girls. Blondes, brunettes and redheads with names like Pansy, Thalia, Clothilde, and Poppy cavort through these pages, so if you're a Shulman fan, you will want this!

For the serious minded, there is *Head Over Heels* by Monsignor Sheehy, former Naval Chaplain, now head of the Religious Education department of Catholic University. His book, subtitled *A Guide for the Better Self*, is honest and readable, simple, helpful and witty.

Retire And Be Happy has just been published and in it Irving Salomon will answer all your questions and guide you to a retirement that will "add years to your life and life to your years." He considers your interests and capacities, your state of health, your wife and family, your personal philosophy and your aptitude for contentment.

Mr. Ferguson are running a race to see who can burn the midnight oil the longest. From where I sit it's pretty close, but I think Rm. 160 is taking the lead.

P.S. Yours truly was in for quite a treat, as one Mrs. Connor came all the way from BOSTON to see the sights in D.C. and Md. She really had quite a fine time.

Till next time, smooth sailing to all hands from The Gal From The HUB.

The Chaplain's Corner

by Chaplain John J. McGowan

A Sense of Humor

Nothing should ever be so serious that it should cause us to be divorced from our God-given faculty to smile. Nothing is that serious. So, it should be a personal responsibility of each one never to allow his cares to outgrow themselves or develop beyond his control.

It is said that outside of the Grace of God there is nothing like a sense of humor. It's true. We know that one of the greatest tributes we can pay anyone is to say that he has a keen sense of humor. On the other hand, one of the most uncomplimentary remarks we can possibly make about another is to say that he has no sense of humor.

Cicero would say, "I shall pass over as not worthy of mention (so, I shall say it too!) such things as tomfoolery, horse-play, practical jokes, and the omni-present Punster!"

The humorous man is really refreshing. The jokester is a bore. The opportune witty remark calls for good listening and keen discernment. The glib-of-tongue wisecracker tries anything for a laugh.

Humor has been defined as "the juxtaposition of two incongruities." That's why it is always so easy to laugh in church or when a high dignitary gets his tails caught in the chair when it is time for him to address a group.

A sense of humor can play a great and important part in our lives. It can help us through difficulties and hardships. It can help us face death itself.

Sir Thomas More, who chose to face death rather than deny the ideals of his life, had a keen sense of humor. When he faced death on the scaffold his humor stayed right with him. It is told that while he was going up to the scaffold he showed droll alarm at its poor construction and tested the insecure steps. He gravely begged for help up "the crazy steps"—"as for my coming down, let me shift for myself!"

LT E. C. Wilson Reports Aboard To Assume Three-fold Duties

LT Elizabeth C. Wilson reported to NNMC for duty Oct. 31 to take over the combined duties of Information and Education, Civil Readjustment, and Women Personnel Representative.

With an educational background well suited to her present duties, the Wave line officer comes well qualified for her new billet. She is a graduate of Wellesley College, Mass., where she received her B. A. in English. After her release to inactive service in 1946, she attended the Harvard School of Education, obtaining her M.A. in Psychology.

Miss Wilson's Naval experience has been along the administrative and educational line too. Commissioned in August, 1943 at North Hampton, she served in Educational Services at Portsmouth, N. H. Later she was attached to the administrative section of Educational Services at BuPers.

When called back to active service this fall, she was teaching at the Francis Parker School, a private elementary and secondary school in Chicago. With the increasing expansion of women personnel here, the job of Women Personnel Representative has grown proportionally. LT Wilson now relieves LT J. I. Moon, NNMC's Disbursing Officer, of these duties.

The soft-spoken Miss Wilson expressed pleasure at her good reception here and added, "I'm looking forward to an interesting job."

This is the Way to Travel!

Washington (AFPS)—The Navy is experimenting with a one-man helicopter.

It has contracted with the Roto Craft Corporation, Glendale, Calif., for the basic research of a one-man helicopter to be strapped on a man's back.

The present contract calls for only two of the devices. No mass production figures in the plans.

Although the device has not been officially tested, engineers assume that it may obtain speeds of 50 to 70 miles per hour. Its weight is 100 pounds.

LT Elizabeth C. Wilson

Divine Services

Protestant

Daily—
1200—Daily Meditation broadcast from Protestant Chapel (Monday through Friday)

Sunday—
1000—Divine Worship
—Main Auditorium

Catholic

Daily—
0715—Mass—Catholic Chapel

Sunday—
0600—Mass—Main Auditorium
0830—Mass—Main Auditorium

Jewish

Congregation Beth El of Montgomery County will hold service every Friday night at 8:15 p.m. in the Social Hall of the All Saints Episcopal Church, Chevy Chase Circle. All Service Personnel are invited to attend.

The services of Rabbi Harry Kaufman, representing the Jewish Welfare Board, are available to all Jewish Personnel and Patients at the National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, Ext. 324, or by call direct—Office RA 5371—Home: GE 0755.

Round-the-Clock Divine Services for Patients Throughout Hospital

Upper left: From where the bells toll happens to be Rm. 205, Bldg. 2, and the bells are all recorded. Dorothy Fleming, TE3, of Center Files, puts on one of the records for the chimes which are played at 1200 and 1800 every day.

Upper right: Chaplain Bronnie E. Nichols delivers the Noon-Day Devotional from the Protestant chapel. The Protestant chaplains broadcast this program Monday through Friday to all the wards over channel C.

Lower left: Clark Devol, HM3, of Center Command, who is turned in for knee injuries, listens to the chaplain's broadcast by means of the earphone sets which are installed in the wards.

Lower right: Middle-man between the Chaplain and the patient is Harry Gold, HN, Chaplain's Assistant, who regulates the broadcast in Rm. 205.

Every Sunday the Catholic Mass is broadcast from 0830-0930 from the auditorium and the Protestant services from 1000-1100. During the day the patient can tune in to his choice of three regular stations which are broadcast to the wards through this system.

See the Legal Assistance Officer Before and Not After Difficulties

One of the most important services available to military personnel and their dependents is offered by the Legal Assistance Officer. The Legal Assistance Officer (unlike the Legal Officer, who is concerned with disciplinary matter) handles questions dealing with civil law. These cover contracts, wills, Power of Attorney, domestic relations, and tax matters.

The Legal Assistance Officer of NNMC is LT David H. Baker, MSC, USN, whose office is located in Rm. 213 in Bldg. 1.

LT Baker was born in Joliet, Mont., enlisted as a hospital Corpsman in 1936 and, while an enlisted man, attended Benjamin Franklin U., Washington, D.C. and graduated as Bachelor of Commercial Science in 1945. He was selected for permanent commission as LTJG in August, 1949. Among the first MSC officers selected for Law School, he attended Washington College of Law and graduated in 1949. He reported aboard NNMC Oct. 5, 1951 relieving LCDR J. J. Clawson, MSC, USN.

LT Baker's duties at NNMC are aiding in legal problems of a civil nature that confront military personnel and their dependents. He can act in all matters of a legal nature except appearing in court. These problems include most cases ordinarily handled by a civilian lawyer. Wills and the Power of Attorney can be executed while contracts that need clarification can be evaluated and necessary alterations made.

Due to a policy of the Navy, Legal Assistance Officers cannot appear in court but, in the case where legal aid is required, LT Baker has available information to suggest civilian lawyers to handle the case.

LT Baker advises personnel to see an attorney before entering into legal transactions, and not, as is often the unfortunate case, after difficulties arise.

"There is preventive law as preventive medicine," says Mr. Baker; "and when consulting an attorney, bring all necessary papers having a bearing on the question."

In all transactions the usual client-attorney confidence is maintained.

LT David H. Baker

NSHA Talks on Lighting

Mr. G. W. Clark, District Engineer of the Sylvania Electric Products, Inc., a specialist in Lighting, delivered a lecture on the various aspects of fluorescent lighting to the officer students at the Naval School of Hospital Administration.

Mr. Clark covered the construction, functions, and benefits of fluorescent lighting. Along with the lecture, he demonstrated methods used for determining lighting requirements for various areas in hospitals.

* * *

Diner: "Waitress, why does that hound sit next to my table and growl at me?"

Waiter: "Oh, don't mind him, sir. He's just mad because you're eating out of his dish."

Maintenance and Repair of Technical Equipment is Duty of Medical Repair Unit

The Medical Repair Unit, which is a section of the NNMC Finance and Administration, and located in Bldg. 113, began operations in early 1948. At that time, the unit is staffed by three HMCs and one HMI, all graduates of Armed Services Medical Equipment Maintenance Course, St. Louis,

Missouri. The mission of the unit is the maintenance and repair of technical equipment under the cognizance of the Medical Department.

Services of the Medical Repair Unit are available to all naval activities, PRNC and SRNC. Items for repair may be repaired on location or forwarded to the unit repair shop when practicable. Items forwarded include portable equipment and small items not requiring special handling or handling.

Major replacement parts are furnished by the repair unit, when parts are available in stock. Frequently, replacement parts are salvaged from salvaged equipment. In most instances, the services of the repair unit are more economical than similar services by civilian mechanics. In addition to the economical aspect, the medical activities receive the maximum benefit of their equipment due to the availability of repair unit services which can place equipment back in operation in a comparatively short time.

The prompt reporting of defective equipment is of mutual benefit to the reporting activity and the repair unit. Services can then be rendered more quickly and the likelihood of further damage to the equipment is lessened. In the reporting of defective equipment, a concise description of the symptoms is of much help to the repairman in his troubleshooting. The description of the symptoms enables the repairman to diagnose the defect and be more completely prepared to cope with the situation upon arrival at the scene. This is of particular advantage when an extended trip is required.

The repairmen prefer to work as a team when possible because of the hazardous nature of electrical equipment and the variety of the equipment serviced.

In addition to maintenance and repair of equipment, instruction in proper use and care of equipment is given operators by repairmen when necessary or requested.

Training of Medical Repairmen is being conducted on a regular basis and an increasing number of repairmen are being placed in the field. From all indications they enjoy their work and consider it one of the best opportunities to learn a vocation that will be of real benefit to the completion of their naval service.

Upper left: HMI Fyffe and HMC Granger repair an emergency lamp. Upper right: HMCs Sundstrom and Huff operate a drill press.

Lower left: Huff repairs intricate wiring on a diathermy machine. Center: Fyffe repairs his own tools. Right: Huff and Sundstrom answer an outside trouble call.

Director of Naval Women is Guest at Waves' Buffet

Gathered around the buffet supper are (l. to r.): LCDR Minnie Overton, NC; CAPT Joy Bright Hancock; Gertrude Hobson, HN; Rose Pietrangelo, HN; Victoria O'Grady, HN; LCDR J. A. Wilson, NC; LT Terrell Everett; and Mary Larson, DT2.

Right: CAPT Hancock stops to chat with Joan Madsen, JO3; Flora Brooks, HM2; and Mabel Eller, HM1.

Joy Bright Hancock Enjoys Party While Meeting Each Wave Personally

CAPT Joy Bright Hancock, USN, Director, Naval Women, was guest of honor at a buffet supper in the Waves Barracks Oct. 29. In a vivacious and characteristically friendly manner, the highest ranking Wave circulated among the 50 or so Waves present, meeting each one personally.

She spent the evening chatting with the girls and joining in the group singing. Concluding her visit with a short question and answer session, CAPT Hancock answered all questions pertinent to the Waves. She then made what she termed "a Cook's tour of the barracks."

Present at the occasion were Nurse Corps and Wave officers:

LCDR M. Overton, LCDR J. A. Wilson, LT F. H. Engstrom, LT J. I. Moon, LT F. Spear, and ENS B. W. Garland. Held in the basement recreation room, the supper was set in a Halloween theme with saluting skeletons, ghosts on crutches, pumpkins, and hickory nuts adding to the atmosphere.

Halloween Staff Dance is Big Success

Upper: Staff and guests dance to the distinctive music of Claude Thornhill's orchestra at the Halloween staff dance Oct. 22 in the NNMC gym.

Rear Admiral W. J. C. Agnew (insert) and Mrs. Agnew were present at the occasion. Admiral Agnew gave a short address as this was the first staff function since he took over command Oct. 3.

Lower: Songster Christy Connor vocalizes while Claude Thornhill and orchestra supply the music.

Not Much Research Involved

By R. Conaway

A few new faces at muster: M. E. Lane, TM1, W. E. McKinney, HM2, W. H. Mackey, HM2, and J. P. Van Bebber, HM3. Also aboard for duty is LT J. T. Hollaway, (two weeks training), LTJG H. W. Shires, B. F. Lindsley, HMC, and K. D. Baldorff, ABC.

R. B. Clark, HMC reenlisted for six while O. W. Moreau, HM1 decided to try his luck with civilian life. We wager he'll be back in "The Blue" within 60 days.

They say it is a small world and Terry Melchi and J. J. Dauksha, former Researchites will vouch for it. When Dauksha's ship was getting set to pull out of Naples, who should he run into but Terry, whose ship had just pulled into port.

I hear Kelly is trying to organize both a bowling and a basketball team. If he would like any females on his team, I know three who would be willing to "play ball."

Carlos Schultz was seen gazing with rapt expression at the wonderful assortment of electric trains in the Toy Shop. Guess every man is "just a boy at heart!"

D. E. Teter is the proud possessor of a gold trophy for his prowess on the golf links. Then there was the fellow who was fined \$8.00 for trying to make a "hole-in-one." His only mistake was in using his car instead of a golf ball! 'Nuff said, Hardy?

Cigars were being passed out by LT Sabbag upon the event of a new, 5 lb. baby boy born on Oct. 24.

Marbois has developed a neurosis since starting psychology class. It seems that everytime he climbs on his motorcycle, he starts to get cold chills. Schildwachter wanted to know if that was before or after he started the motor. I think Schildwachter is prejudiced — he thinks everyone should drive a new Ford like the one he has.

Talk about good buddies, how many fellows would donate a girl friend to one of his pals? These Dental boys sure do stick together.

Don Neigh and Jim McGuinness are the latest to appear on the "shipping out" list. They are headed for Naples and, believe it or not, are looking forward to the assignment. Think they have been listening to tales about the pretty Signorine who inhabit sunny Italy.

So long now — until next time.

NSHA's Publication Division Installs Labor-Saving Machinery

The Naval School of Hospital Administration is constantly endeavoring to improve its instruction materials and teaching methods. In this endeavor, the Publications Division has played a major role. Here a number of labor-saving devices are used in preparation of instructional material. Among these devices are the Vari-Typer, Addressograph, Graphotype, Mimeograph, Mimeoscope, and the Ozalid Dry Print Machine.

The latter of these is a versatile machine. In as little as 25 seconds the Ozalid will give an exact duplicate of your original document. The duplicate is ready for immediate use. It is employed for producing printed material, drawings, and similar items which can be readily reproduced by other media. It is particularly suitable for training programs.

The Ozalid

across his point and the student in grasping it.

The Addressograph and the Graphotype are machines that go hand in hand. On the Graphotype, metal plate is embossed for general use on any number of forms.

The Graphotype and Addressograph

enlarge its scope in repetitive functions such as inventory reports, statistical procedures and other labor consuming projects.

Let's suppose you wanted to prepare the Admission Record, the NavMed 1285. In the clerical practical problem at NSHA, each student is required to make out at least four of these forms. We have solved that through the application of the Vari-Typer, Mimeoscope, and Mimeograph.

The Vari-Typer

sizes and styles. Many copies are then run off on the Mimeograph in a few minutes.

It has all been done in a minimum amount of time, effort and cost. This is just one of the many processes used for instructional purposes.

The students are indoctrinated in the operation and maintenance of these devices. They are acquainted with the products of the machines and how they may be used in promoting better administrative processes.

The Mimeograph

but what is equally important, the student becomes familiar with labor saving devices so that he may face future problems with a knowledge of how to meet the demands of the situation.

Diaper Derby

Oct. 9—Herbert Richard Giorgio, 7 lbs., 12 oz., seventh child of CDR Douglas J. Giorgio, MC, USN of NH.

Oct. 24—William John Sabbag, 5 lbs., 8 3/4 oz., new son of LT George J. Sabbag, Personnel Officer of NMRI.

Oct. 24—Geoffrey Grant Guinn, 7 lbs., 7 oz., new son of HMC John W. Guinn of NSHA staff.

The captain was lecturing to a class of new officer candidates.

40-foot flagpole has fallen down, he said. "You have a boatswain and a detail of 10 men. How do you erect the flagpole again?"

The candidates thought, then offered suggestions about block tackle, derricks, and so on.

"You're all wrong," said the shipper. "You'd say, 'Boats, get the flagpole up.'"

NMC Senior Life Saving Class Has Final Test

The Senior Life Saving Class are: (l. to r.) Front row: R. C. Jones, instructor; M. R. McQuarrie, LT3; R. M. Kubier, HN; G. Kent, DN; LT J. O. Atkinson, Special Services Officer; LCDR F. S. Haslam, Administrative Officer, NNM; R. I. Heinauer, HA; G. G. Brumberg, HN; M. H. Hall, HN; Miss J. W. Feeley, instructor. Kneeling in front are: A. C. Yslas, HM3 and W. H. Cunningham, HN. Back row: S. C. Williams, DT1; C. L. O'Donnell, DT1; J. A. Robinson, HN; J. G. Wilcox, HA; T. Holman, HN; D. W. Magoon, HN; W. C. Walker, HM3; B. D. Aschim, HA; and R. E. Device, HA. Right: D. W. Magoon, HN practices rescuing W. C. Walker, HM3.

Coach's Corner

Georgetown Preparatory School has a hard hitting fullback in the of CAPT Earl Evans, Chief of Medicine. Pete returned a kick-off fifty-five yards before being hauled down from behind in Friday's game at Prep. In earlier games Pete has been afflicted with fumbleitis showed recovery from the disease by bulling the ball over from the yard line to score the first of Prep's touchdowns. On the same moon Bethesda-Chevy Chase High was taking a lesson from Char-hall of Virginia. Jim Northrup, son of Mrs. Marion Northrup, tal's highly efficient secretary, was a bulwark of strength in the tackle spot, blocking a punt and recovering the ball for a down.

The table tennis season is in full swing with hopefuls for the station eyeing the tournament to be held on the 20th and 21st of November. The gymnasium is to be the scene of the tourney with five tables lay at one time. Competition will be keen with such campus lumines as Ticatch, last year's champ; McKeivitt, who in spite of his size es with feline grace; Taps Ford, the well-known coiffure stylist, and taff Reynolds head the entry list in the Special Services Office. In year's matches there were thirty-two entries; we hope that the list be doubled by the end of the week.

Table tennis is a highly organized sport with rules of play deter-e by the United States Table Tennis Association with more people eting in sectional, state, and national championships than any sport bowling. The sport came into prominence in Hungary around 1900 national championships being held at the turn of the century. John unnis, a well-known sports chronicler, places the year 1936 as the ing point in table tennis interest in this country. He attributes ling of enthusiasm to a tour by Sandor Glancz and Viktor Barna, Hungarians who held between them most of the world's titles.

In the Center are many players who appear with three or four les; plain wood, sandpaper, and rubber surfaces to better cope with tyle of play as presented by their opponent. So, if you care to see luloid ball weighing in the neighborhood of 37 to 39 grains being ked across the net by a couple of fellows standing up to 15 way from the edge of the table, drop over to the gymnasium the of November 20th.

Center Commanches, under the leadership of George Funk, displayed y of class in winning the touch football crown . . . a well-knit oration with unbridled enthusiasm and easily tops in the intramural ie. . . Basketball is gathering speed with the thin-clads working ule boards under the eye of Cornell Brothers, last year's cage ace. Coach sent Tommy and Romeo Kurzawski to Bainbridge for a ten- linie on how to coach the casaba sport. Now Ski has departed for econd MarDiv leaving a terrific gap in the sports program, a good r of men and a profound student of the game.

Last season was a lot of fun in winning those games with scores of 7 et al. Ten minutes of play and we could draw on paper the ive tactics and offensive patterns of our opponents. From the way ee is being conducted at the present, Tommy will floor a fine aggre- a against Fort Myer in the season's opener, December 4th. . . mural basketball will start in a few days with Jack Reynolds handl- schedule. . . Bowling is slated for the middle of the month with eger and Chief Meitl filling the shoes of capable Tom Floyd, now ro.

Commanches Take Intramural Crown

Unbeaten and unscored on, the Center Commanches were ers of the intramural league. The coaches and captains were E. Brothers and G. E. Funk. Lining up for a practice scrimmage are: first row: (l. to r.) L. Wynne, R. W. Morrison with T. E. Brothers in the quarter k position. Last row: (l. to r.) J. C. Woods and J. P. White. Right: C. E. Devo receives a pass.

Life Saving Class

The Senior Life Saving Class, composed of students representing most of the commands, took their final three hour test Sat., Nov. 3 in the NNM swimming pool. The test was on the fifteen hours of instruction that the class had received plus problems that a life saver might meet on duty.

The instructors, both members of the D.C. Chapter of the American National Red Cross Aquatic School Faculty and qualified First Aid and Water Safety Instructors, were Mr. Roys C. Jones and Miss Jacqueline W. Feeley.

Center Chatter

By Frank Winn

Things are changing fast within our command. The snowstorm Nov. 3 cancelled our first personnel inspection in three or four years. The next regularly scheduled inspection will be held Nov. 17.

Recently shipping over for six years was Michael J. Lasko, HMC. We wonder if the Chief's chickens and evergreens are shipping over with him.

FMF claimed another from our midst when Pat White checked out on Nov. 2nd. Pat wasn't with us long after coming from hospital command but was quickly accepted in the charmed circle. Pat held down a berth in the backfield of the four times crowned champion Commanches.

Basketball practice is in full swing with 20 odd men striving to secure a berth on the NNM Varsity team. The practice sessions are moving along with all emphasis on running. Tom Brothers, coach, and Harry Gold, assistant, are constantly harping "Hustle, Hustle, Hustle." Tom must decide in the next ten days who will make up his team for the coming season.

We now possess a TV star in our barracks. Two weeks ago Eric Taylor, HMC was sitting in the 7th row, 2nd seat from the end at the TV show "Strike it Rich." Mrs. Parratt of Ashbury Park, N. J. was the contestant on stage. Her reason for wanting to strike it rich was so she could buy a double bunk for her children.

When Mrs. Parratt didn't do so well answering her questions, Chief Taylor went back stage and volunteered to donate a double bunk that he had in storage at his brother's home in New York. All Mrs. Parratt would have to do was arrange for transportation for the beds to her home.

The Chief was calm and collected before the cameras but never once mentioned being from NNM. The Chief said his home was in Los Angeles, but I always thought that a regular Navy Man's home was in the Navy.

NDS vs. Lab School In Quintet Opener

The 1951-1952 Intramural Basketball League swings into action next Monday when the NDS Officers take on the quintet from the Lab School. The league runs through Feb. 26 and the winner will represent this station in an Area Station Intramural Champions layoff.

Commissary, last year's winner, has lost its first line sharpshooters and their chances of repeating appear slim. NSHA have displayed plenty of height and speed in pre-season workouts and look like the team to beat.

Several practice games have been arranged this coming week in order to whip the players together for their best efforts.

The ten teams who will vie for the crown are:

Cardiology	NDS Officers
N.P.	Naval Dental School
NSHA	Center
Commissary	X-Ray School
Lab School	Research

Navy and Marine Corps Bond Allotments Expand

Navy and Marine Corps military personnel had 303,801 Savings Bond allotments in effect during September, a gain over August of 4,339 allotments for the Navy and 1,112 for the Marine Corps. A total of \$4,639,537.50 was invested in Defense Bonds through military pay allotments, including \$823,181.25 by U. S. Marines. Combined Defense Bond issues to Navy military and civilian personnel in September totalled \$11,948,962.50 —\$3,214,330.75 more than in September 1950.

One Sport Done, Waves Start Two

The Admiralties wound up the current volleyball season Oct. 31 when they met the Ft. Myer team in the NNM gym. The visiting Wacs won the first and third games 25-5 and 19-9 to take the match, while the Admiralties took the middle set 23-14.

The night before the Henderson Hall Marines downed the local Waves 26-19 and 30-18.

The Admiralties have two bowling teams entered in the WIA League. Last week Team No. 1 played Ft. Myer while Team No. 2 met the Bolling Air Force team here. This Wednesday, Nov. 14, Team No. 1 will meet the Marines here while Team No. 2 will meet Quarters K.

Bowling roster includes Clarkson, Connor, DeBerry, Dennett, Fleming, Green, Leininger, Madden, Miller, McElfish, Pietrangelo, Puffer, Salloom, Scott, Schraeder, Shook, Tillotson, and Zimney.

Basketball practice started last Tuesday with most of the last season forwards on hand, but with all of last year's first string guards gone. The team should be in pretty good shape by Dec. 3 when they meet Ft. Belvoir there for the first league game. League matches this year will consist of a single round robin league and a consolation-championship tournament.

A special basketball clinic will be held for all participants in the league at Ft. Myer Sat. Nov. 17. The NSWA 1951-52 rules will be reviewed and explained.

"What does the bride think when she walks into the church?"
"Aisle, altar, hymn."

As of Nov. 4 the NNM bowling team had won six and lost three of its nine league matches.

Leave Raker Speeds Job on Fairways

New fairway sweeper makes job of cleaning ground of leaves easier and faster.

ECG and BMR Class Graduates Four

The graduating class of ECG and BMR were (l. to r.) C. H. Crookston, HN, honor man; P. W. Small, HN; CDR F. A. Butler, Head of Cardiology Department; J. B. Sterling, HM2, instructor; L. R. Peterson, HN; and D. S. Seidel, HN.

The class is a four-month course in ECG and BMR instruction with instruction in anatomy and physiology of the blood system, minor equipment repairs, plus scrub technique in heart catheterization.

Gifts Galore That Children Adore

Above: Rm. 101 East is designed to offer a wide variety of gifts including trains, dolls, cars and trucks, and games of all types for children of all ages.

Below: Rm. 101 North has greeting cards and gift wrappings for the holidays with a wide variety which permits originality in wrapping holiday presents.

Your Navy Exchange Dollar

Christmas Shopping at Navy Exchange Returns a Dividend the Year Around

Editor's Note: Do you know what happens to your dollar after you spend it in the Ship's Service store or in any of the other facilities of the Navy Exchange? Perhaps you patronize these activities because they are cheaper or because they save you a trip down-town.

Most of us are unaware of the fact that the small marginal profit from these sales contributes to our own recreation fund. Part of that dollar spent in Navy Exchange helps pay for this newspaper, the staff dances, athletic equipment, and a list of other recreational activities.

This is the first of three articles designed to trace your dollar from the time you spend it until you realize its profits in your own recreational gain. The following article explains what the Navy Exchange offers you. In the next issue we will explain what percentage of your Navy Exchange dollar goes to the recreational fund, and in the last article we will give a breakdown of how the recreation money is spent.

Navy Exchanges have, as their two-fold purpose, the requirement to sell items at the lowest practical cost and to provide through the profits a source of funds for welfare and recreation of Navy personnel.

Lower cost is gained by not requiring the same profit retail stores require, by purchasing goods in large quantities, and by comparing prices for the better buy. However, in all cases, quality is as important in the selection as the cost.

All purchasing is between the individual Navy Exchange and the manufacturer or agent, allowing freedom for the different tastes and needs of different bases.

The reason often requested items are not carried is because some manufacturers do not allow their goods handled by Naval Exchanges. The listings of dealers and stores offering a discount to service personnel have been discontinued since many dealers consider this practice unfair.

Desired articles not carried by this exchange can be ordered by the Navy Exchange Officer if they are carried on the approved list.

Some of the services that NNM Navy Exchange has jurisdiction over are the Cobbler Shop, Barber Shop, Vending Machines, main store and fountain in Bldg. 2, Snack Bar in Golf Shop, and store and fountain in Bldg 141 plus Western Union.

With Christmas around the corner, the Navy Exchange offers in Room 101-E a complete line of toys for children from birth to 15 years. Many toys that are scarce were ordered before the shortage. Electric trains, one item difficult to obtain, are available. For the holidays, the items in the main store in Bldg. 2 have been augmented by special purchases of cosmetics, clothing, sports equipment, and jewelry. In Room 101-N a variety of Cards and gift wrappings is offered.

Marine Corporal Only Wanted Beer; Didn't Mean to Play Part of Cupid

Cpl. Harold Workman, former patient on Ward 133, tells a story of how an honest attempt to win himself some free beer resulted in surprising and far-reaching results for some of the men in his unit.

It happened on Adak in the fall of 1950 when Workman and his guard outfit were part of the Alaskan Defense on the Aleutian Islands.

"Some of the fellows hadn't been out for 28-30 months," said Workman. "We were all lonesome, so we got together and decided we would have a contest. We all chipped in and the fellow who received the most mail during the month of September would win that much free beer."

"I never got any mail except an occasional business letter, so my chances of winning seemed pretty slim. Meanwhile, all the fellows were writing to everyone they had ever known in an attempt to get the most answers."

When the month of September was over, the 'dark horse' Workman had received hundreds of letters from California to Washington D.C., and won the contest by a landslide. It seems he had sent his pictures, along with a request for mail, to newspapers all over the United States and the answers were soon pouring in.

Workman couldn't begin to read all his mail, much less answer it, so he divided it among his buddies and many of them began corresponding with the girls.

Walking down a Seattle street one day months later, Workman ran into an old Adak buddy of his, who proceeded to introduce his wife, adding, "Thanks for the address." Workman later learned that four or five of the other fellows in his outfit eventually married the girls who had unknowingly helped him win the contest and the free beer.

CAPT Mitchell, CO, NDS, welcomes Canadian Staff Sgt. Church aboard.

Old Naval Jargon Jars Canadian Boy

Staff Sergeant Edward Arthur Church of the Royal Canadian Army Dental Corps reported aboard Oct. 27 to attend the Dental Equipment and Repair and Maintenance Class which recently convened. He is the first Canadian to attend this particular school, although Canadian personnel have attended other specialized schools here.

Church has been in the service for ten years. His first service experience was with the Princess Patricia Canadian Light Infantry with which he served in England throughout the war. Now a staff sergeant (which is equal to our chief) he plans to do at least another ten and retire.

The sergeant doesn't find the American service much different than the Canadian, with one amusing exception. He was completely confused when someone told him to go down the "ladder" and clarification came only after a futile search for what turned out to be nothing more than a stairway. Words like bulkhead and scuttlebutt confused him too, at first, but now he thinks he has the hang of the lingo.

Perhaps one of the first things you may notice about Church is the square box of cigarettes in the pocket of his shirt. He's adopted many of the American customs, but still clings to his "Exports" (Canadian cigarettes) which he obtains through the offices of the Canadian Joint Staff in Washington.

Like most American fellows of his age, Church likes swimming, baseball, and basketball besides the lesser known sports such as skating, hockey, and soccer. But the machinery is his main interest and he spends most of his spare time doing lathe work.

Although Canada has a repair school of its own in Ottawa, Church asked for this school to familiarize himself with American equipment.

SURPRISIN' what a couple of bandanas will do for a girl. As proof, we offer curvaceous Bea Croft, a Texan, who displayed the proper attire for beach beauties at New Hampshire's famous Hampton Beach.

Mabel Eller Likes Bibliography Best

"I was born in Memphis, Tennessee," says Mabel Eller, HMI of NMRI, but with true womanly prerogative, she just isn't saying where. After finishing school at Hammond, Ind., Mabel worked as a Lab Technician for Wilson and Company of Calumet City, Ill. where she remained until 1942 when she joined the Navy.

After finishing Boot Camp at Hunter College, and Hospital Corps School at Bethesda, she had six weeks of ward duty at Baltimore, Md., before returning to Bethesda to work in the library of NMRI.

July of 1946 saw this Navy Wave bid adieu to barracks life, when she sailed aboard the USS General Anderson, commonly known as the diaper express, to work as a civilian librarian for the Army at Fort Sherman, Canal Zone. When not working in her library, Mabel took to browsing through the near by countryside as a pastime.

Mabel Eller, HMI

It was on one such trip near the Costa Rican Border that she uncovered, in an ancient Indian cemetery, some clay pots estimated to be approximately 3500 years old. It is believed that these pots are from the now extinct Chiriqui Indian Tribe that once inhabited that section of the country.

In 1948, Mabel, with her coveted clay pots, returned to the States to accept a position as bibliographer and reference assistant at the Navy Research Section, Library of Congress, where she hopes to return after her current tour of duty is completed.

Before being recalled to active duty in October of 1950, Mabel did a six week tour of duty at Patuxent River where she helped organize and set up a school for training Wave Reserves. For her outstanding contribution to this program she was awarded a meritorious mast in which she received a Captain's Commendation.

When not drinking "hot Joe" at the coffee shop of NSHA, Mabel may be found in the Psychiatry and Neurology Division of NMRI where she works for CDR Thomas who is in charge of the Division. As for hobbies, Mabel claims only one—collecting unattached males! Nice pastime, what say?

Bethesda Tops All Naval Hospitals in Processing Clinical Board Cases

Representatives of the offices of the Secretary of the Navy and NNC visited NNMCM Nov. 9 to congratulate CAPT B. W. Hogan, CO, Naval Hospital, on the accomplishment of this hospital leading all other continental naval hospitals in minimum process time for clinical board cases for the month of October.

The time between clinical boards and delivery of all cases to the Medical Evaluation Board averaged 3.5 days per case. Five days is the goal set by Mrs. Anna Rosenberg, Assistant Secretary of Defense, and adopted by the services. Only one other hospital ran close to a 4.2 average. All others were considerably slower averaging up to 5 days per case.

Bethesda can well be proud of the record established here since the beginning of the procedure which started in January 1950. In the processing of a case took 3.5 days. It has taken a lot of work and careful planning to bring that down to the now commendable 3.5

WOHC J. W. Wilson, NNMCM's Hospital Records Officer, coordinating all phases of the Clinical Board work with the various services. CAPT Hogan states that Wilson is, in a great measure, responsible for the excellent show-up of this hospital.

The procedure works something like this:

1. The Medical Officer notifies Wilson that his patient will be on clinical board case. Mr. Wilson files BuMed and BuPers orders by letter to send records to Physical Evaluation Board (rd 132.)

2. The Clinical Board, composed of three medical officers, examines and makes a medical appraisal and report of the patient's condition. The patient is advised of the Board's decision at an appearance before the P. E. Board. Rough draft is sent to the office for typing. All recommendations must be checked for correct data and disciplinary action.

3. Patient's chart and health record are routed to photostat for photostating.

4. After typing, the clinical report is sent back to the Board members for signatures. (N.P. types its own reports.)

5. The "smooth" clinical report plus orders for the patient's appearance before the P. E. Board is routed to the Commanding Officer via the Executive Officer for approval and signature.

6. The Clinical report and all related papers are delivered to the Board for a full and fair hearing under Title IV of the Career Compensation Act.

Perhaps now patients can better visualize the tremendous amount of tape involved in these transactions. "All hands, including Chiefs of Services, Ward Medical Officers, and Clinical Board writers, CAPT Hogan, 'deserve a hell of a lot!'"

Chief of Surgery Reports Aboard

"The faces are familiar, but the place is strange," commented CAPT Robert B. Brown, MC, USN, new Chief of Surgery. CAPT Brown reported in Nov. 11 to assume the duties left vacant by CAPT H. A. Gross.

The Captain went on to explain how this marks the fourth time in his Navy career that he has had duty with CAPT Hogan and many of the other doctors are old associates of his. But like all new comers to NNMCM, the surgeon is having difficulties finding his way around the corridors of the building.

After 14 months on the USS Repose in the Korean waters, CAPT Brown has quite a sunburn which was intensified by his drive from the West Coast.

CAPT Robert B. Brown

Born in Meadville, Penn., CAPT Brown attended Allegheny College there and then received his M. D. from the University of Pennsylvania Medical School. After his internship he studied six more years there on surgical fellowships. He received his SCD in Medicine from there too.

In 1942 he left his Philadelphia practice to enter the Navy with a specialist unit from the Univ. of Penn. He was sworn in as lieutenant senior grade. His promotion to captain came July 1, 1950.

Dr. Brown has served at USNH Philadelphia, USNH Annapolis (where he was Chief of Surgery from 1943-44) and on the hospital ships USS Solace, USS Tranquility, and USS Repose.

In his spare time the Doctor plays

Marines Celebrate 176th Birthday in Ward 135

Left: Lt. Gen. M. H. Silverthorn, Assistant Commandant of the Marine Corps, chats with Technical Sgt. William T. Farrar, USMC, a patient on Ward 6-B, while Technical Sgt. Mildred A. Novatny, USMC, presents him with a piece of the birthday cake. Right: Lt. Gen. Silverthorn cuts the cake in traditional ceremony.

Dr. Heller Speaks In Lecture Series

John R. Heller, M.D., Director of the National Cancer Institute, Bethesda, will be guest speaker at the third of the guest lectures in the 1951-52 series at the Naval Medical School Friday, Dec. 7 at 8:15 p. m. in the main auditorium.

Dr. Heller's subject will be "Advancements in Cancer Control." He will describe the cancer control program of the National Cancer Institute as it deals with evaluation of diagnostic facilities in the different States, study of diagnostic tests, development of a motion picture series on diagnosis, development of materials for lay education, medical and dental school grants, clinical traineeships, nursing program, cancer information for pharmacists, conduct of cancer morbidity surveys, and investigations on environment cancer."

Entering Public Health Service in 1931, Dr. Heller was appointed to his present job in 1948. He is a professorial lecturer on cancer at George Washington University and a special lecturer on cancer control at Georgetown University.

golf, tennis and likes hunting and fishing. He is looking forward to using the NNMCM golf course which is particularly handy for him since he and Mrs. Brown and their nine-year-old daughter will occupy Quarters E on the station.

News Shorts From the Editor's Desk

The United States Navy Band is presenting a series of Friday Evening Concerts each week to April 4, 1952 (except Dec. 28) at 8:30 in the Departmental Auditorium, 13th and Constitution Aves., N.W.

Commuted rations and leave rations for enlisted personnel have been raised to \$1.20 per day as of Nov. 1. (BuSanda Instruction 1030-PNT2.)

CDR Robert A. Colby, DC, USN, Head of the Medico-Dental Sciences Division at the Naval Dental School, passed a recent examination for certification given by the American Board of Oral Pathology. CDR Colby is the only officer in the Naval Dental Corps certified as a specialist by that Board.

The National Symphony Orchestra has again made available a limited number of tickets for their performances each Wednesday night. All concerts will be held at Constitution Hall.

All military personnel desiring tickets contact the Special Services Officer, PRNC. (Code 142, ext. 680) prior to 1000 on the Tuesday preceding the concert. If the demand for tickets is great, an effort will be made to secure additional tickets.

Reduced rates for basketball and hockey games are made available (Continued on page 6)

General Cuts Cake

Marine Corps patients in the hospital celebrated the 176th birthday of the Marine Corps Saturday, Nov. 10 in ward 135. Representing NNMCM were RADM W.J.C. Agnew and CAPT B.W. Hogan. Some of the Marine Corps Officers present were: Lt. Gen. M. H. Silverthorn, Brig. Gen. L.E. Rea, Maj. Gen. W. W. Wensinger, and Maj. Gen. J. T. Walker.

Lt. Gen. Merwin H. Silverthorn, Assistant Commandant of the Marine Corps, gave a talk on the history of the Marine Corps and explained how recent legislation and government acts affected the Corps and patients.

Following his talk, General Silverthorn presented the Silver Star to Sergeant Harry R. Spies, a patient on Ward 4-C, for "gallantry against the enemy in Korea on 8 December, 1950" while serving with the First Division.

After the traditional cutting of the cake by the Assistant Commandant, the first piece was presented to Edwin M. Thomasson, retired Master Sgt., a patient on Ward 3-D and oldest Marine Corps patient in the hospital.

Mr. Thomasson was born in 1881 and joined the Marines in 1896. His service record reads like a map of the world. He served in Europe, Africa, Arabia, South America, Near East, plus Hawaiian and Philippine Islands. He retired in 1924.

Pieces of cake were distributed to the Marine Corps bed patients by members of the Assistant Commandant's party.

The Seven Wines

I raise a goblet to my lips—light!
I am born; life flows through my veins.
I breathe, grow in height;
Power to think surges into my brains.

In flesh and blood from ashes I rise
To live, to drink of each life wine.
Of Hope I drink; I see with my eyes
Knowledge, life, the world is mine!

Of Faith I drink; in my throbbing heart
Is reason to live, to believe and trust.
A new strength surges to every part
Cleansing my veins of ashes and dust.

Of Charity I sip; my lips have speech,
Benevolent words echo my tongue
And mercy to wretches who pray and beseech,
The strength of my Charity to them be done.

The wine of Love; I drain each drop!
Bitterly it shrivels and burns my soul,
Then sweetly it oils the wounds to stop
Sorrow—Love only inflicts on my soul!

From Love I grope the goblet of Hate!
Its cursed fury purges all Love
To Hell itself with torment my fate;
The soul is wrathful as thunder above!

Thus, I am born living athirst—
Drinking, tasting, finding no peace,
Searching to quench the eternal thirst
Dwelling within—unwilling to cease.

At last—I clutch a goblet of wine
Rich and velvet, the sweetest, I drink!
Death eagerly chokes this life of mine
And crumbling—again to ashes I sink!

—GLORIA E. GOSNELL, NMRI.

West is Honor Man in NP Graduation

On Nov. 16, after four months of training in Neuropsychiatric training, the N. P. class graduated with Marvin M. West, HM2, honor man with an average of 98.
Members of the class were: (l. to r.) Arthur L. Gallucci, HM3; Charles R. Cousar, HN; Marvin M. C. West, HM2; Phillip J. Blitz, HM3; and John N. Waldron, HN.
Sitting in front are CAPT Elmer L. Caveny, MC, Chief of Neuropsychiatry and LT C. Szcypin, NC, instructor in N.P. school.

Red Cross

Wards Can Expect Top Quality Shows

The 16 MM Movie Program geared for the bed patients in the wards continues to win the popularity contest of American Red Cross activities. Some fine movies are coming up in the near future such as: "Here Comes the Groom" with Bing Crosby, "Francis Goes to the Races" with Donald O'Connor, "Goodbye My Fancy" with Joan Crawford, "On the Riviera" with Danny Kaye, "Behave Yourself" with Shelley Winters, "Two of a Kind" with Elizabeth Scott, "Jim Thorpe, All American" with Burt Lancaster, and "I Can Get it for You Wholesale" with Susan Hayward.

These movies are shown by patient projectionists who are recruited and trained by American Red Cross Recreation Workers. If you have ever worked with 16 MM machines before, or are interested in learning to become a movie projectionist, please come to Rm. 102 as operators are always needed.

Operators are paid for showing these movies for AMC. Two movies are received each week and each movie has three showings a day. These movies are shown on the wards with the greatest number of bed patients and each ward has two movies a week. So, with the help of trained operators, your Red Cross workers hope to keep the movies rolling.

Congregation Beth El of Montgomery County will hold services every Friday night at 8:15 p.m. in the Social Hall of the All Saints Episcopal Church, Chevy Chase Circle. All Service Personnel are invited to attend.

The services of Rabbi Harry Kaufman, representing the Jewish Welfare Board, are available to all Jewish Personnel and Patients at the National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, Ext. 324, or by call direct—Office: RA. 5371—Home: GE 0755.

Class Averages Over 90 With West High in N.P.

Marvin M. West, HM2, graduated from N. P. Class Nov. 16 with a final average of 98, the highest average ever obtained in the school.

"The whole class was exceptional," commented instructor LT Szcypin, "with the entire class maintaining an above 90 average."

The Chaplain's Corner

by Chaplain Peter J. Marron

If a Dog Could Pray

Not too long ago a song called "Diamonds Are a Girl's Best Friend" appeared and disappeared. Now, there's a strange, if not a new, theme in friendship. Peggy Briggs on ward 126 wouldn't quite agree. Peggy is blind and feels very definitely about her "Cindy." "Cindy" is a very stout-hearted and faithful guide for Peggy, and there is a fine mutual friendship, and rightfully so, between Peggy, her husband Ralph, and "Cindy."

And it has been said of old, "A dog is man's best friend." Well, concerning tastes, "Who shall disagree," said the good old lady as she looked the cow. But for now, I shall string along with man's best friend.

If a dog could pray, I believe he would pray something like this: "Oh, Lord make my master faithful to his fellow men, as I am to him. Grant that he may be as devoted to his friends and to his family as I am to him. May he be open-faced and undeceptive and as true to trust reposed in him as I am to his."

"Give unto him a face cheerful like unto my wagging tail. Fill him with patience like unto mine, that awaits his footsteps without complaint for hours. Endow him with my watchfulness, my courage, and my readiness to sacrifice comfort or even life."

"Keep him always young in heart and imbued with the spirit of play even as I. Make him as good a man as I am a dog; make him worth of me, his dog."

That "puppy" seemed to pray like the Pharisee in the Temple, but oh, so differently.

Fifth Row: Dr. P. Salisbury, and Dr. F. Furth.

Research Symposium Held at NMRI

Under the auspices of the American Institute of Biological Sciences and in cooperation with the Office of Naval Research, a symposium on spontaneous and induced regeneration from whole body irradiation was held at the Naval Medical Research Institute on Nov. 9-10, 1951. The primary motive for this conference was the free exchange of ideas between investigators in this field, so as to mutually aid each other in expediting their work, and thus preventing unnecessary duplication of effort.

The group was welcomed by RADM W. J. C. Agnew, MC, USN, Commanding Officer of NMMC. Dr. George LeRoy of the University of Chicago was presiding chairman and introduced the speakers who presented short, informal talks.

The conferees first discussed normal spontaneous regeneration following which they discussed the mechanisms of hastening these events. Chemical and pharmacological agents, shielding of body organs, and blood and plasma transfusions were among the procedures described as affecting the course of events following whole body irradiation.

Among those in attendance were the following: Drs. George Brecher, Charles Congdon, Egon Lorenz, and Fred Stone of the National Institutes of Health; Drs. Austin Brues, Leon Jacobson, and Harvey Patt of Argonne National Laboratory; Drs. E. P. Cronkite, F. Ellinger, R. S. Farr, John Tullis, and R. A. Conrad of NMRI; Dr. Peter DeBruyn, University of Chicago; Dr. Joseph Howland, University of Rochester; Dr. Henry Kaplan,

Stanford University School of Medicine; Dr. P. Salisbury, Cedars of Lebanon Research Laboratory; Dr. Max Strumia, Bryn Mawr Hospital; Dr. William Valentine, University of California at Los Angeles; Drs. Lawrence Tuttle and Charles Dunham, Division of Biology and Medicine, A.E.C.; Dr. James Reingers, Loyola University of Notre Dame; Dr. V. F. Bond, N.R.I., Hunter's Point, San Francisco; Dr. Carl Harris, Atomic Bomb Casualty Commission; and Dr. Michael Shimkin, Laguna Honda Home, San Francisco.

Diaper Derby

Oct. 24—Robert Albin Gedarovich, 6 lbs., 15½ oz., new son of LT Albin Gedarovich, MC, USN, of NH.

Oct. 25—Hanna Jean Reynolds, 6 lbs., 6¼ oz., new daughter of LT John R. Reynolds, MC, USNR, of NH.

Nov. 12—Bill Voldine McBride, 9 lbs., 2¼ oz., new son of LTJG William D. McBride of the Radiology Department, NDS.

Nov. 20—Wayne Brumfield, 10 lbs., 10 oz., new son of Beverly Brumfield, Jr., HM3, in Special Services Office.

Sharp and Clean is Theme of Saturdays' Personnel Inspections

Right: Top of the building view of inspection

Upper left: Since the Waves have never stood inspection as a unit before, they had to do a little research and brushing up on the drill technique. (L. to r.) Norma Schraeder, PN1, who acted as petty officer in charge of the first platoon, demonstrates the proper

way to execute an about face while ENS B. W. Garland, LT F. H. Engstrom, and LT E. C. Wilson look on. That's the good old Blue Jacket's Manuel Miss Enstrom is scanning.

Lower left: Waves stand in review.

Mr. Hantzmon Here Since NNMCM Began

"I was always either too young or too old for the Service," says George R. Hantzmon, Head Machinist over in Bldg. 16, but as for the Civil Service, Mr. Hantzmon has 25 years to his credit now.

A native Washingtonian, Mr. Hantzmon has put in all of his time in this area—first at the Naval Gun Factory, then the 'old hospital' at 23rd and E., and early in 1947 he was transferred to NNMCM which was still in its infancy.

With three machinists and one helper under his supervision, Mr. Hantzmon handles the maintenance of NNMCM's equipment, plus making parts for the Medical Repair Unit and Optical School and designing medical equipment for the doctors.

It was for the latter work that Mr. Hantzmon and Mr. Kleinhen, machinist, were commended in 1949 by the Commanding Officer of NH. The Orthopedic Department (then under CAPT Kreuz) desired a new type of spinal retractor. The matter was brought to the attention of the machine shop. In a

George R. Hantzmon

few days the retractors were designed, constructed, and ready for use.

Engraving also comes under the scope of Mr. Hantzmon's talents and he personally did the metal engraving for the new plaque in the board room which lists all the officers that have commanded NNMCM.

Married for 21 years, Mr. and Mrs. Hantzmon live in Washington. Their three children are all married. Mrs. Hantzmon is Civil Service too, working in the Internal Revenue Office. They will both be eligible for retirement in a few years and are making plans to move to Florida when they begin to receive the checks.

Radioactive Isotope And Special Weapons Course Convenes Today

A course in "Medical Aspects of Special Weapons and Radioactive Isotopes" for U. S. Naval Reserve Officers of the Medical and Dental Corps, starts today, Nov. 26, and will continue throughout the week.

This is the first of three such courses to be given at the School during the scholastic year 1951-52.

CAPT J. L. Enyart, MC, USN, CO of the Naval Medical School, announces that a very fine program has been outlined and an excellent attendance is expected. Lectures will be given in the main auditorium.

Members of the staffs of each command are invited to attend any or all of these lectures. Requests for such attendance should be made to the Commanding Officer, Naval Medical School, as some of the lectures will be classified.

Center Chatter

by Frank Winn

Good news for all was received in the form of an Alnav this past week. Effective November 1st Commuted rations and leave rations were raised to \$1.20. Any back pay due to this will be paid 5 December pay day.

Leaving Nov. 12th for the USS TARAWA CV-40, Harry Gold expressed his deepest regrets about leaving NNMCM. This station had become a second home to Harry since he has been stationed here since Corps School. While attached to Center Command, Harry very ably assisted the Chaplains in preparing for the various church services. Harry's personality will be greatly missed by all.

Also receiving orders to sea duty and leaving Nov. 19th was C. D. Smith TE3. During his tour of duty here Smitty was in charge of Western Union and NTX activities directly under the Administrative officer of NNMCM.

Varsity basketball is progressing with much success. The first game was won by NNMCM 64-46 over the Capital Buffalos of Washington. It looks like the first five will be very hard to beat during the coming campaign. Barring too many transfers during the season, it should prove to be very successful.

The biggest event for the last year occurred two weeks ago when Tom Brothers announced that he is getting married. It was almost unbelievable to anyone that knows Tom very well. He carries quite a reputation as a lover in this vicinity. Tom has selected a beautiful Georgia "Peach." No definite date has been set for the wedding but it will be the latter part of this year or soon after the first of next year.

her something to eat and then the talk goes on and on.

Dorothy Fleming and I have started to knit our 1952 Christmas presents. . . . Everyone is talking about our Saturday morning inspections. We're glad we all get to stand together now. I saw Norma Schraeder with her nose buried in the Blue Jacket's Manuel learning the commands.

I hope you all had a wonderful Thanksgiving and I will see you next issue. Until then I remain the girl from the heart of Maryland.

Navy Belles

by George

Someone told me "you missed the news last issue." I was spending 15 wonderful days in western Maryland. When I came back I found many changes and new happenings. Biggest surprise was to find myself a member of the Waves bowling team. After a few games I found out that as a bowler I was best qualified to take care of the teams bowling muscles!

On Nov. 9 we met and talked with Miss Wilson, our new Waves Representative. The formal talk and the later informal talks after the meeting helped get many problems taken care of.

On Nov. 15 we had a bag inspection—the first one ever held here on the station—and such a time — stencils — name stamps — everyone was searching for her clothes, and in the midst of the confusion Ruth Ascher's dog ran off with her shoe!

Just around our house — "Josh" Shook has floor burns from basketball already—A special welcome to Eleanor Furness for hospital staff (she works in X-ray), also Sarah Hanks for ECG School.

The most interesting job of the month: Jerry Bourne has night MAA. You should just spend one hour with her. Everyone brings

Canadian Officer Receives Commission

William E. Noel, Royal Canadian Navy, receives a congratulatory handshake from CAPT J. L. Enyart, CO, Naval Medical School, as he becomes a commissioned officer.

Canadian Student Takes 3 Promotions

It seems that for rates and ranks in the Canadian Navy, the promotion has increased in the estimate of one Canadian Officer. Here, William E. Noel rose from 1st class petty officer to Commissioned Officer (Medical Technician) Royal Canadian Navy, which is equivalent to our ensign, in 3 months.

Mr. Noel was an X-Ray technician in Canada and was sent here to the Radioisotope School Oct. 1, 1950, to attend the 1st class. Soon after, he made 2nd class and on Oct. 15, of this year, received his commission.

Mr. Noel is the second officer in the RCN designated as a Medical Technician Officer. Prior to this, the men that received a commission went into administrative duties solely. Mr. Noel will be one of the first officers to do non-administrative duties which will probably be directing an X-Ray unit when he returns to Canada. When asked his impression of the differences between the two services, he remarked that the only difference he noticed in the medical field is the more diversified training that we are able to receive in their Navy and ours.

ALL DEPENDS ON HOW YOU LOOK AT IT! By RAZ

NNMC Contributes Over Four Thousand To Community Chest

The Red Feather Campaign at NNMC was completed on Nov. 15 with the following results reported by the component commands:

NNMC	\$ 765.45
NH	1,818.20
NMS	700.18
NDS	540.85
NMRI	838.45
NSHA	125.50
Total	\$4,788.63

Last year, NNMC contributed \$6,052.00 which was in excess of the assigned quota. This year there were no quotas due to a new policy of the Department of Defense.

RADM G. H. Fort, Commandant of the PRNC, acted as Chairman of the PRNC drive and appointed a Vice-Chairman at each PRNC activity. RADM W. J. C. Agnew, CO, NNMC, was appointed Vice-Chairman here. Under his leadership, each command appointed a Division Chairman. Those appointed were: NNMC—LCDR F. S. Haslam, NH—CDR Fred A. Butler, NMS—LT Henry R. Delaney, NDS—CDR R. C. Millard, NMRI—CDR L. A. Barnes, and NSHA—LCDR John M. Rutter.

Admiral Agnew expressed his appreciation to all Division Chairmen, Keymen, and contributors for the splendid operation in behalf of this worthy cause.

Cartoon Nets Corpsman AFPS Award

The above cartoon is reprinted from *The Oak Leaf* by permission of the cartoonist Roy A. Zetterholm, HM3 on duty at USNH, Oakland, Calif.

Zetterholm was awarded the Armed Forces Press Service "Pat on the Back" for one of his cartoons in *The Oak Leaf* in recognition of "outstanding natural talent, creative ability, industry, and use of subject designed to boost service morale in general."

Zetterholm served over three years in the Navy in World War II, spending two years with the Fleet Marine Force, Fourth Division. In addition to the Purple Heart, he wears the presidential unit citation with a blue enameled star.

He was studying at the Academy of Advertising Art prior to his recall to active duty in January 1951. In May 1951 he was stricken with Poliomyelitis and began his cartooning for *The Oak Leaf* while he was on the sick list.

This was his first attempt at cartooning and he met with a lot of success. He was recently presented a citation letter by CAPT J. N. C. Gordon, CO at Oak Knoll Hospital for his work on *The Oak Leaf*.

Editor's Note: The Center News will welcome any cartoons, submitted as well as poetry, or articles of interest. Contributions may be sent to the Special Services Office, Bldg. 23 or call the Center News Office, Ext. 581, and the contributions will be picked up.

NMRI Sends Jachowski To Tropical Med. Meet

LT Leo A. Jachowski, MSC, USN of NMRI presented a paper on, "Filariasis in American Samoa and its Evidence of Transmission Outside of the Villages," at the meeting of the American Society of Tropical Medicine, Congress Hotel, Chicago, Ill., Nov. 15.

LT Jachowski, a Parasitologist, has wide experience in filariasis and elephantiasis having specialized in research studies of these diseases. He recently returned from Papeeti, Tahiti where he attended a conference of experts on filariasis and elephantiasis.

LT M. A. Stirewalt, MSC, USN and HMC A. S. Evans, USN of NMRI, were also on hand at the meeting to monitor the panel display "Cercarial Penetration Studies (Schistosomes Mansonii)."

HM2: You say you read a good book, met a good girl and had a good night's sleep?
HM3: Yeah, but I didn't have a good time.

LT Hewitt Gets Commendation Letter For Setting Up Blood Processing Unit

Reprinted below is a copy of the letter written by W. Randolph Lovelace II, M.D., Chairman, Armed Forces Medical Policy Council, the Secretary of the Navy, describing the outstanding performance of duty by NNMC's Personnel Officer, LT Wayne B. Hewitt, MSC, USN.

At the same time, Mr. Hewitt received a copy of the Secretary of the Navy's reply which stated that the following letter had been forwarded to BuPers for entry in Mr. Hewitt's record.

"Dear Mr. Secretary:

"As you know, soon after the beginning of hostilities in Korea, it became necessary to prepare for and begin shipment of whole blood to the Far East Command within a very short time. This necessitated the establishment of a receiving and shipping point at Travis Air Force Base, which is the Military Air Transport Service terminal. This involved setting up laboratory facilities where the blood type could receive a final check, and where refrigerated storage and packing facilities could be made available to meet the exacting conditions of temperature, etc., necessary to preserve blood while in transit.

"Arrangements for receiving, checking and air shipment to the Far East were necessarily exacting, since the total life cycle of whole blood from the time it is drawn until it must have been used is but 21 days.

"LT Wayne B. Hewitt, MSC, USN, was assigned this task and reported to Travis Air Force Base on 25 August 1950. He supervised the rehabilitation of an abandoned hospital mess hall into a complete blood receiving and shipping point and trained the necessary personnel to the end that in 28 days the first shipments of whole blood to the Far East were made.

"The excellence of the planning is reflected in the fact that over 120,000 units of blood have passed through this laboratory since that time, with a high degree of efficiency and dispatch.

"LT Hewitt and his staff have upheld the highest traditions in the military service and I take great pleasure in bringing to your attention this outstanding achievement." Signed W. Randolph Lovelace, II, M.D.

This is not the first time Mr. Hewitt has been commended for his work in establishing a whole blood processing laboratory. He was cited by the Commandant of the 12th Naval District for his work in 1944 and '45 when he set up the Navy's first whole blood processing laboratory in the basement of a Red Cross building in San Francisco.

Later he and the crew moved to the Oakland Naval Air Station when the increased demands for blood necessitated expansion. Blood donations from the entire West Coast were processed through the facilities at Oakland.

There is a lot of work involved between the time blood is donated and the time it reaches the wounded man. Perhaps many servicemen know only that they received blood when they needed it. Mr. Hewitt has the satisfaction of knowing that he was instrumental in seeing that they got it in time.

A Chinese laundryman had a toothache and telephoned his dentist for an appointment. "Twenty-three all right?" asked the dentist.

"Tooth hurtee, all right," the laundryman replied, "Now, what time I come?"

Visitor: "Live here all your life?"
Native: "Don't know, ain't dead yet."

Not Much Research Involved

by R. Conaway

A hearty welcome to the men who recently reported about J. E. Proffitt, S. A. Goodhue, T. Pasquith and R. C. Kutchara. J. Van Beeber didn't stay at NNMC long enough to become really acquainted. He arrived here four weeks ago and departed a week for duty on the USS S.

M. A. Sylvester, HMC, ship over again for another six years. Vic Carncross has earned the of "The Sherman Billingsley the Chief's Club. He can usually be seen greeting the guests of club, and generally making everyone feel "at home."

There is a certain Chief in Pharmacology who has been receiving quite a few calls from an unidentified "Miss." Seems that she is the way he wraps packages at Giant. Or maybe it is his new cury!

Ralph Havranek claims that is in the dog house, but can't think of a single reason why. Now he's heard everything.

Do I hear the faint tinkling wedding bells in the distance? certain DT3 has been asking if possible to support a wife on third class pay. Latest of the search Crew to don the "ball chain" was H. Bruntmeyer.

A new slant to the old "hit eye on the door knob" excuse introduced by Bob Zimmer who claimed that his shiner was the result of an unfortunate run with some briar bushes while was playing football.

C. J. Sylvester is taking a Metal Course at the Kensington H.S. and is really turning out some pretty work along these lines.

Dr. Wheatcroft of the Division tried to remedy the "price of meat" situation by taking a big slice out of his finger last night. He is now known as "finger-Wheatcroft."

R. Van Belois is off on 30 days leave to get in some deer (or deer?) hunting in the wild Michigan. Just bring back venison and we'll believe you.

Just a short note to the friends of P. L. Davis, HMC, formerly of the Rad. Tech. Div. Dave and Boots are the proud parents of a 7 lb. baby boy born Nov. 9. Baby will be called "Lior" of course.

Coach's Corner

Tom Brothers goes up for two.

Tom Brothers Coaches Varsity This Year

holding down the dual position of coach and first-string guard on the NNMC varsity basketball team this year is Tom Brothers, HM3. A new-comer to station athletics, NNMC sport fans will remember him as the Admirals' short stop and '50; quarter-back for the team. Brothers, who have won the intramural honors the last four consecutive years; and in last year's basketball season which took second place in the ADW league. After basketball season was over last spring, Tom played in with the Navy All Stars. He held down the short stop position on the Gaithersburg nine last year. After graduating from Fairport High School in Fairport, N.Y., Tom attended Cornell University where he played first-string basketball, football, and baseball for two years before joining the Navy. The rusty-haired athlete took 10 months off from his job in the NNMC office this fall to attend a course in basketball coaching at the Naval Academy. Under his coaching, the Admirals have been working two-and-a-half hours, four days a week. "With a little hustle, they can be on top," says Tom. More than "a little hustle" was shown Nov. 15 when they took the Capital Buffaloes 64-46 in their game. It will be the next chance to command the Admirals in action home game. And speaking of Thanksgiving was a pretty important one for Tom this year—his 25th birthday.

The other night I dropped in to watch the Varsity keglers in action against a strong Receiving Station squad, and was mighty pleased with what I saw. Bob Jaeger has gathered the cream of the Center's mineralite players in Meitl, Vinson, Oxford, O'Keefe and Taylor, all of whom can step over the 200 mark. Chief Meitl anchored the bowlers with a 197, 216, 217, a nice score to tie and a tough set of digits to topple. Dapper maroon and gold shirts with "NNMC SQUARE KNOTS" blazoned across the back are quite in keeping with the smoothness of the teams' performance and the hirsute attainment superimposed upon its superior labium of team members.

The winter season ushers in a sport known round the world as truly one of American origin; played in backyards, church basements, barns, and magnificent stadia — basketball owes its conception to Dr. James Naismith. While an undergraduate at Springfield College, Massachusetts, Jim Naismith was searching for an interesting indoor sport to fill in a dull season between football and baseball, since the athletic student was little interested in gymnastics. A game was sought which possessed the characteristics of football, baseball, soccer; in other words, personal contact, the element of chance, in which scoring opportunities could be crystallized from an opponent's miscue. The first game was played in an enclosure with peach baskets serving as hoops and a soccer ball served as the playing instrument. As high as forty players were on a side at one time, but as the popularity of the sport increased the number was officially reduced to nine, thence to five as found in present play.

Back in the Twenties, such names as standing forward, standing guard, and center tip were common verbiage on the basketball floor, today those phrases are shrouded in the mists of antiquity. In football, there are systems of play such as the single wing, double wing, "T," split "T" so there are in basketball styles of play: single post, double post, two out-three in, continuity patterns of offense. Defense changes in basketball just as rapidly as in football. Thus in the former we have have a 2-1-2, 2-3, 1-1-3, 1-2-2 zone and the switching man to man; in football, the 5,6,7 man lines with diamond and box formations in the secondary.

Today a coach looks for height, weight, coordination and a shooting eye in all his candidates. In forwards, he would like to find a good big man, about six-four, with cat-like agility, fine shot with either hand, clever ball handler who thinks well and plays the ball with the technique of the late Houdini. You can compromise on a smaller man with the fellow in the preceding sentence in the forward wall and have a five-ten boy as his running mate, provided that the latter also has a nice set from the corner and can employ a clever dribble on the fast break.

Name coaches will agree that the center is an important wheel in present day basketball. He should be a big, rugged individual who is A BEAUTIFUL BALL HANDLER with most teams working off the sides of the key. The center has to have weight so he will not be easily jostled out of position and afford a target for the passes which come his way. In addition to his ball handling he must have rubber legs in order to control the offensive board with his follow up shots and the defensive board for rebounding to his forwards.

Guards generally hover around the six foot mark with an aggressive fast style of play coupled with the ability to know when to make a pass, where to make a pass, and when to hang on to the casaba. The guard is the quarterback of the ball club with the confidence of every player that he will make the right pass at the right time so that they can cut or feint their defensive players out of position to enable a teammate to enjoy a scoring opportunity. As the season gets underway you will note that guards are among a teams leading scorers, for, as the defense is pushed back against the baseline, he alone has the opportunity to dart up the key or loft one in from the free-throw circle.

Choice of system of play varies as to the type of material which reports to the coaching staff, changes in the rules, changes gained from experience on the part of the coach but, unlike football where the "T" may be used next door to a campus where the system is revolved around the double-wing... basketball's style of play is indigenous of the geographic location where it is played.

A classic example of this is the one hand shot. In San Francisco in and around 1922 a bunch of 120 pounders playing in the city playground league vowed they would go through a season using one hand shooting... they did... won... and every high school boy in town came to the conclusion that he could get away more shots under tight guarding using this style... within few years the college boys were doing it and the Coast became one-hand conscious... a few University teams toured the East, one of which was Stanford with the services of Hank Luisetti... the East, long the inner sanctum of two-hand set shots, thought such shooting a fad doomed to certain death, but when team after team came out of the West and Southwest with one hand shooters... a boy gifted with accuracy from either hand soon found his way onto Eastern team rosters. Western quintets employed the fast break, Eastern squads the set-pattern style of offense in which scoring opportunities developed from excellent ball-handling and feinting.

During the past four seasons of play in the Southern Conference and the Eastern Intercollegiate, most teams employed a long pass out to cut off as many defensive men as possible, if the situation developed where the offense could outnumber the defensive players by the margin of one. If the fast break failed to materialize the ball was advanced over the center line and set formations were used to score.

In the Washington area, American University employs a shifting zone defense in which each player is assigned an area on the floor for which he is responsible. The guard in that particular zone is charged with the ball handler as long as the latter remains in the area. The theory is that since there is only one ball in the game, there will be only one ball to cover in any given zone. The success of this defense is based largely on the INABILITY of the offensive players to make fast, perfect passes. Naturally, if poor passes are made the defense is in perfect position for the fast break. Penn, Long Island can employ this style very effectively when indicated. The zone defense can be broken by fast ball handling, overloading an area with more than one player and possession of long set-shot artists who can burn the twine with three out of five from mid-court and the sidelines.

Commanches Receive Winning Trophies

Individual trophies and personal congratulations from RADM W. J. C. Agnew go to the members of the Center Commanches for their fourth consecutive capture of the intramural crown.

George Funk, co-captain, receives the team award from Admiral Agnew which will be placed in the trophy case in the Recreation Bldg.

Left to right behind George are Dick Morrison, Pat Wynne, John Woods, and Gene Devol. Co-captain Tom Brothers stands in front of Harry Gold in the center of the picture while Frank Winn is shown on the extreme right. Only partially shown are Pat White and Joe Katchmaric.

Two Waves' Teams DS Officers' Power Bowling Up Storm Felt by Lab Team

Bowling has created quite a stir in the Waves Barracks this year with the team rosters reflecting many names never before entered on the regular team sports. "George" McElfish broke her seven-year record as a non-participant and became a member of Schraeder's Team No. 2, remarking that it was ruining her reputation as "the Waves' most faithful rooter."

Competing against Quarters K on the 14th, the Bethesda gals went down, but gave the visiting Waves a run for their money in the middle set. There is still some controversy about the handicaps, but the pin score showed Quarters K taking.

(Continued on page 6 Col. 4)

The NDS Officers opened the 1951-52 Intramural Basketball League in impressive fashion as they whipped the yellow shirts from Lab School 42 to 34. Lacking the height for backboard control, they relied on aggressiveness and the deadly accuracy of forward, Dr. Snyder to accomplish their mission. Tied at 14 apiece at the end of the first quarter, Dr. Snyder pumped in five sets early in the second canto and the half saw the winners enjoying a five point bulge.

The second half found the teams matching bucket for bucket but the winners outdueled from the free toss line and the final gun had them in front by eight points.

Man to man defense is the more popular form of guarding a goal with most coaches. A team that has been well scouted affords an opposing mentor the opportunity of assigning his players by virtue of speed, aggressiveness, and shooting characteristics to cover opponents in an effort to checkmate their offensive abilities and capitalize on their defensive habits. Nat Holman tells his players never to switch or shift opponents unless there is a positive block. Defense occurs on a man BEFORE he gets the ball and not afterwards. In the next game you watch, observe how often the defensive player allows the offensive player to catch the ball, then slide up and try to guard him.

Offensive tactics vary; in main "give and go" is the essence of every attack. The ball is passed to a teammate and the passer runs by the receiver having the pass returned while his teammate screens, or he places a block for the receiver and the latter cuts around. General impression among the fans is that the "fast break" represents "harum-scarum" wild and reckless form of basketball. Nothing is more misleading as the fast-break offense requires correct ball handling and players on well coached teams follow definite lanes, traveled as correctly as television performers move on chalked areas in the studio. A set formation of deliberate play is very effective against a man to man defense and dwells upon possession and control of the ball until there is an opportunity for an easy shot at the basket. Much of the success of this method of play depends upon weaving to create screens, feints, sharp changes of direction; in essence to make every move and step count... Yes, basketball is here to stay.

Your Navy Exchange Dollar

Navy Exchange Gains Come Back to You Through Welfare and Recreation Funds

Editor's Note: This is the second of three articles to show you what happens to your Navy Exchange dollar. The following article explains what happens to your dollar after purchasing at Navy Exchange. The final article will give a breakdown of how your recreation money is spent.

As shown in the last issue the dollar that you spend in Navy Exchange serves you in two ways. First, you save money on the goods and services you buy. Second, the profits made on goods and services sold are returned to you through Welfare and Recreation. Most of the profit that Navy Exchange makes is returned to you in entertainment and recreation. The Claude Thornhill dance, the basketball team, the NNMC News, athletic equipment, Radios, TVs, and the library are a few of the facilities made possible by your purchase at Navy Exchange.

In an analysis of your two-way stretch dollar:

The largest percentage of your dollar (74.9%) is for the wholesale cost of the merchandise while 19.2% of your dollar is for expense of running Navy Exchange. The 5.9% is returned to you through recreation.

In the last fiscal year from July 1950 to June 1951, the profits of Navy Exchange were \$56,855.75 of which \$51,533.83 were turned over to the NNMC Recreation Fund and \$5,301.92 went to the Central Recreation Fund maintained by Chief of Naval Personnel since it was in excess of the allowable amount that could be retained on this station. The BuPers Central Fund is used for recreation on stations less able to support their own program.

The reason for the stringent control of patron privileges is apparent. Without the Navy Exchange, your Recreation would suffer, you would lose the chance to purchase goods at reduced prices and might forfeit the opportunity to purchase these goods without state taxes. Exemptions from state taxes alone save the servicemen five million dollars a year. Therefore, do not abuse your exchange privilege.

Citizens in general, including the retail merchants, support the idea of granting special benefits to members of the Armed Forces so as to make a service career attractive; but most of them strongly and understandably object to any practice which threatens civilian business.

Any serviceman who lends his card to an unauthorized purchaser not only risks disciplinary action, but—more important—jeopardizes the entire exchange privilege for all service personnel. It takes only one violation of regulations to make a case that could penalize all servicemen everywhere. It is therefore the responsibility of every person in uniform to refuse to take part in unauthorized exchange practices.

CAPT Enyart Commends Ferguson's Contribution

Charles H. Ferguson, HM2, prior to being separated from the service, received a Letter of Commendation, Nov. 13, 1951, for being "an industrious, conscientious, and untiring worker" from his Commanding Officer, CAPT J. L. Enyart, CO, NMS. Research on the principles of determining the amount of amylase and lipase sugars with stricter controls was one of the contributions which led to the award.

Ferguson had duty here for two years and seven months and his work consisted mainly of pathology and teaching.

In civilian life, he plans to make use of his naval training and is going into commercial laboratory work.

News Shorts

(Continued from page 1)

at Uline Arena. Servicemen in uniform will be admitted to all Washington CAPS Basketball games and Washington Lions Hockey games at Uline Arena for \$5.00. Admission for wife or girl friend will be full price, but seats will be together. After seeing the hockey game, those interested in ice skating may skate for a full hour free.

Kopps Musical Varieties will bring their top Variety show to NNMC again Sunday Dec. 9. The show for December will have a Christmas theme featuring a choral group.

The wives of staff and student MSC and HC Officers of the Naval School of Hospital Administration held a get-acquainted luncheon at the Commissioned Officers Mess on Nov. 15.

Wave Gives Reason For Choosing Navy

Annette Ann Tillotson

"It all started when I went to the Post Office to get information about joining the Civil Service," says Annette Ann Tillotson, HN, explaining why she joined the Navy. Sounds like a rather round about way to get into the Navy doesn't it?

Tillie, as she is called by her friends, is from Santa Barbara, Calif. She completed high school there, majoring in drama and secretarial work, and was employed for two years as a secretary, and was planning to be married.

Up to that point her story sounds like that of thousands of other American girls. But then Tillie reached the point, which most of us reach sooner or later, when she sat down and tried to figure out just what she wanted out of life. She knew she wanted to see more of the world than her own home town. She knew she wanted more than a high school education and yet she knew she couldn't afford to go to college.

It was then that a friend suggested the Civil Service which would offer her an opportunity to travel. The idea appealed to Tillie and it was while she was at the Post Office getting a folder with this information that she turned around and found herself face to face with a Navy poster.

"That's for me!" said Tillie, and a few minutes later she was well on her way to becoming a Wave. The spirit was willing, but the months were lacking, and Tillie spent four months in the inactive reserve waiting for her 20th birthday when she would be old enough to enlist.

April 10, 1950, one day after she was 20, Tillie became regular Navy. After boot camp at Great Lakes and corps school at San Diego (where she graduated second-highest Wave) she came to Bethesda for duty.

Tillie has worked on the dependents' ward here for over a year now. At present she works on the Service Womens' Ward 129. She has had her chit in for overseas duty for quite some time now, with her eye on the Pacific Theatre, and has hopes of getting a school in her next hitch.

Tillie likes to swim, play golf, dance and this fall she was a member of the Waves volleyball team. Now she bowls once a week with the Waves team.

Asked why she likes the service and why she plans to stay in, she explained that she likes the group feeling, the security, and the opportunity for travel. She says hospital work has taught her to appreciate life and health and the value of enjoying each day as it comes along.

Anyone interested in hearing a positive philosophy on life should talk to Tillie, who personifies her own philosophy of "Live each day as if it might be the last."

Coduto Performs Versatile Duties

"Are you having lack-of-girl trouble? Need a date for the dance? Well, I have a little number here that might suit you perfectly." William A. Coduto, HM2, USNR, is a teacher in Electrocardiographic Laboratory who believes in taking care of his corpsmen. He not only teaches Photographic ECG Technique, is Master-at-Arms-for students, but, also, seems to act as a clearing house for dates in and around Washington for his crew.

Bill is a South-side Chicagoan, one of nine children, and formerly, before recalled on Sept. 26, 1950, a salesman for Triangle Appliances, a wholesale house for electrical appliances in Chicago.

He went to EGG school at Farragut Naval Hospital, Idaho in 1944. From there, was sent to Seattle and then to points West by ship. While his ship was being loaded at Formosa, Coduto and two Quartermasters decided to look over the island, having liberty until 0200 the next morning. By hitchhiking, they were able to go far into the island.

Shortly before liberty was to expire, they found themselves lost in the heart of the island. Finally, able to locate a native Police Station and by sign language tell their difficulty, the three were returned to their ship just prior to the end

William A. Coduto

of liberty in a couple of jinrikishas pulled by two Japanese. In 1946 Bill was separated from the service.

Basketball and football are Bill's favorite sports with home movies being his hobby.

He expects to be discharged in July 1952 and when he returns to the South-side of the Windy City, after a few months vacation to recuperate and catch up with his former friends — female and male — he hopes to again sell electrical appliances.

Bowling

(Continued from page 5)

ing the lead 615-448, 569-498, and 671-515.

Team captain Schraeder emerged high bowler for Bethesda with a three-game average of 141, and high game score of 148 against the high game of 152 turned in by Quarters K's Ginny Mahon.

Team No. 2 included Connor,

Rowell Trades Cast For Ball and Chain

Robert Glenn Rowell

"If you can't win fighting it out" is the philosophy of Robert Glenn Rowell, HM2, the Master-at-Arms of annex two this month.

Glenn, as he is known, usually works in allergy clinic where he has been for twenty-eight months. There, he types up case histories, using the famous Rowell's finger method and administers intracutaneous skin tests and electrical induction tests for asthma. Luckily, not being allergic himself, the solutions that he works on do not affect him.

Born in Macon, Ga., Glenn, now in Arlington, Va., where he attended grade and high school. He went to college at George Washington University, Washington, D.C., for three years at the School of Pharmacy; he joined the Navy in 1944, receiving his boot and corps school training at Great Lakes. From there, he was sent here for duty, and, soon after, he began to work in the allergy clinic.

His hobbies are drawing, collecting stamps, the piano, and collecting a family.

Glenn had some bad luck soon after meeting the girl who was to be his wife. One weekend in 1944 he was invited to go home to Leesburg, Va. with a friend of his, Joseph Grow, HN, who is now stationed in Japan. After he met Grow's sister, he decided to return to Leesburg, Va. more often. A few dates later he resolved to drive up and pop the question. However a car wreck halted the proposal and Glenn was a patient for eight months. It was still a patient, under orthopedic treatment, that he put the ring on her finger and after a cast was removed, he attached the ball and chain.

Leininger, McElfish, Pietrangeli, Schraeder, and Tillotson. Last week they met Walter Reed there and this Wednesday they will travel to Ft. Belvoir.

Chief Puffer's team No. 1 cancelled the scheduled Nov. 14 game but paid Ft. Belvoir a visit last week and day after tomorrow will challenge the Ft. Myer Headquarters Co. there.

ADM King Celebrates 73rd Birthday

CAPT Enyart, CO, NMS, RADM Agnew, CO, NNM, and CAPT Hogan, CO, NH, congratulate FADM E. J. King on his birthday.

Famous Leader Looks Forward to 80

Fleet Admiral Ernest J. King celebrated his birthday on Tower with a small party and cake on Nov. 23. When Admiral King saw the number of candles on the cake, he remarked the number was a little short, the cake contained only 14. He said that he expected to celebrate birthdays for quite a few years with a special celebration on his

The cake was cut by Admiral King and, with the assistance of Mr. Flanagan, the tower superintendent, served to all present.

Admiral King graduated from the Naval Academy in 1901 with distinction. After a tour of duty returned to the Academy as an instructor in the Department of Finance and Gunnery. During the First World War, he served as Assistant Chief of Staff of the Commander in Chief, U. S. Atlantic Fleet.

He has been Commander of Submarine Division Eleven and was Commander of the Submarine Force at New London. From 1933 to 1936, Admiral King served as Chief of the Bureau of Aeronautics. In 1939, he received his permanent rank as Rear Admiral.

In 1941, he assumed command of the Atlantic Fleet and, shortly thereafter, Commander of the U. S. Navy.

In 1942, President Roosevelt nominated him as Chief of Naval Operations and he assumed command of that office March, 1942.

Admiral King is the holder of many honorary degrees, multiple decorations and awards by fraternal organizations. He is the bearer of three Distinguished Service Crosses, the first for his work as officer in charge of salvage operations of the USS S-51 and the USS S-4 in 1925 and 1927, the second, for the work on the USS S-1 which went down near Provincetown, Mass., and, the third, for his service during World War II. Admiral King also has two Gold Stars plus a Gold Medal.

Devil's Disciple Slated Wednesday

George Bernard Shaw's play, the "Devil's Disciple," will be presented in the NNM auditorium, Wednesday, Dec. 12 at 1930, by a talented cast of the Montgomery Players.

Frances Spruce, experienced director, will be in charge and promises a topnotch performance from the cast.

Lovely Ann Dougherty will play Judith and Charles Boas will play her minister husband, Anderson.

Barbara Love, child star of the Hollywood opus "Child Wonder," a few years ago, will play Essie, the nameless waif. Another pair or perennial troupers, the Days, will be on hand—Doris as the puritanical hypocrite, and Irving as Hawkins, the family lawyer.

Huston Dixon (the liberal professor in "Goodbye, My Fancy") will be enjoyed in a good scene as Uncle Titus and Bruce Davis will play the Sergeant.

Major Swindon will be played by Harlow Weller, while Christy, the simple minded brother, will be done by Jack Keller, a talented youngster who has played with Mount Vernon Players and the Westmoreland group. Frank Heine-mann, with several big parts to his credit will concentrate on the small part of Brudenell, the chaplain.

that was presented to him by Congress in 1945 for his outstanding service during the Second World War.

Admiral King has six daughters and a son, LT Ernest J. King Jr., USN, who is stationed at Annapolis.

Kids Have 2 Shifts For Santa and Gifts

"A Merry Christmas, A Merry Christmas." These words will again ring out in the auditorium when the annual Children's Christmas Party is presented at NNM.

Santa and his Brownies are coming to the auditorium on Saturday Dec. 22 for all the children of staff, navy and civilian. The children will be in two groups alphabetically arranged (last name A to K and L to Z) with the first group at 1300 and the second group at 1500. This is necessary because of the large number of children expected to attend. Watch for posted particulars later.

Santa is expected to have an over-flowing pouch full of presents and stockings for all good children of NNM.

Why don't you children make certain that your parents get your names to the Chaplain's office to insure your being on Santa's list?

Everybody is invited to join in the spirit of the occasion; come and see the kiddies as they get their presents from Santa. Don't forget the date and time as arrangements are being made to insure everyone a good time.

Bergen And Charlie Arriving Next Week

Edgar Bergen: "One day you're making love to Betty Grable, Linda Darnell, or Lana Turner and the next day, Poof! You're a has been." "Ah," sighed Charlie McCarthy, "but where you has been."

Edgar Bergen and Charlie McCarthy "has been" here before and are returning to NNM on the afternoon of Dec. 19 when they will entertain in wards and the auditorium in the evening. The singing of Carol Richards, accordionist Dominick Frontierre plus distribution of gifts are on the schedule when the USO Camp Shows, Inc., through Armed Forces Professional Entertainment Branch of the Department of Defense, visits the hospital.

Am. U. Players Bring 'Season's Greetings'

The American University Players touring company will present the road version of "Season's Greetings" in the NNM auditorium sometime during the holidays. Watch for time and date.

"Season's Greetings", built loosely around a Christmas theme, is the story of the presents which little Susan receives in a special visit from St. Nick. All told, Susan receives 12 living Christmas presents in the form of singers, dancers, comics, and magicians.

Handel's 'Messiah' Here Friday Night

The Mount Vernon Place Methodist Church Choir

85 Voice Choir Brings Oratorio To NNM Dec. 14

The *Messiah*, Handel's most successful and best known oratorio, will be presented in the NNM auditorium at 1930, Friday, Dec. 14.

Patients who are unable to leave the wards, will still be able to enjoy this musical treat as the *Messiah* will be broadcast throughout the hospital over channel C.

Approximately 85 voices comprising the Sanctuary Choir and the Angelus A Cappella Choir of the Mount Vernon Place Methodist Church, Washington D. C. will present this stirring Christmas program under the direction of Dr. R. Deane Shure.

Soloists for the evening will be Bob Stewart, tenor; Margaret Barnwell, soprano; Rea Winters, alto; and Gene Barnwell, bass.

Organist will be Eleanor Allen.

The director R. Deane Shure, considered the foremost living composer of church music today, was born in Chillisquaque, Pa., and received his degree from Oberlin College in 1907, followed by additional composition with Wolff and Draeseke in Dresden, Germany.

Dr. Shure has more than 165 published compositions and has had world premiers in the following: *Circles of Washington*, played by the National Symphony Orchestra; *Berkie Symphony*, played by the National Symphony Orchestra; *American Symphony*, played by the Rochester Civic Orchestra; *Choric Symphony*, played by the Harrisburg Symphony Orchestra; *Damascus Vignettes*, played by the Marine Symphony Orchestra.

A highlight in Dr. Shure's career was the invitation to play his own *Palestine Suite for Organ* in Jerusalem in 1934.

CDR Clyde Pennington

New Chief Nurse Reports for Duty

"A very wonderful hospital and an excellent group of nurses, doctors, and corpsmen." This was the first impression that Miss Clyde Pennington, CDR, NC, USN, the new "chief nurse" received after arriving here from Chelsea. Miss Pennington relieves CDR Kathleen Smith who was transferred to Chelsea Naval Hospital.

Miss Pennington was first appointed in the Naval Nurse Corps in 1931 after finishing her nursing training at Emory University School of Nursing and was ordered to Portsmouth NH in Va. for her first Navy duty station.

Her duties, outside the continental limits of the United States, have been Cuba, USS Relief, and Base 9 hospital in Oran, Algeria during part of the war where she was Chief Nurse. Before leaving, she received a Letter of Commendation from the Commander, U.S. Eighth Fleet, for the fine job she did.

The rank of CDR was made at Chelsea in 1949 and from Chelsea she was transferred here and reported aboard NNM Saturday, Nov. 24.

A No-Accident Holiday

The Christmas and New Year holiday season, a period of good will, gaiety, and resolution, is also a period of carelessness which has resulted in marked increases in accidental death, injury, and damaged or demolished property. The leading causes of destruction and devastation are motor vehicle accidents, home accidents, and fires.

All hands must recognize the extra hazards to avoid becoming involved in accidents during the holiday season. Both as motor vehicle operators and as pedestrians we must exercise greater precautions because streets and highways will be slippery; all traffic flows will be doubled by shopping and partying; and drinking drivers will be on the road. Personnel planning to vacation at home should apply their safety training in order that the acts which usually cause home accidents and fires may be recognized and avoided. Come back to your job refreshed after enjoying a NO-ACCIDENT holiday!

In Memorium

December entered slyly
Hidden 'neath Autumn's cloak
We hardly felt her presence,
For not a word she spoke
But lingered in the shadows
Of a softly falling mist,
That danced upon the flowers
November's sun had kissed.

But 'ere the night was over
She threw aside her guise,
And soft mist turned to icy rain
That fell from leaden skies.
Red-gold leaves, now muddy brown
Clung to sodden earth,
Severed from the naked trees
That once had given them birth.

From the north came chilling winds
That changed the rain to snow,
And lay an ermine mantle
On barren scenes below.
A cold dawn broke next morning
On a snow-capped country side;
A white and silent tribute
To Autumn — who had died!

R. Conaway, NMRI

Letter To Santa

By Dick Schambach, HN, NH

Dear Santa Claus: Assuming that you really exist, Would you kindly put a grownup, just for once upon your list? Nor hold it in resentment if he's sometime been inclined To question your existence, for a man may change his mind. I've read of mental science and of telepathic waves, And other things that show how strangely nature oft behaves. I've followed some great student far aloft beyond the stars, 'Til I really feel acquainted with the people up on Mars. My skeptic mood has vanished, for solemn thoughts I pause— If all these things be true, why then, why not a Santa Claus? I dimly recollect it was the custom long ago To take a pen as Christmas Day drew near to let you know Exactly what would please your correspondent, so that you Need not be worried guessing as to what 'twere best to do. I shall not ask for sweets or toys to rob the children's store, But, Oh, I'd like to have my old-time appetite once more. And I'd like to have some sunshine of the kind that used to gleam, Thru my window when the waking was far sweeter than the dream. And I'd like to have my hope and faith and smiling as of old— Please give me back my rainbow that shone o'er a pot of gold. I thank you in advance for such attention as you may bestow on The above request.

Yours truly,
OLDEN GREY

LCDR Haslam On TV Disaster Critique

LCDR Floyd S. Haslam, MSC, USN, Administrative Officer, NNM, appeared on television Friday Nov. 30 at 9:30 p.m. The broadcast, which originated in the Dumont studios in the Harrington Hotel, Washington, D. C., showed the critique which met to discuss the Nov. 25th simulated disaster exercise.

The Civil Air Patrol of Bethesda, an auxiliary unit of the U. S. Air Force for the Metropolitan area of D. C., conducted a simulated disaster exercise Nov. 25. It was assumed that a catastrophe (allegedly an atom bomb) had struck Washington D. C. and NNM which was not damaged was absorbing a large number of the casualties.

Since blood replacement is a major therapeutic factor in overcoming the effects of radiation, it was necessary to obtain additional blood supplies to augment that on hand.

The Civil Air Patrol made actual plane trips from Frederick, Md. to the Congressional Airport supposedly carrying the blood supplies. They were met by the Bethesda-Chevy Chase Rescue Squad which rushed the needed blood here.

The program was constructively reviewed on the Friday night broadcast with LCDR Haslam representing NNM.

Nov. 28—Richard Arthur Patsos, 3 lbs., 12 oz., new son of Cornell Richard Patsos, HN of NNM Post Office.
Nov. 29—Mark Griffith Evans, 8 lbs., 10½ oz., new son of LT Floyd G. Evans, DC, of Post Graduate Course, NDS.
Nov. 29—John Martin Saul, 7 lbs., 4½ oz., new son of Walter J. Saul, HMI, USN, attached to NMS.

The Chaplain's Corner

by Chaplain Bronnie E. Nichols

The Worst Heart 'Disease' Known to Man

A letter that recently came to my attention closed with the statement, "May God forgive you. . . I cannot." The contents of this letter are immaterial except for the fact that they reveal that the writer is suffering from a heart 'malady' of the worst kind. . . 'Hardening of the heart,' or in other words, an unforgiving heart. Another Scripture name for this 'disease' is 'a stony heart.' Those afflicted with this malady usually are totally blind to their condition and if made aware of it, always blame someone else for their having the 'disease.'

Neither medical nor physical science, pretends to offer a cure. Psychologist and psychiatrist may be able to 'analyze' it, and the philosopher may 'philosophize' about it, but neither of these can offer a remedy. This 'disease' is no respecter of persons or positions, it has victimized kings and paupers, the educated and the ignorant, the strong and the weak.

This 'disease' has turned brother against brother, parents against children, children against parents, nations against nations, Hell against Heaven, and would if Satan (the father of the disease) had his way, turn Heaven against every human soul. Against the ravishes of this terrible malady man stands utterly helpless unless he is willing to turn to the Great Physician for a generous supply of the 'Grace of God' and a 'new heart' to replace the 'stony heart,' as is promised in His Word, "I will take away the stony heart. . . and will give them a new heart." (Ezek. 11:19)

Fortunately for all concerned there is no 'price tag' on the 'Grace of God,' "It is a gift of God," the Apostle Paul tells us, "not of works, lest any man should boast." (Eph. 2:8, 9) The 'disease' is indeed terrible, flee from it, for the Master himself said, "If ye forgive not (have an unforgiving heart), neither will your Heavenly Father forgive you." (Matt. 6:14)

There is much in the world today to induce the spread of this 'hardening of the heart' if we look at things through the eyes of the world. There is much pride, arrogance and hate, all opposite the humility of soul that brings one to the feet of the lowly Nazarene, who was born in a manger, and who died on a Roman cross.

More Crafts Available for Patients

Pictured above is the Handicraft cart on Ward 5-C. Choosing an article to make is Sgt. A. E. Frantum, USMC, and aiding him is Mrs. Edward C. Sasnett, Gray Lady.

NNMC Increases Handicraft Funds

The Red Cross craft program is now booming! Due to the generosity of the NNM Recreation Council, the Gray Ladies are able to carry out more extensive ward coverage than they formerly were.

When the Red Cross budget was cut, it naturally meant that there were not enough models, felt animals, leather articles, etc. to meet the demand. When a request was made to the Recreation Council to supplement Red Cross funds for patients' use in the craft program, they quickly agreed to do so. A certain amount from the station recreation fund is set aside for this purpose each month, with all supplies going directly to patients.

If you are interested in making a nice model boat or plane, a beautiful leather wallet or maybe some earrings or bracelets for that best girl or wife back home, watch for the craft cart to visit your ward. Don't forget the soft felt animals which make an ideal gift for a child, and the cute stockings and mitten bean bags!

If you are an ambulatory patient and would like to visit the craft shop to see all of the projects which are available, you will find it on the second deck in room 205B near ward 6C.

Dental Wives Entertain Baptist Home Children

After school on Tuesday Dec. 18 the children of the Baptist Home in Bethesda will be the guests of the Navy Dental Wives of Washington at a Christmas party. A gift from Santa, cartoons, ice cream cake, and other goodies are a few of the pleasures made possible by this organization.

The Officers' Club will be the first stop where they will receive refreshments. At 1630, they will be taken to the auditorium where movies will be shown.

Following this, Santa will appear with the list of all the good children and pass out gifts to the deserving youngsters.

A recruit was on guard with specific orders to admit no car unless it bore a special tag. He stopped a tagless car bearing high-ranking officer. The guard heard the officer order his driver to go right through, and calmly said: "I'm sorry, sir, but I'm new at this. Who do I shoot, you or the driver?"

HM1: "She seemed like a good sensible girl."
HM2: "Yeah. She didn't pay any attention to me, either."

Marines Get Awards for Aerial Action

Upper picture: 2nd Lt. John C. Jones is congratulated by RADM W. J. C. Agnew.
Lower: Major R. W. Johnson shakes hands with Admiral Agnew after receiving the Gold Star.

Johnson and Jones Total 191 Missions

Major Richard W. Johnson, USMC, a patient on Tower Eight, was awarded the Gold Star in lieu of the 12th Air Medal for action in Korea while participating in aerial flights as a pilot and flight leader of a F-86E Fighter Squadron from April to June 1951.

Major Johnson completed 159 missions in combat against the enemy over Korea, resulting in damage to enemy vehicles, material, and personnel. He has four Air medals and 4 Distinguished Flying Crosses in addition to the Gold Star.

His plane was hit July 4, 1951 by enemy aircraft fire and though he was able to reach his base, he required medical attention and, shortly after, was evacuated to the States.

Second Lieutenant John C. Jones, USMCR, was presented the Gold Medal by RADM W. J. C. Agnew for outstanding service while participating in aerial action as a pilot attached to a Marine Fighter Squadron in Korea.

At Jones completed 32 combat missions, inflicting damage and aiding ground support.

CPO's Are Planning Kiddies Xmas Party

Turkey dinner and the trimmings, ice cream, cake, candy, toys, gifts and Santa Claus. Where? At the CPO Kiddies Christmas Party to be held at the O-Club, Wednesday, Dec. 19 at 6:00-1800.

For whom? 100 children—some from the Christ Child Convalescent Health Farm on Rockville Pike and children of enlisted personnel whose parents are on the seas or overseas.

How? By donations from CPOs and organizations but mainly from the windfall of Chief Eric Taylor manager and treasurer of the CPO Club, who did "strike it rich" on the CBS "Strike It Rich" program.

The boy and girl with the best portrait from Christ Child Farm will receive a gift, from Santa with an electric train for the boy and a sewing kit for the girl.

The hosts at the party will be the CPOs and their wives. Contributions are still being received for the party with the cake being donated by LCDR C. B. Hart and the ice cream by Mrs. Brookheim the accountant of the Officer's Club.

News Shorts From the Editor's Desk

Clothing and Small Stores announces a decrease in prices as of Jan. 1. For example, peacoats will sell for \$32.00.

Effective Dec. 1, the Clothing and Small Stores was relocated in the basement of Ward 137.

A picture of CAPT B. W. Hogan, Commanding Officer of NH, followed by a brief biography appears in the December issue of *The Sign*, the National Catholic magazine.

LTJG Harry J. Dennis Jr., DC, USNR received his permanent appointment as LTJG, USN Nov. 29. He was sworn in by CAPT A. H. Grunewald, Executive Officer of NDS.

CAPT Carl H. McMillan, MC, USN, Executive Officer, NH, represented NNMC at the Eleventh Annual Conference of the Maryland-District of Columbia-Delaware Hospital Association held at the Hotel Statler, Washington, D.C. Nov. 26-27.

CAPT A. H. Grunewald, DC, USN, Executive Officer of NDS, and CDR R. B. Wolcott, DC, USN, Director, Training Aids Section, NDS, were guest speakers at the Montreal Dental Club Meeting in Montreal, Canada on Nov. 21, 22, and 23.

Chief Murphy is now in charge of the Thursday bingo nights at the Chiefs' Club since Blakemore received orders for Cairo.

President Approves Four for Promotion

The President has approved the selection for promotion of a number of Naval officers to captain and commander. Selected from NNMC are:

To captain

Frank E. Frates Jr., DC, USN, Officer in Charge, Dental Technician Repair School.

To commander

John J. McGowan, CHC, USN, Senior Catholic Chaplain, NNMC; Stephen A. Grady, DC, USN, Assistant Director of Clinical Services, NDS; and Minnie Overton, NC, USN, nurse in charge of Occupational Therapy.

Also selected for commander is Charles L. Crawford, MSC, USN, Executive Officer of the Armed Forces Regulating Office, BuMed. LCDR Crawford was Administrative Officer, NNMC, under RADM M. D. Willcuts 1948-51.

MAT4 Student Dance Combines Good Menu and Band

Turkey and ham buffet dinner served from 0730 to 0830, dancing until midnight to the music of a Navy band from the School of Music plus beer, coke, and Seven Up. Sounds wonderful? It was. The dance was the Medical Administration Technician Class 4 student's dance in the gym Friday night, Nov. 29.

Canadian Attache Visits Admiral Agnew

Commodore H. Nelson Lay, Naval Attache of the Royal Canadian Navy is greeted by RADM W. J. C. Agnew, CO, NNMC, Nov. 29. The Canadian officer came to pay his respects to Admiral Agnew with whom he discussed medical problems of common interest to the two Navys. Commodore Lay is attached to the Canadian Legation in Washington, D.C.

Chief McQueen Becomes LT McQueen

New LT McQueen is congratulated on his commission by CAPT J. L. Enyart.

On Saturday, Nov. 24, 1951, William C. McQueen was commissioned as LT, Medical Service Corps, for the second time and officially congratulated by CAPT J. L. Enyart, CO, NMS. From Chief to LT to Chief to LT is the history of Mr. McQueen, the former Chief Master at Arms of NMS.

Mr. McQueen joined the Navy in 1924 and made ENS in July 1943, LTJG in 1944 and LT in 1946. In 1947, he reverted to Chief and was transferred to USFR. After transferring he went to Lincoln University Law School. In August 1950, he transferred to USN as HMC and after a hitch with Pacific Reserve Fleet activating ships was sent to Bethesda and became

CMAA of NMS. On Nov. 24, 1951, he received his commission as LT.

Hospital Corps Personnel Officer, Property and Accounting Officer, Medical Records, Administration Assistant, and Civil Readjustment Officer are a few of the duties that LT McQueen has done.

His home is in Alameda, Calif. where his wife now lives.

Civil Service Workers Get Awards and 20-Year Pins

Front Row: Mrs. Mildred Hynes, Mr. Leo J. Wilkins, Mrs. Alice Sylvester, Mrs. Clara Young, Mrs. Lena Warner, RADM W. J. C. Agnew, Mr. Norman Garvin, Mr. Joseph Almond, and Mr. Honesto Crisostomo.

Back Row: LCDR Eugene Stevens, Mrs. Jesse McEntee, Mr. George R. Hantzmon, Mr. Camden Windham, Mr. Oscar Cleckley, Mrs. Linda Felix, Mr. Larman G. Lewis, and Mr. William Wright.

Beneficial Suggestions Net Cash Awards

Beneficial suggestions paid off doubly Nov. 26, when the civilians who had contributed labor, time, or money-saving ideas, were awarded for their efforts in a ceremony in the Board Room.

Rear Admiral W. J. C. Agnew, CO. NNMC, presented the civilian employees with their letters of commendation and award checks. At the same time he presented 20-year pins to 17 employees.

Mrs. Linda W. Felix, secretary to CAPT E. F. Evans, Chief of Medicine, NH, was awarded the Superior Accomplishment Step increase and a letter of commendation for outstanding performance of work. This resulted from her receiving an outstanding performance rating from her superior. This was the first time such an award has been made at NNMC.

A check for \$20.00 went to Mrs. Lena B. Warner, ward attendant on 127, for her recommendation that home-size vacuum cleaners be purchased to facilitate the cleaning of patients' rooms.

Mr. Norman Garvin, Engineman from the Power Plant, was awarded a check for \$10.00 for suggestion on how to prevent the loss of feed water in the engine room. He also received a letter of commendation for the numerous other suggestions he has submitted for the Power Plant.

Mr. Joseph M. Almond, Quartermaster in the Power Plant, was awarded a letter of commendation for the entire Power Plant for the number of beneficial suggestions turned in.

Twenty-year lapel pins were presented to four ladies and thirteen men for their time in the Civil Service.

The four ladies were: Mrs. Mildred G. Hynes, NMRI clerk stenographer;

Mrs. Jesse McEntee, NMS clerk stenographer; Mrs. Alice Sylvester, NMS clerk stenographer; and Mrs. Clara Young, NMS editor (Med. Science).

Twenty-year men were: Mr. Thomas H. Bern, Maintenance Div., Head Gardener; Mr. Oscar Cleckley, Commissary Div., First Cook; Mr. Honesto Crisostomo, Maintenance Div., Truck Driver; Mr. George R. Hantzmon, Maintenance Div., Head Machinist; Mr. Harry J. Johnson Jr., Maintenance Div., Engineman; Mr. Larman G. Lewis, Commissary Div., Chief Butcher. Also: Mr. Robert G. Madert, Maintenance Div., Firefighter (Gen.); Mr. Edgar J. Swisher, Research Institute, Toolmaker; Mr. Price T. Walters, Maintenance Div., Painter; Mr. Camden Windham, Disbursing Div., General Supply Clerk; and Mr. William T. Wright, Maintenance Div., Truck Driver.

Decisions as to whom are to receive awards are made by the Committee on Awards and Incentives, which is appointed by the Commanding Officer. The present committee includes: Chairman LCDR Eugene Stevens, NNMC Finance Officer, and members: LT I. V. King, NMRI; Mr. John Stringer, NMS; Mr. E. P. Vollmer, NMRI; Mrs. Helen W. Martin, Civilian Personnel; Mr. Robert L. Williams, Maintenance; and LTJG W. L. Cartier Jr., NSHA.

Good Conduct Medals Go to 23 Men

In front of Bldg. 1 of the Medical Center, 23 men of the Naval Medical School were presented with the Good Conduct Medal by CAPT J. L. Enyart, CO, NMS, on Friday, Nov. 23. Appearing with the group are CAPT J. L. Enyart and LT E. W. Walker, the Administrative Assistant, who aided in the presentation. The Chiefs receiving the awards are: (l. to r.) John S. Mason, HMC; Chester B. Blakemore, HMC; Thomas R. Martin, HMC; and Del Thrasher, HMC, for whom this was his fourth award. Middle row: (l. to r.) Joseph B. Baxter, HMC; Edward L. Erickson, HMC; Michael M. Dietch, HMC; Lloyd Flewelling, HMC; Joe R. Fowler, HMC; Austen A. Eckmyre, HMC; and Richard D. Kemp, HMC. Last row: (l. to r.) Melton S. Martin, HMC; James L. Meeker, HMC; William R. Milbeck, HMC; George W. Millard, HMC; Edward M. Moore, HMC; James I. Myers, HMC; John F. Reynolds, HMC; Walter J. Saul, HMC; Ralph E. Sweeney, HMC; and Nelson L. White, HMC.

Not Much Research Involved

by R. Conaway

Things are quiet around the Institute lately. Everyone is trying to put his "best foot forward," at least until after St. Nick's visit is over. I hear that Chief Carncross has asked Santa to bring him a fur cap for Xmas. "Hammy" Brooks would like a violin!

A certain HMI in the Bacteriology Division is thinking of trading his Renault in for a Cadillac. Then we have Mabel Eller trying her hand as the "Clara Lane" of the Institute, or so I have been told.

There are rumors going around that the C & P Telephone Company is seriously considering the matter of installing a private switchboard for Morrison. He has earned the reputation of "Casanova of Bks. 142," and as such, is in dire need of such a service.

Silvers sure covers lots of ground in his taxi; so does Havaraneck for that matter. There is a certain lad in the Personnel Office, one William Wood to be specific, who felt quite piqued cause we never mention his arrival at NMRI. Said lad reported here in May, 1951 — has since become the proud papa of a baby girl — and he is presently looking forward to joining the ranks of "certified civilians!"

Before I overlook anyone else, let me list the latest arrivals at the Institute. Stephens S. Stankus, from Anacostia; J. V. Davenport, Receiving Station, D. C.; Otho Hon, Oakland, Calif.; W. Stewart, NMS; C. L. Hudspete, and T. A. Lauritzen from St. Albans; and J. M. Pearce from Coco Solo, C. Z.

Ex-chief Taylor, now LTJG, sure looks swell with those gold stripes on. Congratulations!

It was good to see LT I. V. King walk into the Institute today for a visit. Mr. King has been a patient at the Hospital, where he underwent an operation last week, and we all hope he will be back to duty in the near future.

Psychiatrist: "That habit of talking to yourself is really nothing to worry about."

Patient: "Perhaps not. But I'm such a bore."

"My wife says if I don't give up drinking she'll leave me."
"Gosh, that'll be pretty bad, won't it?"
"Yeah. I'll miss her."

Lab 18 & Serology Dept. Manufacture Navy's Only Supply of Kahn Antigen

Bldg. 111, one of the garage buildings near NMRI, was converted into a serological laboratory Thursday, Nov. 28 with 40 students of Lab 18 busy extracting the fatty substance from dried beef hearts by means of ether.

Due to the high explosive danger involved in the ether extractions, the work could not be done in the hospital. This job was the first step in the manufacture of Kahn antigen (reagent used for syphilis tests). NNMC Serological laboratories furnish the only supply of Kahn antigen for the entire Navy.

Only two companies in the United States furnish the dried beef heart powder from which antigen is prepared. The supply for this operation was obtained from Detroit. Due to the perishable nature of the powder, it had to be flown in air mail special delivery after first being O.K'd by Dr. Kahn, the originator of the test, at the University of Michigan at Ann Arbor.

After the temporary lab was set up, and all the glassware and equipment scrupulously cleaned, the forty-man crew worked all day extracting the non-antigen lipoids (fatty substances) from the beef heart powder.

For this process 210 pounds of ether were necessary to complete the extractions on 20 pounds of the powder. It takes 20 pounds of raw meat to make one pound of powder which sells for \$20.00 per pound. This operation utilized approximately 400 beef hearts.

The Serology crew is now busy with the rest of the process. The powder is extracted with ethanol, cholesterolized, and adjusted to proper sensitivity by dilution with

cholesterolized alcohol and a sensitizing reagent.

After about two weeks work in the Serology lab, the antigen is titrated and then submitted to Kahn's laboratory for approval. Then it is shipped out to ships and naval establishments all over the world.

Antigen is made here two or three times a year as the supply is needed. This particular operation will net about 30 liters which will be made into both presumptive and regular antigen.

About 50 liters of presumptive antigen is made here each year. It is used to advantage, this is enough to run five million tests. When the results of a presumptive test are positive, a second, more sensitive standard Kahn is run. NNMC produces 24 liters of standard antigen a year which is ample for 720 thousand tests.

An interesting side light of the antigen manufacture is that the left-over beef powder has been found to serve as an excellent plant fertilizer. However, those who have experimented with it, report one drawback. So far they have thought of no way to remove the meat flavor, and whenever it rains, all the neighboring dogs and cats consume more of the powder than the plants do.

Intramural Basketball Results

RESULTS			
NDS	48	X-Ray	24
NSHA	66	Center	29
X-Ray School	33	N.P.	32
NDS Officers	36	X-Ray	24
Lab School	37	NSHA	32

STANDING			
NDS Officers	2	0	1,000
X-Ray School	1	0	1,000
NDS	1	0	1,000
Lab School	1	1	.500
NSHA	1	1	.500
Cardiology	0	0	.000
Research	0	0	.000
Center	0	1	.000
N.P.	0	1	.000
X-Ray	0	2	.000

Boasting decisive victories in the last week of play, both NDS Officers and the Naval Dental School give that group two positions on the top of the heap in the Intramural League.

Beaver's quintet was held in check by Fisher et al from X-Ray for the first half but they opened the gates in the third period and with Durham hitting with seven buckets, they sewed up the decision. Lust shared scoring honors with Durham as he popped for 14.

NSHA, featuring height and the clever ball-handling Chief Fast, easily downed Center whose six-man squad was pulverized with weariness by the fast breaking MATs. Bennett, Fast and Davis all hit double figures in the scoring column for the winners while Rollins was outstanding for the losers.

In an overtime thriller, X-Ray School edged N.P. 33 to 32. The game was a see-saw affair throughout with every player hitting the hoop. Tied at 30 all at the end of regulation time, X-Ray sneaked ahead on a charity toss by Castillo. N.P. countered with two points on a drive-in by Wetherington. With but seconds remaining,

Adams set from the side and the issue was settled.

The NDS Officers won their second straight when they downed X-Ray 36 to 24. As in their previous encounter, it was the hel-shot, Dr. Snyder, who led in the killing.

NSHA went right to work on Lab School and led 22 to 13 at the end of the first half. But Coach Gutekunst had revamped his style of play and the Lab Men went to work in their job of whittling Holding Chief Fast's quintet to 5 points, Thornberg, Bell and company hit the ribbons to bring the score to a deadlock at the three-quarter mark. With deliberateness they continued a defensive mastery over the Purple Shirts and garnered sufficient two-pointers to win their uphill struggle.

Coach's Corner

A few nights back, the Second Annual Center Table Tennis Tournament was held in the gymnasium. Four tables were set up in the middle of the basketball playing floor with ample room for the players to move without colliding. Adding a professional touch to the event, was the presence of Andrew Yslas who juggled the tenets of the game during the day at George Washington University's School of Law and handled the plastic platters with equal aplomb and to give all the contestants a touch of music by Ralph Flannagan.

One of the aforementioned contestants started tapping the celluloid around the 7,560 square inches of playing area at eight bells with all Brothers outlasting the field to win first place. As you can see the entry sheet, play was close throughout the field. In the upper set, Rol Richards the well known apothecary from the prescription counter, of Chief Eischeid demonstrated mastery of the deep baselines which Evans of the NP service. Rol's skill in interpreting the various means of penmanship that cross the counter of a pharmacist stood in good stead in solving the attack of R. W. Morrison of the Board.

Sgt. Tolbert of the fly, was tangled with Rol in an aerial circus, the ball being returned in one case fifteen times before the navy officer walked off with Sgt. Tolbert's Fifty Mission Crusher, sangfroid all. Swivel-hipped Woods, a gridiron stalwart of the Commanches, displayed cat-like agility in bouncing from one corner to the other in pursuit of the celluloid as Richards banished J. C. to the vers.

The lower bracket draw pitted Cornell Brothers in a ding-dong encounter with Jackson Reynolds, the running mate of Chiefs Taylor Murphy. Tommy opened up with the tactics that eventually carried through to the top; a hard, deep serve to the far corner, a return forecourt followed with a smash to the baseline. Having tasted a hard victory, Tom coasted by Scribner to meet Taps Ford whose cell is the envy of the other side of Bldg. 123.

Brothers threw the book at Taps, with cross-court shots that had s on one knee. forehand smashes that drove Ford fifteen feet in the table with the latter returning ball after ball with Brothers says pressing for the kill. Upstate New York relegated the Jersey

Varsity Cagers Shakedown With Six

Coach Tom Brothers took his Admiral Cagers on a good shakedown the past two weeks with six games. During their run they toppled the speedy Capitol Buffaloes twice, the Bethesda-Chevy Chase Rescue Squad a like number of times and single wins over the smooth skyscrapers of Fairchild Aircraft and the Finance Section of the War Department.

These encounters enabled the player-coach to shuffle his men into different combinations, positions and his efforts should bear many victories in the forthcoming Interservice League.

With but three members of last year's fine squad available, Coach Tom had many troubles in knitting his unit. Ron DeVice, a newcomer who played three years for Villa Madonna College of Kentucky, possesses finesse aplenty and a deadly accuracy with his sets, and paired up with "Curly" at guard forms a fearful twosome.

Jack Wilson, another newcomer who is attending Optical School, is a rangy forward with plenty of spring in his lower limbs and paired with Big George Funk the matter of rebounds should assume as-set proportions.

Gene Devol, Stellar defensive

star of last year's quintet, will take care of the Center slot and altho he is scheduled to head west shortly, he'll be around to help the Admirals get off right.

Capable replacements are Long John Pickett of Lab 18, the clever ball handling Ross Cox from Pharmacy School, Fighting Frank Winn from Disbursing, Hooker Bob Diggs, former Randolph-Macon luminary; the kid who makes the floor steam, Steve Blasher from the Linen Room, "One Hand Beaver" Beversdorf from Dental, Loren Conyers from Optical School and the Tower Twins, McNeil and Allen.

The first home game for the Admirals is set for Tuesday the 11th with their foe listed as Fort McNair. Game time is 2015 and there are plenty of seats on the 50. BE THERE.

Varsity Bowling Takes Vint Hill

After a slow start, the NNMC Varsity Bowling team has taken on coal and is building up steam. The intramural teams are being cased for material while the Varsity team is smoothing out to where they are a threat already.

On Nov. 26, the NNMC team defeated the Vint Hill Farms Station by pounding the maples for a total of 2535, with games of 829-859-847. HMC Meitl took high game and series with 205-169-185 for a grand slam of 559. HMC Bird was stepping close with a 542 series with games of 150-201-191. In on the victory, were HN Taylor, 180-169-163, with a total of 512, LT Jaeger, NNMC Bowling Officer, with 152-162-148 totaling 462, and HMC O'Keefe with 142-158-160 coming to 460.

On Monday, Dec. 3, the team traveled to Fort McNair who had won 5 and lost 7. The tough game will be tonight when Fort Belvoir who has taken 15 with only 3 losses will come to meet the varsity. On the following Monday, Dec. 17, Fort Myer, who has collected 11 with 4 losses will be here while, on the seventh of January, MATS will take on the NNMC Tenpin Kings.

Entered in the MAISAC League, the Varsity team has taken all three games from MATS, USS Williamsburg, and Vint Hill Farms, while winning one and losing two to Naval Receiving Station and Arlington Hall. With Fort Myer and Naval Radio Station, the team has dropped three with no wins.

Waves Take First With 31-14 Game

NNMC Admiralettes invaded the Ft. Belvoir courts last Monday night to walk away 31-14 victors in their first league basketball game.

Nonnie Hawkins, new addition to the guards, was the team's main asset, as she combined skill, height and graceful agility in setting the pace for the smoothest string of guards the team has sported in several seasons.

Gert Hobson was in there all four quarters with Hawkins playing an excellent game, too, while forwards Shook and McQuarrie alternated in the center guard position. Pat DeBarry, newcomer to the Admiralettes and basketball too, went in in the fourth quarter to play like a veteran.

On the shooting end of the court, the forwards broke through the defense to sink 15 baskets with Shook, Crouch, McQuarrie, Madsen, Allen, and Aldrich alternating turns at the target. Shook scored 10 points, 6 of them in the last quarter, while Crouch, McQuarrie and Madsen took six apiece. Aldrich came in late in the game to score the only free shot of the evening.

Next league match will be at Henderson Hall this coming Wednesday when the Admiralettes will tangle with the 12th Hq. Marines at 1930.

bounce to the sidelines to meet another tartar from Dental in the person of Ronald Wiffin whose ability to twirl a plaster spatula was not up to the wrist action Tommy has developed in handling a rubber stamp in the post office.

The Finals found two weary aspirants for the throne, Rol Richards of the pharmacy and Cornell Brothers of the cancelled stamp department, both masters of the spike, cross-court, cut, overspin, float and baseline drive, volley and backhand, all in the vernacular of the 9 x 5 boys.

Both netters opened up with caution, content to keep the ball in play until a point score of 11-11 was reached. Brothers returned a high overspin deep to the baseline, Richards essayed a weak return to forecourt and Tommy moved in for a spike with all the agility of a suburbanite catching the 5:15. the gate was opened and Tommy moved through the three game series confident in his aggressive tactics to upend Rol Richards and win the coveted first place.

Jim Atkinson suggested that Wiffin and Woods play off for third and fourth positions and that they did in a best three-out-of-five match which saw the first game reach 23-21, the second, 21-19 and the final proved too much for the tiring Woods who bowed to Ronald Wiffin with a 21-11 game.

Chalks Up Two More

George E. Funk

Record Book Reads As Sports' History

The high scorer in football, playing as end for the Commanches, for the last two years, and the second highest scorer in basketball is merely part of the record of one of the best all-around sportsman on the compound, George E. Funk, HM3, of NNMC command.

Already in the first two varsity games, this six feet, two inch center has piled up 26 points to again take honors as second powerman on the team.

In Sunbury, Pa. High School, George was a four letterman, participating in baseball, football, and basketball. Soon after graduation, he received offers from Kings Point, N.Y., and Susquehanna University, Pa. However he was in the service by this time and was unable to take advantage of the offers.

His Navy career began at Great Lakes and, after boot training and corps school, he was transferred here to the hospital. After a short time, he was again transferred to NNMC Command where he worked in Property and Accounting and, soon after, Special Services, where he is now.

His sports history reads like a records book. As end with the Center Commanches Football Team, he was high scorer and co-captain for two years, played for four years with the NNMC Admirals Basketball Team as center and guard and was second highest scorer for the last two years and was catcher four years with the NNMC Admirals Baseball Team.

He also played with the Gaitherberg's Semi-pro team as catcher when they won the championship this year.

His ambition is to play pro ball and he has an opportunity when he is discharged for a tryout with the Washington Senators at their spring training camp.

Three fractured ribs playing football with the Commanches in the last game of 1950 were the only injuries that George had while participating in sports.

Wave: "You remind me of the ocean."

Sailor: "On account of I'm so wild, magnificent and romantic?"

Wave: "No...because you make me sick."

Battleship Chief Makes Commission

CAPT Wilber E. Kellum congratulates Mr. Taylor upon his appointment to LTJG, MSC, USN.

Chief Repeats Rank At NMRI Ceremony

In a ceremony held in the commanding officer's office at NMRI, Leonard L. Taylor was recently appointed LTJG, MSC, USN. In the Navy since 1931, Mr. Taylor has seen varied service here and abroad, and in the course of his travels has been in every state of the Union and in every continent but Asia.

This is his second time to be appointed to officer rank, having come up from HA in 1931 to LTJG in 1946, and reverting back to Chief in 1947. His service record reads like a "Who's Who" in the Battleship line, having served at one time or another on the USS West Virginia, Arizona, Nevada, New York and Arkansas.

During the early part of the war, Mr. Taylor had duty aboard the USS *Polaris*, and was later with the Sea Bees in Newfoundland. He attended Medical Field Service School at Camp Lejeune in 1943 and was later attached to the Malaria and Epidemiology Unit of the 7th Fleet serving in Australia, New Guinea, Admiralty Islands and the Philippines.

Mr. Taylor is presently assigned to the Physiology Division of NMRI where they are engaged in the study of frostbite injuries.

Waves Bowling Team Wins Seven for Five

Due to confusion as to the correct handicaps of the Women's Interservice bowling league, no team standings are available.

Schrader's Team No. 2 dropped their three games to the Ft. Belvoir team Nov. 28. Clarkson was high scorer with 122. Most interesting aspect of the match was the performance of Ft. Belvoir's Lt. Fuller. After bowling her first game of 193, she broke her glasses. Unable to see the pins, she still bowled 179 and 143 while her teammates kept her informed as to how many pins were standing and what position they were in.

On the same night, Chief Puffer's Team No. 1 won two out of three games on pin scores against the Ft. Myer Headquarters Co. Ruby

Navy Belles

by George

Signs of Christmas: All sorts of funny shape boxes and packages bulging out of lockers and from underneath the bunks... 'Mother' Schrader making big plans for a Christmas party on Christmas Eve for those of us who have the duty... Maggie McQuarrie, our new night MAA, going into complicated mathematics and discovering she will net three dollars out of her next check after she buys the rest of her Christmas presents...

The girls have been singing Christmas carols in the recreation room. Any girl interested in a strictly non-professional choral aggregation is invited to come. Altos are especially invited so Delores Amott can go back to singing soprano again.

The first Waves' inspection made some show on the base. We are waiting for our turn to be section leader after hearing that each of us will have a turn hugging the platoon.

Welcome to three new Waves for hospital command: Joyce Crouch, Dorothy Hale, and Florence Ault. Marion Habel and Shirley Dennett shipped out for Hawaii. "Tillie" Tillotson got her orders and checked out—out of hospital command to center command.

The basketball team looks good and will look better when they have a few more chances to practice and get the positions definitely settled. Josh Shook still plays most of the game from the floor. She's off taking 10 days in Alabama now.

'Til next time I remain the girl from the heart of Maryland.

Salloum was high scorer with 124.

On Nov. 21 Walter Reed forfeited to Team 2 while Team 1 took two out of three from the Ft. Belvoir team.

Next home games will be Dec. 19 when Team 1 meets Ft. Myer WAFs here and Team 2 bowls against the Ft. Myer Drivers. These will be the last matches before play resumes again Jan. 16.

Dental Explorer

by C. Connor

Well it looks as if some of the charter members of NDS are back with us again, so many of the people saluting the bridge these days have been exchanging hand-clasps with old familiar faces.

Say did you know—that one Dr. Scribner, is forced to admit that next to dentistry (of course) he is a would be red hot piano player. A famous "Sherwood" fan to say the least.

Congratulations are in order for LCDR S. A. Grady and CDR F. E. Frates—who in line with the Xmas season received their call from Santa a wee bit early this year; the new year will see them as CDR S. A. Grady and CAPT F. E. Frates.

Dr. Johnson sure has been giving Bing Crosby a run for his money these days, the shirt he was seen wearing recently almost caused us to visit EENT; blinders were needed. Oh we musn't forget the hat too—

Dr. Gardner has been playing Santa these days. As the song goes "All I want For Xmas is my Two Front Teeth;" well, one of his patients sang a similar one to him, inasmuch as he wanted only one front tooth—it will have to be a very long chimney Dr. G.—

Missing One Dental Wave—Maggie has left her molars and bicuspid for night duty in the barracks, now she can work on those doilies and grow those geraniums we've been waiting to see in the Lab.

Never saw so many beaming faces as we've been seeing lately. Do you suppose it has anything to do with the fact that Xmas and New Years' leaves are just around the corner???

Well, just fourteen more days till Xmas, so take another look around Ship's Service for that last minute gift... Once again smooth sailing to all hands from the "Gal From The Hub."

Things Moving Fast To New Locations

What happened? Every place you look the carpenters or movers are busy relocating some office or activity.

Across from the Enlisted Mess Hall an enlargement of the oxygen storage facilities is being added which is 90% completed.

In the mess hall, an air-conditioning system consisting of a centrifugal fan section, a cooling coil system, and air inlets is being installed and expected to be finished near the beginning of the new year. The system will cool 14,300 cubic feet of air per minute.

A new parking lot, under contract, will be located South and North of Bldgs. 122 and 123 which will hold in excess of 250 cars.

The NNMCM Security and MAA office has been moved from the solarium of Ward 137 to Rm. 80 which is near the Post Office in the basement of Bldg. 1. This room was formerly part of the linen room. The linen will now be sent to Rm. 55, the truck loading ramp.

Civilian and Staff Treatment Room will be moved from its location, across from Ward 101 to Rm. 11, Bldg. 6, because of need of greater space and better accessibility.

The young sailor was obviously reeling out a heavy line trying to impress the beautiful young girl at his side. "Those warm lips. And those beautiful eyes! Where did you get those eyes?"

The girl, unimpressed: "They came with my head."

Chain Of Command

NATIONAL NAVAL MEDICAL CENTER

NEWS

DECEMBER 24, 1951

NATIONAL NAVAL MEDICAL CENTER, BETHESDA, MD.

VOL. 7, NO. 24

holy child of Bethlehem,
descend to us, we pray;
cast out our sin, and enter in,
re-born in us today.
To hear the Christmas angels
the great glad tidings tell;
come to us, abide with us,
our Lord Emanuel.

Silent night, holy night!
Bethlehem sleeps yet what light
glows around the holy pair;
Angels of Angels fill the air,
trains of heavenly peace,
trains of heavenly peace.

Silent night, holy night!
All is calm, all is bright
round yon Virgin Mother and
Child,
holy Infant so tender and mild,
sleep in heavenly peace
sleep in heavenly peace.

ans' cette etable
ue Jesus est charmant,
u'il est aimable
ans tet abaissement!

ue dattrait a la fois!
us les palais des Rois
nt rien de comparable
ux charmes que je vois.
ans cette etable!

Three kings of Orient are,
bearing gifts we traverse afar
field and fountain
floor and mountain,
following yonder star.
Star of wonder, star of night,
star with royal beauty bright,
westward leading, still proceeding,
guide us to thy perfect light.

born a king on Bethlehem's plain,
old I bring to crown him again,
ring forever, ceasing never
ver us all to reign.
star of wonder, star of night,
star with royal beauty bright,
westward leading, still proceeding,
guide us to thy perfect light.

Adeste, fideles,
Laeti, triumphantes;
Venite, Venite in Bethlehem;
Natum videte
Regem Angelorum;
Venite, adoremus,
Venite, adoremus,
Venite, adoremus Dominum.

Hark! the herald angels sing,
"Glory to the new-born King;
Peace on earth and mercy mild,
God and sinners reconciled!"
Joyful all ye nations rise,
Join the triumph of the skies;
With th' angelic host proclaim
"Christ is born in Bethlehem."
Hark! the herald angels sing,
"Glory to the new-born King."
Amen.

Morgen, Kinder, wirds was geben,
Morgen werden wir uns freun,
Welch ein Jubel, welch ein Leben
Wird in unserm Hause sein,

Einmal werden
Wir noch wach,
Heisa,
Dann ist Weihnachtstag!

God rest you merry, Gentlemen,
Let nothing you dismay,
For Jesus Christ our Saviour
Was born upon this day,
To save us all from Satan's power
When we are gone astray.
O tidings of comfort and joy,
For Jesus Christ our Saviour
Was born on Christmas Day.

From God our heavenly Father
A blessed angel came;
And unto certain shepherds
Brought tidings of the same;
How that in Bethlehem was born
The son of God by name.
O tidings of comfort and joy,
For Jesus Christ our Savior
Was born on Christmas Day.

The NEWS is printed commercially from non-appropriated funds at no cost to the Government and is published in compliance with NAVEXOS P-35, Rev. Nov. 1945

The NEWS is a member of the Armed Forces Press Service and uses editorial material credited to AFPS. Armed Forces Press Service (AFPS) material appearing in this publication may not be reprinted without written permission of Armed Forces Press Service.

The editors reserve the right to make corrections, changes, or deletions in submitted copy in conforming with the policy of the paper and the Navy.

The NEWS is published twice monthly. Contributions solicited, news items and other communications may be submitted to the Special Services Office, Building No. 23.

At this season of the year when we pause in our normal undertakings to commemorate the birth of Christ, our Lord, let us give thought as well to the great sufferings he withstood that we might enjoy the real and everlasting goodness of those things placed on earth by God for the benefit of all mankind. Let those thoughts cause us to reflect with reverent consideration on the welfare and happiness of our fellow-men and lead us to a greater and clearer realization of the nobility of our mission at this great Center.

We are concentrated at this beautiful site in the Maryland countryside for one great purpose—to provide sanctity and care—to train personnel and evolve methods to make better that care—for those who have fallen wounded or ill in their avowed efforts to protect the great heritage of freedom and equality and happiness granted us by God and insured to us by the sufferings of his son, Jesus Christ.

We of the staff are all contributing in some manner to this glorious undertaking and I believe that we may all rightfully enjoy a feeling of humble pride in knowing of our part in the high calling and greatest privilege ever placed upon man—the care and welfare of suffering humanity.

As Commanding Officer of the National Naval Medical Center it is indeed a pleasant privilege to extend to the ill and injured a sincere wish for an early and complete restoration of your good health—to the naval and civilian staff an expression of sincere appreciation for their faithful support of this noble cause—and to all a very Merry Christmas and a sincere wish for your complete happiness in the New Year.

W. J. C. Agnew

Rear Admiral (MC) U. S. Navy
Commanding

A Requiem

The night is clear, chapel bells are calling
And earth is wearing ermine for the show;
(Across the sea the cannon shell is falling
And twisted figures sprawl in crimson snow!)
Upon the crisp air, carolers' voices singing
Repeat the Christmas tale of long ago;
(The tide is swift - warning bells are ringing
A call to "man your stations" from below!)
Each window pane is trimmed with greenest holly
And gaily colored lights send forth their glow;
(The blinding flash of bombs dropped in a gully
Reflect on surging lines of deadly foe!)
Stars that lit the way that night, still gleaming
Will lead us to the place where Jesus lay;
(Night is long - the silence filled with dreaming
Of home, and those they love so far away!)
The wine runs free in gayest celebration
For Christmas is a time for mirth and cheer;
(In a lonely fox-hole in stark desolation
The wine of life ebbs low - the end is near!)
Christmas Day breaks forth in all its glory
And churches fill with people come to pray;
(Their Mass this day tells another story
A Requiem for those lost in the fray!)

R. Conaway, NMRI

Spirit of Christmas

The Spirit of Christmas enters in
Weaving a spell of magic again,
As in the distant hill, the bells
An ancient Christmas story tells.
Years ago, in Bethlehem town
Hosts of angels from heaven came down
With rustling wings brought to earth,
The story of the Christ Child's birth.
Shepherds on the hills that night
Behold a strange and glorious sight,
And saw the angels crowd the skies
To sing angelic lullabies.
A Spirit born of goodness and love,
A precious gift from God above —
The Christmas Spirit bringing peace
Dwelling in hearts never to cease.
Reborn each year inspiring earth
To celebrate its' glorious birth,
To love, forgive and sing again
"Peace on earth, good will toward men!"
The Spirit of Christmas has entered in
Weaving a spell of magic again
And echoing in distant hill, the bells
The Holy Christmas story tells.

Gloria E. Gosnell, NMRI

The Chaplain's Corner

by Chaplain H. Grady Gatlin

I was born in a stable; nurtured in a world of hatred, and yet, I come to all mankind on the wings of love.
I make glad the heart of childhood.
I banish gloom.
I make the world forget its vexations and sorrows.
I am a friend to the friendless and a companion to the lonely.
I satisfy the anguish and longing of the human heart.
I penetrate the blackness of despair; when palsy of fear grips the soul, I give courage and strength.
I light the candle of hope in the heart of humanity.
I am the embodiment of joy, gladness and happiness.
I am the symbol of what the world needs more than anything else.
I bring light out of darkness; order out of chaos; harmony out of discord.
I am a sublime reality; a creative power in human life.
I am the most powerful force in human experience.
I am the unifier of human values.
I am of yesterday, today, tomorrow and forever; I belong to the ages.
I gave to the world a new ideal.
I brought to the individual, freedom and liberty and revealed to a blind and stumbling and hungry world a God of love and mercy.

WHO AM I? I AM THE CHRISTMAS SPIRIT

In this age of turmoil and strife and instability we are beginning to see that the Christian approach is the only way to the solution of our unsolved problems. If we want our civilization to survive we must fashion it after the ideals of Jesus Christ for his ideals are realistic and dynamic and are applicable to our times.
As a Christian minister I see no other way out.

The Chaplain's Corner

by Chaplain John J. McGowan

On Christmas Day the World commemorates the birthday of Jesus Christ, the Prince of Peace. Isaiah prophesied this blessed birthday and attributed to the Divine Saviour that fitting title. "A light shall shine upon us this day: for our Lord is born to us; and He shall be called wonderful, God, the Prince of Peace, . . . of Whose reign there shall be no end."

The Angels who appeared to the shepherds in the hills that night solemnly yet joyously intoned a song of Peace also. "Glory to God in the highest and on earth Peace to men of good will."

The scene is a simple one, a hopeful one, a peaceful one. A most pure little Virgin miraculously gives birth to her Son, in the calm and quiet of a natural cave, warmed only by the animals that sought shelter for the night in the same place. In that Newborn rested the hope of generations of men, past, present and future, "for this day is born a Saviour."

In the birth of Christ Peace is guaranteed. Peace is promised—"to men of good will."

In the year 1951 the World is still groping and searching for peace. The shepherds of God's flocks and the flocks themselves have time and again listened to the heavenly hymn of Peace and as many times turned deaf ears to its harmonious beauty. They have ignored gone into the God, the source of Peace and Truth. They have rather gone into the council chamber with men rotten with sin and war and hateful deceit. They have stood high in haughty conceit and unbridled pride before the World when they should have been on bended knees in humility before the crib of Christ the Saviour of the World. They have taken Christ out of Christmas and have marked the spot with an "X". They have substituted merriment and sin for the goodness, virtue, prayer, and peace that should be and must be significant of Christmas Day.

Grant, O God, that we who celebrate the birthday of Jesus Christ, Thy Son, may deserve thy worthy living to attain His companionship and everlasting Peace.

December 24, 1951

ADM Agnew Greets Thailand Doctor

Admiral Agnew welcomes Dr. Suriyabongs to NNMCM.

Dr. Suriyabongs Calls United States Land of 'Wisdom, Wealth and Welcome'

Dr. Luang Suriyabongs, M.D. paid a visit to NNMCM Tuesday, Dec. 6. Dr. Suriyabongs, who is from Thailand (Siam), is visiting the United States as a guest of the State Department which sponsors a program to familiarize representatives from foreign nations with our country. After being welcomed by RADM Agnew, the visiting doctor was shown around the hospital by RADM G. E. Vaupel, Chief of Physical Medicine. Dr. Suriyabongs was primarily interested in Cardiology but was equally impressed with the other departments.

Armed Forces Show Features NH Wave

Phyllis McElfish, HM3, of the Physical Therapy Department will be heard over station, WWDC Washington on the Armed Forces Review, Friday night, Dec. 28 between 2130 and 2200. The broadcast will be carried coast to coast by Mutual a half hour earlier (2100-2130).

The story will be presented as a letter with flashbacks to the department during which the department will be explained.

George, as she is known to friends and readers of Navy Belles, will explain briefly the job of her department in physical rehabilitation. Inserted into her explanation will be actual sounds of the apparatus used by the Department and her conversation with one of her patients, Sgt. Charles Geiwitz, USMC.

The Thailand doctor has been on an extensive tour of the U.S. since mid-September. "My first impression," he said, "was that this country of wisdom, wealth, and welcome." He was greatly impressed by the wonders of mass production, mentioning the Ford plant in Detroit, Sears & Roebuck, the traffic in New York which made him "feel very tiny." He immediately noted the position of women in the U.S.—in military, business, and government, and quite amazed when told that American women controls over the wealth of the country. Commenting on the difference between the Asiatic and the industrialized Westerner, he said, "In the East seek happiness in tranquility and try to take life as it comes and live one day at a time. In the West time is of no consequence—everything is transient."

The Westerner is continually striving for future prosperity and happiness, and when the future comes, he is not prepared for it. This causes tension and a sort of cleavage between the mind and the physical organism—body says rest, but the mind says "the future." He attributes blood pressure, heart disease to this constant conflict.

Suriyabongs received his medical education in Heidelberg, Germany and Bern, Switzerland. He was Chief Medical Officer of the State Railroad in Siam. For the last three years he has been a member of the Thailand Senate.

Light Before What?

On the night before Christmas, and all through the streets, grinding of motors, and you the creeps. The homes were all lit, hope, with care, types that the fire trucks wouldn't be there. Children were all peacefully sleeping in their beds, no visions of collisions racing through their heads. Policemen in uniform and the fireman in cap were grimly awaiting the next holiday mishap. Let your carelessness lead the next verse!

CO of Hospital Sends Message To All Hands

On the hallowed anniversary of Christ's Birth as the Divine Prince of Peace, it gives me deep personal pleasure to greet you for a blessedly happy holiday.

I pray that the true American spirit, one of the richest treasures of our common Christian inheritance, may pervade our hearts during this sacred season: the spirit of brotherly love and understanding, the spirit of respect for one another's integrity, race and creed, the spirit of reverence for human dignity. In this truly Christlike manner we can work together freely and easily as true Americans for the common cause of common assistance.

In this spirit the welfare of our patients will be the primary end of all our endeavors; in this spirit our officers, our enlisted personnel and our civilian staff will continue to give of their best towards the ideal fulfillment of this common task which faces us all at this Hospital Command.

Bartholomew W. Hogan
Captain, MC, USN

Perfect Xmas Gift Costs You Nothing

Are you in need of a gift for a patient in the hospital? A service is offered in Room 147 that will, with no charge, prepare, handle and deliver a present that is truly in the Christmas spirit. The gift will be in festive color and be presented to the patient in an air-tight container to maintain its condition.

All charges, no matter how large or small, of handling and delivering will be assumed by the hospital and, on the container, room will be provided for some details of the giver. The gift? A pint of blood.

Three Enlisted Men Make Commissions

Paul J. Sherin Mason A. Nelson Robert V. L'Italien

Red Stripes Exchanged for Gold Bars By Two NSHA Chiefs and One DTI

Ambition and perseverance paid off this month for three enlisted men who turned in their red stripes for gold ones as they became Ensigns, MSC. Taking the step on Dec. 6 were Chiefs Paul J. Sherin, and Mason A. Nelson of NSHA. Robert V. L'Italien, DTI, of NDS (also formerly of NSHA) was sworn in the following day.

Sherin

Mr. Sherin has been a prominent figure here at NNMCM, working in the Personnel and Administrative Office of NMS before becoming a student at NSHA. Scheduled to graduate next June, his new commission changed his plans somewhat and he is now awaiting new orders.

The tall new Ensign was born in New Salem, N.Y. and graduated from high school in Montgomery, N.Y. a year or so before coming in the Navy in 1941. He has seen duty in both the Pacific and Atlantic Fleets, serving on the cargo ship USS Camanga in '44 and '45 and on the destroyer USS Van Valkenburg in 1946.

He also served with the Atlantic "moth ball fleet," helping to decommission ships all up and down the Atlantic Coast after the last war. ENS Sherin and his wife now live in Northwest Park in Silver Spring with their five-year

old daughter and nine months old son.

Nelson

Living just four doors away from Mr. Sherin are Mr. Nelson and family, which includes a boy 3, and a girl 5. A graduate of the last class in Medical Administrative Technique at NSHA, Mr. Nelson was retained on the staff as an instructor in clerical procedures, where he is now awaiting a relief.

He graduated from high school in his home town of Rocky Ford, Colo., before enlisting in 1940. He served on the USS Indiana during WWII for three years and followed this with two years shore duty in the DMO office, Seattle, Wash.

It was overseas again, this time with the U.S. Fleet Activities in Yokosuka, Japan for three years. He reported to NSHA from Great Lakes where he had been working for the Administrative Assistant.

L'Italien

Born and raised in Lawrence, Mass., ENS L'Italien attended college at Cherry Meadows, Framingham, Mass., before entering the Navy Oct. 20, 1945. His first technical training was Hospital Corps School at San Diego and later he trained here at NDS as a Dental Technician in both basic and prosthetic work.

Following this training came duty in the Dental Department at the Naval Station, Seattle, Wash.; USS Ajax; the dental clinic at the Naval Gun Factory, Washington, D.C. and the Dental Division at BuMed. Further training at NSHA was followed by duty as Instructor in the Prosthetic School, NDS, and by his present duty in the NDS Personnel Office.

ENS L'Italien lives in Washington with his wife and two-year old daughter. He didn't notify his parents of his promotion, but planned to go home in civilian clothes this Christmas, and come down for dinner in his new uniform.

The date of rank for all three of the new Ensigns is Nov 8, 1951. They took their qualifying test last May.

Flanagan Band Coming

Ralph Flanagan and his Orchestra, claimed by many to be the finest band in the country, will be here Jan. 14 for a program in the auditorium plus a staff dance. The program in the auditorium will begin at 1800 and the staff dance will start at 2030 and end at 2400.

Artist Explains Somber Abstraction

"The Mind Before Death" is the title of Paul A. Miller's painting. Paul, a patient on an out-ward awaiting action by the Physical Evaluation Board, painted the abstraction in oils in Occupational Therapy. The painting, in black, white, and green, is an attempt to explain man's mind in contact with death.

The woman, intriguing and mysterious, is death. The cloak, surrounding the head, portrays the fact that the mind is hidden, unknown, inscrutable. The storm clouds depict the turmoil of the mind while the rays are the rays of hope, of insight. The dark side of the face represents the subconscious while the light side is the consciousness of the mind. The whirlpool is the mind just previous to death while man is reaching for the ray-for hope.

Another example of Paul's work, in a different vein, will be shown in Washington on Feb. 29 in the Roosevelt Auditorium when the Children Theatre of Washington, under the direction of Mrs. Rose Cowen, will present "Simon with the Long Ears," a musical about a country of fantasy. Miller is writing the music and doing the choreography for the group.

"Gull Wings," a love musical, with "Someday, Somewhere, Somewhere," "Moments Sublime," "Lonely," and "Telling Me," as parts of the score, is another work that Paul is attempting to have published or sponsored.

These interests plus ceramics and interior decorating are just a few of the interests that Paul has and wants to make use of when he leaves the service.

Miller is from Cleveland and received his only formal education in music harmony from a member of the Cleveland Symphony Orchestra. He received no set instruction in art and, mainly learned what he knows by self study.

Paul A. Miller

Audience Entertains Until the 'Messiah'

It's an ill wind that blows no good, and the same applies to snowstorms. Friday night, Dec. 14, the audience who came to the auditorium at 1930 to see the *Messiah* were informed that because of the storms the show could not go on until 2030. The Mount Vernon Methodist Church Choir, parts of which traveled all the way from Virginia through the snow storm not to disappoint the audience, got the show underway at 2110.

Meanwhile the assembled music lovers proved they were something more than just passive participants when they improvised their own entertainment for an hour and a half.

First volunteer was Pfc. Phillip Scimone, USMC, a patient on Ward 137, who sat down at the piano and, without music, played for over half an hour, rendering everything from his own version of Chopin's Polonaise to the Marine Hymn. Before he was through he had the audience humming to his own lively arrangement of "My Happiness."

The audience broke out in full voice when Frank Skiados, HM3 from NMS, began playing Christmas carols. Incidentally, Frank, a reserve called back in September, shipped out last Tuesday for duty on the *USS Repose*.

During the group singing the audience became aware of two voices above the rest: the baritone of Chester Eldridge, DTI of NSHA, and the soprano of Delores Amott, DN, of NDS. Both were applauded up to the front for solos.

Eldridge, whose mother was an operatic singer in Salzburg, Germany, was born in Missouri while his mother was engaged in a recital tour of the United States. He has recently returned from Korea where he took part in the Inchon Invasion and Chosan Reservoir.

Delores Amott, the "Dental Canary," is a familiar voice around the Waves Quarters where she is continually asked to sing her semi-classical numbers.

News Shorts From The Editor's Desk

The Armed Forces Entertainment Wing will present a variety show in the auditorium on Jan. 11 at 1900.

Price lists for women officers uniforms are now available in the office of the NNMC News, Rm. 4, Ward 101, as well as more copies of the price lists for men officers. The representative of the Navy Clothing Factory will not be here again until after the holidays. Watch the Daily Bulletin for the announcement.

LTJG Norman V. Cooley Jr., MC, USNR and LTJG Thomas W. Yetman, MC, USNR were sworn in the Regular Navy by CAPT J. L. Enyart, CO, NMS, Dec. 14. Both doctors are attending the Basic Course in Naval Medicine here.

The Chancel Choir of the Bethesda Presbyterian Church, under the direction of Mr. D. P. Easter, will sing two selections from Handel's *Messiah*: "Unto Us a Child is Born," and the "Hallelujah Chorus" at the Protestant Christmas Eve Service in the auditorium tonight, Dec. 24, at 2100.

Bedside Telephones Furnished on Wards

Just in time to handle the Christmas rush of long distance telephone calls, a new personalized bedside and attended telephone service was inaugurated at NNMC on Dec. 21.

Patients confined to their beds are now furnished portable telephones over which to make and receive long-distance telephone calls daily between 1230 and 2000. Special Christmas Day hours are 0900 to 2000.

Distant cities are connected directly from a specially equipped switchboard installed in the Medical Center, thus reducing to a minimum the delays that normally occur on Christmas when the circuits are jammed.

Patients able to leave their ward are offered the conveniences of the Telephone Center located in the basement between Wards 3A and 5A. An attendant will be on duty Christmas day between 0900 and 2000. Normal hours are daily between 1230 and 2000.

Booths and other facilities are available to meet the telephone needs of hospital patients, including those in wheel chairs, on litters, or with impaired hearing.

To provide bedside service, the Chesapeake and Potomac Telephone Co. of Baltimore City, with the cooperation of authorities at NNMC, installed 342 wall telephone jacks and provided 49 portable telephones, as well as the special switchboard and trunk facilities.

It is hoped that the new service will make long-distance calling more of a pleasure for the patients at NNMC.

Mr. Stringer Accepts Department's Award

Mr. John T. Stringer Jr., Director of Medical Photography, receives a Certificate of Merit from CAPT J. L. Enyart, CO, NMS.

NMS Photography Wins Merit Award

The Medical Photography Department of the U. S. Naval Medical School was recently awarded a Certificate of Merit by the Biological Photographic Association. This Association is the only organization in the world devoted exclusively to the field of Medical Photography. This is the second award received by the Medical Photography Department. A similar certificate was presented after the 20th Annual Meeting last year.

CAPT J. L. Enyart, CO, NMS, presented the Award of Merit to Mr. John T. Stringer Jr., Director of Medical Photography. CAPT Enyart said, "It is a pleasure to see Medical Photography make such rapid strides in the Navy and be nationally recognized. I am sure that the entire Medical Department as well as the National Naval Medical Center joins me in a 'Well Done' to the Medical Photography Department."

Red Cross

Combined Efforts Make Xmas Merry

Christmas at National Naval Medical Center is a very special time with everyone working to make a holiday season which is memorable and merry.

Doctors, nurses, patients, corpsmen, gardeners, electric and carpenter shops, the Navy laundry, Red Cross Volunteer Gray Ladies, and recreation workers all share ideas for decorating and celebrating. The Navy Recreation Committee and Special Services officer, long before Christmas, plan how many greens, Christmas trees, and wreaths need to be ordered.

Community groups, through the local Red Cross Chapters, are told the number of patients and corpsmen who will be on duty at Christmas time and they plan gifts and additional recreation aids. The gardeners, the electric and carpenter shop, together with a local nursery and an electric company, construct a nativity scene.

The electricians of the Center have designed and constructed a star for the top tower representing the Star of Bethlehem that shines in the background of the nativity scene. In addition, mammoth electric candles are placed in front of the building and on the gates.

The laundry presses the ribbon to be used on the wreaths, and very important, also, is the pressing of the suits for those popular gentlemen—Santa Claus and his helpers.

"Aren't you ashamed to have your wife support you by taking in washing?"

"Yes, I am. But what am I gonna do? She's too ignorant to do anything better."

Crew's Library Has New Cartoon Books

If you hear riotous laughter coming from Crew's Library these days you may conclude, and rightly so, that someone is enjoying the new cartoon books.

Peter Arno's book *Ladies and Gentlemen* is a riot. The *New Yorker Twenty-Fifth Anniversary Album* has a laugh on every page, and Ted Key's *Many Happy Returns* is fully as amusing as his former collections of "Hazel" cartoons. As a rule the staff does not guarantee enjoyment but they feel sure that few of their patrons will be able to withhold their chuckles when looking at these cartoon collections.

Joseph Patrick, a promising new author whose talents are compared with Van Wyck Mason's, has written a story of the sea, of smuggling in colonial days and of the bitter war between the merchants of New England against the patrols of the British Navy. This colorful, lively and fast moving novel is called *King's Arrow*.

Nora Loft's new historical novel, *The Lute Player*, gives an excellent portrayal of the times of Richard the Lionhearted against the background of the Third Crusade. Its hero is a strolling minstrel, who vainly loved Queen Berengaria. The emotional crosscurrents, the loves, the hates, humor and despair of the characters is both realistic and engrossing.

A startling title among the new books is *I Killed Stalin*, by Sterling Noel, newspaperman and former Naval Liaison Officer with the French Navy. This novel, written in the tradition of Manning Coles and Phillips Oppenheim, is one of intrigue and pursuit, and is set in May 1959 in the ninth month of the shooting war between the United States and Russia.

Diaper Derby

Dec. 4—Thomas Joseph Conto, 6 lbs., 12½ oz., new son of Thomas J. Conto, HN, Radiation Technology, NMRI.

Dec. 6—Wilma Lucille Burnett, 8 lbs., 1½ oz., new daughter of HMC Gerald O. Burnett, Serology Dept., NMS.

Dec. 11—Steven Frank DeVecchio, 6 lbs., 15½ oz., new son of Richard E. DeVecchio, HM3 of Lab 17, NMS.

December 24, 1951

Navy Belles

by George

It's beginning to look like Christmas with everyone doing her last day's work. Those of us left are making big plans for the party tonight down stairs. They tell me our house mother has been hiding presents from our early openers.

Were you in the chow hall the day Delores Amott found an egg on her tray? Never did find out what happened.

After graduating from Physical Medicine School, Ruth Clarkson is staying to teach in the school and Marsha Scott is staying for O. T. staff.

Welcome—Marjory O'Brien to Hospital Command, also "Al" Allen. Sally Trish told us each goodbye and went off to the Lakes. Irene Keller went to Chelsea. I think she was afraid she was losing her New England accent.

I'm off to Western Maryland, so Merry Christmas to all.

NEW MAN ON THE BUFFER

Long Shot Artist Scores for NNMC

Ron E. DeVice

Ron's Fast Break Throws Opposition

"Fine ball handler." "Clever, fast, and shifty." "Hard ball player." These are a few of the comments you hear when asking about the varsity's new guard, Ron E. DeVice, HN. This is the first year that Ron has played with the team but already he has proven himself on the hard boards.

DeVice is tied with Brothers in the first two league games with 25 points and makes the majority of these by long shots averaging 60%. He is noted for shooting from further out than any other member of the team. This plus fast break and driving type of ball handling have made him one of the favorites of the spectators.

He was born in Bellevue, Ky., and went to school in Covington, Ky., where he played the court for four years. Villa Madonna College followed where as a major in biology he was also a major threat on the basketball sanctum for 3½ years ending with number two position for points made.

Villa Madonna has a tight schedule meeting, for example, Georgetown College, Ky., Hanover College, Ind., and Indiana Central with Villa Madonna taking 11 of 17 in Ron's last year. Ron also played pro ball with the Bellevue Vets in Newport, Ky.

In the middle of his last year the Navy gave him a new suit and sent him to San Diego for boot camp, Bainbridge for Corps School in class 4, and to this hospital for duty. From there he was transferred to NNMC Command and works in the Special Services Department plus being Life Guard on his duty nights.

SPORT FLASHES

NNMC Admirals shackled the powerful visiting Bainbridge Five 69-54 Tuesday night, Dec. 18 in the NNMC gym. High scorer Brothers claimed 34 of the 69 tallies. George Funk, Admirals' six feet, two inch, center, played an exceptional game under the boards.

Admiralettes

The Waves suffered their first league loss to Walter Reed Wednesday, Dec. 19 trailing 29-42. Crouch was high pointer with 15 tallies. The Admiralettes will not play again until after New Years.

Waves Take Marines For 2nd League Win

NNMC Admiralettes hit the hoop for 54 tallies to down the Henderson Hall Marines 54-45 for their second consecutive win in the Women's Inter Service League Wednesday, Dec. 12 on the rival courts.

The Marines were clinging to a 12-10 lead at the end of the first quarter, but the Waves snatched the lead 26-22 at the end of the half and held it from there on in.

Forwards Crouch and McQuarrie, who played the entire game, were consistently accurate on ringing the shots with Crouch sinking some breath-taking long ones while McQuarrie broke through the guards to handle most of the layups.

On the guard end, Nonnie Hawkins did her usual job of holding the opposing forwards in line, assisted by Madden, Skinner, Aldridge, and DeBerry. The guards held a tight zone defense forcing the Marines to resort to long shots, usually resulting in our guards regaining the ball.

Final breakdown of the score showed: McQuarrie—26, Crouch—22, Madsen—4, and Allen—2. The forwards looked better than they have to date, playing slower ball, centering their plays around Crouch.

Waves End 1951 Bowling

The two Waves bowling teams were host to the Ft. Myer Drivers and the Arlington Hall team last Wednesday night here in the gym. See the next issue for results.

On Dec. 14, Team 1 (Puffer, Eller, Green, and Salloum) took two out of three games from Ft. Myer North Post, while Team 2 (Schradler, Tillotson, and McElfish) took one out of three from the Henderson Hall Marines.

Last Wednesday night's matches concluded the 1951 series, and the league will resume Jan. 16.

Coach's Corner

Opening night at the Mid-Atlantic Service Basketball League saw the local courtmen being entertained over at Fort Myer, Virginia. Years ago, the boys on the military post responded to "Boots and Saddle" when the cavalry held sway. Today, in what was the riding or drill hall, the sound of a ball ricocheting off a glass panel has replaced the creak of a carbine boot against a quarter strap. Pregame ceremonies included: smooth arrangements of current hits by the Fort Myer dance band; vocal turns by Eddie Fisher, whose renditions brought down the shrill tumult of feminine acclaim; a spotlight introduction of each member of the home team; and printed programs with the hometown of the squad members. Exhorting the hoopsters from off the Rockville turnpike were: Moose Barker, gendarme of the recreation building; Eric Taylor, custodian of the cash register in the CPO clubrooms; Jim Jansch, popular postal clerk; Jackson Reynolds; LT Jim Atkinson of Special Services; and CAPT Bill Seidel, former Navy tennis champ.

The first three minutes of the game saw the soldiers slip into a lead before Brothers canned a side set . . . De'Vee hooked across the key . . . Funk tapped a Brothers's miss to put us within range, 7-6 . . . the lead changed hands twice in the initial canto with the second period starting with the Bethesdamen nursing a 20-17 lead . . . O'Keefe split the post on a handoff . . . Cox followed De'Vol's mid court arche . . . Funk in a scramble under his basket embraced O'Keefe who took two from the charity line . . . De'Vol pushed a corner shot . . . Poth drove full length to be fouled by Cornell . . . Fort Myer went into the lead 23-21 . . . De'Vee in an attempt to fake O'Keefe was guarded a bit too closely, the decision was turned into a point . . . Ft. Myer threw in . . . De'Vol, in a beautiful interception, started upcourt, a hook pass to Funk, bounce pass to De'Vee, return to Cox who fired and missed with Funk following, 24-22 . . . O'Keefe and Cribbons, a smooth playmaker, opened up the center slot to let Bouterse lay in a two pointer . . . two Irishmen tangled, with a double foul awarded . . . O'Keefe and Brothers stepped to the free toss line . . . De'Vee was called for palming, the soldiers took the ball and, with the score 25-25, O'Keefe sank a midcourt swisher . . . a foul, a follow up, McFadden, Poth worked a single pick and the numeral board read 32-25 with ten seconds to go . . . De'Vee went the length . . . McFadden gave the soldiers an intermission margin of 34-27 . . . Wilson dropped a foul shot . . . Funk fouled Bouterse as he pivoted off the post . . . De'Vol, Cox and Wilson, from off Wisconsin Avenue, executed a double screen to let the latter slip by for a snowbird . . . Bouterse threw a leg hold on Funk who calmly accepted the one pointer . . . O'Keefe took a two hand chestshot . . . Cox countered with a hook from the foul line after a nice pick by De'Vee . . . Jones, a set shot artist for the Virginians, hit the orange colored hoop for two long ones from the center floor.

Fourth period saw the corpsmen trailing 50-45 . . . Brothers returned to the game bringing cheers from his little band of supporters as he intercepted two army passes to convert the errant throws to four points . . . 50-49 . . . McFadden, Greaves and O'Keefe accordionized the Bethesda defense with a flat figure-eight weave, Bouterse worked in a smooth bucket off the weave . . . two bad passes with the army capitalizing . . . a series of single post plays and the boys from across the Potomac went into a 64-52 lead. With a few minutes to go, the Bethesda attack fell apart as Cornell Brothers was relegated to the showers by the officials . . . eight successive shots from the Montgomery hoopsters failed to hit the twine . . . Funk was still in there trying as the minute hand raced around the digit course . . . Big George drove deep, twice to score . . . O'Keefe, now freed of the shackles Brothers had placed, paced the soldiers with a total of 25 points as Fort Myer closed the clock at 71-63.

					NNMC 27				

The Center Varsity played host to the Fort McNair quintet before some fifty spectators in the local gymnasium. Moose Barker, Kent Ward and Martin presented the welcome mat in the form of a quarter-deck finish to the tile in the foyer of the recreation building . . . it's worth a trip across the campus to view the handiwork of the staff assigned to the Special Services Department. Nice going fellows, the real pre-war Navy . . . as the teams were going through their warm-up paces, Jackson Reynolds winding his timepiece on the wall, Martin recording the players in the homebook, I had a chance to chat with Colonel Howard Karbel, USC '31 formerly with the Rangers and now bivouacked on the Potomac.

The Colonel, long a figure in basketball on the West Coast, played under the late Sam Barry, an excellent coach. Recalled a game with Stanford on the Palo Alto campus . . . prior to the center toss-up, the Stanford undergrads tried heckling Ralph Vaughn, All American forward from USC (by way of Indiana) . . . seems that Vaughn had received a Buick convertible from two actress admirers . . . so the story rambles . . . in fact there were two young ladies sitting in the stands immediately behind the Trojan bench who were the cynosure of all eyes from the Stanford rooting section . . . a Palo Altan made up to look like a femme, another to resemble USC's great star and a Buick drove on the floor, while the Stanford rooting section, to a man rose and waved handkerchiefs to the slow moving convertible . . . Vaughn came on the floor and did they ever give him the treatment. Vaughn walked over to in front of the Stanford section and, as the rooters rose, bowed, and daintily grimaced their hankys . . . Vaughn stood at mid court on the sidelines and swished one in . . . he took another from the same spot, made it . . . a third floated through the hoop . . . dead silence from the jeering section, a fourth and a fifth followed in rapid succession . . . Stanford rose, this time without the linen and their

Denter -hatter

by Frank Winn

With the coming of the snow we've come to realize that winter is really here. As most of you know, the heavy snow of Dec. 15 practically paralyzed the local highways. Cars were delayed anywhere from two to three hours, sometimes ten miles.

The unwanted cold didn't seem to affect the varsity five when they grappled with the Marines on 8th and I at Quarters "K" gymnasium. With Tom Brothers leading the attack with 46 points, the Admirals trounced the Leathernecks to the tune of 87-81. This spectacular performance by Brothers raised his score average for the season close to 20 points per game.

September 24, 1951

'Twas the night before payday
And all thru my jeans
Not a penny was stirring;
My pockets are clean.
The greenbacks have left me,
The quarters have quit,
And me with a date
that's really a hit!
Not a buck can I borrow,
My friends are all broke,
Don't laugh, Brother!
It isn't a joke.
Forward, turn forward, oh time
in thy flight,
And make it tomorrow
Just for tonight.
(Reprinted from The Moffett News)

"I wish I was Santa Claus."
"Why?"
"Then I could run around all
night with a bag and not get talk-
ed about."

'Twas the night before Christmas,
And all through the house,
Not a creature was stirring,
... no spoons.

One Christmas an advertising
man sent out this greeting: ABCD
EFGHIJKLMNOPQRSTUVWXYZ.
Explained the man to his puzzled
friends, "It's simple. No L."

An elderly woman taking two
little girls of a friend to see the
department toyland at Christmas
time.

"See that jolly big man with the
red suit and the white beard,
girls?" she said. "He's the one
who comes down the chimney
Christmas Eve and leaves you all
those lovely toys."

The woman saw the little girls
exchange glances, and later heard
one whispering to the other: "The
poor thing hasn't found out yet."

Overheard in a department
store during the Christmas rush:
A woman: "How much for the
man's pajamas?"

"\$42.50," answered the clerk.
"For \$42.50," announced the girl,
as she headed for the necktie de-
partment, "they should have a man
in them."

Carpenter and Paint Shop Makes Info Desk

Three of the men who participated in constructing the infor-
mation desk in the foyer of the Recreation Bldg. are (l. to r.)
Mr. Robert L. Williams, Chief Quartermaster; Mr. N. W. Cranford,
Carpenter; and Mr. George Evans, Model Maker.

Mr. Williams and Crew Help NNMC Grow

If you have been in the Recreation building lately, probably the first thing to strike your eye was the attractive new combination information desk-trophy case. And you have no doubt noticed the modern refurnishing job in the Western Union office, the new paint job in the Special Services offices, and are watching the progress being made in the setting up of the new Civilian and Staff Treatment Room.

All these innovations are a re-
sult of the skilled hands of the
men who work in the Carpenter
and Paint Shop, Bldg. 15. The 60
men there represent 9 trades: car-
penters, painters, machinists, model
makers, welders, brick masons,
plasterers, and letter engrainers.
They take care of the construction
and maintenance of NNMC's build-
ings.

In charge of this efficient group
is Mr. Robert L. Williams, Chief
Service to his credit, all 15 of them
have been for NNMC. He started at
the 'Old Hospital' in 1937 as a
carpenter's helper. He was the
first civilian employee to report
aboard here for public works and
was instrumental in setting up the
Carpenter and Paint Shop.

As NNMC has grown, so has the
responsibility of Mr. Williams, who
steadily worked his way up to his
present grade of Chief Quarter-
man. Born in Stafford, Va., Mr.
Williams has lived around Wash-
ington all his life except for his
trip to the Pacific Islands during
WWII when he served as a 2nd
class carpenter's mate with the
See Bees.

Being in charge of the depart-
ment, Mr. Williams naturally re-
ceives lots of compliments for work
such as the new trophy cases, to
which he replies, "I've got some of
the most highly skilled men in
Washington working with me, and
its through their cooperation that
we are able to turn out jobs like
this."

Explaining what he meant by
cooperation, he pointed out how the
model makers built the new info
desk, Public Works electricians in-
stalled the lighting, and the sheet
metal workers built in a strong
box for valuables.

NMRI: New Men Report While Five Leave

by R. Conaway

R. Bruntmeyer, SA, recently ar-
rived from Great Lakes to join his
brother Harold, who is also on the
staff of NMRI. Other new arrivals
were R. N. Rosson, from NMS,
F. A. Wild from Bainbridge, and
J. O. Black from Chelsea, Mass.

Carlos Shultz, HMC, was recently
discharged from the Navy. Handy
was back for a visit.

On their way to ComCruDesPac
for duty go L. B. Lacy, HMC, R. F.
Ruhl, HMC, W. H. Mackey, HM2,
and W. E. McKinney, HM2.

I hear Ledbetter is getting a
variety show together and needs
all the local talent he can muster!

Mabel Eller hates "robin egg blue"
cars, so she claims her new one
is green but it sure looks blue to
me.

Somebody was saying that Nich-
olson was ready for shore duty.

Chief Capps and Blagg had a
human snow ball out on the Com-
pound; couldn't quite make out
who it was.

Wonder when a certain Boat-
swain Mate 3rd is going to sew
his rate on his jumper!

The Dental Boys need more can-
didates for their basketball team.

Center Chatter

(Continued from page 5)

lines this month, when Joe Di-
Maggio of the New York Yankees
officially announced his voluntary
retirement. This move had been
expected by most people and had
been predicted for three or four
years but each year Joe gave it
one more try.

The whole Yankee team spirit
has been built around Joe for
many years. Although often side-
lined the past season, many times
with aching joints and bruises, his
worth to the Yankees was summed
up after the World Series by man-
ager Casey Stengel. After that last
game was clinched and the hilar-
ious Yanks were whooping it up
in the shower, Casey came up to
Joe, who was slowly taking off his
uniform for what now was the last
time, put out his hand and said,
"Thanks, Joe."

And I'll sum up with saying, "A
Merry Christmas and the happiest
of New Years."

Dental Explorer

by C. Connor

Well, not to be outdone by any
of our new car owners, we notice
that Cogburn has a brand new
Dodge; what's the secret?

Mountain is back with us again
after saying "I Do" to a very
charming Mrs. Mountain from Pa.
Congratulations, Mr. M.

The record office sure has been
doing a booming business lately.
Do you suppose the fact that S.
Skinner is now working there can
have anything to do with the situ-
ation ???

Well here it is the day before
Xmas. Wonder just how many of
you have made the conviction and
I quote, "This year I'm going to
have all my gifts weeks before
Xmas." Better be careful, someone
might hear you and hold you to it.

I would like to take this op-
portunity to wish each and every
one of you a very merry Xmas
and a prosperous new year; till
then, once more it's smooth sailing
to all hands from the GAL IN THE
HUB (one of the lucky ones able
to be home for Xmas).

Coach's Corner

(Continued from page 5)

cheers almost shattered the glass backboards in tribute to a great
sportsman.

Tommy Brothers, who has a Buick but not a convertible, gets the
same reception on all courts away from home, but like Ralph, Tommy
can take it and at the same time dish it out, the figures in the scoring
column lend support to this attribute. During the same game, Sam
Barry called for my attention as he was drinking water from a paper
cup. When I looked, Sam, a consummate actor in his own right, deposited
the molecules of oxygen and hydrogen upon the floor and strode back
to the bench... a flattering display of disdain for a decision.

Fort McNair's O'Connell, the former Pittsburgh shortstop, gathered
in the center tip to laze a one-hander off the 21 foot circle. Brother
dropped in a lay up, side set and key toss, together with a charity
award to put the Admirals in the lead with 7 points... quick buckets
by Funk, DeVice, burned the mesh before a slow moving soldier of-
fense, a two out three in attack clicked for 6 pts. Brothers went
the full ninety feet to rack one... Monteparro, the original Mr. Five by
Five, was allowed to make four out of four from the side and McNair
was in the ball game... a hot hand exhibited by Cornell paced the
Center quintet to a comfortable 41-29 halftime margin... With Captain
and Mrs. McMillan in the stands lending their vocal cords, DeVice
went to town on a screen set up by Wilson for a lay in, a floater from
the corner, a tap from the foul line and the olive drab took time.
Danny O'Connell hit from way out, intercepted a bounce pass, raced
the distance to bring life to the soldiers... Monteparro headfaked
Wilson to arch a long one and the score was mounting, 41, 43, 45, 46,
47, 49-55... On an out of bounds play Funk eased in under.
Brothers slipped by, Funk rebounded, and DeVice, on a pass from
Wilson and a screen by Brothers, went off the right post for two.
O'Connell and Monteparro connected with smooth trajectory to zero
in on that 63 but to no avail as Brothers and DeVice, started to set up
screens for each other as they took turns driving around George Funk
in the post spot... the Bethesda bench cleared to enter the scoring
act... the final buzzer found the goldshirted corpsmen in a comfortable
73-64 count.

Over in Special Services there are two Wards, the tall one and the
short one. The former is responsible for the surface of the bowling
alleys being in such wonderful shape... speaking of Kegling, attention
must be directed toward the fine Chief Petty Officer's team, currently
in the Intramural spotlight with 18 wins on the black side of the ledger
with 2 losses in the red column. Stepping to the line for the Chiefs, are
such stalwarts as Reynolds, Meitl and Vinson... Chiefs Meitl and
Vinson also boast the high averages with the former topping the
maples for a fine 174 and the latter nursing a 171... tied for second
position are the teams representing the Naval Hospital and Dental
Interns both with 14-6 digits... while in third place Naval Medical
School Lab is holding the rail position with 14-7... CAPT Bart
Hogan led the Hospital mashie wielders to victory over Dental during
the golf season and now it looks like CAPT Carl McMillan is going to
wrest first place away from the Chiefs Club with his array of talented
mineralite propellers.

With This Ring

John Novak, HM2, met Mary
Virginia Fisk in the Cath-
olic Chapel when they were both
members of the choir. Dec. 1,
(two years later) he returned to
the same Chapel to wed Mary Vir-
ginia in a double-ring ceremony
followed by a Catholic mass.

Novak worked in Special Ser-
vices until last September when
he was transferred to NAAS, Ches-
apeake, Va. Miss Fisk worked
for the Bureau of Standards in
Washington, D. C.

William Coduto, HM2 of NH was
the Best Man, and Miss Betty Han-
cham was Bridesmaid.

TO:

1951 in Retrospect . . .

January

13—Charles B. Bernard II, HMC of NSHA was appointed WOHC.

16—George A. Litchfield, HM2 of NMS personnel office was commissioned to the permanent rank of lieutenant, USNR.

21—Patients, staff and guests were entertained by Pennsylvania State and City Pageant beauties who toured the wards and presented a stage performance in the auditorium.

26—Bob Kuremsky and his band furnished the music at the year's first staff dance held at the National Press Club. Songstress Kay Nelson handled the vocals.

29—RADM H. Lamont Pugh, MC, USN, was sworn in as Surgeon General of the Navy and Chief of the Bureau of Medicine and Surgery, and RADM Clarence J. Brown, MC, USN was appointed to the office of Deputy and Assistant Chief of BuMed.

30—Dr. Sigvart J. Steen, famed Great Lakes Naval Training Station Choir Director, conducted the Wagner College Choir from Staten Island, N.Y. in a concert in the auditorium.

Center Command's touch football team received the first place trophy for the 1950 season with N.P. filling the runner-up slot.

Alvin Real of Center Command was reported wounded in the fighting near the Chanjin Reservoir in Korea.

CDR Kathleen Smith, NC, USN took over the position of "Chief Nurse" after CDR Helen C. Gavin, NC, USN transferred to USNH, Oakland, Calif.

Mrs. Harry S. Truman, graciously entertained patients of NNMC at four afternoon functions. The President himself appeared to greet them.

February

1—Chief Eric Taylor relieved Chief Harold Betzner as Mess Treasurer of the Chief Petty Officer's Mess (Open).

12—A five-day course of instruction in Medical Aspects of Special Weapons and Radioactive Isotopes convened at NMS.

14—William D. Sellers, RMSN, a patient on Ward 5-A, was notified by the Public Relations Director for Loew's Theatres and The Hecht Co., Washington, D.C. that he was the winner of \$500 in prizes for writing the best Valentine to Lana Turner.

15—A Valentine dance for staff was held in the gym with music by the Navy Band.

26—CAPT E. R. Hering, Jr., MC, USN, Division Surgeon, First Marine Division, FMF, delivered an address in the auditorium on the actual battle experiences of the medical department of the Navy in the field during the Choson Reservoir Withdrawal in Korea.

Commissary's Basketball team copped the 1950-51 intramural championship with a 49-17 victory over the Dukes from Dental. This victory left the Brown Shirts undefeated and paved the way for their entry

as NNMC's representative in the PRNC Station Intramural Basketball Champions Playoff.

CAPT Charles F. Behrens, CO, NMRI, was selected for promotion to Rear Admiral.

The Admiral's Varsity Team took fourth place in the PRNC league.

March

8—The Admirettes wound up the basketball season with a total of 16 wins and 4 losses.

12—The Gettysburg College Choir, one of the leading collegiate choirs in the East, presented a concert of choral music in the auditorium.

12—High rubber boots, basketball uniforms and hats were uniform of the night for the Admirals when they met the Admirettes in a novelty basketball game in the gym. The Admirals were further encumbered by having to carry an apple in a cup in one hand. Ladies took the match 14-13.

19—One of the most colorful social affairs in the history of the Navy Medical Departments was held in the Commissioned Officers' Mess, when officers of the several corps comprising the medical department were hosts at a reception in honor of RADM and Mrs. Herbert L. Pugh, Surgeon General, and RADM and Mrs. Clarence J. Brown, Deputy Surgeon General.

22—"Bubbles" Bruce Becker and his famous orchestra were on hand for the staff dance in the gym.

25—The grounds of NNMC were the setting for a special Easter Morn Service at 6:30 a.m.

25—Cpl. Carrol S. Hartley, USMC, 20-year old patient here, was selected by popular vote as the Honorary "Mayor" of Washington's famous Connecticut Avenue, and presided at the Connecticut Ave. Easter parade.

CAPT Eric Pollard, Director of Clinical Service, NDS, transferred to Hawaii.

Cpl. Sidney Hartley, USMC, and M. Bruce McDonald, HM2, USN appeared on television on the "Armed Forces Hour" relating their Korean experiences.

NMS Lab-2 took first place in the NNMC bowling league.

CAPT Irwin L. V. Norman, MC, USN, Chief of Medical Services, was transferred to USNH Oakland, Calif. His relief was CAPT Earl Evans, MC, USN.

April

1—RADM Morton D. Willcuts, MC, USN, CO NNMC, retired after 34 years continuous active duty in the Navy. RADM Clifford A. Swanson assumed command. At the same time LCDR H. T. Dean, MSC, USN, relieved LCDR C. L. Crawford, MSC, USN, as Administrative Officer, NNMC.

13—Patients and staff of NNMC were awarded 9 of the 17 first prizes from the 2nd Annual Armed Forces Occupational Therapy Competition held at Philmont, Pa.

16—The three-week semi-annual Inter-Agency Seminar of Hospital Administration commenced.

CAPT Frank P. Kruecz, MC, USN, Chief of Orthopedic Service since 1945, transferred to USNH Oakland. He was replaced by CAPT Chalmers R. Carr, MC, USN.

LCDR M. J. Wiltshire, MSC, USN, retired from his position as Administrative Officer of NMS.

May

4—The Phil Regan Armed Forces Show, a full half-hour over NBC was broadcast from the NNMC auditorium.

20—NNMC observed Armed Forces Day with special religious services in the main auditorium, open house to visitors, and a band concert in front of the main building.

22—Mr. Roberts, starring Tod Andrews, brought its last cast to NNMC for a matinee performance.

22-23—NNMC played host to the Symposium of the Surgeon General of the Navy.

Mrs. Anna Rosenberg, Assistant Secretary of Defense, was present with a huge chest of candy on Ward 5-C. The candy was sent by Naval Reservists on board the USS Eldorado in appreciation of her "efforts on behalf of involuntary recalled reservists regarding their release and limitation of active service."

Chief V. W. Eisehold relieved HMC Renard as President of the Chief Petty Officers' Mess (open).

CPO's won the NNMC bowling crown in the finale of an exciting three-way tie with NH and NSHA.

June

5—The famous Arizona Boys Chorus presented a concert here.

9—NNMC participated in the Bethesda-Chevy Chase Rescue Squad Carnival and marched in the Saturday parade.

11-15—NNMC's exhibit entitled "New Methods of Preserving Skin, Bone, and Blood Vessels" was awarded the Certificate of Merit for first place in the orthopedic section of the AMA convention in Atlantic City, N.J.

15—The cast of the Philadelphia Civic Grand Opera Company, donated their time to present the opera *Faghiacci* and a ballet from Carmen to patients and staff. This was the first time grand opera was ever presented at any Naval hospital.

15—CAPT Bruce E. Bradley, Executive Officer, NH, was detached to become Comamding Officer of the Naval Hospital, Key West, Fla., after 19 months duty at NNMC.

16—Roy Wilkes Jr. and W. W. Breese were promoted to chiefs and initiated with the traditional chow troughs.

18—CAPT Charles Frederick Behrens, MC, USN, CO, NMRI left NMRI to take over his new position in the Office of Commander, Eastern Sea Frontier. He had been CO of NMRI since April 1948.

18-22—A five-day course in "Medical Aspects of Special Weapons in Radioactive Isotopes" was held here with approximately 150 U.S. and Canadian Naval, Army, and Air Force officers as well as civilian public health officers attending.

20—CAPT Wilber E. Kellum, MC, USN, assumed command of NMRI. John S. Bachar, HM3, of EENT, won a '51 Deluxe Ford at the Bethesda-Chevy Chase Carnival raffle.

July

3—His Excellency You Chan Yang, Ambassador of Korea to the United States visited the wards.

16—CAPT J. L. Enyart, MC, USN, Executive Officer of the Naval Medical School, assumed command of NMS.

16—CAPT B. W. Hogan, MC, USN, assumed command of the Naval Hospital relieving CAPT R. M. Gillett, MC, USN, who was assigned overseas duty.

17—The Camel Caravan rolled into NNMC with a colorful and complete traveling road show, a combination of music and comedy.

30—Freddie Martin and his celebrated orchestra played for the staff dance after presenting a show in the auditorium at 1800.

Colonel Homer L. Litzberg, USMC, spoke at an informal get-together of the 7th Marines and R.C.T. held on the patio of the Navy Exchange restaurant.

LCDR Thomas S. Jackson, MSC, USN, of NMS retired after 30 years of active duty.

Jimmy Nichols, one-arm golfer gave an exhibition here.

CAPT Fred Harbert, MC, USN, reported in as Chief of EENT to replace CAPT Adrian J. Delaney who was transferred to San Diego, Calif.

August

2—Chiefs E. R. Diamond and R. C. Davies were sworn in as WOHC's.

13—NNMC Waves celebrated their ninth anniversary with a party in the Chief's Club.

17—Basil Rathbone, radio's Sherlock Holmes, visited NNMC's wards.

18—Charles A. Tucker of NSHA was advanced to chief petty officer for outstanding performance of duty and especially meritorious conduct while serving with the Marines in action against enemy forces in Korea.

20—Dr. Gioconda R. Saramero, Oinc of Hematology and Blood Bank Departments upon her promotion to Lieutenant commander.

20—NNMC Admirals clinched the runner-up slot in the Northern half of the MAISAC Softball League with a decisive 7-3 victory over the fly-boys from NAS Anacostia.

20—Sixteen officers and men, headed by CDR Norman Lee Barr, MC, USN, departed on a research expedition to the Arctic.

26—NNMC Admirals packed up their bats and balls and went to Norfolk to participate in the MAISAC softball tournament.

The Naval Dental School volunteered 100% to give blood in the current drive. With a quota of two pints a month, NDS donated 58 pints in August.

September

1—The Camp Lejeune Variety Show, with an all-marine cast from Camp Lejeune, played the wards and gave a two-hour performance in the auditorium.

1-2—The annual Admiral Swanson Golf Tournament was completed with CDR William King winning the championship flight.

5—CAPT Thomas L. Wilmon, MC, USN, reported aboard as Executive Officer of NMRI.

10—CAPT H. A. Gross, MC, USN, Chief of Surgery, NH, was detached to join the staff of the Commander in Chief, Atlantic Fleet, as Fleet Surgeon.

15—ENS Barbara Garland, MSC, USN, Med School and Joan Madsen, JOSH, of Center Command, took second place in the Women's Inter-Service Athletic Doubles Tennis Tournament at Walter Reed.

23—Dr. Francis J. Braceland, Psychiatrist from the Institute of Living, Hartford, Conn., gave the first lecture of the 1951-52 Guest Lecture series.

October

1—D. K. Anderson was appointed WOHC in a ceremony at NSHA.

4—Announcements of the advancements in ratings began coming in.

3—RADM William J. C. Agnew, MC, USN, assumed command of NNMC, relieving RADM Clifford

A. Swanson, MC, USN, who transferred to Great Lakes, relieving Admiral Agnew as District Medical Officer, Ninth Naval District.

3—LCDR Floyd S. Haslam, USN, relieved LCDR Henry Dean, MSC, USN, as Administrative Officer, NNMC. Mr. Dean transferred to become Administrative Assistant to the District Medical Officer.

9—Debbie Reynolds and Albritton toured the wards entertaining patients.

12—NNMC's fire fighting equipment was demonstrated in Bldg. 123 in observance of National Fire Prevention Week.

15—The Naval Dental School contributed television demonstrations, table chairs, and exhibits at the Ninety-Second Annual Session of the American Dental Association at Hotel Shoreham, Washington, D.C.

16—Sixteen new chiefs were initiated in the show hall with the traditional troughs.

22—Claude Thornhill, his orchestra, featuring Connor, and the Snowflakes furnished the music for the staff dance in the gym.

25—Vice Admiral Prince Bernhard, Inspector General of the Netherlands Royal Navy, visited NNMC.

29—CAPT Jay Hugh Brown, USN, Director, Naval Reserve, was guest of honor at a buffet supper in the Waves barracks.

29—The Spotlight Revue with Bruce "Bubba" Becker and his melodic music orchestra presented an hour and a half show in the auditorium.

31—LT Elizabeth C. Wilson reported for duty to take over the combined duties of Information and Education, Civil Readjustment, and Women Personnel Representative.

Center Command's game their third straight intramural touch football crown as they completed an undefeated undefeated and unscored-on season.

NNMC led all other continental naval hospitals in minimum gross time for clinical board cases in October.

November

1—The Washington Opera Guild Chorus presented a concert of classical and popular numbers in the auditorium.

3—The Senior Life Saving Class composed of students representing most of the commands, took the final three hour test based on fifteen hours of instruction in life saving technique.

5—Chief Eric Taylor "struck rich" to the tune of \$430.00 CBS's "Strike it Rich" program asking for money for the CPQ Christmas party for underprivileged children.

6—"The Petrified Forest", a thrilling melodramatic play was presented here by a cast from the Falls Church Community Center, Va.

9-10—A symposium on spontaneous and induced regeneration from whole body irradiation was held at NMRI.

15—The Red Feather campaign at NNMC was completed with a total of \$4,788.63 being contributed.

17—NNMC Waves stood their first Saturday personnel inspection as a separate unit.

17—Marines celebrated the anniversary of the Marine Corps with a party in Ward 135.

20—Tommy Brothers, HMC, won the championship in the professional singles tournament.

24—CDR Clyde Pennington, USN, new "chief nurse" came aboard to assume the duties left vacant when CDR Kathleen Smith, NC, USN, transferred to Chelsea, October.

December 24, 1951

Painter Gives Blood 16 Times in 3 Yrs.

Giving your life's blood for a cause you believe in is usually taken as a figure of speech, but Ernest J. Robinson, painter from the Carpenter and Paint Shop, takes this statement literally. During the last three years he has donated 16 pints of blood.

"I like to get new blood," he says. Since the average person has about 14 pints of blood to start with, it appears that he has given all he had and then some.

Mr. Robinson goes down to the Blood Bank every two months (as often as considered safe) and makes his donation. He made his first donation during the war when the Red Cross appealed for blood. Three years ago when he heard that the Blood Bank here needed blood he quickly became one of their most faithful donors.

"Salty," as he is nicknamed by his friends, has spent 5 of his 15 years of government service at

Ralph Flanagan With His Number One Orchestra Is Featured at Tonight's Enlisted Staff Dance

Rita Hayes

Ralph Flanagan

Women Using Dance To Launch Campaign Starting Leap Year

Special Services Department and single women of the base seem to have ganged up on the poor unsuspecting male with the enlisted Staff Dance tonight in the NNMC gym.

The local ladies, headed by Nadine Calhoun, and aided by 75 lovelies from the Capital Club in Washington, plan to capitalize on the music of Ralph Flanagan and his orchestra in launching their first Leap Year campaign.

As additional bait, chips, pretzels, popcorn and soft drinks will be served. Male victims need only walk in at 2030 dressed in coat and tie or dress uniform and enjoy themselves until 2330.

Even the bashful male won't escape tonight, for the women have set aside certain dances for ladies' choices.

This is the first time Ralph Flanagan's "Number One Band" has appeared at NNMC—a band that in the first year (1950-1951) grossed a half-million dollars; played in person to an estimated three million persons; had 44 weeks of sponsored commercial radio shows on CBS and ABC networks; waxed a long list of solid selling records; and placed first on every important popularity poll in the country.

Baby Salutes Year With Police Escort

The first baby of the New Year was well saluted even before birth. A police escort was required to insure that the baby would be delivered in the hospital. The baby girl, Patrice Murphy, 7 lbs., 9½ oz., was delivered at 0020 and hailed the New Year with the traditional cry.

The mother, Mrs. William J. Murphy, is a Wave Chief Yeoman with eight years and four months reserve and active duty time.

The father, Mr. Murphy, is a police photographer on leave of absence from Buffalo.

Operation Goose-Egg

NNMC Safety Slogan Contest—"Operation Goose-Egg"—is underway. Enter now. Valuable prizes will be awarded to the best slogans submitted in this campaign which hopes to cut time-loss accidents to zero this year. Watch the Daily Bulletin for particulars.

Ladys Swarthout Sings Next Week

Ladys Swarthout, one of the great American mezzo-sopranos of time, comes to NNMC on Monday, Jan. 21, to give a recital in the main auditorium at 1900.

The reigning favorite in opera, recitals, and radio, and the recent of the first televised production of "Carmen," her most celebrated role, Miss Swarthout comes to NNMC in the midst of a trans-continental tour that opened in New York last September shortly after her return from Europe.

Miss Swarthout's program to be presented here reveals, as always, her searching artistry that has made her one of the most heavily booked artists in the concert field. In addition to arias from the operas with which she is identified, she has programmed a fascinating selection of classical works, and folk songs in Spanish, French, and Italian, and an ungrouped of songs by contemporary American writers.

American born and American bred, the vocal artist has done much to advance the cause of American music. She has introduced and helped popularize a new song literature by contemporary countrymen. And this time Miss Swarthout will again be singing several new works from their original manuscript.

Born in Deepwater, Mo., on a Christmas Day, she made her professional debut at the age of 13 as a church soloist. At 20 she was principal member of the Chicago Opera Company from which she went to the Metropolitan.

During the past year Miss Swarthout scored a new triumph in the role of "Carmen" in the first production of opera ever staged exclusively for the television cam-

Next Monday's concert was made possible through the efforts of Curt C. Schiffeler, the chairman of the Entertainment and Information Service, American Red Cross, D. C. Chapter.

Ernest J. Robinson

NNMC, coming here from the Navy Yard.

A native Washingtonian, he has lived here all his life. With his wife and family (daughter 16 and son 14) Mr. Robinson spends a great deal of his free time at his cottage near Beverly Beach.

News Shorts From The Editor's Desk

Washington (AFPS)—The Navy has announced that mathematical requirements for candidates qualifying for entrance into the Naval Officer Candidate School have been suspended.

Those applicants who previously failed to qualify because they lacked basic mathematical and trigonometry requirements may now apply to the Office of Naval Officer Procurement to complete their processing for the NOC School.

(AFPS) Some of the bills before Congress that may affect you are:

(Cont. on Page 6, Col. 5)

College Night Classes Starting Here For Military and Civilian Personnel

The College of General Studies of George Washington University is again offering off duty evening courses at NNMC for all those interested in self improvement, college, or both. Beginning in February, college courses can be given at this station provided the college can be guaranteed a minimum of 20 students per course.

These courses are designed to meet once a week for 15 weeks and carry three hours college credit. Courses being offered for this coming semester are College English, College Mathematics, Chemistry (a general science course without laboratory), Introductory Accounting, and Introduction to Philosophy. The scope of the courses depends on the demand, so with sufficient number of requests any course can be offered.

The pre-registration fee (\$5.00 check or money order payable to George Washington University) must be presented to the I and E Office, Ward 102, on or before Jan. 24. This fee will be deducted from the first tuition payment or will be refunded to you in the event that the course of your choice cannot meet because of insufficient number of students.

The total cost of the three credit course is \$30.00 for service personnel and \$39.00 for civilians. One-third of this amount is payable at the time of formal registration with the George Washington officials. Veterans of World War II who began their program of studies under the GI Bill before July 25, 1951 may continue to use their certificates of entitlement to cover their tuition and books in off-campus courses. Officials from George Washington University plan a formal registration at NNMC on Feb. 4. Further information will be announced later.

Patients may register provided they will be at the hospital long enough to complete the course and

Ex-SOQ Supervisor Receives Well Done

LT Rose A. Flanagan, NC, USN, former Supervisor of the S.O.Q. Division of the Hospital, was presented a letter of commendation from her Commanding Officer, CAPT B. W. Hogan, before she was transferred to Corona, Calif.

The letter read in part: "This assignment is considered one of the most important of the Hospital, and at all times you gave willingly of your great professional ability in carrying out the many important details in the administration of this responsibility."

"Your loyalty to the Chief Nurse, and the Commanding Officer, was at all times exemplary, and your leadership and administration of the S.O.Q. Tower Wards was a very fine inspiration to the junior nurses."

"You have well earned the Navy salutation, 'Well Done.'"

provided they have the consent of their Medical Officer.

For some time the Navy has sponsored a tuition aid program for naval personnel attending classes at accredited colleges (Circular Letter 178-50) but the demand has been greater than the current supply of funds. Starting the first quarter, the fund will be allocated on a "first come, first served" basis so see your I and E officer immediately for the necessary request.

CAPT E. B. Coyl Assumes His Duties As New Executive Officer of NMS

When CAPT Edwin B. Coyl, MC, USN, reported here Dec. 7 to assume the position of Executive Officer, Naval Medical School, he found himself right back where he started. The Captain was born in Washington, D. C., and began his education at the Washington Missionary College in Takoma Park, but in his 21 years in the Navy this is the first time he has ever had duty so close to home.

He began his naval career as a LTJG in 1930 after receiving his M.D. from the College of Medical Evangelists in Los Angeles, Calif.

CAPT Edwin B. Coyl

He was promoted to Captain in 1945.

CAPT Coyl's first overseas duty was on Guam from 1932 to 1934 during which time CAPT Enyard and CAPT McMillan were also stationed there.

Since that time he has served with a destroyer division out of Honolulu; on the USS Memphis in the South Atlantic Patrol; on the USS San Francisco in the Pacific (Fifth Fleet); the USS Benevolence, which was off Bikini during the Crossroads experiment and later went to China and the Far East; and on the USS Repose off Korea.

"Some how or other everything seems to happen right next door," said CAPT Coyl, explaining how he had gone through the war in the Pacific without a scratch. But he always managed to be on hand to take care of those who weren't so fortunate.

As Officer in Command of the Naval Hospital on board the USS Repose before coming here, he had command of 25 doctors, 30 nurses, 3 dentists, and 200 corpsmen; a crew which treated close to 10,000 patients in the first year he was in

Congregation Beth El of Montgomery County will hold services every Friday night at 8:15 p.m. in the Social Hall of the All Saints Episcopal Church, Chevy Chase Circle. All Service Personnel are invited to attend.

The services of Rabbi Harry Kaufman, representing the Jewish Welfare Board, are available to all Jewish Personnel and Patients at the National Naval Medical Center. Rabbi Kaufman may be reached by calling the Chaplain's Office, Ext. 324, or by call direct—Office: RA. 5371—Home: GE. 0755.

charge. CAPT Brown, NNMC's new Chief of Surgery, was Chief of Surgery on CAPT Coyl's staff on the Repose.

The doctor lives with his wife and fifteen-year-old son on Custer Road, Bethesda. His daughter lives in Norfolk where her husband, a naval line officer, is stationed.

Perhaps the best way to describe the new Executive Officer is to quote one of the corpsmen who served at sea with him, who says, "He can be plenty regulation, but they just don't come any better!"

NMRI

New Singers Found At Civilians' Party

by R. Conaway

Now that the holiday excitement is over, it seems time to settle down once again. But first, just a word about the Christmas party held by the civilian girls at NMRI. Refreshments were served and presents exchanged, and all who attended had an enjoyable time.

While singing Christmas Carols, it was discovered that two of their number, Jean Jones and Gloria Burgess, could really harmonize, so we were entertained with several duets by the gals.

A memo to Chief Puffer: The newest recruit on your team received a pair of bowling shoes from Santa. No more sliding over the foul line for me!

I hear that "Dodo" Booker has deserted the Navy for the Marine Corps. Where is your esprit de corps?

Then there was the lad who missed his Christmas dinner. We are still eating cold turkey sandwiches at home.

C. E. Franer, HMC of the Dental Division, recently shipped over for six years. LT C. S. Conner was detached on the 21st for duty at the Naval School of Aviation Medicine at Pensacola.

H. M. Bruntmeyer bade adieu to his brother who arrived at the Institute recently, when he left for duty aboard the USS Missouri. P. E. Cook leaves soon for Cairo, while Bruce Tillman is still wondering how he missed the FMF this time and got the Aloha Isles instead.

A few new arrivals are B. D. Sheppard and G. E. Radican from Great Lakes; W. L. Sweatt from St. Albans; and J. A. Robinson from NMS, Bethesda.

One gal I know of who really had a "white Christmas" was Mabel Eller. A little too white, she claims, thinking of all that Chicago snow. Hammy Brooks headed south to spend the holidays; last heard from, she was outside of Georgia and heading north toward Bethesda.

Everyone must have been on his good behavior since there isn't too much gossip to relate. So, I'll say so long for now 'til next time.

Diaper Derby

Dec. 5—Mark Stewart Geyer, 7 lbs., 7 oz., new son of LTJG C. Mac Geyer, MC, USN, Intern Staff, NH.

Dec. 7—Cynthia Mitchel Black, 6 lbs., 10 oz., new daughter of LCDR Boyd K. Black, MC, USN, Pathology Dept., NMS.

Dec. 9—Lydia Ann Utley, 6 lbs., 9½ oz., new daughter of Thomas J. Utley, Jr., HM2, student in Duplication Dept., NMS.

Dec. 28—Cynthia Elizabeth Nolder, 6 lbs., 8 oz., new daughter of H. Lloyd Nolder, HM3, GU Clinic Staff, NH.

Dec. 30—Jeanne Ann Brown, 8 lbs., 5½ oz., new daughter of LT Loy T. Brown, MC, of Radiology, NH.

Dec. 31—Robert Paul Harris, 8 lbs., 5 oz., new son of CDR Thomas A. Harris, MC, USN, CO, Naval Dispensary at Arlington Annex, and nephew of CAPT L. M. Harris, MC, USN, Chief of O.B. and Gyn., NH.

Jan. 2—Catherine Dayle Miller, 8 lbs., 13 oz., new daughter of LTJG Charles H. Miller, MC, of Epidemiology, NMS.

Jan. 3—Richard W. Krollman Jr., 6 lbs., 15½ oz., new son of Richard W. Krollman, HMI, of NSHA.

Jan. 5—Richard Temple Millard, 7 lbs., 5½ oz., new son of CDR Robert C. Millard, DC, USN, Staff, NDS.

The Chaplain's Corner

by Chaplain H. Grady Gatlin

Facing the New

Thirty-three years ago, at the close of the first World War, I wrote an article in which I said: "The old year is dead; the year of victory—of a new era—an era of truth, righteousness, peace, justice, and brotherly love. An era in which democratic ideals and principles shall prevail throughout the entire universe." That was the dream of millions—and the failure of that dream broke the heart of Woodrow Wilson.

World conditions are far worse now than they were when Matthew Arnold wrote:

Wandering between two worlds, one dead,
The other powerless to be born.

The Old World with its divisions and unholy rivalries, hatreds, animosities, and intolerances, in its ghostly form is playing havoc with the sons of men.

The old year closed Monday night with a loud wail of pessimism, despair and fear predominating. We must purge our thinking of these pernicious enemies and replace them with buoyant hope and active faith.

We are becoming prisoners of material forces and our civilization is endangered and will be destroyed, unless we are saved by moral and spiritual forces.

It has been pointed out that material assets can be passed on intact by society from one generation to the next, but spiritual and intellectual values have to be recaptured by each individual for himself in a short journey from the cradle to the grave.

As we stand on the threshold of a new year we are apprehensive as to what is in store for us. These are tense days but we can face the future hopefully if we tie up to certain fundamental principles.

We need a revitalized faith . . . faith in God, faith in man and faith in self.

Our values must be adjusted to the principles and teaching of Jesus Christ.

We must keep our thinking straight.

We must face the tomorrows freed from the shackles of fear, doubt, worry, selfishness, hatred and intolerance. We must not become the slaves of technic, materialism and secularism. The SPIRITUAL must be put in the forefront. Spiritual forces must keep pace with scientific and material progress.

New Commandant Spends Christmas Here

Gen. Lemuel C. Shepherd, Jr., new Commandant of the Marine Corps, chats with LT Joseph C. Gardiner, Jr., a marine patient on Tower 8, on Christmas morning. Previous to accepting his duties as the Commandant from Gen. Cates, Gen. Shepherd made a tour of the hospital and talked to many of the patients.

Dental Explorer

by C. Connor

From the expressions on all of your faces it would seem that a very merry Xmas and a happy New Year were enjoyed by all. Looks as if old Santa really did right by everyone.

Dr. Gardner presented his son with a set of electric trains and I'm inclined to feel that they are used on a port and starboard basis—one day for Dad and one day for his youngster.

The holiday season must have really gotten our EXEC all excited, because one morning he came on board with a brand new hat—the uniform of the day sure took a fast switch that day.

Seems it took the nurses' party to bring out the talent in our interns; never knew that we had so many potential "Arthur Murrays" in our midst. One doctor from Massachusetts sure has a lot of hidden talent.

Dr. Enger will have to start practicing using his sea legs now that he is going to play the part of a seagoing dentist. Guess he'll have to give Thomas a few pointers in the swabbing department. I hear tell he's pretty hard to beat.

Beaver, Thomas and Fergot, plus a few of our other eager beavers, really celebrated and carried through with the Xmas SPIRIT in the Waves' lounge, with Maggie playing Elsa Maxwell, the perfect hostess. Rudolph Valentino had nothing on our dental dillies.

Small stores will soon have to start issuing grass skirts for the Waves. Madden went down to get hers fitted. Guess there will be mucho celebrating when all of our NDS gals muster on Waiikiki.

Well, that's all for now so till next time—smooth sailing to all hands from the gal from the HUB.

JANUARY 14, 1952

Doctors Leave for Training on Ships

Ten of the nineteen doctors flying to Norfolk for duty with ships afloat in the first phase of the objective portion of the Basic Course in Naval Medicine are (l. to r.): LTJG David B. Johns, LT Robert W. Spicher, LTJG Albert Cannon, LT Francis X. MacAuley, LTJG Harry H. Dinsmore, LTJG Robert C. Drips, LT Frank G. Osborne, LTJG William G. Mask, LTJG Charles E. Herlihy, and LTJG James E. Banta.

Ship Duty First Phase of New Training

On Jan. 4, twenty-eight officers of the Basic Course in Naval Medicine were assigned to medical duties afloat with units of the Atlantic Fleet with 19 members of the class reporting to Norfolk and nine to Newport.

The current Officers' Basic Course is a considerable departure from any other course offered at the Naval Medical School. A large section of the allocated time is devoted to field and sea duty away from the school.

Not only does the medical officer learn his duties in the classroom but, by actual experience aboard ships in the active fleet, through duty with the marines in the field, and by visits to and instruction at aviation, submarine and amphibious bases, he fully acquaints himself with the scope and responsibilities of a medical officer of the Navy.

The 24 weeks of classroom instruction includes many diversified subjects. A few of these are Tropical Medicine, Industrial Medicine, Medical Department Duties, Entomology, Preventive Medicine, Medical Logistics, Ships Sanitation, and Naval and Military Law.

The latter 14 weeks will consist of training on ships in the Fleet, Aviation Medicine at the Naval Air Station, Pensacola, Fla., Field Medicine Training at Camp Lejeune, Submarine Medicine at New London, Conn., training at Fort McClennan, Ala., plus training in chemical and radiological defense. This class will graduate on June 14.

Dr. Davis from Chicago Is NMS' Guest Lecturer

Loyal Davis, M.D., Professor and Chairman of Division of Surgery of Northwestern University Medical School, Chicago, Ill., will speak in the main auditorium Friday, Jan. 25 at 2015. Dr. Davis' topic will be, "Treatment of Injuries of the Spinal Cord."

The Naval Medical School's guest lectures are held for the purpose of instructing and training of interns and residents of the Navy Medical Corps, as well as for the interest and education of a large number of medical and dental officers of the Navy, Army, Air Force, Public Health Service, Veterans Administration, and civilian physicians and scientists of the Washington area.

Advice on the bulletin board of a newly-formed outfit: "Send your clothes to the Quartermaster Laundry. Get to know the names of your buddies."

CDR Taylor Tells Of Trip to Peru

CDR Russell L. Taylor, MSC, of the Naval Medical School represented the U. S. Navy at the Pan American Congress of Pharmacy held in Lima, Peru, Dec. 1-8.

CDR Taylor, who is Officer in Charge of NMS' Pharmacy School here, and also Head, Pharmacy Section, BuMed, was the only Naval representative to make the trip with 22 other United States officials.

This was the second meeting of the Congress, the first being held in Havana three years ago and the next planned for Rio de Janeiro. Scientific papers dealing with pharmacy were presented at the Congress in Spanish, necessitating an interpreter for the American delegation.

"Every courtesy was shown the American Delegation," said CDR Taylor. He went on to explain how they were entertained by Peru's President, several of the South American Embassies, and the Peruvian Medical Department.

While the meetings were not in session, CDR Taylor spent his time getting acquainted with the South American customs and had time to witness one of the traditional bull fights.

He also spent some time visiting with CAPT Walsh of the U. S. Navy Medical Corps who is attached to the U. S. Naval Mission in Peru which cooperates with the Peruvian Navy. CAPT Walsh is Advisor to the only Peruvian Naval Hospital which has an approximate 300-bed capacity.

"It's rather hard to evaluate how much was accomplished from a scientific standpoint," says the Commander, "but I believe much good was accomplished so far as international relations are concerned."

Trick Shot Expert Slated Here Jan. 22

An added attraction to the NNM basketball game with the Fort Myer Colonials on Tuesday evening, Jan. 22, has been arranged by the Special Services Department with an exhibition by Wilfred Hertz, heralded as the World's Greatest Trick Shot Expert. Mr. Hertz has split his bag of 81 trick shots and will perform half his repertoire from 2000 to 2010 and will complete the show during the intermission.

The Minnesota artist has performed at 1,000 high schools and 100 colleges. He holds 110 world's records on 90 trick shots. Thrice featured in "Believe It or Not" and twice in "Strange As It Seems," Mr. Hertz has performed in each of the 48 states and has appeared on several television shows.

Among the expert's records are included 144 straight fouls on one foot, 66 straight fouls on both knees, 35 straight bounce goals and a one-handed goal from 80 feet away.

Don't miss this great double feature on Tuesday, Jan. 22 at 2000.

HMC to WOHC Via Japan

Those who remember Chief C. D. T. Bagwell, who was a student in NSHA's Medical Administrative Technicians School in 1950 and of NSHA's Clerical School before that, will be interested to see him back here as WOHC.

Mr. Bagwell left NNM July, 1950, and while at the Naval Hospital in Yokosuka, Japan, received his promotion to Warrant Officer. He reported here Dec. 21, 1951 and is now working in Finance Division, NNM.

Beauty, Charm, Talent, Coming Jan. 27

The second annual "Evening Star Revue" will be headlined by these beauties from the Washington, Maryland, and Pennsylvania area. The girl in the hula skirt is Miss Patricia Phelan, Miss Maple Grove, 1951. The other three winners of local and state events are (top to bottom): Miss Charmaine Pennock, Miss Greater Lancaster; Miss Georgia Reed, Miss Maryland, 1951; and Miss Diana Wallace, Miss District of Columbia Runner-Up, 1951.

Evening Star Review Brings Beauties

The second annual visit of the "Evening Star Revue" talented performances by Beauty Pageant Stars, for the entertainment of patients and staff of NNM, will be presented Sunday afternoon and evening, Jan. 27, 1952. The auditorium show will commence at 1800. Ward visits will be from 1400 to 1600.

The talented contestants have participated in National, State, City, and various other MISS AMERICA contests, and are making their annual tour of the Washington area.

Featured and opening the program this year will be Miss Georgia Reed, "MISS MARYLAND, 1952" as coloratura soprano. Miss Reed's soprano voice, heard at the Miss America Pageant, Atlantic City, in September, was widely acclaimed.

In addition to Miss Reed, the members of the group are as follows:

Miss Senta von Ehrenfried, "Miss Greater Lancaster, 1951", Gay Nineties Dance; Miss Joyce Pettijohn, "Miss Greater Lancaster Contestant, 1952", Baton Twirling; Miss Diana Wallace, "Miss District of Columbia Runner-Up, 1951", Blues Song; Miss Dorothy Rosser, "Miss Allentown, 1949-50", Ballet; Miss Joan Leaman, "Miss Greater Lancaster Contestant, 1952", Concert Pianist.

Also: Miss Senta von Ehrenfried, "Miss Greater Lancaster, 1951", Al Jolson Pantomime; Miss Dorothy Rosser, "Miss Allentown, 1949-50", Original Swan Dance; Miss Margaret Hudy, "Miss Lehigh Valley, 1951", Song; Miss Patricia (Pat) Phelan, "Miss Maple Grove, Lancaster, 1951", Old Mexico Dance; Miss Charmaine Pennock, "Miss Greater Lancaster Contestant, 1951", Comedy Skit; Miss Mary Spinnella, "Miss Lancaster Contestant, 1951", Charleston Dance.

The master of ceremonies for the entertaining group is Mr. Paul Harnish from the musical comedy "Sugar and Spice." The lady assistant is Mrs. Lottie Rosser. Those charming twins, Misses Elaine and Arlene Brett, are the young ladies' chaperones. The show is directed and produced by Dr. George J. Brett and the promotional manager, Mr. Franklin Tragger. Both Dr. Brett and Mr. Tragger are World War I veterans, active in veteran circles.

Wolf—a big dame hunter who enjoys life, liberty, and the happiness of pursuit.

Morton Downey to Sing Here Jan. 18

Morton Downey

Morton Downey, well known tenor of radio and television, will appear in the NNM auditorium at 1800 Jan. 18. Appearing here through the courtesy of Coca Cola, Mr. Downey has had his own radio program for many years and last year was the star of his own television show.

Morton Downey, who began professionally with the Paul Whiteman band, has appeared in three movies of which "Syncopation" was the best known, as well as the first sound musical.

Recently, since singing with Coca Cola, he headed several series of radio shows for them on ABC, Mutual, NBC, and last year inaugurated a half-hour show Saturday mornings on CBS.

He has sung in the Persian Room of the Hotel Plaza, the Wedgwood Room, and the Starlight Roof of the Waldorf-Astoria. He's also sung in Chicago, Washington, Miami Beach, and other major cities. During the war, he made a USO tour in the European theater.

A Master-at-Arms is a source of information that can always give you the details.

Join the March of Dimes . . . Jan. 2-31!

JANUARY 14, 1952

CHRISTMAS
YES

MERRY
WAS

... and a Merry Christmas was had by all. Around the Hospital could be seen ... (top center) CAPT J. L. Enyart, CO, NMS; RADM W. J. C. Agnew, CO, NNMC; and Santa Claus, alias A. Tillotson, HN.
Second row: The Edgar-Bergen-Charlie McCarthy show in the auditorium; Santa asking the usual question, "And what do you want for Christmas?"; and the choir from the Mount Vernon Place Methodist Church singing

"The Messiah" in the auditorium.
Third row: The CPO Children's Party with Chief Murphy as the M.C.; the Nativity Scene in front of the Hospital; and the Navy Dental Wives' party for the children of the Baptist Home in Bethesda.
Fourth row: The pile of presents for the children at the CPO party; Santa, on Tower 6, giving a truck to one of the children; and Santa's visit to the children in the auditorium.

Last row: A Christmas present of entertainment for patients on the wards; LT Rita Brochtrup telling Santa what she wants for Christmas—a charreuse Cadillac convertible; and the members of the cast from Wagonwheel in Washington putting on a Christmas show in the auditorium. All this plus the work done by the American Red Cross and other groups and organizations did indeed make this a Merry Christmas!

Bowling Officer Taps 199 in Game

One of the spark plugs of the University and of the Med School Officers' bowling team is the Center Bowling Officer, LT Robert F. Jaeger, MSC, USNR.

LT Jaeger began bowling in 1939 and until 1941 played the keys with the Sec. of State team and the Illinois State Employees League. He ended the three years with an average of 155.

He bowled last year with the Med School Officers who took first place honors in the first round.

This year, bowling with the new team in the intramural league, LT Jaeger is again one of the top mineralites. In varsity bowling this year, his exceptional was against the Fort Belvoir team when he rapped a high game of 199.

LT Jaeger was the manager and coach of the Varsity Softball Team last year which took runnerup honors in the PRNC Interservice League.

LT Robert F. Jaeger

Cardiology Topples Purple Knights from Unbeaten Rank

The Purple Knights from NSHA dethroned Cardiology from the ranks of the unbeaten as the intramural basketball season entered the new year. Cardiology continued deadlocked with the Naval Dental School team top slot as they easily massaged Center's quintet. Dr. Snyder led through five buckets and free tosses in the final quarter to lift the NDS Officers from a 14 point deficit of 8 points to a winning 45 to 44 win over N.P. They finally hit the win column by finding a hot clicking offense in the final half to send Research with their 4th straight defeat. Chief "Flash" Fast exploded a

dazzling exhibition of hook shots as he led the NSHA five to a brilliant win over previously unbeaten Cardiology. The winners led by a slim 17 to 16 margin as the first half ended. Fast opened his bag of brilliance in the third canto as he feinted time and again to set up scoring plays. His total output for the evening was 21 points and six assists.

This Wednesday, Jan. 16, Waves Bowling Team No. 2 will meet the Marines from 8th and I in the NNMC bowling alleys at 1800 while Team No. 1 will travel to the Receiving Station, Washington, D. C.

Ross L. Cox

New Varsity Forward Favors Fast Breaks

A push shot artist on the basketball varsity team is Ross L. Cox, HM2, of Pharmacy School. Ross, who plays forward, hails from Hillsdale, Ill., where, playing with the Hillsdale Community High, was all-conference for two years in basketball and the same in his senior year in football.

His third letter was won in track where he helped set a county record in the low hurdle relay in his senior year.

After graduating in 1948, he joined the Navy and, after boot camp and corps school, was assigned to Annapolis where he played basketball and softball. He was then sent here for Pharmacy School.

Cox is a strong believer in the fast break and uses this and right hand push shots to make the majority of his points.

Here's Proof . . .

Taking time out last month from the arduous chores of a skipper, CAPT B. W. Hogan, CO, NH, lands some big ones. Here he holds a 25-pound king mackerel, one of the five he caught that day out from Key West, Fla.

Coach's Corner

A Center Pocket Billiards Tournament is in the offing for the month of February, provided that a ladder of 16 to 32 entrants can be drawn up. Trophies will be awarded the top four players so all of you who can handle a chalked cue with dexterity, drop in over at the recreation office and leave your name, telephone extension, et al.

Historians disagree as to when the game of billiards was established; some point to the writings of Will the Bard from Stratford on Avon as setting the date in the year 1652. In the play "Anthony and Cleopatra," Shakespeare had Cleopatra saying to her lady in waiting, "Come, let us to billiards, Charmain." The other school of thought holds to the fact that the game was an aftermath of lawn bowling. Scholars holding to this tenet point out that a group of English lawn bowlers, during inclement weather, marked off space within the castle refectory and attempted to carry their sport indoors. Limited playing area quickly ruled this procedure out and finally the use of a table was resorted to with numerous hoops and cones appearing upon the playing surface. The varied assortment of objects upon the table proved too bothersome and someone decided to cut a hole at either end of the table, use two pebbles of a suitable size and roundness; one for the object ball and the other for the player's ball.

Through the years more pockets were added until the present form of playing surface in which there are six projects. Balls were brass, hard wood, ivory and today we find both ivory and resin composition balls. In three cushion play the ball is 7½ ounces. In pocket billiards they weigh a little less than 7 ounces. Cue lengths vary in size with the average player employing one approximately 57 inches in length. Weights differ from 15 ounces to 22.

Intramural sports were becalmed by the holidays and the turn of the year finds the Chief Petty Officers' keggers holding the pole position with such bowlers as Jackson Reynolds, Smith, Vinson and Meitl anchoring a group of top-notch maple pin knockers. Speaking of maple, on the hardwood floor of the gymnasium, the Dental Dukes are in first place as the league play is resumed. At the time of this writing, a member of the Dukes is sporting a small "mouse," an ecchymosis, produced by a posterior movement of the proximal extremity of an opponent's ulna. You can duck faster at 21 than 41—nuf sed.

The highly touted Bainbridge rebounders were guests of the Center hoopsters a few days before the Xmas leave period. Providing a warm reception for the visitors in the form of ego deflaters, were the following hosts: "Big George" Funk, Ronnie DeVice, Ace Wilson, Hands Davis and Cornell Brothers whose Irish countenance was wreathed with apologetic smiles as he burned the Bainbridge twine . . . Opening bucket was a charity toss by Cornell . . . side-set by Sheil . . . submarine flip by Cornell . . . Sheil off the key . . . Cornell through the slot . . . off the boards with a beautiful tap by Funk . . . double foul, a point by George . . . Cornell on a rolling screen, set up DeVice . . . 10-4 . . . Browne, the big center for the Training Center, with a left hand hook . . . Cornell countered . . . Lewis slipped through the defense rebound triangle . . . Funk stepped to the line . . . over-zealous guarding and Bainbridge's Browne took one . . . and that wrapped up his yuletide offering as Funk neatly tied the package of THREE POINTS, the first game in which Browne has been under twenty-one points . . . Brothers laced the hoop for two fast snowbirds . . . Murphy canned from an out of bounds play that caught the center flat-footed . . . first period ended with the home team nursing a 16-11 count . . . second canto saw Murphy, a smoothie, laze in a one-hander . . . Funk fish-hooked . . . Funk screened for Cornell . . . DeVice screened for Cornell once more . . . Murphy on a corner set . . . Brothers to Wilson to Funk on a post-split, superb cutting on that one . . . off the boards and up the middle with Funk . . . 26-14 . . . time by Bainbridge, frowning eyebrows by worried Bainbridge mentor, return to bench and malevolent glance at caustic, raucous, Center adherent, whose jibes had pierced the stratified squamous . . . Brothers slid under the prehensile arms of Browne . . . Murphy on a high trajectory side-court . . . Murphy repeated on a side-screen . . . Cornell Brothers off a lateral screen set up by Davis, DeVice . . . Lewis a long archer . . . Ron DeVice feinted and slid under for two . . . Funk rebounded off the board and hooked to Cornell who went the length . . . Big George never looked so good . . . DeVice accepted the official's award . . . NTC took a charity . . . Hands Davis looped from the post . . . Drago hit from outside as the half ended . . . 40-24 . . . in the third quarter, the Admirals, paced by the hot palm of Cornell Brothers, went into a 53-43 lead . . . with the final bucket of the game being made on an intercepted pass by DeVice, a push pass to Brothers going all alone into the basket . . . and the Center racked up another one, 69-54.

NNMC	Pos	FG	F	TP	Bain. NTC	Pos	FG	F	TP

							23	8	54

Half-time score: Naval Medical Center, 40; Bainbridge NT Center, 24.

The Marine Corps Institute always floors a fine aggregation and despite the attrition wrought by demands for division replacements during the current season, LT Earnest's quintet forced the Admirals to top last season's scoring mark of 103 by one digit, 104-87. Tommy Brothers, playing his finest hoop game of the past few years, ran up the markers to 46, missing five shots from the floor during the evening's play. Ron DeVice tallied 25 to have his best mark in local league play. Blasher, who vies with Taps Ford in coiffure styling, broke into the scoring column. Must be the exercise he is getting in his current assignment as "Linen King."

Naval Photo Center at Anacostia withdrew from the League last week. Last year the shutter snappers had a sweet ball club. Tait, their fine center, appearing in a Security Station uniform the other night against the Admirals, garnering in 16 points for his evening's work. Brothers and Funk topped Tait, scoring 20 and 18. The bench was cleared in winning 74-58 with all hands hitting the scoring column. As this column hits the linotype, the Varsity will be visiting Fort Meade. A New Year's resolution for Center personnel: "I will go out and watch the team play at least two HOME GAMES."

Your Navy Exchange Dollar

Special Services' Disbursement Pages Show Result of \$60,000 for Recreation

By John M. Reynolds, HMC

Editor's Note: This is the third and final article to show you what happens to your Navy Exchange dollar. This article reviews what results and how it profits you when the profits of Navy Exchange are turned over to the Special Services Department; how you in your free-time recreation are aided by these funds.

In the last article it was shown that 5.9 cents of your purchase dollar that you spend in Navy Exchange, augmented by the receipts from motion pictures and the golf shop, is returned to you in many ways that add to your enjoyment in your leisure time.

This amount, of which \$51,533.83 from Navy Exchange increased from the movie and golf course, adds to over \$60,000 which results in plenty of recreation.

In the belief that a categorical analysis of how Special Services spent its allotment would prove interesting and informative, the disbursement pages of Special Services' books were combed. The major item expenditures were many and include:

Xmas Greens	866.00
Station Wagon	2,327.00
Bowling Ball Polishing Machine	75.00
Pinsetting Machines for Bowling (4)	2,280.00
Aluminum Diving Board	421.00
Racks & Baskets for Dressing Rooms	1,963.00
Bleachers for Athletic Field	930.00
Lockers (48)	583.00
Electric Scoreboard	474.00
Televisions (14)	2,104.00
Television Roto Tables (9)	160.00
Pool Tables (2)	972.00
Ping Pong Tables (5)	275.00
Piano	588.00
Radios, Table (25)	385.00
Radio Phonograph	143.00

The decorations dressed up the wards and the exterior of the Center and claimed many superlative remarks. The purchase of the station wagon contributed to the transportation of athletes, committees and other duties. The ball cleaner led to better bowling while the pinsetting machines speeded up the leagues by 50%. There were 108 participants in last year's Intramural League. The aluminum diving board eliminated the "days without" that were so frequent when the wooden boards were the equipment. The installation of the basket check system in the Dressing Rooms provided considerably greater space and ease for swimmers and gymnasts.

The bleachers proved to be a magnet as the turnouts at this past summer's softball games were well advanced over the prior year. The electric scoreboard, easy on the eyes, put the blackboard in the storeroom.

The televisions, radios, pool and ping pong tables went to the various barracks and quarters and completed in each "home", a recreation center of its own.

Digging deeper through the files, total figures for other Special Services expenses look like this:

Dances	\$ 4,365.00
Picnics	2,156.00
Administration	11,217.00
Golf	2,249.00
Tennis & Badminton	452.00
Library	2,469.00
Maintenance & Repair	3,100.00
NNMC NEWS	6,435.00
Parties & Entertainment	3,747.00
Bowling & Billiard Supplies	570.00
Awards to Athletic Competitors	1,343.00
Intramural Basketball	270.00
Men's Varsity Basketball	1,154.00
Women's Varsity Basketball	483.00
Divine Services	75.00
Intramural Softball	1,375.00
Men's Varsity Softball	562.00
Women's Varsity Softball	306.00
Boxing	205.00
Fishing	90.00
Ping Pong	84.00
Gym Workout Clothing	486.00

The above figures do not include those items listed in the first group and as some of these totals appear staggering it would be well to offer some explanations.

The dances include orchestras, refreshments, transportation for the girls, favors, decorations and rental for those dances held in downtown D.C. The leading expense category, Administration, covers the salaries of one bookkeeper-secretary, a golf professional, two attendants for the women's dressing room, greenskeepers (extra time only), organist, movie operators; insurance; maintenance of station wagons and incidentals. Golf's total is the result of lessons, rental clubs and carts, tee markers, towels, flags and others. Since over 12,500 persons used the course in the past 12 months, it can easily be concluded that Special Services contributed in no little measure. For the library, Special Services purchased many books, newspapers and magazines.

Under the heading of Maintenance and Repair falls the cost of repairs to radios, phonographs, televisions, pool tables, bowling alleys plus piano tuning.

The varsity and intramural basketball and softball programs required uniforms, equipment and officials. The cost for the intramural programs figured per person becomes very economical when based on the 100 basketball or the 180 softball participants.

Parties and entertainment included Recreation's help to organized departmental parties and minor expenses incurred in arranging performances by professional shows.

More than \$60,000 which adds up to plenty of recreation.

Navy Belles

by George

Happy New Year— and here we are well into another year. Three new girls in for Physical Medicine School are Ruby Bassham from Corpus Christi, Ruth Freudenvoll from St. Albans, and Mildred Casey from Newport.

Billie Lawton reported in for hospital command from Bainbridge Corps School.

Hear tell everyone had a wonderful time on leave. Those of us here had a wonderful time at our open house New Year's Day. Pool, dart games, dancing, and TV were featured. Many asked when we are going to have another. We are thinking about Valentine's Day. Sounds good.

Our January Bride is Mary Jane Grandin who married Bill Price while home on New Year's leave. Bill is from Mary Jane's home town, where she hopes to return very soon. They tell me Bethany Beulow and Ann Harder are going to be our near future brides—Peitrangelo is running around with a glow in her eyes.

Maggie is back in circulation after 30 nights—she circulating in her brand new black Chevy. Amazing what you can get for \$10 down!

Have you seen the new boxing gloves I got for Christmas? Joan Madden sailed away to Hawaii with our other Dental girls who answered the call of the islands. Danny McCoy and Ruby Salloum are counting the hours of X-Ray School and hoping to move on to another place where they can stay for a while.

Miss Pat "Tenn" DeBerry, who hopen?—Delores Amott is teaching singing lessons. Am standing in line waiting for my appointment.

The lovely flowers in the lounge are being shared with us by Eleanor Furness. Till next time—the girl from the heart of Maryland.

Ex-Research Doctor Wins \$100 on Paper

Recognition was recently given to research work done in the Naval Medical Research Institute when the Oswald S. Lowmley Foundation presented its first prize of \$100 to Dr. Alex L. Finkle.

Dr. Finkle's paper, entitled "Histopathological Study of the Renal Lesions of Lower Nephron Nephrosis in the Dog" was entered in a contest conducted by the Urological Division of the New York Academy of Medicine which accepted papers from urological residents of the metropolitan New York area.

The work upon which Dr. Finkle's paper was based was begun at NMRI in 1948-1949 when he was a Lieutenant junior grade. Additional biochemical and histological studies on the problem were carried out at the Johns Hopkins Hospital during a residency which Dr. Finkle filled subsequent to his separation from the Navy.

At present Dr. Finkle is chief resident in urology at the Delafield branch of Columbia University's Squier Urological Clinic.

SA: "I see you've grown a mustache. Must have trouble eating soup now."

Salt: "Yeah, quite a strain."

Height Disappears Entering the Navy

William C. Hoover

Passing in final review at Boot Camp and acting as flag bearer, William C. Hoover, HA, a student in ECG school here, was stopped by the Commanding Officer who had left the reviewing stand to ask Hoover how tall he was.

This seems to be a recurrent incident in Bill's life who is 5'2" tall and probably the shortest man on the base and the owner of a second-to-none sense of humor.

Bill was born in Dayton, Ohio and went to grade and high school in Trotwood, Ohio where he was on the tumbling team. This group did tumbling acts at basketball games, football games, and for different organizations that were well known in that section. Miami University, Oxford, Ohio followed where he majored in chemistry and physical education. In his spare time, he taught tumbling to the members of the NROTC at the school.

December 26 was the first anniversary of Navy life for he joined in 1950 the day after Christmas. He felt that he came in just in time for when he was measured at the recruiting station in Dayton, Ohio his height was marked down at 5'1½", at Cincinnati 5'1", and at boot camp 5'½". The way he was shrinking, according to the different height charts, he thought, with one more physical, he would never have passed.

Most of his clothes had to be tailor-made. Most of them fit now except his peacoat. He was given a size 34 coat and, though the sleeves were cut down to his size, the body of the coat covers him like an overcoat—Better for the cold weather.

Another problem in boot camp was shaving, for, in order to see his reflection in the mirror, he needed a bucket to stand on.

Bill has already grown one inch and put on 11 pounds since entering the service. He is now taller than either of his parents.

He is an avid basketball player and is on the ECG team.

Also, he still continues to tumble to keep in practice and believes that tumbling is one of the best all-around sports for keeping in shape. When he leaves the service, he expects to return to Miami University for veterinary training.

Patients Now Eligible For Advancement Exams

It is now possible for patients to participate in service-wide examinations in rating provided that they will return to duty, have the consent of their medical officer, and have been recommended for advancement by the commanding officer of the last duty station. Small stocks of training manuals for all ratings are now available on loan from the I and E office, Ward 102.

News Shorts

(Continued from Page 1)

1. **A Military Pay Raise Bill** which gives 10 per cent raises for base pay allowances to all Armed Forces Personnel. Has been cleared by the House Armed Services Committee. Ready for House floor action.

2. **Combat Pay Bill** would provide extra pay for men in combat. Introduced but not reported out of committee.

3. **Olympic Games Participation Bill** would allow servicemen to participate in Olympics. Reported in House and ready for floor action.

4. **GI Bill.** Men in service on or after June 27, 1950 would get limited scholastic benefits. Still in committee.

The Navy has called for requests from eligible enlisted men for assignment to recruiting duty. It is particularly interested in Chief Petty Officers and first class yeomen, personnelmen, storekeepers, and disbursing clerks.

Requests also will be accepted from second and third class yeomen, personnelmen and second class hospital corpsmen.

The Naval Dental School will present a special lecture to be held on Friday, Jan. 25, 1952, Room 202, Dental School Annex, at 1400. Guest speaker will be Douglas B. Parker, M.D., D.D.S. He will speak on "Deformities of the Face and Jaws." Dr. Parker is a leading figure in oral surgery in New York and is Clinical Professor of Oral Surgery at Columbia University.

Let's Dance again
with the great...
ralph
Flanagan
and his orchestra

Run Sailors, run—tonight's the night! Ralph Flanagan and his orchestra with Harry Prime, Rita Hayes, and the Singing Winds will be on hand at the Enlisted Staff Dance tonight at 2030.

Register for Your College Night Courses in Ward 131 Next Monday

At 1800 Monday, Feb. 4, officials from George Washington University will be in Ward 131 to register all personnel interested in attending night courses given at NNMC for the semester beginning in February.

Courses planned for this semester are: College English, College Algebra, Introductory Accounting, Chemistry (a general science course at laboratory), Introduction to Philosophy, and Effective Writing. Meeting one night a week for 15 weeks, these courses carry three hours college credit.

Of the above courses will be available to personnel here if as many as 20 students will register. Those who have not already paid your registration fee of \$5.00 (check money order payable to George Washington University) at the I. O. office, do so immediately.

A fee will be deducted from next tuition payment or will be added to you in the event that courses of your choice cannot be taken because of insufficient number of students.

The total cost of the three credit courses is \$30.00 for service personnel and \$39.00 for civilians. One-half of this amount is payable at the time of formal registration at the George Washington office.

Persons who began their professional studies under the GI Bill on July 25, 1951 may continue their certificates of entitlement to cover their tuition and

at some time the Navy has provided a tuition aid program for naval personnel attending at accredited colleges (Circular Letter 178-50).

A limited number of applications have been assigned to this duty. Priority in the allocation of awards will be given to all personnel who pre-registered at the I. O. Office.

Radioactivity Problems Theme of New Course

A course of instruction in the medical aspects of Special Weapons and Radioactive Isotopes will be given at the Naval Medical Center here Feb. 11, and continue through Feb. 16, 1952, announces T. J. L. Enyart, CO, NMS.

The course, the second of fiscal year 1952, is conducted primarily for the benefit of inactive reserve medical department officers. A limited number of officers of the medical department on active duty attend the course.

Problems likely to be confronted by medical and dental officers in the field of radioactivity will be presented, and techniques employed to counteract these problems will be discussed. The problems discussed will be presented by speakers of outstanding prominence in their specialties.

Want to Earn \$25? Write That Slogan!

Operation Goose-Egg, NNMC's Safety Slogan Contest, is under way and you have until Feb. 15 to place your entry. Seventy dollars in merchandise will go to the winners, the first prize being of \$25.00 value.

Slogans must be original—aimed at accidents of any nature. For instance, auto accidents; those caused by wet wax, wet decks, push carts, falling in showers; industrial accidents caused by saws, planers, electric welders, steam valves and fittings, skylarking and numerous others.

All hands attached to NNMC Commands, military and civilian, are eligible to enter. Make sure your entry is properly identified with name, command, and telephone number and drop it in one of the boxes located in the following places: NNMC Security Office, Rm. 80, Bldg. I; Auditorium Lobby, Time Clock Stations, and Navy Exchange.

The following committee has been appointed to screen safety slogans: LCDR E. R. Stovall, Safety Officer; LT J. O. Atkinson, Special Services Officer, and Mr. Robert Williams, Civilian Chief Quartermaster.

Navy Again Takes 'Achievement Award'

One of the features of the annual conference of the National Association of Suggestion Systems is the presentation of four achievement awards. In Detroit, Mich., on Nov. 13, 1951, Mr. S. W. Rubenstein, President of the Association, presented the "Achievement Award for Increased Suggestion Participation" to Rear Admiral W. McLaughlin for Navy's outstanding suggestion program record in the fiscal year 1951.

This is the second time in three years that Navy has won this nationwide recognition. During the fiscal year 1951, Navy employees submitted 51,990 improvement proposals or ideas as suggestions—13,146 were adopted, for which employees received \$346,823 in cash awards. In addition to the many benefits Navy received from these suggestions through improved procedures, employee-management relations and safety, the taxpayer public reaped an annual saving of \$8,414,182.

World Leaders Honor Hospitalized Servicemen At Impressive Ceremonies Held During Month

Left: Vice President Alben Barkley and NNMC patients await the appearance of Winston Churchill. Front row: Sgt. Charles Geiwitz, Cpl. Burnie Evans, Cpl. Ray Story, Cpl. Richard DaGue, and Pfc. Lemie James. Back row: Sgt. Paul Manor, Cpl. Coy Mattox, Sgt. Charles Pearson, Eugene Vasusky, HN, Cpl. William Harnett, and Mrs. E. D. Wade, American Red Cross. Center: Prime Minister Winston Churchill personally greets patients. Right: NNMC patients attending one of the Blair House teas are (l to r)—J. C. Ritchie, AN; Sgt. Charles King; John Medaugh, AN; Pfc. M. Jolles; Pfc. P. Corso; H. R. Morris, FA; William Openshaw, SN; B. H. Webb, SA; Sgt. E. MacGregor; Theodore Quick, LI3; H. B. Gerrard, AA; and P. F. Muscanella, FN.

News Shorts From The Editor's Desk

LT Donald Scheurer, MSC, USN, reported aboard Jan. 15 to relieve LT Roy Winne, MSC, USN, as Personnel Officer, NH. Mr. Winne's next duty station will be Bainbridge, Md.

LT Elizabeth Wilson has been appointed Benefits and Insurance Officer. These duties were formerly under the cognizance of LCDR J. P. Soltysiak, MSC, USN, Administrative Officer, NH. Miss Wilson's office is located in Ward 102.

The representative from the Officers Uniform Shop will no longer come to NNMC on Wednesdays. Local service has been discontinued. Anyone wishing to place an order may call Mr. Albert Smrcina, Code 131, Ext. 62663, or visit the offices, Room 2121, Main Navy Bldg. between 1015 and 1630, Monday through Friday.

Men and women of all services are invited to the Sunday evening tea dances at the Episcopal Cathedral, 1317 G St., N.W., Washington, D. C., from 1630 to 1930. It is suggested that military women wear civilian clothes.

ENS B. W. Garland, and ENS G. S. Huber of NMS received their temporary appointments to LTJG, MSC, Jan. 17.

Secretary of the Navy Dan Kimball announced that ten 60,000-ton aircraft carriers are to be built at the rate of one a year. The new super-carriers would be sister ships

Mrs. Truman Gives Blair House Teas; Patients Bid Farewell to Churchill

Many patients from NNMC have had the never-to-be-forgotten chance to meet the President and Mrs. Truman and Britain's Prime Minister Churchill this month.

Mrs. Truman has been extending invitations to tea at the Blair House to service patients on Tuesday and Thursday afternoons during the month of January.

Officers Available With Those Answers On Your Income Tax

If you're confused about your income tax, (and who isn't) rest assured that arrangements have been made to help you.

Four officers were selected from NNMC and they have just completed a five-day course given by the Bureau of Supplies and Accounts to enable them to answer your tax questions.

Ready to help you now are LT Donald Scheurer, NH; LT Robert S. Leopold, NDS; LT E. W. Walker, NMS; and LT E. F. Hickey, NSHA. Personnel in NNMC Command may consult LT D. H. Baker, Legal Assistance Officer. Mr. Baker will also help with complicated legal questions for personnel of all commands which cannot be answered by their command consultants.

Mr. Baker advises that everyone read the instructions received in the mail with the blank forms. Then if there are further questions, consult your command representative who is qualified to answer all routine questions.

of the USS Forrestal, whose keel was laid down this summer. Some of the later models might even be powered by atomic turbines. Estimated cost for all ten (not counting the aircraft to fly from them) will be \$2,218,000,000.

In the receiving line to greet the visitors have been President and Mrs. Truman and the President's Military aides, Maj. Gen. Harry H. Vaughan and RADM Robert L. Dennison.

Eighteen Marine Corps and Navy Korean casualties from NNMC and 33 patients from Walter Reed were on hand at Union Station to bid farewell to Prime Minister Churchill when he departed from Washington Jan. 19.

Servicemen assembled just outside of the USO lounge, and as Mr. Churchill left, he walked down the line of patients, shaking hands with each one. As each man spoke to the British leader he gave his name and home state.

The famed statesman said, "... I am proud of the privilege to speak to and shake the hands of American Servicemen who have taken part in the bloody conflict in Korea ..."

The farewell ceremony was arranged by the Armed Services Hospitality committee, headed by Mrs. Martin Vogel, and among celebrities present were Vice President and Mrs. Alben Barkley, Secretary of State Acheson and various embassy officials.

Evangelist Here

Dr. Billy Graham, the noted evangelist, will speak in the Main Auditorium, NNMC, Wednesday, Feb. 6, at 1400. All are cordially invited to attend.

School Lets Out for Ten O.R. Students

The ten graduating Operating Room Technicians get final instructions in the operating room before their graduation Jan. 21. Rudolph Weisskopf, HN, took top honors in the class which lasted six months.

Left to right: LT Joanne Harges, NC, USN, anesthetist; Richard Galloway, HN; Charles W. Goldsborough, HN; Rudolph Weisskopf, HN; Howard Houck, HN; Leonard Adams, HN; Richard Bode, HN; Willis Warner, HN; Richard Bosshard, HN; and LT Lucille Milsted, NC, USN, Nurse in Charge of the Operating Room.

Also graduating, but not present for the picture, were: Reid Gilbert, HM3; and Donald Kohut, HN.

If I Could

If I could paint a rainbow across the rainy sky
And turn a silver teardrop into a golden smile —
If I could teach elephants with their ears to fly
And make a pauper's dreams come true for just awhile,
Or make a tortoise run or catch a falling star
In crocheted nets of spider's web beaded with dew—
If I could change this world and all the things that are,
I think my baby sons, I never would change you!

GLORIA E. (GOSNELL) BURGESS, NMRI

The Chaplain's Corner

by Chaplain Peter J. Marron

Chip Marble from Heart!

News of a Mrs. X. Her heart being slowly but surely entombed in a wall of stone. The heart sack hardening into marble. Doctors chipped away — saved her heart from being crushed.

Extraordinary? It's an ailment more common than a head cold. Symptoms? You "chisel" on any of the Commandments with a careless, "I'm human after all" attitude. The chips add up. One by one they build up a tomb around your heart.

Or you offer an opinion: "She's one of my very best friends . . . but—" Every stone you throw imbeds itself in that stone wall you are building around your heart . . . or you scandalize the children with bad language or stories . . . the walls are crushing in . . . Beware of those walls that make you hard! Unfeeling! Selfish! Uncharitable! "Sweet" talk about your friends! Unkind! Inconsiderate of others . . . or you will harden into a walking tomb . . . the only Life in you that counts crushed out forever!

Crew's Library

War Stories Still

Tops in Popularity

If you are keeping up with the Official History of U.S. Naval Operations in World War II, you may know that Volume VII is now in Crew's Library. This volume covers **THE ALEUTIANS, THE GILBERTS AND THE MARSHALLS** from June 1942 to April 1944. Mistakes are frankly discussed, several amusing incidents are told, and the Marshalls campaign is described as the most brilliantly successful operation of the war up to that date.

THEY FOUGHT WITH WHAT THEY HAD by Walter D. Edmonds, is another account of war in the Pacific; this time the air operations during the early months of the war by the Army Air Force in the Philippines. This is the story of the men who did the impossible against impossible odds, for the Americans, seriously underestimating Japanese air strength, were outbombed and out-planned.

BILL MAULDIN'S ARMY will interest you both as a cartoon book and as a record of various phases of Army life. Here is to be found a selection of 439 of Mauldin's cartoons, half of which have never before appeared in book form. Willie and Joe show us the humor of garrison life, training, foxholes, invasions and demobilization.

THE ENEMY, by Wirt Williams, may not be up to *The Caine Mutiny* but it is a good story of life aboard a warship and the hunt for enemy submarines. The tedium and details of the long months of sea duty and the interplay of personalities is well described.

That second sequel to Mary Lasswell's ever-popular *Suds in Your Eye* is called **WAIT FOR THE WAGON**. In this book the unique and rowdy trio take a motor trip to California. If you like your humor robust, here's the one for you.

Make That Convertible Chartreuse

Your guess is as good as ours what Petie (Rose Peitrangelo, HN of NH) is wishing. Cartoonist John Minton, HM3, suggests the above objects.

Regardless of what Petie wishes for, her contribution will help fulfill the wish of some polio victim — the wish for restored health. You can make your wish at the wishing well in the main lobby of Bldg. 1 now.

March of Dimes Drive Extended 5 Days: Illinois Leading States in Bottle Race

NNMC's March of Dimes Campaign has been extended to Feb. 5 which gives you just eight more days to bring your home state out ahead by dropping your donation in the milk bottles outside of the Naval Exchange Restaurant.

Last year New York led with \$11.33 without including the \$1.61 contribution to Brooklyn which has a separate bottle. Close behind New York was Ohio with \$11.21, Pennsylvania with \$9.60, and Virginia with \$8.72. All in all \$177.21 was collected in the bottles.

Leading this year as of Jan. 24 is Illinois with \$7.57 (some loyal Illinoisan dropped in a five dollar bill) with Maryland following with \$5.14. Close behind Maryland is Pennsylvania with \$4.26. Texas is holding down fourth place with \$3.57.

It's still anybody's race, so drop your contribution into the bottle of your choice; you'll walk away with the good feeling of knowing that your dimes are helping some little fellow have the good feeling of being able to walk again.

So Little Time

So little time to live, many things I hurry through,
I never can quite find the time for things I want to do.
Occupied with this and that, scurrying to get them done,
My life will soon be finished when it hasn't yet begun!

So little time to remember the child I used to be,
Who planned to travel every land, sail on every sea,
Own a stately mansion, sprawling tracts of land,
Champion horses roaming; these things I once had planned.

So little time to remember the child who did not doubt
A plaything was the world, I could turn inside out
With slightest wish or whim that should occur to me—
The world would be my toy when a grownup I would be!

So little time to remember this child who used to dream
Of daring bold adventures, I someday would scheme
With brilliance of the genius I certainly would become,
Possessing gallant traits, lacking not in one!

With so little time for things I really want to do,
I am caught up in a tangled web with you and you and you.
We live to work, work to live, repeat the same refrain
Never doing things we want to do—just live and work again!

So little time for thinking, still little for regrets—
For many things I should have done and haven't done just yet.
So little time for thinking, still little for regrets—
Been so busy just a'living so little time is left for me!

—GLORIA E. (GOSNELL) BURGESS, NMRI

Diaper Derby

Jan. 11—Robert Alton Ohlin, 6 lbs., 13 oz., new son of John Robert Ohlin, HMC, of the Department of Optometry.

Jan. 18—Harold Erick Draeger, 2 lbs., 15 oz., new son of CAPT R. Harold Draeger, Head of Atomic Medical Research, NMRI.

Hobbyists' Paradise Located in Bldg. 144

Cpl. Isiah Henderson puts the finishing touches on a clay bust which he made in Occupational Therapy.

Do you have a hobby or wish you could have the facilities to develop a diversional recreation? Do you care to work in ceramics, do smithing, metal tooling, or work with plastics or in a darkroom? Maybe you prefer typesetting, leatherwork, weaving or carpentry. Perhaps you are interested in oil painting, drawing, or wish to learn to type while in the hospital. Facilities for all these activities are available for patients in the Occupational Therapy Department, known as O.T. This department's primary purpose is a dual one: to aid the patient in speedy recovery, and in the case of muscular or nerve disability, to show him that possibilities of recovery and use are there which can be utilized.

The secondary purpose is also an important one—diversional. A patient with a hobby is kept interested and long hours of confinement can be made pleasant.

Under the supervision of Miss Overton, LCDR, NC, the department has the facilities for all types of hobby as well as intelligent and constructive suggestion to aid the patient in his own interest.

A majority of patients, after a period of indoctrination and instruction, are able to turn out outstanding work in lines which often completely new to them. An excellent example of this is copper plating and clay busts which are in the entrance to O.T. Some of these now on display are work of Army patient Cpl. Henderson who, previous to coming a patient here, had never attempted this type of work.

The copper platings, for which used illustrations for models, are an almost perfect knowledge of the material and excellent use of possibilities. His two clay busts, "A Sailor" and "A Young Man" were his first attempts at medium and are well executed.

Many other examples of the work done by patients are displayed in the workrooms. From jewelry, which (as all the other work) is cost-free to the patients, bracelets, belt buckles, and other jewelry have been made.

Shades, bowls, and numerous other articles have resulted from some patient taking an interest in plastics. A multitude of items from almost every hobby are on display in this department which is often aptly referred to as the hobbyists' paradise.

Advice on the bulletin board of newly-formed outfit: "Send your names to the Quartermaster and try to get to know the names of your buddies."

Master at Arms is a source of information that can always be of help.

JANUARY 28, 1952

Marine Patients Get Silver Stars

Two Silver Stars and a Purple Heart were awarded to two Marine patients by RADM W. J. C. Agnew in the past two weeks.

Cpl. Charles L. Keyes, USMC, a patient on Ward 4-D, was awarded the Silver Star and Purple Heart. The Silver Star was awarded for heroic achievement in connection with operations against the enemy in Korea on June 14, 1951.

Serving as a squad leader, Cpl. Keyes was assigned the mission of assaulting a well defended knoll held by a strong enemy when he was severely wounded in the neck and shoulder. Refusing to be evacuated, he continued to press the attack until the enemy position was overrun. Only after he reorganized the squad and assured himself that all the wounded had been treated, would he consent to evacuation.

Sgt. John W. McClain, USMC, a patient on Ward 133, was also awarded the Silver Star for action in Korea. The citation which was given read in part: "—unmindful of his own safety, he charged through enemy fire towards the (machine) gun, killed the enemy who was guarding it, and brought the gun back—"

Tickets Available For Your NYC Visit

(AFPS) — Transient servicemen passing through New York City may obtain guest tickets to stage plays, movies, radio and television broadcasts and other forms of entertainment by applying to the Inter-Servicemen Ticket Committee in the new USO Information Center at the Hotel Diplomat, 108 West 43rd.

This is made possible by the combined efforts of the American Theatre Wing, the Welfare Council, the League of New York Theatres, and the Travelers Aid Society at the new USO Information Center. More than 32,000 free tickets of all kinds are being distributed every month.

Naval Dental School Contributes 5 Times Quota; To Take Lead for Second Time in Blood Drive

Executive Officer Leading Command

Records of the Blood Donor Center for last year show Naval Dental School way out ahead, registering 124 donors, more than five times its quota for the year 1951. As the leading command in the current drive, it shows signs of topping its excellent record this year, sending down 21 donors on Jan. 7.

Records for 1951 reveal that while NDS was asked to fill 8% of NNMC's quota, they accounted for 41%.

Speaking of NDS' record, CAPT J. L. Enyart, Commanding Officer of NMS, said, "CAPT A. H. Grunewald, Executive Officer of NDS, deserves much credit for the exemplary record of his command, urging 100% participation in this drive and being a frequent donor himself."

Donating blood is a painless procedure which takes approximately one-half hour of your time. You can make your appointment by simply dialing Ext. 586.

Maintaining its standard of 100% participation in the Blood Donor Program, Naval Dental School furnished 21 donors on Jan. 7. Some of the group are shown here filling out registration cards, and having their temperatures and pulse rates taken before donating blood.

The three corpsmen standing are (l. to r.): Anthony Howard, HM3; Joseph Dew, HN; and Robert Posch, HM3. Donors seated around the table are: CDR Edward Gardner; Erman Stottemyer, DN; Cpl. Archie Gilliland, USAF; Francis Hocking, DN; Richard Anderson, DN; John Jarboe, DA; Jack Goudy, DN; and LTJG Harry Dennis Jr.

Those Wounded in Korean Combat Zone May Have Income Tax Refund Coming

If you were in a hospital before Nov. 1 because of wounds, disease or injury received in Korea, the government may owe you money.

Passed last October, an amendment to the 1950 tax law covering tax exemptions in the combat zone extended these exemptions to servicemen hospitalized as a result of Korean service. The amendment was retroactive to June 24, 1950.

It wasn't until Nov. 1, 1951, however, that finance officers began taking the new amendment into account when they disbursed the monthly pay. This left 17 months in which hospitalized servicemen still had paid income taxes. Those taxes taken from a serviceman's pay while he was in a hospital now must be given back to him.

How do you get your refund if you're eligible?

Each serviceman receives a form W-2 stating how much of his pay was taxed during 1951. Marines received theirs with their first check in January, and the Disbursing Office plans to issue them to enlisted personnel with their Feb. 5 checks.

If you were hospitalized because of Korean service you probably have had too much withheld. Your next step should be to obtain a certificate from your unit personnel officer stating the months when you were hospitalized.

In figuring what you owe, you should subtract from the total on your W-2 form the amount of pay earned while hospitalized. This will give you taxable income.

When you mail your 1951 income tax returns to the Collector of Internal Revenue your computations will show that you were overtaxed. Be sure to enclose your W-2 form and certificate from your personnel officer.

Joseph C. Padgett

'Young' Mr. Padgett Around Since 1915

The distinction of being the oldest young man in Civil Service at NNMC belongs to the machinist in the laundry, Mr. Joseph C. Padgett. Mr. Padgett, who has approximately 40 pieces of equipment—manglers, washers, dryers and other laundry machinery—under his care, began working for the Navy at the old hospital in 1915. The only time that he was not employed by old hospital or here was a leave of absence to join the Army in the First World War.

His first job was as a coal passer for \$30 a month and he worked 12 hours a day, seven days a week. While at the old hospital on 23rd and Constitution Ave., he was promoted to fireman and later engineer before being transferred to NNMC as one of the first civilians. Shortly after arriving here his specialty was changed to a machinist and he was detailed to the laundry.

While reminiscing about the former hospital, most of which is now used as offices, he remarked that it was well liked by civilian help because its smaller size allowed more diversified details. Also, the smaller staff resulted in closer contact between the military and civilian staff and "everybody knew everybody else."

In sports Mr. Padgett enjoys sand-lot baseball while his work is his main hobby.

He is a native Washingtonian and has two children; a married daughter living in Virginia and a son "who works for a competitor—The Washington Post."

'Capital Cavalcade' Comes to NNMC Stage

Above are two of the acts comprising the "Capital Cavalcade" which the Armed Forces Entertainment Wing brings to the NNMC Stage Feb. 7.

The Armed Forces Entertainment Wing brings its gala musical "Capital Cavalcade" to the stage of the auditorium in their initial appearance here Feb. 7 at 1930.

The group, although comparatively new, is nonetheless an accomplished one. Formed during the summer of 1951, the group lists among its members the best of professional and amateur entertainers in the metropolitan area.

On hand to bring you the tops in entertainment are the Bobby Wilk All-Stars; the Dee-Lovely Edwards

Sisters, who combine beauty and harmony in a perfect blend; the La Balinese Dancers, famed exponents of the modern dance interpretation; the beautiful Gracita, foremost tribal dance stylist; the tap artistry of the Toppers; the vocal harmony of the Blue Jays Quartet; the Glee Club of the 94th Engr. Bn. of Fort Belvoir, Va.; and the laugh provoking wit of ventriloquist-emcee Ray Swope and his side-kick "Cedric."

The show is under the direction of Lt. Harold Slaughter with George Lewis as technical assistant.

Flyboy Takes Honors in X-Ray Class

The last class of 1951 in X-Ray School graduated Jan. 18 with 23 Navy and 10 Air Force students. Taking top honors were Pfc. David L. Schafer, with a final average of 94, and John R. Turner, HM2, with 92.59.

Front row: CAPT J. L. Enyart, Commanding Officer, NMS; CAPT E. B. Coyle, Executive Officer, NMS; and WOHC L. J. Clark, OinC, X-Ray School.

Second row: Ruby Salloum, HM3; Lewis Nothstein, HN; Robert Hill, HN; James Livesay, Jr., HM3; Wilbur Swanhart, HN; Vernon Buesking, HN; Peter Casey, HM3; Kenneth Blunier, HN; Larry M. Rhye, HN; Lloyd Davis, HN; and Annie McCoy, HM3.

Third row: Henry Castillo, Jr., HN; Russell Phillips, HM2; Constant VanAcher, HM3; Jerry Kynion, HM3; Edward Hackett, HN; Cassell Pursell, HN; Patrick Minor, DN; Thomas Glynn, HN; Nelson White Jr., HM3; John Turner, HM2; and Robert Bullock, HM3.

Last row: Pfc. David Cope, Pfc. David Schafer, Pfc. Osgood Bridger, Pfc. Donald Blocker, Pfc. James Irwin Jr., Pfc. Zeb Lowry Jr., Pfc. Julius Pokrzywinski, Pfc. Felix Waitches, Pfc. Frederick Adams Sr., and Pfc. Robert Boyd Jr.

Also graduating, but not present in picture, is Belvard Rutledge, HM3.

'Old Salt' Recalls Resinking of Maine As His Most Dramatic Sea Experience

When it comes to fascinating sea stories, and by that we mean stories of the sea, not imaginative ones, it's hard to beat Sol B. Berkowich, CHRELE, USN, (Ret.). In case you're not an old timer yourself, CHRELE means Chief Radio Electrician.

On Dec. 17, 1951, Chief Berkowich accepted the invitation of CAPT J. L. Enyart, CO, NMS, and presented an illustrated lecture in the auditorium on the history of the famous battleship *Maine*.

Berkowich enlisted May 10, 1900 and has had 52 years of association with the Navy, 33 of which were active duty. Retired now and living in Washington, the chief says, "I love the Navy for what it stands for. You can go to sea and see history in the making—and I've seen plenty of it in my day."

He lists the raising and resinking of the USS *Maine* in 1911 as the most dramatic experience he ever witnessed at sea. The battleship *Maine* went down in Havana Harbor in 1898 setting off the Spanish-American War.

Since the submerged *Maine* had become a menace to navigation in the harbor, she was raised and reburied three miles north of Havana in 600 fathoms of water. Sixty unidentified bodies of the crew were found aboard and were sent to Arlington Cemetery for burial.

Chief Berkowich was detailed by the SecNav to act as official

photographer for the operation and he has 60 slides of the event, many of which were originally published in the New York Herald.

Berkowich enlisted at 16 at a time when apprentices were enlisted between the ages of 14 to 17 and served until reaching their 21st birthday. This system was not abolished until October, 1904.

Navy Belles

by George

We hardly had our Corps books put away after the tests for advancement in rates when they started giving tests in the twice-a-week school, so out they came again.

Plans are underway for another party at our house. We're hoping for a record dance for Valentine's Day.

Both bowling teams are off to a good start. The only thing new about our team is my new bowling shoes. The basketball team is off to a slower start but I am sure everything can be ironed out and watches can be fixed so we will stay on top of the ladder.

Danny Jo left us for Portsmouth, but her bowling friend is staying here, so welcome to Hospital Staff, Ruby Salloum. Evelyn Butler, DN, came from downtown to be in the next X-Ray class.

"Little Isotope" Possi is the best T.V. worker in our house. "Al" is nursing a back ache, Mabel has a bad shoulder, and Jane a loud, terrible cough which altogether make up a cheerful corner in our dorm. I hope they will soon be on the road. I just came back from the road to the heart of Western Maryland. See you.

NNMC Drops Arl.; Tom Pulls 34 Pts.

NNMC, 77—Arlington Hall, 72

Center basketballers encountered trouble with the fine floor play exhibited by the Arlington Hall quintet, a group of Signal Corp boys, stationed over by Fort Myer.

The soldiers presented a deliberate, two out, three in offense that really clicked, a center in the form of DeMonge who more than held his own with Hands Davis and George Funk, the local rebounders.

Give and go tactics employed by Cornell Brothers and Ronnie DeVice offset the floor game of the visitors with Tommy garnering in 34, Big George and Ron 13 each, and Hands Davis busting into the scoring column with 6 markers.

Stinski with his side sets and De Monge with terrific rebounding looked well for the boys from over in Virginia.

NNMC Varsity Bowlers Holding Down 4th Spot

The highlight of the varsity bowling matches was the game with Naval Radio Station at Cheltenham when the NNMC Varsity took two of the three to take the series by a one pin lead in the third game.

The varsity is in fourth place with a 22-17 record. If they take the number two team, Naval Recruiting Station, at Anacostia tonight, NNMC will probably take possession of the number three slot.

Anacostia RecSta Receives Lesson

NNMC, 81—Naval Receiving Station, 67

The Receiving Station Gymnasium just across the Anacostia River from the Naval Gun Factory has often been the scene of a bitterly fought contest when the Wisconsin Avenue suburbanites tangled with the "downtowners." Sans O'Brien, a shifty NRS forward, didn't present too tough a team to the boys who had just returned from the Fort Meade basketball school. Ace Lunch a newcomer to the squad started hitting with his hook shots from off the key, while George Funk and Hands Davis, the latter responding to daily physiotherapy treatments, hammered the hoop for 18 and 6. Amburgy, a driving forward, and Glover, a guard who could hit off the key, looked good for the host club.

Lab Topples X-Ray From Unbeaten List

Lab School blossomed out as a brilliant sharpshooter in Gymnasium as they easily tumbled X-Ray School from the unbeaten class with a decisive 40 to 23 win. In their next outing they took on the league leading Dental Dukes and at the end of the first half, it appeared the leaders were in for a real bouncing as they trailed by a 24 to 13 count.

Durham and Carter started battling in the third canto and the margin was shaved to 28-22 as the third period ended. Durham came through with all his "know how" in the final chapter as he pounded the netting for 12 points and the win, making the fifth straight win for the Dukes. Gutekunst led the losers as he scored 20, which gave him a two-game total of 44.

The speed and youth of X-Ray School finally took toll of NSHA and the winners continued in second place, one game removed from the leaders. NSHA went wild in the first half with Bennett, Fast and Bramer hitting from all angles as they built up a 22 to 18 bulge. In the second half, the youngsters continued their fast-breaking style and the pace soon wearied the MAT's. Swanhart, Adams and Boyd countered 17 replies to NSHA's 8 in the final period as they sneaked through with the one-point edge.

N.P. set the high for the season as they rolled up 83 points in sending Research away with their 5th straight setback.

"I want to buy a bottle of whiskey."

"Can't do it. We sell liquor only for medicinal purposes."

"That's what I want it for. This place gives me a pain."

"Should a mother of 40 get married again?"

"No. That's enough children for any woman."

"It's amazing what you can do with these ozalid machines, Captain."

"I'd like to recommend myself!"

JANUARY 28, 1952

Coach's Corner

The Maryland Golf Association is composed of 38 member clubs, located within the confines of the State. Functions of the organization consist, in part, of popularizing golf, the lifeblood of all golf clubs, development and standardization of a uniform handicap system for the State, and providing all members of member clubs with official handicaps (without a State handicap you are "persona non grata" at any tournament within the State or out-of-State) and the promotion of all major and minor tournaments in the State. For any golf club to have standing in the community, membership in a parent group is mandatory and so now we are number 38 on the list, the youngest group within the State body, the third oldest State Association.

The advantages of membership to the Center are: prestige for the playing professional among the professionals of the Mid-Atlantic area, member's privilege of entering any State tournament, a vote on any motions floated at the State meetings, recourse to the fund of knowledge built up through the years by the greenskeepers of member clubs, available tournament "know how", intracub team matches, and the scheduling of Pro-Am matches at the Center.

Last week I attended the first meeting of the year, a dinner affair at the Lord Baltimore Hotel... sandwiched in between two millionaire representatives of swank suburban clubs, the kind of club where you've six-foot towels, a highball greeting you upon entrance to the locker room... for a minute I thought I was in private practice... Main subject floated during the evening was the question of handicapping... of the thankless jobs that could possibly be thrust upon an individual any membership, that of handicap chairman is it.

We have had our troubles, here on the local campus, beseeching individuals to drop their score cards in the golf shop upon completion of play's round. At some of the clubs the caddy does not receive payment until he deposits the score card. Other clubs cope with the problem by allowing the member to compete in the weekly club events. The action of scoring for members who on occasion "pick up" on a hole ought to light the adoption of the following. To more nearly equalize number competing in each class, the following classification will be used in Amateur sweepstakes: Class A, handicap 0-12; Class B, handicap 13-22; Class C, handicap 23-36. Score of 2 more than par on the score card on any hole for Classes A and B, 3 more than par on any hole for Class C will be used in cases where a player picks up.

This stroke adjustment plan is used to PREVENT the loss of 18 holes for handicap purposes ONLY. Classes A and B will be allowed to exceed 2 strokes more than par on any one hole for handicap purposes, and Class C will be allowed not to exceed 3 strokes on any one hole for handicap purposes. A 2-stroke penalty will apply to all members who habitually fail or refuse to turn in all their scores on 18 holes.

How often do we hear this first tee argument? "My handicap is so low but it does not mean a thing." This may be a slight exaggeration, the golf committee believes that the following will prove that it is far removed from the actual facts in many cases. The old system of handicap determination is unscientific, inaccurate and obsolete. It has, therefore, been discarded and relegated to the scrap heap by the Maryland State Golf Association for the following reasons:

1. The old par system of handicap determination which provides 30% of the difference between the average of five lowest scores and of the course creates the handicap... does not reflect one's ability.
 2. The par system of rating courses on length alone, without any adjusting factor to correct par inequalities, is an unsound basis of handicap determination.
 3. The par system provides no method of correcting unwarranted handicap discrepancies between players of the various Maryland clubs. To illustrate this point, attention is called to the fact that a course of 60 yards and another of approximately 8,000 may both have a par of 70. A very long, difficult course may have a par of 69, and a short, easy course, a par of 63. It is obvious at this point, that handicap determination should be unrelated to par. Under the old system a competitor is unjustly obliged to give strokes when he should receive them.
- The handicapping system for the State of Maryland will be based on the following procedure: Starting with rating courses according to difficulty posed a problem that for a minute was a bit touchy, as individuals thought their own particular course more difficult than neighbor's. It was resolved that a picked group of professionals appointed by the leading amateurs of the area would rate the courses 70 for the least difficult to 73 for the most difficult.

The individual's handicap is determined by using 80% of the difference between the average of the last ten scores and the course rating. Let us consider the following example: If the average of the last ten scores is 91 on the most difficult course, rating 73, the handicap is 14. If the other hand the average is 91 on the least difficult course, rating 70, the handicap is 17. It is obvious that a player averaging 91 on the most difficult course should have a higher handicap than one able to average 91 on the more difficult course. If the player of the least difficult course was of equal ability to the player of the more difficult, the handicap would be 86 and a handicap of 14, assuming of course that the scores have been properly rated.

Now, if you have been patient enough to bear with the foregoing, properly ask at this moment, "What is the course rating, here at the Center?" Honestly, we have none at this writing but we will arrange to have George Diefenbaugh, Bobby Brownell, Ralph Bogart and Cox out to survey the local layout, and establish the figure inasmuch as the aforementioned individuals are on the Washington survey. All this do-it-yourself sorta makes you feel like taking a trip to the fairways. Going to replace the three boards approaching the hole on number one with a dirt and sod fill; will dress up the course as well as make it more comfortable for the boys who drag their

During past basketball seasons, the teams visiting Bethesda carried a cash in the jeans of the Coach so that they could have a hot meal at the local Hot Shoppe in lieu of the sandwiches provided at the Center. Well, that's all done away with now. As you know, the Center is a function of Captain Bart Hogan's command and under the skipper's "modus operandi" is a trio of hardworking men: LT Bonnell, CWO J. G. DiCarlo and Chief Hollis "Torchy" Murphy are now providing hot meals for the Varsity quintets and visiting squads... a smooth working organization who have earned the thanks of the fans and hometowners alike for the swell treatment accorded the

SPORT FLASHES

The Admirals came out on the short end of an 80-73 clash with the visiting Ft. Myer Colonials Tuesday night in the NNMC gym. DeVice was high man with 21 counters while Brothers took care of 20.

The Admiralettes dropped their first 1952 basketball game to the Patuxent Waves 42-31 last Wednesday night at Patuxent. Allen was high scorer, sinking 14 points.

Ruby Salloum rolled 184 last Wednesday night to set the highest individual game score made this season by the local Waves as they made a clean sweep of all points against the visiting Walter Reed team.

6'-3" Ft. Meade Team Takes NNMC 78-50

Fort Meade (MRTC) 78-NNMC 50

The Center quintet journeyed to Fort Meade to attend a basketball clinic presented by Messrs. Hillman, Turner, Novak and colleagues. Fort Meade has so many good college ball players that they floor two fine squads, one the Medical Replacement Training Center which we played and the Fort Meade Generals.

Frankly speaking I would like to see either of the two Fort Meade teams playing any of the local colleges, would be a good game with the nod going to the foot soldiers.

The team that faced the locals averaged 6' 3" and all tipped the Fairbanks at 180 lbs. or better — fast, in superb condition and court masters. The winners will be down here on February 19th. Plan now to watch a bunch of smoothies in action.

For the first time this season all hands hit the scoring column and for the first time Tommy Brothers was held to single figures. Hands Davis and Big George hit the boards well for the corpsmen.

Waves Challenge Wacs In Bowling Match Wed.

Waves Bowling Team No. 2 will challenge the North Post Ft. Myer Wacs in the NNMC bowling alleys this Wednesday night at 1800. Team No. 1 will travel to Bolling Field to meet the Wacs.

On Jan. 16, Team 1 won one out of three games from the visiting Quarters K team with Eller, Salloum, and Conaway representing NNMC.

Team No. 2 rolled three lines apiece for their averages since their scheduled game with the 8th and I Marines was cancelled.

Tillotson, one of the newest Wave bowlers, turned in a high score of 149 while Clarkson chalked up a 155.

NATC Steamrolls; NNMC Falls by 7

Patuxent 80, NNMC 73

Last season the Center trounced the Airdales on the local maple. Still smarting under their defeat, the airmen walked onto the court

Airdales take to the air, but Brothers sinks another one.

breathing fire and although they only enjoyed a halftime margin of 7 points they turned on the pressure to take home the rind by 7 digits.

Most court athletes would be very happy to hit 33 percent of their shots, but when Tommy Brothers doesn't hit for at least 75 percent that's news and therein is the answer to the Center's defeat.

Ron DeVice hooked and drove for 17, Big George rapped the twine for 14, Hands Davis, looking better in every game, hit for 6, BUT Cornell only took 27 markers for his evening's contribution to the Center effort. As Tommy goes, so go the locals.

Ratay of the fly-flys looked good working over the key with his follow-ups. Kahle caused the bottom of the net to leap with his long midcourt archers and Markis broke fast on offense to lead the visitors in their scoring efforts.

Half-time score: NAS 43, NNMC 36

Join the Exclusive Twenty

The lack of booing or catcalls in the gym against opponents or referees during the varsity games is admirable. Very seldom is a wrong decision or error on the part of referees or opponents greeted with anything but silence or merely minor yells. In fact, even points made by the home team are hardly greeted by overwhelming cries. It seems that it is a law of nature that to have cries, hoots, or shouts there must be people to instigate them.

This editorial is not condoning catcalls but is asking a little attendance at the games. The team makes a basket and lusty voices ring out — about twenty. The crowd jumps to its feet when an opening appears or when a spectacular play breaks — all twenty — and they are usually the same twenty at every game, the majority from NNMC Command.

Care to see a good game? Care to watch one of the best teams in PRNC in action? Stop over in the gym when the varsity is playing and watch them — you'll see basketball at its best.

Low, Short Dribble Characterizes Diggs

One of the most promising guards on the Varsity Basketball Team is Robert B. Diggs, HN, of the Hospital Command. Bob, who is from Warwick County, Va., is easily recognized on the court by his fast drives while utilizing a low, short dribble.

While in high school, Bob picked up four letters in each of his last two years. These were for tennis, basketball, football, and track. In basketball and football he played guard. While in track he ran the half-mile. He was also captain of the tennis team for two years.

Following this was Randolph-Macon College where he took pre-med, where he played varsity tennis. After two years of college, Uncle Sam beckoned and Boot Camp, Corps School and Bethesda followed on the agenda.

Bob expects to finish pre-med in the service and, upon graduation, enter med school. After graduation, he intends to re-enter the service as a doctor.

Robert B. Diggs

Upper Four Teams Close Differences

On Jan. 17, Research, the 11th place intramural bowling team, took the CPOs, the number one team. Pacing the researchites were Van Belios and Nordquist. The victory put four teams in position for the first place standing now held by the CPOs. At the present time the number one and number four teams are only separated by a six-game difference.

The top four teams of the Intramural League, as of Jan. 18, are:

Team	W	L	Pct.
CPOs	22	6	.786
NH	21	7	.750
Dental Interns	20	7	.741
Dental Post-Grads	19	9	.579

Miss Florence M. Raye (shown above) and Mr. J. A. Dixon, representatives from the Chicago offices of A. B. Dick Co., presented a lecture and demonstration on Modern Mimeographing Techniques to MAT 4 students of NSHA and personnel from the various commands Jan. 14.

Dental Explorer

by C. Connor

CONGRATULATIONS to Dr. and Mrs. Millard on their latest addition: and it was just what the Dr. ordered too, a bouncing baby boy.

Looks as if the old adage was very true in the case of our newly weds, namely Thomas and his wife. Those chocolate chip cookies will do it every time. The very best of luck to both of you throughout your married life.

The DENTAL DUKES sure have been whipping up a storm on the courts lately, looks as if they might get to play in Madison Garden yet. If they sink many more baskets they'll have to take the GYM to a drydock.

This seems as good an opportunity as any to say "Welcome Aboard" to all our PG's and other newcomers to NDS, we even have a celebrity among our PG's old "Lefty Frizzell" himself. Not the one you think though, this one specializes in teeth, the other in the latest tunes on the hillbilly hit parade.

Well it's all over but the waiting now for all of us who went up for advancement in rating, now comes the "sweating it out period," ?...

Miss Reynolds will soon be back with us again after her visit home. I bet she'll appreciate this weather here after plowing through snow drifts up to her ears way off in Illinois. We'll all be glad to see her again, especially Dr. Grady who refers to her as his right arm.

Wherley has taken to marking off the days on his calendar lately. Cheer up Mr. W., it won't be long now before you can really can make all your pipe dreams materialize.

It looks like Dr. Moore is striking for ulcers the way he's been dashing around Bldg. 1, these days. No one has ever made more speed running up and down stairs in the last century like he has. Seems as if you're standing still whenever he passes you in the passageway at about 50 to nothing. . . .

Have you noticed that gleam in West's eyes lately? He couldn't have a better excuse, guess what?

Well that's it for now, till next time, smooth sailing to all hands from THE GAL. FROM THE HUB.

EXPOSITION—That's what pretty Perry Sheeham is supposed to be advertising. That composite wheel with which she's posing is the official insignia for the World Transportation Fair to be held at Santa Anita, Calif.

Ward 6-B's Nurse Likes Duty Here

"She efficient, and she certainly works hard." That's what one of the patient's on Ward 6-B had to say about his A. M. nurse.

He was speaking of Lt. Ruth M. Rotzler, NC, USNR, A.M. nurse on the Urological Ward 6-B. Miss Rotzler has been at NNMCM since she was recalled to active service last year.

Before being released in 1946, Miss Rotzler saw duty at USNH Philadelphia and USNH New Orleans. During the intervening time as a civilian, she served as Public School Nurse in Ben Avon, near Pittsburgh, Pa.

Born in New Brighton, Pa. (also near Pittsburgh) Miss Rotzler graduated from the Western Pennsylvania Hospital School of Nursing at Pittsburgh, remaining there an additional year as a member of the staff. She obtained her degree in nursing from the Carnegie Institute of Technology.

LT Ruth M. Rotzler

The young nurse volunteered for the Navy in 1944 while the War was still in progress and was commissioned an ensign in the reserves.

It was while on duty in SOQ in Philadelphia that she took care of CDR L'Herminier, the French submarine commander, who had received the Croix de Guerre from General DeGaulle. With both legs amputated, the war hero had come to Philadelphia for special plastic surgery work. Miss Rotzler enjoyed listening to his tales of submarine warfare.

Now in her spare time, the friendly lieutenant likes to play tennis, swim, or go horseback riding. Singing rates high with her too, but "only for my own pleasure," she quickly adds. She took voice lessons for two years and used to sing in the choir of her church, where she also taught Sunday School.

On duty at Bethesda for 13 months now, Miss Rotzler commented, "I enjoy duty here because of the many associations with people who are up-to-date in medicine."

SA: "I see you've grown a mustache. Must have trouble eating soup now."

Salt: "Yeah, quite a strain."

Allen B. Green

Green Has His Day In Lost Colony Play

If you want to see Allen B. Green, HM2, who is known as A.B., a typist in Radiosotope, in his favorite pastime, go to the Washington Cathedral, Apr. 6 at 8:00. You will be able to hear him sing the Cathedral Choral Society's "St. Matthew Passion" by Bach.

This group, under the direction of Paul Callaway, also sings with the National Symphony at the Water Gate and Constitution Hall. Green's favorite hobby, for most of his life, has been singing. In high school, at Fairfax, Va., he was with the choral group for four years where he also played clarinet with the band.

Between his two hitchhikes in the Navy, he went to Westminster Choir College at Princeton University where he majored in voice and conducting. In the summer of 1949 he was a member of the cast of "Lost Colony" at Manteo, N.C., a symphonic drama, which was written by Paul Green, who also wrote "Faith of Our Fathers," which was here in Washington last year.

A. B. is also a soloist and member of the choir with the Calvary Baptist Church.

In his working hours, either the Navy or the government has laid claim to him. After high school, he worked for the War Department as a clerk-typist until, in 1943, he joined the Navy and after Bainbridge and Bethesda, had duty with Fleet Hospital #116—a 1500 bed mobile hospital—where he worked in Property and Accounting.

After his discharge in 1945, he worked with the War Assets Administration as claims clerk until he went to Westminster Choir College. In the summer of 1948, he was a singing and acting member of the cast of *Lost Colony*. After leaving school, he worked for Housing and Home Finance Agency as audit clerk until he was recalled and sent to Bethesda where he began, and still works, as typist and clerk in the Radiosotope laboratory.

It happened on a street corner. Irate Lady: "Officer, stop that sailor. He tried to kiss me." S. P.: "Take it easy, lady. There'll be another one along in a minute."

NMRI

T. I. Receives Three As Three Report in

by R. Conaway

A sight to behold was H. W. Schildwachter and R. W. Zimmerman trying to assume a look of sadness as they made the rounds with their check-out sheet prior to release to inactive duty. Ken Johnson just grasped his Discharge Certificate more firmly and waved goodbye to all his shipmates.

Off to the NavRecSta, T. I., San Francisco, go C. Franer and F. M. Spofford while R. A. Prevary leaves for duty aboard the USS *Olmstead*.

From Com 4 to join the staff at NMRI comes ENS G. S. Brosky, and from NMS, NNMCM, E. A. Harvey and H. E. Sloane.

Frank Sanchez, formerly of the MAA Force, dropped in for a visit last week but was quite disappointed to find so many of his former shipmates missing from the muster sheet.

I do believe that Research has W. C. Hoover from ECG beat for size in the person of B. D. Shepard who stands a mere five feet tall (or small).

The next time Van Belois heads for a Staff Dance, I bet he'll stay there and not make any unnecessary (?) trips to Bethesda. They say that the trip cost him the price of a window and a new tire. The sad part about it all was that he didn't even get to dance!

Rumors are circulating that Dr. Wheatecroft is especially partial to "rosebuds." What say Doc? Then there was a time when the entire Research Dental Division tried to find out why the girls in the Stenographic Pool always referred to Dr. English as "G. B."

Wonder who will be taking over the "watch" on the 7th tee now that Boz Zimmerman is on his way to civilian life. I hear it is a very interesting one!

Will sign off now—until next time.

Panhandler (to passer-by): "Say, will you let me have \$100 to buy myself a dinner?"

Passer-by: "One hundred dollars?"

Panhandler: "Yes, I'm putting all my begs in one askit."

FEBRUARY 11, 1952

NATIONAL NAVAL MEDICAL CENTER, BETHESDA, MD.

OL. 8, NO. 3

Dr. Bender tries his new apparatus out on Margaret Posipanka, NM2, a student in Radio Isotope school.

New Isotope Apparatus Halves the Time the Examination for Cranial Tumors

Something new is being used in the radioactive isotope lab in Ward 10 and from all reports promises to be an important aid to medical diagnoses. One of the tasks of this lab is to localize and diagnose brain tumors. The standard procedure runs like this: a small amount of radioactive substance is intravenously injected into the patient.

Since diseased tissue picks up more of this substance than normal, with the use of a Geiger-Müller tube, readings can be taken from different locations on the head, and an analysis of the readings is used to localize the position of any tumor.

Dr. Merrill A. Bender, Assistant Chief of the lab, designed the plan for using two tubes simultaneously, one on each side of the head. He believed this would greatly increase the accuracy for this type of study as well as speed up the process.

If no diseased tissue exists, the readings would be the same. When a tumor is present, the difference in the two readings should immediately locate the diseased tissue.

Dr. Bender took his idea to Mr. George Hantzmon, NNMC's Head Electrician. Mr. Hantzmon and Mr. George Kleinfien took it from there and built an elaborate metal stand to hold two of the original Geiger-Müller tubes, enabling the lab to use two tubes for the simultaneous reading.

In January 21 the lab began using normal results established before 26 counts were taken (13 on each side), the new apparatus cuts the number in half. A complete survey can be done in 45 minutes instead of an hour and a half.

Recently Dr. Bender discovered that Northwestern University had previously developed a similar apparatus applying the same principles. They had a machine constructed which cost \$15,000. Dr. Bender's cost less than \$100.

Doctor Awarded Soldier's Medal

CDR Robert A. Conard, MC, USN, of the Biochemistry Dept., NMRI, was awarded the Soldier's Medal by the President of the United States for distinguishing himself by an act of heroism at Eniwetok Atoll, Marshall Islands, on Mar. 27, 1951. The award was presented by RADM W. J. C. Agnew, CO, NNMC.

An L-13 aircraft approaching Japtan Island, for a routine air drop, struck several palm trees and crashed, immediately bursting

CDR Robert Conard

into flame. Dr. Conard, realizing the danger involved in approaching a burning aircraft, with complete disregard for his own safety, rushed to the aircraft and, with the assistance of two companions, removed the pilot from the wreckage.

Chief Tucker Wins Bronze Star Medal For Korean Action

Chief Charles A. Tucker of NSHA's MAT-4 Class was awarded the Bronze Star Medal for heroic achievement while serving with a Marine infantry company in Korea Mar. 3, 1951.

The award was presented by RADM W. J. C. Agnew on Jan. 21.

Serving as senior corpsman with the company, Tucker displayed outstanding courage and professional skill when the company's position was attacked during hours of darkness by a large enemy force.

Immediately moving to the area under heaviest attack, he exposed himself to withering enemy automatic weapons and small arms fire to move continually through the position, treating the wounded and directing their evacuation through-

Charles A. Tucker

out the night-long attack.

Last August Tucker was advanced to HMC by authority of a battlefield promotion letter from the Chief of Naval Personnel.

The letter read in part, "The Chief of Naval Personnel is deeply gratified by Tucker's outstanding performance of duty in action and takes great pleasure in authorizing this advancement in rating."

Chief O'Keefe Plans Staff Valentine Dance

Plans are underway for an evening of fun at the Valentines Dance next Monday night, Feb. 18. Commencing at 2030, the enlisted staff and their guests will dance to the music of the swing orchestra from The Navy Band until 2330.

Chief Joseph O'Keefe, newly appointed senior member of the dance committee, has been meeting with the committee and announces that all hands should leave the kids to soak with the dishes, if necessary, to get to this one. Stag or drag, dress will be uniform, or civilian clothes with coat and tie. Refreshments will be served.

This Year's March of Dimes Drive Ends Topping Records of Last Three Years

The response to this year's appeal for the March of Dimes has been overwhelmingly successful, topping previous totals for the last three years. When the drive ended Feb. 5, a total of \$879.66 had been collected, topping last year's figure by \$378.90. Following is a breakdown of contributions:

Activity Participation	Last Year	This Year
Naval Medical Center	\$ 77.38	\$104.57
Naval Hospital	26.65	130.00
Medical School	11.61	47.32
Research Institute	2.10	105.05
Dental School	14.95	21.99
School of Hospital Administration	12.93	80.00
General Participation		
Wishing Well, main lobby	70.03	61.70
Movies	107.90	198.57
Milk Bottles (States), restaurant	177.21	130.46
Total	\$500.76	\$879.66

Winning States

1. Maryland (\$12.50)
2. Illinois (\$10.07)
3. Pennsylvania (\$6.26)

The Chairman of the March of Dimes Committee believes the marked increase is due to the hard work and thoroughness of the keymen in the individual commands.

Keymen for the commands were: NH—ENS Paul J. Sherrin, NMS—LT Joseph P. Duane, NDS—CDR David P. Dobson, NMRI—LT Ira V. King, and NSHA—CWO Richard C. Meyers Jr.

Special mention is also given to CWO Christopher of NNMC and Chief Hutchinson of NH, and Miss Joyce Magliocco, civilian, who, although not appointed as keymen, devoted their time and energy to furthering the campaign.

News Shorts From The Editor's Desk

The Trinidad Boys' Club will give a tumbling show in the main auditorium on Thursday, Feb. 21, at 1800.

The stage play "Kiss and Tell" will be presented by the Falls Church Community Theatre Inc. in the main auditorium on Tuesday, Feb. 26, at 1930.

The Veterans Administration has two offices in the hospital, both of which are under the supervision of Mrs. E. S. Sadler. The veterans record office is located in Ward 102, while the Veterans Liaison Office is in Rm. 127B, Ext. 692.

The CPO Club announces plans for a Valentine Dance Saturday night, Feb. 16. A dance band and vocalist will be on hand. On the following Saturday they plan a barn dance with a professional caller.

USO is planning to put more shows on the road during 1952 than at any time since WWII. More than 80 troupes, some of which will include the entertainment world's biggest stars, are scheduled to perform before Serv-

(Continued on Page 2, Col. 3)

New G.I. Benefits Awaiting Action

(AFPS)—The new Congressional session has many bills affecting Servicemen. Among the bills recently introduced are:

1. A bill extending educational benefits of the Serviceman's Readjustment Act of 1944 to personnel of the Armed Forces who served on or after June 27, 1950.

2. A bill amending the UMTS Act of 1951 to provide that certain members of the National Guard and other reserve components who served during WWII be released from active duty after 17 months' duty.

3. A bill giving winners of the Congressional Medal of Honor or their survivors a lifetime pension of \$100 per month.

4. A bill providing for maternity and infant care and hospital care for dependents of enlisted personnel of the Armed Forces.

5. A bill to provide for the inter-service transfer of commissioned personnel of the Army, Navy, Air Force, and Marine Corps.

6. A bill to provide additional compensation for members of the Armed Forces during periods of combat duty.

7. A bill to provide for the settlement of certain parts of Alaska by war veterans.

Lincoln's Message Still Has Meaning

Early in February, three years before the War of 1812, a man was born in Kentucky who was to play a role of such magnitude that few since have equalled it.

In this temple
As in the hearts of the people
For whom he saved the Union
The memory of Abraham Lincoln
Is enshrined forever.

shall have a new birth of freedom—and that government of the people, by the people, for the people, shall not perish from the earth."

After many different occupations and self-education, this person attained the highest post in our Government at a time when a war of words was leading to a war of arms that was to jeopardize our very way of life and democratic ideals to a degree never since reached.

Even in those troubled times Abraham Lincoln, in the short time he was in office, won the hearts of his contemporaries and gained the love of generations that followed.

The short speech that he gave at the dedication of a burial area for the dead of the Civil War still resounds through the nation as an inspiration to many. The world did "note and long remember" what he said there:

"It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion—that we here highly resolve that these dead shall not have died in vain—that this nation, under God, shall have a new birth of freedom—and that government of the people, by the people, for the people, shall not perish from the earth."

Wanderlust

Whenever I hear the lonely wail
Of a speeding train on the iron rail,
Or the owl's hoot as he takes to flight
Breaking the still of a sleeping night,
My heart responds with a heedless trust,
To the restless call of the wanderlust!

Then I must follow the crazy loon
As he hopelessly serenades the moon;
And add my song to the coyote's cry
A plaintive tune to the midnight sky.
My master beckons; demanding, unjust,
And I bow to the voice of the wanderlust.

Wandering onward, no end to the trail,
Search for the rainbow, fly with the quail.
Soar with the eagle to high alpine nest,
Follow the catamount, filled with unrest.
For such is the curse of those who must
Answer the call of the wanderlust.

Tormented, bedeviled, no place to turn,
Forever a traveler forced to sojourn
Through city and town, or down country lane,
The whole universe shall be my domain,
Till death shall overtake and turn me to dust
And I hear not the voice of the wanderlust!

—R. CONAWAY, NMRI

Need Information? Call Chief Murphy

The new president of the CPO Club is the original "Question and Answer Man" of NNMC. Whenever a discussion arises about a party or function the man eventually seen is Chief Hollis S. Murphy, HMC, a commissary MAA. Very few staff functions have been held without making use of his services.

Chief Murphy was the former chairman of the staff dance committee which is now under the direction of Chief O'Keefe and was the person who chose the decorations, procured the chow, and helped arrange for the bands and orchestras that made the dances held

HMC Hollis S. Murphy

here in the past year such a success.

While chairman, "Murph," as he is better known, put on eight dances—two of which featured the top bands of the nation (Freddie Martin and Ralph Flanagan). Many of the "old timers" around the base have said that since "Murph" took charge the attendance has been better than ever before.

As the new president of the CPO Club, he has already planned a Valentine Dance, a spaghetti dinner, and a barn dance to start off his term of office.

Singing and working as Master of Ceremonies are a few of the other attributes that the chief can muster when required. In Lowell, Mass., where the chief was born and still calls home, he sang in the choir and still sings for charity organizations, at staff parties, and in the CPO Club.

He acquired his professional standing as an M.C. at the Silver Dollar Club in Georgetown where he was the "presenting the next act" man.

The Navy first obtained the services of "Murph" in 1941 when shortly after high school he joined the Navy. During his first hitch he had duty at the old Brooklyn Naval Hospital, with Mobile Hospital No. 5, and was a member of one of the surgical teams that operated out of Guadalcanal where he made chief. He was discharged in 1946.

Recalled again in 1950, he was sent to the Navy Building in Boston and then here. Upon arrival he was detailed to the galley and upon recommendation of the officer in charge was given a Commissary Tech rating by BuMed. When he is discharged, Chief Murphy expects to return to his former job of selling sports equipment in Lowell, Mass.

News Shorts

(Continued from Page 1)

icemen this year. Troupes will be sent to units throughout the world.

The Navy has awarded a 30-million-dollar contract for converting two heavy cruisers into guided missile ships. The conversion will involve extensive modification of superstructures.

The Chaplain's Corner

by Chaplain Bronnie E. Nichols

Who is Your Master?

Before this year passes, the voters of these United States of America shall be asked to choose a President. Few days pass now that we are not reminded by newspaper, magazine, radio and television that there is a choice to be made, first between candidates within the Party, then the choice of the Party one shall support.

Experience in the past serves to remind us that the "decision" is finally determined more by the "neutrals" who never vote, than by those who actually vote. In this way, the non-voters do not evade their responsibility, but simply do not express their wishes, and "vote" by default and are therefore responsible for whatever kind of government they have, whether good or bad.

In Christian living we have many people who try to "play neutral" but Jesus said plainly, "Ye cannot serve two masters," and to make it still clearer what he meant, he says, "You cannot serve God and mammon." The word "mammon" as used by Jesus is a personification of riches and wealth, and as such "mammon" seeks and finds many worshippers.

Wealth, power and position make a strong appeal to all of us, but we all need the warning given by Rudyard Kipling many years ago to a group of university graduates. He pointed out the danger in too much concern for either wealth, power or position, for he said, "Some day you will meet a man who cares for none of these things. Then you will know how poor you are." History is filled with many examples who prove this statement and how tragic can be the life of him who makes the wrong choice.

Two Englishmen who labored and died in Africa serve to illustrate the point brought out in Kipling's statement which embodies the teachings of Jesus. Cecil Rhodes, who exploited the peoples and treasures of South Africa, amassed a great fortune and brought South Africa into the British Empire, but indirectly he caused one great war (the Boer War) and has caused strife and death even down to our present time.

David Livingstone gave his life to fight against slavery and to bring the Gospel of Christ to the benighted heathens of Africa. He died almost penniless, yet today his grave in Westminster Abbey is one of the great shrines of the world, visited by millions. In the presence of David Livingstone (who cared for none of these things), we see how poor indeed was Cecil Rhodes, even with his millions.

WHO IS YOUR MASTER?

Preaching Mission At NNMC Next Week

Plans have been completed for the Armed Forces Preaching Mission at NNMC on Feb. 18, 19, and 20 with Dr. George D. Heaton, of Charlotte N. C., as the speaker.

This is a part of the series of evangelistic missions being sponsored jointly by the General Commission on Chaplains, Washington, D. C., and the Joint Department of Evangelism of the National Council of Churches.

Dr. Heaton

Meetings are being held in almost every military installation of the Army and Navy throughout the Nation.

Meetings at NNMC will be held in the main auditorium at 2000 each day, with special group meetings and conferences to be scheduled in the mornings and afternoons, these to be announced later.

The Bethesda Conference of Churches has been invited to participate in these meetings, and they will be open to the general public.

The speaker, Dr. Heaton, is pastor of the Myers Park Baptist Church of Charlotte, N.C., and comes highly recommended. He has been an active pastor since 1929 and has served on many boards and commissions of his own denomination and of the National Council of Churches.

Chaplain H. Grady Gatlin, Senior Chaplain, NNMC, extends a cordial invitation to patients and staff—military and civilian—to attend these meetings.

Diaper Derby

Jan. 30—Lewis Bryan Gray, 8 lbs. 14½ oz., new son of James Bryan Gray, HMC, of NMRI

Feb. 3—Lois Michelle Dietch, 8 lbs., 8 oz., new daughter of Michael M. Dietch, HMI, of Bacteriology Dept., NMS.

Feb. 5—Terry Anne Rowell, 8 lbs., 1 oz., new daughter of R. Glenn Rowell, HM2, of Allergy Clinic, NH.

FEBRUARY 11, 1953

President Roosevelt planned, the shape of Bldg. is an inverted T with the tower rising to a height of 270 feet above the flat countryside, while the building has a west frontage of 362 ft. and is bounded

on the north and south by three story wings which extend from the building to a distance of about 158 ft. Left insert: Rear Admiral McIntire (now Vice Admiral retired) and Rear Admiral Rossiter take

part in the "breaking of the ground" ceremonies in 1939. Right insert: President Roosevelt makes the dedication address August 31, 1942.

NNMC Enters Second Decade This Month

This month NNMC celebrates the tenth anniversary of its commissioning. On Feb. 5, 1942 the Secretary of the Navy, The Honorable Charles Edison, officially established the medical facilities as the National Naval Medical Center.

NNMC is now under the command of RADM W. J. C. Hew, whose two-star flag flies from the flagmast in front of the main entrance. LCDR F. S. Haslam is the Administrative Officer.

NNMC comprises five additional commands: the Naval Hospital, which is the largest, CAPT B. W. Hogan, Commanding Officer, and CAPT C. H. McMillan, Executive Officer; Naval Medical School, CAPT J. L. Enyart, Commanding Officer and CAPT E. B. Coyl, Executive Officer; Naval Dental School, CAPT L. D. Mitchell Jr., Commanding Officer and CAPT A. H. Grunewald, Executive Officer; Naval Medical Research Institute, CAPT W. E. Kellum, Commanding Officer and CAPT T. L. Willmon, Executive Officer; Naval School of Hospital Administration, CDR M. Zimmerman, Commanding Officer and LCDR George Wiese, Executive Officer.

In its ten years, the Medical Center has proved itself

as the medical, diagnostic, and educational center of the Navy with numerous contributions to the medical health of the Navy and the country.

During the past ten years the Medical Center has trained thousands of hospitalmen, doctors, nurses, and technicians who carried their skills to American Servicemen all over the world, and has admitted over 190,000 patients for treatment.

Here research produced and proved the acrylic eye; proved the usefulness of bone grafts, of blood vessel grafts; did the primary work on radioactive gallium for the diagnosis of bone tumors. Here new surgery techniques were perfected; new psychiatric techniques devised; the experiments on the facsimile arm begun and finished.

The history of the present Medical Center really begins in 1937-38 when the 73rd and 75th Congress approved the building and necessary appropriations for the construction of a new medical center "in the District of Columbia, or in the immediate vicinity thereof."

More than 80 sites in the District of Columbia and adjacent Maryland and Virginia were inspected before the

present site, consisting of 248.7 acres, was chosen. The contracts for the construction of NNMC were awarded on June 15, 1939 and the ground was broken on June 29 of the same year. Actual construction was started soon after. The cornerstone was laid on Armistice Day, 1940 by President Franklin Delano Roosevelt.

The commissioning ceremonies were held on Feb. 5, 1942 and the dedication was done by President Roosevelt on August 31, 1942 which date also commemorates the 100th anniversary of the Bureau of Medicine and Surgery.

The general outline of the main building can be attributed to the late President. During a trip west, President Roosevelt had been greatly impressed by the architecture of the Nebraska State Capitol at Lincoln, which rises from an unbroken plain.

The architects had various ideas for the proposed building; President Roosevelt also had some ideas. Vice Admiral Ross T. McIntire, who was then the Surgeon General, has a framed drawing on White House stationery that is an almost perfect replica of the present lines of the main building.

Corps Classes Differ from Other Years With Pre-testing, Standards, and Units

A group of students of the Monday-Wednesday class attend a lecture.

Lower left: LT Maude A. Walton, NC, who is an instructor in nursing.

Lower right: Some audio-visual aids are used for the presentation of the material. Operating the still projector is Harry R. Roberts, HM1, who is an instructor in First Aid and Minor Surgery.

Program May Affect All Installations

On Jan. 21 a new series of classes for the instruction of hospital corpsmen (HA-HM2) was introduced under the supervision of LT T. L. Hollis, MSC, USN, by direction of CAPT B. W. Hogan, MC, CO of NH. The purpose of the course is the improvement of the quality of the service rendered by the hospital corpsman with a secondary aim of aiding the man in the advancement of rating.

The most striking difference between the present course and those of other years is the pre-testing of individuals to determine the qualifications and weaknesses that exist and to permit the student to absent himself from certain courses for which he is sufficiently qualified. Another purpose of the tests is to gauge the effectiveness of the courses.

The curriculum has been developed by examining the official requirements and by using the tests to determine where emphasis is needed. The course is planned to reduce repetition and to utilize practical experience whenever possible.

The schedule has been developed to have the student attend class twice a week for a five-week period (called a unit). Each unit is separated by a non-instruction period to permit the integration of new arrivals into the classes.

Most of the new ideas that have been used can be traced to the Hospital Corps Training Committee. This committee with LCDR G. E. Vaupel as chairman, includes representatives from all commands at NNM. The alternate chairman is LCDR C. Schearer, MSC, of NMS.

Other members of the committee are: LT T. L. Hollis, MSC, NH, the recorder; LT M. S. Walton, NC, NH; P. A. Morash, HMC, NH; H. R. Fallers, HM1, NH; LT E. C. Wilson, NNM; LT G. J. Sabbag, MSC, NMRI; CWO R. C. Meyers, Jr., HC, NSHA; C. A. McCalla, HM1, NMS and Dr. J. W. Page, Jr., Civilian Consultation, NMS.

The Committee has established a standard for recommending hospital corpsmen for advancement in rating. If a student fails in two subjects, or failing in one, does not maintain an average of 3.0 in other subjects, he will not be recommended to his CO for advancement.

Before a student is given an adverse recommendation, his case is evaluated in consultation with his Personnel Officer. If the decision is reached to submit a non-recommendation, then his case goes be-

fore the full Committee. Should that group concur in the decision, a letter of non-recommendation is sent to the student's CO.

Some of the more far reaching ideas that might affect this and other installations are:

1. The establishment of a nucleus of well trained instructors whose value will be recognized and used even after transfer from one command to another.

2. The possibility of some standard of curricula, course content and teaching methods for all the installations to permit a man transferring from one command to another to continue his instruction without loss of continuity.

3. The adoption of a uniform system for recording the progress of the individual which would be honored as evidence of his progress in all commands.

'Chow Down' on T-6; No I.D. Card Needed

"I want a teething ring, bottles too, everything—" seems to be the theme song on T-6, the children's ward.

Four times a day the corpsmen "Daddies" detailed to the ward pull up their chairs and again give the babes the works—the formula.

One of the foster fathers attached to "the home away from home" is John S. O'Connell, HA, feeding Richard J. Payne, the son of LCDR Robert C. Payne who is attached to Andrews Air Force Base.

Editors Take Five

Reprinted below is a copy of what we consider to be the most interesting letter addressed to the Editors this month. We try to maintain a policy of impartiality, and the fact that it was the only letter addressed to the Editors this month had nothing to do with the selection.

"Dear Editor:

During the past ten months I have been making a detailed study of newspapers of Naval establishments in this country (have had little else to do). I have come to the conclusion that your paper is noted for having a certain undefinable quality.

Enclosed is postage payment for the current issue. (Five cents.)

Very truly yours,"

(Signed by a former NNM Wave)

"Dear Reader:

We were very impressed with your letter. In line with our special bargain offer for February we are sending you three copies for the price of one and two-thirds which you submitted.

If you, for any reason, feel that you have not received your money's worth, let us call your attention to the fact that besides the wealth of interesting reading matter contained in the NEWS, it is also useful for wrapping old shoes for packing, bringing home the catch from fishing excursions, drying windows, and on rainy days can be improvised into a makeshift umbrella.

If you are not completely and ecstatically satisfied, just return the mullage from under the stamp and we will gladly refund five cents' worth of stone chipped from the cornerstone of the building.

Very truly yours,

The Editors".

Educational Tests Completed by 11

All hands in the services should know of the existence and use of the General Educational Development Tests, usually referred to as the GED tests.

Successful completion of these tests is recognized for in-service purposes by the Navy as the equivalent of high school graduation, completion of first year college, or completion of two years of college—depending on the level of the test passed.

Many civilian institutions and state boards of education likewise recognize successful completion of these tests. A student may in this manner gain a high school certificate of equivalency or advanced college credit.

For example, the College of General Studies, George Washington University, permits students to earn as much as 24 credit hours of advanced standing on the basis of successful completion of the College Level GED, provided the student completes six hours of university work satisfactorily.

The following men at this station have successfully completed GED tests since Dec. 1, 1951:

High School Level GED

Buesking, Vernon, HN, USN—NMS
Coffey, William, Cpl., USMC—

W-6C, NH

Cullen, John, HM1, USN—NH
Elkins, Floyd, HM3, USN—NMS

Lawson, Donald, HA—NH
McKinnon, Lonnie, HM1—NH

Peters, Joseph, Cpl.—USMC—
W-136, NH

Potes, Floyd, HM2—NMS
Wrenn, George, HM3—NMS

Educational Qualification Test
2 CX (equiv. to two yrs. college)

Barnett, Albert, HM3—NMS
Zais, Dominic, DT2—NDS

If you are interested in taking any of the GED tests, inquire at the I and E Office, Ward 102 (next to Disbursing Office).

Blood Exhibit Prepared by Blood Bank Attended by President in Washington

BuMed's exhibit, "Blood and Blood Products in Atomic Warfare" was presented at the Alert America exhibit of Civil Defense, Interdepartmental Auditorium, Washington, D.C., from Jan. 7 to 14. President Truman attended the exhibit Friday, Jan. 11. Two hundred and thirty thousand spectators viewed the exhibit which was prepared by the Blood Bank Department of the Naval Medical School.

The above picture was taken in Chicago last October when LCDR Gioconda R. Saraniro and LT Frances Spear of NMS monitored the exhibit at the Convention of Military Surgeons. Dr. Saraniro is shown explaining the exhibit to LCDR G. B. Bryan, USN, Assistant Public Information Officer, 9th Naval District. Later the colorful exhibit was shown at the Association of Blood Banks meeting at Minneapolis, Minn., and at the Naval Hospital in Chelsea, Mass.

French Scientist Studies TPI Tests

Dr. Gaston Louis Daguet, formerly an intern of St. Lazara Hospital, Paris, France, was sent to NMRI by the World Health Organization to participate in a program instituted at NMRI by Dr. Robert A. Nelson Jr. Here scientists from foreign nations are instructed in principles and performance of the Treponema Immobilization Test for syphilis.

The U. S. Navy is pioneering in the performance of this new test and is the only large medical organization in the world in which the TPI test is available for all personnel.

This work is being done in the Bacteriology Department at NMRI, but laboratories will soon be set up at the Naval Medical School here and at EDCU Laboratory, Pearl Harbor.

Dr. Daguet is a member of the International Union Against Venereal Diseases, and The League National Francaise Contre Peril Venerie. He is attached to the Department of Dermatology and Syphilology Clinic of the Faculty of Medicine, Paris University in St. Louis Hospital, and is a Fellow of the World Health Organization.

Dr. Gaston Louis Daguet, a French scientist, checks the TPI results at NMRI.

A "conference" is a group of individuals who can do nothing as individuals, but as a group can meet and decide that nothing can be done.

Dental Explorer

by C. Connor

Back from leave are Beaver (alias "Mario"), Thomas (who th the knof), Phillips (who was practicing to be a civilian again), and Dr. Millard (who is suffering from "2 o'clock feedingitis"). We're real glad to see each of you back again.

Since Valentine's Day is just around the corner, I wonder if a certain guy in 216 will send a certain gal in the same place a great big fancy one at that.

What with all these weddings that have been taking place, Monroe is getting that gleam in his eye lately, so look out females. (Is it love Monroe, or Com Rats?)

The male portion of the staff were disappointed when they learned that our latest WAVE is married. Not only that, but friend husband is also in Bldg. 1. Namely, Mr. and Mrs. Frontz. Better luck next time, boys.

Unless Dr. Hedman pins his gown over in the back we'll have to continue to call him the Dr. with the S.A. back.

Another new car has been added to the long list. Mr. Keller has come up with a new Nash. Sure wish they'd let us all in on the secret; looks like it's a sure thing.

We all miss Dick Strouth and Chuck Farthing who, as you know, are both in the hospital. Hope they will both be back with us again soon. I wonder what could have been so interesting, Chuck, to distract your attention. And Dick, we can't even pronounce your illness. In order to say it you have to sneeze it out. Next time, Dick, make it something easy like measles.

Well, till next time smooth sailing to all hands from THE GAL FROM THE HUB.

Sailor: "Yes, Ma'am; that's a man o' war."

Lady: "Indeed, and what is the little ship just in front?"

Sailor: "Oh, that's just a tug."

Lady: "Yes, of course. A tug of war. I've heard of them."

FEBRUARY 11, 1952

Admirals Fall by 14 In 2nd McNair Game

Fort McNair gained their revenge, for the plastering they took from the Centermen prior to the Xmas holidays, by lacing the locals with 14 markers at Fort Myer. The Admirals were playing without the services of George Funk, their capable rebounder, and Ronnie DeVice, of the "give and go pair" of Cornell and Ron.

Petro, picked up from the intramural league, turned in a creditable performance in his varsity appearance at center. Monteparde, a long set shot, and Newman, a good man off the key, created a nice back court attack for the winners.

"Start those 'going home' rumors again, Smith. The morale is getting low."

Funk, varsity center, goes up for another tip in the Ft. Myer game.

Ft. Myer Pulls 83 To Topple Admirals

The soldiers journeyed to the Center without their band and recording vocalist, Eddie Fisher, "Tell Me Why," and found the local hoops to their liking. Tommy O'Keefe, former Georgetown court luminary, flipped in 28 points through the orange rings followed by Cribbins and Jones who shared honors at 19 apiece.

Tommy Brothers had to leave the game in the last quarter when he hit the floor hard after falling off a layup. Without Cornell, there is no attack and the locals lost a close one, which was undecided till the last few minutes.

Ronnie DeVice came through with his hooks while Funk rebounded in good style for the Hospitalmen. Lee, who is small as hoopsters go, still was able to slide in and around McFadden of Fort Myer to count up 11 markers.

Dr. Conard

(Continued from Page 1)
Dr. Conard entered the Naval Service in June 1941 and interned at the U. S. Naval Hospital, NNM. Before entering the Navy, he graduated from the University of South Carolina Medical School, Charleston, S. C.

Flyboys Grounded By NNM, 110-104

The highest scoring game in Center History took place the other evening, when Cornell and entourage entertained the flyboys from across the river. Ace Lynch rapped in six successive field goals without a miss to spur the maroon and gold to their all-time high. This was one night that the officials earned their ten spots as they were on the run from the opening whistle.

DeVice Snags 29 To Drop Marines

The Center quintet subdued their crosstown rivals, the "Typewriter Marines" (coined by Beak Polizzi, former Center athlete now serving with the 1stMedBn.), with little trouble as the bench was cleared to allow all hands to enter the act.

Cornell Brothers and Ron DeVice gave a beautiful exhibition of rear court tactics, including guard crashing, as they burned the nets for 26 and 29 points. Pastorovich slipped through the local defense to hit for 18 points to pace the 782 gear boys.

Nearly 500 'Scrubs' Record of O.R. Tech

"Trustworthy, loyal, helpful..." No, this is not a recitation of excerpts from the Boy Scout Handbook but rather a few of the adjectives used by the surgeons and nurses when discussing one of the technicians who works in the Operating Room, Murry C. Sanders, HM3, USN.

Sandy, as he is better known, has worked in O.R.s continuously since he graduated from Corps School. His first duty assignment was Portsmouth Naval Hospital where, upon reporting, he was detailed to the O.R. After his introduction to this type of work, he requested O.R. School and was transferred here. He graduated from the school Oct. 16, 1949, as honorman and was retained at this command.

In his 43 months in the Operating Room, Sandy has been the instrument nurse for nearly 500 operations of which 150 were neurosurgery. He has also been the assistant to the chest surgeons and is called on to assist in the more difficult general surgery cases.

He was the instrument nurse for the first Patent Ductus performed here. This surgical procedure is similar to those performed for Blue Babies and was recorded in the Washington papers.

His date of discharge is a week from today. He intends to go to his state university—Alabama U.—for medical school and later, naturally, specialize in surgery.

Navy Belles

by George

February arrived at our house with Valentine and Leap Year news way ahead.

The new brides-to-be list is made up of Joyce Reinig, Rose "Pete" Pietrangelo, and Billie Lawton. New bride Frontz arriving here with her husband (for the dental clinic) brings the number way up.

Welcome to new arrivals from corps school for duty in the hospital—Dinah St. Denis and Lorraine Link.

"Pete" has a new job working in the collecting agency and has already collected a man. What next? Kathryn Yuhas is spending some time in sick bay. Come back soon; I miss my neighbor.
